**AAMI LEVEL 3 NON-SURGICAL ISOLATION GOWNS**

WASHABLE AND HIGHLY DURABLE

Gowns exceed CDC guidance for COVID-19 related responses and are made with Stedair® TX L3. They are washable and highly durable to withstand the demands of front-line emergency services while offering added barrier protection from fluids. Universal fit and features elastic wrists and an adjustable tie back. Visit edarley.com for usage and care recommendations.

**DISPOSABLE HOSPITAL GOWN**

HIGH LEVEL OF FLUID REPELLENCY

Disposable isolation gown is made from high-performance isolation protective material.

- Latex-free, abrasion-resistant, low lint
- High level of fluid repellency
- PPE disposable isolation gown
- Microporous disposable isolation gown
- Ties around the waist
- Sold in box of 20

**DERMA-LITE™ NITRILE GLOVES**

DURABILITY & PUNCTURE RESISTANCE

The smart choice to protect today’s’ EMS professionals from blood borne pathogens. Three times as puncture/tear resistant as natural rubber latex gloves of the same thickness. The great feel and contour shape hug your hand maximum comfort yet they’re thin enough to let you get an accurate pulse; plus micro texture gives you better grip. Other features include ambidextrous fit, non-sterile and your choice of lightly powdered or powder free.

- Sold in box of 100
- 5 mil.
- Ambidextrous fit
- Powder or powder-free
- Latex-free

**INFECTIOUS DISEASE CONTROL (IDC) FACE SHIELD**

Disposable infectious disease control face shield with elastic attachment band and foam forehead cushion. Each unit can be disposed of after use. The re-sealable bag keeps the unused product clean and ready for use. Individual units can be rolled and stowed in a pocket for easy access when needed. One size fits most.

- Material: Face Shield: Anti-static Mylar; Forehead Cushion: Foam; Strap: Elastic
- Applications: Suitable for hospitals, medical centers and laboratory use
- Dimensions: 9” x 13”
- Sold in box of 10
- Made in America

**DERMA-LITE™ GLOVES**

- Lightly Powdered $6.95/Box of 100
- Powder Free $12.95/Box of 100

**INFECTIOUS DISEASE CONTROL (IDC) FACE SHIELD**

- $24.95/Box of 10

DISPOSABLE FACE MASK
Disposable face masks shield the mouth and nose from large-particle droplets, splashes, sprays or splatters.

KN95 MASK
- Lightweight, comfortable and easy-to-use
- Soft multi-layer construction provides a comfortable fit and increases wear time
- Adjustable nose clip helps reduce eye protection fogging, and produces a better seal
- Elastic ear loop provides quick application and removal
- Non adhesive Ultrasonic welded construction
- Bacterial filtration => 95%
- FDA Approved

SOFT SIDE DIRECT-VENTED SAFETY GOGGLES
The Soft Side Direct-Vented Safety Goggles feature clear lenses and direct ventilated frames for splash resistance. They provide exceptional value with a comfortable fit and allow for good peripheral vision. These high impact safety glasses meet ANSI Z87 high impact standards.

SPEEDBOX HAND SANITIZER
healthy and safe. No rinsing needed.
Use beauty soft hand sanitizer to take care of your family. It’s gel formula helps eliminate bacteria and prevent diseases. It does not require rinsing.

EXTECH IR200: NON-CONTACT FOREHEAD INFRARED THERMOMETER
IDEAL FOR QUICKLY DETECTING ELEVATED BODY TEMPERATURE
The IR200 is ideal for quickly detecting elevated body temperature using a non-contact design that eliminates the need for replacement probe covers and other supplies. Intended as an initial screening service.
- Measures skin temperature from 89.6 to 108.5°F (32.0 to 42.5°C) without contact
- Accurate to 0.5°F (0.3°C) with 0.1°F/°C resolution; fast response (0.5 seconds)
- Optimum measurement distance of 1.9 to 5.9 in (5 to 15 cm)
- Non-contact design eliminates need for replacement supplies
- Adjustable alarm alerts user visually and audibly when temperature exceeds programmed limit
- Memory stores up to 32 readings for easy recall
- Large backlit LCD display
- Complete with 2 AA batteries and pouch

BP309  Extech IR200: Non-Contact Thermometer  $129.95

BP341  Speedbox Hand Sanitizer  $137.95/Case of 6

BP366  Side Side Direct-Vented Safety Goggles  $2.95

BP364  KN95 Mask  $54.95/Box of 20

BP365  Disposable 3-Layer Face Mask  $33.95/Box of 50
**FIREWIPES® - INDUSTRIAL STRENGTH DISPOSABLE CLEANING WIPES**

Firewipes® are used primarily to aid in the cleaning and removal of soot, smoke and other potential carcinogens of complete and incomplete combustion. The Firewipe is an 8”x12” textured industrial strength disposable wipe infused with cleansing compounds for use on all external dermal areas.

**HY-D REVOLUTIONARY MASS DECONTAMINATION KIT**

Hy-D is a low cost alternative to mass shower decontamination that can be mounted directly to a hydrant or truck. The complete kit includes a gate valve, 30° elbow, hydrant wrench, and the patented HY-D bag. Works in all weather conditions including below freezing.

- Single person installation
- Low water usage minimizes runoff
- FEMA approved (as equipment, gross decontamination application - 08D2-02-EDCS) and eligible for FEMA grant programs

**BULLARD CARES KIT**

Our Bullard Cares Kit gives firefighters an extra set of fire helmet components, bundled in a washable mesh bag that can easily be laundered without falling apart or tangling. Firefighters now have an extra set of clean fire helmet components when they return from answering a call. Bullard’s components (ratchet cover, brow pad, and ENP) are easy to remove to help facilitate quick and easy cleaning of your fire helmet. Material: Nomex®, Color: Black.

**CONTAMINATED PPE BAG**

Puncture resistant bag is designed to hold a full set of turnout ensemble equipment or other PPE after decontamination at the scene and for transport to the station or to your Verified ISP. Use this bag to help prevent cross contaminating the truck cab or other vehicles. Keep your gear bagged at the station until you are ready to perform advanced cleaning in the washer. The bag will hold a complete set of structural turnout gear and an SCBA pack.

- Puncture resistant
- 2 or 6 mil thickness
- 40"Wx 46"H

**TRUE NORTH DECON BAG**

The Decon™ Bag has a very important job; to protect the firefighter from cancer-causing contaminate left on dirty turnout gear. With its airtight design and abrasion-resistant construction, this roomy bag reliably traps soiled gear and prevents carcinogens on PPE from migrating to the apparatus’ cabin until items can be safely laundered.

**INFECTION CONTROL PPE**

1.800.323.0244 | EDARLEY.COM/INFECTIONCONTROLPPE
EXTRACTOR 22 / 30

**SPECIFICATIONS:**
- Meets current NFPA 1851 recommendations
- Front load design
- Commercial quality construction
- Automatic soap dispenser compatible
- Utilizes standard plumbing hookups
- Requires only 120v electrical
- Soft-mount design, easy install
- Easy to use, preprogrammed wash cycles

**BP208:**
- 22 lb. capacity / 2 sets of gear
- Requires only 120v electrical
- Dimensions: 40”L x 30.5”D x 49” H
- Weight: 260 lbs.

**BP242:**
- 30 lb. capacity / 3-4 sets of gear
- Requires only 120v electrical
- Dimensions: 32”L x 32”D x 51” H
- Weight: 300 lbs.

**ELECTRICAL SPECIFICATIONS:**
- 120V/60HZ - Recommended Breaker - 20 amp

**PPE GEAR WASHER EXTRACTORS**

Fire contaminants can expose firefighters to cancer-causing carcinogens and eventually weaken the gear meant to protect them. Blood and body fluids can further expose them to deadly diseases. That’s why the NFPA recommends washing soiled turnout gear immediately after exposure to fire or body fluids. The NFPA also warns against cleaning gear in homes or public laundries to avoid cross-contamination. Continental washer-extractors properly clean turnout gear, removing contaminants and biohazards while preserving fabric integrity. They offer a compact design, so machines fit into unconventional locations like truck bays and utility rooms. The programmable control ensures water temperature, extract speed, cleaning chemicals, fill levels and cycle times are perfectly suited to properly clean and decontaminate turnout gear according to manufacturer recommendations. Continental washer-extractors are designed with the future in mind, and are programmable to handle future changes in protective fabrics. So, fire departments can feel secure knowing their investment will handle their laundry needs today and tomorrow.
