

## 3 LAYER PROTECTIVE FACE MASK

### DESCRIPTION

Designed for optimum performance and comfort, the Serket™ Protective Face Mask is soft, comfortable and anti-microbial. Thoughtful placement of seams, an ergonomic fit, and anatomical shape over mouth and nose enhance comfort next to skin making it easy to wear and easy to breath.

### FEATURES

Designed for optimum performance and comfort, the Serket™ Protective Face Mask is soft, comfortable and anti-microbial. Thoughtful placement of seams, an ergonomic fit, and anatomical shape over mouth and nose enhance comfort next to skin making it easy to wear and easy to breath.

100% ENGINEERED, DESIGNED,  
TESTED AND MANUFACTURED  
IN THE UNITED STATES AND IS  
BERRY COMPLIANT

- Anti-microbial: properties in accordance with AATCC 100
- Flame resistance: and no melt/no drip in accordance with ASTM-D-6413
- Moisture management: in accordance with AATCC C2C TS-017 & ASTM E 96

### ADDITIONAL FEATURES

- Three layers of fabric protection: for superior filtration
- Washable/Reusable: can be machine washed and dried

The flame resistant and moisture-management qualities are inherent to the fibers and cannot be washed out of the fabric. The silver based anti-microbial properties are tested to retain 90% efficacy, even after 50 launderings.

This Serket™ garment is 100% engineered, designed, tested and manufactured in the United States and is Berry Compliant.
