HALOTRON™ I CLEAN AGENT FOR A, B & C FIRES

Halotron™ I clean fire extinguishing agent discharges as a rapidly evaporating liquid, which is non-conductive, non-corrosive, and leaves behind no residue. Determined to be the most environmentally beneficial halocarbon agent on the market that meets wide performance standards. The primary raw material in the agent is HCFC-123, which has an outstanding profile of near-zero ozone depleting potential (0.0098, CFC-11=1.0) and a low global warming potential (77, 100 yr. CO2 time horizon). Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ISO-14001 certified. UL listed.

- 6-year manufacturer’s warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction
- Temperature range -40°F to 120°F

ABC DRY CHEMICAL EXTINGUISHERS

ABC or Multi-Purpose extinguishers utilize a specially fluidized and siliconized mono ammonium phosphate dry chemical. It chemically insulates Class A fires by melting at approximately 350°F and coats surface to which it is applied. It smothers and breaks the chain reaction of Class B fires and will not conduct electricity back to the operator. Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ISO-14001 certified. UL listed.

- 6-year manufacturer’s warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction

**PEERLESS PUMP TYPE WATER EXTINGUISHERS**

Rated 2A, Peerless Pump Type Water Extinguisher can be filled while in use and are simple-to-operate. You can test it without loss of water by directing the stream back into the tank. The operator controls the discharge. Moving parts made of corrosion-resistant brass and copper. Immediate operation; no priming needed.

**WATER EXTINGUISHERS**

- 5-year manufacturer’s warranty
- Stored pressure design
- Polished stainless steel cylinders
- All metal valve construction
- Temperature range -65°F to 120°F
- Exclusive crevice-free, butt-welded cylinders
- Maximum visibility during discharge
- Large loop stainless steel pull pin
- Bar coded and bi-lingual labels

**CARBON DIOXIDE EXTINGUISHERS**

Carbon dioxide is discharged as a white cloud of “snow” which smothers a fire by eliminating oxygen. It is effective for Class B flammable liquids and is electrically non-conductive. Carbon Dioxide is a clean, non-contaminating, odorless gas. Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ISO-14001 certified. UL listed.

- 5-year warranty
- All metal valve construction
- Rust-free aluminum cylinders
- Durable high gloss polyester powder paint
- Temperature range -22°F to 120°F
- Large loop stainless steel pull pin
- Bar coded and bi-lingual labels
- Meets many hospital medical equipment requirements

**10 LB DRY CHEMICAL FIRE EXTINGUISHERS**

**BEAUTIFUL AND RUGGED**

The Oval fire extinguisher features a beautiful unique design, while concurrently offering state of the art functionality

**ADA FRIENDLY**

Unlike our competition, the Oval Fire Extinguisher is always compliant with the ADA requirements for protruding objects when installed in accordance with NFPA 10. Also complies with the protruding object requirements as listed in AODA, ANSI A117.1 and ISO 21542.

**EXTINGUISHER CHEMICAL REFILL**

90% OR MORE ACTIVE FIREFIGHTING AGENTS

Made to recharge your fire extinguisher. Manufactured to rigid quality specifications to assure high-performance and superior flow characteristics. Ship wt. 50 lbs.

UNIVERSAL VEHICLE CHEMICAL EXTINGUISHER BRACKETS

Universal brackets have a heavy-duty steel back with weather and scratch-resistant polyurethane enamel paint finish. Large rubber grommets on bracket back cushion cylinder while strong securing cords keep the cylinder in place. Securing cords easily attach for either left or right hand closings and are impervious to extreme temperatures. There are no moving metal parts to break, loosen or wear out and the bracket is adjustable to several cylinder sizes. *Ship. wt. 3 lbs.*

PROFESSIONAL IR THERMOMETERS

The Professional IR Thermometers are a heavy-duty IR dual-laser thermometer with advanced temperature processing, high resolution optics and built-in LED Flashlight. Advanced system-on-chip engineering is the key ingredient of the series of long range infrared thermometers.

- Dual laser sighting
- Hi/low alarm
- MAX, MIN, DIF and AVG temp. settings
- Distance/Spot: 50:1
- Accuracy +/- 2%
- Temperature Range: -76° to 1832° (-60° to 1000°C)
- High intensity white LED flashlight
- High and Low audible temperature alarms

TYPE I SAFETY CANS
EASY-TO-FILL AND EASY-TO-USE, AND THE ECONOMICAL CHOICE FOR FLAMMABLES

Compliant Type I Safety Cans are designed with a single spout to filling and pouring. The self-closing, leakproof lid controls vapors and provides security from spills and leaks.

- Fully compliant - meets OSHA and NFPA Code 30
- Premium 24-gauge coated steel body and handle durability and chemical resistance
- Quality backed by exclusive 10-year warranty

D89802 One-Gallon Type I Safety Can $34.95
D89803 Two-Gallon Type I Safety Can $36.95
D89804 Five-Gallon Type I Safety Can $40.95

TYPE II ACCUFL ow™ TRANSFER CANS
COMBINE SAFETY WITH MAXIMUM CONVENIENCE WHEN HANDLING FLAMMABLES

Compliant Type II AccuFlow™ Safety Cans offer additional convenience with two openings: top opening with ergonomically designed life lever for easy filling, and a second opening equipped with a flexible metal hose for targeted pouring into small apertures. The ½”x9” hose also provides a safe bonding path to the receiving vessel. Patented, innovative manifold automatically vents to provide fast, precision, glug-free pouring.

AK045 One-Gallon Transfer Safety Can $82.95
AK046 Two-Gallon Transfer Safety Can $82.95
AK047 Five-Gallon Transfer Safety Can $82.95

SAFETY CAN CABINETS
CENTRAL STORAGE FOR YOUR FLAMMABLE LIQUIDS

Now you can have on-site storage for your flammables or combustibles. These cabinets offer hands-on easy access with minimal exposure plus provide central storage for your corrosive liquids. They save traveling time, minimize employee exposure and seal off your flammables when temperatures get too high. As high-quality safety storage cabinets, they’re designed to meet safety requirements in a variety of applications such as laboratories, production areas, schools, hospitals etc., wherever space for flammable and hazardous liquids is needed and at a premium.

For even more space-saving storage try the Undercounter Storage Cabinets. They mount flush with other cabinetry and feature vent openings in back wall. Ship. wt. 190 lbs.-387 lbs.

CHECK OUT THESE OUTSTANDING FEATURES:
- Double-Wall Thermal Barrier: Cabinet puts an 18-gauge, double-wall insulated air between you and your flammable liquids
- Maximum Storage/Efficiency: Reinforced shelves have built-in troughs, and leak proof wells to contain spills
- Locking Mechanism: 3-point lock with fail-safe closing mechanism
- Tri-Lingual Label: English, Spanish, and French
- Dual Vents: Vents are strategically placed with built-in flash arresters
- Leakproof Sill: Base of cabinet is a full 2” deep to contain spills
- Superior Powder Finish: Powder coat, high-gloss, paint finish resists solvents, acids and alkalies
- Adjustable Leveling Feet: Adjustable at all four cabinet corners to ensure proper alignment for tight door closure

SINGLE SENSOR GAS DETECTION SYSTEMS

The Xintex Single Sensor Gas Detection Systems are engineered for all vehicles operating on natural gas (LNG or CNG) or propane (LPG).

- Compact, integrated design incorporates the sensor and monitor in a single unit
- Provides early warning of dangerous gas levels in the cab
- Visual alarm at 20% and audible alarm at 50% of the L.E.L.
- Ideal for all CNG / LNG conversions and fleet vehicles
- Yellow “Fault” LED indicates any system issues
- In-line audible horn
- “Test and Reset” membrane touch button
- Fast, simple installation
- Low power consumption

For more information and to order, contact Darley at 800.323.0244

CG2 & MA2 SERIES
A CLEAN AGENT SYSTEM

Featuring the HFC-227ea with coverage from 25-1,500 ft³ (0.7-28.3 m³) for engine rooms, machinery spaces, and other enclosed spaces for Class B fires. Factory Mutual and USCG Approved - Clean Agents are approved by all notified bodies.

CG2 SERIES
- Automatic discharge only (@ 175°F / 79°C)
- Engine rooms up to 1,000 ft³ (28.3 m³)
- Vertical or horizontal mounting
- Heavy-duty mounting bracket
- Helm display

MA2 SERIES
- Automatic and manual discharge when used with a Fireboy manual discharge cable (sold separately)
- Engine rooms up to 1,500 ft³ (42.5 m³)
- Vertical or horizontal mounting
- Heavy-duty mounting bracket
- Helm display

For more information and to order, contact Darley at 800.323.0244

FIREBOY®-XINTEX® CMD5-MB BATTERY POWERED CO ALARM

The Xintex CMD5-MB CO alarm uses a sensor operating with a microprocessor to measure Carbon Monoxide (CO) levels. Using a “TimeWeighted Average” (TWA) process, it monitors CO concentration, temperature and time to calculate levels of Carboxyhemoglobin (COHb). COHb is the degree to which the oxygen carrying capacity of the blood is impeded by the union of carbon monoxide to the hemoglobin and is expressed as a percentage. The human body absorbs CO easier than oxygen and COHb is the ratio of absorbed carbon monoxide to oxygen in the bloodstream. The CMD5-MB alarm calculates this COHb as a function of time and determines the appropriate alarm response.

- Internal battery power - no external power required
- Electrochemical sensor
- Rapid start-up - no “burn-off” period
- More stable sensing
- Reduced false alarms
- Extremely low current draw (<4 mA)
- Modern, low profile design for inconspicuous protection
- Multiple location warning

BN630 CMD5-MB Battery Powered CO Alarm $109.95
LEXAN COMBINATION NOZZLES

1½" STRAIGHT STREAM/FOG NOZZLE
Constructed of polycarbonate and precision molded from the latest developments in the industry. Ideal for industrial and commercial installations, as well as small fire companies. Available Threads: 1½" NST, SIPT(NPSPH); Height: 4½"; Gallonage: 75 GPM. Ship. wt. 1 lb.

3/4" AND 1" COMBINATION FOG NOZZLE
Molded from polycarbonate material. Designed for booster lines, and small diameter hose. Ideal for fighting grass fires. Available Threads: 1" NST, SIPT(NPSPH) & ¾" GHT; Height: 4½"; Gallonage: 1"-22 GPM, ¾"-8 GPM. Ship. wt. 1 lb.

M767  ¾” and 1” Combination Fog Nozzle $14.95
L685  1½” Straight Stream/Fog Nozzle $13.95

ANGLE VALVES
Cast brass body. NPT Female by any standard male hose thread outlet. Ship. wt. 12 lbs.

SPECIFY MALE OUTLET
H88801  1½” Angle Valve $53.95
H88802  2½” Angle Valve $109.95

QUIKFIT SPRINKLER SHUT OFF
Simple, quick, positive shutoff for many types of sprinkler heads with openings of approximately 7/8" wide by 1" high or ¾" wide by 1½" high. Allows sprinkler heads out of fire area to be shut off. Ship. wt. 1 lb.

G423 Quikfit Sprinkler Shut Off $57.95

HOSE PIN RACK UNITS
Darley® Pin Rack Units are designed for standpipe use and are assembled and packaged before shipment. Furnished with a rough brass valve, red enamel rack and machined brass nipple, couplings and nozzle. They consist of U.L. listed and F.M. approved valve, rack hose and nozzle as follows:
1½” Assembly: Includes 1½” angle valve, hose rack, 1½” rack nipple, 1½” rack light hose, 1½” couplings, pin or rocker lugs and 1½” fog nozzle.
2½” Assembly: Includes 2½” angle valve, hose rack, 2½” rack nipple, 2½”x1½” reducer, 1½” rack light hose, 1½” couplings, pin or rocker lugs and 1½” fog nozzle.

1½” ASSEMBLY - SPECIFY THREAD TYPE  Ship. wt.  Price
T32301  1½” Assembly with 50’ of Hose  14 lbs.  $232.95
T32302  1½” Assembly with 75’ of Hose  17 lbs.  $259.95
T32303  1½” Assembly with 100’ of Hose  19 lbs.  $289.95

2½” ASSEMBLY - SPECIFY THREAD TYPE  Ship. wt.  Price
T32304  2½” Assembly with 50’ of Hose  22 lbs.  $381.95
T32305  2½” Assembly with 75’ of Hose  24 lbs.  $381.95
T32306  2½” Assembly with 100’ of Hose  25 lbs.  $391.95
CUSTOM PUMP SOLUTIONS

RESIDENTIAL NFPA 13D FIRE PUMP & PANEL PACKAGES

The StarterPaq pump series is a packaged pump system that includes a self-priming, closed coupled, end suction pump and basic manifold system meeting NFPA 13D requirements. This provides everything you need for pump based residential fire suppression systems.

MOTOR FEATURES
- SF: 1.15, single phase (1Ph)
- 2 hp: FLA 11A, 3 hp: FLA 12A
- INS. Class F
- Motor is thermally protected

SELF-TESTING SYSTEM PANEL
- Markets only dual transducer based system with brass bulkhead fittings
- Markets only panel with a “green check mark” notification on panel face indicating system is charged and ready
- NEMA 2 red enclosure
- Motor HP rated disconnect switch
- Motor contractor
- Optional web browser and email capability with a user defined IP address
  - Status of Pump Running, Test Mode Active, Test Successful, and System Fault Light can be monitored from the web and emailed
- Leak detection alarm and sensor contact (Sensor part of installation base)

FULL SERVICE PANEL
- NEMA 2 red enclosure
- Motor HP rated disconnect switch
- Integrated minimum run timer and restart time delay
- Integrated mechanical pressure switch with single adjusting dial and 10 psi fixed differential reset
- Remote start input and power on indication light
- Third party monitoring contracts
- Leak detection alarm and sensor contact (Sensor is part of installation base)
- Brass bulkhead connection for discharge pressure sensing line

HYDRANT BOOSTER
LOWER YOUR ISO SCORE

The Darley Self-Testing Hydrant Booster is your solution for consistent, reliable hydrant pressure for rural areas or any area with inadequate water pressure. Your department can be confident that you will have the water you need, when you need it.

- Production Rate: Up to 300 GPM @ 250 PSI
- Patented self-testing technology
- Mounted on a fully integrated skid unit
- Self-test is a real test based solely on the pump’s reaction and performance when a true drop in pressure is created on the discharge line
- Panel contains full web browser capability and its own IP address
- Status of pump running, test mode activation, test successful and system fault light can be monitored from the web and emailed
- Panel is a single point connection design that holds controls for both the primary pump and jockey pump, reducing installation cost
- Jockey Pump is controlled by a variable speed VFD controller that helps further reduce set up time and pump hammering, and prolongs the life of the pumps
- Also includes manual start button
- Help lower your ISO score
- Automatic operation

SELF-TESTING SYSTEM PANEL
- Markets only dual transducer based system with brass bulkhead fittings
- Markets only panel with a “green check mark” notification on panel face indicating system is charged and ready
- NEMA 2 red enclosure
- Motor HP rated disconnect switch
- Motor contractor
- Optional web browser and email capability with a user defined IP address
- Status of Pump Running, Test Mode Active, Test Successful, and System Fault Light can be monitored from the web and emailed
- Leak detection alarm and sensor contact (Sensor part of installation base)
