HALOTRON™ I CLEAN AGENT FOR A, B & C FIRES

Halotron™ I clean fire extinguishing agent discharges as a rapidly evaporating liquid, which is non-conductive, non-corrosive, and leaves behind no residue. Determined to be the most environmentally beneficial halocarbon agent on the market that meets wide performance standards. The primary raw material in the agent is HCFC-123, which has an outstanding profile of near-zero ozone depleting potential (0.0098, CFC-11=1.0) and a low global warming potential (77, 100 yr. CO2 time horizon). Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001 / ISO-14001 certified. UL listed.

- 6-year manufacturer’s warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction
- Temperature range -40°F to 120°F
- EPA approved “Clean Agent” for Class A, B and C hazards
- Low GWP (Global Warming Potential)
- Low ODP (Ozone Depletion Potential)
- Short atmospheric lifetime

ABC DRY CHEMICAL EXTINGUISHERS

ABC or Multi-Purpose extinguishers utilize a specially fluidized and siliconized mono ammonium phosphate dry chemical. It chemically insulates Class A fires by melting at approximately 350°F and coats surface to which it is applied. It smother and breaks the chain reaction of Class B fires and will not conduct electricity back to the operator. Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001 / ISO-14001 certified. UL listed.

- 6-year manufacturer’s warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction
- Temperature range -65°F to 120°F
- Easy and economical to maintain
- Large loop pull pin
- Bar coded and bi-lingual labels

PURPLE K B:C POTASSIUM BICARBONATE EXTINGUISHERS

Purple K extinguishers contain specially fluidized and siliconized potassium bicarbonate dry chemical which is particularly effective on Class B flammable liquids and pressurized gases. It is electrically non-conductive. Purple K has been the choice of oil, gas, chemical and utilities industries as the preferred fire fighting agent. Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001 / ISO-14001 certified. UL listed.

PEERLESS PUMP TYPE WATER EXTINGUISHERS

Rated 2A, Peerless Pump Type Water Extinguishers can be filled while in use and are simple-to-operate. You can test it without loss of water by directing the stream back into the tank. The operator controls the discharge. Moving parts made of corrosion-resistant brass and copper. Immediate operation; no priming needed.

CARBON DIOXIDE EXTINGUISHERS

Carbon dioxide is discharged as a white cloud of “snow” which smothers a fire by eliminating oxygen. It is effective for Class B flammable liquids and is electrically non-conductive. Carbon Dioxide is a clean, non-contaminating, odorless gas. Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ISO-14001 certified. UL listed.

- 5-year warranty
- All metal valve construction
- Rust-free aluminum cylinders
- Durable high gloss polyester powder paint
- Temperature range -22°F to 120°F
- Large loop stainless steel pull pin
- Bar coded and bi-lingual labels
- Meets many hospital medical equipment requirements

UNIVERSAL VEHICLE CHEMICAL EXTINGUISHER BRACKETS

Universal brackets have a heavy-duty steel back with weather and scratch-resistant polyurethane enamel paint finish. Large rubber grommets on bracket back cushion cylinder while strong securing cords keep the cylinder in place. Securing cords easily attach for either left or right hand closings and are impervious to extreme temperatures. There are no moving metal parts to break, loosen or wear out and the bracket is adjustable to several cylinder sizes. Ship. wt. 3 lbs.

AF869  Fits 2½ and 5 lb. Dry Chemical Extinguishers  $32.95
AF870  Fits 6 and 10 lb. Dry Chemical Extinguishers, 5 lb. CO₂ Extinguishers, 11 and 15.5 lb. Halotron 1 Extinguishers  $35.95
AF871  Fits 20 lb. Dry Chemical Extinguisher, 2½ gal. water extinguisher, 15 and 20 lb. and CO₂ Extinguishers  $49.95

HEAVY-DUTY EXTINGUISHER BRACKETS

Brackets listed below are for Amerex extinguishers, but will fit any other extinguisher with same size cylinder. If you are unsure or are in need of a bracket not listed, please call your Darley representative.

PROFESSIONAL IR THERMOMETERS

The Professional IR Thermometers are a heavy-duty IR dual-laser thermometer with advanced temperature processing, high resolution optics and built-in LED Flashlight. Advanced system-on-chip engineering is the key ingredient of the series of long range infrared thermometers.

• Dual laser sighting
• Hi/low alarm
• MAX, MIN, DIF and AVG temp. settings
• Distance/Spot: 50:1
• Accuracy +/- 2%
• Temperature Range: -76° to 1832° (-60° to 1000°C)
• High intensity white LED flashlight
• High and Low audible temperature alarms

BK248  Extra Long Range IR Thermometer  $359.95

X-TINGUISH® FST
PREVENT FLASH-OVER AND BACK-DRAFT

Flame Guard USA X-Tinguish® FST is designed for mobile total flooding fire suppression applications on land and sea. The FST is a highly effective tool for the suppression of early stage and fully developed fires; preventing flash-over and back-draft.
TYPE I SAFETY CANS
EASY-TO-FILL AND EASY-TO-USE, AND THE ECONOMICAL CHOICE FOR FLAMMABLES

Compliant Type I Safety Cans are designed with a single spout to filling and pouring. The self-closing, leakproof lid controls vapors and provides security from spills and leaks.

- Fully compliant - meets OSHA and NFPA Code 30
- Premium 24-gauge coated steel body and handle durability and chemical resistance
- Quality backed by exclusive 10-year warranty

TYPE II ACCUFLOW™ TRANSFER CANS
COMBINE SAFETY WITH MAXIMUM CONVENIENCE WHEN HANDLING FLAMMABLES

Compliant Type II AccuFlow™ Safety Cans offer additional convenience with two openings: top opening with ergonomically designed life lever for easy filling, and a second opening equipped with a flexible metal hose for targeted pouring into small apertures. The 1/4" hose also provides a safe bonding path to the receiving vessel. Patented, innovative manifold automatically vents to provide fast, precision, slug-free pouring. Ship. wt. 9 lbs.

SAFETY CAN CABINETS
CENTRAL STORAGE FOR YOUR FLAMMABLE LIQUIDS

Now you can have on-site storage for your flammables or combustibles. These cabinets offer hands-on easy access with minimal exposure plus provide central storage for your corrosive liquids. They save traveling time, minimize employee exposure and seal off your flammables when temperatures get too high. As high-quality safety storage cabinets, they’re designed to meet safety requirements in a variety of applications such as laboratories, production areas, schools, hospitals etc., wherever space for flammable and hazardous liquids is needed and at a premium. For even more space-saving storage try the Undercounter Storage Cabinets. They mount flush with other cabinetry and feature vent openings in back wall. Ship. wt. 190 lbs.-387 lbs.

CHECK OUT THESE OUTSTANDING FEATURES:
- Double-Wall Thermal Barrier: Cabinet puts an 18-gauge, double-wall insulated air between you and your flammable liquids
- Maximum Storage/Efficiency: Reinforced shelves have built-in troughs, and leak proof wells to contain spills
- Locking Mechanism: 3-point lock with fail-safe closing mechanism
- Tri-Lingual Label: English, Spanish, and French
- Dual Vents: Vents are strategically placed with built-in flash arresters
- Leakproof Sill: Base of cabinet is a full 2" deep to contain spills
- Superior Powder Finish: Powder coat, high-gloss, paint finish resists solvents, acids and alkalies
- Adjustable Leveling Feet: Adjustable at all four cabinet corners to ensure proper alignment for tight door closure

CABINETS COME IN HI-GLOSS YELLOW ONLY

SINGLE SENSOR GAS DETECTION SYSTEMS

The Xintex Single Sensor Gas Detection Systems are engineered for all vehicles operating on natural gas (LNG or CNG) or propane (LPG).

- Compact, integrated design incorporates the sensor and monitor in a single unit
- Provides early warning of dangerous gas levels in the cab
- Visual alarm at 20% and audible alarm at 50% of the L.E.L.
- Ideal for all CNG / LNG conversions and fleet vehicles
- Yellow “Fault” LED indicates any system issues
- In-line audible horn
- “Test and Reset” membrane touch button
- Fast, simple installation
- Low power consumption

For more information and to order, contact Darley at 800.323.0244

CG2 & MA2 SERIES AUTOMATIC FIRE EXTINGUISHING SYSTEMS

A CLEAN AGENT SYSTEM

Featuring the HFC-227ea with coverage from 25-1,500 ft³ (0.7-28.3 m³) for engine rooms, machinery spaces, and other enclosed spaces for Class B fires. Factory Mutual and USCG Approved - Clean Agents are approved by all notified bodies.

CG2 SERIES
- Automatic discharge only (@ 175°F / 79°C)
- Engine rooms up to 1,000 ft³ (28.3 m³)
- Vertical or horizontal mounting
- Heavy-duty mounting bracket
- Helm display

MA2 SERIES
- Automatic and manual discharge when used with a Fireboy manual discharge cable (sold separately)
- Engine rooms up to 1,500 ft³ (42.5 m³)
- Vertical or horizontal mounting
- Heavy-duty mounting bracket
- Helm display

For more information and to order, contact Darley at 800.323.0244

FIREBOY®-XINTEX® CMD5-MB BATTERY POWERED CO ALARM

The Xintex CMD5-MB CO alarm uses a sensor operating with a microprocessor to measure Carbon Monoxide (CO) levels. Using a “TimeWeighted Average” (TWA) process, it monitors CO concentration, temperature and time to calculate levels of Carboxyhemoglobin (COHb). COHb is the degree to which the oxygen carrying capacity of the blood is impeded by the union of carbon monoxide to the hemoglobin and is expressed as a percentage. The human body absorbs CO easier than oxygen and COHb is the ratio of absorbed carbon monoxide to oxygen in the bloodstream. The CMD5-MB alarm calculates this COHb as a function of time and determines the appropriate alarm response.

- Internal battery power - no external power required
- Electrochemical sensor
- Rapid start-up - no “burn-off” period
- More stable sensing
- Reduced false alarms
- Extremely low current draw (<4 mA)
- Modern, low profile design for inconspicuous protection
- Multiple location warning

Specify Color: White or Black

BN630  CMD5-MB Battery Powered CO Alarm

$109.95
FIREBOY MAE FIRE DETECTION & SUPPRESSION SYSTEM

PRE-ENGINEERED SYSTEM

The new patent-pending Fireboy MAE pre-engineered fire detection and A-C or A-B-C rated suppression system is designed to protect enclosed spaces up to 1,800 cu. ft. The easy-to-install complete kit uses 3M™ Novec™ 1230 Fire Protection Fluid and a patent-pending electric release.

FEATURES:
- Pre-engineered system
- Complete kit
- Fast installation with one technician
- No engineered or piping calculations required

PERFECT FOR USE IN:
- Server rooms
- Laboratories
- Computer rooms
- Media storage
- Clean rooms
- Textile manufacturing
- Military applications
- Historical collections
- Other enclosed spaces

SELF-TESTING HYDRANT BOOSTER
BOOST HYDRANT PRESSURE IN ANY AREA WITH INADEQUATE WATER PRESSURE

The Darley Self-Testing Hydrant Booster is your solution for consistent, reliable hydrant pressure for rural areas or any area with inadequate water pressure. Have water pressure when you need it, where you need it.

• Production Rate: Up to 300 GPM @ 250 PSI
• Patented self-testing technology
• Mounted on a fully integrated skid unit
• Self-test is a real test based solely on the pump’s reaction and performance when a true drop in pressure is created on the discharge line
• Panel contains full web browser capability and its own IP address
• Status of pump running, test mode activation, test successful and system fault light can be monitored from the web and emailed
• Panel is a single point connection design that holds controls for both the primary pump and jockey pump, reducing installation cost
• Jockey Pump is controlled by a variable speed VFD controller that helps further reduce set up time and pump hammering, and prolongs the life of the pumps
• Also includes manual start button
• Automatic operation

SELF-CONTAINED NFPA 13D SPRINKLER SYSTEM

The Just Add Water System (J.A.W.S.) is everything you need to provide pressure and flow to a residential fire sprinkler system in a self-contained package. J.A.W.S. is designed with the contractor in mind; efficient, reliable and easy-to-install. Just add water, connect to plumbing and your power source and the J.A.W.S. is ready to go.

FLEXIBLE PUMP THAT MEETS A WIDE RANGE OF PSI AND GPM REQUIREMENTS

PERFORMANCE
• 30 PSI: 20, 25, 30, 40, 45, 50, and 55 GPM
• 40 PSI: 20, 25, 30, 45, 50, and 55 GPM
• 45 PSI: 20, 25, 30, 45, 50, and 52 GPM
• 50 PSI: 20, 25, 30, 45, 50 GPM
• 55 PSI: 20, 25, 30, 40, and 43 GPM
