

Public Safety Vests

Public Safety Vests meet the new ANSI/ ISEA 207-2006: American National Standard for high-visibility public safety vests. Their breakaway design prevents entanglement. Easy on/off with hook and loop front closure and fully adjustable sides. Added features include mic tab, clear badge chest pocket with closure and radio chest pocket with flap closure. Made with ANSI tricot fabric and 3M™ Scotchlite® reflective tape.

Flashback Five™ Light Baton

"The Brilliance of a Lightbar - The Size of a Flashlight"

The Flashback Five's advanced LED light and reflector technology makes it the brightest and most powerful signal light available. Its 5-stage switch provides red, blue, red/blue alternating, red/blue blend and a flashlight selection. The 20 brilliant LED bulbs can be seen for up to 1 mile and provides 300 hours of continuous flashing! Can be used as a signal light, vehicle warning light (built-in magnetic mount tailcap allows placement anywhere on vehicle) or as an "on-the-scene" dash or deck light. Its weather-resistant body is made of high-impact ABS plastic and operates up to 7 hours on 4 AA batteries. Flashback Five™ also has a non-slip textured grip with a built-in belt clip and wrist strap. Measures 13¹/₂" long. *Ship. wt. 3 lbs.*

Always Be Prepared with Instant A-Frame Plastic Barricades

Heavy, rugged and very visible; excellent for crowd control and crime scene protection. I-Beam construction, available in 6' or 10' lengths, assures additional rigidity and protects the high-intensity reflective sheeting. A-frame legs come with upper and lower panels slots and can be internally ballasted with sand. Beams have precise fit into matching slots on A-frame pieces. The white color never needs painting and the entire unit won't rust or give splinters. Complete unit includes two A-frame pieces and your choice of one or two I-beams. *Ship. wt. 19 lbs.*

Fold & Roll™ Sign System

Emergency personnel face not only the hazard at the situation they are attempting to suppress, but they are also facing hazards from motorists driving through or near an emergency scene. Advanced warning signs alert motorists of hazardous conditions ahead and create a higher level of awareness. Proper training in the use and deployment of signage is essential as are general safety guidelines to be used in hazardous situations. *Ship. wt. for sign 8 lbs., sign and stand 27 lbs.*
