INTRODUCING THE NEW DARLEY ARMOR AP™ GEAR

STEP UP YOUR GAME WITH THE BEST DUPONT NOMEX®/KEVLAR® OUTER SHELL BLEND

For at least two decades, fire departments choosing outer shells made of 40% DuPont™ Nomex®/60% DuPont™ Kevlar® have been limited to stiff and uncomfortable gear...until now. Utilizing the groundbreaking Filament Twill Technology™ used in PBI Max™, the new Armor AP™ fills the needs of firefighters who prefer improved mobility, durability, and improved protection at an economical price. Armor AP™ - a 6.5 oz. outer shell with absolute performance.

ABSOLUTE PERFORMANCE

How does one achieve absolute performance utilizing the same fibers (meta-aramid, para-aramid) used Fusion™ and TenCate Advance™...and not increase the cost 25-50%? The answer lies in Filament Twill Technology™. Like PBI Max™, Armor AP™ is powered by DuPont™ Kevlar® filament in a twill weave. The result is a lighter weight outer shell (6.5 oz.) with improved comfort/flexibility, improved strength and durability, and equal to improved protection.

IMPROVED DURABILITY

Most firefighters agree longevity in turnout gear comes from better tear strength. While some companies try to spin abrasion as the most important indicator of durability, turnout gear isn’t retired from holes due to abrasion. Turnout gear is retired when it starts ripping and tearing from “wear and tear” and UV degradation. DuPont™ Kevlar® filament allows Armor AP™ to resist tearing for a longer period of time than traditional outer shells like Fusion™ and TenCate Advance™...improving durability.

IMPROVED COMFORT/FLEXIBILITY

Protection and durability are important characteristics of any outer shell...but so is comfort and flexibility. Better comfort and flexibility lead to better mobility. Better mobility can make all the difference in a life threatening situation. Firefighters wearing Fusion and TenCate Advance don’t need to sacrifice mobility any longer...Armor AP is the answer.

GROUNDBREAKING FILAMENT TWILL TECHNOLOGY™. AVAILABLE IN 3 COLORS.

Black Gold Khaki

DARLEY CHAMPION™ GEAR HEAD-TO-TOE GEAR PACKAGE
INSIDE EVERY FIREFIGHTER BEATS THE HEART OF A CHAMPION.
THOSE WITH THE PASSION TO RISE TO THE OCCASION.

Darley now offers a head-to-toe solution for your turnout gear needs at a special package price. Package includes Nomex® turnout gear coat and pants, Fire-Dex® 911™ helmet, Darley gold gauntlet gloves, Nomex® hood, Hellfire™ structural and hazmat firefighting boots, and Fire Fighter gear bag with carrying strap.

Our Champion™ gear is built to hold up in the toughest of conditions and is loaded with all the features you expect including plenty of large pockets and clips for your tools and communication equipment, reinforced knees, double-stitched seams and comfortable overlapping collar. Your safety is most important so we’ve included bright, reflective 3M™ Scotchlite™ triple trim, a fire resistant Nomex® IIIA outer shell and Drag Rescue Device per the latest NFPA safety standard.

ARFF GLOVES

RANGER™ SERIES 6220 16” ARFF BOOTS

PREMIUM PERFORMANCE AND COST EFFECTIVENESS

The Ranger 6220 16” pull-on proximity boot is the only rubber boot on the market with proximity aircraft rescue firefighting (ARFF) capability. That means you get outstanding thermal performance in a lightweight boot! These rubber boots are engineered for unmatched protective versatility, comfort, and durability, protecting you against radiant, convective, and conductive heat, as well as hazardous liquids. As with all Honeywell Ranger rubber boots, the 6220 is backed by a robust 24-month warranty (effective from date of purchase) that provides assurance your boots will be free from defects in materials, workmanship, or design.

**FIRE-DEX® 911™ HELMET**

The 911® helmet provides solid, dependable, comfortable protection in a multitude of environments and still allows for a wide range of vision and long-use. Helmet shell is made of the lightest fiberglass composite offering superior protection against high temperature and chemical hazards. Its unique foam impact insert assembly provides even more top and side protection. Long lasting, easy-to-clean, high-gloss, flame-retardant finish resists scratches and UV rays. Replaceable 4” PPC wrap around face shield features an easy-to-operate tension adjustment and plastic bracket to provide maximum dielectric protection. Meets NFPA 1971, 2007 Edition. Ship. wt. 5 lbs.

- Colored throughout fiberglass compression molded shell
- Fiberglass shell has superior flame and heat resistance
- Thermal impact cap is a low density injection mold
- 2 pieces that are inseparable
- 6 way overhead suspension straps allowing for a more customized helmet “ride”
- 3 piece headband with ratchet assembly for easy adjustments (6½" - 9")

**CAIRNS 660C FIBERGLASS HELMET**

Helmet shell is reinforced, high-temperature resistant molded fiberglass. Cairns’ patented shell release helps reduce the chance of neck injury by allowing the shell to release, leaving the impact cap behind for protection under severe upward impact. Beneath the shell is a high-temperature foam cap for increased thermal and impact protection. Headband features adjustable front for perfect fit between helmet and SCBA mask and 3-position rear ratchet adjustment. Other features include full brim, high-temperature edge trim, faceshield wing protectors, Nomex® chinstrap with quick-release and postman slide, Nomex® neck/ear protector and 4” Tuffshield faceshield. Helmet fronts sold separately. Meets NFPA 1971, 2013 Edition. Ship. wt. 5 lbs.

THE FIREDOME® LT™ HELMET
The FireDome® LT structural fire helmet is the result of 20 years of Bullard engineering, polymer technology and expertise. The Bullard Tough LT comes standard with the all-new and innovative, patented Quick-Attach Blade System, that permits the firefighter to simply press on or off either a blade-mounted faceshield or blade-mounted goggles in seconds. This helmet can also be enhanced with a variety of optically correct visors, goggles, and neck protectors to equip your fire department with complete head, face and neck protection to meet your specific applications. With the new compact design and lower center of gravity, the LT keeps weight evenly distributed and holds the helmet stable on the head. Meets NFPA 1971-2013 Standard. Ship. wt. 5 lbs.

SPECIFY COLOR
AW498 FireDome® LT Helmet with Faceshield $172.95
AW499 FireDome® LT Helmet with Goggles $179.95

FIREDOME® HELMETS
Fiberglass or Thermoplastic outer shell
Urethane foam impact liner provides insulation from heat, impact and penetration
Chin strap with combination adjustment
Sure-Lock® Ratchet for easy adjustment

Nylon or Nomex® energy-absorbing crown strap
Optically correct faceshield
Nomex® Ear/Neck Protector
Inner Shell

FIREDOME® FX HELMET-FIBERGLASS
Firefighters frequently exposed to chemicals and hydrocarbons appreciate the FireDome® FX with a resin-bonded fiberglass outer shell. Fiberglass helmets are more resistant to chemical attack and more stable at extreme temperatures than those made of thermoplastic. Meets NFPA 1971-2013 Standard. Ship. wt. 5 lbs.

SPECIFY COLOR
AF086 FireDome® FX Helmet with Faceshield $207.95
AS354 FireDome® FX Helmet with Goggles $214.95

FIREDOME® PX HELMET-THERMOPLASTIC
Firefighters who need a more durable helmet choose the FireDome® helmet with injection-molded thermoplastic outer shell. Constructed with a high-heat thermoplastic providing greater impact and penetration resistance than fiberglass; plus it’s more reliable with repeated heat exposures. Meets NFPA 1971-2013 Standard. Ship. wt. 5 lbs.

SPECIFY COLOR (see colors listed above)

LEATHER SHIELDS WITH PASSPORT

The shield and passport allow fire departments to know the whereabouts of their firefighters at all times. Each Passport shield comes with a removable, Velcro® center piece Passport bearing the firefighter’s name. When he takes a position, he removes the passport and places it on the engine. Shields are custom-made and non-returnable. Ship. wt. 1 lb.
A-TAC® FIREFIGHTER’S GOGGLES

Protective goggles designed to specifically protect the firefighter in structural, wildland and other emergency situations. A-Tac® firefighter’s goggles pass the NFPA 5000 5-minute heat exposure test. Features a silicone strap and body with hard coated/anti-fog inner and outer lens. Fits over prescription, safety and sunglasses. Can be removed from the helmet, without tools and worn directly on head. Includes goggle clips for both traditional and contemporary helmets. Meets NFPA and ANSI. Ship. wt 1 lb.

AM058 A-Tac® Firefighter’s Goggles $52.95

ESS INNERZONE 2™ GOGGLES

The ESS Innerzone 2™ is designed to withstand the rigors of structural collapses and other hazardous situations that demand primary eye protection, the Innerzone 2™ is fully NFPA compliant, including the 500° 5-minute NFPA oven test. NFPA 1971-2013 compliant.

> Functions well with all major structural firefighting helmet designs
> High heat-resistant mounting brackets carry a lifetime warranty and securely attach to helmet brim, no drilling required
> Patented Snap-on/Snap-off™ mounting system allows goggles to be stowed on the front or rear of a helmet
> Use on helmet alone or together with face shield or flip-downs
> 2-piece strap system made of 26mm-wide, high-memory woven Nomex®
> Frame made from high heat-resistant materials
> Full-perimeter ventilation and filtration system
> Lenses feature ESS ClearZone™ anti-fog and anti-scratch lens coating
> Lenses provide 100 UVA/UVB protection and precise optical clarity for distortion-free vision
> Lenses are highly impact resistant and exceed the impact requirements of ANSI Z87.1-2010+

AR306 Innerzone 2™ with Snap On/Off Mounts $57.95

INNERZONE 3™ WRAPAROUND STRAPS

The ESS Innerzone 3™ features a wrap-around strap system that secures to structural helmets with two Velcro® tabs. Designed to protect eyes during extrications, USAR, and other hazardous situations that demand primary eye protections. The Innerzone 3™ is fully NFPA compliant, including the 500° 5-minute NFPA oven test. NFPA 1971-2013 compliant.

> Functions well with all major structural firefighting helmet designs
> Patented Speed Clip™ strap system makes adjustment quick and easy
> 2-piece strap system made of 26mm-wide, high-memory woven Nomex®
> Frame made from high heat-resistant materials
> Full-perimeter ventilation and filtration system
> Lenses feature ESS ClearZone™ anti-fog and anti-scratch lens coating
> Lenses provide 100 UVA/UVB protection and precise optical clarity for distortion-free vision
> Lenses are highly impact resistant and exceed the impact requirements of ANSI Z87.1-2010+

BC014 Innerzone 3™ with Wraparound Straps $51.95
BL467 FirePro1971 FS Goggles $57.95

NOMEX® HEATSLEEVE™

The ESS Nomex® HeatSleeve™ helps protect the goggles from the elements when not being worn, keeping them clean, scratch free, and buffered from heat. ESS recommends this accessory for its Innerzone™ structural goggles.

BL011 Nomex® HeatSleeve™ $17.95
The Gear Keeper is a rugged, retractable gear attachment system, designed to utilize and protect gear in severe environments with maximum break strength and durability. Allows Mic to be securely extended for talking/listening, without the Mic being dislodged/dropped or the need to re-clip after use. Fully extends to 20" and retracts safely back into place. **Ship. wt. 1 lb.**

- Easily and securely attaches to turnout coat or air pack harness
- Quickly and securely attach mic with bungie adapter
- Grab your mic, use it, let it go - it's always right where you need it and up off the ground
- Nylon coated stainless steel cable
- 60 lbs. breaking strength

**Shipment weight: 1 lb.**

**AR303**  Gear Keeper Mic Retractor  $21.95

**BOURKE EYE SHIELD**

AK021  P84 Hood $35.95

CARBONKNIGHT HOOD

With a TPP rating of ~37.4, Carbon Knight hoods have the highest TPP rating on the market - that is 87% higher than the NFPA requirement of 20! Manufactured with a double layer of black thermal knit material, CarbonKnight hoods are wider than the competition, which allows for superior air circulation. CarbonKnight is a tri-blend composition with added Kevlar® for superior strength and durability. Ship. wt. 1 lb.

- TPP rating of 37.4
- Meets 18" NFPA minimum requirement

COLOR: Black
AZ246  CarbonKnight Hood $32.95

ULTRA C6 HOOD

PROTECTION...COMFORT...FUNCTION

The new carbon tri-blend Ultra C6 has been engineered to address the concerns and needs in the safety world. Its unique mix of fibers maximizes the inherent performance properties of each fiber to provide optimal protection and comfort. Enhanced comfort adds to functionality and improves performance and efficiency in the workplace. Ship. wt. 1 lb.

- One piece 100% Nomex® thread with notched shoulder
- Length: 18", face opening: 5"
- Meets or exceeds NFPA 1971-2013 Edition & is UL certified

AZ152  Nomex® Hood $19.95

DARLEY HOOD

Darley has teamed with PGI to develop a new standard in hood protection. We’ve selected Para-Tek FR™ as a proprietary Tri-Blend that leverages the benefits of three fibers, high strength Para-Aramid, Lenzing® and High Tenacity Nylon. The end result is a lightweight, breathable hood that offers exceptional flame and heat resistance.

- Provides double layer coverage of neck, upper chest, shoulders and shoulder blades
- Excellent TPP rating – 34.8 after five washings
- Improved styling for better fit and maximum coverage
- Superb flame resistance – lowest vertical char lengths of all hood fabrics
- UL classified to NFPA 1971
- Comfort and excellent moisture absorbency

BL577  Darley Hood $26.95

PROTECTIVE HOODS THAT GO ON EASY & SEAL TIGHT
MEETS NFPA STANDARDS 1971 (CURRENT EDITION)

- Meets or exceeds NFPA 1971-2013 Edition & is UL certified

COLOR: Black
BH029  Ultra C6 Hood $33.95

BEST SELLER
H41 INTERCEPTOR HOOD WITH NOMEX NANO-FLEX TECHNOLOGY

The H41 Interceptor™ Hood is made with a layer of DuPont™ Nomex® Nano Flex inside that acts as a filter to reduce firefighters’ exposure to persistent fireground carcinogens and other contaminants. We’ve used this revolutionary material sewn between two layers of knit 6.0 oz. PBI®/Lenzing (20%/80%) to provide the maximum performance for particle barrier filtration, comfort, and thermal and flashover protection.

SCIENTIFIC DATA

The H41 Interceptor™ blocks 95% of particulates at .2 micron in size or larger. For perspective, there are 25,4000 microns in one inch and a human hair is about 75-100 microns wide, so a .2 micron particulate is about 500x smaller than a strand of hair. Testing has shown that the particulates sized at less than .2 microns don’t have enough mass to make it through the double layer knit and the Nomex® Nano Flex; essentially meaning that this hood blocks 100% of particulates less than .2 microns.

CARBON X HOODS

NEW

AW017 Ultimate™ Carbon X Hood $42.95
AW115 Classic™ Carbon X Hood $33.95

HIGHEST FLAME RESISTANCE:
- 50% Higher than Nomex®
- 30% Higher than PBI

LIGHTWEIGHT YET EXCELLENT TPP:
- 20% lighter than most NFPA compliant hoods
- TPP rating of 28

NON-FLAMMABLE:
- If exposed to extreme heat or flame, fabric glows but won’t burn
- Retains a certain tenacity at temperatures exceeding 2300°F for over 90 sec.

ONE SIZE FITS ALL

WHAT’S HOT IN HOODS

- NFPA 1971 (current edition) UL Certified
- Two-piece construction, notched shoulder long bib design
- 21” overall length which is 3” longer than NFPA requires
- Longer length will ensure hoods to stay tucked into other PPE - overall smoother fit
- Universal size

**NYLON LIFE BELTS**

**MADE FOR MAXIMUM SAFETY, DURABILITY, VERSATILITY AND COMFORT**

Life Belts are made with nylon especially woven to meet rigorous strength, texture and durability requirements. Webbing has a minimum breaking strength of 9,000 pounds. Assembled belt will withstand 2,000 pounds. The 3” wide buckle strap, sewn with high-tenacity nylon thread and riveted with copper rivets to the 5” wide body strap, is fitted with a double tongue buckle, which enables fast engagement and release of belt.

**ESCAPE BELTS**

First Kevlar® fire Escape Belt certified to NFPA Class I personal escape harness standards. Waist belt of harness utilizes quick connect “Double Locking” snap hook and D- ring adjuster system. Forged D-ring used for main attachment point has a minimum breaking strength of 5000 lbs., epoxy coated red. Truck/escape belt is constructed of 9000 lbs. DuPont Kevlar® webbing. Kevlar® webbing is coated with a special process to reduce wear and abrasion. Belt is constructed with two layers of webbing to increase stiffness while carrying tools. Contrasting color Kevlar® thread is used to aid in visual inspection. Pad under waist buckle made of black Nomex® material. Belt comes with two additional light weight D-rings that can be adjusted on the rear of the belt to affix a Personal Escape Rope Pack. NFPA (1983/2012 Edition) Certified.  

**Ship wt. 2 lbs.**

- **AZ102**: Escape belt nylon holster can be used for carrying fire axe or halligan tool

**PAC MULE ULTRA LADDER BELT**

**THE ULTIMATE HANDS-FREE TRUCKMAN’S BELT DESIGNED BY FIREFIGHTERS**

These lightweight belts provide 4” of Coolmax back padding for wraparound support and keep SCBA from hitting your spine. Carry tools and equipment in any situation without slipping or tangling. D-rings Velcro® up and out of the way when not being used. Belt is made from 3M Scotchlite, flame-resistant, highly reflective material. Adjusts easily to fit over your turnout gear. Features rear carabiner slots, a carabiner and an 18” lanyard. BK122 has the same features as AZ241 with added capabilities of making a ladder belt into a Class II harness by attaching the leg straps. Exceeds NFPA for escape belts. Color coded by size for quick identification.  

**Ship. wt. 2 lbs.**

**LEATHER TRUCKMAN’S BELT**

The traditional firefighter’s Truckman’s belt now has an improved design; use it for just about anything. Constructed of top-grain leather, measures 1½” wide and is fully adjustable. Includes heavy-duty snap hook and 2 heavy-duty rings. Folds are riveted as well as stitched for durability. All hardware is chrome plated brass. Optional equipment hook and ring are easily added with secure screw rivets.  

**Ship. wt. 3 lbs.**

- AR309 Equipment Ring $9.95
LADDER HOOK EXTENSION

Ladder Hook Extension allows the rescuer to attach themselves to a ladder rung or tower platform. Overall length of 18” provides the perfect length to give the rescuer both comfort and safety. NFPA requirements mandate a maximum overall length of 18". Easy-to-operate double locking snap hooks are located at each end of the strap. The XL hook on one end will open to 2.5” to accommodate any ladder rung. The small end of the Ladder Hook Extension attaches to the D-ring constructed of Kevlar® webbing. Available with steel or aluminum alloy hooks. Strength: 5,000 lbs. Ship wt. 2 lbs.

BG507
Bunker Belt®

CUSTOM ACCOUNTABILITY TAGS

Be sure all firefighters are accounted for! Heavy-duty trigger snap attaches to turnout gear and is easily opened while wearing gloves. Guaranteed against breakage for 10 years. Inscribed up to 3 lines, 13-22 characters per line. Yellow and white tags inscribed with black lettering, all other colors feature white lettering. Dimensions: 3½” x 2½”. Ship wt. 1 lb.
