As an industry, we have been trained to think that you have to sacrifice thermal protective performance (TPP) in order to achieve maximum total heat loss (THL). Introducing a game changer for the fire industry, TECGEN71. Fire-Dex FXR turnouts are specifically designed to minimize firefighter stress and fatigue through Active Posture Design™, allowing for full range of motion - especially while wearing your SCBA!

**FIRE-DEX EXCLUSIVE TECGEN71 OUTER SHELL**

**THE BEST TPP/THL BALANCE IN THE HISTORY OF TURNOUT GEAR**

**ENSEMBLE FEATURES**

- Lightweight and flexible TECGEN71 outer shell
- STEDAIR® 4000 moisture barrier
- Glide Ice™ thermal liner with superior wickability
- ThermoPlastic zippers
- 3” NYC Scotchlite® lime/silver trim
- PCA reinforced cuffs

**TECGEN71 FEATURES RIP TWILL CONSTRUCTION:**
The proven strength of 60/40 Kevlar®/Nomex® on the face of the fabric, while creating a super structure of the TECGEN® fiber inside. This combination provides a lightweight solution, weighing in at 6.5 oz/yd².

**DOUBLE LOCK STITCHING**
Fire-Dex uses lock stitching on all major seams, cuffs, and reinforcements, with 4 rows of lock stitch on all reflective trim and hook & loop closure material.

**SUPERIOR POCKETS**
All Bellows Pockets are reinforced with Kevlar® for the best cut resistance. All Radio Pockets are fully lined with moisture barrier, including the pocket flap. All pocket flaps are extra long to ensure complete closure, no matter the bulk inside.

**COAT FEATURES:**
- 30” coat length
- Zipper with hook and loop closure
- Combo handwarmer/semi-bellows pockets
- Radio pocket with double notched flap
- Flashlight holder
- Mic clip above radio pocket
- Optional lettering available

**PANT FEATURES:**
- Zipper with hook and loop closure
- 2 take-up straps at waist
- Semi-bellows pockets
- Padded knees
- Deluxe H-Back padded suspenders with cam-lock

A structural firefighting outer shell designed to lessen heat stress by reducing weight and increasing flexibility. TECGEN71 features a rip twill weave that combines the proven durability of DuPont™ Kevlar®/Nomex® and the unique benefits of the TECGEN fiber. TECGEN71 is the first of its kind to address this growing health concern with innovative technology aimed at providing the perfect balance of breathability, comfort, TPP and THL, all while offering an overall reduction in composite weight.
STEP UP YOUR GAME WITH THE BEST DUPONT NOMEX®/KEVLAR® OUTER SHELL BLEND

For at least two decades, fire departments choosing outer shells made of 40% DuPont™ Nomex®/60% DuPont™ Kevlar® have been limited to stiff and uncomfortable gear...until now. Utilizing the groundbreaking Filament Twill Technology™ used in PBI Max™, the new Armor AP™ fills the needs of firefighters who prefer improved mobility, durability, and improved protection at an economical price. Armor AP™ - a 6.5 oz. outer shell with absolute performance.

ABSOLUTE PERFORMANCE

How does one achieve absolute performance utilizing the same fibers (meta-aramid, para-aramid) used in Fusion™ and TenCate Advance™...and not increase the cost 25-50%? The answer lies in Filament Twill Technology™. Like PBI Max™, Armor AP™ is powered by DuPont™ Kevlar® filament in a twill weave. The result is a lighter weight outer shell (6.5 oz.) with improved comfort/flexibility, improved strength and durability, and equal to improved protection.

IMPROVED DURABILITY

DuPont™ Kevlar® filament allows Armor AP™ to resist tearing for a longer period of time than traditional outer shells like Fusion™ and TenCate Advance™...improving durability.

IMPROVED COMFORT/FLEXIBILITY

Better comfort and flexibility lead to better mobility. Better mobility can make all the difference in a life threatening situation. Firefighters wearing Fusion and TenCate Advance don’t need to sacrifice mobility any longer...Armor AP is the answer.

RDG40 TURNOUT GEAR
DURABILITY, MOBILITY, AND PROTECTION AT A PRICE THAT FITS

Shorter front, longer back coat. Low-rise pant. Streamline design packed with a host of innovative, ergonomic features. Based on Innotex Energy Pattern.

- **Variable Height Collar™**: Low-rise front, high-rise back neck/collar configuration. US Patent 8,151,371
- **No-Gap™ Throat Flap**: Provides a NO-GAP™ thermal protection
- **Ergonomic Full Motion Noseam™ Shoulder**: Designed to follow natural arm movements for optimal mobility. Seams are placed away from high-abrasion areas
- **Retractable Action Back**: Adds length across your back. Increased mobility when reaching and stretching
- **Durahem™ Sleeve and Leg Hems**: Ultra-resistant aramid-coated piping sewn to the cuff. Protects cuffs from abrasion
- **Angled Cuff Sleeve Hem**: Increases protection for the top of the hand without compromising hand mobility
- **Offset Seam Design**: Seams are positioned away from high-abrasion areas, increasing wear life
- **Adjustable Belt**: Comes with a 2" Nomex™ belt
- **Complete Motion Crotch**: Allows greater freedom of movement and prevents twisting
- **Enhanced Mobility Knee™ (EMK™)**: Enhances mobility without tugging. Ensures that the knee protection stays securely in place.
- **No-Bulk™ Pant Closure**: Streamlined 3-layer pant closure flap
- **Reflective Piping Seams**: Increases visibility
- **Easy-to-Grip Padded Pull Tab**: Oversized and padded for easy handling with gloves

MORNING PRIDE® EDGE GEAR
ALL-AROUND MOBILITY, COMFORT AND PERFORMANCE

Morning Pride® EDGE is made for the firefighter who wants the latest technology, yet wishes to keep a traditional cut. Proven and versatile in all environments, Edge delivers the high level of performance you need to depend on.

COAT FEATURES:
• In-collar DRD™ proprietary design
• Hybrid wristlet increases comfort and dexterity
• Bar-tack reinforced stress points
• Ergonomically curved 2-piece arm design
• Full-cut body design
• Flex-back pleats
• Dead air panels
• Underarm gussets in all 3 layers
• 9”x9” full bellow coat pockets
• Uninterrupted zip-in liner

PANT FEATURES:
• Bi-flex knees
• Internal adjustable belt system
• Dyna-Fit removable suspenders
• Nomex® webbing side adjustment pull-tabs
• 10”x10” full bellow pant pocket
• Uninterrupted zip-in liner
• Angled cuffs

FEET-LED HELLFIRE™ BOOT

Hellfire™ series provides superior protection for structural and hazmat fire fighting. *Ship. wt. 6 lbs.*

- Upper: Flame-resisting, heat-resisting rubber
- Construction: Vulcanized
- Lining: 3.5 mm polyester needled felt with heel reinforcement
- Insole: Removable superknit covered polyurethane footbed
- Midsole: Stainless steel, puncture-resistant bottom plate
- Shank: Steel triple ladder shank
- Outsole: Hellfire™ traction lug
- Double reinforced pull loops and cushioned shin guard
- Light-reflecting instep and heel patches
- Abrasion-resisting rubber T-Toe
- Blood-borne pathogen compliant
- NFPA 1971 & 1992 Certified
- ASTM F2413-11 M I/75/C/75 oversized steel toe

FIRE FIGHTER GEAR BAG

- One of the biggest gear bags in the industry
- Now available with wheels
- **Overall Size:** 29”Lx16”Wx17”H
- Main Compartment: 18”Lx16”Wx17”H
- 4 additional pockets including an extra large helmet pocket
- Reflective trim along straps and on bottom
- Vented main compartment with Velcro® front closure

BK200  Fire Fighter Gear Bag with Carrying Strap
BK201  Fire Fighter Gear Bag with Wheels

JUMBO GEAR BAG

There is plenty of room in this one. It has four pockets along with the main storage area. The end pocket on the left is 8”Wx15”D x17”H, the right pocket is 3”Wx15”Dx17”H, along with two slot pockets. **The overall measurements are 33”Lx15”Wx17”H. ID window, handle wrap, and Maltese Cross. Nylon. Red with Maltese Cross. Ship. wt. 3 lbs.**

AS037  Jumbo Gear Bag

PREMIUM TURNOUT BAG WITH WHEELS

- Fully molded top, bottom and sides
- Largest zippers available
- Retractable luggage-style handle can be zipped away
- Larger and wider wheels than similar bags
- Rear and bottom are reinforced with diamond embossed waterproof neoprene
- Rubber reinforced corners and high-stress areas
- Large top flap opens the full length of the bag
- Hi-Vis lime-yellow/silver triple reflective trim
- Reflective tape stitched into all Firefighter webbing and handle
- Embroidered Maltese Cross logo, not screen printed
- Larger bag than ANY competitors
- **Dimensions:** 32”Lx18”Wx18”H

BL430  Premium Turnout Bag with Wheels

RIPSTOP 3XL TURNOUT GEAR BAG

The Lightning X Ripstop 3XL Turnout Gear Bag is made to match the look and durability of your turnout gear by using heavy duty RIPSTOP nylon in a golden/tan color variation. This fabric ensures that any punctures don’t turn into a large tear that ruins your bag. It’s large enough to hold all of your turnout gear, helmet, SCBA mask, jumpsuit and other items. The Ripstop 3XL turnout gear bag is large, rugged, reflective and looks good!

BN532  Ripstop 3XL Turnout Gear Bag
**X-LARGE TURNOUT BAG**

- Multiple pockets and compartments
- Padded shoulder strap
- Reflective stitching
- Heavy-duty zippers
- 600 denier polyester outer shell fabric
- Grab-n-go pull strap with grabber
- Overall Size: 16"Hx25"Lx15"W
- Side Pockets: 16"Hx2"Dx15"W
- Total Capacity: 7,280 cu. in.

**BOOT STYLE TURNOUT GEAR BAG**

- 2" wide nylon webbing
- 550 cubic feet larger
- Maltese Cross
- Lime triple trim
- Reinforced bottom
- Nylon strap grabber
- ID window
- Dimensions: 17"x18"x20½"

**QUAD-VENT TURNOUT GEAR BAG**

Lightning X Products has been making quality public safety bags for nearly 20 years. From time to time we get the urge to improve upon existing bag designs. The LXFB45M uses Quad-Vent Technology that features four uniquely shaped mesh vents located at each corner of the turnout gear compartment to promote cross ventilation. This keeps your gear fresh and helps prevent mildew from forming. Our competitors only offer a bag with one vent, in the rear of the bag… how is air supposed to flow through just one vent? The Quad-Vent bag is large enough to hold all of your gear, boots and helmet comfortably – without being so big that it becomes cumbersome to carry around.

- Four PVC reinforced mesh air vents front & back provide full ventilation for your gear
- Comparable bags only offer a single air vent
- Cross ventilation allows gear to dry faster
- Helps prevent the growth of mildew from storing damp turnout gear
- Adjustable padded shoulder strap with heavy-duty snap hooks

**DARLEY TURNOUT GEAR BAG**

- Available in two sizes, this bag is designed to hold your gear. Features a front outside zippered pocket to carry smaller items
- Standard bag measures 13½"L x 13"H x 24"W
- Extra large bag has 25% more room measuring 13½"L x 16"H x 24"W
- Available in choice of plain red, red with Maltese Cross or Royal Blue with Star of Life. Ship. wt. 3 lbs.

**SPECIFY COLOR:** Red, Fluorescent Yellow or Black

**BP197** Quad-Vent Turnout Gear Bag

**BL429** X-Large Turnout Bag

**BL414** Boot Style Turnout Gear Bag

LITE FORCE PLUS MODERN HELMETS

Morning Pride's very best modern helmet is the perfect choice for comfort, safe head protection. Ship. wt. 4 lbs.

- Strongest Shell on the Market - Test show that FYR-Glass is 42% more resistant to impact penetration than helmets made of fiberglass
- FYR-Glass Technology - Provides a helmet that is lighter, lower ride, more comfortable and better fitting
- High Heat Performance - No other shell finish stands up to high heat like FYR-Glass
- Low Ride, Better Fit, Low Center of Gravity - 8-point suspension and wider interior gives wearer superior comfort and fit
- More Sizes, More Adjustability - Our headband/ratchet will fit the largest range of hat sizes of any NFPA helmet on the market, plus for position depth adjustments
- Accessories - Padded adjustable ratchet system, protective Nomex® earflaps, combo adjustable chin strap, Reflexite® trim
- Meets and exceeds NFPA 1971-2007

FIRE-DEX® 911™ HELMET

The 911® helmet provides solid, dependable, comfortable protection in a multitude of environments and still allows for a wide range of vision and long-use. Helmet shell is made of the lightest fiberglass composite offering superior protection against high temperature and chemical hazards. Its unique foam impact insert assembly provides even more top and side protection. Long lasting, easy-to-clean, high-gloss, flame-retardant finish resists scratches and UV rays. Replaceable 4” PPC wrap around face shield features an easy-to-operate tension adjustment and plastic bracket to provide maximum dielectric protection. Meets current NFPA standards. Ship. wt. 5 lbs.

- Colored throughout fiberglass compression molded shell
- Fiberglass shell has superior flame and heat resistance
- Thermal impact cap is a low density injection mold
- 2 pieces that are inseparable
- 6 way overhead suspension straps allowing for a more customized helmet “ride”
- 3 piece headband with ratchet assembly for easy adjustments (6”-9”)

CAIRNS 660C FIBERGLASS HELMET

Helmet shell is reinforced, high-temperature resistant molded fiberglass. Cairns’ patented shell release helps reduce the chance of neck injury by allowing the shell to release, leaving the impact cap behind for protection under severe upward impact. Beneath the shell is a high-temperature foam cap for increased thermal and impact protection. Headband features adjustable front for perfect fit between helmet and SCBA mask and 3-position rear ratchet adjustment. Other features include full brim, high-temperature edge trim, faceshield wing protectors, Nomex® chinstrap with quick-release and postman slide, Nomex® neck/ear protector and 4” Tuffshield faceshield. Helmet fronts sold separately. Meets NFPA 1971. Ship. wt. 5 lbs.

SPECIFY COLOR: Red, Black, Yellow, White
FIREDOME® FX HELMET-FIBERGLASS

Firefighters frequently exposed to chemicals and hydrocarbons appreciate the FireDome® FX with a resin-bonded fiberglass outer shell. Fiberglass helmets are more resistant to chemical attack and more stable at extreme temperatures than those made of thermoplastic. Meets NFPA 1971 Standard. Ship. wt. 5 lbs.

SPECIFY COLOR: Red, Black, Yellow, White, Blue, Orange, Lime
AF086  FireDome® FX Helmet with Faceshield
AS354  FireDome® FX Helmet with Goggles

FIREDOME® PX HELMET- THERMOPLASTIC

Firefighters who need a more durable helmet choose the FireDome® PX helmet with injection-molded thermoplastic outer shell. Constructed with a high-heat thermoplastic providing greater impact and penetration resistance than fiberglass; plus it’s more reliable with repeated heat exposures. Meets NFPA 1971. Ship. wt. 5 lbs.

SPECIFY COLOR: Red, Black, Yellow, White, Blue, Orange, Lime
AF088  FireDome® PX Helmet with Faceshield
AS027  FireDome® PX Helmet with Goggles

THE FIREDOME® LT HELMET

The FireDome® LT structural fire helmet is the result of 20 years of Bullard engineering, polymer technology and expertise. The Bullard Tough LT comes standard with the all-new and innovative, patented Quick-Attach Blade System, that permits the firefighter to simply press on or off either a blade-mounted faceshield or blade-mounted goggles in seconds. This helmet can also be enhanced with a variety of optically correct visors, goggles, and neck protectors to equip your fire department with complete head, face and neck protection to meet your specific applications. With the new compact design and lower center of gravity, the LT keeps weight evenly distributed and holds the helmet stable on the head. Meets NFPA 1971. Ship. wt. 5 lbs.

SPECIFY COLOR: Red, Black, Yellow, White, Blue, Orange, Lime
AW498  FireDome® LT Helmet with Faceshield
AW499  FireDome® LT Helmet with Goggles
FIREDOME® UST TRADITIONAL HELMET

Comfort and protection is now better than ever. The UST’s outer shell is made with Thermoglas® offering a new standard of toughness and durability without sacrificing comfort. Chipping and cracking found in conventional fiberglass helmets is virtually eliminated while still providing chemical resistance and stability at extreme temperatures. The UST features impact liner, high-heat thermoplastic inner shell, Sure-Lock® adjustable headband, replaceable and washable brow pad, Nomex® chin strap with quick-release buckle and postman’s slide fastener, Nomex® ear/neck protector, brass eagle, reflective tetrahedrons, and your choice of 4” faceshield or goggles. Meets NFPA 1971. Helmet fronts sold separately. Ship. wt. 5 lbs.

USTM HELMET WITH RETRAK

Bullard ReTrak Series Traditional Helmet offers emergency responders a fire helmet with an integrated visor engineered based directly on feedback from firefighters. NFPA 1971/ANSI/ISEA Z87.1+Requirements. Traditional Style Helmet, Matte Finish. Made in USA.

• Simple one-handed operation
• Easily accommodates eyewear
• Increased area of protection
• Comfort nosepiece
• Quick removal for cleaning

CAIRNS 1010 TRADITIONAL STYLE HELMETS

Features new tough, through color, reinforced, high-temperature resistant, molded fiberglass composite shell that resists cracking and chipping. Cairns’ patented shell release helps reduce the chance of neck injury by allowing the shell to release, leaving the impact cap behind for protection under severe upward impact. Beneath the shell is a high-temperature foam cap for increased thermal and impact protection. Headband features adjustable front for perfect fit between helmet and SCBA mask and 3-position rear ratchet adjustment. Other features include high-temperature edge trim, faceshield wing protectors, Nomex® chinstrap with quick-release and postman slide, Nomex® neck/ear protector and 4” Tuffshield faceshield. Helmet fronts sold separately. Meets NFPA 1971-2007 Edition. Ship. wt. 5 lbs.
**BEN FRANKLIN 2 PLUS TRADITIONAL HELMETS**

You can’t beat the combinations of a traditional styled helmet with the strongest outer shell on the market by Morning Pride. *Ship. wt. 4 lbs.*

- **Strongest Shell on the Market** - Test show that FYR-Glass is 42% more resistant to impact penetration than helmets made of fiberglass
- **FYR-Glass Technology** - Provides a helmet that is lighter, lower ride, more comfortable and better fitting

**EV1 TRADITIONAL HELMET**

The progressive interface and cutting-edge features of EV1 helmets offer unmatched performance with a sturdy, sleek, lightweight design that customizes fit for unparalleled comfort and superior functionality. Low-profile design combined with lighter-weight materials provides superior comfort, optimal fit, and improved balance. Proprietary EZ Touch feature allows for one-touch deployment of your face and eye protection. No fuss. No hassle. Stows internally and provides adjustment to fit your face perfectly. Features a safety lock and a cushioned nose guard. EZ Touch face and eye protection is released at the touch of a finger and is the only solution for quick one-hand deployment.

- EZ Touch internal face and eye protection with safety lock
- Black Nomex® 2-layer FR cotton ear covers
- EZ Clip replaceable and reversible chinstrap with quick-release and postman slide
- Composite fiberglass shell
- Large hang-up loop
- Bulldog edge beading
- Golden alloy-plated eagle front holder
- Anti-catch safety bracket for leather fronts
- 8 Reflexite® lime trapezoids
- Certified to NFPA 1971

**SPECIFY COLOR:** Red, Black, Yellow, White  
BL247 EV1 Traditional Helmet

---

**FIRE-DEX® 1910 TRADITIONAL STYLE HELMET**

The 1910 features a fiberglass compression molded shell with superior flame and heat resistance, thermal impact cap, ratchet adjustment, and an adjustable headband that fits all SCBAs. SEI Certified to meet or exceed NFPA 1971. *Ship. wt. 5 lbs.*

**SPECIFY COLOR:** Red, Black, Yellow, White

BL364 Fire-Dex® 1910 Helmet with Innerzone 3™ Goggles
A-TAC® FIREFIGHTER’S GOGGLES

Protective goggles designed to specifically protect the firefighter in structural, wildland and other emergency situations. A-Tac® firefighter’s goggles pass the NFPA 5000 5-minute heat exposure test. Features a silicone strap and body with hard coated/anti-fog inner and outer lens. Fits over prescription, safety and sunglasses. Can be removed from the helmet, without tools and worn directly on head. Includes goggle clips for both traditional and contemporary helmets. Meets NFPA and ANSI. Ship. wt. 1 lb.

AM058  A-Tac® Firefighter’s Goggles

INNERZONE 3™ WRAPAROUND STRAPS

The ESS Innerzone 3™ features a wrap-around strap system that secures to structural helmets with two Velcro® tabs. Designed to protect eyes during extrications, USAR, and other hazardous situations that demand primary eye protections. The Innerzone 3™ is fully NFPA compliant, including the 500˚ 5-minute NFPA oven test. NFPA 1971.

- Functions well with all major structural firefighting helmet designs
- Patented Speed Clip™ strap system makes adjustment quick and easy
- 2-piece strap system made of 26mm-wide, high-memory woven Nomex®
- Frame made from high heat-resistant materials
- Full-perimeter ventilation and filtration system
- Lenses feature ESS ClearZone™ anti-fog and anti-scratch lens coating
- Lenses provide 100 UVA/UVB protection and precise optical clarity for distortion-free vision
- Lenses are highly impact resistant and exceed the impact requirements of ANSI Z87.1-2010+

BC014  Innerzone 3™ with Wraparound Straps
BL467  FirePro1971 FS Goggles

BOURKE EYE SHIELD

Made of extremely tough polycarbonate plastic. Offers excellent eye and upper face protection, yet won’t trap smoke. Mounts easily and snugly on helmet brim. Lens holders are aluminum, other parts stainless steel. Hinged feature allows instant protection. Uses two brass screws to hold shield to brim. Ship. wt. 1 lb.

BEST SELLER
H41 INTERCEPTOR™ HOOD WITH DUPONT NOMEX® NANO FLEX

The H41 Interceptor™ Hood is made with a layer of DuPont™ Nomex® Nano Flex inside that acts as a filter to reduce firefighters’ exposure to persistent fireground carcinogens and other contaminants. We’ve used this revolutionary material sewn between two layers of knit 6.0 oz. PBI®/Lenzing (20%/80%) to provide the maximum performance for particle barrier filtration, comfort, and thermal and flashover protection.

SCIENTIFIC DATA
The H41 Interceptor™ blocks 95% of particulates at .2 micron in size or larger. For perspective, there are 25,400 microns in one inch and a human hair is about 75-100 microns wide, so a .2 micron particulate is about 500x smaller than a strand of hair. Testing has shown that the particulates sized at less than .2 microns don’t have enough mass to make it through the double layer knit and the Nomex® Nano Flex; essentially meaning that this hood blocks 100% of particulates less than .2 microns.

SPECIFY SIZE: XL
BN358  H41 Interceptor™ Hood

GOERE® PARTICULATE HOOD GEN2 NOMEX BLEND

IMPROVED COMFORT, WITHOUT COMPROMISING PERFORMANCE
As we continue to learn about the potentially harmful contaminants found at the fireground, the need for protection against those particulate hazards has become more crucial. Wearing the GOERE® Particulate Hood GEN2 will give you the additional protection you need while maximizing comfort.

- One size fits all convenience
- Continues to block 99.9% of particles in the 0.1 to 1.0 micron-range after laundering; exceeds strength requirements in the NFPA 1971-2018 standard
- Excellent breathability
- Excellent durability

BP276  GOERE® Particulate Hood Gen2 Nomex® Blend (White)

GORE® PARTICULATE HOOD GEN2 ULTRA C6

IMPROVED COMFORT, WITHOUT COMPROMISING PERFORMANCE
As we continue to learn about the potentially harmful contaminants found at the fireground, the need for protection against those particulate hazards has become more crucial. Wearing the GORE® Particulate Hood GEN2 will give you the additional protection you need while maximizing comfort.

- One size fits all convenience
- Continues to block 99.9% of particles in the 0.1 to 1.0 micron-range after laundering; exceeds strength requirements in the NFPA 1971-2018 standard
- Excellent breathability
- Excellent durability

BP277  GORE® Particulate Hood Gen2 Ultra C6 (Black)
PARTICULATE HOODS

INNOTEX GRAY™ PARTICULATE BLOCKING HOOD 25
Developed to meet the proposed requirements of NFPA 1971, the particulate blocking layer blocks carcinogenic particulates 0.1 µm to 1.0 µm that are found in the combustion of structural fires by greater than 98%. Yet, that same layer also allows for air permeation, which is essential to reduce the risk of increased core temperature.

3 LAYER APPROACH
The INNOTEX GRAY™ Hoods use a 3 layer approach similar to Turnout Gear. The two inner layers are laminated together to increase comfort and reduce bulk.

PARTICULATE BLOCKING LAYER
INNOTEX GRAY™ Hoods use a proprietary version of Stedair® PREVENT, which blocks carcinogenic particulates 0.1 µm to 1.0 µm (microns) by greater than 99%.

AIR PERMEABILITY
The INNOTEX GRAY™ Hoods are air permeable, which means air can pass through them. Body heat can dissipate, helping reduce the risk of increased body temperature.

SPECIFY SIZE: M/L or XL
BN698 INNOTEX GRAY™ Particulate Blocking Hood 25

COBRA™ BARRIAIRE GOLD™ HOODS
CERTIFIED TO NFPA 1971
BarriAire Gold Hoods combine superior comfort, increased protection and maximum durability. Your fire hood is an investment in your health and safety — go for the gold, BarriAire Gold Hoods only from PGI. Lightweight inner layer of DuPont™ Nomex® Nano flex fabric inhibits penetration of harmful contaminants and carcinogenic particulates between 0.1 and 1.0 microns.

BN721 COMPLETE COVERAGE
Particulate coverage includes entire head except for Sure-Fit™ panel at crown. Front and back bib extends particulate barrier coverage beyond critical areas as identified by NFPA - Maximum Protection.

BN722 CRITICAL COVERAGE
Particulate coverage from base of the neck and around entire head except for Sure-Fit™ panel at crown. All critical areas of particulate penetration as identified by NFPA have particulate barrier.

BN721 PGI BarriAire Complete Coverage Hood
BN722 PGI BarriAire Critical Coverage Hood

VERIDIAN™ PREVENT BARRIER
Developed to meet the proposed requirements of NFPA 1971, the particulate blocking layer blocks carcinogenic particulates 0.1 µm to 1.0 µm that are found in the combustion of structural fires by greater than 98%. Yet, that same layer also allows for air permeation, which is essential to reduce the risk of increased core temperature.

• 99.99% blocking efficiency after 100 wash/dry cycles
• Highest THL in the industry
• Superb durability
• Revolutionary design achieves bless bulk
• Tailored design allows for maximum comfort
• NFPA 1971 optional requirements for protective barrier hoods

BP220 Veridian™ Prevent Barrier Hood

VERIDIAN™ NOMEX NANO FLEX
Developed to meet the proposed requirements of NFPA 1971, the particulate blocking layer blocks carcinogenic particulates 0.1 µm to 1.0 µm that are found in the combustion of structural fires by greater than 98%. Yet, that same layer also allows for air permeation, which is essential to reduce the risk of increased core temperature.

• Water-repellent outer layer
• Stretchable materials provide maximum comfort and unrestricted range of motion
• One size fits all
• Seam free on the top of the head allows for maximum breathability and comfort
• Unique "Barcoded" ID for tracking
• NFPA 1971 Optional requirements for protective barrier hoods

BP221 Veridian™ Nano Flex Hood
OUR BEST HOOD DEAL
NOMEX® BLEND HOOD

Our most popular NFPA hood at an affordable price point. This hood is made of 20% Nomex/80% Lenzing FR fabric with rib knit construction. Single one piece design with notched shoulders for safe head and neck protection.

- Thermal protective rating of 29.4
- Certified NFPA 1971
- One-piece construction with notched shoulder
- 18” overall length
- One size fits all
- Nomex blend
- 22.7 cal/cm² TPP rating

AZ152 Nomex® Hood

PROTECTIVE HOODS THAT GO ON EASY & SEAL TIGHT
CERTIFIED TO NFPA 1971

Features easy sealing face opening that fits snugly for maximum protection and keeps its shape even after repeated usage; elastic face opening stretches to 15” for easier donning. Flat seams won’t dig and seamless chin area provide for added comfort. Full 13” double layer head for better face and neck protection. Double 8” back bib and 6” front bib keeps hood from coming untucked. Lenzing is a permanently flame resistant fiber that wears like cotton and helps wick moisture. *One size fits all.* *Ship. wt. 1 lb.*

NOTCHED SHOULDER
AK020 Nomex® Hood
AK022 PBI Hood

ULTRA C6 HOOD
NFPA 1971-2007 EDITION

The new carbon tri-blend Ultra C6 has been engineered to address the concerns and needs in the safety world. Its unique mix of fibers maximizes the inherent performance properties of each fiber to provide optimal protection and comfort. Enhanced comfort adds to functionality and improves performance and efficiency in the workplace. *Ship. wt. 1 lb.*

COLOR: Black
BH029 Ultra C6 Hood

DARLEY HOOD

Darley has teamed with PGI to develop a new standard in hood protection. We’ve selected Para-Tek FR™ as a proprietary Tri-Blend that leverages the benefits of three fibers, high strength Para-Aramid, Lenzing® and High Tenacity Nylon. The end result is a lightweight, breathable hood that offers exceptional flame and heat resistance.

- Excellent TPP rating – 34.8 after five washings
- Provides double layer coverage of neck, upper chest, shoulders and shoulder blades
- Improved styling for better fit and maximum coverage
- Superb flame resistance – lowest vertical char lengths of all hood fabrics
- UL classified to NFPA 1971
- Comfort and excellent moisture absorbency

BL577 Darley Hood

CARBON X HOODS
CERTIFIED TO NFPA 1971

Carbon shield is a flame resistant fabric based on carbon fiber technology. If exposed to extreme heat or flame, fabric glows but won’t burn. Retains a certain tenacity at temperatures exceeding 2300° for over 90 seconds

ONE SIZE FITS ALL
AW017 Ultimate™ Carbon X Hood
AW115 Classic™ Carbon X Hood

ADD A LITTLE COLOR
MEETS NFPA STANDARDS 1971 (CURRENT EDITION)

Features easy-sealing face opening that fits snugly for maximum protection and keeps its shape even after repeated usage. Elastic face opening stretches to 15” for easier donning. AK021 P84 Hood
**EZ ADJUST Padded Suspenders**

Designed with 8-point attachment. EZ release - just push up with finger or thumb. EZ tighten - just pull down on the EZ to find round rings. Pads are made with FR rated closed cell foam and sewn to allow for adjustment by end user. 47" length. Ship. wt. 1 lb.

**TRADITIONAL SUSPENDERS**

**MATERIALS:**
- Straps: Polypropylene red, heavy-duty elastic,
- 2" wide, .055" thickness, 400 minimum tensile strength
- Attachment Point Elastic: ½" wide, double layer, 5½" long for each of 8 button tabs
- Leather Tabs: Eight leather tabs for button attachment
- Leather back patch

**CONSTRUCTION:**
- Crossover style, heavy-duty elastic
- Crossed in rear with leather back patch
- 8-point leather tabs
- 42" long
- All seams double stitched for added strength

**LEATHER FIREMAN’S SUSPENDERS**

Leather Fireman’s Suspenders are handcrafted in the U.S.A. with the finest quality.

- 10-12 oz English bridle leather
- Full grain
- Drum-dyed

**PADDED SUSPENDERS**

- 8-point heavy-duty button attachment
- Extra large “quick adjust” rings to accommodate gloved fingers
- “H” back design
- Heavy-duty cotton webbing
- Foam padded straps

**H-STYLE SUSPENDERS**

Features your choice of 2" elastic or non-elastic webbing with leather ends. An excellent choice for high back pants. Ship. wt. 1 lb.

**LEATHER FIREMAN’S SUSPENDERS**

- 10-12 oz English bridle leather
- Full grain

**BG568** Padded Suspenders
In a class by itself, CMC offers the only NFPA Certified Uniform Rappel Belt available. Designed for everyday wear but with the performance needed for an emergency rappel or belay. Standard uniform wear for fire fighters, search and rescue, and SWAT personnel, the belt is constructed to the same exacting standards as their harness line and is the only certified uniform belt available.

**COBRA-D UNIFORM RAPPEL BELT**

Designed for emergency rappel

In a class by itself, CMC offers the only NFPA Certified Uniform Rappel Belt available. Designed for everyday wear but with the performance needed for an emergency rappel or belay. Standard uniform wear for fire fighters, search and rescue, and SWAT personnel, the belt is constructed to the same exacting standards as their harness line and is the only certified uniform belt available.

**NYLON LIFE BELTS**

Made for maximum safety, durability, versatility and comfort

Life Belts are made with nylon especially woven to meet rigorous strength, texture and durability requirements. Webbing has a minimum breaking strength of 9,000 pounds. Assembled belt will withstand 2,000 pounds. The 3” wide buckle strap, sewn with high-tenacity nylon thread and riveted with copper rivets to the 5” wide body strap, is fitted with a double tongue buckle, which enables fast engagement and release of belt. **Ship. wt. 5 lbs.**

**SPECIFY BELT SIZE:** XS (34”-40”), S (36”-42”), M (40”-46”), L (44”-50”), XL (46”-56”)

**H922**  Life Belt with Pompier Hook only

**Leather Truckman’s Belt**

The traditional firefighter’s Truckman’s belt now has an improved design; use it for just about anything. Constructed of top-grain leather, measures 1½” wide and is fully adjustable. Includes heavy-duty snap hook and 2 heavy-duty rings. Folds are riveted as well as stitched for durability. All hardware is chrome plated brass. Optional equipment hook and ring are easily added with secure screw rivets. **Ship. wt. 3 lbs.**

**J922**  Leather Truckman’s Belt

**AR308**  Equipment Hook

**AR309**  Equipment Ring

**Pac Mule Ultra Ladder Belt**

The ultimate hands-free truckman’s belt designed by firefighters

These lightweight belts provide 4” of Coolmax back padding for wraparound support and keep SCBA from hitting your spine. Carry tools and equipment in any situation without slipping or tangling. D-rings Velcro® up and out of the way when not being used. Belt is made from 3M Scotchlite, flame-resistant, highly reflective material. Adjusts easily to fit over your turnout gear. Features rear carabiner slots, a carabiner and an 18” lanyard. BK122 has the same features as AZ241 with added capabilities of making a ladder belt into a Class II harness by attaching the leg lanyard. Color coded by size for quick identification. **Ship. wt. 2 lbs.**

AZ102  Fire Tool Holster for Escape Belt
CUSTOM ACCOUNTABILITY TAGS
Be sure all firefighters are accounted for! Heavy-duty trigger snap attaches to turnout gear and is easily opened while wearing gloves. Guaranteed against breakage for 10 years. Inscribe up to 3 lines, 13-22 characters per line. Yellow and white tags inscribed with black lettering, all other colors feature white lettering. Dimensions: 3⅛"x2¼". Ship. wt. 1 lb.

LEATHER SHIELDS WITH PASSPORT
The shield and passport allow fire departments to know the whereabouts of their firefighters at all times. Each Passport shield comes with a removable, Velcro® center piece Passport bearing the firefighter’s name. When he takes a position, he removes the passport and places it on the engine. Shields are custom-made and non-returnable. Ship. wt. 1 lb.

AUTHENTIC LEATHER HELMET SHIELDS
Made the old-fashioned way, these shields combine tightly sewn layers of first rate, 100% genuine leather throughout with meticulous detailing. No other leather shield is finer. Shields are custom-made and non-returnable. Available in both 4" or 6" sizes and your choice of color for shield, panel, lettering and center piece, as well as different configurations. Ask your Darley representative for a Shield Ordering Form. Ship. wt. 1 lb.

PERSONALIZED CRESCENTS
Try our personalized crescents! Each personalized crescent comes with white background and your choice of color letters (minimum order 25).
