**1% FLUORINE FREE CLASS A/B FOAM CONCENTRATE**

The first dual certified fluorine free Class A/B firefighting foam, PHOS-CHEK 1% A/B, was developed for use on both Class A and B hydrocarbon fires as an environmentally responsible next generation option. It is not intended for use on polar solvent fueled fires. UL certified against NFPA 18 as an effective wetting agent for Class A fires including materials such as wood, cloth, paper, etc. at 0.1% use rate and UL 162 listed as a Class B foam at 1% use rate. Unlike some other A/B foams, PHOS-CHEK 1% A/B contains no PFAS chemicals including but not limited to PFOS or PFOA. This foam can be used with most existing foam equipment such as eductors and onboard foam systems that are designed for traditional 0.1-1% Class A foam systems.

**SOLD IN 5-GALLON PAILS**

BP332 1% Fluorine Free Class A/B Foam Concentrate $109.95/pail

**3X6% FLUORINE FREE CLASS B FOAM CONCENTRATE**

This environmentally responsible next generation foam concentrate meets the current needs for Class B hydrocarbon and polar solvent fuel fires when used with fresh water. Designed for to fight a broad range of Class B flammable liquid fires including hydrocarbon fuel fires gasoline and diesel and polar solvents such as ketones and alcohol. Unlike legacy C8 foams which are considered to be bioaccumulative PHOS-CHEK 3X6% fluorine free alcohol resistant foam concentrate does not contain PFAS chemicals including but limited to PFOS or PFOA. This foam can be used with most existing foam equipment such as eductors and onboard foam systems that are designed for traditional 3%-6% B foam systems. Never to be mixed with other Class B foam concentrates. Meets UL 162 Listed, EN 1568-3:2008 (Class IA) and EN 1568-4:2008 (Class IB).

**SOLD IN 5-GALLON PAILS**

BP333 3X6% Fluorine Free Class B Foam $104.95/pail

**SILV-EX FOAM CONCENTRATE**

A multiple expansion Class A foam concentrate formulated from specialty hydrocarbon surfactants, stabilizers, inhibitors and solvents. Its combination of surfactants and solvents provide extremely good cold weather performance. The original forest fire control concentrate. Ship wt. 45 lbs.

- Proven effective on many deep seated Class A fires
- Can be proportioned from 0.1% to 1.0% in fresh, brackish or sea water

**PRACTICE FOAM**

Practice Foam is an answer to the requests “give us an inexpensive product to train with!” Practice Foam is a variable percentage Class A type product. Safe and inexpensive to use, Practice Foam may be educted at low to high percentages to achieve the desired results of your training session. Although not intended for a “working fire”, Practice Foam is entirely suitable for extinguishing training ground fires. For training only; NOT for fire fighting.

- Non-toxic, bio-degradable and self-dissipating
- Plenty of suds - no clean up required

**SOLD IN 5-GALLON PAILS**

AB410 Silv-ex Foam Concentrate $129.95/pail

BG113 Practice Foam $39.95/pail
CLASS A PLUS FOAM CONCENTRATE

Chemguard Class “A” is a non-corrosive, non-toxic, biodegradable foam concentrate. When mixed with water in the correct proportion, it changes the properties of water. It reduces the surface tension of the water, and produces foam, which allows the water to cling to vertical or horizontal surfaces without run off. This allows the water to absorb more heat and provides greater penetration into Class “A” fuels. Ship. wt. 45 lbs.

NEW LOW PRICE

PHOS-CHEK® CLASS A FOAM

Phos-Chek® Class A foam provides superior foam generation and is the most concentrated Class A foam product available today. Phos-Chek® is a unique combination of surfactants that make water more effective for fire fighting. Phos-Chek has been tested and approved for use by the U.S. Forest Service. U.S. Forest Service testing includes product Environmental, Health & Safety, and Corrosion criteria. Phos-Chek® is also a U.L. listed Wetting Agent at a very low use rate of 0.1% for Class A and 0.25% for Class B fires. Phos-Chek® meets the requirements of NFPA 1150, contains no EPA listed hazardous materials, and is readily biodegradable. Phos-Chek® works extremely well with CAFS at ratios of 0.2 to 0.3%. Ship. wt. 45 lbs.

SOLD IN VARIOUS VOLUME AND QUANTITIES, SEE BELOW

AS285 Phos-Chek® Class A Foam 5-gal. Container $127.95/pail
AS286 Phos-Chek® Class A Foam 4 oz./Case of 36 $122.95/case
AS289 Phos-Chek® Class A Foam 55-gal. Drum $1,320.95/drum

PRECISION FOAM TESTING KIT

The Precision Foam Testing Kit is designed to simplify the process of testing foam systems for proportioning accuracy. This kit utilizes liquid conductivity and a precision digital scale to accurately prepare standards and test discharge samples; the same method used by nationally recognized testing laboratories when testing systems for listing and approval. Ship. wt. 6 lbs.

INCLUDES:

- Protective carrying case with foam protective padding
- Precision digital electronic 250 gram scale with 0.1 gram accuracy
- 6 - 150ml graduated sample beakers
- 100ml graduated cylinder
- 250ml wash bottle
- 2 - 10ml sample pipettes (12”L)
- 5 - 3ml sample pipettes (6”L)
- 500ml water sample bottle
- 2 - 10ml sample syringes
- 10 - Test charts (reproducible)
- Instruction manual

AZ292 Precision Foam Testing Kit $784.95
Making great foam is easy with the PRO/pak. Everything you need is contained in one lightweight package that attaches to the end of your 1" fire hose. It can work on pressures as low as 50 psi. With its small size and versatile nozzles you can have foam capability without the expense of built-in systems costing thousands of dollars. Features a high-impact 2 1/2 gallon foam reservoir with built-in eductor that can be set to the ratio of your choice. Large, easy-open fill port has an indicator to show the type of liquid in the tank. The flow is controlled by a twist grip valve/carrying handle. With each quarter turn you select the discharge velocity for inlet pressures between 40 and 500 psi. System comes complete with a straight stream nozzle, low expansion nozzle and medium expansion nozzle. Nozzles can be directly attached to the eductor for one-handed operation, or a short section of hose can be added for maneuverability. Designed for Class A 3% or 6% AFFF & AR Foams. Ship. wt. 15 lbs.

**includes:**
- PRO/pak unit
- 3' extension hose
- Shoulder strap
- 3 - quick-connect nozzles

**specify inlet threads: 1" NH or NPSH**

**FoamPro® 1600 Series Proportioning System**

No other system delivers foam as easily and accurately as the FoamPro®. All it takes is a flip of the switch to start the system. FoamPro® adjusts automatically to any changes in flow rate or pressures. Plus, the patented, high-tech, electronic controller does all of the work for you. To make the foam wetter or drier simply adjust the dial to change the foam concentrate level. When you use the FoamPro®, you don’t have to worry if the foam solution is correct-the system does the proportioning all automatically. Simply set the percentage you want on the control module. Because the precise proportioning is done by measuring flow instead of pressure, you do not have to shut down to add lines, change pressure or refill the foam tank. What’s more, the FoamPro® conveniently interfaces with Compressed Air Foam Systems. Meets NFPA Standards. Ship. wt. 68 lbs.

**exclusive features:**
- Automatic proportioning
- Adjustable dial control
- Proportions continuously
- No foam goes through the fire pump
- No-in-line restrictions
- Installs in new or existing apparatus
- Delivers 0.1 to 1.7 gpm of concentrate

The Darley Foam Refill System is designed to create a safe alternative to refilling your Class A foam tank without the need to climb on top of your truck. The Foam Refill System kit includes all the necessary equipment needed for a simple installation into new or existing apparatus. Once installed, simply attach the pickup hose, insert the tube into the foam pail, hold the switch to on, and fill your foam tank from a safe position until the green foam full light appears on. Call for pricing at 877-634-6223.

**ENGINE**
- 12 VDC, 1/2 hp continuous speed electric motor. The maximum amp draw at full load, 175 psi (12 bar) is 39 amps. The pump is a continuous duty, piston type, positive displacement pump. The pump is rated at 1.5 gpm. Pump is supplied with a 250 psi (17.2 bar) safety relief valve for protection against over pressurization. The Venturi flows up to 150 gpm.

**DIMENSIONS**
- 21”L x 10”W x 12”H, 75 lbs.

**APPLICATIONS**
- Mini pumper, pumper, pumper tanker, rescue pumper, wildland/quick attack fire vehicle

**FEATURES**
- 1.5 gpm/150 gpm, 1/2 hp 12vdc motor, pilot operated relief valve
- Low concentrate float switch
- Venturi 11/2” NPT
- Includes installation kit
- Control panel placard with on/off switch and low concentrate light, adjustable foam percentage valve

**PERFORMANCE**
- Up to 150 gpm @ 1% at pressures up to 175 psi

**DARLEY FOAM REFILL SYSTEM**

The Darley Foam Refill System is designed to create a safe alternative to refilling your Class A foam tank without the need to climb on top of your truck. The Foam Refill System kit includes all the necessary equipment needed for a simple installation into new or existing apparatus. Once installed, simply attach the pickup hose, insert the tube into the foam pail, hold the switch to on, and fill your foam tank from a safe position until the green foam full light appears on. Call for pricing at 877-634-6223.

**INSTALLATION OPTIONS**
- Panel Mounted Kit: Includes all the necessary components needed for a simple install. The control panel will be separate from the pump, allowing you to remote mount parts as needed to fit into tighter spaces.
- Self-Contained Kit: Includes all the same parts as the panel mounted kit but will be fully assembled with an aluminum bracket to minimize assembly/installation for the end-user.

**PUMP**
- Pumps at 4 to 6 GPM and is capable of 10’ of lift

**ENGINE**
- 12 VDC, 1/2 hp continuous speed electric motor. The maximum amp draw at full load, 175 psi (12 bar) is 39 amps. The pump is a continuous duty, piston type, positive displacement pump. IN-LINE FOAM EDUCTORS

In-line Foam Eductors have a metering head with easy-read knob for use with Class A foam at .25% and .5% and with ARC-AFFF foam at 1%, 3%, and 6%. Extra large 36” pickup hose and stainless steel wand are ideal for use with high viscosity foams. The meter head is equipped with a unique backflush push-button for fast cleaning, and is secured to the eductor body with a rugged disconnect. All controls are easy to use with gloves. Made of hardcoat anodized aluminum for corrosion protection. The required inlet pressure is 200 psi. The maximum allowable back pressure is 130 psi.

PORTABLE BY-PASS EDUCTOR

The Portable By-Pass Eductor has a built-in by-pass chamber, allowing the operator to change from water to foam without shutting down.

- Brass with chrome trim
- 8 quick-change handle positions with a Swing-Out™ valve handle

“THROUGH-THE-PUMP” FOAM EDUCTOR/MIXER

- Educts foam concentrate into hose lines through a pump’s suction and discharge sides, also known as a “Around-The-Pump” system
- Will educt concentrates at percentages of 0% to 3.75% at flow rates from 15 to 125 gpm at 100 psi
- Maximum operating pressure of 300 psi
- Includes an 18” pressure hose and a 48” foam pick-up hose
- 1 1/2” and 2” cast aluminum connecting tee

ATP FOAM FLURRY™
The ATP FOAM FLURRY™ is our most economical proportioner. It is simple-to-install and operate. For your next Darley portable pump purchase, or for retrofitting your current pump, the ATP FOAM FLURRY™ will deliver foam cost effectively.

- All brass construction – no plastic
- Fast adjusting variable control ball valve
- Capable of .5% injection rate up to 130 gpm
- Remote mount operation placard
- Includes installation kit

ATP00001 ATP FOAM FLURRY™ $614.95

BUBBLE CUP NOZZLES
The dual or single-gallonage Bubble Cup nozzle is a uniquely designed aspirating fog/foam nozzle created to be used with AFFF and Protein type foams for fire brigades and hazardous materials incidents or for structural and wildfire applications of Class A foaming agents. Capable of producing a conventional straight stream, wide protective fog pattern and aspirating foam, the Bubble Cup is a nozzle that provides an extra measure of protection. Nozzles are backed by a full 5-yr factory warranty and 24-hr. Certified repair. Ship. wt. 4 lbs.

NEW LOW PRICE

VIPER FOAM NOZZLE

- Durable Viper Ball Valve
- Up to 12:1 expansion ratio
- Available in your choice of 60 or 95 gpm
- Construction: Lightweight aluminum
- Length: 19" 
- Ship. wt. 4 lbs.

MADD DOG FOAM NOZZLE
EXPANSION ASPIRATING FOAM ATTACHMENT
The Madd Dog Attachment makes better foam than any other multiple expansion aspirating nozzle. Designed by a fire captain with firefighter safety, quality, versatility, performance and cost in mind. Produces low-expansion foam with excellent stream projection or medium expansion foam with incredible production. The aspirating attachment is constructed of pressure-injected polymer resins which make it economical, lightweight and incredibly rugged and will fit a variety of combination nozzles. Ship. wt. 2 lbs.

AK244 Madd Dog Foam Nozzle $172.95
L685 1½" Lexan Nozzle $13.95

NEW LOW PRICE
2½” CAFS PISTOL GRIP NOZZLE

Do you want to pack the most CAFS punch possible in a 2½” hand line? Most 2½” nozzles are nothing more than a 1½” waterway shutoff with a 2½” swivel inlet. Not this nozzle… this pistol grip ball shutoff features a 2½” swivel inlet and a 2½” threaded outlet with a full 2” internal ball opening. This allows more CAFS to be propelled unobstructed through this lightweight pistol grip ball shut-off. We also finish off this Brutus of a shut off with a set of dual stacked tips so you can choose between the 2¼” and a 2” tip opening. Easily flows 120 gallons per minute of foam solution and 120 cfm of compressed air at the NFPA recommended 125 psi. Ship. wt. 7 lbs.

CAFS NOZZLES

BL036:
- Combination of the ball shutoff with full 1” inlet waterway and the ½” outlet smooth bore tip. Both parts are constructed of hard coated aluminum.

BL037:
- Combination of the ball shutoff with full 1½” inlet waterway and ½” outlet smooth bore tip. Both parts are constructed of hard coated aluminum.

SABERJET DUAL SHUTOFF CAFS NOZZLE

This very versatile pistol-grip ball shutoff features a large 1½” ball opening and 1¼” smooth bore tip which produces a strong CAFS stream for wet to medium foam types. It also features a secondary control for spraying plain water, foam solution, or wet CAFS stream through the fog spray nozzle. The SaberJet Dual Shutoff CAFS Nozzle is a great tool for your CAFS attack lines and provides a wide variety of real world spray stream options as well as the ability to spray plain water if desired. Includes colored handles and pistol grip kit shown.
