NEW

ULTRABRIGHT RED-FIRE CLASS ll PUBLIC SAFETY VEST

Introducing the Ultrabright Red-Fire Class II Public Safety Vest. This product features a "zip-off" double Velcro® zipper front closure that allows the vest to breakaway from both sides of the zipper, making it the only 6 point breakaway vest on the market. The "performance cut" offers max comfort and allows access to turnout jacket pockets or portable radios at the waistline. The "chevron" reflective pattern on the back offers max visibility and distinct contrast. The shoulder breakaway points have been upgraded with 2" "re-force" Velcro® to ensure that the vest does not fall apart when donned over a turnout jacket but will still break away in emergency situations.

SPECIFY SIZE: S, M, L

BN732   Ultrabright Red-Fire Class ll Public Safety Vest

DUAL CERTIFIED SAFETY VEST

Our **BK230** has everything you want in a public safety vest at an unbeatable price. Vest meets both the ANSI-ISEA 207-2006 FR NFPA 701 and 107-2004 Class II Level II FR NFPA-701 standards. Polyester mesh construction with FR treatment, 5 point breakaway, 3M reflective tape with contrasting trim. The vest is loaded with pockets for your radio/mic loop, pens, plus two on the inside. One size fits L – 5XL (48"-66") with adjustable waist. Imported.

BL047: Same as **BK230** with direct printing on the back and the front of the vest. Direct printing is in black.

FOLD & ROLL™ SIGN SYSTEM

Emergency personnel face not only the hazard at the situation they are attempting to suppress, but they are also facing hazards from motorists driving through or near an emergency scene. Advanced warning signs alert motorists of hazardous conditions ahead and create a higher level of awareness. Proper training in the use and deployment of signage is essential as are general safety guidelines to be used in hazardous situations. *Ship. wt. for sign 8 lbs., sign and stand 27 lbs.*
