A lot has changed over the years, but our commitment to the fire service has not. We truly value our relationship with you, appreciate the trust that you’ve placed in us and thank you for the opportunity to serve you.

We hope you enjoy shopping our newest catalog, #275, designed for the fire and public safety professional. This catalog features a collection of products selected from customer favorites, our best sellers, and our highest rated products. We stock most of these items in our warehouses to offer immediate delivery. Can’t find what you’re looking for? Check us out at edarley.com or call one of our industry experts. View our entire product selection on eDarley.com.

We thank you for the trust you’ve placed in us in the past, and welcome you if you’re a new customer. If we have not exceeded your expectations, I’ll consider it a personal favor if you let me know.

Sincerely,

Paul C. Darley  
President & Chief Executive Officer  
pauldarley@darley.com

AAMI LEVEL 3 NON-SURGICAL ISOLATION GOWNS
WASHABLE AND HIGHLY DURABLE

Gowns exceed CDC guidance for COVID-19 related responses and are made with Stedair® TX L3. They are washable and highly durable to withstand the demands of front-line emergency services while offering added barrier protection from fluids. Universal fit and features elastic wrists and an adjustable tie back. Visit edarley.com for usage and care recommendations.

DISPOSABLE HOSPITAL GOWN
HIGH LEVEL OF FLUID REPELLENCY

Disposable isolation gown is made from high-performance isolation protective material.

- Latex-free, abrasion-resistant, low lint
- High level of fluid repellency
- PPE disposable isolation gown
- Microporous disposable isolation gown
- Ties around the waist
- Sold in box of 20

NEW

INFECTION CONTROL PPE

DERMA-LITE™ NITRILE GLOVES
DURABILITY & PUNCTURE RESISTANCE

The smart choice to protect today’s’ EMS professionals from blood borne pathogens. Three times as puncture/tear resistant as natural rubber latex gloves of the same thickness. The great feel and contour shape hug your hand maximum comfort yet they’re thin enough to let you get an accurate pulse; plus micro texture gives you better grip. Other features include ambidextrous fit, non-sterile and your choice of lightly powdered or powder free.

- Sold in box of 100
- 5 mil.
- Ambidextrous fit
- Powder or powder-free
- Latex-free

NEW

INFECTIOUS DISEASE CONTROL (IDC) FACE SHIELD

Disposable infectious disease control face shield with elastic attachment band and foam forehead cushion. Each unit can be disposed of after use. The re-sealable bag keeps the unused product clean and ready for use. Individual units can be rolled and stowed in a pocket for easy access when needed. One size fits most.

- Material: Face Shield: Anti-static Mylar; Forehead Cushion: Foam; Strap: Elastic
- Applications: Suitable for hospitals, medical centers and laboratory use
- Dimensions: 9” x 13”
- Sold in box of 10
- Made in America

FIREWIPES® - INDUSTRIAL STRENGTH DISPOSABLE CLEANING WIPES

Firewipes® are used primarily to aid in the cleaning and removal of soot, smoke and other potential carcinogens of complete and incomplete combustion. The Firewipe is an 8"x12" textured industrial strength disposable wipe infused with cleansing compounds for use on all external dermal areas.

HY-D REVOLUTIONARY MASS DECONTAMINATION KIT

Hy-D is a low cost alternative to mass shower decontamination that can be mounted directly to a hydrant or truck. The complete kit includes a gate valve, 30° elbow, hydrant wrench, and the patented HY-D bag. Works in all weather conditions including below freezing.

- Single person installation
- Low water usage minimizes runoff
- FEMA approved (as equipment, gross decontamination application - 08D2-02-EDCS) and eligible for FEMA grant programs

BULLARD CARES KIT

Our Bullard Cares Kit gives firefighters an extra set of fire helmet components, bundled in a washable mesh bag that can easily be laundered without falling apart or tangling. Firefighters now have an extra set of clean fire helmet components when they return from answering a call. Bullard’s components (ratchet cover, brow pad, and ENP) are easy to remove to help facilitate quick and easy cleaning of your fire helmet. Material: Nomex®, Color: Black.

CONTAMINATED PPE BAG

Puncture resistant bag is designed to hold a full set of turnout ensemble equipment or other PPE after decontamination at the scene and for transport to the station or to your Verified ISP. Use this bag to help prevent cross-contaminating the truck cab or other vehicles. Keep your gear bagged at the station until you are ready to perform advanced cleaning in the washer. The bag will hold a complete set of structural turnout gear and an SCBA pack.

TRUE NORTH DECON BAG

The Decon™ Bag has a very important job; to protect the firefighter from cancer-causing contaminates left on dirty turnout gear. With its airtight design and abrasion-resistant construction, this roomy bag reliably traps soiled gear and prevents carcinogens on PPE from migrating to the apparatus’ cabin until items can be safely laundered.

CITROSQUEEZE® PPE/TURNOUT GEAR CLEANER

Preserves the quality of gear with Citrosqueeze®, the turnout gear cleaner used by some of the largest US fire departments and by authorized turnout gear cleaning and repair centers nationwide. Citrosqueeze® is formulated to remove the harmful and stubborn hydrocarbons and soils resulting from fires and chemical spills while maintaining the integrity of turnout gear. Citrosqueeze® PPE cleaner is tested and proven safe by DuPont, Southern Mills, W.L. Gore & Assocs. (Germany), 3M Products, Safety Comments International, Inc., and Ciba Specialty Chemicals.

BK064 Four 1-gallon Bottles $133.95
BK065 One 5-gallon Pail $165.95

VERSITOL SOLUTION FOR ALL WASHING MACHINES

A highly-effective yet gentle multi-purpose cleaner. Safe for all automatic washing machines. Removes smoke residue from all washable fabrics and surfaces, especially from expensive turnout gear containing Kevlar®, Nomex®, Duck, Nylon, PBI, Hypalon, Nitrile Rubber and Fiberglass.

AC258 Versitol Solution 1 gal./Case of 4 $126.95

DIMENSIONS:
• 40"x48"x49" - 260 lbs. $4,949.95
• 40"x48"x51" - 300 lbs. $7,449.95

ELECTRICAL SPECIFICATIONS:
• 120V/60HZ - Recommended Breaker - 20 amp

PPE GEAR WASHER EXTRACTORS

Fire contaminants can expose firefighters to cancer-causing carcinogens and eventually weaken the gear meant to protect them. Blood and body fluids can further expose them to deadly diseases. That’s why the NFPA recommends washing soiled turnout gear immediately after exposure to fire or body fluids. The NFPA also warns against cleaning gear in homes or public laundries to avoid cross-contamination. Continental washer-extractors properly clean turnout gear, removing contaminants and biohazards while preserving fabric integrity. They offer a compact design, so machines fit into unconventional locations like truck bays and utility rooms. The programmable control ensures water temperature, extract speed, cleaning chemicals, fill levels and cycle times are perfectly suited to properly clean and decontaminate turnout gear according to manufacturer recommendations. Continental washer-extractors are designed with the future in mind, and are programmable to handle future changes in protective fabrics. So, fire departments can feel secure knowing their investment will handle their laundry needs today and tomorrow.

BP243 CACHD-35 Hard Mount Extractor $8,700.95
BP244 CACHD-45 Hard Mount Extractor $10,922.95
BP245 CACHD-65 Hard Mount Extractor $13,090.95

SELECT-O-MATIC XD™ NOZZLES

SELECT-O-MATIC XD™ NOZZLES
AUTOMATIC LOW PRESSURE NOZZLE

The Select-O-Matic XD automatic handline nozzle adjusts to fluctuating water supply conditions to maintain effective pressure and a consistent fire stream in all flow ranges. It does so by generating back pressure by using a patented internal spring design that leaves the waterway unobstructed. This mechanism ensures a quality fire stream, regardless of flow. All indicators and markings are laser etched, with no labels to peel off or scratch. Its durability and efficiency are unmatched of any automatic nozzle on the market. Standard configuration with yellow protective bumper and yellow grip inserts.

- Forged shutoff body and bale handle
- Full round metal ball for optimum performance
- Spinning stainless steel metal teeth and ergonomic grip inserts
- Flow range from 60-200 GPM @ 75 psi

CHIEF™ XD NOZZLES

The Chief XD takes the industry standard for handline nozzles to a whole new level. It offers accurate high volume flows at low tip pressures and is built tough like no other nozzle for Xtreme Duty, or XD. The Chief XD is the only handline nozzle that offers a forged shutoff body and forged metal bale handle for maximum strength. It also includes as standard a full round metal ball for the best stream performance, as well as fixed molded urethane or spinning stainless steel metal teeth that don’t break. All indicators and markings are laser etched, with no labels to peel off or scratch. Ergonomic grip inserts help with handling and can also be color coded. It’s durability and efficiency ensures an embedded level of safety for you and your crew, fire after fire.

- Color coded bumper along with bale handle and pistol grip inserts
- Spinning stainless steel or fixed molded urethane teeth
- Accurate and wide range of flows
- Available with 50, 75, or 100 psi operating pressure
- Fixed gallonage from straight stream to full fog
- Forged aluminum shutoff body and bale handle
- Dual drive shutoff with full round metal ball

DARLEY FIRE STORM NOZZLE
DELIVERS QUALITY AND PERFORMANCE

The new Fire Storm nozzle delivers the quality and performance you are looking for in a selectable nozzle with the value you expect from Darley. Choose from fog or straight stream patterns with flows from 30-150 gpm at 100 psi. Design includes spinning turbine teeth, single piece rubber handle and bumper and aluminum body construction. The nozzle has a 110° fog pattern, full-time swivel inlet, is capable of being flushed without shutting down and a 5-year warranty. Meets all aspects of NFPA 1964. Ship. wt. 5.1 lbs.

- Simple to operate pattern control (¼" turn from straight stream to fog)
- Great stream performance
- Flow Rates: 30-60-95-125-150 gpm @ 100 psi
- Raised lug marks straight stream for limited visibility operations
- Inlet: 1½" NH F
- NFPA 1964
- 5-year warranty
- Made in USA

BL569 Darley Fire Storm Nozzle $529.95

TURBOJET® NOZZLES

The Akron® adjustable gallonage TurboJet® nozzle is unmatched in today’s fire service for its flexibility and flow control. The TurboJet® is an adjustable gallonage nozzle, where flow remains the same in all patterns at each GPM (LPM) setting. Use the TurboJet® one time and it is easy to see why it’s the “nozzle of choice” by fire fighters worldwide. Colored handles and pistol grip kit included.

- Improved handle for operational flexibility with extra room for the gloved hand and 1½" hose
- Larger, more legible labels
- Easy to service & repair
- Meets new European Standard
- 1½" Mid-Range, Wide Range, High Range and 2½" TurboJets meet Insurance Services Office (ISO) Requirements
- 100 psi (7 bar) Rated Pressure Standard - 75 psi (5 bar) optional with Quality Flow Performance as Low as 50 psi (3.45 bar)
- Simple to operate (¼ turn from straight stream to fog, raised lug marks straight stream for limited visibility operations)
- Updated, ergonomic pistol grip for great handling
- Durable patent-pending design for easy “snap-on” grips and handle colors to help identify pre-connects and better manage inventory
- Tough, black nozzle body hard coat for expected performance and quality
- Etched smooth bore tips with pressure and flow indicators for easier training and operations
- Enhanced shutoff ball valve alignment when nozzle is open

OPTIONS:
- Wide-ranging selection of nozzle flow and pressure options
- Nozzle handle and pistol grip color
- Bumper color
- Custom etch
- Custom threads and choice of inlet type
- Full range of certifications
ASSAULT™ NOZZLES
FIXED ORIFICE NOZZLES

Assault™ Nozzles combine the quality stream performance at a variety of pressures with the simplicity of a fixed orifice. Durable and simple design make the Assault™ an unbeatable value. Meets all aspects of NFPA 1964.

- Colored handles and pistol grip kit included
- Specify with or without pistol grip
- NFPA 1964, EN - 15182, FM (Please specify)

G-FORCE NOZZLES

The G-Force Series of Task Force Tips handline nozzles are designed to provide high performance fire streams in a highly affordable package. Offering your choice of regular or low pressure in fixed, selectable and automatic configurations, the G-Force nozzles integrate an exclusive slide style valve for turbulence free performance even when gated. Other high quality features include an inlet debris screen to prevent stream pattern disruption and easily identified color coded pistol grips and handle covers. Each nozzle incorporates G-Force’s unique stainless steel spinning teeth for a wide protective fog pattern, bonded front rubber bumper, reflective labeling, and a standard five year warranty.

- Durable polymer handle developed for the harshest fire ground operations while offering reduced maintenance costs
- Color-coded shut-off handle, grips, and Scotchlite™ labels
- Unique inlet debris screen - unparalleled protection from debris that can affect stream quality
- Flush without shutdown, integrated tactile pattern indicator, and bonded long lasting rubber bumper
- Unique slide valve design - total firefighter flow control and outstanding stream quality, even with the nozzle valve gated and the flow reduced
- Stainless steel spinning teeth for wide fog pattern - tactile indicator provides easy pattern selection
- Ship. wt. 5 lbs.

TFT HANDLINE AUTOMATIC NOZZLES

TFT handline nozzle is all conventional handline sizes in one. The wide range flow of 95-300 gpm allows The Handline nozzle to be used on any size hose. The TFT handline nozzle is fully automatic with a flow capacity of 95-300 gpm. The handline nozzle’s integral pistol grip is mounted below the valve. Handline nozzle consists of all lightweight materials and full time swivel. Ship. wt. 5 lbs.

- Use on any size hose
- Pressure assist flush without shutting down
- Patented slide type valve for turbulence free nozzleman flow control
- Six detent flow positions
- Molded rubber bumper with “power fog” teeth
- “Gasket Grabber” inlet screen.

VIPER FIRE FIGHTING NOZZLE

The Viper Industrial Heavy-Duty Nozzle with ergonomic rubber-coated pistol grip is an exceptional value for in-plant fire protection or wildland firefighting. It can break apart to help extend hose lines with both the tip and the pistol grip capable of shutting off. The spinning teeth add to the full fog pattern and the protective rubber bumper keeps the tip from sparking. A 95 gpm tip is standard and various tips are available making it the best value in its class.

VIPER SELECT GALLONAGE NOZZLES

- Compact and lightweight
- Easy maintenance
- Ergonomic design
- Pistol grip and ball shutoff

AM141 Viper 1½" Fire Fighting Nozzle 6 lbs. $359.95

Rugged and durable nozzles that offer quality and at an affordable price in an automatic nozzle. You’ll have the versatility of variable pattern control from straight stream to wide angle fog and capability of flushing without pattern changes or shutting down. Spinning teeth give superior fog protection and reach. Carbon-composite shutoff ball valve and control are highly resistant to wear and corrosion and give greater impact resistance. Other features include full time swivel inlet, hi-impact absorbing rubber bumper and pistol grip. Made of anodized aluminum. Ship. wt. 6 lbs.

**ADJUSTABLE FOG NOZZLES**

Adjustable Fog Nozzles are constructed of hard coated aluminum with brass and stainless steel internal components. They come with a heavy duty rubber bumper for added protection. These nozzles flow from 10 gpm or less and are ideal for wildland fire fighting, industrial fire protection and wash down applications.

**BLUE DEVIL NOZZLE**

**HIGH PERFORMANCE NOZZLE WITH SELECT FLOW**

Adjustable Fog Nozzles are constructed of hard coated aluminum with brass and stainless steel internal components. They come with a heavy duty rubber bumper for added protection. These nozzles flow from 10 gpm or less and are ideal for wildland fire fighting, industrial fire protection and wash down applications.

**VIPER BLACK KNIGHT NOZZLE**

The Black Knight is constructed in 1 1/2" size and adjustable from wide fog to shut off position, with flows up to 95 gpm. The Black Knight is much more durable and dependable compared to conventional polymer nozzles as it is highly reinforced with fiberglass which allows the nozzle to hold its shape under heat and pressure. It includes brass internal stems for corrosion resistance, and has a rubber bumper. Great for brush, wildland fires and industrial applications. **Ship. wt. 2 lbs.**
TRANSFORMER PIERCING NOZZLE SYSTEM

The Transformer Piercing Nozzle is designed to deliver water or foam solutions to areas inaccessible to the firefighter. A series of jets near the point apply a wide reaching pattern at a rated flow of 150 gpm at 100 psi. The easy to use and rugged, twist-grip shut-off valve, regulates nozzle flow without the need for an additional shut-off valve. The 3 port junction block and strike head allow the nozzle to be configured to short, medium, long and L-shaped combinations, making it easily adaptable to specific fireground situations. The Transformer Piercing Nozzle features a hardened point, is constructed of hard coated extruded aluminum, and includes a sturdy canvas carrying bag with compartments for each component.

BL670 INCLUDES:
- Twist-grip shut-off valve
- 3 port junction block with striking head
- 2” - 19” extension tubes
- 14” flow tube with piercing point

BL949 (SHOWN) INCLUDES:
- Twist-grip shut-off valve
- 3 port junction block with striking head
- 2” - 19” extension tubes
- 14” flow tube with piercing point
- Distribution nozzle rated at 150 gpm (570 l/min)
- Adapter that allows the distributor nozzle to be used on any 1½” NH threaded hoseline

FEATURES:
- Re-configurable for specific fireground situations
- 150 gpm at 100 psi
- 3 port junction block and twist-grip shut-off valve
- Hardened point
- Canvas carrying bag

BL670    PA1 Transformer Piercing Nozzle System  $750.95
BL949    PA2 Transformer Piercing Nozzle System  $1,125.95

FYRESTICK PIERCING NOZZLE

THE PERFECT FIRE FIGHTING TOOL FOR:
- Attic and Roof Fires: Shingle, slate, metal, wood
- Underhood Vehicle Fires: Car hoods and doors
- Mobile Home Fires: Walls and doors
- Warehouse Fires: Garage doors and roofs
- Many more applications

FEATURES:
- Sledge-head replaceable anvil
- Patented spray head & piercing blade
- Spray jets flow 100 gpm @ 100 psi
- 20˚ angled replaceable hardened tip
- 1½” NST hose fitting
- 16½’’ penetration
- Slip-resistant handle surface
- Reinforced handle grip
- Designed and manufactured in the USA

BK008    Fyrestick Piercing Nozzle  $878.95

AUGUSTUS FIRE TOOLS

Augustus Fire Tool for Portable Extinguishers - Operates in conjunction with CO2, Pressurized Water or Dry Chemical extinguishers. Supplied with a six’ hose, to replace the existing hose on the extinguisher, and is fitted with a quick-connect male coupling to connect to the tool’s inlet handle female brass safety-lock coupling. Ship. wt. 14 lbs.

Augustus Fire Tool for Hose Lines - Designed to be used with a booster tank operation. The tool can be supplied from a booster tank using either a 1” booster line, 1½” or 1¼” pre-connect hose line with a flow in excess of 55 gpm. Comes with a female swivel connection for either 1” or 1½” hose equipped with National Standard Hose Thread or any thread. Use on vehicles and confined spaces. Portable or hose line. Ship. wt. 15 lbs.

AG065    Fire Tool with CO2 Hose  $1,178.95
AG066    Fire Tool with Dry Chemical Hose  $1,178.95
AG067    Fire Tool with Water Foam Hose  $1,178.95
AK174    Fire Tool Portable Complete Package  $1,293.95
AG069    Fire Tool w/1” Female Swivel  $1,154.95
AG070    Fire Tool w/1” Flat Hose Whip & Swivels  $1,238.95
AK175    Complete Package Augustus Fire Tool  $1,521.95
900 SERIES PIERCING NOZZLES
These nozzles combine the best of durability, flexibility and are light in weight. They can accommodate extensions for extra reach (2’ per extension). They can also be driven in with a mallet if needed. This unique nozzle design needs to be driven in only 3.75” to have full penetration of the sprayer unit. Ideal for walls with coverage of up to 25’ in all directions. It’s powerful enough for fires in attics, basements, mobile homes, garages, vehicles or any confined space. These piercing nozzles feature a unique safety handle that allows a firefighter to safely hold the unit when a mallet is being used to drive the nozzle in. The handle is removable if needed. They come with 1.5” NST threads as standard; other threads are available. Designed for the rugged demands of the Fire Service worldwide. Mounting hardware is included. Made in the USA. Ship. wt. 9-24 lbs.

LIGHTWEIGHT NOZZLES
The Lightweight FlameFighter is a lighter weight 3’ applicator made of high-quality steel and aluminum. Comes with 1½” pistol grip ball shutoff. Providing quick and efficient access through roofs, doors, walls, floors and even foundation blocks to extinguish fires from attic to basement. It gets you to the source of a fire quickly. In just seconds one or two firefighters can insert the FlameFighter into virtually any desired entry point and generate a high pressure water spray covering up to 2,400 sq. ft. at 150 psi delivering 212 gpm. For vehicle fires, it easily pierces the hood, door or trunk to make for quick extinguishing. What’s more, whether you’re using water or foam, the precisely placed openings in the nozzle send out a pressuring spray that extinguishes or cools most any fire. Adapt to foam applications. Mounting hardware is included. Made in the USA. 5-yr. warranty. Ship. wt. 45 lbs.

USES:
• Houses
• Cars and trucks
• Garages
• Barns
• Mobile Homes

AJ549 6’ Piercing Applicator Nozzle $1,091.95

900 SERIES 90° PIERCING NOZZLES

- Ideal for use on car fires or confined space
- All FlameFighter nozzles qualify for ISO points
- Delivers up to 139 gpm
- Storage brackets included
- 1½” NSTF
- 38” long
- Includes mounting hardware
- Made in the USA
- 5-year warranty
- Ship wt. 9-12 lbs.

CELLAR NOZZLE

The Cellar Nozzle has a ball bearing revolving action for attacking fires in hard-to-reach places. The AF242 has a 1 1/2" rigid base with 6 variable angle orifices. It flows 95 gpm at 50 psi; measures 3 1/2"L. The AF241 has a 2 1/2" base with 9 variable angle orifices. It flows 250 gpm at 100 psi; measures 5 1/8"L. Ship. wt. 2 lbs.

AF242 1 1/2" Cellar Nozzle $513.95
AF241 2 1/2" Cellar Nozzle $678.95

CHIMNEY SNUFFER KIT

The Chimney Snuffer quickly and safely suppresses chimney fires using an ultra-fine spray, greatly reducing potential water damage. The durable 5 lb. nozzle head is simply operated by a single firefighter and easily breaks through potential blockages within the chimney. Eight strategically placed nozzles provide 40 gallons per hour at 60 psi, allowing the Chimney Snuffer to be supplied by an attack line, 1" line, or even a garden hose. The entire package weighs less than 15 lbs. and is easily stored in apparatus compartment. Ship. wt. 19 lbs.

- Includes: Nozzle head, burn resistant rubber hose, 1" ball style shut off, 1 1/4"x1" adapter and 1/4" garden hose adapter
- Compact, lightweight and simple to deploy
- Ideal for use in all types of chimney liners
- Head easily breaks through creosote buildup, nests or other debris

AR159 Chimney Snuffer Kit $695.95

NEW
The Mercury Quick Attack LE portable monitor sets a new standard in the market and is the only portable monitor that meets NFPA 1964 and EN-15767-1. It is compact and lightweight at 15 pounds and flows 500 GPM. Now even better, it can hit low at 10° and far up to 250 feet at 100 psi. Easy and quick to deploy, friction loss is minimal.

**MERCURY QUICK ATTACK LE PORTABLE MONITOR**

**HIT LOW, HIT HARD AND HIT FAR WITH THE NEW MERCURY QUICK ATTACK LE MONITOR**

- Hits low at 10°
- Improved reach up to 250 feet with the NEW Mercury Adjustable Nozzle and the only fog nozzle with the reach of a smooth bore
- Only portable monitor to meet NFPA 1964 and EN-15767-1
- Compact size and weighs only 15 lbs. for quick deployment
- Easy open/close valve
- Strap attached with bag for easy stowing

**MERCURY FLOWGUARD**

**INTRODUCING FLOWGUARD FOR THE MERCURY QUICK ATTACK LE PORTABLE FIRE MONITOR**

The Mercury FlowGuard is designed to reduce hazard risk for your crew and give them confidence while firefighting. Not only does the FlowGuard protect your crew, but also your pump. When the hose or the monitor experiences excessive, potentially hazardous movement while flowing, the Mercury FlowGuard, will automatically reduce water flow.

**DOES NOT SHUT DOWN ALL THE FLOW:**
- Reduces to about 1/3 of the flow
- No water hammer off the pump

**FAST AND EASY RESET:**
- Close monitor valve, turn reset button a 1/4 turn, put hose back in line, open monitor valve and start flowing

**LIGHTWEIGHT AND COMPACT WITH A SLIM PROFILE:**
- Weighing 4.6 lbs. or 2 kg
- 9.125” long or 231 mm

**LOW FRICTION LOSS:**
- 8 PSI or less than 1 bar at 500 gpm or 1900 lpm
  (total friction loss at 500 gpm is 14 PSI or 1 bar with FlowGuard)

**BP338  Mercury FlowGuard**

**$735.95**

**AW470  Mercury Quick Attack LE Monitor**

**$1,816.95**

**AW468  Stacked Tips**

**$439.95**

**AW469  Mercury Adjustable Nozzle 250-375-500 gpm**

**$527.95**

**AW470  Mounting Bracket**

**$214.95**
**FORESTRY MONITOR**

300 GPM (1140 LPM)

The Forestry Monitor is the latest addition to the Akron Brass electric monitor family. It provides an extremely rugged durable design ideal for brush and wildland firefighting. This compact monitor features a fully sealed integrated electrical control system with waterproof locking connectors for pinpoint stream positioning and accuracy. *Ship. wt. 25 lbs. (Not including nozzle.)*

- Low flow adjustable electric fog nozzle with flush 30-60-95-125 gpm
- CAN proportional speed joystick control
- Lightweight Pyrolite construction
- Integrated and sealed electronics
- Waterproof (IP 67 rated) locking connectors
- Simple “plug and play” installation
- 320° maximum rotation range with stops at +/-90°
- 135° maximum elevation range with stops at -45° and -20°
- 12v or 24v option
- Dimensions: 13 3/16"H x 9"D x 11 9/16"W
- Inlet: 2" NPTF
- Outlet: 1 1/2"

**SPECIFY:** 12v or 24v Monitor

**APOLLO™ 2-INLET MONITOR**

This lightweight, portable monitor (36 lbs. without tube and tip) can be either truck mounted as a deck mount or quickly removed and used remotely from the truck. Rugged Pyrolite® construction with 3" waterway and (2) 2 ½" clappered, swivel inlets (3" available upon request). Rated at 1250 gpm (deck flow), it allows less than 10 psi pressure loss @ 800 gpm. Comes with 3" flange for deck mount units. Available with or without tube and tips or with a master stream nozzle. *Ship. wt. 36 lbs.*

- 360° rotation when mounted in the deck mode, 180° in the portable mode
- Vertical travel from 80° above to 15° below horizontal with built-in 35° safety stop
- 3" waterway with cast-in turning vanes for efficient flow
- Direct mount - A combination 3" NPT female and 3" flange
- Carbide spikes for extended wear
- 1000 gpm monitor

**BLITZFORCE PORTABLE MONITOR**

The BlitzForce is Task Force Tips’ innovative, lightweight, and highly versatile portable attack monitor. Rated up to 500 gpm with either a combination nozzle or stacked tips, BlitzForce integrates a low loss waterway with positive locking valve control, and a corrosion preventing anodized and powder coat finish. An exclusive high strength tie-down strap and carbide tipped folding legs offer extreme stability in varying fire environments. With an integral stream shaper for superior reach and penetration performance, the BlitzForce delivers a 20° side to side and a 20° to 60° up and down range of stream motion. 5-year warranty and Apparatus Storage bracket are standard.

- Stores securely for a rapid deployment in a space of only 19" x 9" x 12"
- Full flow 2" waterway provides 500gpm initial attack flows with only 9psi loss
- High strength folding aluminum alloy legs
- Horizontal rotation of 20° either side of the center and an elevation range of 30-60° in unmanned mode, or a low 20° angle when manned, the BlitzForce provides amazing operational versatility
- Each monitor is produced from hard coat anodized aluminum alloy, stainless steel, and is powder coated for maximum corrosion and abrasion resistance

**RAM XD MONITOR**

**NOW WITH 14° LOWER ATTACK ANGLE**

The improved RAM XD features enhancements from the standard RAM monitor specifically designed for eXtreme Duty Use, or XD. The most significant enhancement is a new lower attack angle of 14°. It still features the largest deployed footprint of any portable monitor and only 9 psi friction loss at the rated 500 gpm flow at only 75 psi! The standard hydraulic safety system automatically increases down force under conditions that normally limit stability.

- Industry leading stability and safety
- Designed for unmanned operation

| BN409 | RAM XD Monitor $2,381.95 |
| BB104 | RAN (Rapid Attack Nozzle) $547.95 |
| BB105 | Mounting Bracket (Not Shown) $172.95 |
| BB106 | Triple Stacked Tips $340.95 |
| BB107 | Deluge Tip $215.95 |
| BB108 | Stream Shaper (For Stacked and Deluge Tips Only) $178.95 |

---

**BRUSHHAWK ELECTRIC MONITOR**

**FLOW RATES UP TO 500 GPM (2000 LPM)**

With a small swing radius and low stow height, the BrushHawk is the most compact monitor in its class. Perfect for limited bumper space on brush and wildland trucks while also improving field of vision. Utilizing CANbus control, the BrushHawk comes with a proportional joystick controller that provides monitor controls for up/down/left/right and nozzle fog/stream controls. The joystick also includes on/off and trigger control for the optional valve kit. No intermediate junction box is required between the joystick and monitor, streamlining installation and space requirements.

**FEATURES:**
- Designed specifically for wildland and quick attack firefighting
- Simple plug and play with full CANbus communication
- Field adjustable vertical and horizontal electronic stops
- Fully proportional joystick includes all monitor controls including trigger for water valve control
- Electronics are located and sealed within monitor body - no separate module required

**SPECIFICATIONS:**
- Inlet: 1.5” and 2.0” FNPT
- Outlet: 1.5” MNHT
- Vertical Travel: -30°/+90° or -45°/+45°
- Horizontal: Left 175°/Right 175° or Left 90°/Right 90°
- Swing Radius: 6.9” (175mm)
- Stow Height: 11.2” (285 mm)
- Weight: 13.5 lbs. (6.1 kg)

| BP350 | BrushHawk Electric Monitor Package - Includes Joystick $6,795.95 |

---

**SIDEWINDER® EXM MONITOR**

The Sidewinder® EXM is a complete monitor with an integrated control box, ready for 2-wire connection to any other EXM enabled component. It is ideal for front bumper applications and can be controlled via joystick. Its compact, elliptical waterway delivers up to 700 gpm. As standard, enabled for either wired or wireless EXM network connection. Motors NEMA 4 rated, 11-27 VDC power. Inlet: 2.5” F NPT or 2.5” F BSPP. Outlet: 2.5” NHT & BSPP.

- Ideal for front bumper installations
- 135° vertical travel; 350° horizontal travel
- EXM Technology-plug and play J1939 CAN Bus network

| BN418 | The Sidewinder® EXM 2.5” NPT/NHT, Monitor Only $4,769.95 |
| BN419 | Panel Mount Controller $1,054.95 |
| BN420 | Joystick Controller $2,645.95 |
EF1 REMOTE CONTROL MONITOR
TFT’S MOST COMPACT MONITOR WITH FLOWS UP TO 200GPM

The EF1 remotely controlled monitor is a great option for wildland and interface apparatus. At less than 13” (319mm) tall, the EF1 is an ideal forestry bumper turret. The EF1 is hard-coated aluminum alloy which is then powder coated inside and out. All electronics are tightly contained in a sealed control box that is part of the monitor casting. Monitor wiring is reduced to a minimum and installs easily using a one plug connection.

CROSSFIRE® MASTER STREAM APPLIANCE

Crossfire® utilizes the Safe-Tak valve to help ensure firefighter safety. It’s a lever-operated butterfly valve connected to a foot on the base of the monitor. In normal operation, the valve is open allowing maximum flow of 1,250 gpm. However, should the monitor start to tip for any reason, the valve closes, cutting the flow area by 90% and reducing the reaction force. By not closing completely, it allows a continued flow, minimizing water hammer. Take a look at all the great features of the Crossfire®. Features include safety plunger, high-visibility gauge, multiple inlets (double 2 1/2" or single 3", 3 1/2", 4", 4 1/2" NST, 4" or 5" Storz), rotational lock lever, quick connect base, stainless steel legs with carbide-tipped spikes, automatic drain and safety strap. Ship. wt. 50 lbs.

PERMANENT MOUNT STATION MONITORS

Station monitors were specifically designed to meet all the needs of municipal and industrial applications. The balanced, full flow, seamless, 2 1/2" single waterway configuration reduces friction loss, improving streams and distance. Operates easily at all pressure ranges. 140° vertical, 360° horizontal (750 gpm); 140° vertical, 360° horizontal (1200 gpm). Carbon steel construction with stainless steel discharge and Zerk fittings for lubrication. Your choice of permanent mount tiller bar or steering wheel handle. Red epoxy finish inside and out for effective corrosion resistance. 3” flange base. Ship. wt. 50 lbs.

- Less friction loss
- Single waterway
- Carbon steel construction
- Stainless steel discharge
- Balanced flow design
- 2 1/2", 3" or 4" waterways

**DARLEY CORD HOSE**

**ALL-POLYESTER DOUBLE JACKET 800 PSI HI-TECH POLYMER IMPREGNATION HOSE**

Darley - Cord 800 is a unique attack-grade fire hose, developed specifically for the rigorous environment of fire department use.

- All-polyester double jacket construction
- Ozone-resistant, high-tensile synthetic rubber liner
- Most advanced fire hose in the industry
- Lightweight and extremely durable
- Outside jacket is thoroughly impregnated with a heat-set High-Tech Polymer, providing durability and ease of maintenance (superior to Hypalon)
- Completely immune to any effects of mildew

**MAGNUM 800-NYLON HOSE**

This double jacket attack hose is manufactured using tightly woven entangled filament nylon 6.6 yarns in both the inner and outer jackets to promote abrasion resistance and kink-resistance. With higher tensile strength than that of polyester, the Magnum 800 is designed for aggressive fire department use.

- 100% all synthetic entangled NYLON 6.6 Tube
- EPDM rubber lined for the best ozone resistance

**SPECIFY COLOR:** Yellow or Orange

TRU-ID HOSE

Introducing TRU-ID, the first and only true internal diameter hose specifically designed for combat fire fighting. Classic performance in an innovative design and rugged construction guaranteed to withstand the rigors of the fire ground. TRU-ID comes standard with lightweight, laser engraved, extruded aluminum alloy couplings. These anodized, threaded expansion ring couplings are guaranteed for the life of the hose. Virtually kink resistant, TRU-ID handlines are designed for use with low pressure/high volume nozzles built to reduce hose whip and optimize friction loss, all while delivering targeted flow rates, guaranteed. Seize the power of targeted flows with command and control performance, specify TRU-ID. Backed by a 10-year warranty.

FEATURES:
- True internal diameters
- Available diameters: 1½”, 2½”, and 2¾”
- Heavy duty EPDM rubber liner
- Lightweight 100% polyester double jacket
- Heavy duty EPDM rubber liner
- Mildew resistant
- Comes standard with lightweight, laser engraved, extruded aluminum alloy couplings

COMBAT READY HOSE

This hose is designed specifically for aggressive interior fire attack operations. The outer jacket is woven from staple polyester yarns over an inner liner consisting of one-piece extruded through-the-weave tube. Combat Ready is manufactured in a high-visibility white with one red and one blue stripe running the length of the hose. This heat-resistant, drag-resistant, ozone-resistant and kink-resistant hose has superior friction loss characteristics. Ship. wt. 18-26 lbs.

- Abrasion-resistant
- High visibility
- 10-year warranty
- Low friction loss

**DARLEY HI-RISE HOSE**

Lightweight hose ideal for high-rise packs. At about half the weight of standard double jacketed hose, it is easier and less stressful to carry up stairs. Made of 100% synthetic nylon and completely protected by an abrasion and chemical-resistant orange colored nitrile rubber cover. 1 3/4" size is coupled with 1 1/2" NST lightweight anodized couplings standard. Tensile strength of 2000 psi. 50' of Darley Hi-Rise Hose coils to only 10". 5-year warranty. **Color:** Hi-visibility orange.

DARLEY CLEAR PVC SUCTION HOSE
LIGHTWEIGHT - TIGHT BEND RADIUS

This lightweight suction hose can be easily handled by one firefighter. Black ridged helix (1 1/2” x 10’ and 2 1/2” x 10’ are white/clear) and smooth bore give this hose unrestricted flow. Clear flexible connector web allows for visual monitoring of incoming water. Sold standard in 10-foot lengths, coupled. NST threads standard. Ship. wt. 45 lbs.

- Operates in extreme temperatures
- Sold complete with end couplings
- For drafting only

B. GRIPPER HOSE SYSTEM
AN EFFECTIVE WAY OF TRANSPORTING HOSE

The Gripper Hose System consists of three heavy duty nylon straps, with a padded shoulder sling, all sewn together to create a hose harness. The gripper has a padded high visibility shoulder sling, with three 2" wide, 42" long, 3000 pound strength webbing to secure the hose and carries 150' of 1¾" hose. Utilizes cam buckles and torque rings and is easily opened with a gloved hand. The 42" long straps have the capacity to hold more hose than the average firefighter can carry. Ship. wt. 4 lbs.

AF151  Gripper Hose System          $149.95

C. HOSE VICE
CARRY MORE HOSE EASIER

The Hose Vice is the latest in the evolution of our hose carrying systems. This product incorporates many ideas given to us by our customers. Features include: an updated shoulder strap, which is adjustable and removable. The shoulder strap is long enough that a firefighter can carry the bundle across the body for better balance. Two fire-fighters can also carry The Hose Vice. Handles have been incorporated into the ends of the four straps, along with two molded rubber grips on top. The overall length is 35" and each strap has an adjustable circumference range of 20" - 38". Capacity is 150 OR 200' of 1¾" hose as shown. 3M reflective has been added to increase visibility. Made in the USA. Ship. wt. 3 lbs.

AK187  Hose Vice                   $255.95
NEVER LOSE YOUR TOOLS
The Hydrant Strap increases the speed and safety of your hydrant hook-ups. The complete Hydrant Strap includes a six-foot loop of heavy-duty nylon webbing fastened to the end of your supply or suction line by a three-foot hose strap. The hose strap is made from seat belt material with a seat belt type buckle. Attached to the hose strap is a tool pouch containing the tools needed for hydrant hook-up. The firefighter stands on the ground and pulls the Hydrant Strap fastened to the end of the supply line in the hose bed and loops the strap over the hydrant. The engine can then lay the hose line. After the hose lay is finished, it is simply unbuckled. Ship. wt. 1 lb. without tools.

AC961:  
- Hydrant wrench  
- 2 - Spanner wrenches for rocker lug couplings

AC962:  
- Hydrant wrench  
- 2 - Spanner wrenches for 4" or 5" Storz

AC960  Hydrant Strap without Tools  $54.95
AC961  Hydrant Strap with Tools  $97.95
AC962  Hydrant Strap with Tools  $97.95

HYDRANT BAG
A large 22 oz. vinyl bag designed to hold all of the equipment you need for a hydrant operation. The Velcro® closure on top allows for quick access with your gloves on. This bag will hold large gated valves, wyes, wrenches, reducers, etc. A high density padded bottom helps to protect equipment. The molded TUFF bottom provides an almost indestructible base. Dimensions: 24”Lx12”Wx9”H.

BL628  Hydrant Bag  $122.95

BL889  Adjustable Hydrant Wrench w/Double Spanner Head  $56.95
E119  Hydrant Wrench  $27.95
C285  Hydrant Wrench  $38.95
SUPER SPANNER WRENCH

Fits any standard 4" and 5" Storz or locking type Storz coupling on one end; the other end fits 1 1/2" to 3" rocker lug type fire hose couplings. Use the center slot as a gas shutoff. Wrench set includes 4 Super Spanner Wrenches and Mounting Plate. Ship. wt. 1-7 lbs.

BOWRING PERSONAL FIREFIGHTER TOOL

The Bowring firefighting tool is 8.1" tall 5.9" wide .375" thick and weighs 22oz, so it easily fits into a firefighters bunker pants. It is made of 17-4 steel and incredibly strong with no plastic or moving parts.

- Hose advancement
- RIT firefighter drag
- High-rise tool (use as a cheater-bar, standpipe wheel, spanner wrench)
- Gas shutoff
- Windshield removal and glass ripper
- O2 wrench
- Door wedge
- Nance drill - Denver drill
- Water shutoff
- Mattress hook
- Forcible entry tool
- Spanner wrench (fits pin lugs, rocker-lugs, and storz lugs)
- Gypsum board ripper (cleanly rips through while looking for hot spots)

When shopping for firefighter forcible entry tools, your department won’t find a more versatile personal carry tool than the Wellz Tool™. This multi-use tool is small enough to fit into a responder’s pocket, while its folding design provides a number of essential uses. The folding handle can be angled 90˚ to block hinges, 135˚ to breach doors, 0˚ to utilize built-in tools and 270˚ to create a different prying vantage. Dimensions: 4.3”Hx7.5”Wx9.5”L. Ship. wt. 4 lbs.

- Teflon-Coated Shaft: Provides smooth actuation
- Knurled Finger Nut: Tightens and locks tool into varying positions
- Hydrant Socket: Makes this the most versatile forcible entry tool
- 7075 Anodized-Hardened Aluminum Hook Plate: Breaches doors
- Shoulder Bolt: Acts as a durable hinge in this foldable design
- Open: 2’’Hx14”L, Closed: 2’’Hx7.5”L

AJ281 Premium Quality Spanner Wrench $26.95

PREMIUM QUALITY SPANNER WRENCH

It’s made from aerospace alloy aluminum. This means it’s ultra-light and super strong. Plus, because it is non-sparking, it’s safe to use in hazardous situations. You’ll never go wrong with the best. Compatible with most brackets. Fits up to 31/2” couplings, has gas cock shut-off. Ship. wt. 1 lb.

B397 Darley Spanner Wrench $15.95

DARLEY SPANNER WRENCH

Lightweight aluminum spanner. Includes belt hook eye, hammer head and gas cock shut-off. Fits couplings from ¾” to 4”. Ship. wt 1 lb.

L800 Double End Spanner Wrench $18.95

DOUBLE END SPANNER WRENCH

Double end hole type spanner, fits ½” and 1” booster hose couplings and 2½” hole type fittings. Ship. wt. 1 lb.

BL425 Hydrant Wrench $90.95

HYDRANT WRENCH

- Fits hydrant stems both 1” (square and pentagon) and 1½” (pentagon)
- Will work on worn stems
- No more adjusting, just put the open end over the hydrant stem and pull the handle, the harder you pull, the tighter the grip
- To release, just relax and lift it off the stem
- Will actually stay on the stem and not in the mud while you work
- The spanner end of the wrench is designed for use on 2½” and larger fittings
- Weight: 5 lbs.
- Length: 18”

AZ357 Folding Spanner Wrench/Belt Ring $41.95

FOLDING SPANNER WRENCH/BELT RING

Ultra-light non-sparking folding spanner with extra wide pry end, and gas shut-off. Fits couplings from ¾” to 6” Ship. wt. 1 lb.

AM292 Res-Q-Rench $22.95

RES-Q-RENCH

- Spanner wrench works with 1½” and 2¼” rocker lug couplings
- Only folding spanner that works with 4” & 5” storz locking couplings
- Made from glass-reinforced nylon
- Folds compactly into your pocket
- Integrated carbide tip
- Heavy-duty seat belt cutter
- Prying tool
- 12” open; 8” close
- Ship. wt. 1 lb.

BL758 WELLZ Tool™ $149.95

WELLZ TOOL™

NEW
EXPANSION UNITS
Complete expansion unit assembly for attaching 1" through 6" couplings. Note: Red Head expansion units are compatible with some other manufacturers’ expanders. Please specify the manufacturer and model. Ship. wt. 1 lb.

QUIC-BRIDGE® HOSE GUARDS

One of the most economically priced hose bridges available and requires little storage space. Made of extruded aluminum to accommodate 16” or 24” widths (5” hose). Each bridge consists of one center hose guard and two ramps; neoprene feet hold the bridge firmly in place and vehicle tires do not come into contact with the hose line. Remove one ramp and bridge can be used to jump a curb.  
Ship. wt. 192 lbs.

HOSE RAMPS

No rust aluminum supports up to 50,000 lb. loads. Ramps are traction ribbed and stiffened for extra strength. Other features include non-skid bottom, one piece construction and won’t bend or sag. Easily stack sets for convenient transport.  
Ship. wt. 90 lbs.

Sold in sets of six 2’ sections

AM098  16” Hose Ramp $971.95/set
AM099  24” Hose Ramp $1,269.95/set

HOSE WASHER

Effective in cleaning all types of dirty and caked hoses. Simply connect to a fire hydrant or pumper (40-60 operating psi recommended) and these units will blast the hose clean of all debris. These machines operate by using water pressure to produce a conical multi-jet water stream while using no moving parts. This ensures long life and no loss of performance over time. Manufactured and assembled in USA.

AJ515 - automatic feed washer, 1.5” NST connection, AJ453 - manual feed washer, 2.5” NST connection.  
Ship. wt. 15 lbs.

AJ515  3” Max Hose Size, 1.5” NST Connection $566.95
AJ453  5” Max Hose Size, 2.5” NST Connection $1,067.95

HOSE JACKET SLEEVE

STOPS A LEAKY HOSE

Use for emergency repair of burst/leaky hose or even as an emergency adapter for the connection of two hose lines with different threads in situations where pressures do not exceed 150 psi. Made of reinforced cast Akrolite® body with molded neoprene inner liner. Fits all 2½” hose (from 2¾” to 3½” O.D.) Measures 13” long. Red only.  
Ship. wt. 20 lbs.

B683  Hose Jacket Sleeve $883.95

HOSE RAMPS

Sold in sets of two bridges

AM098  16” Hose Ramp $971.95/set
AM099  24” Hose Ramp $1,269.95/set

HOSE SHUTOFF CLAMP

A lightweight shutoff clamp for double jacket hose up to 3”. Press down on handle and the rubber jaws lock in place. Comes complete with mounting bracket.  
Ship. wt. 18 lbs.

H875  Hose Shutoff Clamp $635.95

HEBERT HOSE CLAMP

Saves time and labor when removing burst hose, relieving pressure on a line or changing fittings without damaging hose. Simple to operate and releases quickly.  
Dimensions: 12½”Hx15”Wx5.5”D, 6” opening.  
Ship. wt. 24 lbs.

G301  Up To 3’ Hose $271.95
G30102  Up To 6’ Hose $454.95
G30101  Running Board Bracket $51.95
FIRE HOSE TESTER WITH TOOL TRAY
The Flamefighter hose tester features an industry leading design which incorporates the pump mounting position into a wrench and adapter tray keeping necessary tools sorted and off the work floor. Made specifically for use in the fire industry this unit is capable of testing up to 6" diameter hose and up to 300’ per discharge. The wheeled cart is able to fit through a standard 36" doorway, is equipped with 10” tires for superior maneuverability, and features stainless steel ball valves for years of trouble free operation. Options available include 1.5” or 2.5” NST adapters for hassle free connecting. The pump is capable of pumping 4 gpm at 600 psi. This hose testing unit is manufactured and assembled in USA.

HOSE ROLLERS
REMOVE AIR & WATER EASILY FROM YOUR HOSE
Hose Rollers are designed to remove air and water from your 1½” to 5” single or double jacket hose. Heavy duty nylon rollers are durable for years of dependable service. Simply feed the hose through and walk the length of the hose. Two-person model AF155 is hinged at one end to clamp around the hose. One-person model AF154 slips over the end of the hose and the handles compress the rollers against the hose. Ship. wt. 10 lbs.

HOSE HOIST
• For raising/lowering hose, ladders, etc. to and from the roof or through windows
• Akrolite™ construction

HOSE & LADDER STRAP
Use the hose and ladder strap to advance hose, drag pre-connect-ed hose from the truck or carry non-charged hose up a ladder. Tough nylon webbing with lightweight aluminum alloy drag handle on one end and adjustable hook end on other. Fits up to 2½” hose. Ship. wt. 1 lb.
DARLEY FLOW TEST KIT
ACCURATELY MEASURE FLOW IN HYDRANT SYSTEMS & FIRE PUMPS

Darley offers its own Flow Test Kit with several outstanding design features that make it easier to use than kits offered by others. Precise flow measurement accurately measures flows from 160-1500 gpm within 30-200 psi pitot gauge range. Reliable conversion table-flow results based on standard flow charts and proven with extensive water volume tests. Liquid-filled dial gauge 3 1/2" diameter, Grade A-1% accuracy, 0-200 psi range and vibration free readings. Tester body nozzles and swivel inlet are made of heat-treated aluminum alloy. Parts are hard-coated anodized to provide an extremely durable, protective surface. Automatic coupling design for instant and positive nozzle bore change. Renewable Brass Pitot Blade allows easy, inexpensive pitot blade replacement. Order the complete Darley Flow Test or Economy Kit. Ship. wt. 18 lbs.

COMPLETE FLOW TEST KIT
- Set of Six Nozzle Tips: 1", 1 1/4", 1 1/2", 1 3/4", 2" & 2 1/4"
- One - 2 1/2" NST Female swivel inlet
- Complete instructions and flow chart
- Molded plastic foam padded case

ECONOMY FLOW TEST KIT
- Choice of four nozzle tip sizes
- One - 2 1/2" NST Female swivel inlet
- Plastic tool box with tool tray

AF328 SPECIFY 4 NOZZLE TIP SIZES: 1", 1 1/4", 1 1/2", 1 3/4", 2" & 2 1/4"
Y899 Darley Flow Test Kit with Carrying Case $1,033.95
Y899L Darley Flow Test Kit with Metric Conversion Card $1,033.95
AF328 Darley Economy Flow Test Kit $848.95
4408207 Replacement Pitot Blade $77.95
4408107 Optional 2 1/2" Nozzle $158.95

2 1/2" HYDRANT FLOW TEST KIT
- Includes a 2 1/2" barrel with a pitot tube positioned in the waterway and water diffuser assembly
- 3.5" liquid filled 0-160 psi (0-1100 kpa) gauge
- Supplied with flow charts for accurate measuring
- Pitot tube is positioned for accurate readings
- Large, heavy duty, black case 18 3/8"L x 14 1/4"W x 8"H

BL913 2 1/2" Hydrant Flow Test Kit $1,089.95

APPARATUS FLOW TEST KIT
The Apparatus Flow Test Kit includes 9 tips available to choose from, ranging from 3/4" to 2 1/4" in 1/8" increments. Please contact Darley if you wish to select different tip sizes at 1.800.4.DARLEY.

- Durable pyrolite construction
- Designed for easy operation providing highly accurate results
- 3/4" liquid filled 0-160 psi gauge with large, easy to read increments
- Large heavy duty carrying case
- Case Dimensions: 18 3/8"W x 14 1/4"D x 8"H
- Flow test kit comes standard with 4 tip sizes: 1 1/2", 1 3/4", 2", 2 1/4"

BL912 Apparatus Flow Test Kit $1,376.95
**HYDRANT DIFFUSER**

PROTECT PROPERTY AND VEHICLES FROM POSSIBLE WATER FORCE DAMAGE

Created to overcome the constant problem of traffic disruption and water force damage to property and vegetation in the testing area. Discharge stream velocity is slowed and redirected while flowing through a series of steel grids. The pattern diverter, on outer edge of discharge cone, directs diffused stream to side or down, depending on adjustable settings. Slots in the case inlet adapter permit a firm hold of pitot gauge against the full water force before diffusion, assuring a more accurate pitot reading. The pipe-like projection at the right serves as a handle for easy threading during hydrant attachment. Even high pressure hydrants delivering 1125 gpm are now limited to a discharge distance of 5'. Fully in accord with “Special Interest Bulletins” of the American Insurance Association. 2½” NST threads. 17"Hx17"Wx29"L. Ship. wt. 22 lbs.

**DARLEY FIRE HYDRANT PRESSURE GAUGE**

**TEST STATIC PRESSURE**

Shows pressure in the main or hydrant. Complete with 2¼" gauge, bleed-off valve and chrome-plated brass cap. Easily installed by removing the hydrant cap and screwing on the pressure gauge assembly. Rocker lugs afford an easy grip with a spanner wrench. Gauge instantly shows the static pressure in the hydrant when it is turned on. Dial pressure is 100 psi unless 200 psi is specified. Made only for 2½" NST. Ship. wt. 5 lbs.

**NEW LOW PRICE**

**DARLEY HYDRANT FLAGS**

Darley flags improve fire hydrant’s visibility when covered by snow or weeds. Simply remove the 2½” cap, slip on and position the flag in an upright position, then tighten cap. It’s that easy. ¼"x52" steel rod and 3"x5" flag have a powder-coated red finish. Ship. wt. 3 lbs.

**SOLD IN LOTS OF 25 OR MORE**

**DARLEY PUMP AND HYDRANT TESTING PIEZOMETER**

Take pressure readings and determine the amount of water flowing from openings up to 8" in diameter with this Piezometer. Accurately reads flowing pressures to check the fire fighting efficiency of pumpers and hydrants. You may have gauges that give you the static pressure (the pressure when no water is flowing), but without the Piezometer, you cannot determine how much water can actually be delivered through the outlet with out checking the flowing or velocity pressure. Constructed of all brass tube with bleeder valve. Made to Underwriters specifications; Discharge table included. Ship. wt. 2 lbs.

**S672** Hydrant Diffuser $560.95

**BEST SELLER**

**HYDRANT Flags**

- Darley flags improve fire hydrant’s visibility when covered by snow or weeds. Simply remove the 2½” cap, slip on and position the flag in an upright position, then tighten cap. It’s that easy. ¼"x52" steel rod and 3"x5" flag have a powder-coated red finish. Ship. wt. 3 lbs.

**S840** Hydrant Flags $9.95/ea. Order lots of 50 for $8.95/ea.

**SOLD IN LOTS OF 25 OR MORE**

**DARLEY HYDRANT FLAGS**

Darley flags improve fire hydrant’s visibility when covered by snow or weeds. Simply remove the 2½” cap, slip on and position the flag in an upright position, then tighten cap. It’s that easy. ¼"x52" steel rod and 3"x5" flag have a powder-coated red finish. Ship. wt. 3 lbs.
THE HOSE MONSTER®
THE SAFEST, MOST ACCURATE WAY TO TEST FIRE PUMPS, FLUSH & EVALUATE WATER SUPPLIES THROUGH HYDRANTS

The 2 1/2” Hose Monster™ utilizes a built-in-pitot and is used for hydrant flow testing, hydrant flushing, and fire pump testing. The patented design minimizes damage to landscaping and passing autos by controlling and dramatically reducing the force of flowing water. The 4” and 4 1/2” Hose Monster™ utilizes a precisely machined orifice plate and is used for hydrant flow testing, hydrant flushing, and fire pump testing. The Hose Monster should be used with a length of hose; attachment directly to the hydrant is not recommended. Ship. wt. AK246: 27 lbs., AK248: 45 lbs.

- AK246: Use for pump testing and hydrant flow testing; includes built-in pitot system
- AK248: Use for hydrant flow testing; includes internal orifice plate for flow rate readings

AK246 2 1/2” Hose Monster® $1,260.95
AK248 4 1/2” Hose Monster® $1,329.95

BIGBOY HOSE MONSTER™
The BigBoy Hose Monster™ is used for fire flow testing of hydrants, water main flushing, and fire pump testing from connections 4” or larger. The BigBoy Hose Monster incorporates the patented FM approved Pitotless Nozzle™ so rocks and flushing debris pass through without causing pitot damage and accurately measures water flow-rates from 750 to 2,700 GPM. The BigBoy Hose Monster body is made from Polypropylene and the Pitotless Nozzle is made from precision machined aluminum. The BigBoy Hose Monster is intended to be used with a hose and should not be attached directly to a hydrant. The unit comes standard with a 4” NH connection and can be flowed from a larger sized connection by use reducing hose or adapters. Your hose choice will depend on: 1) the diameter of the water source connection, 2) the thread or connection type, and 3) the hose length.

BP018 BigBoy Hose Monster™ $1,053.95

- Perfect for Hydrant Flow Testing or Water Main Flushing
- Uses the patented FM Approved Pitotless Nozzle™ so you'll never have to change out a pitot because it got hit by a rock.
- Read your GPM flow-rate directly on the gauge face while flowing
- Weighs only 13 lbs. yet handles high flow hydrants up to 2,700 GPM
- 4” NH standard connection size, other thread specs are available.
- Flow from 4.5”, or 5” STORZ connections with additional accessories

TAKING FLOW READINGS
The BigBoy GPM Gauge is calibrated to read flow-rate directly from the gauge face. No conversion chart is necessary. If you use another pressure gauge instead of the BigBoy GPM Gauge the BigBoy Hose Monster flow chart must be used to convert from psi to GPM. A 0-60 psi gauge is the most suitable range.

FEATURES
• Perfect for Hydrant Flow Testing or Water Main Flushing
• Uses the patented FM Approved Pitotless Nozzle™ so you’ll never have to change out a pitot because it got hit by a rock.
• Read your GPM flow-rate directly on the gauge face while flowing
• Weighs only 13 lbs. yet handles high flow hydrants up to 2,700 GPM
• 4” NH standard connection size, other thread specs are available.
• Flow from 4.5”, or 5” STORZ connections with additional accessories

INCLUDES:
• Big Boy Hose Monster Body: Made from glass-filled Polypropylene
• Big Boy Pitotless Nozzle 4”: Measures 750 to 2,700 GPM; Factory-installed
• Big Boy GPM Gauge: Reads both GPM flow-rate and psi; 4” dial; liquid-filled
FOUR-OUTLET HOSE TESTER

Offers 3 gpm at 500 psi, powered by a 1 HP 50/60 hertz TEFC motor. Capable of testing to 6" diameter coupled hose, up to 300 feet. Features 4 independently controlled stainless steel ball valves, with 1½" NST male discharges and 2½" NST female inlet swivel. Ship. wt. 175 lbs.

TWO-OUTLET HOSE TESTER

Offering the same features as the model AA930, in a portable Two-Outlet unit. With a footprint of 28"x23"x19", this lightweight, compact design is perfect for tight and confined spaces, such as on board ships and vessels. Ship. wt. 127 lbs.

FOUR-OUTLET HOSE TESTER

Offers 3 gpm at 500 psi, powered by a 1 HP 50/60 hertz TEFC motor. Capable of testing to 6" diameter coupled hose, up to 300 feet. Features 4 independently controlled stainless steel ball valves, with 1½" NST male discharges and 2½" NST female inlet swivel. Ship. wt. 175 lbs.

TWO-OUTLET HOSE TESTER

Offering the same features as the model AA930, in a portable Two-Outlet unit. With a footprint of 28"x23"x19", this lightweight, compact design is perfect for tight and confined spaces, such as on board ships and vessels. Ship. wt. 127 lbs.

FIRE HOSE TESTER

A full line of hose testers offering various gpm and pressure ratings. Featuring four independently controlled stainless steel ball valves, 1½" NST outlets, 2½" NST swivel inlet, enclosed in a rugged, heavy-duty, welded steel chassis. Ship. wt. 194 lbs.

WATER SUPPLIES

1.800.323.0244   |   EDARLEY.COM/WATER

STANDPIPE FLOWMETER
The standpipe flowmeter is made to hook up to the standpipe in highrise applications ensuring you have adequate flow and pressure at the fire floor. It measures both flow and pressure accurately using an integrated sensor, having a completely self-contained battery powered digital readout. Constructed of anodized aluminum, with a swiveling 45° elbow on the inlet side to reduce kinking. The unit is powered by a 9V rechargeable lithium battery which will power the unit for up to 5 hours. It has a low battery warning which activates when the battery has 90 minutes of life left, as well as a battery check feature.

- Compact design for high-rise kit applications
- 9V battery operation with quick change housing
- Dual LED display - Pressure and Flow
- Battery saving Standby operation
- One touch battery meter
- Lightweight aluminum construction

BN574  Standpipe Flowmeter $1,878.95

NEW

AKROFLOW™ PORTABLE FLOW METER & TEST KIT
Knowing your flow is critical to optimal on-scene operations. The AkroFlow Portable Flow Meter & Test Kit provides the necessary components to accomplish all your water flow testing needs. Included in the Flow Meter & Test Kit is the most highly accurate portable flow meter, the AkroFlow, plus the gauges and adapter commonly used when performing water flow testing.

- Flow test nozzles and portable monitors to maintain optimal performance
- Comply with annual NFPA 1962 test of nozzles, hose and appliances
- Conduct comprehensive nozzle and hose training
- Accurately determine fire flows, friction loss and pump discharge pressures

BP334  AkroFlow™ Meter 2'/ NH x 2'/ NH $1,634.95
BP335  1'/ Line Gauge, NST Swivel, 160 PSI $397.95
BP336  2'/ Line Gauge, NST Swivel, 160 PSI $397.95
BP337  Base Direct Connect 2'/ NH x 1'/ NH $285.95

NEW

INSIGHT PORTABLE FLOW AND PRESSURE METER
Use the new Insight Portable Flow Tester to determine the flow and pressure capabilities of suppression systems or flow test your automatic nozzles, pumpers or hydrants. Test your department’s effectiveness, calibrate your automatic nozzles, pumpers or hydrants. All Insight Portable Flow Tester series meters incorporate a new processor that allows for new features including multiple flow point calibration and multiple tube size. The Insight Portable Flow Tester series is an easy-to-use meter which displays gpm directly. Cap the tube for static pressure.

- Flow readout in 4-digit LED display & accurate to within 1% or reading
- Based on the DFA400 series flow meter
- Displays both flow rate and total flow
- Paddle wheel flow sensor
- Hard shell case with handle (10’/”Hx9’/”Wx7’/”H)

AS538  Portable Flow and Pressure Meter $2,457.95
AS539  Portable Flow and Pitot Pressure $2,587.95
AW310  4’ Tube (No Sensors) NPTM/ Flow Port $477.95
AW311  Paddle Wheel Flow Sensor $152.95
LOW LEVEL STRAINER WITH JET SIPHON

This compact unit can be used as both a water transfer device as well as a low level strainer. Features lightweight 6061-T6 aluminum construction with red powder coat finish for long life. Will draft in as little as 3” of water without whirlpooling. Pivoting neck enables base to stay flat on the tank bottom. Comes standard with internal screen (all sizes) and jet siphon (4”-6”). Ship. wt. 25 lbs.

2 1/2” AND 3” ARE NOT MANUFACTURED WITH A JET SIPHON. CALL FOR PRICING ON STORZ AND CAM LOCK FITTINGS.

SELF LEVELING FLOATING STRAINERS

Kocbek Self Leveling Floating Strainers feature increased flow rates due to high intake ratio and maximum pump flows.

- Increased flow rates due to high intake ratio
- Maximum pump flows
- Light weight design
- New compact design for easy storage
- Handle for ease of carrying
- Vortex Shield protects against whirlpooling
- Full time swiveling strainer
- Most efficient strainers on the market

FLOAT-DISC® STRAINER
PUMP POND WATER FREE OF DEBRIS

The Float-Disc® strainer is a valuable piece of equipment that can save the day in many fire fighting situations. Float-Disc® lets you use the water in ponds or streams, both shallow and deep. Because it operates below scum and debris and above sand and muck, it screens out the materials that wear out impellers, packing and bearings. Since Float-Disc® strainers are self-leveling, there are no whirlpools or suction loss. It will draft in as little as 3” of pond water at pump’s rated capacity. In deep water, Float Dock® drafts clean water below the surface. Each unit is fully guaranteed.

* RECOMMENDED FOR PUMPS 1250 TO 1500 GPM

LOW-FLOW STRAINER

Strainer will perform at maximum pumping capacity down to a water level of just 1 1/2” with no suction loss. Surface turbulence will not affect this strainer. Can be easily stored in truck compartment. Sizes 4” through 6” come with 1 1/2” cast aluminum jet siphon. Ship. wt. 24 lbs.
PORTABLE COLLAPSIBLE FOL-DA-TANK
THE FIRST AND STILL THE BEST

It was more than 50 years ago that the first Fol-Da-Tank was introduced to firefighters, who recognized its value and quality immediately. Fol-Da-Tank Co. has been continually improving frame and fabric designs to help provide the most reliable portable water tank in the industry. Fol-Da-Tank has proved to be the practical answer as an extra water supply for rural areas, where water pressure is low or as a back-up facility for municipal fire departments. Fol-Da-Tank doubles the fire fighting ability of a tanker truck at an affordable price. Two firefighters can unload from the truck and set up in 30 seconds. While pumper empties the Fol-Da-Tank, a tanker can be suppling more water. With the fire out, Fol-Da-Tank can be emptied quickly with the exclusive 10” diameter drain sleeve, which stores inside or outside of the tank.

CONSTRUCTION FEATURES:
- Liners: High performance rubber (HPR), FDA
- Frames: Steel, resistance welded 14-gauge 7/8” square steel tubing with snag-free finish
- Hinges: Die-cut
- Grommets: Solid brass
- Bolts: Heavy-duty

SPECIFY COLOR: Red or Yellow

### SELF-SUPPORTING FRAMELESS PORTABLE WATER TANK

These self-supporting frameless water tanks have been designed to meet the most stringent requirements of rural/urban fire fighting. Problems with inadequate or unusable supplies of water are eliminated by the use of open top self-supporting portable water tanks. In remote areas, the self-supporting tanks are designed for standby water containment, water shuttling situations and to provide a continuous portable water supply. In remote areas, the SST may be filled by pumping water from a natural water source, such as a stream or creek, with a small gas-operated pump. As the self-supporting tank begins to fill with water, its unique design allows it to become self supporting automatically. The SST can be used as a mixing tank as well as a temporary holding in hazardous waste situations. It may be quickly drained through a threaded flange fitting on the side. The tank is totally collapsible and easily stored in its own compact storage bag. Made of heavy-duty industrial PVC.

- No frame, assembly, foot pump, auxiliary air or need to inflate
- Use as mixing tank, water relay, water storage
- Use for fire fighting, hazardous waste, etc

SPECIFY: NST or IPT, Male or Female Threaded Flange Coupling, Installed.

SPECIFY SIZE OF THREADED DRAIN FLANGE COUPLING: 1/2"-1" Available, 6" Additional Cost.

SPECIFY COLOR: Red, Orange or Yellow

Also Available in Aluminum. Call for Pricing 1.800.323.0244
TURBO DRAFT™ FIRE EDUCTOR
THE PORTABLE FIRE HYDRANT

- Gain access to remote water supplies up to 250' away
- Generate usable fire flows up to 670 gpm
- No need for cumbersome hard sleeve
- Recognized by insurance agencies as an alternate water supply source
- Lightweight design sets up in minutes with standard fire hose

NEWTON KWIK DUMP VALVE
...BECAUSE EVERY SECOND COUNTS

The Newton Kwik-Dump Water Valve is 29% faster than any other conventional gravity flow valve tested. It can dump 3000 gallons of water per minute, under ideal conditions. As an average, an 1800 gallon tanker can be emptied in less than one minute. All Newton Valves are constructed so that all parts constantly in contact with water are made of stainless steel, brass, or rubber, to give many years of trouble-free service. The remainder of the valve is made of hot-rolled, prime painted mild steel. Can be readily adapted to tanker trucks already in use. Standard 24" valves can be shortened and remote handle configuration is also available for additional costs.

- The standard valve comes with top-mounted controls and handle, and a 3° angle on the flange
- Outlets are 10”x10” square

PRE-CON SUCTION VALVE

This suction inlet valve is designed to operate as an automatic flow control valve eliminating the need for manual adjustments in relation to water flow. During hydrant operation, it automatically opens in proportion to flow demand while the automatic check valve action helps prevent water hammer. During drafting operation, the check valve action holds prime water when flow is stopped, plus allows switching to booster tank and back to draft without flow interruption. Valve can be greased without removal from pumper. **Ship. wt. 20 lbs.**

- Compact design
- Versatile application
- **Overall Length: 9 1/2”**
- Automatically balances the flow between multiple sources
- Any thread size male or female combination from 4" to 6"

2 1/2" NST 45° ELBOW
RELIEVE STRAIN AND PREVENT HOSE KINKING

Angle elbows are used on the discharge gate of a pumper to relieve strain and prevent kinking of hose. Rocker lug swivel. *Ship. wt. 3 lbs.*

- Prevent kinking
- Relieve hose strain

**SUCTION ELBOW SWIVEL FEMALE TO MALE**

Ideal for fire apparatus with front suction connections. Aluminum elbows from 2 1/2" through 6". Long handle female swivel x male rigid standard. Specify ST, NPSH or NPT threads. Call for pricing on special threads, Storz fittings and/or rocker lug design. *Ship. wt. 4-7 lbs.*

**BRITISH INSTANTANEOUS FITTINGS**

Darley offers a complete line of British Instantaneous fittings. Fittings have hard-coat anodized finish. All 2 1/2" connections are made to conform to the BS336 standard. *Ship. wt. 3 lbs.*

**SUCTION SWIVEL ADAPTER**

Chrome-plated brass with screen; 2 1/2" NST swivel female x 2 1/2" NPT male. *Ship. wt. 3 lbs.*

**CHROME-PLATED BRASS BUSHINGS**

Female NPT by male hose thread bushing with internal lugs. Available with or without screen. *Ship. wt. 4 lbs.*

**Notes:**

- NST shipped unless otherwise specified. Prices other than National Standard (NH or NST) or Iron Pipe (NPSH, IPT or SIPT) available on request.
- For more information, contact EDARLEY.COM/ADAPTERS.
**Lightweight Gated Valve**

No more heavy brass valves to carry around. Our lightweight line wyes with aluminum construction cut the overall weight by more than 30% when compared to traditional brass valves. *Ship. wt. 8 lbs.*

![Lightweight Gated Valve Image]

**Hydrant Gate Valve**

All aluminum hydrant gate valve with resilient seat design. Includes a corrosion resistant stainless steel stem with an aluminum wedge with full flow water output. All aluminum parts are hard coated before powder coating to improve corrosion resistance. Opening/closing takes 12 turns of the hand wheel meeting NFPA requirements to prevent water hammer. 2 1/2” NH female swivel x 2 1/2” NH male.

![Hydrant Gate Valve Image]

**Multi-Use Adapter**

The latest multi-use adapter. Perfect for hazmat decontamination. Other uses include forestry units, portable water, an portable drinking water. You will also find it useful for vehicle wash down. Available in 1 1/2” or 2 1/2” NST. *Ship. wt. 3 lbs.*

![Multi-Use Adapter Image]

**Hydrant Ball Valve**

Lightweight, full-flow hydrant ball valve with 2 1/2” F NST inlet and 2 1/2” M NST outlet. Standard color is silver with black connections and handle. Valve weighs 5 1/2 lbs. Rated at 250 psi working pressure. Self-locking handle for positive positioning.

![Hydrant Ball Valve Image]

**2.5” Hydrant Gate Valve**

Lightweight non-rising stem gate valve 2.5” NH female swivel x 2.5” NH male is excellent for hydrant and other hose line/water control. There is a spinning knob on hand wheel for easy open/close, with a built in slow close safety operation. The gate, spindle, female swivel, male threads, and the body inside and out are all anodized for maximum corrosion resistance. This valve has low friction loss and is maintenance free. This compact valve weighs 4.5 lbs, length 6”, height 9”, and width 5”. The gate valve has a working pressure of 250 PSI.

![2.5” Hydrant Gate Valve Image]
**BLACK MAX™ PISTON INTAKE VALVE**

The Black Max™ Piston Intake Valve has been designed for harsh environments of today’s fire service. It’s superior materials and enlarged waterway allows you to maximize flows and efficiency. **Ship. wt. 32 lbs.**

- **Improved Corrosion Resistance:** Combines stainless steel piston housing, poly-impregnated body and polymer piston for maximum product life
- **Field Serviceable:** Unique 2-piece design allows the piston intake valve to be field serviceable
- **Extended Durability:** Full 10-year warranty against manufacturing defects and corrosion
- **Full Flow:** 2000 gpm (7600 lpm) - Enlarged waterway for maximum flow efficiency
- **Low Friction Loss:** Only 7 psi @ 2000 gpm (.5 bar @ 7600 lpm)

**HYDRANT WYE**

The Hydrant Wye is made of lightweight aluminum alloy and is used for laying two lines from a hydrant to a pumper or for branching a 2½” or larger supply line to two 2½” lines. Has self-locking valves for positive handle positioning. Available in sizes 2½” to 6” female inlet x (2) 2½” NST male swivel valves outlets. **Ship. wt. 17 lbs.**

**SUCTION SIAMESE**

Suction Siamese is made of lightweight aluminum alloy. Used to feed pumper suctions or aerial platforms with one or two, 2½” or 3” hose lines. Has self-locking valves for positive handle positioning. Available in sizes 2½” to 6” female swivel x (2) 2½” NST swivel female valved inlets. **Ship. wt. 19 lbs.**

---

**LIGHTWEIGHT LEADER LINE WYE**

Lightweight Leader Line Wye has a 2½” NST swivel female inlet x (2) 1½” NST male outlets. Used to divide (1) 2½” hose into (2) 1½” hose lines. Each 1½” outlet is independently controlled by high strength polymer handles. **Ship. wt. 5 lbs.**

**AF78801** 2½”F x (2) 2½” M $1,544.95
**AF78802** 3”F x (2) 2½” M $1,649.95
**AF78804** 4”F x (2) 2½” M $1,807.95

**STAINLESS STEEL PISTON INTAKE RELIEF VALVE**

Stainless Steel Piston Intake Relief Valve was designed to incorporate quick-connection, fast but controlled opening, with air bleeder and relief valve. 45° inlet provides smooth water flow for reduced friction loss. This valve is covered by a 10-year warranty against failure due to corrosion. **Ship. wt. 27 lbs.**

**MEGA FLOW VALVE**

Our newest compact design for pumper intake control allows easy maintenance. By removing only five bolts, all moving parts can be removed in one assembly. The new design offers the lowest friction loss and largest waterway available. **Ship. wt. 35 lbs.**

- Low profile 30° integrated elbow
- Field-adjustable pressure relief valve
- Full ¼” air bleeder
- Friction loss at 1000 GPM: 2.3 PSI
- Extension: 10½”Lx8”Wx17”H

3-WAY BALL VALVE

Designed to distribute water to three small diameter lines from a large diameter line, or supply a large diameter line from smaller supply lines. 3-way ball valve features an adjustable pressure relief valve to reduce water hammer. Ball valve body is made of lightweight, high-strength aluminum with powder coat finish. Ball assembly is hard-coat anodized aluminum. Large waterways help minimize pressure loss. *Ship. wt. 21 lbs.*

5-WAY MANIFOLD

Sizes come with 4" or 5" Storz connection on both. Large intake and gated discharge plus (4) 2 1/2" gated discharges. Portable manifold is designed to take advantage of the increased flow capabilities of large diameter hose. Can supply multiple attack lines without a pumper. Brings your hydrant to the fire scene. Fabricated from lightweight, high-strength aluminum alloy and is hard coat anodized. Provided with large full flow waterways, relief valve and a glycerine filled pressure gauge to indicate residual pressure. *Ship. wt. 51 lbs.*

LOW PROFILE BALL INTAKE VALVE
EXTREMELY COMPACT AND LIGHTWEIGHT

- Compact lightweight design fits easily into tight pump panel configurations
- 5 year warranty against corrosion
- Integrated adjustable pressure relief valve
- Flow efficient waterway has less than 5 psi loss and rated 1250 gpm flow
- Individually serialized
- Highly visible valve position indicator and slow close operation exceeds all standards requirements

BN220 5" FSWRL x 4" Rigid STZ  $925.95
BN221 5" FSWRL x 5" Rigid STZ  $925.95
BN223 6" FSWRL x 4" Rigid STZ  $925.95
BN224 6" FSWRL x 5" Rigid STZ  $925.95

INTAKE SIAMESE

These reliable clappered Siamese valves are used for feeding one large line with multiple smaller lines. Clapper valve allows for single line usage. Powder-coat aluminum finish with carrying handle. 10½"Lx10"Wx5"H. Ship. wt. 8 lbs.

- Single clapper

3-WAY SIAMESE:
- Aluminum construction
- Large waterways
- 2½" NST female swivel inlets
- Convenient carrying handle
- Ship. wt. 18 lbs.

AS138 2-Way Siamese 4" Storz x (2) 2½" NST F SW  $318.95
AS139 2-Way Siamese 4" Storz x (2) 2½" NST M  $318.95
AS140 2-Way Siamese 5" Storz x (2) 2½" NST F SW  $318.95

AW078 3-Way Siamese 4½" S x (3) 2½" NH Inlet  $652.95
AW079 3-Way Siamese 5½" S x (3) 2½" NH Inlet  $622.60

SIAMESE 2-WAY CLAPPERED

The Siamese 2-way clappered is made primarily of aluminum alloy that has been heat treated. The Siamese’s other major components are made of stainless steel and galvanized brass. This lightweight and smaller design minimizes the friction loss by up to 3 times. Ship. wt. 8 lbs.

AW080 (2) 2½" F Inlet x 2½" M Outlet  $245.95
AW081 (2) 2½" F Inlet x 4" M Outlet  $587.95
AW083 (2) 2½" F Inlet x 4" Storz Outlet  $592.95
AW084 (2) 4" Storz x 4" Storz Outlet  $1,317.95

SUPER FLOW LARGE BALL VALVE

Designed specifically for feeding to or from large diameter hoses. This locking storz valve has full flow 4½" waterways. Each outlet is provided with a ball gate valve to permit easy shutoff. Adjustable relief valve reduces the effects of water hammer. The large gated wye eliminates the need to lay multiple lines. Particularly useful in supplying multiple apparatus with large diameter hose. Ship. wt. 8 lbs.

AR120 4" Storz to (2) 4" Storz Super Flow Ball Valve  $1,720.95
AR121 5" Storz to (2) 5" Storz Super Flow Ball Valve  $1,720.95
**REVOLUTION INTAKE VALVE**

The Revolution has all of the standard features you expect from an intake valve with flows capable up to 2000 gpm (7600 lpm) making it ideal for the most demanding apparatus intake applications.

- Robust, integrated Pyrolite patent-pending handwheel for easy operation
- Critical pump side waterway components constructed of non-corrosive stainless steel
- Durable, powder coated interior and exterior finish
- Field adjustable relief valve between 50-250 psi (requires 7/8" wrench to adjust), includes 1/2" NPT female thread
- Built-in Open/Close indicator
- 2000 gpm max flow
- All parts that stay in contact with water are constructed of stainless steel
- Field serviceable design
- 10-year heavy-duty warranty against manufacturing defects and corrosion
- Quick turn Bleeder valve operation - vents into relief discharge
- NFPA 1901 compliant

**1% FLUORINE FREE CLASS A/B FOAM CONCENTRATE**

The first dual certified fluorine free Class A/B firefighting foam, PHOS-CHEK 1% A/B, was developed for use on both Class A and B hydrocarbon fires as an environmentally responsible next generation option. It is not intended for use on polar solvent fueled fires. UL certified against NFPA 18 as an effective wetting agent for Class A fires including materials such as wood, cloth, paper, etc. at 0.1% use rate and UL 162 listed as a Class B foam at 1% use rate. Unlike some other A/B foams, PHOS-CHEK 1% A/B contains no PFAS chemicals including but not limited to PFOS or PFOA. This foam can be used with most existing foam equipment such as eductors and onboard foam systems that are designed for traditional 0.1-1% Class A foam systems.

**NEW**

**NO PFAS CHEMICALS**

**SOLD IN 5-GALLON PAILS**

BP332 1% Fluorine Free Class A/B Foam Concentrate $109.95/pail

**3X6% FLUORINE FREE CLASS B FOAM CONCENTRATE**

This environmentally responsible next generation foam concentrate meets the current needs for Class B hydrocarbon and polar solvent fuel fires when used with fresh water. Designed for to fight a broad range of Class B flammable liquid fires including hydrocarbon fuel fires gasoline and diesel and polar solvents such as ketones and alcohol. Unlike legacy C8 foams which are considered to be bioaccumulative PHOS-CHEK 3X6% fluorine free alcohol resistant foam concentrate does not contain PFAS chemicals including but limited to, PFOS or PFOA. This foam can be used with most existing foam equipment such as eductors and onboard foam systems that are designed for traditional 3%-6% B foam systems. Never to be mixed with other Class B foam concentrates. Meets UL 162 Listed, EN 1568-3:2008 (Class IA) and EN 1568-4:2008 (Class IB).

**NEW**

**NO PFAS CHEMICALS**

**SOLD IN 5-GALLON PAILS**

BP333 3X6% Fluorine Free Class B Foam $104.95/pail

**SILV-EX FOAM CONCENTRATE**

A multiple expansion Class A foam concentrate formulated from specialty hydrocarbon surfactants, stabilizers, inhibitors and solvents. Its combination of surfactants and solvents provide extremely good cold weather performance. The original forest fire control concentrate.

- Proven effective on many deep seated Class A fires
- Can be proportioned from 0.1% to 1.0% in fresh, brackish or sea water

**SOLD IN 5-GALLON PAILS**

AB410 Silv-ex Foam Concentrate $129.95/pail

**PRACTICE FOAM**

Practice Foam is an answer to the requests "give us an inexpensive product to train with!" Practice Foam is a variable percentage Class A type product. Safe and inexpensive to use, Practice Foam may be educted at low to high percentages to achieve the desired results of your training session. Although not intended for a "working fire", Practice Foam is entirely suitable for extinguishing training ground fires. For **training only; NOT for fire fighting.**

- Non-toxic, bio-degradable and self-dissipating
- Plenty of suds - no clean up required

**SOLD IN 5-GALLON PAILS**

BG113 Practice Foam $39.95/pail
CLASS A PLUS FOAM CONCENTRATE

Chemguard Class “A” is a non-corrosive, non-toxic, biodegradable foam concentrate. When mixed with water in the correct proportion, it changes the properties of water. It reduces the surface tension of the water, and produces foam, which allows the water to cling to vertical or horizontal surfaces without run off. This allows the water to absorb more heat and provides greater penetration into Class “A” fuels. Ship. wt. 45 lbs.

NEW LOW PRICE

PHOS-CHEK® CLASS A FOAM

Phos-Chek® Class A foam provides superior foam generation and is the most concentrated Class A foam product available today. Phos-Chek® is a unique combination of surfactants that make water more effective for fire fighting. Phos-Chek has been tested and approved for use by the U.S. Forest Service. U.S. Forest Service testing includes product Environmental, Health & Safety, and Corrosion criteria. Phos-Chek® is also a U.L. listed Wetting Agent at a very low use rate of 0.1% for Class A and 0.25% for Class B fires. Phos-Chek® meets the requirements of NFPA 1150, contains no EPA listed hazardous materials, and is readily biodegradable. Phos-Chek® works extremely well with CAFS at ratios of 0.2 to 0.3%. Ship. wt. 45 lbs.

SOLD IN VARIOUS VOLUME AND QUANTITIES, SEE BELOW

AS285  Phos-Chek® Class A Foam 5-gal. Container $127.95/pail
AS286  Phos-Chek® Class A Foam 4 oz./Case of 36 $122.95/case
AS289  Phos-Chek® Class A Foam 55-gal. Drum $1,320.95/drum

CLASS A FOAM CONCENTRATE & WETTING AGENT

First Response is a new Class A foam manufactured by the makers of the well known Phos-Chek® brand fire suppression products. It’s formulated to make water more effective by reducing the water’s surface tension and, when mixed with air, creates a foam blanket that surrounds fuels with a thick layer of water. Foam reduces the amount of water needed to extinguish the fire reducing water damage and increasing fire fighter safety through quicker knockdown and reduced mop-up/overhaul. Ship wt. 45 lbs.

Wetting Agent: 0.2%
Direct Attack: 0.6% to 1.0%
Mop Up/Overhaul: 0.2% to 0.6%
Tested and Qualified for USDA Forest Service
Meets NFPA 1150
Effective use in Compressed Air Foam Systems (CAFS)

SOLD IN 5-GALLON PAILS
BL712  Class A Foam Concentrate & Wetting Agent $102.95/pail

PRECISION FOAM TESTING KIT

The Precision Foam Testing Kit is designed to simplify the process of testing foam systems for proportioning accuracy. This kit utilizes liquid conductivity and a precision digital scale to accurately prepare standards and test discharge samples; the same method used by nationally recognized testing laboratories when testing systems for listing and approval. Ship. wt. 6 lbs.

INCLUDES:
• Protective carrying case with foam protective padding
• Precision digital electronic 250 gram scale with 0.1 gram accuracy
• 6 - 150ml graduated sample beakers
• 100ml graduated cylinder
• 250ml wash bottle
• 2 - 10ml sample pipettes (12’’L)
• 5 - 3ml sample pipettes (6’’L)
• 500ml water sample bottle
• 2 - 10ml sample syringes
• 10 - Test charts (reproducible)
• Instruction manual

AZ292  Precision Foam Testing Kit $784.95
Making great foam is easy with the PRO/pak. Everything you need is contained in one lightweight package that attaches to the end of your 1” fire hose. It can work on pressures as low as 50 psi. With its small size and versatile nozzles you can have foam capability without the expense of built-in systems costing thousands of dollars. Features a high-impact 2½ gallon foam reservoir with built-in eductor that can be set to the ratio of your choice. Large, easy-open fill port has an indicator to show the type of liquid in the tank. The flow is controlled by a twist grip valve/carrying handle. With each quarter turn you select the discharge velocity for inlet pressures between 40 and 500 psi. System comes complete with a straight stream nozzle, low expansion nozzle and medium expansion nozzle. Nozzles can be directly attached to the eductor for one-handed operation, or a short section of hose can be added for maneuverability. Designed for Class A 3% or 6% AFFF & AR Foams. Ship. wt. 15 lbs.

INCLUDES:
- PRO/pak unit
- Shoulder strap
- 3’ extension hose
- 3 - quick-connect nozzles

FOAMPRO® 1600 SERIES PROPORTIONING SYSTEM

No other system delivers foam as easily and accurately as the FoamPro®. All it takes is a flip of the switch to start the system. FoamPro® adjusts automatically to any changes in flow rate or pressures. Plus, the patented, high-tech, electronic controller does all of the work for you. To make the foam wetter or drier simply adjust the dial to change the foam concentrate level. When you use the FoamPro®, you don’t have to worry if the foam solution is correct—the system does the proportioning all automatically. Simply set the percentage you want on the control module. Because the precise proportioning is done by measuring flow instead of pressure, you do not have to shut down to add lines, change pressure or refill the foam tank. What’s more, the FoamPro® conveniently interfaces with Compressed Air Foam Systems. Meets NFPA Standards. Ship. wt. 68 lbs.

EXCLUSIVE FEATURES:
- Automatic proportioning
- Adjustable dial control
- Proportions continuously
- No foam goes through the fire pump
- No in-line restrictions
- Installs in new or existing apparatus
- Delivers 0.1 to 1.7 gpm of concentrate

</table>
The Darley Foam Refill System is designed to create a safe alternative to refilling your Class A foam tank without the need to climb on top of your truck. The Foam Refill System kit includes all the necessary equipment needed for a simple installation into new or existing apparatus. Once installed, simply attach the pickup hose, insert the tube into the foam pail, hold the switch to on, and fill your foam tank from a safe position until the green foam full light appears on. Call for pricing at 877-634-6223.

**ENGINE**
- 12 VDC, 1/2 hp continuous speed electric motor. The maximum amp draw at full load, 175 psi (12 bar) is 39 amps. The pump is a continuous duty, piston type, positive displacement pump. The pump is rated at 1.5 gpm. Pump is supplied with a 250 psi (17.2 bar) safety relief valve for protection against over pressurization. The Venturi flows up to 150 gpm.

**DIMENSIONS**
- 21”L x 10”W x 12”H, 75 lbs.

**APPLICATIONS**
- Mini pumper, pumper, pumper tanker, rescue pumper, wildland/quick attack fire vehicle

**FEATURES**
- 1.5 gpm/150 gpm, 1/2 hp 12vdc motor, pilot operated relief valve
- Low concentrate float switch
- Venturi 1 1/2” NPT
- Includes installation kit
- Control panel placard with on/off switch and low concentrate light, adjustable foam percentage valve

**PERFORMANCE**
- Up to 150 gpm @ 1% at pressures up to 175 psi

The Darley Foam Refill System is designed to create a safe alternative to refilling your Class A foam tank without the need to climb on top of your truck. The Foam Refill System kit includes all the necessary equipment needed for a simple installation into new or existing apparatus. Once installed, simply attach the pickup hose, insert the tube into the foam pail, hold the switch to on, and fill your foam tank from a safe position until the green foam full light appears on. Call for pricing at 877-634-6223.

**ENGINE**
- 12 VDC, 1/2 hp continuous speed electric motor. The maximum amp draw at full load, 175 psi (12 bar) is 39 amps. The pump is a continuous duty, piston type, positive displacement pump. The pump is rated at 1.5 gpm. Pump is supplied with a 250 psi (17.2 bar) safety relief valve for protection against over pressurization. The Venturi flows up to 150 gpm.

**DIMENSIONS**
- 21”L x 10”W x 12”H, 75 lbs.

**APPLICATIONS**
- Mini pumper, pumper, pumper tanker, rescue pumper, wildland/quick attack fire vehicle

**FEATURES**
- 1.5 gpm/150 gpm, 1/2 hp 12vdc motor, pilot operated relief valve
- Low concentrate float switch
- Venturi 1 1/2” NPT
- Includes installation kit
- Control panel placard with on/off switch and low concentrate light, adjustable foam percentage valve

**PERFORMANCE**
- Up to 150 gpm @ 1% at pressures up to 175 psi

**INSTALLATION OPTIONS**
- Panel Mounted Kit: Includes all the necessary components needed for a simple install. The control panel will be separate from the pump, allowing you to remote mount parts as needed to fit into tighter spaces.
- Self-Contained Kit: Includes all the same parts as the panel mounted kit but will be fully assembled with an aluminum bracket to minimize assembly/installation for the end-user.

**PUMP**
- Pumps at 4 to 6 GPM and is capable of 10’ of lift
- Pump and motor are 12 VDC capable
- Pump utilizes a Nitrile impeller for optimal performance and durability

**OPERATION PLACARD / PROTECTION BOX**
- Placard is made of 16-gauge stainless steel and mounted with stainless screws
- Overlay is made of Bayfoil UV-1 laminate. Offers superior protection against UV exposure and is resistant to scratches and cracking
- Momentary switch and green foam full indicator light included on the placard

**PICKUP TUBE**
- Clear ¼” plastic tube with a female camlock fitting to connect to the panel and a stainless pickup tube making it easy to utilize all of the foam in a pail

**DARLEY FOAM REFILL SYSTEM**

**NEW**

**ODIN® AUTOFILL™**

Electronic control that fully automates the tank fill process from a pressurized source. System comes with operational control placard and wire harness complete with weather tight connectors. Requires a tank level gauge and sensor - sold separately. Call for pricing at 877-634-6223.

- 1/4”, 2”, 2 1/2”, 3”

**ODIN® AUTOVALVE™**

The AutoValve™ system has predetermined flow settings for simplified water and air valve operations with the push of a button. It is also equipped with a “Slug Flow Interlock” safety feature which is designed to prevent the slug flow that occurs when water and air are mixed without foam concentrate. The AutoValve™ is a user programmable electronic valve system that can be used in CAFS, powered by 12 or 24 volt battery power. Call for pricing at 877-634-6223.

- 1/4”, 2”, 2 1/2”, 3”

**FAST FOAM 150**

**CLASS “A” FOAM PROPORTIONING SYSTEM**

The Fast Foam 150 system offers a reliable, accurate, compact foam proportioning system at an economical price. This model treats up to 150 gpm @ 1% at pressures up to 175 psi. Call for pricing at 877-634-6223.

**ENGINE**
- 12 VDC, 1/2 hp continuous speed electric motor. The maximum amp draw at full load, 175 psi (12 bar) is 39 amps. The pump is a continuous duty, piston type, positive displacement pump. The pump is rated at 1.5 gpm. Pump is supplied with a 250 psi (17.2 bar) safety relief valve for protection against over pressurization. The Venturi flows up to 150 gpm.

IN-LINE FOAM EDUCTORS

In-line Foam Eductors have a metering head with easy-read knob for use with Class A foam at .25% and .5%, and with ARC-AFFF foam at 1%, 3%, and 6%. Extra large 36” pickup hose and stainless steel wand are ideal for use with high viscosity foams. The meter head is equipped with a unique backflush push-button for fast cleaning, and is secured to the eductor body with a rugged disconnect. All controls are easy to use with gloves. Made of hardcoat anodized aluminum for corrosion protection. The required inlet pressure is 200 psi. The maximum allowable back pressure is 130 psi.

PORTABLE BY-PASS EDUCTOR

The Portable By-Pass Eductor has a built-in by-pass chamber, allowing the operator to change from water to foam without shutting down.

- Brass with chrome trim
- 8 quick-change handle positions with a Swing-Out™ valve handle

“THROUGH-THE-PUMP” FOAM EDUCTOR/MIXER

- Educts foam concentrate into hose lines through a pump’s suction and discharge sides, also known as an “Around-The-Pump” system
- Will educt concentrates at percentages of 0% to 3.75% at flow rates from 15 to 125 gpm at 100 psi
- Maximum operating pressure of 300 psi
- Includes an 18” pressure hose and a 48” foam pick-up hose
- 1 1/2” and 2” cast aluminum connecting tee

FOAM

ATP FOAM FLURRY™
The ATP FOAM FLURRY™ is our most economical proportioner. It is simple-to-install and operate. For your next Darley portable pump purchase, or for retrofitting your current pump, the ATP FOAM FLURRY™ will deliver foam cost effectively.

- All brass construction – no plastic
- Fast adjusting variable control ball valve
- Capable of .5% injection rate up to 130 gpm
- Remote mount operation placard
- Includes installation kit

BUBBLE CUP NOZZLES
The dual or single-gallonage Bubble Cup nozzle is a uniquely designed aspirating fog/foam nozzle created to be used with AFFF and Protein type foams for fire brigades and hazardous materials incidents or for structural and wildfire applications of Class A foaming agents. Capable of producing a conventional straight stream, wide protective fog pattern and aspirating foam, the Bubble Cup is a nozzle that provides an extra measure of protection. Nozzles are backed by a full 5-yr factory warranty and 24-hr. Certified repair. Ship. wt. 4 lbs.

NEW LOW PRICE

VIPER FOAM NOZZLE

- Durable Viper Ball Valve
- Up to 12:1 expansion ratio
- Available in your choice of 60 or 95 gpm
- Construction: Lightweight aluminum
- Length: 19"
- Ship. wt. 4 lbs.

MADD DOG FOAM NOZZLE

EXPANSION ASPIRATING FOAM ATTACHMENT

The Madd Dog Attachment makes better foam than any other multiple expansion aspirating nozzle. Designed by a fire captain with firefighter safety, quality, versatility, performance and cost in mind. Produces low-expansion foam with excellent stream projection or medium expansion foam with incredible production. The aspirating attachment is constructed of pressure-injected polymer resins which make it economical, lightweight and incredibly rugged and will fit a variety of combination nozzles. Ship. wt. 2 lbs.

**2 1/2'' CAFS PISTOL GRIP NOZZLE**

Do you want to pack the most CAFS punch possible in a 2 1/2" hand line? Most 2 1/2" nozzles are nothing more than a 1 1/8" waterway shutoff with a 2 1/8" swivel inlet. Not this nozzle… this pistol grip ball shutoff features a 2 1/2" swivel inlet and a 2 1/4" threaded outlet with a full 2" internal ball opening. This allows more CAFS to be propelled unobstructed through this lightweight pistol grip ball shutoff. We also finish off this Brutus of a shutoff with a set of dual stacked tips so you can choose between the 2 1/4" and a 2" tip opening. Easily flows 120 gallons per minute of foam solution and 120 cfm of compressed air at the NFPA recommended 125 psi. Ship wt. 7 lbs.

---

**FOAM GUN COMBO**

---

**CAFS NOZZLES**

**BL036:**
- Combination of the ball shutoff with full 1" inlet waterway and the 1/8" outlet smooth bore tip. Both parts are constructed of hard coated aluminum.

**BL037:**
- Combination of the ball shutoff with full 1 1/2" inlet waterway and 1 1/4" outlet smooth bore tip. Both parts are constructed of hard coated aluminum.

---

**SABERJET DUAL SHUTOFF CAFS NOZZLE**

This very versatile pistol-grip ball shutoff features a large 1 3/8" ball opening and 1 1/8" smooth bore tip which produces a strong CAFS stream for wet to medium foam types. It also features a secondary control for spraying plain water, foam solution, or wet CAFS stream through the fog spray nozzle. The SaberJet Dual Shutoff CAFS Nozzle is a great tool for your CAFS attack lines and provides a wide variety of real world spray stream options as well as the ability to spray plain water if desired. Includes colored handles and pistol grip kit shown.

LDMBC 1000-1750 STANDARD FEATURES

• Complete discharge and suction manifolds provided
• 4 - 2 1/2" NH, 1/4 turn, self-locking ball valves
• 2 - 5" or 6" NH suction adapters and Darley caps
• Optional behind the panel intake valve(s) available
• Discharge and suction flanges as needed
• Air pump shift
• 1610 or 1710 full round yokes standard
• Extended pump shaft to drive 220 cfm compressor package
• Remote packing adjustment cables or mechanical seal
• Fully tested water and air systems

LDMBC - COMMONLY SPECIFIED OPTIONS FOR A COMPLETE PACKAGE

• FoamPro 2001/2002 foam System with paddle wheel
• CAFS/Foam stainless steel plumbing manifold
• Optional 1½", 2", and 2½" CAFS valve packages
• CAFS check valves for foam discharges
• Air flow control valves and check valves
• Optional manual or electric valve controls
• Can be used with AutoValve™
• Can be completely plumbed and service tested

APPLICATIONS

• Aerial
• Pumper
• Rescue pumper
• Pumper tanker

DIMENSIONS & WEIGHT

• 40"L x 76"W x 46"H
• 2,200 lbs. (997 kg)

USES

• Single stage
• Centrifugal
• Midship mounted
• Pump forward

SIMULTANEOUS WATER PERFORMANCE

Up to 6624 L/M (1750 gpm) @ 8.6 bar (125 psi)
NFPA Ratings From 1000 - 1750

SIMULTANEOUS COMPRESSED AIR PERFORMANCE

6229 L/M (220 cfm) @ 8.6 bar (125 psi)

Darley offers a full range of safe drinking water solutions for everyday use, disaster response, humanitarian, municipal government, and military applications. Darley solutions utilize membrane technology to create a physical barrier between impurities and safe drinking water. Complete water solutions include customizable water treatment, water pressure, water storage and water distribution solutions for your needs. Contact your Darley representative for pricing.

**WATER PURIFICATION SYSTEMS**

**BAG-IN-BOX WATER**
**AFFORDABLE, SUSTAINABLE, STORABLE AND PORTABLE**

10 liter Bag-in-Box Water with single-use, ultra-clean and eco-friendly packaging solution with a 3 year shelf life. Long shelf life is attainable due to innovative filling and pouring process. Water is protected from UV light and air, which seals out risk of bacterial contamination. *Sold by pallet of 80 boxes.*

- Everyday Usage: Home, office, school, hospitals, fire stations
- Emergency Response: Natural Disaster, Humanitarian Relief
- Ideal for fundraising and as a marketing platform
- 3 year shelf life

**VERSA SEA PAK**
**MAN-PORTABLE SALT WATER PURIFICATION SYSTEM**

- Output: 200 or 360 GPD*
- Technology: Reverse Osmosis, Hydraulic pressure intensifier and energy recovery technology (10% recovery rate)
- Power: VSP 200 - 12 or 24 VDC, VSP 360 – 24 VDC
- Power: External power (battery, car, generator, solar). No internal power provided.
- Power Draw: VSP 200 - 10A at 12 VDC and 5A at 24 VDC, VSP 360 – 10A at 24 VDC
- Dimensions: 31”x20.5”x15.5”
- Weight: VSP 200 – 65 lbs. or VSP 360 82 lbs.

**FEATURES**
- Ideal for disaster response and military applications
- Simple operation, no training required
- Green to Red filter condition gauge for 5 micron pre-filter
- Analog gauges and controls
- Rugged Pelican case

*$Output can vary depending on power source, raw water source, suction lift, pressure variations and filter condition.

**VERSA FRESH PAK**
**MAN-PORTABLE FRESH WATER PURIFICATION SYSTEM**

- Output: 1,000 GPD*
- Technology: Ultrafiltration, Backwashable membrane
- Power: 12 VDC, external power (battery, car, generator) and/or 20 AMP hour internal battery & 75 watt foldable solar modules
- Power draw: 2 AMPS
- Dimensions: 22”x16”x11”
- Weight: 62 lbs. with lithium and 72 lbs. with standard gel battery

**FEATURES**
- Ideal for disaster response and military applications
- 20 micron pre-filter
- Post carbon activated filter for smell and taste enhancement
- Prefilter for sediment removal and Post filter GAC for taste and odors
- Rugged Pelican case

**DARLEY SUNSPRING®**
**DECENTRALIZED WATER TREATMENT SYSTEM**

**SPECIFICATIONS**
- Output: 5,000 gallons per day*
- Technology: Ultrafiltration, backwashable membrane
- Power: 24 VDC, 2 - 100 AH batteries, 2 – 160 watt solar modules and 160 watt wind turbine
- Power draw: 3.5 to 5.5 AMPS
- Dimensions: 2’ diameter x 14.5’ tall

**FEATURES**
- Ideal for hospitals, schools, remote villages, and disaster response
- No outside power required
- Stainless steel, reusable 100 micron pre-filter
- Diamond plate aluminum system enclosure
- Self-cleaning membrane maintenance cycle
- Post carbon activated filter for smell and taste enhancement
- Post filter GAC for taste and odors
- Larger fresh water versions available (Up to 50,000 gallons per day)
- Salt water versions not available

**STARTING AT $24,495**

WHY DEMAND DARLEY PUMPS?

ISO 9001 CERTIFIED
Our pump division is registered as an ISO 9001:2015 Certified facility accredited by Underwriters Laboratories Inc.

SELF-LOCKING DISCHARGE VALVES
Stainless steel ball valves stay secure in the position you choose.

VACUUM CAST IMPELLER
Durable and efficient, balanced to fit a 10-splined stainless steel pump.

ENGINEERED FOR LIFE
Darley engineers use the latest technology platforms such as ANSYS CFD and Solidworks to design our pumps.

DISCHARGE CHECK VALVE
Prime pumps with discharge gates open and caps removed for rapid water deployment.

MECHANICAL SEAL
Extremely hard and heat dissipative silicon carbide stationary face allows pumps to run dry for short durations maintenance and is drip free.

AUTOCOOL™ AND MAGNATRANS™
Darley pump transmissions are the strongest in the market. The patented AutoCool™ ensures oil cooling without the possibility of water contamination.

SALES AND SERVICE
We strive to ship most Darley parts orders within 24 hours.

LONGEST WARRANTY
The longest and most comprehensive warranty in the industry with a six year manufacturer’s warranty. Includes three years of parts and labor coverage at no charge on our Midship and PTO pumps. We’ve got your back.
DARLEY FAMILY OF PUMPS

Darley offers over 300 high quality, highly efficient and competitively priced pumps, CAFS and related products for virtually any application. Darley pumps are 100% manufactured in the USA and backed by the industry’s longest warranty. Visit darley.com to view our complete selection and learn more reasons why you should switch to Darley pumps. Contact PumpSales@darley.com to find the right pump to meet your needs.

GASOLINE PORTABLE PUMPS
Darley Gasoline Portable Pump models are available with a wide variety of engines from Briggs & Stratton Vanguard, Honda, and Rotax.

COMPRESSED AIR FOAM SYSTEMS
Darley offers the widest variety of CAFS on the market. Darley AutoCAFS™ and Odin CAFS provide the solution to all your CAFS needs.

DIESEL PORTABLE PUMPS
Darley Diesel Portable Pump models are available with a wide variety of engines from Yanmar, Kubota, Cummins, John Deere and Deutz.

FAST ATTACK SKIDS
Darley Fast Attack Skid units are ideal for brush firefighting needs. Designed to fit into the standard 8’ bed of any pickup truck, the unit features a 200 gallon poly tank with “C” channel construction for easy installation and removal.

ENGINE DRIVEN PUMPS
Darley Engine Driven Pump models are available with a wide variety of engines from Cummins, Deutz, Ford, GMC, Kubota and John Deere.

PUMP MODULES
Darley offers a large variety of Pump Modules from our compact Solution Series™ PTO driven Modules to Top-Mounted Midship Modules.

FRONT/REAR MOUNTED PUMPS
Darley continues to offer a wide variety of Front and Rear Mount pump configurations.

MARINE PUMPS
Darley offers marinised versions of our portable, front mount and engine driven pumps featuring engines from Honda and Steyr.

PTO PUMPS
Darley has a wide variety of PTO and hydraulically driven pumps with flows up to 1500 gpm ideal for pump and roll applications.

OHLER PUMPS AND CUSTOM PUMP SOLUTIONS
Ohler pumps offer a range of pumps for industrial applications including diesel fuel, mining and trash flow.

MIDSHIP MOUNTED PUMPS
Darley offers both manifoldeled and non-manifoldeled midship pumps with ratings from 1000 to 6000 gpm.

PUMP ACCESSORIES
Darley has a wide variety of pump accessories such as control panels, adapters, mechanical seals, primers, valves, gauges and more.
The Darley® Davey pumps, also known as the “affordable portables” are the most economical choice in portable, high-efficiency pumps. Their compact design makes them ideal for a variety of applications such as firefighting, tank filling and water transfers.

**PUMP DESIGN FEATURES**

- MARINE-GRADE ALUMINUM CASING
- 3-WAY DISCHARGE PORT WITH 1 - 1½” NPTM, 2 - 1” NPTM
- 1½” NPTM SUCTION
- ZINC-PLATED CASING BOLTS
- MECHANICAL SHAFT SEAL
- NITRILE RUBBER SEAL AND CASING “O” RINGS
- SELF-PRIMING UP TO 19’
- EASY INSTALLATION
- COMPACT AND LIGHTWEIGHT
- HIGH PUMPING EFFICIENCY
- LOW OIL PROTECTION
- SPARK ARRESTOR/EXHAUSTER DIVERTER

**PERFORMANCE**

- 95 gpm (378 L/M) @ 39 psi (2.7 bar)
- 60 gpm (227 L/M) @ 70 psi (4.8 bar)
- 20 gpm (76 L/M) @ 90 psi (6.2 bar)

**AK300** 6.5 HP Briggs & Stratton OHV Vanguard with Recoil Rope Start $1,630.00

**AK312** 6.5 HP Briggs & Stratton OHV Vanguard with Recoil Rope Start $1,330.00

**AK314** 6.5 HP Twin-Impeller Honda Electric Start $1,930.00

**AK315** 6.5 HP Twin-Impeller Honda Non-Electric Start (Not Pictured) $1,630.00

**WARNING**: Cancer and Reproductive Harm – www.P65Warnings.ca.gov
PRE-DRILLED POWDER-COATED ROLL CAGE WITH BATTERY TRAY

- Pre-drilled powder-coated roll cage with battery tray fits 6.5-13 HP gasoline-driven Davey Firefighter pumps. Dimensions: 30”x19”x21”.

WARNING: Cancer and Reproductive Harm – www.P65Warnings.ca.gov
FEATURES THAT SET DARLEY PORTABLES APART

1 - OPTIONAL DARLEY CHROME CAPS AND BRASS ADAPTERS
2 - EXHAUST PRIMER
   Allows pump to be primed with lifts up to 22’
3 - STANDARD MECHANICAL SEAL
   Injection packing is optional at no additional cost
4 - STOW AWAY CARRYING HANDLES
   With ergonomic grips

CALL FOR QUOTES & PRICING

5 - USER-FRIENDLY DISCHARGE VALVE
   WITH INTEGRATED CHECK VALVE
   Allows pump to be primed with discharge valves open
6 - 1-1/2” NPT VENTED EXHAUST
7 - HARD COATED ANODIZED PUMP CASES
   Standard on most portable pumps
8 - WIDE VARIETY OF CONTROL PANELS
   Including pressure gauges, wireless controls, remote priming, start button, kill switch and light

FLOATING PUMPS
HEF 10.5BS FEATURES
- High volume
- Briggs & Stratton, 10.5 HP single cylinder, 4 cycle, 2.8 qt. fuel tank, recoil rope start
- 33”L x 30”W x 20”H, 110 lbs. (50 kg)
- Hard anodized aluminum alloy pump casing
- Bronze impeller
- 11 HP: 2011 Carb Compliant
- High-density polyethylene filled with closed-cell polyurethane foam
- Four built-in carrying handles
- Self priming
- 4” screened suction inlet
- 2-1/2” NH discharge

HEF 10.5BS PERFORMANCE
- 390 gpm (1450 L/M) @ 20 psi (1.4 bar)
- 250 gpm (946 L/M) @ 40 psi (2.8 bar)
- 200 gpm (757 L/M) @ 45 psi (3.1 bar)
- 100 gpm (378 L/M) @ 60 psi (4.1 bar)

ADDITIONAL FLOATING PUMPS
HEF 11H DOLPHIN™
2BEF-BS PORPOISE™

18 HP PORTABLE PUMPS
2BE 18V FEATURES
- Medium pressure, high volume, direct drive
- Briggs & Stratton: 4 cycle, 18 HP, V-twin, OHV, replaceable oil filter, 8.35 qt. fuel tank, 34.75 cu. in. displacement, 12-volt starter, recoil rope start back-up, 16 amp regulated alternator
- 27”L x 21”W x 25”H, 145 lbs. (66 kg)
- Bronze impeller and seal ring
- Stainless steel impeller shaft
- Mechanical seal
- Built-in discharge check valve
- Adjustable discharge valve
- Aluminum alloy casing and discharge valve
- Exhaust primer
- 3” NPT suction
- 2-1/2” NPT or 1-2/½” NPT discharges

2BE 18V PERFORMANCE
- 375 gpm (1420 L/M) @ 25 psi (1.7 bar)
- 300 gpm (1136 L/M) @ 45 psi (3.1 bar)
- 100 gpm (379 L/M) @ 140 psi (9.7 bar)

PORTABLE PUMPS
HONDA ENGINES. CALL FOR QUOTES AND PRICING

21 HP PORTABLE PUMPS
2BE 21H FEATURES
• Medium pressure, high volume, direct drive, engine mounted
• Honda GX 630: 4 cycle, 21 HP, V-twin, OHV, replaceable oil filter, 38.5 cu. in. displacement, 12-volt starter, 20 amp regulated alternator, 6 gal. fuel tank, hose and adapter
• 24"L x 27"W x 22"H, 190 lbs. (86 kg)
• Aluminum alloy casing
• Bronze impeller and wear ring
• Stainless steel impeller shaft
• Mechanical seal
• Adjustable throttle
• 3" NPT suction, 1-2½" & 2-1¼" or 1-2¾" NPT discharge

2BE 21H PERFORMANCE
• 380 gpm (1438 L/M) @ 25 psi (1.7 bar)
• 150 gpm (568 L/M) @ 115 psi (7.9 bar)
• 100 gpm (378 L/M) @ 135 psi (9.3 bar)

23 HP PORTABLE PUMPS
2BE 23V FEATURES
• Medium pressure, high volume, direct drive, engine mounted
• Briggs & Stratton Vanguard: 4 cycle, 23 HP, V-twin, OHV, replaceable oil filter, 12-volt starter, recoil rope start back-up, 16 amp regulated alternator, 6 gal. fuel tank, hose and adapter
• 24"L x 21"W x 24"H, 195 lbs. (89 kg)
• Hard anodized aluminum alloy casing and discharge valve
• Sulfuric anodized aluminum alloy gear case and engine adapter
• Bronze impeller and wear ring
• Heat treated alloy steel helical gears
• Ball bearing construction pump and engine
• Built-in discharge check valve
• Adjustable discharge valve
• 3" NPT suction, 2-1½" & 1-2½" NPT discharge

2BE 23V PERFORMANCE
• 390 gpm (1476 L/M) @ 30 psi (2.1 bar)
• 200 gpm (757 L/M) @ 110 psi (7.6 bar)
• 100 gpm (378 L/M) @ 140 psi (9.7 bar)

64 HP PORTABLE PUMPS
HE 64RP FEATURES
• Ultra high performance
• Rotax 582: 2 cylinder, 2-cycle, 64 HP, liquid-cooled, 12-volt electric start and recoil rope start back-up, 6 gal. fuel tank, hose and adapter
• 34"L x 30"W x 26"H, 225 lbs. (102 kg)
• 170W lighting and recharging coil
• Aluminum alloy casing
• Bronze impeller and seal ring
• Stainless steel impeller shaft
• Belt driven rotary primer
• Heat exchanger with thermal protection circuit
• Loss of prime shutdown
• Pressure governor
• Vernier throttle
• 4" NH suction, 2-½" turn self-locking
• 2-½" NH discharge ball valves with caps
• Available with wheels

HE 64RP PERFORMANCE
• 575 gpm (2176 L/M) @ 100 psi (6.9 bar)
• 320 gpm (1211 L/M) @ 200 psi (13.8 bar)
• 165 gpm (625 L/M) @ 250 psi (17.2 bar)

DARLEY PTO PUMPS

PTO AND HYDRAULICALLY DRIVEN PUMPS WITH FLOWS UP TO 3000 IDEAL FOR PUMP AND ROLL APPLICATIONS. CALL FOR QUOTES AND PRICING

HM 250, 350, 500
ASSEMBLY #1 FEATURES
- Single stage, centrifugal, gearbox assembly
- Vertically split, cast iron, bronze fitted pump casing
- Impeller seal ring opposed design to eliminate end thrust
- Splined impeller (not keyed) for longer life
- Oversized, deep groove radial type bearings for longer life
- 10 tooth splined shaft for durability
- Helical cut gears
- 2 1/2" NPT discharge
- 16" x 11"W x 18"H, 140 lbs. (64 kg)

ADDITIONAL ASSEMBLY OPTIONS
ASSEMBLY #2
- Single stage, centrifugal pump, gearbox assembly, suction elbow, discharge head with check valve, 2 - 2 1/2" NPT discharge, 3 - 3" suction (HM250/350), 3 - 4" victaulic suction (HM500)

JMP 500 FEATURES
- Two stage, series/parallel, centrifugal, PTO driven
- 3 - 2 1/2" NPT discharge flanges
- 3 - 4" NPT suction flanges
- Rotation: engine or opposite engine
- Gear ratio to fit PTO
- Mounting angles
- 1310/1410 lock on companion drive flange
- JMP 500 NH: Manual control staging valve
- 24 1/2"L x 12"W x 26"H, 250 lbs. (114 kg)

JMP 500 PERFORMANCE
- 500 gpm (1893 L/M) @ 150 psi (10.3 bar)
- 375 gpm (1325 L/M) @ 200 psi (13.8 bar)
- 250 gpm (946 L/M) @ 250 psi (17.2 bar)
- 100 gpm (378 L/M) @ 500 psi (34.5 bar)

ASSEMBLY #3
- Single stage, centrifugal pump, gearbox assembly, suction elbow, discharge head with check valve, complete manifolds, discharge valves, adapters and caps, 2 - 2 1/2" NH 1 1/4, turn ball valves, 2 - 3" NH suction adapters and caps (HM250/350), 2 - 4" NH suction adapters and caps (HM500)

HM 500 PERFORMANCE
- 500 gpm (1893 L/M) @ 150 psi (10.3 bar)
- 350 gpm (1325 L/M) @ 200 psi (13.8 bar)
- 250 gpm (946 L/M) @ 250 psi (17.2 bar)

JMP 500 3-GEAR

ADDITIONAL PTO PUMPS
- 1 1/2 AG & 2 1/2 AG
- 1 1/2 AGH & 2 1/2 AGH
- 1 1/2 AGD & 2 1/2 AGD
- HH 250-500
- LSH 500-1000
- H 100 BOOSTER
- KDM-HX-PTO
- MAGNATRANS™
- MEGATRANS™

FEATURED TRANSMISSIONS

CHOICE OF U.S. FOREST SERVICE AND CA DEPT. OF FORESTRY

1.800.323.0244 | EDARLEY.COM/PUMPS
The Fast Attack 1 comes with a 13 hp Davey two-stage pump with a 200 gallon Pro Poly tank and Hannay electric booster reel with 100’ of 1” hose.

ATTACK 1 FEATURES
- 13 HP twin impeller Darley Davey pump with Briggs & Stratton engine
- 200 gallon Pro Poly tank
- F4000 Hannay electric rewind reel
- 100’ of 1” booster hose
- Self-priming up to 19’
- 1½” or 2½” NST suction adapter
- 1” tank recirculation
- 1½” tank to pump and discharge
- All stainless steel manifold & piping
- 94”L x 48”W x 42”H, 700 lbs. (318 kg)

OPTIONS
- Water/foam nozzle packages for N.A.F.S.
- Roller and spool hose guide
- Built-in 10 gallon foam cell
- ATP Foam Flurry™ proportioner
- 1½” Mattydale swivel
- Work light
- Poly hose tray
- Additional 2½” discharge
- Custom tank sizes
- Additional custom option available

BENEFITS
- Ergonomically designed
- Forkliftable to standard pick-up bed
- Solid pump performance for grass firefighting

ATTACK 1 PERFORMANCE
AK305
- 120 gpm (454 L/M) @ 40 psi (2.8 bar)
- 95 gpm (360 L/M) @ 108 psi (7.4 bar)
- 20 gpm (76 L/M) @ 146 psi (10.1 bar)

THEORETICAL FRICTION LOSS IN 100’ OF 1” BOOSTER @ 100 PSI
- 12 gpm (45 L/M) @ 2 psi (.1 bar)
- 20 gpm (76 L/M) @ 6 psi (5.2 bar)
- 30 gpm (114 L/M) @ 14 psi (7.9 bar)

The Fast Attack 2 is the same tank and reel as the Attack 1, but standardizes on our gear-driven or direct-drive Darley pump coupled to an 18 hp engine with control panel.

ATTACK 2 FEATURES
- Darley 18 hp pump
- Exhaust primer
- 200 gallon Pro Poly tank
- Hannay electric rewind reel
- 100’ of 1” booster hose
- All stainless steel manifold & piping
- 94”L x 48”W x 42”H, 900 lbs. (409 kg)

OPTIONS (SAME AS ATTACK 1 PLUS): 
- Briggs Vanguard, Honda and diesel engines
- N.A.F.S. Nozzle Aspirated Foam Systems
- JakPak drop-in bodies

ATTACK 2 PERFORMANCE
1.5AGE 18V
- 120 gpm (454 L/M) @ 130 psi (9 bar)
- 100 gpm (379 L/M) @ 170 psi (11.7 bar)
- 25 gpm (95 L/M) @ 270 psi (18.6 bar)

2BE 18V
- 375 gpm (1416 L/M) @ 25 psi (1.7 bar)
- 300 gpm (1136 L/M) @ 45 psi (3.1 bar)
- 100 gpm (379 L/M) @ 140 psi (9.7 bar)

BILLY GOAT UTV
THE ULTIMATE OFF-ROAD FIREFIGHTING VEHICLE

The Billy Goat UTV features The Intimidator Truck Series UTV and is armed with powerful, tough, and durable features from top to bottom. Key features include a 6’ black powder-coated aluminum truck bed that conveniently folds down into a flatbed that can handle 1,200 lb., LED headlights, premium seats with headrests for up to three adult passengers, and an overall 2,100 lbs. towing capacity. The Intimidator Truck Series is a powerhouse designed to make even your toughest jobs easy.

INTIMIDATOR TRUCK FEATURES
• Plastic top
• Warn vantage 4000 lb. electric winch
• Front cargo bed tie down hooks
• Custom graphics
• LED dual purpose warning/scene light
• Rear flashing LED lights
• Brush guard front bumper
• 2” receiver hitch standard on front and rear
• 4 wheel drive
• Optional multi-disc to create fire breaks
• Under bed storage compartments on each side

1 - THE INTIMIDATOR ROLL CAGE IS BUILT AND MANUFACTURED ACCORDING TO ROHVA COMPLIANCE TESTING
2 - COMES STANDARD WITH A 2” FRONT RECEIVER HITCH THAT IS SECURED TO THE FRAME AT FOUR ATTACHMENT POINTS
3 - BUILT WITH LEGENDARY BRUTE STRENGTH AND DURABILITY FOR LONG LIFE WITH PUSH-BUTTON LOCKING DIFFERENTIAL AND 4X4 CAPABILITY
4 - COMES STANDARD WITH UNDERBELLY METAL SKID PLATES TO PROTECT THEIR GUTS
5 - 6’ ALUMINUM BED WITH FOLDING SIDES. 1,200 LBS. CARGO RATING

CONTACT TOM@DARLEY.COM FOR MORE INFORMATION

WARNING: Cancer and Reproductive Harm – www.P65Warnings.ca.gov
As an industry, we have been trained to think that you have to sacrifice thermal protective performance (TPP) in order to achieve maximum total heat loss (THL). Introducing a game changer for the fire industry, TECGEN71. Fire-Dex FXR turnouts are specifically designed to minimize firefighter stress and fatigue through Active Posture Design™, allowing for full range of motion - especially while wearing your SCBA!

**FIRE-DEX EXCLUSIVE TECGEN71 OUTER SHELL**

**THE BEST TPP/THL BALANCE IN THE HISTORY OF TURNOUT GEAR**

**ENSEMBLE FEATURES**
- Lightweight and flexible TECGEN71 outer shell
- STEDAIR® 4000 moisture barrier
- GLIDE ICE™ thermal liner with superior wickability
- Thermoplastic zippers
- 3” NYC SCOTCHLITE™ lime/silver trim
- PCA reinforced cuffs

**TECGEN71 FEATURES RIP TWILL CONSTRUCTION:**
The proven strength of 60/40 Kevlar®/Nomex® on the face of the fabric, while creating a super structure of the TECGEN® fiber inside. This combination provides a lightweight solution, weighing in at 6.5 oz/yd².

**DOUBLE LOCK STITCHING**
Fire-Dex uses lock stitching on all major seams, cuffs, and reinforcements, with 4 rows of lock stitch on all reflective trim and hook & loop closure material.

**SUPERIOR POCKETS**
All Bellows Pockets are reinforced with Kevlar® for the best cut resistance. All Radio Pockets are fully lined with moisture barrier, including the pocket flap. All pocket flaps are extra long to ensure complete closure, no matter the bulk inside.

**COAT FEATURES:**
- 30” coat length
- Zipper with hook and loop closure
- Combo handwarmer/semi-bellows pockets
- Radio pocket with double notched flap
- Flashlight holder
- Mic clip above radio pocket
- Optional lettering available

**PAINT FEATURES:**
- Zipper with hook and loop closure
- 2 take-up straps at waist
- Semi-bellows pockets
- Padded knees
- Deluxe H-Back padded suspenders with cam-lock

**TURNOUT GEAR SIZING**

A structural firefighting outer shell designed to lessen heat stress by reducing weight and increasing flexibility. TECGEN71 features a rip twill weave that combines the proven durability of DuPont™ Kevlar®/Nomex® and the unique benefits of the TECGEN fiber. TECGEN71 is the first of its kind to address this growing health concern with innovative technology aimed at providing the perfect balance of breathability, comfort, TPP and THL, all while offering an overall reduction in composite weight.

TECGEN71 COMPOSITES VS. TYPICAL COMBINATIONS:

- 20% Lighter
- 45% Thinner
- 70% More Flexible
- 50% Higher Total Heat Loss

WITHOUT SACRIFICING THERMAL PROTECTIVE PERFORMANCE

SEAMLESS COLLAR
- Comfort and NFPA compliant protection without the need for a throat tab

OMNIDEX™ SHOULDER
- Eliminates coat rise and sleeve retraction by moving the shoulder seam to the natural bending point, allowing for optimal SCBA positioning

ATHLETIC PANT DESIGN
- Provides natural movement and comfort in a forward firefighting position

DEXFLEX™ KNEES AND ELBOWS
- Move freely and reduce resistance with naturally-bent knees and elbows

STEP UP YOUR GAME WITH THE BEST DUPONT NOMEX®/KEVLAR® OUTER SHELL BLEND

For at least two decades, fire departments choosing outer shells made of 40% DuPont™ Nomex®/60% DuPont™ Kevlar® have been limited to stiff and uncomfortable gear...until now. Utilizing the groundbreaking Filament Twill Technology™ used in PBI Max™, the new Armor AP™ fills the needs of firefighters who prefer improved mobility, durability, and improved protection at an economical price. Armor AP™ - a 6.5 oz. outer shell with absolute performance.

ABSOLUTE PERFORMANCE

How does one achieve absolute performance utilizing the same fibers (meta-aramid, para-aramid) used in Fusion™ and TenCate Advance™…and not increase the cost 25-50%? The answer lies in Filament Twill Technology™. Like PBI Max™, Armor AP™ is powered by DuPont™ Kevlar® filament in a twill weave. The result is a lighter weight outer shell (6.5 oz.) with improved comfort/flexibility, improved strength and durability, and equal to improved protection.

IMPROVED DURABILITY

DuPont™ Kevlar® filament allows Armor AP™ to resist tearing for a longer period of time than traditional outer shells like Fusion™ and TenCate Advance™…improving durability.

IMPROVED COMFORT/FLEXIBILITY

Better comfort and flexibility lead to better mobility. Better mobility can make all the difference in a life threatening situation. Firefighters wearing Fusion and TenCate Advance don’t need to sacrifice mobility any longer…Armor AP is the answer.

PACKAGE INCLUDES:

• DARLEY ARMOR AP™ GEAR COAT
• DARLEY ARMOR AP™ GEAR PANTS
• H41 INTERCEPTOR HOOD
• RIPSTOP 3XL TURNOUT GEAR BAG

• PRO-TECH 8 FUSION GLOVES
• FIRE-DEX LEATHER BOOTS
• EVI TRADITIONAL HELMET

DARLEY CHAMPION™ GEAR HEAD-TO-TOE GEAR PACKAGE
INSIDE EVERY FIREFIGHTER BEATS THE HEART OF A CHAMPION.
THOSE WITH THE PASSION TO RISE TO THE OCCASION.

Darley now offers a head-to-toe solution for your turnout gear needs at a special package price. Package includes Nomex® turnout gear coat and pants, Fire-Dex® 911™ helmet, Darley gold gauntlet gloves, Nomex® hood, Hellfire™ structural and hazmat firefighting boots, and Fire Fighter gear bag with carrying strap.

Our Champion™ gear is built to hold up in the toughest of conditions and is loaded with all the features you expect including plenty of large pockets and clips for your tools and communication equipment, reinforced knees, double-stitched seams and comfortable overlapping collar. Your safety is most important so we’ve included bright, reflective 3M™ Scotchlite™ triple trim, a fire resistant Nomex® IIIA outer shell and Drag Rescue Device per the latest NFPA safety standard.

1.800.323.0244 | EDARLEY.COM/TURNOUT
RDG40 TURNOUT GEAR
DURABILITY, MOBILITY, AND PROTECTION AT A PRICE THAT FITS

Shorter front, longer back coat. Low-rise pant. Streamline design packed with a host of innovative, ergonomic features. Based on Innotex Energy Pattern.

- Variable Height Collar™: Low-rise front, high-rise back neck/collar configuration. US Patent 8,151,371
- No-Gap™ Throat Flap: Provides a NO-GAP™ thermal protection
- Ergonomic Full Motion Noseam™ Shoulder: Designed to follow natural arm movements for optimal mobility. Seams are placed away from high-abrasion areas
- Retractable Action Back: Adds length across your back. Increased mobility when reaching and stretching
- Durahem™ Sleeve and Leg Hems: Ultra-resistant aramid-coated piping sewn to the cuff. Protects cuffs from abrasion
- Angled Cuff Sleeve Hem: Increases protection for the top of the hand without compromising hand mobility
- Offset Seam Design: Seams are positioned away from high-abrasion areas, increasing wear life
- Adjustable Belt: Comes with a 2” Nomex™ belt
- Complete Motion Crotch: Allows greater freedom of movement and prevents twisting
- Enhanced Mobility Knee™ (EMK™): Enhances mobility without tugging. Ensures that the knee protection stays securely in place.
- No-Bulk™ Pant Closure: Streamlined 3-layer pant closure flap
- Reflective Piping Seams: Increases visibility
- Easy-to-Grip Padded Pull Tab: Oversized and padded for easy handling with gloves

**FIRE BOOTS**

### FIRE-DEX® FDXL200 LEATHER BOOTS

**PROTECTION FOR THE HEAT OF THE BATTLE**

- **Easy Don and Doff:** Quickly don with wide integrated pull handles, reinforced with an extra layer of leather for longevity. A finished edge also helps resist against skin abrasion.
- **Added Visibility:** Be seen in low-light conditions with bright reflective 3M™ Scotchlite™ trim.
- **Quality Leather:** Feel extra comfort & protection with shin cushioning & Flame Stop leather-made from the finest U.S. steer.
- **Flex and Mobility:** Climb and crawl with greater mobility. Additional flex points at the ankle eliminate pitch points and allow for a larger range of motion.
- **Long-Lasting Support:** Stay energized during long hours with a naturally-shaped, shock absorbent sole that features toe & heel springs to reduce impact zones.
- **Extreme Durability:** Resist tearing with Nomex® and Kevlar® lining.

**SPECIFY SIZE:** 8-11, 12, 13, 14  
**SPECIFY WIDTH:** M, W or XW  
**MBK274**  
**Fire-Dex® FDXL200 Leather Boots**  
**$349.95**

### BLACK DIAMOND X2-BOOTS

- **Calf-Fit System™:** Exclusive calf-fit system™ allows for maximum comfort and fit
- **Leather Upper:** Fire retardant, genuine heavyweight FireTuff™ leather
- **Lining:** CROSSTECH® fabric with Omaha lining is a high performance, wicking fabric, originally developed for aggressive military applications
- **Lining Construction:** Stitch-down “Stroble” lining ensures no liner pull-out and maximum fit
- **3-Point Heel Lock System:** Exclusive for fit and comfort
- **3M Scotchlite™ Reflective Material:** Flame-resistant fluorescent and reflective material for added visibility
- **Toe Cap Protection:** Rubber toe cap for high-abrasion and steel toe HI 500 Oblique Comfort Toe meets or exceeds ASTM standard
- **Footbed:** Tri-density, multi-fit, removable comfort footbed with TPU arch support, anti-microbial, breathable and shock absorption
- **Certification:** NFPA 1971 for Structural Firefighting and NFPA 1992 for Liquid Splash

**SPECIFY SIZE:** 7-11, 12, 13, 14

- Large top flap opens the full length of the bag
- Hi-Vis lime-yellow/silver triple reflective trim
- Reflective tape stitched into all Firefighter webbing and handle
- Embroidered Maltese Cross logo, not screen printed
- Larger bag than ANY competitors
- **Dimensions:** 32"x18"x18"H

**JUMBO GEAR BAG**

There is plenty of room in this one. It has four pockets along with the main storage area. The end pocket on the left is 8"x15"x17"H, the right pocket is 3"x15"x17"H, along with two slot pockets. **The overall measurements are 33"x15"x17"H.** ID window, handle wrap, and Maltese Cross. Nylon. Red with Maltese Cross. **Ship. wt. 3 lbs.**

**RIPSTOP 3XL TURNOUT GEAR BAG**

The Lightning X Ripstop 3XL Turnout Gear Bag is made to match the look and durability of your turnout gear by using heavy duty RIPSTOP nylon in a golden/tan color variation. This fabric ensures that any punctures don’t turn into a large tear that ruins your bag. It’s large enough to hold all of your turnout gear, helmet, SCBA mask, jumpsuit and other items. The Ripstop 3XL turnout gear bag is large, rugged, reflective and looks good!

BL429  X-Large Turnout Bag  $49.95

**BOOT STYLE TURNOUT GEAR BAG**

- 2" wide nylon webbing
- 550 cubic feet larger
- Maltese Cross
- Lime triple trim
- Reinforced bottom
- Nylon strap grabber
- ID window
- Dimensions: 17"x18"x20½"

BL414  Boot Style Turnout Gear Bag  $42.95

**QUAD-VENT TURNOUT GEAR BAG**

Lightning X Products has been making quality public safety bags for nearly 20 years. From time to time we get the urge to improve upon existing bag designs. The LXFB45M uses Quad-Vent Technology that features four uniquely shaped mesh vents located at each corner of the turnout gear compartment to promote cross ventilation. This keeps your gear fresh and helps prevent mildew from forming. Our competitors only offer a bag with one vent, in the rear of the bag... how is air supposed to flow through just one vent? The Quad-Vent bag is large enough to hold all of your gear, boots and helmet comfortably – without being so big that it becomes cumbersome to carry around.

- Four PVC reinforced mesh air vents front & back provide full ventilation for your gear
- Comparable bags only offer a single air vent
- Cross ventilation allows gear to dry faster
- Helps prevent the growth of mildew from storing damp turnout gear
- Adjustable padded shoulder strap with heavy-duty snap hooks

SPECIFY COLOR: Red, Fluorescent Yellow or Black
BP197  Quad-Vent Turnout Gear Bag  $58.95

**DARLEY TURNOUT GEAR BAG**

- Available in two sizes, this bag is designed to hold your gear.
- Features a front outside zippered pocket to carry smaller items
- Standard bag measures 13½"L x 13"H x 24"W
- Extra large bag has 25% more room measuring 13½"L x 16"H x 24"W
- Available in choice of plain red, red with Maltese Cross or Royal Blue with Star of Life. Ship. wt. 3 lbs.

AJ093  Darley Turnout Gear Bag  $71.95
AJ027  X-Large Royal Blue Darley Turnout Gear Bag  $84.95
LITE FORCE PLUS MODERN HELMETS

Morning Pride's very best modern helmet is the perfect choice for comfort, safe head protection. *Ship. wt. 4 lbs.*

- Strongest Shell on the Market - Test show that FYR-Glass is 42% more resistant to impact penetration than helmets made of fiberglass
- FYR-Glass Technology - Provides a helmet that is lighter, lower ride, more comfortable and better fitting
- High Heat Performance - No other shell finish stands up to high heat like FYR-Glass
- Low Ride, Better Fit, Low Center of Gravity - 8-point suspension and wider interior gives wearer superior comfort and fit
- More Sizes, More Adjustability - Our headband/ratchet will fit the largest range of hat sizes of any NFPA helmet on the market, plus for position depth adjustments
- Accessories - Padded adjustable ratchet system, protective Nomex® earflaps, combo adjustable chin strap, Reflexite® trim
- Meets and exceeds NFPA 1971-2007

CAIRNS 660C FIBERGLASS HELMET

Helmet shell is reinforced, high-temperature resistant molded fiberglass. Cairns’ patented shell release helps reduce the chance of neck injury by allowing the shell to release, leaving the impact cap behind for protection under severe upward impact. Beneath the shell is a high-temperature foam cap for increased thermal and impact protection. Headband features adjustable front for perfect fit between helmet and SCBA mask and 3-position rear ratchet adjustment. Other features include full brim, high-temperature edge trim, faceshield wing protectors, Nomex® chinstrap with quick-release and postman slide, Nomex® neck/ear protector and 4” Tuffshield faceshield. Helmet fronts sold separately. Meets NFPA 1971. *Ship. wt. 5 lbs.*

FIRE-DEX® 911™ HELMET

The 911® helmet provides solid, dependable, comfortable protection in a multitude of environments and still allows for a wide range of vision and long-use. Helmet shell is made of the lightest fiberglass composite offering superior protection against high temperature and chemical hazards. Its unique foam impact insert assembly provides even more top and side protection. Long lasting, easy-to-clean, high-gloss, flame-retardant finish resists scratches and UV rays. Replaceable 4” PPC wrap around face shield features an easy-to-operate tension adjustment and plastic bracket to provide maximum dielectric protection. Meets current NFPA standards. *Ship. wt. 5 lbs.*

- Colored throughout fiberglass compression molded shell
- Fiberglass shell has superior flame and heat resistance
- Thermal impact cap is a low density injection mold
- 2 pieces that are inseparable
- 6 way overhead suspension straps allowing for a more customized helmet “ride”
- 3 piece headband with ratchet assembly for easy adjustments (6 1/2” - 9”)

SPECIFY COLOR: Red, Black, Yellow, White

Cairns 660C Replacement Faceshield $66.95
FIREDOME® FX HELMET- FIBERGLASS

Firefighters frequently exposed to chemicals and hydrocarbons appreciate the FireDome® FX with a resin-bonded fiberglass outer shell. Fiberglass helmets are more resistant to chemical attack and more stable at extreme temperatures than those made of thermoplastic. Meets NFPA 1971 Standard. Ship. wt. 5 lbs.

SPECIFY COLOR: Red, Black, Yellow, White, Blue, Orange, Lime
AF086 FireDome® FX Helmet with Faceshield $247.95
AS354 FireDome® FX Helmet with Goggles $256.95

FIREDOME® PX HELMET- THERMOPLASTIC

Firefighters who need a more durable helmet choose the FireDome® PX helmet with injection-molded thermoplastic outer shell. Constructed with a high-heat thermoplastic providing greater impact and penetration resistance than fiberglass; plus it’s more reliable with repeated heat exposures. Meets NFPA 1971. Ship. wt. 5 lbs.

SPECIFY COLOR: Red, Black, Yellow, White, Blue, Orange, Lime
AF088 FireDome® PX Helmet with Faceshield $259.95
AS027 FireDome® PX Helmet with Goggles $264.95

THE FIREDOME® LT HELMET

The FireDome® LT structural fire helmet is the result of 20 years of Bullard engineering, polymer technology and expertise. The Bullard Tough LT comes standard with the all-new and innovative, patented Quick-Attach Blade System, that permits the firefighter to simply press on or off either a blade-mounted faceshield or blade-mounted goggles in seconds. This helmet can also be enhanced with a variety of optically correct visors, goggles, and neck protectors to equip your fire department with complete head, face and neck protection to meet your specific applications. With the new compact design and lower center of gravity, the LT keeps weight evenly distributed and holds the helmet stable on the head. Meets NFPA 1971. Ship. wt. 5 lbs.

SPECIFY COLOR: Red, Black, Yellow, White, Blue, Orange, Lime
AW498 FireDome® LT Helmet with Faceshield $207.95
AW499 FireDome® LT Helmet with Goggles $212.95
**FIREDOME® UST TRADITIONAL HELMET**

Comfort and protection is now better than ever. The UST’s outer shell is made with Thermoglas® offering a new standard of toughness and durability without sacrificing comfort. Chipping and cracking found in conventional fiberglass helmets is virtually eliminated while still providing chemical resistance and stability at extreme temperatures. The UST features impact liner, high-heat thermoplastic inner shell, Sure-Lock® adjustable headband, replaceable and washable brow pad, Nomex® chin strap with quick-release buckle and postman’s slide fastener, Nomex® ear/ neck protector, brass eagle, reflective tetrahedrons, and your choice of 4” faceshield or goggles. Meets NFPA 1971. Helmet fronts sold separately. *Ship. wt. 5 lbs.*

**USTM HELMET WITH RETRAK**

Bullard ReTrak Series Traditional Helmet offers emergency responders a fire helmet with an integrated visor engineered based directly on feedback from firefighters. NFPA 1971/ANSI/ISEA Z87.1+Requirements. Traditional Style Helmet, Matte Finish. Made in USA.

- Simple one-handed operation
- Easily accommodates eyewear
- Increased area of protection
- Comfort nosepiece
- Quick removal for cleaning

**CAIRNS 1010 TRADITIONAL STYLE HELMETS**

Features new tough, through color, reinforced, high-temperature resistant, molded fiberglass composite shell that resists cracking and chipping. Cairns’ patented shell release helps reduce the chance of neck injury by allowing the shell to release, leaving the impact cap behind for protection under severe upward impact. Beneath the shell is a high-temperature foam cap for increased thermal and impact protection. Headband features adjustable front for perfect fit between helmet and SCBA mask and 3-position rear ratchet adjustment. Other features include high-temperature edge trim, faceshield wing protectors, Nomex® chinstrap with quick-release and postman slide, Nomex® neck/ ear protector and 4” Tuffshield faceshield. Helmet fronts sold separately. Meets NFPA 1971-2007 Edition. *Ship. wt. 5 lbs.*
BEN FRANKLIN 2 PLUS TRADITIONAL HELMETS

You can’t beat the combinations of a traditional styled helmet with the strongest outer shell on the market by Morning Pride. **Ship. wt. 4 lbs.**

- **Strongest Shell on the Market** - Test show that FYR-Glass is 42% more resistant to impact penetration than helmets made of fiberglass
- **FYR-Glass Technology** - Provides a helmet that is lighter, lower ride, more comfortable and better fitting
- **High Heat Performance** - No other shell finish stands up to high heat like FYR-Glass
- **Low Ride, Better Fit, Low Center of Gravity** - 8-point suspension and wider interior gives wearer superior comfort and fit
- **More Sizes, More Adjustability** - Our headband/ratchet will fit the largest range of hat sizes of any NFPA helmet on the market, plus for position depth adjustments
- **Accessories** - Screaming eagle, padded adjustable ratchet system, protective Nomex® earflaps, combo adjustable chin strap, Reflexite® patches (Leather shield not included)
- **Meets and exceeds NFPA 1971, 2000**

**SPECIFY COLOR:** Red, Black, Yellow, White

EV1 TRADITIONAL HELMET

The progressive interface and cutting-edge features of EV1 helmets offer unmatched performance with a sturdy, sleek, lightweight design that customizes fit for unparalleled comfort and superior functionality. Low-profile design combined with lighter-weight materials provides superior comfort, optimal fit, and improved balance. Proprietary EZ Touch feature allows for one-touch deployment of your face and eye protection. No fuss. No hassle. Stows internally and provides adjustment to fit your face perfectly. Features a safety lock and a cushioned nose guard. EZ Touch face and eye protection is released at the touch of a finger and is the only solution for quick one-hand deployment.

- **EZ Touch internal face and eye protection with safety lock**
- **Black Nomex® 2-layer FR cotton ear covers**
- **EZ Clip replaceable and reversible chinstraps with quick-release and postman slide**
- **Composite fiberglass shell**
- **Large hang-up loop**
- **Bulldog edge beading**
- **Golden alloy-plated eagle front holder**
- **Anti-catch safety bracket for leather fronts**
- **8 Reflexite® lime trapezoids**
- **Certified to NFPA 1971**

**SPECIFY COLOR:** Red, Black, Yellow, White

| **BL247** | EV1 Traditional Helmet | $353.95 |

FIRE-DEX® 1910 TRADITIONAL STYLE HELMET

The 1910 features a fiberglass compression molded shell with superior flame and heat resistance, thermal impact cap, ratchet adjustment, and an adjustable headband that fits all SCBAs. SEI Certified to meet or exceed NFPA 1971. **Ship. wt. 5 lbs.**

**SPECIFY COLOR:** Red, Black, Yellow, White

| **BL363** | Fire-Dex® 1910 Helmet with 4" Visor | $298.95 |
| **BL364** | Fire-Dex® 1910 Helmet with Innerzone 3™ Goggles | $298.95 |
A-TAC® FIREFIGHTER’S GOGGLES

Protective goggles designed to specifically protect the firefighter in structural, wildland and other emergency situations. A-Tac® firefighter’s goggles pass the NFPA 5000 5-minute heat exposure test. Features a silicone strap and body with hard coated/anti-fog inner and outer lens. Fits over prescription, safety and sunglasses. Can be removed from the helmet, without tools and worn directly on head. Includes goggle clips for both traditional and contemporary helmets. Meets NFPA and ANSI. Ship. wt. 1 lb.

AM058  A-Tac® Firefighter’s Goggles  $64.08

INNERZONE 3™ WRAPAROUND STRAPS

The ESS Innerzone 3™ features a wrap-around strap system that secures to structural helmets with two Velcro® tabs. Designed to protect eyes during extrications, USAR, and other hazardous situations that demand primary eye protections. The Innerzone 3™ is fully NFPA compliant, including the 500˚ 5-minute NFPA oven test. NFPA 1971.

- Functions well with all major structural firefighting helmet designs
- Patented Speed Clip™ strap system makes adjustment quick and easy
- 2-piece strap system made of 26mm-wide, high-memory woven Nomex®
- Frame made from high heat-resistant materials
- Full-perimeter ventilation and filtration system
- Lenses feature ESS ClearZone™ anti-fog and anti-scratch lens coating
- Lenses provide 100 UVA/UVB protection and precise optical clarity for distortion-free vision
- Lenses are highly impact resistant and exceed the impact requirements of ANSI Z87.1-2010+

BC014  Innerzone 3™ with Wraparound Straps  $57.95
BL467  FirePro1971 FS Goggles  $57.95

BOURKE EYE SHIELD

Made of extremely tough polycarbonate plastic. Offers excellent eye and upper face protection, yet won’t trap smoke. Mounts easily and snuggly on helmet brim. Lens holders are aluminum, other parts stainless steel. Hinged feature allows instant protection. Uses two brass screws to hold shield to brim. Ship. wt. 1 lb.

- Mounting hardware not included

BEST SELLER
PARTICULATE HOODS

H41 INTERCEPTORTM HOOD WITH DUPONT NOMEX® NANO FLEX

The H41 Interceptor™ Hood is made with a layer of DuPont™ Nomex® Nano Flex inside that acts as a filter to reduce firefighters’ exposure to persistent fireground carcinogens and other contaminants. We’ve used this revolutionary material sewn between two layers of knit 6.0 oz. PBI®/Lenzing (20%/80%) to provide the maximum performance for particle barrier filtration, comfort, and thermal and flashover protection.

SCIENTIFIC DATA

The H41 Interceptor™ blocks 95% of particulates at .2 micron in size or larger. For perspective, there are 25,400 microns in one inch and a human hair is about 75-100 microns wide, so a .2 micron particulate is about 500x smaller than a strand of hair. Testing has shown that the particulates sized at less than .2 microns don’t have enough mass to make it through the double layer knit and the Nomex® Nano Flex; essentially meaning that this hood blocks 100% of particulates less than .2 microns.

SPECIFY SIZE: XL
BN358 H41 Interceptor™ Hood $139.95

H41 INTERCEPTOR™ HOOD WITH STEDAIR® PREVENT

Choose the H41 Interceptor™ to reduce the absorption of carcinogens in the highly-permeable skin around your face and neck.

This 2-layer hood features an inner layer of Stedair® PREVENT with one outer layer of 8oz. Nomex® 100%.

• Unmatched breathability compared to moisture barrier technology
• Maintains excellent flame and heat resistance
• Exceeds NFPA 1971 requirements for TPP, THL and burst strength
• Built for durability
• Mask not included

BP008 H41 Interceptor™ Hood w/Stedair® PREVENT $115.95

GORE® PARTICULATE HOOD GEN2 NOMEX BLEND

IMPROVED COMFORT, WITHOUT COMPROMISING PERFORMANCE

As we continue to learn about the potentially harmful contaminants found at the fireground, the need for protection against those particulate hazards has become more crucial. Wearing the GORE® Particulate Hood GEN2 will give you the additional protection you need while maximizing comfort.

• One size fits all convenience
• Continues to block 99.9% of particles in the 0.1 to 1.0 micron-range after laundering; exceeds strength requirements in the NFPA 1971-2018 standard
• Excellent breathability
• Excellent durability

BP276 GORE® Particulate Hood Gen2 Nomex® Blend (White) $99.99

GORE® PARTICULATE HOOD GEN2 ULTRA C6

IMPROVED COMFORT, WITHOUT COMPROMISING PERFORMANCE

As we continue to learn about the potentially harmful contaminants found at the fireground, the need for protection against those particulate hazards has become more crucial. Wearing the GORE® Particulate Hood GEN2 will give you the additional protection you need while maximizing comfort.

• One size fits all convenience
• Continues to block 99.9% of particles in the 0.1 to 1.0 micron-range after laundering; exceeds strength requirements in the NFPA 1971-2018 standard
• Excellent breathability

1.800.323.0244 | EDARLEY.COM/TURNOUT
### PARTICULATE HOODS

**INNOTEX GRAY™ PARTICULATE BLOCKING HOOD 25**

Developed to meet the proposed requirements of NFPA 1971, the particulate blocking layer blocks carcinogenic particulates 0.1 µm to 1.0 µm that are found in the combustion of structural fires by greater than 98%. Yet, that same layer also allows for air permeation, which is essential to reduce the risk of increased core temperature.

#### 3 LAYER APPROACH

The INNOTEX GRAY™ Hoods use a 3 layer approach similar to Turnout Gear. The two inner layers are laminated together to increase comfort and reduce bulk.

#### PARTICULATE BLOCKING LAYER

INNOTEX GRAY™ Hoods use a proprietary version of Stedair® PREVENT, which blocks carcinogenic particulates 0.1 µm to 1.0 µm (microns) by greater than 99%.

### AIR PERMEABILITY

The INNOTEX GRAY™ Hoods are air permeable, which means air can pass through them. Body heat can dissipate, helping reduce the risk of increased body temperature.

**BN698** INNOTEX GRAY™ Particulate Blocking Hood 25

### VERIDIAN™ PREVENT BARRIER

Developed to meet the proposed requirements of NFPA 1971, the particulate blocking layer blocks carcinogenic particulates 0.1 µm to 1.0 µm that are found in the combustion of structural fires by greater than 98%. Yet, that same layer also allows for air permeation, which is essential to reduce the risk of increased core temperature.

- 99.99% blocking efficiency after 100 wash/dry cycles
- Highest THL in the industry
- Superb durability
- Revolutionary design achieves less bulk
- Tailored design allows for maximum comfort
- NFPA 1971 optional requirements for protective barrier hoods

**OUR BEST HOOD DEAL**  
**NOMEX® BLEND HOOD**

Our most popular NFPA hood at an affordable price point. This hood is made of 20% Nomex/80% Lenzing FR fabric with rib knit construction. Single one piece design with notched shoulders for safe head and neck protection.

- Thermal protective rating of 29.4
- Certified NFPA 1971
- One-piece construction with notched shoulder
- 18" overall length
- One size fits all
- Nomex blend
- 22.7 cal/cm² TPP rating

**AZ152  Nomex® Hood** $23.95

---

**PROTECTIVE HOODS THAT GO ON EASY & SEAL TIGHT**  
**CERTIFIED TO NFPA 1971**

Features easy sealing face opening that fits snugly for maximum protection and keeps its shape even after repeated usage; elastic face opening stretches to 15" for easier donning. Flat seams won't dig and seamless chin area provide for added comfort. Full 13" double layer head for better face and neck protection. Double 8" back bib and 6" front bib keeps hood from coming untucked. Lenzing is a permanently flame resistant fiber that wears like cotton and helps wick moisture. _One size fits all. Ship. wt. 1 lb._

**AK020 Nomex® Hood** $29.95  
**AK022 PBI Hood** $35.95

---

**ULTRA C6 HOOD**  
**NFPA 1971-2007 EDITION**

The new carbon tri-blend Ultra C6 has been engineered to address the concerns and needs in the safety world. Its unique mix of fibers maximizes the inherent performance properties of each fiber to provide optimal protection and comfort. Enhanced comfort adds to functionality and improves performance and efficiency in the workplace. _Ship. wt. 1 lb._

**BH029  Ultra C6 Hood** $39.95

---

**DARLEY HOOD**

Darley has teamed with PGI to develop a new standard in hood protection. We’ve selected Para-Tek FR™ as a proprietary Tri-Blend that leverages the benefits of three fibers, high strength Para-Aramid, Lenzing® and High Tenacity Nylon. The end result is a lightweight, breathable hood that offers exceptional flame and heat resistance.

- Excellent TPP rating – 34.8 after five washings
- Provides double layer coverage of neck, upper chest, shoulders and shoulder blades
- Improved styling for better fit and maximum coverage
- Superb flame resistance – lowest vertical char lengths of all hood fabrics
- UL classified to NFPA 1971
- Comfort and excellent moisture absorbency

**BL577  Darley Hood** $27.95

---

**CARBON X HOODS**  
**CERTIFIED TO NFPA 1971**

Carbon shield is a flame resistant fabric based on carbon fiber technology. If exposed to extreme heat or flame, fabric glows but won’t burn. Retains a certain tenacity at temperatures exceeding 2300° for over 90 seconds.

**AW017  Ultimate™ Carbon X Hood** $34.95  
**AW115  Classic™ Carbon X Hood** $27.95

---

**EZ ADJUST Padded SUSPENDERS**

Designed with 8-point attachment. EZ release - just push up with finger or thumb. EZ tighten - just pull down on the EZ to find round rings. Pads are made with FR rated closed cell foam and sewn to allow for adjustment by end user. 47” length. Ship. wt. 1 lb.

**LEATHER FIREMAN’S SUSPENDERS**

Leather Fireman’s Suspenders are handcrafted in the U.S.A. with the finest quality.

- 10-12 oz English bridle leather
- Full grain
- Drum-dyed

**TRADITIONAL SUSPENDERS**

**MATERIALS:**
- Straps: Polypropylene red, heavy-duty elastic, 2” wide, .055” thickness, 400 minimum tensile strength
- Attachment Point Elastic: ½” wide, double layer, 5½” long for each of 8 button tabs
- Leather Tabs: Eight leather tabs for button attachment
- Leather back patch

**CONSTRUCTION:**
- Crossover style, heavy-duty elastic
- Crossed in rear with leather back patch
- 8-point leather tabs
- 42” long
- All seams double stitched for added strength

**PADDED SUSPENDERS**

- 8-point heavy-duty button attachment
- Extra large “quick adjust” rings to accommodate gloved fingers
- “H” back design
- Heavy-duty cotton webbing
- Foam padded straps

**H-STYLE SUSPENDERS**

Features your choice of 2” elastic or non-elastic webbing with leather ends. An excellent choice for high back pants. Ship. wt. 1 lb.

**SPECIFY SIZE:** S (36”), M (42”), L (48”)

**AW117** Non-Elastic Suspenders $25.95
**NYLON LIFE BELTS**  
MADE FOR MAXIMUM SAFETY, DURABILITY, VERSATILITY AND COMFORT

Life Belts are made with nylon especially woven to meet rigorous strength, texture and durability requirements. Webbing has a minimum breaking strength of 9,000 pounds. Assembled belt will withstand 2,000 pounds. The 3” wide buckle strap, sewn with high-tensile nylon thread and riveted with copper rivets to the 5” wide body strap, is fitted with a double tongue buckle, which enables fast engagement and release of belt. *Ship. wt. 5 lbs.*

UNIVERSAL RADIO HOLDER

Three-part system (sold separately) mates comfortably with scissor snaps and D-Rings. The radio holder is universal to fit most radios and the anti-sway strap was designed to keep your radio on a tether and reach at all times.

- 1 1/4" wide and made of heavy duty leather
- Speaker mic attaches to a leather loop for easy access
- Strap can be used on either shoulder
- Scissor snaps on both ends of the Anti-Sway strap allow for easy placement on your rig keeping your radio in reach at all times
- Designed to securely fit most radios
- 2 elastic cords help secure the radio while 2D-Rings allow it to mate with the radio strap

FOXFIRE® ILLUMINATING PRODUCTS

Identify your crew in total darkness with these illuminating tetrahedrons. Patented combination of high-output photo luminescent and extreme reflectivity. High temperature resistance with a strong bonding adhesive backing.

- Increases visibility and positional orientation
- Can be charged by any light source (sun, artificial light, low light)
- Illuminates up to 17 hours when fully charged
- Glow/illumination serves as a “light emitter”
- May be recharged repeatedly by any light condition
- Energy efficient, eco-friendly and no batteries required
- Made of industrial grade high temperature resistant silicone
- Can withstand high temperatures

FLIR K45, K55 AND K65 THERMAL IMAGING CAMERA KITS
WITH FSX™ FLEXIBLE SCENE ENHANCEMENT

FSX™ realtime digital processing results in ultrasharp images defining extraordinary structural attributes, edges, and other instantly recognizable details.

CLEAR AND CRISP THERMAL IMAGES
The maintenance free uncooled microbolometer sensor produces detail rich images at 320 x 240 pixels (K55 & K65) and 240 x 180 pixels (K45). Thermal images are displayed on a large bright 4" LCD for easier navigation and the ability to make more efficient, accurate decisions.

NFPA® COMPLIANT K65 ONLY
The K65 is an advanced, feature rich thermal imaging camera which is fully compliant with the National Fire Protection Association® (NFPA) 1801 2018 Standard for Thermal Imagers covering usability, image quality, and durability for firefighting.

EXPANDED WARRANTY
All new K-Series cameras are protected by our exclusive FLIR 2-5-10 Warranty that includes 2-years of coverage on batteries, 5-years on the camera, and 10-years on the detector.

RUGGED & RELIABLE
The K-Series is designed to meet tough operating conditions. They withstand drops from 2 meters onto a concrete floor, are water resistant (IP67) and fully operational up to +260°C/+500°F for 5 minutes.

EASY-TO-USE; EVEN WITH GLOVES ON
An intuitive and simple user interface allows you to focus on the job at hand. FLIR® K45, K55, and K65 cameras are controlled by 3 large buttons, ideal for a gloved firefighter’s hand.

PRODUCE ANALYTICAL REPORTS
Store up to 200 thermal images in the FLIR K-Series on-board archive (K45, K55, and K65) that may later be used to produce analytical reports of what happened at the scene.

IN-CAMERA VIDEO STORAGE (K55 & K65 ONLY)
Not only can the FLIR K55 and K65 save hundreds of still images, they can record and store 200 video files in clips of 5 minutes (maximum) each. K55 and K65 videos are useful for on-site analysis and ideal for training purposes. Videos playback directly from the in-camera archive or download to your computer via USB.

EXTREMELY AFFORDABLE: A THERMAL IMAGING CAMERA FOR EVERY FIRE TRUCK
FLIR’s integrated production capabilities allow us to offer the K-series at an extremely affordable price. Increase more of your team’s safety within your department’s budget.

The K33 and K53 feature FLIR’s FSX™ Flexible Scene Enhancement that intensifies structural and textural details in thermal images for better perspective and orientation to help improve situational awareness and give firefighters a greater sense of confidence and safety.

**STREAMLINED HIGH PERFORMANCE MADE EVEN MORE ECONOMICAL**
FLIR offers two affordable, easy-to-use options which do not sacrifice FLIR’s renowned clarity, reliability, and performance.

**FIREPOWER SIMPLIFIED**
Don’t need all the bells and whistles...the K33 and K53 are the cameras of choice when you’re looking for high image quality with simple, straight-forward operation that is ready for action.
- One glove-friendly on/off button quickly fires up the camera in TI-Basic mode
- An easy trigger pull freezes an image on the K33 or capture stills and video on the K53
- 2-bay charging station makes it a cinch to stay prepared

**UNCOMPROMISING RESOLUTION**
Both the K33 and K53 offer high-resolution thermal imaging with real-time FSX Flexible Scene Enhancement for intensified detail for greater visibility.
- K33’s 240 × 180 thermal imaging matches the resolution of the K45
- K53’s 320 × 240 resolution equals the image quality of the K55 and K65
- Bright 4” LCD shows smooth 60Hz thermal image that keeps up with the action

**AFFORDABILITY REDEFINED**
With the K33 and K53, FLIR offers the firefighting and rescue community the broadest cost-effective range of high performance TICs – part of our mission to help you stretch your budget and put more of these essential tools into the hands of those who could use them most.

**AERIAL THERMAL IMAGING**
SEE PAGE 187 FOR INNOVATIVE DRONES FEATURING FLIR THERMAL IMAGING CAPABILITIES
FLIR K1
A RUGGED, COMPACT THERMAL CAMERA THAT SERVES AS AN EXTRA SET OF EYES ON THE FIRE SCENE

With a bright, integrated flashlight, the FLIR K1 illuminates the scene to help the user steer and manage the crew more effectively. It also displays 160 x 120 pixel thermal images that help users gain additional situation awareness that is not possible with the naked eye.

FEATURES:
- 160 x 120 pixel IR detector
- MSX® image enhancement for added perspective
- 57° × 44° field of view
- Integrated 300-lumen flashlight
- Drop-resistant to 2m (6 ft)
- IP67 rating
- Pistol-grip design offers line of sight viewing
- Save up to 10k visual and thermal image sets
- Up to 5.5 hours of power from a built-in rechargeable Li-ion battery, charged via USB-C
- Warranty: 2-years parts and labor, 10-years for the detector, after camera registration

FLIR K2 TIC WITH MSX®
EXTREMELY AFFORDABLE THERMAL IMAGING CAMERA FOR FIREFIGHTERS

The FLIR K2 is a rugged, reliable, and extremely economical thermal imaging camera specially designed to help outfit more firefighters with the power to see through thick smoke and expedite decisions when seconds count.

MSX® MULTI-SPECTRAL DYNAMIC IMAGING
The K2 uses FLIR’s patented MSX technology that embosses key details from the built-in visible camera onto thermal images, providing extra perspective to help you stay oriented and safer while saving others.

COMPACT AND EASY TO USE
FLIR K2’s design makes it light and easy to attach to turnouts. A single large button activates the camera even with heavy gloves on. And the brilliant display and intuitive interface help show you the way through dark, smoky conditions immediately, so you can stay focused on the critical job in front of you.

RUGGED & RELIABLE
Engineered to survive tough operating conditions, the K2 withstands a 2-meter drop onto concrete, is water resistant (IP67) and is fully operational up to +500°F (for up to 3 minutes).

MULTIPLE IMAGE MODES
FLIR K2 can be set to one of seven different thermal imaging modes dependent upon the cameras primary use. Switch between modes using FLIR Tools software that you can download free from www.flir.com.

MULTIPLE FIREFIGHTING APPLICATIONS
Fire up the K2 as soon as you arrive on scene for the 360˚ size-up. Take it inside to see your way through smoke, keep track of others, and determine where to focus fire attack efforts. Find stranded victims faster. And scan for hot spots during overhaul.

A NEW LEVEL OF AFFORDABILITY
The K2's economical price makes powerful thermal imaging more accessible to more firefighters – a small investment that can help pay big dividends when it comes to safety, saving lives, and protecting property.
FLIR SCOUT TK THERMAL MONOCULAR
POCKET-SIZED THERMAL IMAGING

The FLIR Scout TK is a pocket-sized thermal vision monocular for exploring the outdoors at night and in lowlight conditions. Scout TK reveals your surroundings and helps you see people, objects and animals over 100 yards (90 m) away. Simple to use, with still image and video recording, Scout TK is the perfect companion, whether in the back country or your own backyard.

EXPLORE LIKE NEVER BEFORE
- See animals/people over 100 yards away
- Pocket-sized, lightweight (6 oz. / 170 g)
- Rugged design withstands bumps and splashes
- Records video and still images to share with others

GRAB AND GO SIMPLICITY
- Single-handed operation
- Simple four-button design and intuitive interface
- Multiple Video Color Palettes to enhance viewing: (White/Black Hot, InstAlert™, Graded Fire, and more)

BP027 FLIR Scout TK Thermal Monocular $599.00
BP351 FLIR Scout III 320 Thermal Image Monocular $1,795.00
BP352 FLIR Scout III 640 Thermal Image Monocular $2,395.00

FLIR LS-X & LS-XR
TACTICAL HANDHELD THERMAL MONOCULAR

The FLIR LS-X and LS-XR handheld thermal monoculars are designed for the men and women who serve and protect. This powerful, easy-to-use imager gives officers the tactical advantage when pursuing suspects, looking for evidence, or conducting search and rescue. The LS-X and LS-XR feature high resolution displays, extended zooming capabilities, and video output. Whatever you need to see, find it with the FLIR LS-X and LS-XR.

FLIR SCION OTM
OUTDOOR THERMAL MONOCULAR

The FLIR Scion® OTM captures clear thermal imaging and leverages a refined user interface to quickly detect objects of interest in complete darkness and through glaring light or haze. The Scion OTM produces 9 or 60 Hz thermal imaging and records geotagged video and still images for playback long after the day is done. IP67-rated allows single-hand operation in harsh weather conditions, maintaining reliable thermal imaging in the most demanding outdoor environments.

BP358 FLIR Monocular Thermal Scion, 16˚ 320x240 $2,495.00
BP359 FLIR Monocular Thermal Scion, 12˚ 320x240 $2,795.00
BP360 FLIR Monocular Thermal Scion, 24˚ 640x480 $2,995.00

FLIR ONE® PRO
PRO-GRADE THERMAL CAMERA FOR SMART PHONES

The FLIR ONE Pro lets you find invisible problems faster than ever. Measuring temperatures up to 400°C (752°F) and packing powerful measurement tools, FLIR ONE Pro will work as hard as you do. Whether you’re inspecting electrical panels, looking for HVAC problems, or finding water damage, the FLIR ONE Pro is a tool no serious professional should be without.

IMAGE DETAIL & CLARITY
Powerful Image Processing Technology delivers unparalleled pixel-for-pixel performance. System features MSX® for improved sharpness and on-scene perspective; VividIR™ for improved sensitivity and image quality and features, 19,200 pixels (160x120) image resolution and the thermal sensitivity needed to detect temperature differences down to 70 mK resolution.

EXPANDED MEASUREMENT
Measure temperatures between -4°F and 752°F (-20° to 400°C) with up to three spot temperature meters and six temperature regions of interest.

JOBSITE TOUGH
Built to withstand every day job site abuse, the FLIR ONE Pro is rated for 1.8 meter (5’9”) drop test onto concrete.

AVAILABLE FOR IOS, ANDROID (USB-C), ANDROID (MICRO USB)
BN743 FLIR ONE® Pro $399.99
ARGUS® MI-TIC THERMAL IMAGING CAMERAS

Mi-TIC range of cameras is the smallest, lightest, and lowest cost NFPA 1801 compliant thermal imagers on the market. Offering approved standard accessories and features.

BN307 & BN308 Mi-TIC E FEATURES:
- Most affordable NFPA certified TIC
- Small and wearable at just 1.6 lbs. (737g)
- Large 2.7” display
- Available in 1 or 3 button options
- High Dynamic Temperature Range: 1400°F for excellent detail in day-to-day fire scenarios

BN306 Mi-TIC S FEATURES:
- Most advanced thermal imager for firefighters
- Oversized 3.5” display for a clearer view of the fire scene and lightweight at just 1.7 lbs. (793g)
- Highest Dynamic Temperature Range: 2000°F for greater scene detail in larger, hotter fire scenarios
- Heat Seeker and Cold Seeker indicators
- Laser pointer and electronic compass

BL310 Mi-TIC 320 FEATURES:
- Small and wearable at just 1.6 lbs. (737g)
- Large 2.7” display
- Available in 1 or 3 button options
- Highest Dynamic Temperature Range: 2000°F for excellent detail in heavy firefighting scenarios
- Heat Seeker and Cold Seeker indicators

LEICA BLK360 IMAGING SCANNER

Leica Imaging Scanner is light, portable and allows for quick capturing of HDR and thermal images as well as laser scans.

LIGHT AND PORTABLE
- 2.2 lbs.
- 3.9”x6.5”

ONE BUTTON SIMPLICITY
- Press once to power on
- Press it again to begin reality capture

FAST
About 3 minutes for...
- HDR image
- Thermal image
- Laser scan

HDR IMAGING
- Three cameras creates a 150 megapixel calibrated spherical image
- Full-dome field of view = 360° by 300°
- High Dynamic Range (HDR) photography
- Three LED flash units

THERMAL IMAGING
- FLIR infrared panorama image

SCANNING
- Measures 360,000 3D points per second
- Up to 60 meter radius
- Ranging accuracy : 4mm @ 10m / 7mm @ 20m
- Eyesafe, infrared, Laser Class 1

STANDALONE OPERATION
- No cables or SD cards to lose
- Solid state internal data storage
- Holds 100+ reality captures
- Battery for 40+ reality captures
- Indoor and outdoor use
- Operating Temperature Range: 41° - 104° F

INCLUDES
- BLK360 laser scanner
- Transport hood
- One 1 lithium-ion battery
- Battery charger
- 1 yr subscription to Recap Pro

BP009 Leica BLK360 Imaging Scanner $18,500.00
DRÄGER PSS® 5000 & 7000 SELF-CONTAINED BREATHING APPARATUS

COMFORT, DURABILITY, SAFETY AND PERFORMANCE IN THE HARSHEST ENVIRONMENTS

The Dräger PSS® 5000 and 7000 are ergonomically advanced SCBA that offer increased comfort, safety and performance. With a wide range of configurable features, such as bi-lateral hose routing and quick cylinder connection, the PSS 5000 meets your needs wherever breathing protection is required. The ergonomic PSS 7000 combines trusted pneumatics, flexible fit, and quick cylinder connection, freeing you to concentrate on the task at hand.

PROVEN TECHNOLOGY

- OUTSTANDING RESISTANCE TO HEAT, IMPACT AND CHEMICALS
- EASY MAINTENANCE AND SERVICE
- MEETS OR EXCEEDS ALL NFPA 1981 & 1982 STANDARDS (MOST CURRENT)

INTEGRATED SYSTEMS & INCREASED VERSATILITY

- ELECTRONICS AND AIR HOSES ARE INTEGRATED INTO THE BACK PLATE
- ADJUSTABLE BACKFRAME ALONG WITH FREEDOM OF MOVEMENT WITH WAIST PAD ASSEMBLY - ADD EXTREME ERGONOMICS

EASY MAINTENANCE & LOW COST OF OWNERSHIP

- HARNESS & WAIST PAD ASSEMBLY: DOES NOT ABSORB LIQUIDS OR CHEMICALS AND IS HIGHLY RESISTANT TO ABRASION AND HEAT. CLEANING IS REDUCED TO MINIMAL EFFORT.
- STANDARD BATTERIES: 5 AA FOR THE BACK PLATE, 1 CR123 FOR THE HUD
- LONGEST BATTERY LIFE IN THE INDUSTRY: RATED AT 1 HR./DAY FOR 365 DAYS
- NO ANNUAL MANUFACTURER-REQUIRED OR RECOMMENDED OVERHAUL

ACCESSORIES

BN458 30 min 4500 PSI Cylinder
BN459 45 min 4500 PSI Cylinder
BN460 FPS Communication Amplifier
BN461 40” Buddy Breather with Pouch
BREATHING AIR CASCADE SYSTEMS
4500 PSI & 6000 PSI PIGTAILED SYSTEMS

With a pigtailed system, each cylinder is connected together with a tee connection and a 24” flexible pigtail. To cascade this system when filling SCBA cylinders, the operator must open and close each storage cylinder valve individually as needed. Cylinders are DOT Approved. Fill hoses not included.

SYSTEM INCLUDES:
- Your choice of 4500 or 6000 psi cylinders
- Cylinders with valve and cap
- Tee connections
- Seal-tight inlet cap
- 24” flexible pigtail between each cylinder
- Steel storage rack (also available without rack)

PRESSURE REDUCING REGULATORS

AJ376: For use on systems over 3000 psi and below 5500 psi. 0-6000 psi inlet, 0-5000 outlet. CGA-347 nut and nipple on the inlet side and male thread on outlet side. 0-6000 psi gauge on both inlet and outlet of regulator.

AJ377: For use on 6000 psi systems. 0-6000 psi inlet, 0-5000 outlet. #4 JIC male inlet, CGA-347 male outlet. 0-7500 psi inlet gauge, 0-6000 psi outlet gauge.

Ship. wt. 5 lbs.

| AJ376 | Pressure Reducing Regulator $434.95 |
| AJ377 | Pressure Reducing Regulator $449.95 |

FILL HOSE

Deluxe fill hose is 6’ long with shut-off valve. Features 6000 psi gauge with a rubber boot, bleeder valve and hand-tight nut and nipple that will fill either 2216 psi or 4500 psi. Connects directly to a CGA 347 male thread. Ship. wt. 5 lbs.

| AJ374 | Fill Hose $283.95 |

TECH-RESCUE™ CART

The Tech-Rescue™ Cart was designed to provide air for all of the various respirators and unique rescue tools used by Fire and Technical Rescue teams. Two 4500 psi cylinders or high pressure cascade (fire truck) cylinder air can be used to operate the air control panel. The standard features of the Tech-Rescue™ Cart make it the most versatile and unique air cart in the fire service industry. Cylinders not included.

- Yellow - Respirator Side:
  - Fold down handle, respirator L/P alarm whistle 4, respirator fittings, and lower hose rack with quick release pin
- Blue - Tool Side:
  - CGA-347 auxiliary inlet, air isolation valve, 4 tool fittings, low pressure accessory air tool/lift bag fitting

| BA024 | Tech-Rescue™ Cart $3,984.95 |
| BA025 (AC-60) | 60 cf DOT Aluminum Cylinder 2216 $494.95 |
| BA026 (AC-87) | 87 cf DOT Carbon Fiber Cylinder 4500 $1,280.95 |

MULTI-PAK™ RESCUE AIR CART

The Multi-Pak™ Rescue Air Cart offers many of the same features as the Tech-Rescue™ Cart at a more economical price. The cart uses SCBA cylinders to provide breathing air and a second low-pressure regulator allows air tools or lift bags to be used. The Rescue Air Cart is supplied with a high pressure CGA-347 inlet for extended use.

FEATURES:
- Universal hand tight CGA fittings with bleeder valves
- Quick release hose rack
- In-line check valves
- Cylinder selection switch

| BA021 | Multi-Pak™ 2 Cylinder Air Cart 4500 psi with 2 Outlet Manifold $1,438.95 |
| BA022 | Multi-Pak™ 2 Cylinder Air Cart 4500 psi with 4 outlet Manifold High Flow Regulator $1,539.95 |
| BA023 | Multi-Pak™ 2 Cylinder Air Cart 4500 psi with 4 outlet Manifold, Powder Coat Steel $2,185.95 |
| BA027 | Nylon Cart Cover $234.95 |
SUPERPASS® 5 AND 5X - NFPA COMPLIANT
RUGGED, NFPA STANDALONE "PASS" PERSONAL ALERT SAFETY SYSTEM

BN416
- Heat stress temperature and motion sensing alarm, auto-on activation
- Includes new NFPA sound signature
- Bright, highly visible, LED status indicators
- Compliant to NFPA 1982, (TIA) 13-2 requirements for PASS
- Intrinsically safe to UL913, and CSA C22.2, No 157
- Standalone pass requires no SCBA

BN417, ALL THE FEATURES OF THE SUPERPASS® 5 PLUS:
- Purchase and use as a SUPERPASS® 5 and field upgrade to the RF signaling capabilities of a TPASS 5
- Ideal migration path for budget conscious departments
- Use upgraded 5X with in-Command® first-in tablet and in-Command® full crew

BN416 SuperPASS® 5 - NFPA Compliant $494.95
BN417 SuperPASS® 5X - NFPA Compliant $664.95

SCBA REPLACEMENT CYLINDERS
Worthington has been manufacturing composite cylinders for over 35 years. With over two million cylinders sold, Worthington cylinders have never had a field service failure or major recall. The standard cylinder is durable, lightweight and performance based - no other cylinder compares in price.

- D.O.T. and TC approved
- Industry Leader: Worthington has over 2 million units in service without a field service failure
- Superior Quality: 15-year life expectancy
- Bottles Only: Valves sold separately

NORTHERN STAR COMPASS

The Northern Star is the best line of defense when it comes to battling disorientation in low visibility environments. Every day firefighters around the world charge blindly into dangerous, unfamiliar environments without knowing the floorplan - all in the name of saving lives and property conservation. This can lead to disorientation, injury or even death. To keep you safe, trust the Northern Star to guide you home with its patented directional awareness technology. The Northern Star is powered by a rechargeable lithium battery. It features a durable, waterproof design that is responsive to movement, making it very user friendly and easy-to-use.

BLASTMASK® TRAINING REGULATOR

BlastMask® training regulators attach to your facepiece and simulate real-world SCBA breathing without draining your cylinders, or your budget. And now with new enhancements, including a bypass valve and slide latch that mimics SCBA functionality, it’s even more true to life. So you can train like it’s real. And be tactically fit when it counts.

MASKHAZE® SIMULATED SMOKE TRAINING TOOL

Maskhaze® Simulated Smoke Training Tool is reusable, waterproof and allows for safe and effective training exercises. To apply the Maskhaze to a compatible SCBA mask, remove the Maskhaze sheet from the package, wipe the SCBA mask lens to remove any loose dust, and stick the center of the Maskhaze’s film to the top center of the SCBA lens and lightly press downward on the film to secure properly.

- Simulated smoke training for firefighter SCBAs
- Most realistic smoke training tool
- Safest way to train
- Use for RIT, self-rescue, search and rescue
- Patent pending image altering technology
- No residue after use
- Reusable up to 3 times
- Works even when wet
- Available in packs of 10, 25, or 50

SCBA CARE & MAINTENANCE

DELUXE SCBA MASK BAG
PROTECT YOUR SCBA

Deluxe SCBA mask bag fits any modern-style SCBA face piece with MMR, models NFPA 1997 or newer. The bag will hold a face piece with the regulator attached as well as most voice amp and comms devices, an airline face piece or mask with APR cartridges attached. L-shaped side opening allows for quick deployment of the mask when needed.

- Dual inner liner protects against scratches
- Hook and loop closure
- Nylon webbing loop and trigger snap hook
- Heavy-duty water resistant nylon with screen printed Maltese Cross logo
- Lime yellow/silver reflective trim with leather binding reinforcement provides added visibility

SPECIFY COLOR: Red, Black, Fluorescent Yellow
BN579 Deluxe SCBA Mask Bag $18.95

PROTECT SCBA CYLINDERS WITH QUIC-ACCESS CABINETS

Safely store SCBA air packs and spare cylinders in the harshest of indoor and outdoor environments; easily accessible when seconds count. Cabinets can also accommodate protective clothing, emergency equipment, or emergency respirators. Ship. wt. 21-29 lbs.

- UV-stabilized ABS plastic with highly visible “safety yellow” doors
- Bulb seal gasket locks out moisture and dirt
- Thermoplastic hinges and latches are highly resistant to corrosive chemicals and ultraviolet exposure
- Windows allow for easy visual inspection of contents
- Stick-on labels indicate minutes duration of SCBA inside

ULTRASONIC SCBA CLEANING SYSTEM
SPECIALY DESIGNED TO CLEAN YOUR SCBA MASKS BETTER

Our systems and solutions are easy-to-use, environmentally friendly, and cost efficient. Fire departments and industrial safety facilities throughout the country depend on us to get their equipment flawlessly clean without damaging the integrity of the apparatus. Major mask manufacturers recognize Ultrasonic Cleaning technology as an accepted SCBA cleaning method. Ultrasonic Cleaning offers the most thorough cleaning and disinfecting process with minimal disassembly; it reaches both interior and exterior surface areas, where most manual cleaning processes will miss. Ultrasonic Cleaning gives you the best overall cleaning at an affordable price. Number of masks cleaned at one time will vary depending on mask size.

**ALL SYSTEMS INCLUDE: Ultrasonic Cleaning Unit, SCBA Rack and Cleaning Solution**

BAUER OCEANUS COMPRESSOR SYSTEMS
A PORTABLE, ECONOMICAL, COMPACT, HIGH PRESSURE COMPRESSOR

This pressure-lubricated 5000 psi compressor is ideal for the emergency response team that requires a highly portable compressor for filling SCBA or SCUBA cylinders. Standard equipment includes the compressor, 4.9 SCFM Charging Rate, the Bauer Triplex Purifier, a snorkel for the intake, and your choice of one-phase electric, three phase electric or gasoline engine all mounted on a stainless steel base. The gasoline powered model features a Subaru engine, a pressure shutdown switch, and hour meter. Suitable for use with a maximum of a 2 cylinder, 4500 psi cascade system. Automation package includes magnetic starter, pressure switch, auto drains and 10’ of power cord. **Ship. wt. 200 lbs.**

ENCLOSED FILL STATIONS

These heavy-duty steel NFPA compliant fill stations protect the operator and bystanders in the event of an SCBA cylinder rupture while filling. These each have an inlet gauge, Fill Pressure Regulator, regulated pressure gauge, 1 fill valve and gauge per fill position. Each fill line is equipped with hand tight universal fill connector to fit all standard SCBA cylinders 2216, 3000, and 4500 psi. The SCBA cylinder holders are lined to prevent scuffing of the cylinders. Painted with a durable powder coat finish. **Ship. wt. 800 lbs.**

A. SCBA BRACKETS

The rugged design of our original SCBA bracket has been safeguarding your SCBA cylinders from scarring and damage since 1988. All brackets are constructed of powder coated steel with removable spring clips featuring a high quality nylon protective coating. The resilient cylinder clips are constructed of 1075 spring steel making them ideal for both fiberglass and carbon fiber tanks. We guarantee our brackets to be the best with our industry leading Lifetime Warranty. Manufactured and assembled in USA. **Ship. wt. 5 lbs.**

- Clip only available for standalone use, retrofit, and tank changes
- Horizontal & diagonal drill pattern standard

B. NFPA COMPLIANT SCBA BRACKET WITH SAFETY STRAP

This bracket is required for securing SCBA within crew compartment areas. It features a 3-point release that keeps your SCBA locked and securely in place. Simply don the SCBA while enroute and keep it safely secured. On the scene pull that lanyard from between your legs or along the side of your seat and you are ready to go. This universal bracket is designed to fit all SCBA. Additionally this bracket is NFPA compliant meeting the 1901-03 2009 standard. We guarantee our brackets to be the best with our industry leading Lifetime Warranty. Manufactured and assembled in USA. **Ship. wt. 5 lbs.**

**EZ-LOC SCBA MECHANICAL BRACKET**

- No straps or levers. Locks quickly and easily by simply pressing down on the top clamp
- Ratcheting design safely locks SCBA in place over a range of engagement - no struggling to achieve a lock or slamming the cylinder against a backplate
- Fully adjustable. Fits most makes/models of SCBA with only minor adjustments
- Footplate Guide makes stowing the air pack an easy, no-look process
- NFPA 1901 compliant and third party tested to exceed NFPA 9G standard
- **Ship. wt. 12.8 lbs.**

**WALKAWAY® BRACKETS**

Rely on these classic brackets for secure storage and quick, easy access to breathing apparatus. All brackets are constructed of heavy-duty steel with a smooth, crack-resistant thermoplastic coating to protect the cylinder and make retrieval a breeze. Standard coating is ideal for low to moderate use. High cycle coating (tested to over 50,000 cycles) adds yellow tips for moderate to high use. **Meets NFPA Requirements (For installation in a crew cab when used with AS075 Collision Restraint Strap). Ship. wt. ranges from 4-6 lb.**

TECGEN51 MULTIPURPOSE GEAR

When a call comes in, research indicates that 90% of the time it’s not a structure fire. Why wear hot, bulky turnout gear on every call if you don’t have to? Dual-certified TECGEN51 is all you need for your calls, including wildland, extrication, MVAs traffic control and incident command - for a third of the cost of traditional turnout gear. Reduce exposing your valuable turnout gear to hazards such as rips, tears, contamination and UV light degradation. Choose TECGEN51. TECGEN® brand fire resistant garments are UL certified to exceed NFPA 1951 (Technical Rescue) and NFPA 1977 (Wildland Firefighting).

SAVES EXPENSIVE TURNOUT GEAR
90% of your calls are not structure fire related.

LESS EXPOSURE TO CARCINOGENS
Wearing TECGEN51 on those 90% of calls eliminates potential exposure to hazards such as carcinogens and other harmful particulates that can accumulate on your turnouts.

LESS CARDIOVASCULAR STRESS & FATIGUE
Breathable, lighter weight, single layer garment

TECHNOLOGY
TECGEN® fabrics are made with a high density TECGEN® fiber blend and para-aramid in a comfortable and durable construction. TECGEN® fiber is an inherently flame resistant fiber providing advanced heat and flame protection capabilities. This technology allows us to develop fabrics that offer high levels of thermal protection (TPP) and breathability (THL). You no longer have to sacrifice one for the other.

HEAT STRESS
Whether carrying heavy equipment, dragging hoses or removing car doors, the intense physical activities associated with firefighting can cause firefighters’ bodies to generate increased heat. TECGEN51 is ideal for departments looking for gear that offers enhanced comfort, high levels of thermal protection and a solution that is designed to help prevent heat stress.

TECGEN® fabrics are made with a high density TECGEN® fiber blend and para-aramid in a comfortable and durable construction. TECGEN® fiber is an inherently flame resistant fiber providing advanced heat and flame protection capabilities. This technology allows us to develop fabrics that offer high levels of thermal protection (TPP) and breathability (THL). You no longer have to sacrifice one for the other.
FINALLY - A COOL, COMFORTABLE, CUTTING-EDGE ALTERNATIVE TO TURNOUT GEAR

SPECIFICATIONS:
• Dual-Certified: NFPA 1951 (Technical Rescue) and NFPA 1977 (Wildland FF)
• Lightweight: Engineered to protect you without weighing you down
• Comfortable: Provides enhanced mobility for confined spaces
• Repels Moisture: Helps keep you cool and dry
• Breathable: Managing the heat is easier when your clothes can breathe*
• Active posture design
• Durable: Flexible TECGEN® fiber provides increased durability over typical carbon-based fibers
  * High THL rating allows body heat to escape

STANDARD COAT FEATURES:
• 3.5” x 8” x 3” radio pocket with mic tab
• 6½” x 5½” patch pocket w/ flap closure on right chest
• 2 - 7” x 7” cargo hand pockets
• 2” 3M Scotchlite® triple trim
• Bi-wing back design for ease of movement
• Full width collar closure
• Glove interface adjustments

STANDARD PANT FEATURES:
• Comfortable and efficient BDU design 4” waist adjustment via take up straps
• Belt loops accommodate 2” belt
• 2 - 8½” x 8½” cargo pockets w/ flaps located on outside legs
• Front hand pockets
• 2 - rear pockets
• 2” 3M Scotchlite® triple trim
• Boot interface / leg take up adjustments
• 12” zippered leg openings for easy donning over boots
• Suspender loops

MOBILITY AND PROTECTION

FIRELINE™ SHIRT

Designed in accordance to the U.S. Forest Service Specifications. Generously patterned to allow unrestricted range of motion and comfort. Can be worn by itself as a shirt or layered over your favorite tee as a lightweight jacket.

- 3” high shirt style collar
- 3” hanger loop at neck
- Two large patch style breast pockets with hook and loop flap closures
- Left pocket includes pen/pencil slot
- Set-in style sleeves with adjustable hook and loop tab closure at cuffs
- Extra large melamine button front closure
- Shirt tails are extra-long and squared off to be worn either tucked in or outside pants

SPECIFY SIZE: S-XL
BL001  Yellow Indura® Ultra Soft Fireline™ Shirt $91.95
BL002  Yellow Nomex® 111A Plain Weave Fireline™ Shirt $132.95
BP148  Yellow Tecasafe 111A Plain Weave Fireline™ Shirt $99.95

DOUBLE DUTY™ BDU PANTS

PGI’s Double-Duty™ pants are dual classified to NFPA 1975 and 1977 Standards by Underwriters Laboratories for use as both station wear and wildland firefighting PPE. Now you can get the best of both worlds – a good looking and comfortable station wear pant which is great for working around the station or being worn in public yet rugged and protective enough to be worn on the fireline. PGI’s signature relaxed fit and functional design is sure to make the Double-Duty™ BDU pant a station wear favorite.

- Signature relaxed fit for maximum mobility and comfort
- Rear of waistband is elasticized for maximum freedom of movement and comfort
- Oversized double needle top stitched bellowed cargo pockets on thighs expand to give you plenty of storage capacity and secure with hook and loop closures
- Contoured front slash pockets have extra deep bags
- Two large rear double needle top stitched patch pockets with hook and loop flap closures
- Corrosion-resistant brass snap at waist
- Double reinforced crotch panel extends wear life
- Adjustable hook and loop ankle straps backed with self-fabric
- Leg outseams are sewn with five-thread safety stitch, then top stitched with a double-needle lockstitch
- All points of stress are bartacked
- Compliant with NFPA 70E (Current Edition) – Meeting the performance specifications of ASTM – F-1506 for wearing apparel used by electrical workers exposed to arc and related thermal exposures
- Meets CAL-OSHA Requirements – Passes Fed. Test 191, Method 5903.2; CAL-OSHA Sections 3406(d)
- Complies with OSHA Rule 29 CFR Part 1910, 269

WILDFIRE PROTECTIVE HEADGEAR

Designed specifically to meet the requirements of wildland firefighters. They offer fire fighters protection, versatility, comfort, and value. Made of high-heat thermoplastic which offers superior impact protection and penetration resistance in non-structural, high-heat environments. In addition, they deliver added electrical insulation required for ANSI Z89.1-1986 Class A & B helmet specifications. Features include glare-reducing texture, shell-bonded goggle retainer clips for secure storage of eye protection and reflective strips for increased wearer visibility through smoke at night. Accepts a full range of mounting brackets for face shield visors or face shield screens. Meets NFPA 1971. Ship. wt. 1 lb.

- More secure suspension attachments
- Adjustable headband for custom fit
- Larger replaceable pillowed brow pad
- Seamless suspension straps

**HOT SHIELD WILDLAND FIREFIGHTER FACE MASK**

The Hot Shield Wildland Firefighter Face Mask is a patented highly flame resistant face protector designed by firefighters for use in all wildland firefighting operations. BK088 offers the extreme protection against burns to the face/neck with the added benefit of blocking and reducing the inhalation of smoke and ash particulate. Multiple layers of patented CarbonX help maintain the crucial airspace firefighters want and human skin needs to survive extreme temperatures. The soft comfortable inside liners (also CarbonX) absorb perspiration, adding to user comfort.

- One size fits all (hook & loop fasteners behind neck)
- Extreme thermal protection (radiant heat or direct flame) of major portions of the face and neck
- Reduction of inhalation of airborne particulate by means of a screening mesh and use of a disposable filter with exhalation valve
- One year materials and workmanship warranty
- Main Users: Firefighters and other workers that are subject to direct flame, radiant heat, smoke and airborne particulate hazards in an outdoor environment and where use of a self-contained breathing apparatus is either impractical or impossible

**FIRE SHELTER WITH CASE**

No wildland firefighter should be without a personal fire shelter. In an emergency situation, the fire shelter could save a life. The shelter meets Forest Service specs. Changes from the prior standard include the addition of a shelter floor and quick-grab handles for faster deployment. Training/Practice Fire Shelters are not fire resistant and should not be used as a fire shelter. **Ship. wt. 5 lbs.**

**V80 WILDCAT GOGGLES**

WILDCAT Goggles will not drip, melt, or ignite at temperatures up to 350°F (for five minutes). They offer superior comfort, too, thanks to pivot headbands, adjustable side vents, and a contoured fit that blocks out airborne contaminants. Meets ANSI impact standards.

- **Extreme Heat Resistance**: will not melt, drip, ignite at 350°F
- **Adjustable side vents** help increase airflow
- **Fits naturally** to the contour of your face
- **Lightweight and comfortable** with a pivot headband for optimal placement
- **Metal-free design** to minimize electrical transference risk
- **D4 rating** for dust protection
- **D3 rating** for droplet and splash protection
- **Meets ANSI Z87.1+ impact standard** and CSA Z94.3 compliant

---

**FIREPRO-1971™ FS GOGGLES**

The FirePro-1971™ FS goggles feature a one-piece, wraparound strap that easily secures to any helmet with Velcro® tabs. This system keeps the goggles on hand at all times, with the flexibility of quickly removing them if needed.

- **NFPA compliant 1971-2013 Edition - including the 5-minute, 500°F oven test**
- **U.S. Federal OSHA compliant**
- **Exceeds the requirements of ANSI Z87.1-2010**
- **All components** are heat and flame resistant

---

**FIREPRO™ WILDLAND GOGGLES**

**EVOLUTIONARY EYE PROTECTION**

The compact, low-profile FirePro™ frame optimizes fit and function with all helmets, while the full-perimeter ventilation and filtration system minimizes lens fogging and filters airborne particles, dust, and debris. The ESS FirePro-EX™ model features a two-piece strap system and Snap-On/Snap-Off™ helmet mounting brackets which attach to a helmet brim (no drilling required). The extra-thick, 2.8mm high-impact lenses provide wide peripheral vision and distortion-free optics. All ESS FirePro™ goggles exceed ANSI Z87.1+, US Federal OSHA, and are compliant with wildland fire equipment performance requirements including the 350°F for 5-minute oven test. FirePro-FS™ and FirePro-EX™ goggles are certified as compliant to NFPA 1977 Standard on Protective Clothing and Equipment for Wildland Fire Fighting.

**FEATURES:**

- **Interchangeable lenses**
- **Durable face padding**
- **Speed-clip straps**
- **Extra-wide field of view**
- **2.8mm lenses**
- **ClearZone FlowCoat anti-fog and anti-scratch lens coatings**
- **Anti-microbial face padding**
- **Rx available**

DARLEY DRIP TORCH
- 14" closed, 25½” assembled
- 6” diameter
- 1½ gallon capacity
- Fuel trap in spout prevents flashback
- Breather valve sealed outlets and oil proof gaskets prevent fuel spills
- Reversible burner for easy storage
- Check valve to protect against flashback
- Large diameter mouth for easy filling
- Double bottom for extra durability
- Heavy duty, lightweight aluminum body
- Red body complies with new OSHA regulations (29 CFR 1910.114)
- Meets DOT regulations for transport of flammable fuel UN#IBI-Y-150 and Forest Service Specification 5100-614
- Ship. wt. 6 lbs.

SMOKECHASER PRO
- Padded shoulder straps, back panel and waist belt
- 5 gallon capacity
- Large filler cap is located on top of the bag
- Two grab handles making filling easier
- USFS approved, quick priming pump
- PEDCO brass hand pump

RANGER RIGID-PAK BRUSH PUMP
Thick walled polyethylene plastic tank will take rough handling and harsh environments. Non-slosh rounded design keeps the unit comfortable, balanced and steady. The full padded pillow comforts that impinging feel of other tanks. The unit is completely corrosion resistant. It will not rust like galvanized steel models and is less expensive than stainless steel tanks. Adjustable padded shoulder straps are rugged yet fit comfortably and distribute the weight evenly down your back. Tank holds 5 gallons. Ship. wt. 2 lbs.

AS242 FEATURES:
- Aluminum base and quick-release strap keeps your Ranger Brush Tank secure on your apparatus

INDIAN FIRE PUMP
A 5-gallon portable hand-operated pump and tank. Brass pump is durable and easy to clean. Nozzle easily changes from straight stream to cone spray quickly. Tank cap has cam lock with watertight gasket and ventilation hole to prevent collapse. Heavy-duty, 1½” removable polypropylene shoulder straps and carrying handle. Ship. wt. 18 lbs.

AS241 Ranger Rigid-Pak Brush Pump $164.95
AS242 Ranger Carrying Bracket $134.95

B690 Indian Fire Pump, Galvanized $196.95
L574 Indian Fire Pump, Stainless Steel $288.95

Accessories
E743 Running Board Rack, Red Enamel with Straps $48.95
S896 Polypropylene Carrying Strap $11.95
S897 Pump 18” Long Less Adjustable Nozzle $128.95
S899 Strap for Running Board Rack $23.95
**COLLAPSIBLE BACK PUMP**

Corrosion-resistant Neoprene coated Nylon bag and single-stroke brass pump make the **U235** one of the best values on the market. Lightweight, collapsible bag holds 5 gallons of water, conforming to the shape of your back. Watertight and reinforced construction means you stay dry. Straps won’t rip, mildew or twist while in service. Oil-proof, 44” hose with stainless steel, monel and brass connections, connects 18” pump. Hose has rustproof quick connectors. The new 4” ABS polymer cap makes it much easier to fill with less time; replaces the old 2.5” metal cap. The seams have doubled in strength with a new ultrasonic welding process. *Ship. wt. 5 lbs.*

| **U235** | Collapsible Back Pump | **$159.95** |

**FORESTRY PUMP & BACKPACK**

**BK210:**
The Scotty pump is a single action pump with a foam eduction attachment and air aspirating nozzle. It eliminates the need to batch mix when Class A foam is required. Each time the pump is charged, 1% of foam concentrate is educted into the pump chamber. The air aspirating nozzle generates foam when the pump is discharged.

**BK211:**
Single action pump. The pump has a brass pump chamber protected by an engineering-grade polymer sleeve. No tools are required to disassemble the unit. It can be completely disassembled by hand for in-the-field maintenance.

**INDIAN CHIEF DUAL BAG FIRE PUMP**

The “Indian Chief” is a 5 gallon inner bag liner inside a protective, nylon fabric, collapsible outer bag. It forms to your back for greater comfort.

- Rugged outer bag offers more protection from punctures
- Harness straps with chest cinch strap help balance the load and prevent straps from pulling outward
- 2 liners come with fire pump – extra liner is stored in the outer pouch of the nylon bag
- Indian “Fedco” all brass pump, quick connect and dual nozzle

| **BL243** | Indian Chief Dual Bag Fire Pump | **$197.95** |

A. **LONG HANDLE FIREFIGHTING SHOVEL**

- Forged steel head
- Solid shank blade
- Rear turned steps
- 44" wood handle
- Ship. wt. 7 lbs.

**AJ462**  Long Handle Firefighting Shovel  $65.95

B. **FIRE SWATTER**

The flexible swatter beats the air away from the flames, smothering the fire instantly. Made of rubber treated belting 12"x15". Riveted to a shank cleated on the underside. Shank is driven into the ferruled end of a 60" ash handle, with rivet through ferrule and Shank. *Ship. wt. 2 lbs.*

**E252**  Fire Swatter  $56.95

C. **FORESTRY “MCLEOD” FIRE TOOL**

- Combination hoe/rake
- Bolted blade
- 3½" teeth
- 48" wood handle
- Ship. wt. 6 lbs.

**AJ463**  Forestry “McLeod” Fire Tool  $93.95

D. **STEEL FIRE RAKE**

In forest fire and prairie fire fighting this tool is valuable for raking fire lines, cutting underbrush and weeds, cleaning ditch-banks, etc. Soft steel eye and back with TEMPERED steel blades or teeth. Price includes 60" fitted ash handle. *Ship. wt. 5 lbs.*

**D114**  Steel Fire Rake  $49.95

E. **PULASKI AXE**

The Pulaski Axe is a special forest fighting tool. Along with the standard single bit edge, there is also a special Mattock blade for dirt grubbing and trenching. Comes with polished red finish and 36” hickory handle. *Ship. wt. 5 lbs.*

**X586**  Pulaski Axe  $60.95
WILDLAND HOSE CLAMP

C&S Supply has designed a new Wildland Hose Clamp. Offering a much more rigid design, the clamp is capable of withstanding the most brutal and rough operations, yet is user friendly enough to quickly accomplish the task at hand.

- Knuckle guard with wide opening for use with gloves
- Step plate to assist opening while on a charged hose line
- Long bars on the top and bottom for maximum leverage
- Curved clamping area aids in collapsing the hose
- Integrated spanner wrench
- Lightweight and compact
- For use with 1" and 1½" single jacket hose
- Dimensions: 10½" x 3½" x 1½"
- Made in the USA
- Ship. wt. 3 lbs.

**WILDLAND SPANNER**

Lightweight aluminum construction designed for wildland firefighting. The single ended spanner fits 1” and 1 1/2” couplings.

- Lightweight aluminum
- Fits 1” and 1 1/2” rocker lug couplings
- Meets Forest Service Specifications (FSS)
- Made in the U.S.A.
KEY PENCIL LINE HOSE
LIGHTWEIGHT CIRCULAR WOVEN FIREHOUSE TECHNOLOGY

Lightweight, circular woven fire hose technology incorporating high tensile, all polyester woven jacket, lined with high tensile NSF polyurethane. This workhorse hose packs tight and features brass GHT threaded couplings with strain reliefs.

- Dependable high tensile, NSF 61 approved polyurethane liner
- Exceeds U.S. government federal specification 4210-01-167-1061

NEW

WILDLAND HOSE PACK

Designed with the rugged demands of wildland firefighting in mind. This ergonomically designed hose pack allows the firefighter to transport up to 300 ft. of forestry hose and appliances comfortably while allowing the firefighter to have their hands free to carry tools or navigate difficult terrain. Made of ballistic nylon.

- 2 or 3 hose pockets designed to hold 100' lengths of 1" or 1 1/2" hose
- Capable of mixed loads which can be deployed independently
- Single buckle release for hose deployment
- Heavily padded, contoured shoulder straps
- Made of heavy duty Ballistic Nylon

WEATHERHAWK WINDMATE™ WIND METER

HAND-HELD COMPREHENSIVE WEATHER MONITOR

The WeatherHawk Windmate WM hand-held wind meter is a comprehensive weather monitor that measures a full range of environmental data specific to your location. It includes a 48-hr visually displayed bar graph for every function, hour-by-hour. The USA-made fluxgate compass reads when held vertically, gives wind direction in degrees and compass points; and it calculates crosswind, head/tail wind. The compass can be calibrated for variation, declination and deviation. In addition to wind speed and direction, temperature, barometric pressure, altitude, and humidity, the unit includes Wind Chill, Wet Bulb, Dew Point, Delta T and Density Altitude. WM-350 provides an audible storm alarm that alerts you to weather changes, even if the unit is off. The unit includes the AccuWeather Comfort Index and it can be adjusted based on sun intensity to provide a superior human based “feel” for Heat Index. All WindMates are designed with a wind speed accuracy of better than +/- 3% and have a 2-Year warranty.

FIRE ARMOR FIRST RESPONDER VEST

With the new NFPA 3000 recommendations of NIJ Certified Level IIIA Ballistic Protection for Active Shooter/Hostile Event Responses (ASHER), the “First Responder” was developed for Fire & Medical personnel responding to Active Shooter events, Mass Casualty Incidents and dangerous domestic calls.

Developed and designed by Firefighter/Paramedics that work in the industry, who wanted to provide the best Ballistic Protection to our brothers and sisters in a “One Size Fits Most” design, alleviating the need for agencies to have multi-sized vest or making time consuming size adjustments when seconds count.

The system is designed to look like “Bunker Gear”, as an external “wear over the shirt or uniform” design, it provides maximum Ballistic Protection in front, back and side coverage, utilizing NIJ 0101.6 Certified Level IIIA soft armor as well as the ability or option of adding 10”x12” NIJ Certified Level III+ (see below). No matter who is sitting in the “seat”, the goal is to ensure all responders have a properly fitted vest.

CARRIER SYSTEM:
- Easily adjusts to individual firefighter
- 5 color options designed around Fire/EMS uniforms and equipment
- Carrier System is constructed of 2 parts (1 front panel and 1 rear panel) for universal sizing ranging from 20” up to a 60” waist
- Carrier is constructed of 1000d Cordura™ Nylon material
- Enlarged/integrated front “Bunker Gear” style pocket for Individual First-Aid Kits (IFAK) and/or radio with internal elastic to secure items
- Heavy duty Drag Rescue Device (DRD) handle
- Fully adjustable, closed cell foam-padded shoulders with channels for optional ballistic shoulder inserts
- 360° of 3M™ Hi-Viz reflective tape and 3M™ reflective ID lettering
- Top loading hard armor insert pockets on the front and rear capable of accepting either full size or shooters cut rifle armor

LEGEND OPTIONS
- Fire
- Fire-Rescue
- EMS
- RTF
- Custom legend (11 character limit including spaces)

BALLISTIC PANEL INSERTS:
- 2-piece NIJ 0101.6 Certified ballistic panel inserts also consist of a front and a rear panel, the rear panel is constructed with “wings” to provide maximum “flank” coverage on all sides
- Integrated 10” ballistic cummerbund
- Provides 360° of NIJ Certified Level IIIA Ballistic coverage
- Weight: Approximately 12 lbs.

SPECIFY LEGEND AND LETTERING COLOR (3”): Red/Orange, Lime Yellow

SPECIFY TRIPLE TRIM COLOR: Red/Orange, Lime Yellow

BP117 Fire Armor First Responder Vest
BP326 Modular Fire Plate Carrier (No Ballistics, See Plates Below)

LEVEL III+ STAR 647 STEEL PLATES

We do more than just protectively coat our very own armor. We’re also passionate advocates for what will serve Police, Fire and EMS personnel best in the field. That commitment also means our armor is tested by an independent 3rd party, ensuring our warranty will always stand between them and an emergency. Because having the right kind of armor, means the difference between uncertainty and knowing they are prepared. Dimensions: 10” x 12”.

- 5mm thickness
- NIJ III 0101.06 Certified (P5mmSAN600)
- 10 year warranty
- Maximum durability
- Multi-hit capability
- Standard black color
- Single curve

MBN503 Modular Operator Plate Carrier $88.95
BN564 Level IIIA Soft Armor

RESCUE TASK FORCE RESPONDER VEST

The RTF Responder Vest provides the combination of ballistic protection, rapidly accessible medical supplies and custom configurability. Two combination external, front mounted Tourniquet/Shears Holders provide rapid access for major hemorrhage control. The drop down front medical pouch can be easily accessed and has a variety of elastic loops and pockets for organizing medical supplies. The Med Pouch also offers a fast “rip away” functionality that allows it to be quickly removed from the vest for use by other team members. Steel III+ plates can be added for protection against some rifle rounds.

BN177 INCLUDES:
- 2 - C.A.T. black tourniquets
- 2 - 7.5” EMT shears
- 4 - Compressed gauze
- 2 - 6” Israeli emergency pressure dressings
- 2 - NAR Hyfin twin vent chest seal twin packs
- 2 - Hypothermia rescue blankets
- 3 - Pairs of Nitrile gloves
- 4 - TCCC cards
- 1 - Sharpie marker
- 2 - Nasopharyngeal airways, 28Fr, with lube

BN177 & BN178 SPECIFY COLOR: Red, Black, Coyote or Olive Drab
BN177 RTF Responder Vest without Armor - with Supplies $325.95
BN178 RTF Responder Vest without Armor - without Supplies (Red N/A) $166.95
BN348 Level IIIA Soft Armor $499.95
This kit is designed to deliver the most critical “point of wounding” supplies for First Responders, Fire Rescue or EMS personnel. Shoulder strap and carry handles allow easy on-scene transport options, and internal organizer pockets can accommodate additional supplies if desired. Dimensions: 8”x8”x12”.

**INCLUDES:**
- 1 - Quiklitter™
- 4 - Cat tourniquet
- 3 - Halo chest seal
- 2 - 4” trauma dressings
- Additional supplies

**SPECIFY COLOR:** Black or Olive Drab

| BN185 | Active Shooter Event Casualty Response Kit | $329.95 |

**RESCUE ESSENTIALS QUIKLITTER™**

The Rescue Essentials QuikLitter™ is the lowest-cost emergency stretcher available. It features ten large handholds, allowing for easy patient handling. With a load capacity tested to 500 lbs., it can be employed for everyday use, Mass Casualty and Disaster Preparedness, as a Backboard cover and Strapping Support System, as a Patient Transfer System to move the patient from the backboard to the hospital gurney, as a Gurney Sheet, as a Search and Rescue Gurney, as a Patient Transfer System to move the patient from the bed to a chair and back, or as a Seated Patient Evacuation System. The QuikLitter™ is constructed of water-resistant coated non-woven material, is latex-free, and is rated to 500 lbs.

| BN181 | Rescue Essentials QuikLitter™ | $16.95 |
ONESUIT® FLASH 2 HAZMAT SUIT

ONESUIT® Flash 2 is the industry leading flash fire chemical protective suit, offering the highest level of protection against chemical/biological agents as well as chemical flash fire resistance and thermal protection. Designed to allow for excellent maneuverability and user comfort, ONESUIT® Flash 2 comes standard with Saint-Gobain’s new ONESUIT® Hazglove-91 high performance chemical protective gloves.

- Certified to the highest level of chemical protection: NFPA 1991-2016 Edition, including: Optional liquefied gas protection and optional chemical flash fire escape protection
- Incredible operational mobility and peripheral visibility through NEW streamlined suit design
- Excellent comfort derived from the single-skin lightweight ensemble construction (<13 lbs)
- Permanent anti-fog resistance using NEW single-layer CORETECH® Clearguard Visor
- Enhanced glove comfort and dexterity using new ONESUIT® Hazglove-91
- Excellent flame resistance and mechanical durability using tough abrasion resistant material technology
- 15 year minimum shelf life giving low life cycle cost
- Ultra-compact for convenient, space-saving storage
- Reusable, multi-exposure design

SPECIFY SIZE: S-XXXL
BGS30 ONESuit® Flash 2 Hazmat Suit $2,947.95

FRONTLINE® 500 NFPA 1991 CHEMICAL SUIT

CHEMICAL, FLASH, RADIANT - THREE HAZARDS, ONE SUIT

Now get triple assurance with a single suit certified to NFPA 1991 base plus optional Flash Fire and Liquefied Gas requirements. Frontline® 500 offers three-way protection - broad chemical holdout, plus flame resistance and superior radiant heat protection for the additional hazards encountered in a chemical flash-fire. With Frontline® 500, Kappler’s got your back - and your front.

FEATURES:
- Single garment eliminates need for typical 2-suit NFPA 1991 configuration
- Combines chemical, flash-fire and radiant heat protection in a single suit
- Seams are sewn and double heat-sealed/taped for added protection
- Large, expanded-view face shield improves field of vision
- Unique 2N1™ glove system prevents inner glove inversion when removing hands
- Removable knitted Kevlar overglove, plus field-replaceable 2N1® Glove System which eliminates inner glove inversion
- Highly flexible 48” gas-tight AquaSeal® zipper facilitates easier donning and doffing

SIZING:
- Small/Medium: 5’3” - 5’7”, 120-160 lbs.
- Large/X-Large: 5’7” - 6’2”, 160-220 lbs.
- 2X-Large/3X-Large: 6’2” - 6’5”, 220-300 lbs.

SPECIFY SIZE: S/M, L/XL & 2XL/3XL
BL630 Frontline® 500 NFPA 1991 Chemical Suit $2,317.95 $2,317.95 $2,548.95
**Interceptor® Level A Deluxe Suit**

Interceptor® is the apex of Lakeland Industries’ chemical protective clothing line. There is an Interceptor® suit for your needs; gas, vapor, aerosol, liquid or particulate protection. Interceptor® offers dependable protection, superior performance and patented garment features that have been proven over a broad range of chemical challenges in a wide range of environments.

- Patented ShurSeal Teflon® visor process permanently seals the visor into the suit with no sewing involved so that liquids can’t penetrate the visor edge
- Teflon® outer layer on visor prevents impairment of vision due to chemical contact
- Seams sealed inside and out for maximum protection
- Fully encapsulated front entry vapor-protective level A deluxe suit

**ZYTRON® 500 Totally Encapsulating Suit**

Zytron® 500 is top of the class - and the classic responder choice for hazmat and other demanding situations. It’s tough, built for mobility, and based on patented technology that created the first material to survive eight full hours against the ASTM F1001 Test Battery with no breakthrough.

**BL102 FEATURES:**
- Rear entry, expanded back design
- Large, expanded-view face shield made of 40 mil FR PVC
- Cloth zipper w/overlapping double storm flaps w/hook-and-loop closure
- One exhaust port with cover
- Attached sock boots with boot flaps
- Elastic wrists

**BL103 FEATURES:**
- Double-taped seams
- Front entry, expanded back design
- Large, expanded-view face shield made of 40 mil FR PVC
- Gas tight PVC zipper with overlapping double storm flaps with hook-and-loop closure
- One exhaust port with cover
- Attached sock boots with boot flaps
- 2N1™ glove system
- Roomy tapered sleeves and ergonomic garment design

**SPECIFY COLOR:** Orange, Charcoal

**SPECIFY SIZE:** S-XXXL

| **BL102** | Zytron® 500 Totally Encapsulating Level B Suit Rear Entry | $351.95 | $385.95 |
| **BL103** | Zytron® 500 NFPA 1994/2007 Edition Class 2 Certified Totally Encapsulating Level A Suit Front Entry | $1,175.95 | $1,294.11 |

**PPE Drying Stand**

**DESIGNED FOR CHEMICAL SUITS OR WET AND DRY DIVE GEAR**
- Tough epoxy powder coat finish
- Naturally air dries suits and gear
- Durable steel construction
- Accepts all suit styles and sizes
- Corrosion-resistant
- Economically priced

**UNIVERSAL PRESSURE TEST KIT**

Universal Test Kit for Lakeland Interceptor or other brand chemical suits. Features an integrated air compressor, magnehelic gauge, timer and quick disconnects for ease of use and testing. It’s everything you need to keep your encapsulated suit in top working order. *Ship. wt. 10 lbs.*

| **BC097** | Personal Protective Equipment Drying Stand | $169.95 |
| **BL073** | Universal Pressure Test Kit | $1,750.95 |
GUARDIAN NEOPRENE GLOVES
When you work with dangerous chemicals, you want your glove to protect exactly as promised, with uncompromising consistency. You want a glove to be comfortable and rugged with total performance features. The Guardian is all of this plus it’s fire retardant. It’s made with painstaking precision and each glove is “solution dipped” for maximum chemical impermeability. Manufactured to the NFPA 1992 Splash Garment Specifications Level “B”. When worn over the Silver Shield gloves, they meet the NFPA 1991 Standard on Vapor Protective Suit for Hazardous Chemicals Level “A”. Ship. wt. 1 lb.

SPECIFY SIZE: S-L
AC970 Guardian Neoprene Gloves $45.95/pr.

FENTANYL/OPIOID PPE KIT BASIC
Warthog Fentanyl/Opioid PPE Kit Basic was developed using guidelines from the CDC, NIOSH, DEA and The White House Fentanyl Safety Recommendations for First Responders.

- Disposable gown
- Goggles
- Size XL nitrile powder free gloves
- Disposable N100 mask
- Biohazard bag

Some kits on the market save cost by only using a N95 rated mask. Specifically, the CDC recommends using an N100 rated mask.

BN760 Fentanyl/Opioid PPE Kit Basic $24.95

HAZMAX® BOOTS
THE FINEST BOOT MADE FOR HAZARDOUS MATERIALS HANDLING

- 16” boot height
- Meets requirements for the optional chemical and biological certification
- Steel safety toe: Built in steel toe complies with ASTM F2413-05 for impact and compression
- Full steel midsole
- Steel ladder shank: Provides arch protection and support
- One-piece injection molded construction, eliminates seams
- Boots are constructed of a high viscosity and flexible PVC alloy
- Non-absorbent polyester lining for easy cleaning and quick drying
- Replaceable cushioned insoles
- Cut off bands
- Kick off lug
- Ship. wt. 7 lbs.

SPECIFY SIZE: Mens 6-15
AW038 HAZMAX® Boots $101.95

HAZPROOF® BOOTS
With the growing reality that chemical warfare agents are now a threat to the civilian population, domestic preparedness programs are developing rapidly. The HazProof® boot, made of special polymer material, has also been tested to Military Standard 282 and will provide protection against certain chemical warfare blister and nerve agents! Certified to NFPA 1991, 2005 Edition for chemical and hazmat cleanup, emergency response, and domestic preparedness.

- Injection molded seamless construction for 100% liquid-proof protection
- Larger foot area is engineered to accommodate the extra bulk of an encapsulated suit, for comfortable fit
- Smooth exterior surface for easy decontamination
- Stretch fastener closure system allows for easy on/off while wearing gloves
- Meets ANSI spec. Z41 PT99 M I/75 C/75 EH, for steel toe impact and compression, and electrical protection
- Steel mid-sole meets and exceed ANSI Z41 PT 99 PR
- Steel shank provides firm arch support
- Blown closed cell EVA mid-sole for all day cushion comfort
- Sure grip cleated outsole has excellent abrasion and slip resistance

SPECIFY SIZE: 7-13
BH108 HazProof® Boots $88.95

CHEM-TAPE®
An innovative solution for added protection in liquid chemical situations. It has been tested and proven against warfare agents and many other chemicals. Ship. wt. 1 lb.

AK036 Chem-Tape® $33.95/roll

NEW
**BW Clip4 Multi-Gas (4)**

PORTABLE GAS DETECTOR

The latest in wearable 4-gas detection. Just clip it on and get the job done. Because for 2 years, you know - IT’S ON.

- User-friendly tamper-proof operation with just one button
- Compatible with IntelliDoX docking system and instrument management system
- Real-time gas concentrations shown on LCD
- Daily full function self-test of sensors, battery status, circuit integrity, and audible/visual alarms
- Built-in concussion proof boot
- Requires calibration every 6 months, calibration gas and regulator not included

**BN501** BW Clip4 Multi-Gas Portable Gas Detector* $552.95

**CALIBRATION EQUIPMENT**

| BN726 | Quad-gas: (CO, 100 ppm), LEL-50%, H2S-25PPM, O2-18%, BAL-N, 34L | $151.95 |
| BN737 | Calibration Gas Regulator (SS 0.5LPM) | $151.95 |

*This unit cannot be returned once it has been activated.*

**SINGLE GAS BW CLIP**

MAINTENANCE-FREE SINGLE-GAS DETECTORS

The BW Clip Series of single-gas detectors provides up to three years maintenance-free operation: just turn on the device and it runs continuously - no need for sensor and battery replacement or battery charging. That means great reliability and no downtime.

- Automatic logging of the 35 most recent gas events and bump test results
- Designed for a range of harsh environments and extreme temperatures
- Automated self-test of battery, sensor and electronics

**BN292** Single-Gas CO BW Clip Monitor* - 24 month warranty $203.95

**BN730** Single-Gas CO BW Clip Monitor* - 36 month warranty $244.95

*This unit cannot be returned once it has been activated.*

**BW Solo Featuring the 1-Series Sensor**

The Honeywell BW” Solo is easy to operate and service and includes an extensive selection of sensor options. It can help reduce the cost of ownership for serviceable single-gas detectors and includes a wireless option for enabling connected workers. The profile is small and lightweight, and the design is ruggedized for years of reliable service.

- User-friendly operation
- Easy-to-read display
- User maintainable
- New 1-Series sensor for enhanced reliability

**BP114** BW Solo - Carbon Monoxide $379.95
**BP115** BW Solo - Hydrogen Cyanide $469.95
**BP116** BW Solo - Chlorine $469.95

**BW GasAlertQuattro**

Rugged and reliable, the GasAlertQuattro four-gas detector combines a comprehensive range of features with simple one-button operation.

- Rechargeable
- Alkaline pack with three AA batteries
- Calibration cap and tubing
- Reversible screwdriver

**BN726** Quad-gas: (CO, 100 ppm), LEL-50%, H2S-25PPM, O2-18%, BAL-N, 34L $151.95

**BN737** Calibration Gas Regulator (SS 0.5LPM) $184.95

**BN729** GasAlertQuattro 4-Gas Detector, Rechargeable $806.95

**BP106** GasAlertQuattro 4-Gas Detector (%LEL, O2, H2S, CO) $749.95

**BN729** GasAlertQuattro 4-Gas Detector, Rechargeable $806.95

*This unit cannot be returned once it has been activated.*
GasAlertMicroClip GAS DETECTOR

The industrial GasAlertMicroClip is the world’s most popular multi-gas portable detector, delivering long runtime and reliability - plus small size, low cost and the easiest user experience.

- GasAlertMicroClip X3 for extended reliability with 3-year warranty
- GasAlertMicroClip XL for standard operation with 2-year warranty
- Guaranteed to run an entire shift - even at -4°F (-20°C)
- IP68 rating - unmatched water protection
- Compact, lightweight and easy to use - with one-button operation and no extensive training

SENSIT® GOLD SERIES GAS DETECTORS

Sensit Gold gas detection instruments are designed to provide personal protection from potentially hazardous conditions and help you quickly find the source of combustible gases. *Ship. wt. 2 lbs.*

- Internal pump
- Push button operation
- Field calibration
- LED warning lights
- Operation memory
- Infrared download
- Bright LCD display
- Made in the USA

- AS076: SENSIT® EX-CO - detects combustibles and carbon monoxide
- AS078: SENSIT® EX-CO Plus - detects combustibles, carbon monoxide, and oxygen
- AS080: SENSIT® 4 Gas - detects combustibles, carbon monoxide, oxygen, and hydrogen sulfide

Darley offers a complete line of calibration gas for all gas detector manufacturers. Darley makes it easy to keep your gas monitors working and up to manufactures specifications. Order your Darley Test Gas Today and stay compliant and safe.

MAXIWEDGE KIT

This kit offers greater versatility by increasing leak sealing solutions to problems resulting from punctures, gashes, slits and slashes in tanks, cylinders and containers both mobile and stationary. Gas, liquid and bulk material leaks can now be controlled until more permanent solutions are available. When soaked in liquid, softwood will slightly swell forming a tighter seal.

PLUGS INCLUDES:
- 10 - 1" x 3"
- 10 - 2" x 4"
- 10 - 3" x 8"
- 1" x 5" x 10"

WEDGES INCLUDES:
- 7 - 1/8" x 1" x 8"
- 5 - 1/8" x 10" x 10"
- 7 - 1/8" x 2" x 8"
- 3 - 4" x 4" x 18"
- 7 - 1/8" x 3" x 8"
- 7 - 2" x 3" x 12"
- 7 - 1 1/8" x 2" x 10"
- 7 - 1 1/8" x 1 1/10" x 10"
- 7 - 1 1/8" x 3" x 10"

ALSO INCLUDES:
- Non-spark mallet
- Carrying crate
- Kit (Case) Dimensions: 24" x 15.5" x 15.5"
- Kit Weight: 39 lbs.

BK124 MAXIWEDGE Kit $448.95

DARLEY ECONOMY LEAK CONTROL KIT

This kit includes 38 wood plugs, 15 wood wedges, a rubber mallet and comes in a durable fabric drawstring bag.

PLUGS INCLUDED:
- 15 - 1" x 1/4" x 3"
- 10 - 2" x 1/4" x 4"
- 10 - 3" x 1/4" x 8"
- 3 - 5" x 1" x 10"

WEDGES INCLUDED:
- 5 - 3" x 1" x 12"
- 5 - 3" x 2" x 12"
- 5 - 3" x 3" x 12"

BN742 Darley Economy Leak Control Kit $298.95

EMERGENCY SPILL KIT

INCLUDES:
- 1 - 1 1/4 lb. Super sorbent shaker carton
- 15 - 3 x 4' Haz socks
- 2 - Pairs of P.V.C. gloves
- 2 - Disposable suits with hoods and boots
- 100 - Univ. green sorbent pads
- 2 - Pairs of goggles
- 8 - Disposable bags w/ties
- 1 - Roll of caution tape
- 1 - 20 lbs. Cob fractions
- 1 - Respirator
- 1 - Emergency Response Guide Book
- 1 - 30 gal. blue poly drum

BH063 Emergency Spill Kit $309.95

POLY DRUM SPILL KITS

INCLUDES:
- 40 - 3" x 46" General purpose socks
- 200 - Green universal sorbent pads
- 10 - Hazardous pillows
- 12 - 3" x 10' haz socks
- 5 - Disposal bags with ties
- 2 pr. - Nitrile gloves
- 1 pr. - Goggles
- Emergency Response Guidebook
- 1 - 95 gal. yellow poly over pack with screw lid

BH061 Poly Drum Spill Kit $529.95
HAZARDOUS MATERIALS PATCH AND PLUG RESPONSE KITS

The Series “AE” is a collection of over 40 common components for emergency and temporary leak stoppage due to punctures, gashes, cracks and surface rotting. Series “C-1” Pipe Pluggers with Valve Kit - Allows hazardous materials to be temporarily contained, piped off to alternate location or flared. Series “C-2” External Pipe Leak Kit - Has unlimited uses in municipalities, chemical plants, manufacturing facilities or anywhere a pipe line is used. Contains pipe bandages covering nominal pipe sizes from 1/2” to 4”.

**SERIES “AE” KIT INCLUDES:**
- Sheet metal screws with neoprene compression seals
- Tubeless tire repair kit
- OSHA-approved 200” roll of barricade tape
- 8”x12” piece of solid neoprene
- 22” piece of foam material
- Lead wool epoxy putty that hardens like steel, hot or cold hose repair tape, basic tool set for patching
- Twin “T” stainless plate with foam
- 8”x2” stainless backed neoprene patch-hardwood cribbing
- 2 - 22” nylon straps and buckles
- 2 - “T” bolt crack patches
- 6 - Surface plugs for curved surfaces, wedged wooden plugs covered with felt
- 2 - Ball plugs
- Carrying case
- *Ship. wt. 33 lbs.*

**SYNTHO-PLUGS**

**FOOTBALL & GOLFBALL**

Syntho-Plug is a football/golfball shaped, polyurethane impregnated, water activated foam plug used to temporarily stop the flow from a leak in anything from spill containment and marine thru-hull damage. Initially pliable to insert into a void and quickly expands and hardens to fill the void. It can even be applied below the water line.

- Ready to use
- Simple and effective
- No mixing, no mess
- Hardens in minutes

CHLORINE INSTITUTE EMERGENCY KITS

EMERGENCY KIT “A”
FOR 100-150 LB. CHLORINE CYLINDERS

The emergency kit “A” contains devices to stop leaks at the valve, fusible plug, and in the side walls of chlorine 100 and 150 lb. cylinders which conforms to specification DOT 3A480. Two instruction booklets explaining application of each device are included. Includes accessory equipment and tools which are labeled and color coded. Kit is packaged within a heavy-duty plastic box measuring 35"x13/"x14". Ship. wt. 115 lbs.

AF033  Emergency Kit “A”  $3,051.95

EMERGENCY KIT “B”
FOR ONE-TON CONTAINERS

The emergency kit “B” contains devices to stop leaks at the valves, fusible plugs, and side walls of chlorine one-ton containers which conform to specifications DOT 106A500X. Two instruction booklets explaining application of each device are included. Will contain leaks in container valves, will seal leaks in container side wall and will contain leaks in container fusible plugs. Includes accessory equipment and tools which are labeled and color coded. Packaged in a heavy-duty plastic box measuring 35"x13/"x14". Ship. wt. 113 lbs.

AF034  Emergency Kit “B”  $3,067.95

EMERGENCY KIT “C”
FOR TANK CARS & TANK TRUCKS

The emergency kit “C” contains devices to stop leaks at the safety valve or angle valves of chlorine tank cars and trucks. Conforms to DOT 105A500W and MC331 specifications, for chlorine service. 2 instruction booklets explaining application of devices are included. Will contain leaks in tank car angle valves and safety relief valve. Includes accessory equipment and tools which are labeled and color coded. Kit is packaged within a heavy-duty plastic tool box measuring 36"x18/"x20". Ship. wt. 168 lbs.

AF035  Emergency Kit “C”  $3,378.95

GASKET KITS

All gaskets are molded from EPDM elastomer. The AF767 kit is for application with kit “A” to stop leaks in SO2 containers. The AF768 kit will stop leaks in one-ton containers when using kit “B” and the AF769 kit will stop leaks in tank cars when using kit “C”. Ship. wt. 6 lbs.

AF767  Sulfur Dioxide Cylinder Gasket Kit  $427.95
    with 4 Gaskets
AF768  Sulfur Dioxide One-Ton Container Gasket Kit  $571.95
    with 6 Gaskets
AF769  Sulfur Dioxide Tank Car & Tank Truck Gasket Kit  $480.95
    with 4 Gaskets
17-PIECE TOOL KIT

INCLUDES:
• Shoe handle brush
• 9” crate opener
• 16 oz. claw hammer with fiberglass handle
• Common knife 5 3/4” blade, 10 3/4” OAL
• Deck scraper, 1 1/2” blade x 7 3/4” OAL
• Spray booth scraper 3” blade x 9 3/4” long
• Standard screwdriver 5/16” tip, 6” blade

- 12” groove joint pliers
- #3 phillips screwdriver
- 12” tin snips
- 8” adjustable wrench
- 12” adjustable wrench
- 14” pipe wrench (aluminum)
- 12” bung wrench (fits 3/4” x 2”)
- 7” long nose pliers with cutters
- 8” combination pliers

Ship. wt. 20 lbs.

11-PIECE TOOL KIT

INCLUDES:
• 8” combination pliers
• Shoe handle brush
• Putty knife (stiff) 1 1/2” x 3 3/4” blade 7 3/4” OAL
• Common knife 3 1/4” blade 6 3/4” OAL
• 10” groove joint pliers
• #2 phillips screwdriver

- 12” groove joint pliers
- 3/8” tip, 6” blade
- 10 oz. claw hammer w/fiberglass handle
- 6” adjustable end wrench
- 10” adjustable end wrench
- 10” adjustable pipe wrench

Ship. wt. 11 lbs.

HAZMAT HOOLIGAN TOOL

This heavy-duty forcible entry tool was designed for emergency service personnel operating in the presence of hazardous vapors. Combining the design of one of the world’s most popular forcible entry tools and manufactured from spark-resistant material makes this an important addition to your hazmat team. Features duckbill and your choice of standard or metal cutting claw. Standard Claw is gently curved for maximum prying leverage and machine sharpened with recessed nail puller. Claw will fit over locks, hasps and many gas shut offs. Metal Cutting Claw combines the capability of prying and cutting heavy-gauge metal and composites. Ship. wt. 13 lbs.

- Heavy-duty
- Spark-resistant material
- Standard or metal cutting claw

AC622 Hazmat Hooligan Tool, Standard Claw $621.95
AC623 Hazmat Hooligan Tool, Metal Cutting Claw $607.95
**DECON SHOWERS AND ACCESSORIES**

**BA068** Portable pneumatic hazmat decon Shower. Two line mass casualty decon Shower System that can handle two non-ambulatory stretchers or four ambulatory personnel or combinations of the above. Approximately 10’Wx10’L x 9’H, 100 sq. ft. - 139 lbs.

**BA069** Portable pneumatic hazmat decon shower - four line three or four mass casualty decon shower system, decons four non-ambulatory, four to eight ambulatory, or any combination. Approximately 14.5’Wx23’Lx9’H - 340 lbs.

**QUICK RESPONSE™ SHOWER SYSTEM**

Designed for field response, the Quick Response™ Shower is durably constructed to withstand frequent training, and compact enough to fit in a portable carry bag. System includes Quick Response™ Shower, compact pool, elevation grid and vinyl carrying bag. *Ship. wt. 96 lbs.*

**SHOWER FEATURES:**
- Unique quick-connects for fast assembly
- 3 shower heads plus an independent hand-held sprayer
- Tough construction for frequent training and use
- Vinyl bag for storage and transport

**SHOWER SPECIFICATIONS:**
- Total Output: 7.5 gpm
- Dimensions: Assembled 43.2”x46.8”x88.8”; unassembled 49”x15.5”x9.5”
- Single Water Inlet: Standard garden hose
- Approximate Set-up Time: 2-3 minutes

**SYSTEM INCLUDES SHOWER, POOL, ELEVATION GRIDS AND CARRYING BAGS**

**Portable Decon Shower and Disposible Pool**

The **Hazmat Decon Shower** is a portable, collapsible, 1 1/2” PVC shower that is designed for decontaminating emergency response personnel. The unit is color-coded for ease of assembly and sets up in only five minutes. A crisscross water flow pattern is provided from the upper support bars. Shower comes in a canvas carrying duffel bag measuring approximately 42”x26”x12”. **Ship. wt. 65 lbs.** The **Hazmat Decon Pool** (sold 2 per case) is disposable and compact. It is easily stored in a space of only 60”x21”x3”. The pool has a 12 mil. polyethylene liner, is durable and weighs only 15 lbs. The pool sets up in 30 seconds. **Ship. wt. 30 lbs.**

**Decon/Pak™**

The **Decon/Pak™** is a self-contained agent proportioning and rinse application system helping to provide simple and gross decontamination of firefighting personnel and equipment.

- Flow is controlled by a twist grip valve that also functions as a carrying handle. Cleaning agents are added through the large, easy-open fill port that includes a debris screen
- Large selector for agent proportioning from 0.1 to 0.5% for cleaning agent** or set to rinse with water only
- Stores easily in tight compartment spaces
- Studies show that field decon using soap, water and brush can reduce cancer causing contamination on turnout gear by 85%

* Source: Journal of Occupational and Environmental Hygiene DOI: 10.1080/15459624.2017.1334904
** Contact your turnout gear manufacturer for cleaning agent recommendation for your specific gear.

**Portable Decon Spray Hoop**

**FAST, CONVENIENT, COST-EFFICIENT DECON SYSTEM**

The Portable Decon Hoop has dozens of decontamination applications. The hoop design concentrates water at the area being decontaminated, minimizing the amount of water required and offers better control. It’s constructed of durable, lightweight, corrosion-free aluminum pipe and tube. On/Off control on hoop and uses standard 1/2” hose connection. Comes with two 43” handles extendible to 66”. **Ship. wt. 4 lbs.**

**Uses:**
- Self wash-off
- Two-person
- Three-person
- Equipment
- 55 gallon barrels
- Overpacks
- Backboard patients
- Bunker gear

**Portable Decon Shower and Disposible Pool**

AC164 Decon Shower $799.95
AC165 Decon Pool - 2 pools per case $333.95/case

**Decon/Pak™**

BN720 Decon/Pak™ $775.95

**Multi Manifold**

Quickly connecting standard 3/4” hose to hydrants, fire hoses or fire apparatus. Constructed of corrosion-free aluminum pipe, fittings and 500 PSI certified brass 1/2 turn ball valves. Ideal for multiple hose connections. **Ship. wt. 5-8 lbs.**

**Uses:**
- Decontamination Manifold reduces the flow of water from a 1 1/2” fire hose to a series of three spigots
- Garden hoses can be attached directly to the manifold and run to a decon shower or used separately as needed

**Decontamination Manifold**

BN605 Decontamination Manifold $114.95

HEARTSTART ONSITE DEFIBRILLATOR
THE FIRST DEFIBRILLATOR AVAILABLE WITHOUT
A PRESCRIPTION TO COMMERCIAL USERS

SELF-TEST ENSURES READINESS:
• Daily self-tests check electrical components, subsystem, pads and battery
• Self-test also verifies that the pads cartridge is installed and in working order
• Blinking green “Ready” light means the OnSite has passed its last self-test, so you can be confident the defibrillator is ready for use

LONG BATTERY LIFE:
• 5-year shelf life plus 4-year installed life
• Same battery technology used with confidence in millions of cameras

EASY-TO-USE:
• Using the HeartStart Defibrillator is simple. Pulling the green handle activates the defibrillator and voice instructions. These instructions are paced to your actions, to help guide you through the entire process from placing each pad on the patient to delivering a defibrillation shock.

ZOLL® AED DEFIBRILLATORS
THE FIRST AND ONLY FULL-RESCUE AED

VISUAL PROMPTS GIVEN DURING CPR:
• Not pushing hard/deep enough? Prompts will tell you to push harder.
• Pushing hard enough? It will say, “Good compressions.”
• Not pushing fast enough? A metronome will lead you to the right rate. It will even show you the depth of each compression in real time.
• Not yet started? The AED Plus® will tell you to get started.
• Compressions stopped? It will tell you to continue.

ZOLL AED PRO® ALSO FEATURES:
• Ruggedness, portability and advanced functionality
• Superior AED design and rubber over-molds built to withstand challenging conditions

DEFIBRILLATORS
BH199   ZOLL® AED Plus®  $1,649.95

BG129   HeartStart OnSite Defibrillator  $1,313.95
Defibtech Lifeline AED’s breakthrough in design technology makes it possible for every budget to afford a life-saving AED. Mere seconds can mean the difference between life and death. The Defibtech Lifeline AED can be used with minimal steps to analyze and treat the patient’s condition. From the moment someone suffers sudden cardiac arrest, the inspired design features of the Defibtech Lifeline AED (Automatic External Defibrillator) shaves precious seconds off the defibrillation process. Seconds that could save more lives.

**DEFIBTECH LIFELINE VIEW WITH SCREEN ALSO FEATURES:**
- **Video Screen:** Shows you what to do in an emergency. Just one touch turns on the AED, lights up the interactive screen and a clear, calm voice tells you what to do with clear, easy to understand pictures and text so you can read it, see it and hear it.

WATER RESCUE MANIKINS

These adult and adolescent models are made of durable vinyl plastic with rust-resistant skeletons, articulated joints, and optional CPR capabilities. When filled with water, the manikin will submerge to the neck. Add an additional 5-10 pound weight to sink.

WATER-JEL FIRE BLANKET

A one-step system for Emergency First Aid on a burn victim. It puts out the fire, stops burn progression and cools the skin, eases pain, and protects against airborne contamination. Water-Jel Fire Blankets consist of a scientifically formulated cooling gel and a special carrier. The 100% worsted wool blanket is soaked in a water-based/water-soluble, bacteriostatic and biodegradable gel. The full size blanket adequately covers a patient or can be used to douse a fire or dangerous white phosphorous. Dimensions: 5’x6’. Shelf life: 5 years. Ship. wt. 21 lbs.

WATER-JEL BURN WRAP

Smallest and most versatile of the blankets, it is ideal for covering torso, leg, or entire back injuries. Dimensions: 3’x2’. Shelf Life: 5 years. Ship. wt. 10 lbs.

FLAME RESISTANT WOOL BLANKET

An ideal emergency blanket for every rescue vehicle. Made of 80% wool and can be cleaned.

- Dimensions: 66”x84”
- Ship. wt. 4 lbs.
- COLOR: Maroon

RESCUE RANDY™

Randy’s fully articulated body duplicates the weight and resiliency of a human body and can be positioned for realistic patient handling or extrication in situations too hazardous or uncomfortable for volunteer victims. His rugged construction means years of use in any rescue training environment. Clothing not included. Ship. wt. 125 - 185 lbs.
LARGE EMS DUFFLE WITH SUPPLIES
Easily-accessible main compartment, ten inside pockets, four outside pockets and numerous elastic hold-downs. Removable padded insert to hold “D” sized oxygen tank.

- Oxygen cylinder “D” tank
- Regulator (left handed, 0-25 lpm)
- Bag valve resuscitator (adult)
- Sodium chloride irrigation 500ml
- Airway kit
- Sphygmomanometer/stethoscope set (adult)
- Sphygmomanometer (pediatric)
- Utility scissors 5/8”
- Penlight flashlight
- 4 - Gloves
- Pair goggles
- Face mask - Earloop
- 3 - Non-rebreather O2 masks (adult)
- 2 - Non-rebreather O2 masks (pediatric)
- 3 - Nasal cannula (adult)
- Oxygen tubing
- Oral glucose tube
- 2 - Multi-trauma dressing
- 6 - Combine dressing 5”x9”
- 15 - Gauze pads 4”x4”
- 10 - Gauze pads 2”x2”
- 2 - Vaseline dressing 4”x4”
- Sterile burn sheet
- 60 - Bandages assorted (3/4”x3”, 1”, 3½”x2½”)
- 6 - Roll gauze 3”
- 6 - Roll gauze 4”
- Tape 1”x10” yds. uncovered
- Tape 2”x10” yds. uncovered
- Tape 3”x10” yds. uncovered
- 3 - Triangle bandages
- 2 - Biohazard bags 10 gal.
- 3 - Instant cold packs 4”x5”
- Obstetrical kit
- Foil baby bunting
- 2 - Bulb syringe
- Rescue “Space Blanket”
- 3 - Disposable cuffed masks (adult)
- 2 - Disposable cuffed masks (child/sm. adult)
- Flashlight
- Elastic bandage 3”
- Elastic bandage 4”
- Pressure bandage super thick
- Pressure bandage 4”x4”
- Raised PVC/Nylon reinforcement covers bottom and lower half of bag for water and abrasion resistance
- Yellow/silver triple trim reflective striping surrounds bag and 3M scotchltie stitched into webbing and straps

- Front and side pockets stretch full-length of bag and feature interior elastic instrument loops and nylon pockets with dividers
- Each colored quick access pouch includes clear vinyl window and interior pocket; green has elastic loops for berman airways
- Main flap is padded and features three clear zippered compartments for access to often-used items without disturbing main-hold supplies
- Shoulder strap is stitched with reflective tape and includes ergonomically shaped shoulder pad; adjustable and removable strap is attached with spring loaded metal US hooks
- Rear of bag has nylon webbing reinforced I.D. pouch with clear vinyl cover
- All pockets and compartments feature double zippers – can be locked for logistical purposes
- Overall Dimensions: 20”L x 16”W x 10”H

LARGE INTERMEDIATE MODULAR TRAUMA BAG
The new BL886 is a premium mid-sized ALS trauma bag, meaning it will hold virtually all of the medical supplies needed for a trauma call, less the oxygen bottle. The BL886 is heavily reinforced from top to bottom so it will withstand years of abuse. It also features multiple pockets, pouches, loops and compartments – including four removable color-coded zippered pouches for quick access to high priority items. The main hold also includes six removable foam dividers that can be customized along with the colored pouches – or removed completely to suit the users’ needs. Multiple points of hi-vis reflective around the bag ensures that it remains visible on-scene.

- Raised PVC/Nylon reinforcement covers bottom and lower half of bag for water and abrasion resistance
- Yellow/silver triple trim reflective striping surrounds bag and 3M scotchltie stitched into webbing and straps
- Blue and white embroidered star of life logo with silver reflective overlay
- Front and side pockets stretch full-length of bag and feature interior elastic instrument loops and nylon pockets with dividers
- Each colored quick access pouch includes clear vinyl window and interior pocket; green has elastic loops for berman airways
- Main flap is padded and features three clear zippered compartments for access to often-used items without disturbing main-hold supplies
- Shoulder strap is stitched with reflective tape and includes ergonomically shaped shoulder pad; adjustable and removable strap is attached with spring loaded metal US hooks
- Rear of bag has nylon webbing reinforced I.D. pouch with clear vinyl cover
- All pockets and compartments feature double zippers – can be locked for logistical purposes
- Overall Dimensions: 20”L x 16”W x 10”H

PLASTIC, SCOOP, AND SPLINT STRETCHERS

PLASTIC BACKBOARD

AR226 Plastic Backboard $177.95

SCOOP STRETCHER
• Thermally-treated polymer construction does not get too hot or cold
• Ergonomic ease of use
• X-ray translucent
• Twin safety lock for smooth and non-binding locking and unlocking
• Narrow foot-end frame
• Head section recessed to maintain proper cervical alignment
• 4 length options accommodates patients of different heights: 65", 70", 74", and 79"
• Easy-to-clean surface is impervious to fluids
• Folds to 47" for compact storage
• Includes three burgundy restraints

BD171 Scoop Stretcher $995.95
BD172 Storage Case $81.95

PLASTIC STRETCHER
IDEAL FOR RUGGED RESCUE SITUATIONS
Yellow high-density polyethylene shell, supported by a stainless steel outer rail, permanently attached with stainless steel semi-tubular rivets. Features molded runners, fully exposed outer rail, non-absorbent foam pad secured to stretcher and four patient restraint straps. Dimensions: 84¾"x24"x7¾". Load Capacity: 1,200 lbs. Ship. wt. 31 lbs.

AF742 Plastic Stretcher $652.95

SPLINT STRETCHERS

STANDARD SPLINT STRETCHER
Nylon web straps at chest, abdomen, thigh, and calf. Adjustable foot rests for vertical lifting. Frame is ½" steel tubing; cross braces and runners ⅛"x⅛" flat steel. Basket is 18 gauge. 1" hexagon steel mesh netting.

AW207 Standard Splint Stretcher $280.95

BREAK-AWAY SPLINT STRETCHER
The stretcher breaks into two halves which can be back-packed to the point of rescue and assembled in seconds. It can be secured to a standard backpack for carrying. Three positive lock clamps secure two halves together. Four 60" web straps are standard. Stores in space 44"x12"x24".

AW208 Break-Away Splint Stretcher $618.95

STRETCHER BRIDLE SLING
The Stretcher Bridle Sling provides vertical or horizontal lifting capacity of up to 2,000 lbs. Made of 1" nylon webbing resistant to moisture and fungus rot with forged snap hooks and 3" ID forged steel suspension ring. Ship. wt. 5 lbs.

AW207 Stretcher Bridle Sling $117.95
PATROL VEHICLE TRAUMA KIT

North American Rescue Patrol Vehicle Trauma Kit was designed to provide personnel with an easily accessible, quick to deploy medical kit from your Patrol Vehicle. Its modular storage system comes organized with an array of medical products ranging from basic first aid to more intermediate trauma care. One side of the bag’s exterior includes trauma shears at the ready as well as several pairs of nitrile gloves, while the opposite side features a MOLLE-style system to accommodate extra equipment as needed, such as additional tourniquets, ammo, or personal protective equipment. This arrangement is ideal for customizing the carriage of gear that requires immediate access. Once the zippered bag is opened, one compartment contains items to cover all your agency needs for basic first aid and community assistance while the opposite side offers a first time combination of both Basic First Aid and Basic Trauma medical items. This configuration gives every officer not just a basic first aid kit, but everything needed to save a life in more extreme injuries.

SPECIFICATIONS:
- Provide personnel with an easily accessible, quick to deploy medical kit from your Patrol Vehicle.
- Modular storage system comes organized with an array of medical products ranging from basic first aid to more intermediate trauma care.
- One side covers all your agency needs to administer basic first aid and community assistance.
- Second side offers a first time combination of Basic First Aid and Basic Trauma medical items.
- Exterior includes MOLLE-style system to accommodate extra equipment as needed.

ULTRABRIGHT RED-FLR CLASS II PUBLIC SAFETY VEST

Introducing the Ultrabright Red-Fire Class II Public Safety Vest. This product features a “zip-off” double Velcro® zipper front closure that allows the vest to breakaway from both sides of the zipper, making it the only 6 point breakaway vest on the market. The “performance cut” offers max comfort and allows access to turnout jacket pockets or portable radios at the waistline. The “chevron” reflective pattern on the back offers max visibility and distinct contrast. The shoulder breakaway points have been upgraded with 2” “re-force” Velcro® to ensure that the vest does not fall apart when donned over a turnout jacket but will still break away in emergency situations.

SPECIFY SIZE: S, M, L
BN732 Ultrabright Red-Fire Class II Public Safety Vest $39.95

POP-UP FLASHING CONES

- Safe, compact, highly visible and collapses flat for easy storage
- Meets MUTCD Standards
- Constructed of orange waterproof nylon
- Internal light has two settings: Steady burn and flashing
- Replaceable lithium battery
- Cone light endures 100,000 flashes or 36 hrs. of steady burn
- Sold in packs of 4 or 5 cones with one carrying bag included
- Meets the new 2009 NFPA 1901 apparatus standard for fire apparatus
- Ship. wt. 17 lbs.

BG503 28" Pop-Up Flashing Cones with Orange Plastic Base (Set of 4) $129.95
BH143 28" Pop-Up Flashing Cones with Orange Plastic Base (Set of 5) $171.95
BH144 30" Pop-Up Flashing Cones with Black Rubber Base (Set of 5) $189.95
**LIGHTWEIGHT MEGAPHONE**

Piezo Dynamic technology is revolutionary technique that allows a megaphone to operate more efficiently, and with less weight than ever before.

- Patented Piezo Dynamic technology allows efficient operation
- Lasts 40 hrs. Continuously on 8 "C" cells
- Weighs 50% less than a conventional model
- Adjustable volume
- Can also use rechargeable batteries
- Charge with 12V DC car cable or plug-in DC transformer
- Dimensions: 14¾“x8½”
- Ship. wt: 3 lbs.

**FLARE CONTAINER**

**CONVENIENTLY STORE YOUR FLARES AND KEEP THEM FROM DAMAGE**

Keep your flares together, easily accessible and safe from damage. Flare Container can hold up to twelve 30-minute flares. Easy to open cap and large handle make it user-friendly. It’s so inexpensive, one can be kept in every vehicle. *Ship. wt. 1 lb.*

**DARLEY SAFETY FLARES**

15 and 20-minute flares sold in cases of 72. 30-minute flares sold in case of 36.

P.A.C. TOOL MOUNTING SYSTEMS

TOOLOK AND TOOLOK HD
- Fast, easy locking and instant release
- Grip range ¼" to 1½"
- NFPA 1901 Compliant 9G impact
- Tested and certified NFPA 1901 compliant

TOOLOK HD
- Wider mounting base for increased stability
- Stronger, more durable base
- Thicker walled locking strap
- Lifetime warranty

BN470 Toolok HD $28.95

COIL LOK
- Easily adjusted strap for various conditions and sizes
- Stainless steel fasteners provided
- Multiple objects can be hung together
- Non-conclusive

BN317 Coil Lok $43.95

JUMBO LOK
- 3 pivot positions
- Adjustable mounting bracket with grip range of .375” to 3.250”
- 3” square Hurst rams and 3” D Holmatro rams
- Mounts folding ladders, electric drills, heavy-duty jacks, nozzles, chains and more
- NFPA 1901 Compliant 9G impact
- Dual poles
- Playpipes
- Ship. wt. 1 lb.

BC018 Jumbo Lok $64.95

STOW-N-LOC
- FAST tool storage with clamp-action brackets.
- PLUS simple positive locking strap when ready.

- Grip range 1” to 1½” diameter
- Adjustable, high-strength, fast-action locking strap
- 2 Heights: Tall: For long hooks
  Short: For close mounting
- NFPA 1901 Compliant 9G impact

BL263 Stow-N-Loc Tall $46.95
BL264 Stow-N-Loc Short $46.95

COIL LOK
- Adjustable lock strap capable to 5400 psi tensile strength
- Strap retainer block included
- Adjusted to mount horizontally
- Mounts to PAC tool boards and other flat surfaces

BN317 Coil Lok $43.95

JUMBO LOK
- Wider mounting base for increased stability
- Stronger, more durable base
- Thicker walled locking strap
- Lifetime warranty

BN470 Toolok HD $28.95

HANDLELOC STRETCHLOK SYSTEM
- Innovative, adjustable mounting bracket
- Secure mounting for tools, axe handles, poles and equipment up to 1½" in diameter
- Quick release for easy retrieval
- Made of elastomer
- NFPA 1901 Compliant 9G impact
- Ship. wt. 1 lb

AF659 Handleloc Stretchlok System $39.95
FLEXMOUNT BRACKETS
Flexible Y-shaped mounting brackets designed to provide a secure grip-type mount that wraps around poles, nozzles and a wide variety of other tools and equipment with a grip range from 1 1/2" to 2 1/2". Made from a unique state-of-the-art elastomer that is exceptionally tough, non-sparking and resistant to impact. There’s no springs to corrode or break. Hardware/fasteners included. *Ship. wt. 1 lb.*

WALL MOUNT CAN HOLDERS
Wall mount can holders lower the risk of rolling, falling, leaking, denting, and puncturing during transport. Keeps cans organized and easy to locate in a hurry. Mount it to a compartment wall and save space on the shelf below. Ship. wt. 3-5.1 lbs.
- BL674 and BL754: Fits 32 oz. (3½" diameter) cans or 32 oz. (2¾"x4¼") quart containers
- BL713: Fits 12 oz. cans up to 2½" diameter
- BL755: Fits 1 gallon cans (7"x4½")

BL674  Premixed Can Holder  $49.95
BL713  Spray Can Holder  $49.95
BL754  Double Premix Holder  $89.95
BL755  Gallon Premix Holder  $49.95

SLEDGE HAMMER BRACKET
Designed for use with 2 to 16 lb. Double Face Sledges and 1 to 3 lb. Dead Blow Hammers. Bracket is 2½"Hx3"D - expandable from 5¼" to 8¼"W to fit various-sized tools. Made of stainless steel for years of lasting service. Ship. wt. 3 lbs.

AS325  Sledge Hammer Bracket  $90.95

AXE HOLDER BRACKET
Designed for use with 6-pound flat or pick head axe. Bracket is 5¼"Hx2½"D. Expands from 7½" to 8¼"W to fit most axeheads. 2½"Hx1¾"W slot in end for pick to protrude. Axe blade protected by a replaceable plastic sleeve. Pinned handle holder accepts up to 2½"xW handle. Stainless steel for trouble-free service. Ship. wt. 4 lbs.

AS331  Axe Holder Bracket  $168.95
AS332  Axe Wall Mounting Bracket  $143.95

QUIC-MOUNT® BOLT CUTTER BRACKET
Designed for use with 18" to 36" bolt cutters with adjustable stop and pin. Utility straps hold the bolt cutter handles firmly in place. Comes with one fixed strap and one variable strap. Ship. wt. 3 lbs.

AR158  Quic-Mount® Bolt Cutter Bracket  $93.95

ROUND GAS CAN MOUNT
Round gas can mount was designed for safety cans with 9" and 13" diameter bases. The safety can is held in place by a 1" nylon safety strap with a quick-release buckle. Ship. wt. 7 lbs.

AS328  Gas Can Mount Up to 2 Gal.  9½"IDx2¼"D  $91.95
BD079  Gas Can Mount Up to 5 Gal.  13½"IDx2¼"D  $105.95

CHAIN SAW MOUNT
Mount chain saws, abrasive cut-off saws and other gasoline engine tools on these specially designed brackets. Absorbent pad collects fluids and may be changed as required. Safety strap secures the saw on the bracket. Ship. wt. 10-12 lbs.

AS326  Large Mount - 11½"x17½"  $148.95
AS327  Small Mount - 10"x15"  $141.95

QUIC-BAR®/AXE MOUNTING BRACKET SET
Brackets may be mounted to store the bar and axe combination either vertically or horizontally. Variable straps secure the tools for carrying. Add an adjustable shoulder strap and you are ready for business. Ship. wt. 7 lbs.

AS329  Quic-Bar/Axe Mounting Bracket Set w/Stop  $189.95
AS330  Straps for Quic-Bar® & Axe Mounting Bracket  $78.95
**D-SIZE OXYGEN CYLINDER BRACKET**

The Oxygen Cylinder Bracket has two 4" clips to securely hold a D-size oxygen cylinder. Durable green powder coated steel clips, backplate and footplate. Multiple sets of countersunk holes allow the bracket assembly to flush mount to any surface and gives multiple positioning for the clips and the footplate. A Velcro® safety strap in attached to each bracket.

**UNIVERSAL SAW BRACKET**

This unique Universal Saw Bracket is able to mount chain saws, rotary saws, electric and all others. Made from 1/8" powder coated aluminum, it offers multiple anchor points to attach the heavy duty Velcro® strap. An absorbent, replaceable felt pad is supplied and held in place by the mounting bolts.

**SHOVEL MOUNTING BRACKET**

New shovel mounting system holds one or two shovels securely in place. Bracket adjusts to hold one or two handles with no rattle or movement. Hanger projections secure the shovel heads with a 7 ¼"Wx4"H base and four mounting holes.

**ADAPTER HANGER**

Adapter hanger is ideal for mounting couplings, adapters, electrical cords, hoses, etc. Mounting plate is 4" square, post is 6" long and mounted on a 60° angle. *Ship. wt. 1 lb.*

**NYLON STRAP KIT**

Nylon Strap Kits include two bolt down footman loops brackets and a 1.00" nylon strap with a pinch and release buckle. Ideal for strapping down tools and or large equipment such as vent fans, cribbing, rescue jacks and other hard to secure items. Sizes listed are listed are the maximum lengths and may be adjusted to secure smaller items.
HORIZONTAL MOUNTING POSTS
Want to eliminate the headache of stacking 1 1/2"-2 1/2" couplings, adapters and accessories? These remarkably simple and unique Horizontal Mounting Posts for double male or female configurations are designed to save cabinet storage space and improve overall truck neatness and efficiency. With no stacking, you can instantly spot the size adapter or coupling you need. Special stainless steel spring clip provides secure holding yet quick-action release. Durable construction materials will not corrode, swell or crack. Single screw mounting takes only minutes.

STORZ HARDCOAT MOUNTING PLATES
High-tensile aluminum construction with anodized finish to resist abrasion and corrosion. Ship wt. 1 lb.

KOCHEK

**Auto Charge 11 - For Dual Batteries**

Auto Charge 11 is a fully automatic battery charger for vehicles with dual battery systems. The unit contains two completely independent chargers to sense and control the current to the batteries. Thus parasitic loads on one battery have no effect on the second battery. Total output current is limited to protect the charger but may be supplied to either battery if the adjacent battery does not require it. Normally the current output is proportioned between batteries as required. Comes complete with charging indicator panel. 3-year warranty. 120v input. **Ship. wt. 12 lbs.**

**Auto Charge 2000 Kit**

**Complete Charging System at an Affordable Price**

Auto Charge 2000 is a high-output, dual battery charger that independently charges two batteries. Includes the Auto Charge 2000 automatic battery charger and Auto Eject (20 amp) automatic power line disconnect, providing a complete vehicle charging system that saves you money. Unique electronic sensing circuits sense the true battery voltage while eliminating the need for external sense wires. There is no overcharging and no water boil off. What’s more, a built-in battery saver handles the problem of battery loading from rechargeable hand lights, portable radios and other loads. Comes complete with weatherproof, bar graph display that shows the charging condition of each battery; may be remotely mounted. 120v input, 15 amp output. 3-year warranty. **Ship. wt. 17 lbs.**

**Auto Charge 2000**

- Dual USB charging ports
- Quick and easy way to recharge electronic devices in a vehicle
- 3 Amps max output allows simultaneous charging of two USB devices
- Built-in LED indicator indicates device is powered
- Designed for easy installation in vehicle switch panels
- Reverse polarity protected
- Can be connected to 12V switched ignition or directly to battery
- **Cut-Out-Size:** 1.45”x0.83”
- 3-year warranty
- **Ship. wt. 1 lb.**

**USB Dual Port**

**Auto Charge 2000 Kit**

- Auto Charge 2000
- Auto Eject (20 amp)
- Charge display

**Auto Charge 2000**

- Auto Charge 2000 Kit $921.95

**USB Dual Port**

- BL645 USB Dual Port $46.95
- BN592 USB Dual Port with Cover $58.95

**Pump Plus**

**Air Compressor/Battery Charger Package**

The Pump Plus is a small air compressor and a completely automatic battery charger packaged together. The air compressor is designed to be mounted on vehicles with air brakes to maintain the air pressure in the air brake system while the vehicle is not in use. A pressure switch senses the system pressure and operates the compressor whenever the pressure drops below a predetermined level. Battery charger is completely automatic and is for vehicles with dual battery systems. The batteries are automatically charged and maintain full charge while still being isolated from each other. This unit contains two independent chargers to sense and control the current to the batteries. Designed to mount directly on the vehicle. 12v compressor has 1-yr. warranty; Battery Charger comes with 3-yr. warranty. **Ship. wt. 20 lbs.**
BACK-UP CAMERA SYSTEMS
Proven in the industry, 5” or 7” HD digital LCD system with ultra-clear image in a durable housing. 3 A/V inputs with audio, IP 69 waterproof camera with night vision (white infrared), 65’ camera cable, remote bracket. Verity Rear Vision Systems will include a slim base heavy-duty mount free of charge to make installing a breeze.

BN144  Back-Up Camera System with 5” Diagonal Monitor  $475.95
BN145  Back-Up Camera System with 7” Diagonal Monitor  $515.95

INVIEW 360 CAMERA
The inView 360™ provides the apparatus driver with split screen view. The bird’s-eye view is always visible providing a 360˚ view around the vehicle. This unique view allows the operator to see pedestrians and obstacles in close proximity to the apparatus or vehicle. The second view on the display switches between front/left/right/rear views depending on the operational conditions. The system is networked between the turn signals, and vehicle reverse so the screen automatically switches to left, right, and rear viewing when turning or backing up. An in-cab toggle switch allows the operator to override the default camera view for complete control over the system.

BN328  inView 360™ Camera  $1,949.95

PACKAGE INCLUDES:
- Front camera
- Rear camera
- 2 side cameras
- Controller
- Cable kit
- Toggle switch
- Monitor is available as an option

SUPER AUTO EJECT & AUTO EJECT
Super Auto Eject is a completely sealed automatic power line disconnect. This prevents contamination of the mechanism by road dirt and insures long, reliable life. Comes with a weatherproof cover that is spring loaded to close, preventing water from entering. A solenoid wired to the vehicle’s starter is energized when the engine is started. This instantaneously drives the plug from the receptacle. This simple, reliable device eliminates the broken cables which result when drivers forget to remove the shore line when driving away. The Auto Eject comes without sealed housing. All units come with 120v AC connector. Both models are weatherproof. Ship. wt. 2 lbs.

AG130  Super Auto Eject, 15 Amp  $318.95
AG131  Super Auto Eject, 20 Amp  $350.95
Y885   Auto Eject, 15 Amp  $248.95
AF527  Auto Eject, 20 Amp  $286.95

AUTO EJECT
• Rear housing included

SUPER AUTO EJECT
REAR HOUSING INCLUDED

SPECIFY COLOR: Red, White, Yellow or Gray

AUTOMATIC AIR EJECT
• Automatically disconnects air line when vehicle is started
• Eliminates broken air lines

AG133  Automatic Air Eject  $298.95
AG133  Weatherproof Adapter Kit  $60.95

PACKAGE INCLUDES:
- Front camera
- Rear camera
- 2 side cameras
- Controller
- Cable kit
- Toggle switch
- Monitor is available as an option

AB034  Automatic Air Eject  $298.95
**TANKVISION PRO 300**

The TankVision Pro is the fire industry’s first multi-color tank level display. It uses a pressure sensor to sense the amount of liquid in the tank and can be calibrated to accurately display the volume in tanks of all shapes and sizes. *Ship. wt. 3 lbs.*

**WATER LEVEL MONITOR**

Easy-to-read indicator. Water Level Monitor uses four red lights to show water level in sequence as water drains away. Complete unit includes control box, bezel plate, and stainless steel sensor. *Ship. wt. 1 lb.*

**QUINT WATER LEVEL MONITOR**

Five-light readout that uses green, amber and red lenses with red flashing refill light. Complete unit consists of readout, bezel plate and stainless steel sensor. Additional readout available without sensor. *Ship. wt. 5 lbs.*

**LIQUID-FILLED GAUGES**

Eliminates needle pulsation for accurate and easy readings

Crystal-clear Interlube keeps needle fluctuation to a minimum. The SUBZ II freeze-proof isolator keeps gauge working down to -40°F. It’s also weather tight so there is no condensation; stops corrosion. Lubricates internal parts, stops wear, maintains accuracy under temperature fluctuations. Zytel (nylon) case with bright stainless steel trim ring has plexiglass lens. 6" gauge has cast aluminum case. Gauges measure 0-600 psi and up to 30" vacuum. *Ship. wt. 5 lbs.*

**BLACK AND WHITE FACE GAUGES**

WITHOUT LOGO ARE AVAILABLE

**NEW**
HEAVY DUTY SWING-OUT™ VALVES

Designed for the harsh realities of today’s fire service when water contaminants challenge a valve’s sealing capabilities. Swing-Out™ design for quicker and easier servicing. No need to remove valves from plumbing when servicing. Operating pressures to 250 psi (17 bar).

- 90° handle travel
- Stainless steel ball with Hydromax provides longer valve life and improved sealing abilities
- Simple two seated design

BUTTERFLY VALVES

- Rotating the handle to open disc 1/4 turn allows an almost unrestricted water flow
- The 10 position lever handle with positive detents allows the valve to be opened or closed incrementally for a controlled water flow
- Comes standard with a bleeder valve
- Available with 4”, 4½”, 5” or 6” male or female hose
- Ship. wt. 45 lbs.

VALVE REPAIR KITS

Valve repair kits are convenient, economical and easy-to-use. Each kit contains the most frequently replaced parts to help cut down on maintenance time and costs. Kits come sealed to ensure a clean and adequate supply of parts for each job. Kits now are with new Fusion CF™ Composite ball. Ship. wt. 1 lb.

* Valve and nozzle repair kits are available for most Akron, Elkhart and more. Call for details.

TANKER DUMP VALVE

Install your own dump valve. Simply screw in the male NPT threaded flange that comes with the package. To this you bolt the valve itself and another NPT threaded flange (gaskets included). It’s quick-opening, full-flow, compact, bubble-tight, is easily maintained and mounts in any position. The valve body is rust-proof epoxy coated aluminum. Allow 4-6 weeks for delivery. Ship wt. 19 lbs.

RADIATOR HEAT EXCHANGER
FITS BETWEEN RADIATOR HOSES

Does the same job as our F618 Heat Exchanger but fits between the radiator hoses to make installation easier. Only additional connections required are tube lines from pump discharge to return line to suction side of pump. Measures 9½" long. Ship. wt. 9 lbs.

SPECIFY SIZE: 1½", 2" or 2½"

R592A Radiator Heat Exchanger $265.95

MATTYDALE SWIVEL

Rugged cast brass elbow for use with mattydale hose beds. 1½" NPT female free swivel inlet with 1½" NST male outlet. Rough brass finish. Ship. wt. 4 lbs.

U307A 1½" NPT x 1½" NST $113.95
U307B 2" NPT x 1½" NST $118.95
U307C 2½" NPT x 2½" NST $334.95

MAGNESIUM ANODE POLE
ATTRACTS RUST & CORROSION

Sacrificial catalytic action of these magnesium anodes can help to prevent rust or corrosion from attacking your booster tank. Threaded mounting plate suspends the ¼"x32" solid anode in the tank water. Bar is easily cut to fit tanks less than 32" deep. Comes with flange and gasket. Ship. wt. 3 lbs.

U971 Magnesium Anode Pole $67.95

GROUND SWEEP NOZZLE

Designed for use in fixed system applications. Adjustable nozzles can be pre-set at the factory or set in the field at time of installation. The fog pattern, which can be set up to 120°, can easily be set or adjusted at the job site. Ship. wt. 1 lb.

Z321 ¾" Fixed Nozzle $190.95
Z322 1" Fixed Nozzle $212.95

DARLEY HEAT EXCHANGER

Can be installed in the engine cooling system of any pumper. Instead of going directly into the engine cooling system, mixing with the anti-freeze solution, diluting it and then going out through the radiator overflow pipe, the flow of cool water from the pump bypasses through the condenser coils in the Heat Exchanger. The liquid in the cooling system circulates around the condenser coils and is completely cooled. Prevents loss of anti-freeze solution. Measures 24" long. Ship. wt. 10 lbs.

F618 Darley Heat Exchanger $260.95

VERNIER THROTTLE CONTROL

Easily installed throttle designed for apparatus. Provides both instant and micro meter fine adjustment together with a locking action which is not affected by vibration while pumping. Throttles are shipped complete, ready-to-install in 15' or 20' lengths. Ship. wt. 5 lbs.

F62101 15' Vernier Throttle Control $36.95
F62103 20' Vernier Throttle Control $39.95

AIR PRIMER

- Super quiet
- Lightweight and small mounting space
- Power: Air operated
  (No electrical power required)
- Corrosion resistant brass construction
- Oil-less Design: Environmentally safe
- Self draining
- No moving parts
- Air Requirements: (2) Barrel = 7 cfm (3) Barrel = 10 cfm
  BL012 & BL013: For Darley/Waterous pumps
  BL014 & BL015: For Hale pumps

BL012 Air Primer (2) Barrel .75" F NPT-Remote Mtd. $932.95
BL013 Air Primer (3) Barrel .75" F NPT-Remote Mtd. $932.95
BL014 Air Primer (2) Barrel H-Midship Direct Mtd. $932.95
BL015 Air Primer (3) Barrel H-Midship Direct Mtd. $932.95

NEW LOW PRICE

Z321 ¾" Fixed Nozzle $190.95
Z322 1" Fixed Nozzle $212.95
**Boosters, Reels and More**

**Roller and Spool Assembly**

Speed your hose handling and reduce wear on hose. Buffed stainless steel rollers. Assembly includes roller, 2 blocks, 2 spools, bearings and all fastenings. Length of roller should be the same as the reel drum length. (Larger sizes are available for an extra charge). Ship. wt. 13 lbs.

**Swivel Joints**

Pressure balanced design for low rotation torque. Hardened carbon steel barrel for strength and long wear. NPT threads. Ship. wt. 3 lbs.

**Drop-in Style Booster Reel**

These reels are an excellent choice for drop-in units or smaller apparatus compartments where space is a premium. They’re built to the same design standards as our larger reels, just lighter in weight and more compact. Available in either electric or crank rewind. Reels will hold up to 100’ of 1” or 200’ of 3/4” booster hose. Dimensions: (E) Crank/16.5”, (E) Elec/19”, (F) Crank/46.62”, (F) Elec/39.75”, (G) 18.12”.

**QUIC-CHOC® FOLDING WHEEL CHOCK**

This new folding aluminum wheel chock requires only a 6"Hx10½"W x20½"D area for storage. Can be stored under fire or rescue vehicles. The collapsible design allows the chock to lock in the open position simply by pulling out the back casting and pushing down. Just release the safety latch to close back into the folding position. Convenient carrying handle makes transport and placement of chock a snap. Made of high-tensile strength aluminum with rear opening, hand grip and a double row of rugged teeth to grip almost any surface. Meets applicable NFPA standards.

LITTLE GIANT DEFENDER™ LADDER

The Little Giant Defender™ was specifically engineered for firefighters who need speed and strength in a rapid-response portable ladder system.

- Reflective, heat sensitive labels
- Easy-to-use Rock Lock® adjuster
- Built-in dual Ratchet™ levers. Adjust up to 8.5” on each side over uneven ground
- Tip & Glide™ wheels
- Wide-flared extension ladder for improved side-tip stability
- Adapts to almost any situation, offering a safe, stable climbing solution
- Capable of dozens of configurations, including A-frame, staircase, extension, and 90˚
- Exceeds all OSHA & ANSI standards. Certified to NFPA requirements 1931/1932
- Rated to 300 lbs.
- Built-in dual Ratchet Levelers™ adjust up to 8.5” on each side over uneven ground
- Counts as ISO footage on apparatus

LITTLE GIANT OVERHAUL LADDER

Little Giant Ladder Overhaul Ladder extends to 17’, but it is small enough to carry into an elevator, up a flight of stairs, or around tight corners. The ladder is just 4’7” tall when retracted. Articulating ladder systems that meet the requirements of NFPA 1901-2009.

- Safety Insight™ photo-luminescent glowing rungs
- Patented Rock Lock™ adjusters
- Wide-stance leg levelers adjust over uneven ground
- Tip & Glide™ wheels
- 90˚ position for extraction rescue
- Access uneven surfaces, staircases, and hard-to-reach places
- Ratchet Levelers™
- Roof and rafter hooks
- Dual-position spike feet
- Counts as ISO footage on apparatus

All ladders over 8’ are shipped via motor freight. All orders MUST BE inspected before acceptance upon delivery.
FOCUS LAMPHED
VERSATILE LOW PROFILE LAMPHED. COMPACT. DURABLE.

DON'T WASTE PRECIOUS LIGHT
The high intensity FOCUS lamphead does not waste precious light. It is designed to focus 100% of the light produced into the area where it is needed. The FOCUS is built tough and has a compact design that allows it to be mounted in places that traditional lighting fixtures do not fit.

BREAKTHROUGH IN SCENE LIGHTING
The FOCUS lamphead was designed to light up the emergency scene evenly, putting 100% of the light on the scene. A high percentage of the light produced by a conventional light fixture is wasted away from the emergency scene and gets dim at a distance. The FOCUS lamphead uses a uniquely designed patented reflector to eliminate wasted light. The curved reflector has over 50 parabolic surfaces that redirect all of the light produced and focus it evenly into the action areas. This allows the FOCUS to put all of the light onto the scene, providing more light close to the vehicle as well as being brighter at a distance.

AM262: Top mount, top raise pole with FOCUS lamphead
AM263: Side mount, bottom raise pole with FOCUS lamphead
AM266: FOCUS lamphead only

SPECTRA LED LAMPHED SERIES
THE BRIGHTEST LED SCENE LIGHTS AVAILABLE.

The SPECTRA LED lamphead outputs an impressive 20,000 lumens of super bright white light. The advanced lens and unique arrangement of LEDs generates a uniform flood and spot combination light pattern. This light pattern provides enhanced work area visibility as well as illuminates objects at a farther distance. The NEW SPECTRA MAX outputs an unmatched 28,000 lumens of ultrabright light making it the brightest LED scene light available. All SPECTRA series lampheads can be used with any FRC telescopic poles, tripods, non-telescopic mounts, and brow mounts.

- Available as 20,000 lumens SPECTRA or 28,000 lumens SPECTRA MAX
- Unique arrangement of LEDs provides more light in a compact lamphead
- Models available in 120/240 VAC or 12/24 VDC
- Whiter light, closer to natural sunlight
- Uniform high quality white light with the widest light pattern
- Long operating hours, rated at 50,000 hours
- Instant-on at full intensity
- 5-year LED lighting warranty

BL749  SPECTRA LED Lamphead 120 VAC 20k Lumens
BL750  SPECTRA MAX LED Lamphead 12/24 VDC 28k Lumens
BL751  SPECTRA LED Lamphead 120 VAC 20k Lumens Portable with On/Off Switch
BL752  SPECTRA MAX LED Lamphead 120 VAC 28k Lumens with Standard Tripod

BL751
STREAMLIGHT™ PORTABLE SCENE LIGHT II
10,000 LUMENS, WATERPROOF, STACKABLE

Turn to a higher power with the Portable Scene Light II. With zero deployment time, it features a compact footprint, a 360° rotating head, and it’s stackable for “light tower” capability with multi-level lighting. Dimensions: 16”x11”x12”

- 18 LEDs within wide pattern parabolic reflectors produce a smooth, high lumen flood pattern
- Five intensity levels correspond to desired run time
- 360° rotating head
- High-impact, thermoplastic housing mounted in a virtually indestructible alloy steel frame IPX7 rated; waterproof to 1m for 30 minutes
- Lithium ion batteries charge in 6 hours
- Batteries will continue to charge while plugged into an AC or DC power source
- Limited lifetime warranty

BP080 Streamlight™ Portable Scene Light II - 120 AC/12V DC $799.95

QUADRAFLARE™ 9”X7” LED PERIMETER WARNING LIGHT

- NFPA 1901 and GSA KKK-E compliant models
- Outstanding off-axis warning
- 26 built-in flash patterns, including “Quad-X” and “Steady”
- Flash patterns are push-button programmable
- Independent side control on split LED models
- Clear or color lens options
- Available with built-in flasher featuring 16 selectable patterns
- 5-year warranty on LED components

SPECIFY LED COLOR: Amber, Blue or Red

BG199 QuadraFlare™ Color Lens LED Warning Light* $151.95
BG200 QuadraFlare™ Clear Lens LED Warning Light $151.95
BG201 Chrome Trim Bezel with Gasket $14.95
BH077 9”x7” QuadraFlare™ LED Warning Light Colored Lens $235.95
BH078 9”x7” QuadraFlare™ LED Warning Light Clear Lens $235.95
BH095 Chrome Trim Bezel $21.95
BH096 Black Trim Bezel $19.95

VANTAGEPOINT REMOTE CONTROL LIGHT
ALLOWS FOR MAXIMUM PAN-TILT MOTION

Whether searching for a person in an emergency situation or illuminating a house number, VantagePoint offers the ultimate in remote control lighting. High-intensity LEDs deliver ultra-bright white light taking performance to the next level. Control the unit from inside the vehicle or remotely from up to 130’ (40 m) away. Operators will appreciate the unique stow feature because the light returns to the forward facing position when turned off.

- 360˚ continuous horizontal rotation
- Pan and tilt motion
- Total tilt positioning of 115˚
- Ultra bright 6720 lumens
- Weatherproof to IP67

BP327 VantagePoint Remote Control LED Light $547.95
**HONDA GENERATOR LIGHTS**

EU1000/EU2000 Honda Generator with 500W LED/quartz lamp head kit provides 500 watts of LED lighting. These generator/lighting units are powered by the Honda inverter-style generator and are light-weight and fold for compact storage.

- **Clean Power**: run sensitive electronics
- **Eco-Throttle Technology**: long running time
- **Parallel Operation**: optional linking doubles power
- **Simultaneous AC/DC**

**USES**

- Emergencies
- Public Services & Utilities
- Recreation

**THE REVEL SCOUT SCENE LIGHT**

Revel Scout Scene Light is designed to increase the safety of both firefighters and emergency responders. With versatile mounting options; set, hang, strap, spike and a removable, rechargeable battery, the Revel Scout revolutionizes the operational ease of fire scene lighting. The Revel Scout combines a spot and flood light pattern of 14,000 lumens in a 12 lb. package, and the LED tactical scene light can be used to evenly light exterior scenes and interior spaces.

- Fast, flexible deployment
- Light where you need it
- Integrated strap included to secure to horizontal object, ladder rung, etc.
- On/off toggle switch to turn light on and off and adjust to 4 light levels
- Corrosion-free construction
- Zero deployment time
- Battery Type: 28v LI-ION, Weight: 3 lbs. charge time: 1 hr
- Warranty: Light Assembly: 6 years, battery and charger: 1 year

**LIGHT PERFORMANCE**

- Four Light Levels: High, medium, low, spot
- Light Output: 14,000, 8,000, 2,000, 6,000 lumens
- Average Run Time: high - 1.2 hrs, medium - 3 hrs, low - 7 hrs, spot - 3.5 hrs

**OPPORTUNITY PORTABLE LIGHT**

**BRIGHTEST LAMPHEADS AVAILABLE**

**EFFICIENCY**

- The brightest and best designed lights in the industry. A unique reflector design transfers more light from the bulb to the scene.

**RELIABLE & TESTED**

- Manufactured from heavy-duty, thick aluminum for long life and many hours of dependable performance. Tested under actual emergency situations.

| AZ509 | Portable Light 500W 120V QTZ with 15 Amp 3-Prong Twist-Lock | $639.45 |

**PORTABLE HAND LIGHT**

A powerful 500w (120v) light head features a highly-polished specular hammertone reflector which almost doubles its light output. Sturdy aluminum housing with high-temperature carrying handle and tilt control knob. Heavy-duty ground tripod base with rubber footings. Optional mounting bracket allows you to mount it in any position. Meets NFPA; UL Listed.

| AR301 | Portable Hand Light | $332.95 |
| AR302 | Mounting Bracket    | $60.95 |
HONDA 4000 W ECONOMY SERIES GENERATOR

RUGGED AND RELIABLE, THE ECONOMY SERIES GENERATORS ARE EASY TO TAKE ANYWHERE. JUST LOAD ‘EM UP AND GO.

- 4000 watts maximum of rugged economical, portable power
- Honda GX commercial grade engine
- Oil alert
- Digital Automatic Voltage Regulator (DAVR)
- AC circuit breaker/protectors and 120/240V operation
- Recoil start
- Runs 15 hrs. on 1/2 load
- Delivers the best of both worlds: reliability and cost savings
- Dimensions: 26.8”x22.8”x22.5”
- Weight: 155 lbs.
- 3-year warranty

Cat# | Watts | HP | Weight | Dimensions | Price

HONDA GENERATORS

- Heavy-duty frame protects generator from damage
- Larger 6.6 gallon fuel tank for longer run times
- Multiple front panel outlets for easy power connections
- Wide handles for easy transport
- Honda GX Industrial Commercial engine for easy starting, reliability, and Oil Alert®
- Oversized muffler for quieter operation
- Four step fuel filtering provides consistent fuel to prevent carburetor plugging
- AVR provides consistent, stable power output, superior to brushless generators
- Auto Choke for easier starting in varying conditions

Cat# | Watts | HP | Weight | Dimensions | Price

CORD REEL LIGHT

Cord Reel Lights are reverse-wired live cord reels, which allows a plug on the cord to be plugged into a power source while the Cord Reel Light is carried to the fire ground or work site. The Cord Reel Light allows the scene to be illuminated while providing a receptacle for additional tools or lights. Akron Brass Cord Reel Lights come in 10’ cord reels with either 500 or 750 watt low profile Beta Light heads.

- Heavy-duty construction
- Powder coated
- Live slip ring design
- Adjustable tension nut
- 6’ direct wire pigtail (10/3 Black)
- Meets NFPA requirements

Cat# | Watts | HP | Weight | Dimensions | Price
--- | --- | --- | --- | --- | ---
BB090 | Cord Reel Light 500 Watt | | | | $1,034.95
BB092 | Cord Reel Light 750 Watt | | | | $1,067.95
**FEDERAL SIGNAL 100 WATT SPEAKER**
The 100 watt speaker uses advanced housing material and field replaceable neodymium drivers to provide effective, high-quality sound at an affordable price. The speaker only weighs 6 lbs. and measures 7.7"Wx5.7"Hx4.7"D. The speaker is easily rotated allowing for either vertical, or horizontal mount orientation, and the P.E.T. (polyethylene terephthalate) housing material is exceptionally strong, while resistant to heat, moisture and will not corrode as most metallic materials do. *Ship wt. 6 lbs.*

**PA 300 ELECTRONIC SIREN**
**PLUG IN PC BOARD - INCLUDES AIRHORN SOUND**
The W691 provides all basic siren tones; TAP II, PA, radio rebroadcast, as well as a built-in airhorn sound with siren override. It is protected against all failure modes by a fuse that is replaceable without tools and can operate from any 12-volt positive or negative ground vehicle electrical system. Taps are included for 100 or 200-watt speakers. Comes complete with a swinging bracket which enables mounting in a variety of positions. *Ship wt. 6 lbs.*

**TRUCK MOUNT SPEAKER**
Rectangular speaker is perfect for truck mounting. Made to take the heavy and extended use of today’s vehicle applications. Has black baked enamel finish on the driver and rectangular bell is black plastic. *Ship wt. 10 lbs.*

**FEDERAL Q ELECTROMECHANICAL SIREN**
**BEAUTIFUL, STREAMLINED, CHROME PLATED, COMMANDS RESPECT**
This siren includes grille, brake, and chrome finish. It is designed to be pedestal mounted but is also offered less the rear housing for flush mounting. Heavy-duty coaster clutch is subject to very little wear. The unique clutch design delivers a longer coast-down sound once power is removed, thereby reducing battery drain. For quick silencing, an electric brake is also a standard feature. 12-volt, operating current 100 amps. The AC895 model comes complete with stainless steel finish, grille, brake, pedestal and rear housing. Model AC896 is for flush mounting and does not include pedestal or rear housing. 123 dB at 10 feet. *Ship wt. 49 lbs.*
THE FIRETRUCK PREMIER APPARATUS

QUALITY & SERVICE
You can expect an unmatched level of quality and service from our entire line of vehicles.

OUR TEAM
The Darley Apparatus sales team consists of knowledgeable experts with a relentless focus on customer service. We’ve built a passionate team second to none.

EZ SPEC PROGRAM
Darley offers a uniquely simple program to determine which apparatus will work best for you. View our full EZ Spec Program on www.darley.com/apparatus.

APPARATUS DEMOS
Contact us today to schedule a demo or engineer a custom apparatus to meet your needs.

CHOICE OF CHASSIS
Select either a Custom Chassis or Commercial Chassis with multiple seating options. There dozens of options, including 4 Wheel Drive and Severe Duty Service. Darley offers full size pumpers, rescues, aerial devices, and compact Quick Attack units built to your specifications!

POLYBILT® BODIES
Choose from a variety of tough and rugged PolyBilt® bodies custom made from durable, impact-resistant CoPolymer material. Featuring patented integrated compartmentation so tough, PolyBilt® bodies are virtually indestructible.

Darley Pump System
DARLEY PUMP SYSTEM
Darley LDMBC CAFS 1500 GPM single stage pump system.

POLYBILT® BODY
Rugged, impact-resistant, corrosion-free, polymer construction with integral tanks and limited lifetime warranties.

SIDE CONTROL PANELS
Unique ergonomically friendly controls. Standard or unique curbside panels available.

TOP CONTROL PANELS
Unique Total Vision panel with patented wraparound colored design.
Darley offers a full range of apparatus, including mini-pumpers, tankers, commercial and custom pumpers. We are known for building specialized apparatus that often includes compressed air foam systems and co-polymer bodies.
TO APPRECIATE ITS REAL BEAUTY, YOU HAVE TO SEE IT WORK AT A FIRE. THE ULTIMATE IN FIRE SUPPRESSION PERFORMANCE, DURABILITY AND OVERALL DESIGN - ALL BACKED BY INDUSTRY LEADING SUPPORT INCLUDING TRAINING EXPERTS, MANUALS, SCHOOLS, AUTHORIZED SERVICE AND REPAIRMEN.

**PUMP SYSTEM**
Darley LDMBC 1500 GPM single stage pump.
Fully engineered and integrated flagship pump

**CHOICE OF CHASSIS**
Custom cabs designed for space, safety, performance and service.

**CAFS**
AutoCAFS® with a 220 CFM hot shift controlled compressor.
One touch air engagement and foam controls.
PolyBilt® Integral Series Pumper
Rescue body with integrated tanks. Limited lifetime body warranty is standard

Impact resistant and corrosion free. Easy to repair and hard to damage.

Unique Total Vision panel with wraparound, colored design. So ergonomically friendly, we had to patent it.
WILDLAND ATTACK/STRUCTURAL PROTECTION

“WASP” QUICK ATTACK

DARLEY’S NEW WILDLAND ATTACK/STRUCTURAL PROTECTION (WASP) QUICK ATTACK PUMPER IS ENGINEERED TO GET TO THE FIRE QUICKLY AND INTO PLACES THAT A FULL SIZE PUMPER JUST CAN’T ACCESS. THIS UNIT FEATURES ALL-WHEEL DRIVE, AN OVERALL HEIGHT UNDER 8’ TALL, AND AN OPTIONAL CURBSIDE PUMP PANEL THAT ADDS INCREASED SAFETY FOR THE PUMP OPERATOR DURING HIGHWAY RESPONSE. ONCE ON SCENE, DARLEY’S VERY EASY-TO-OPERATE AUTOCAFS™ COMPRESSED AIR FOAM SYSTEM REALLY PACKS A PUNCH.

FIRE PUMP
- Darley model PSMC with a UL rating of 1500 gpm at 150 psi
- 3 CAFS discharges above pump panel: 2 - 1 1/2” and 1 - 2 1/2” (Option for deck gun, hose reel, hosebed discharge, or front discharge)
- Maintenance free reliable mechanical seal
- All stainless steel plumbing package
- Gear driven 120 cfm rotary screw air compressor for the AutoCAFS™ pumping system with a FoamPro 2001 foam proportioner

POLYBILT® BODY
- PolyBilt® Integral Series Pump-Rescue
- 300/30 gallon integral tanks
- Limited lifetime warranty

COMPARTMENT
- Compartments 1 & 4: 12.81 cu. ft. ea
- Compartments 2 & 5: 23.46 cu. ft. ea
- Compartments 3 & 6: 26.35 cu. ft. ea
- Compartment 7: 22.57 cu. ft.
- Total Compartmentation: 147.8 cu. ft.
FEATURES

- Compliant with applicable NFPA standards
- Curbside and operator’s side control panel available
- LED emergency and scene lighting
- Includes a 2½” Darley AutoFill™ - keeps the water tank between ½ and “FULL” automatically
- Options for receiver winches, SCBA storage, equipment mounting
- Lifetime warranties available on Pump, Tank & Body!

CHOICE OF CHASSIS

- Ford F550 XLT all aluminum crew cab
- 4 door 4x4 chassis (203” wheelbase, 84” CA)
- 6.7 L diesel engine rated at 330 hp
- Automatic transmission with all-wheel drive
- Seating for four with optional SCBA seating (Officer and both rear seats)
- Polished aluminum wheels
- Kussmaul battery conditioner with AutoEject™
- Customized factory Ford center console
DARLEY’S EZ

POLYBILT® TRUCK BODIES
TOUGH AND RUGGED BODIES - BUILT FOR LIFE

POLYBILT® TRUCK BODIES FEATURE PATENTED, INTEGRATED COMPARTMENTATION THAT ARE SO TOUGH, THEY ARE VIRTUALLY Bulletproof. FROM INITIAL ATTACK TO HEAVY DUTY CUSTOMS – WE OFFER COMPLETE BODY SOLUTIONS TO MEET YOUR NEEDS. POLYBILT® TRUCK BODIES ARE BUILT AND BACKED BY THE BEST, WITH OVER 100 YEARS OF COMBINED FIRE INDUSTRY SUPPORT. CONTACT US TODAY AT 1.800.864.3817 OR LEARN MORE AT WWW.POLYBILT.COM.

SELECTION
• CUSTOM OR STANDARD DESIGNS
• BUILT FOR OEMS, DISTRIBUTORS, SERVICE CENTERS AND FIRE DEPARTMENTS
• CHOICE OF FINISHED OR UNFINISHED CONSTRUCTION
• DESIGNED TO FIT ANY STYLE EMERGENCY VEHICLE AND/OR FIRE VEHICLE

BENEFITS
• CORROSION FREE
• TOUGH, DURABLE COPOLYMER
• LIMITED LIFETIME WARRANTY
• LIGHTWEIGHT
• RECYCLABLE
• SAFETY: LOW CENTER OF GRAVITY FOR IMPROVED STABILITY

MULTIPLE APPLICATIONS
• PUMPERS
• FIRE/EMERGENCY RESCUE RESPONSE
• QUICK ATTACK
• DISASTER RESPONSE
• WILDLAND
• TANKERS
• SERVICE BODIES

POLYBILT® BODY
CUSTOM ROLL-UP COMPARTMENT DOORS®

BUILT BULL TOUGH IN PARTNERSHIP WITH
DARLEY OFFERS END TO END SOLUTIONS FOR YOUR AGENCY’S ROBOTICS PROGRAM

There is more to a successful drone program than just purchasing equipment. Our experienced team will help guide your agency through the different regulatory requirements, training, equipment selection, and policy review.

EQUIPMENT

Working with industry leading manufacturers, we have solutions to fit all needs and budgets. Equipment listed in this brochure is a small sample of what we offer. If you are unsure on the different equipment available, please reach out to us to learn about the differences in the different systems.

TRAINING

We understand that utilizing new technology can be daunting. Thankfully, our network of trainers have been working with public safety to develop the most practical training methods. Training can be customized and includes, but is not limited to the following:

- Part 107 course
- Basic public safety training
- Advanced public safety training
- Specialty Training: Scene reconstruction, 5-Day integration into law enforcement, UAS in crisis negotiations, UAS in search & rescue
- Additional customer requests

SUPPORT AND OPERATING PROCEDURES

Having a network of departments using and learning these new technologies helps create the framework needed to start your own Standard Operating Procedures without the need to reinvent the wheel. We will assist with outlining your SOPs and continue to support your program beyond just equipment selection.

REGULATIONS AND FAA REQUIREMENTS

Want to learn how your department can obtain a Certificate of Authorization from the FAA? Darley is pleased to recommend Skyfire Consulting to help with your department’s legal services. These services include, but are not limited to:

- Certificate of Authorization (COA) Processing - Blanket & Jurisdictional
- Certificate of Authorization (COA) Renewals
- Safety case preparation
- Waiver processing
- One-on-one consulting

SCENE RECONSTRUCTION

CUSTOM TRAINING CLASSES
MATRICE 300 RTK

The M300 sets a new standard for the Public Safety Drone Industry. Offering up to 55 minutes of flight time, advanced AI capabilities, 6 Directional Sensing & Positioning, and more, the M300 RTK sets a whole new standard by combining intelligence with high-performance and unrivalled reliability. The aircraft is IP45 rated and can operate in temperatures from -20 degrees to 50 degrees Celsius. The new M300 also has a new health management system to give agencies peace of mind that their aircraft is in tip-top shape.

IMPROVED TRANSMISSION SYSTEM
The all-new OcuSync Enterprise enables transmission up to 15 km away and supports triple-channel 1080p video. Real-time auto-switching between 2.4 GHz and 5.8 GHz enables more reliable flight near high-interference environments, while AES-256 encryption offers secure data transmission.

MULTIPLE PAYLOAD CONFIGURATIONS
Configure your M300 RTK to fit your mission needs. Mount up to 3 payloads simultaneously, with a maximum payload capacity of 2.7 kg. In addition to the new H20 and H20T, the DJI Z30 and XT2 are both compatible with the M300.

A POWERFUL VISION SYSTEM YOU CAN RELY ON
To enhance in-flight safety and aircraft stability, dual-vision and TOF sensors appear on all six sides of the aircraft, offering a maximum detection range of up to 40m, with options to customize the aircraft’s sensing behavior via the DJI Pilot App. Even in complex operating environments, this 6 Directional Sensing and Positioning system helps keep the aircraft and the mission safe.

CUSTOMIZE YOUR MATRICE WITH OPTIONAL PAYLOADS

ZENMUSE XT2
The Zenmuse XT2 is DJI’s most powerful camera to date. It incorporates FLIR’s industry leading thermal technology with 4K high-definition, creating the most advanced aerial camera on the market. The XT2 quickly transforms aerial data into powerful insights that save time, money - and lives.

ZENMUSE Z30
The Zenmuse Z30 is the most powerful integrated aerial zoom camera on the market with 30x optical and 6x digital zoom for a total magnification up to 180x.

ZENMUSE H20/H20T
The new H20 series from DJI is a state-of-the-art multi-sensor payload. The unique intelligence and integrated design provide unprecedented aerial imaging capabilities for a range of public safety drone applications. Capture everything up close or from a distance, in true living color or thermal. An integrated laser rangefinder (LRF) measures the distance to an object at up to 1200 m away. A powerful, integrated payload that unleashes advanced intelligent capabilities for DJI’s industrial drone platforms.
MAVIC 2 ENTERPRISE

The modular design of the Mavic 2 Enterprise makes it a perfect choice for your department. With a powerful and portable thermal imaging camera your drone can go everywhere you go. Added data security features, ADS-B receiver, and obstacle avoidance can give you more piece of mind while flying.

LEAD WITHOUT LIMITS. WORK BEYOND YOUR BOUNDARIES.

Unlock the possibilities of flight with an extended port that allows you to connect additional devices onto the drone, helping you perform at your best in a variety of daily and critical missions.

EASY TO USE THERMAL CAPABILITIES

MAVIC 2 ENTERPRISE DUAL

VISIBLE AND THERMAL IMAGERY
- Integrated Radiometric FLIR Thermal Sensor
- Adjustable Parameters for Emissivity & Reflective Surfaces
- Multiple Display Modes: FLIR MSX®, Infrared & Visible

DAJI MAVIC 2 ENTERPRISE ZOOM

POWERFUL ZOOM CAPABILITY
- 12 MP 1/2.3" CMOS Sensor
- Dynamic Zoom: 2x Optical 3x Digital Zoom Capability
- Post Analysis Metadata: GPS Timestamping

A REVOLUTIONARY PLATFORM FOR EVERYDAY WORKERS

Designed to empower a new generation of workers, the Mavic 2 Enterprise is the ultimate expression of a tool that delivers beyond expectation to meet current workplace challenges and future demands.

FOLDABLE. COMPACT. PORTABLE.

At 905 g the Mavic 2 Enterprise is rapidly foldable and swiftly slides in the side of your belt package, giving you instant power that’s easily accessible and transportable – wherever you operate.

FEATURES

- Max Flight Time: 31 mins.
- Standard zoom camera for both zoom and dual
- Thermal camera included with dual
- Standard spotlight
- Standard beacon
- Standard speaker
- Standard obstacle avoidance system

THERMAL CAMERA SPECS
- Sensor: Uncooled VOx Microbolometer
- Lens: HFOV: 57°
- Aperture: f/1.1
- Resolution: 160×120
- Pixel Pitch: 12 μm
- Spectral Band: 8-14 μm
- Image Size: 640×480 (4:3), 640×360 (16:9)
- Still Photography Modes: Single shot, burst shooting (3/5/7 frames)
- Video Recording Modes: 640×360 @ 8.7fps

- Operating Temperature: 14° - 104°F
- Hot Swap speaker, beacon, and spotlight options
- 24 GB internal storage
- 2x digital 2x optical zoom
EVO II SERIES

The only 8K folding drone on the planet. Capture content at resolutions up to a massive 8000x6000. EVO II comes standard with a 7100mAh rechargeable battery and uses our patented Battlock system to guard against battery ejection in high-speed maneuvers or hard landings. Control your drone up to 9km away, keeping you connected in crowded urban environments and thick forests.

**FEATURES:**
- 12 optical sensors and 2 sonar sensors creating 360° protection
- Detect hazards up to 30m away and control the speed to avoid collision
- Pro Model has a 1" sensor with 6K
- Dual model has thermal resolution of up to 640x512 by FLIR and an 8K sensor

**INCLUDES:**
- Batteries
- Prop guards
- Charging hub
- Car charger
- Spare remote
- GPC case
- Live deck

**AIRCRAFT SPECS**
- Takeoff Weight: 1127g-1192g
- Wheelbase: 397mm
- Max Speed: Standard: 15m/s // Ludicrous: 20m/s
- Max Service Ceiling: 7000m
- Max Flight Time: Hover: 35min // Moving: 40min
- Transmission Type: FCC: 2.4GHz ALink
- Max Transmission Distance: 9km
- Storage: Internal: 8GB Max SD: 128GB
- Battery Type: LiPo 3s
- Battery Size: 7100mAh
- Controller Screen: 3.3in OLED 330 Nits
- Controller Battery: 5000mAh

EMILY BY HYDRONALIX

The EMILY platforms are designed as an asset for public safety and homeland security. It offers scene stability in dangerous and hazardous waters by helping the victim and keeping the rescuer on the shore. The EMILY technology complements public safety teams and homeland security personnel by adding valuable, timely resources without adding additional personnel. The key element to this technology is the fact that it keeps the rescuers out of the hazard zone until the scene is stabilized and the victim(s) can be rescued. The fact that this is a battery powered jet boat that is operated and controlled remotely through line of sight technology, the EMILY systems have the ability to penetrate areas/zones that normal watercraft could not access.

EMILY KIT INCLUDES:
- 2 additional steering arm boot seals
- Electrical anti-corrosion solution
- 3 additional inlet grates
- Flags 3-pack
- Tool kit
- Lanyard 3-pack
- Canvas carry bag
- Additional impeller

MAN OVERBOARD EMILY KIT INCLUDES:
- MOBE Cover
- 2 additional steering arm boot seals
- Additional inlet grate
- Additional impeller
- Flags 3-pack
- Headlight
- 2000 ft. reel
- Reflective strips
- Navigation lights (Port red light, Starboard green light)

EMILY KIT INCLUDES:
- Float cover
- Battery charger 2-pack
- Battery module
- Flag
- Boat stand
- Lanyard 2-pack
- Futaba transmitter
- User manual
- 2.4 GHz transmitter controller with amplifier

SWIFT WATER RESCUE EMILY INCLUDES:
- SWRE Float Cover
- Life Jacket
- Helmet
- Headlight

### B. BLACK-MAXX SLEDGE/MAUL
This hybrid sledge/maul features an 8.5 pound striking-force head with a pointed blade cutter, works well with a baseball swing for easy forcible entry. Provides an instant foot hold when the pointed end is sunk into a slanted or pitched roof. Features a nesting slot for the fork of a Halligan tool to carry both tools with one hand, plus an over-strike rubber and measurement guide for hand placement. Handle features embossed thermo-rubber grip. A mini-battering ram! **Ship. wt. 12 lbs.**

### THE BIEL TOOL
The new Biel Tool is now one piece made out of heat treated, electro-polished stainless steel with an extremely durable ergonomically rubber molded handle. The new Biel Tool incorporates many of the features found in the world famous Pry Axe®, but is much smaller and light enough to wear on a belt or carry in the pocket of a bunker coat. This is a perfect personal size multi-purpose forcible entry and rescue tool; designed for forcing door and windows, prying and twisting hasps and locks, light overhauling, nail removal, gas shutoff, metal cutting and chopping. **Ship. wt. 4 lbs.**

### MULTI-PURPOSE PRY AXE®
The Pry Axe® has been the best-selling tool for over 40 years and is used by departments worldwide. It’s a lightweight, multi-purpose, slam and ram tool designed to pry, twist, chop, cut metal, twist off locks or latches and much more. This efficient tool allows forcible entry by a single person when time is critical. Pry Axe® heads are forged from alloy steel and heat-treated for maximum strength. The claws are stainless steel investment castings that are heat-treated and electro-polished. Solid steel shaft extends the axe to 25” and rubber sleeve provides a sure grip. **Ship. wt. 8 lbs.**

*All 8’ Pike Poles are an actual size of 7’9” unless specified. All Pike Poles 8’ or longer will incur additional LTL Freight shipping cost.
“V” BLADE RESCUE KNIFE
Cuts through seat belts. Precision made of high-strength aluminum alloy. Tip fitted with Dzus Key for opening aircraft panels. The blade will cut 10,000 lb. strength webbing with one stroke. *Ship. wt. 3 lbs.*

THE GLAS-MASTER
REMOVES GLASS IN LESS THAN A MINUTE
The Glas-Master is truly an extraordinary tool that is manually operated; no electricity or hydraulics needed. No other tool cuts glass windshields faster and more effectively, helping reduce rescue time significantly. Cuts on pull stroke thereby pulling glass to the outside, away from the victim. It can also be used on fiberglass, wood, plaster or even underwater rescue. What’s more, the Glas-Master has its own storage of the spring-loaded center punch so it won’t get lost or misplaced when it is needed most. *Ship. wt. 4 lbs.*

COMPLETE CRASH AND RESCUE TOOL KIT
All-purpose set of tools for use in crash and fire emergencies. Contains everything needed to quickly and efficiently cut through metal, webbing, wood, rope, and other obstructions. *Ship. wt. 15 lbs.*

HAND TOOL RESCUE KIT
The Hand Tool Rescue Kit you have always wanted to put together but never did. Now you can pound, cut, pry, saw, seal, loosen, tighten and dig with an assortment of top-quality industrial-grade hand tools built to deliver years of dependable service. Kit features Snap-On “ergonomic” tools specially designed to reduce or end work-related injuries. The kit also includes a heavy-duty seat belt cutter, cable cutter with insulated handles for working on live voltages up to 1,000 volts, military spec tri-fold shovel and more. All tools carried in a black plastic case. *Ship. wt. 40 lbs.*
A. LONG HANDLE FIREFIGHTING SHOVEL

- Forged steel head
- Solid shank blade
- Rear turned steps
- 44” wood handle
- Ship. wt. 7 lbs.

AJ462 Long Handle Firefighting Shovel $65.95

B. COLLAPSIBLE RESCUE SHOVEL

The Collapsible Rescue Shovel has been the tool of choice for many first responders. Its compact, lightweight design makes it easily transportable, yet rugged enough to get the job done under extreme conditions. The blade is engineered to be used as a shovel, axe, saw, hoe or piercing tool. Ship. wt. 3 lbs.

USES:
- Shovel
- Axe
- Saw
- Hoe
- Piercing tool

AK010 Collapsible Rescue Shovel $24.95

C. FIREFIGHTING SHOVELS

Round point shovels are hollow back with 8½”x12” blade. Square point shovels are also hollow back with 9½”x11½” blades and rolled step. The fiberglass handles provide unsurpassed life, comfort and safety. Heat treated and tempered blades resist wear and breakage. Ship. wt. 5 lbs.

AZ378 Round Point 48” Handle Shovel $54.95
AZ379 Round Point 27” D-Handle Shovel $37.95
AZ380 Square Point 48” Handle Shovel $54.95
AZ381 Square Point 27” D-Handle Shovel $37.95

D. ALUMINUM SCOOP SHOVEL

The large, heavy-duty square blade is heat treated and tempered to resist wear and breakage. Ideal for getting rid of fire debris, scooping gravel and other course materials. Shovel blade measures 15¼”x19¼” with 27” handle. Ship. wt. 5 lbs.

AB045 Aluminum Scoop Shovel $70.95
When doing a dash roll-up, place the Ram Jammers against the B-posts on each side of the vehicle. Then, instead of only getting one push with the medium hydraulic rams, Ram Jammers give you a secure base to make a second and then a third push for the “Maximum Dash Roll-Up.” This will give you a large amount of room in the front of the patient, making it easier to apply spinal immobilization devices. They also absorb the force of the rams to prevent fractures at the B-post. Ship. wt. 45 lbs.

**PERCUSSIVE RESCUE KIT**

You’ll feel the difference as soon as you hold it. This slam and ram tool exerts a striking force as you’ve never seen. You’ll hear the solid “thud” as the slam bar strikes one of the six assorted tool bits. The ram travels up to 13.6” for maximum impact. Whether you’re breaking a brick/block wall or pounding through locks and latches, this tool makes you more efficient. With the slam and ram feature, there is no deflection of pounding force. All of the energy is used to strike effective, penetrating blows by a single person. When hydraulic, electric and pneumatic power is gone or unavailable, you’ll still be punching and pounding with this rescue tool.

**COMPLETE KIT INCLUDES:**
- Percussive tool bar
- Lockbreaker claw
- Metal cutting claw
- Bull point
- Chisel
- Wide chisel
- Carrying bag

**INCREASED LEVERAGE:**

Closed

Slam & Ram

Forced, heat treated interchangeable bits

Machined diamond grip to ensure a positive grip and maximum control

Hard coated aluminum alloy tool bit retainer and locking ring

Collet Chuck locks the Ram Bar at any length

Handle with machine grooved, non-slip grip

Locked in outer position for greater leverage

“Slam & Ram” feature travels up to 13.6” for maximum impact

TEAM HUSQVARNA K12FD9 SAW BUNDLE

The TEAM Husqvarna K12FD9 is a lightweight battery power cutter with low vibrations and user-friendly ergonomics. The excellent power-to-weight ratio makes it versatile for lighter cutting needs. The saws brushless motor produces zero emissions, makes minimal noise and has a built-in wet cutting kit to control dust. The K12FD9 weighs 7.7 lbs. and perfect for quick and efficient cuts in confined spaces. Paired with a 9” Piraya Diamond Blade you’ll make fast and efficient single pass cuts and scores in steel, rebar and concrete up to 3 in. deep. The K12FD9 uses the Husqvarna BLi200/300 batteries.

FEATURES:
- Brushless motor
- 36V, 1.6hp output
- 5.2Ah/187Watt battery
- 3" cutting depth
- Wet or dry cutting
- Integrated eyelet for carrying
- Electric retarder
- Reflective letters
- 9" blades.

SHARK II VENTILATION SAW
BESTSELLING ALL-AROUND PRIMARY RESCUE SAW WITH THE BEST POWER TO WEIGHT RATIO AND UNLIMITED CUTTING CAPABILITY.

Specifically designed for Fire Department use, outlasts up to 10 regular chains and stays sharp up to 25 times longer. Control cutting depth from 2” to 10” when plunge cutting. Easy, fast removal when full length of bar is needed. Keeps chain properly lubricated in diverse conditions with no oil flow at idle. Air injection filters out 98% of incoming dust prior to reaching the heavy-duty air filter for longer life and better filtration.

FEATURES:
- Easy to check fuel level with transparent fuel indicator
- Easy to open and secure firmly, even with thick winter gloves
- Peak performance even under heavy loads with 12% higher cutting capacity
- The AutoTune Carburetor compensates for different fuels

BP305  SHARK II Ventilation Chainsaw With 20 Bar, 64 Drive Link Terminator Carbide Tipped Chain and Depth Adjuster Only $2,159.95
BP306  SHARK II Ventilation Chainsaw With 20 Bar, 66 Drive Link Terminator Carbide Tipped Chain and Depth Adjuster Only $2,174.95

BatShark

The BatShark giving you a unique combination of high efficiency and clean operation in a lightweight, powerful machine. Reduced overall cost of ownership with this high-performance battery machine compared to an equivalent gas-powered chainsaw. The BatShark eliminates direct emissions, operates quieter with lower vibrations and minimized maintenance and never needs gas. Without the worry of bad fuel or dirt ingestion causing carburetor or engine repairs, the BatShark will give you years of dependable service. Battery and charger sold separately or in bundles below.

FEATURES:
- High chain speed for optimal wood cutting performance. Operated using an intuitive push button keypad.
- Extremely easy to start and stop
- Lightweight and ergonomically balanced
- Zero emissions, 36-volt Li-Ion battery performance
- Low vibration - low noise
- Angled front handle for better grip and natural working position

INCLUDES:
- Battery-powered chainsaw
- Reflective fire department labeling
- 14” bar
- Wood cutting chain
- Bar & chain cover
- Rear eyelet
- Srench tool with holder

SPECIFICATIONS:
- Brushless motor
- Chain type - wood cutting only
- Automatic oil pump tank volume
- Sound power level - guaranteed (LWA) - 106dB(A)
- Sound power level, measured - 104 dB(A)

SUPER VC4 POWER PRO CUTOFF SAW
The SVC4 is an update to the popular SVC3. A smaller and lighter design improves mobility and the Dolmar 2 stroke engine turns the same 14" diamond blade cutting wheel at 500 more RPM. These high performance saws are designed for the fire and rescue service and proves to cut through concrete, asphalt, stone, and more with ease. The SVC4s extremely user-friendly with EasyStart technology for reliable starts, a Touch & Stop lever for immediate shutoff, built in scrench tool for making quick adjustments, and an upright fuel inlet allowing for easier and cleaner refueling. It has a window to check fuel levels on the fly.

PIRAYA DIAMOND BLADES
For years the fire service has requested “one blade that cuts all materials” for rescue saws. The Piraya Diamond Blade is as close to meeting this requirement as is technically possible in today’s Diamond Blade industry. The Piraya Diamond Blade is vacuum-braised using high-quality grade diamonds for fast, smooth cutting and long blade life. Fits all rescue saws using 12” and 14” diameter blades. Fits 1” or 22mm arbor with included 22mm bushing.

WARTHOG™ VENTILATION BLADE
THE LAST ROOF VENTILATION BLADE YOU’LL EVER BUY
The Warthog™ blade easily and quickly cuts through roofing materials, wood flooring and siding. Heavy-duty construction helps prevent tip loss, which is the major problem with standard carbide tipped blades. The tip is mounted to the blade by a special process. This process cushions the tip mounting and makes this blade the most durable, and probably the last, ventilation saw blade you will ever buy. Ship. wt. 7 lbs.

FIRE TIGER TOOTH BLADES
Fire Tiger Tooth and Safety Diamond Blades outlast abrasive cutting discs 100 to 1, saving valuable time replacing abrasive blades as they wear down. Fits on 4”, 4 1/2” hand-held grinders, 7” circular saws, 12”-14” gas saws, and chop saws. Includes 22mm bushing.

**VENTMASTER® HEAVY-DUTY FIRE RESCUE SAWS**

The VentMaster® Fire Rescue Saws is ready for demanding work by Fire Fighters. At just 14 1/2 lbs., the 572HD has a better power-to-weight ratio and 12% higher cutting capacity than the previous 576HD model. Excellent cooling and heavy duty filtration maximize reliability, while a smart design accommodates longer guide bars.

![Video Online](image)

- **VentMaster® COBALT Guide Bar**: Extremely hard COBALT alloy inserts at the wear points provide excellent wear, galling, and impact resistance. Retains these properties even at very high operating temperatures.
- **Tool-Less KIS-40 Depth Gauge**: Accurately control cutting depth, protect operator and safely speed cut. Fast, simple installation and removal, and eliminates the need to "roll the rafters."
- **Raptor Carbide Chain**: Engineered specifically to withstand the rigors of fire and rescue operations. Features an "open dual raker" design to protect the carbide cutters and control the depth of cut.
- **Sealed & Protected Carburetor/Air Filter**: Equipped with state-of-the-art filtration system 572HD® carries a large surface heavy duty filter for longer and better filtration. The filter has a larger filtration area compared to previous generation. Providing a chainsaw with a healthier engine optimised for long working hours.
- **Centrifugal Force Air Cleaning System**: Cleaner intake air means longer intervals between filter cleanings, longer runs at full power, and reduced internal engine wear.

**TEMPEST**

- **BC064 VentMaster® 572HD w/16" Guide Bar and Depth Gauge, .404 Pitch** $2,454.95
- **BC065 VentMaster® 572HD w/20" Guide Bar and Depth Gauge, .404 Pitch** $2,544.95
- **AM115 Raptor Carbide Chain, 16" with .404 Pitch** $270.95
- **AM116 Raptor Carbide Chain, 20" with .404 Pitch** $328.95
- **BK202 Optional LED Light** $158.95

**UNIVENT PRO-SAW**

The Univent Pro-Saw is ideal when your compartment space is limited. It has the best power to weight ratio compared to any other saw in its class. This is virtually the safest saw ever built with our exclusive spring loaded depth gauge. It also gives the operator more reach and comfort while using the saw, and eliminates cutting rafters out from under you. The Pro-Saw was designed and engineered just for the rugged demands of the fire service with features no other saw can offer.

- **BD043 Univent Pro-Saw 16" with Depth Gauge/Sabretooth FD Chain** $2,168.95
- **BD044 Univent Pro-Saw 16" with Depth Gauge/Cobra Chain** $2,294.95
- **BD045 Univent Pro-Saw 20" with Depth Gauge/Sabretooth FD Chain** $2,317.95
- **BD046 Univent Pro-Saw 20" with Depth Gauge/Cobra Chain** $2,467.95

**SUPER POWER PRO V3 VENTILATION SAW**

With a powerful Dolmar 6.3 HP engine that turns at 13,500 RPM, your department can rely on the Super Vac SV3 Power Pro Saw for venting and rescue operations. With a handle designed for maximum versatility, this saw tackles a variety of operations with ease, including cutting through residential roofing, removing downed trees, and ripping through various building materials. With a quick-start compression release and an “always on” ignition, the SV3 is ready-to-go when you are.

- Chisel chain/depth gauge
- Aimaster filtration
- Quick Silver aluminum D-ring pull handle

High-quality Air Hammer Rescue Kits have been designed specifically for extrication and are field-proven not only for emergency extrications but for all types of emergency cutting such as: factory doors, casement windows, fire doors and many other jobs. Release the trigger and the tool stops instantly. Completely portable and compact enough to be easily carried in fire trucks and rescue vehicles. Operated off fresh air tanks, compressors, nitrogen bottles, cascade systems or air brake outlets. Use with either 2216 or 4500 psi air tanks.

### STANDARD DUTY KIT
Complete Kit with everything necessary to hook up to an air tank and begin extrication work.

- Hammer for .401" shank tools
- Retainer
- Regulator
- 2 - Double blade panel cutter (non-turn)
- 2 - Kwik cutter (non-turn)
- 2 - 18" Kwik cutter (non-turn)
- Moil point (turn-type)
- 15 ft. ¼" hose
- 2 - Male connector
  (¼" NPT hose and hammer)
- Male coupler
  (¼" NPT regulator)
- Female coupler (¼" NPT hose)
- Gauge guard
- 20" steel kit box
- Kit box liner
- 4 oz. oil
- Trim removal tool

EXTRICATOR FORCIBLE ENTRY KIT

Use it to open damaged doors in plants and factories, or raise clutch and brake pedals in auto rescue extraction by using the Spreader and Wedge combination. Come-a-long and chains are used to pull seats, doors, steering columns, and to roll quarter panels out of the way. The straight Ram and attachments are used to lift heavy objects and push metal within the vehicle to free trapped victims. This kit will allow you to move in multiple directions at the same time. Ship. wt. 150 lbs.

10-TON DELUXE RESCUE KIT

The capability for providing big power in compact spaces. Spreader toes lift heavy machinery, elevators, etc. "Wedgie" and "Spreader" rams open car doors, move steering columns, bumpers and obstructing metal. Two powerful rams are included. Includes 16 gauge metal box. Ship. wt. 64 lbs.

AIRGUN KIT

1600-1700 high impact blows per minute, 7 pound, pneumatic impact tool. Combining ease of handling, very low air consumption and high power output. It is an ideal tool for rescue work. Vehicle crash sites, metal clad buildings, aircraft penetration, exhaust ducts and composite structural material are typical barriers often faced by rescue personnel. The Airgun, using one of several specially designed tool bits, should be your tool of choice when faced by these situations. Ideal confined space tool. Ship. wt. 31 lbs.

PARATECH

WORKING AIR® CYLINDER

These are lightweight, sturdy cylinders, ready to use. Have an economical air supply on hand. Made of strong, high density aluminum; standup design allows more convenient vertical storage. They take the rough handling at an emergency scene without the concern for costly fiber damage to your SCBA cylinder. Best of all, they cost much less than new high-pressure breathing air cylinders. This means that your department can economically maintain a high-capacity air system without tapping SCBA resources. Note: not for breathing air. Ship. wt. 10 lbs.
HEAVY RESCUE OUTFIT
The PETROGEN® Heavy Rescue Outfit is designed for extensive steel cutting in a heavy rescue situation. The components were assembled with the input of firefighters and USAR members. Hundreds of fire departments and USAR teams are using the PETROGEN® system. Ship. wt. 45 lbs.

AZ525 Darley Chain Kit $592.95

DARLEY CHAIN KIT
• 6’ “J” hook
• 3’ “C” hook
• 2’ “T” hook
• 7’ Pull chain assembly
• 12’ Extension chain
• 2 - Cheater chains
• Carrying container
• Ship. wt. 50 lbs.

BP311 Firefighter Rescue Chain Package $1,549.95

DARLEY DELUXE CHAIN KIT
The Darley Deluxe Chain Kit can help save time and lives in a crash rescue situation involving pulling or moving of steering columns, seats, doors, dash boards, etc. Kit can be used separately or as a companion to your hydraulic equipment.

INCLUDES:
• 20’ slip hook/grab hook
• 20’ “cheater” chain - dual grab hooks
• “J” hook assembly with round ring and shackle
• 6’ chain with “J” hook on one end, “T” hook and grab hook other end
• 1½ ton capacity series 653 lever hoist with 5’ lift
• Carrying container

BN081 Darley Deluxe Chain Kit $649.95

SURE CUT SYSTEM
The Sure Cut System will cut virtually any metal, both ferrous and non-ferrous, and is faster than conventional oxy-acetylene cutting. Our system does not require preheating or cleaning the material before cutting. It is easy-to-use and is cost effective for most applications.

FEATURES:
• No Carbon Residue: Clean cuts with no carbon to grind away
• Portable: It can be used in remote areas with the use of a 12v battery
• Easy-to-Use: All you need is an ignition source (welder, 12 or 24v battery or torch) and oxygen to operate
• Faster: Sure Cut is as much as five times faster than oxy-acetylene cutting and up to ten times faster than Carbon Arch Gouging, depending on the thickness of material to be cut

BH017 Tool Box Kit with Standard Holder and 24 Rods* $753.95
* 12 each ¼" and 12 each ⅜"x24" QC rods
PACKEXE® SMASH KIT
Packexe® SMASH is the original time-critical glass management tool. For use in extrication on all types of glass. Packexe® SMASH holds glass in place, reducing the risk of injury from glass fragments and dust.

FEATURES:
- Dispenser
- SMASH roll (12.25” x 164” perforated every 4”, fits dispenser)
- SMASH roll (12.25” x 164” un-perforated hand application)
- Film cutter
- Safety knife
- Squeegee
- Cloth
- Carrying bag

BP100 Packexe® SMASH Kit $359.95

SMASH HAND ROLL
The dispenser applies the adhesive film quickly. Perforations on the film then permit easy and exact placement on the surface. SMASH Hand application roll only (12.25” x 164” unperforated).

BP101 SMASH Hand Roll $78.95

EXTRICATION PROTECTION KIT
- For protection of rescuers and patients during extrications
- Covers posts and other jagged edges
- Durable exterior - made of 22 oz. poly coated vinyl
- Strong pliable inner material - Kovenex® Aramid material
- Washable, non-wicking

BP104 Extrication Protection Kit $470.95

MINI PULLER KIT
MINI LEVER PULLER
- 1/2 ton come along (1,000 lbs.)
- Compact, lightweight carbon steel design
- Non-slip rubber handle
- High output, short handle for tight spaces
- 5’, grade 100, nickle-plated load chain
- Free chain mechanism
- Load chain guide for smooth operation
- Both hooks have notched safety latches
- Meets ASME b30, every hoist is tested to 125% of rated capacity
- 5’ x 32’ grade 100 adjustable anchor chain
- Labeled carrying bag

BP102 Mini Puller Kit $519.95

DOGGIE BAG
The uniquely engineered JYD Doggie Bag is designed as an economical solution for responders to conveniently carry specifically selected components to assist during the stabilization process as well as to work effortlessly with JYD Rescue Struts

BP103 Doggie Bag $454.95

GLASS KNIFE KIT
Engineered to fit any drill and capable of cutting laminated glass in newer model vehicles. The Glass Knife and drill work independently for use in any position. Available to purchase with or without drill set.

BP098 Glass Knife Kit $595.95
BP099 Glass Knife Kit with 12v Milwaukee Drill $715.95
CRASH BAG KITS

JYD Industries Crash Bag Kits were designed for responders to utilize as a first-in tool at a vehicle crash. With 18+ industrial quality tools carried in one bag, the Crash Bag Kit contains the basic equipment necessary to start initial stabilization and quick entry for patient assessment. Crash Bags contain a removable magnetic tool board with pockets for individual tools to magnetically attached to a vehicle with a built-in semi-removable divider to hold additional large tools. The ELITE Crash Bag Kit includes JYD’s laminated glass cutter, an essential for today’s responders.

STANDARD FEATURES:
- Channellock® 6-in-1 screwdriver
- Channellock® pliers
- Channellock® 10” adjustable wrench
- Channellock® cable cutters
- Ajax Strip & Peek pry tool
- Rescue shears
- Spring-Ring window punch
- Lenox® 12” hacksaw
- 4 - Spare Lenox® hacksaw blades
- JYD Industries seat belt cutter
- 4 - Tire valve deflator/inflators
- GlassMaster saw with center punch
- Kovenex® rapid response rescue blanket

Standard Crash Bag Kit:
- 25” (L) x 6” (W) x 19” (H), 13.5 lbs.

Elite Crash Bag Kit:
- 25” (L) x 8” (W) x 19” (H), 28 lbs.

BP096 Standard Crash Bag Kit $722.95
BP097 Elite Crash Bag Kit $1,236.95

XTEND STABILIZING KITS

JYD Industries XTEND style Struts use heavy duty, top quality, stainless steel Locking Adjustment “T” Pins for quick and secure deployment and have a safe WLL of 5000 lbs. with a 2:1 Safety factor. Approach any scenario with confidence by arming your department with one of JYD’s combination Stabilizing Kits. With x2 Small XTEND Struts w/ accessories, x2 Large XTEND Struts with accessories, x2 Cleat Bases and a Milwaukee Kit, JYD’s Stabilizing Kits have everything you need for conventional and unconventional stabilization needs, all in one convenient package.

NEW

BP108 XTEND Stabilizing Kit #1 $5,527.95
BP109 XTEND Stabilizing Kit #2 $7,125.95

ZSTRUT STABILIZING KIT

JYD Industries ZSTRUT style Rescue Struts are designed with Patented ZipNut® Technology, an engineered deployment method that ELIMINATES THE NEED FOR PINS all together. ZSTRUTs allow for quick and simple deployment and adjustments with the ability to follow lifts and have a safe WLL of 5000 lbs. with a 2.1 Safety factor. Approach any scenario with confidence by arming your department with one of JYD’s combination Stabilizing Kits. With x2 Small ZSTRUT Struts w/ accessories, x2 Large ZSTRUT Struts with accessories, x2 Sidewinder Jack Kits, x2 Cleat Bases and a Milwaukee Kit, JYD’s Stabilization Kits have everything you need for conventional and unconventional stabilization needs, all in one convenient package.

NEW

BP110 ZSTRUT Stabilizing Kit #1 $8,076.95

SIDEWINDER JACK KIT

ENGINEERED SCISSOR OPERATION SPECIFICALLY DESIGNED FOR RESCUE WORK

NEW

FEATURES:
- Enclosed threaded rod
- Roller bearings for smooth action
- Wide base - polymer coated bottom
- Tilted head for angled adjustment
- Pivoting carry handle
- Rate at WWL of 7,500 lbs.
- Lifts from 5.25” to 13.25”
- Attached clevis for securing with ratchet strap
- Can be operated manually or with power tools (sold separately)

BP095 SideWinder Jack Kit $824.95

### STANDARD, MEDIUM, GIANT AND COG STEP CHOCKS

- Quick stabilization and leveling
- Super stability for passenger cars, trucks, buses and heavy rescue
- Lightweight with very stable base dimensions
- Built-in hand hold
- COG features locking wedge and incline for maximum stability
- **Dimensions:**
  - AJ328 - 24½"x5½" (base)x3¼" (top)x10½"H, step is 3¾"W
  - BN305 - 29½"x9" (base)x4½" (top)x17½"H, step is 4½"W
  - AS271 - 31½"x11" (base)x5" (top)x22"H, step is 5"Wx6”D
  - BN301 - 24¼"x6½"x10½"H, step is 5"Wx3½”D
- Color: Black

ARAIMD LIFTING BAGS

Matjack’s unique construction of four full layers of aramid fiber provide for a lifting bag unequaled in strength and durability. All Matjack air lifting bags are marked with a distinct white numbered, “bulls eye” for ease of centering under the load, and have a conical, interlocking surface to limit slippage and aid in stacking. All Matjacks have either carry handles or tabs molded right on for lifting of attaching to fixtures. The Matjack “state-of-the-art” deadman controller allows for independent or simultaneous operation of one or more airbags. Supply hoses are color coded to help eliminate confusion during simultaneous operation of more than one airbag. Made in the USA.

HIGH PRESSURE AIR LIFTING BAG KITS

BL966 INCLUDES:
- 2 - 22 ton aramid reinforced high pressure air bag
- Dual deadman control with safety coupler
- 2 - 20’ supply hose with safety coupler (blue & red)
- 10’ regulator hose with safety coupler
- Regulator for 4500 air bottle with safety coupler

BL967 INCLUDES:
- 2 - 22 ton aramid reinforced high pressure air bag
- 2 - 50 ton aramid reinforced high pressure air bag
- Dual deadman control with safety coupler
- 4 - 32’ supply hose with safety coupler (red, blue, black, gray)
- 10’ regulator hose with safety coupler
- Regulator for 4500 air bottle with safety coupler

BL968 INCLUDES:
- 13 ton aramid reinforced high pressure air bag
- 2 - 22 ton aramid reinforced high pressure air bag
- 37 ton aramid reinforced high pressure air bag
- 2 - 50 ton aramid reinforced high pressure air bag

TELESCOPING ALUMINUM SUPPORT SYSTEMS

Designed primarily for stabilizing motor vehicles involved in crashes, the TASS is a patented, 3-tiered telescoping aluminum support system. Like all Prospan products, the TASS has been designed to be simple to use and incredibly strong. Independent testing by the University of Illinois, shows the TASS to be one of the strongest vehicle stabilization products in the world.

- 3-tiered, telescoping aluminum pistons
- Knurled, easy-grab collars
- Tethered detent ball pins
- Anodized finish
- Durable design
- Simple to maintain

INCLUDES:
- Telescoping aluminum supports 26” - 48” span
- Baseplate - 10” with detent pins
- Baseplate shoring adapters
- Vehicle adapters
- V-Grip attachments
- Conical-shaped attachments
- Ratchet straps - 20” with hook cluster

BC028  Telescoping Aluminum Support Kit 26”-48”  $1,902.95
BL623  Telescoping Aluminum Support Kit 43”-102”  $2,188.95
BL624  Telescoping Aluminum Support Kit, Combined BC028 & BL623  $4,091.95

THE BEAST™
AVAILABLE AS A COMPLETE SYSTEM, OR ORDER COMPONENTS INDIVIDUALLY. COMPATIBLE WITH ANY EXISTING RESCUE TOOL.

The BEAST™ is tested and proven to handle the most demanding 5 star crash rated vehicles. Made in the USA.

FEATURES:
- Weight: 51.9 lbs.
- Dimensions: 28.0”x12.5”x8.0”
- Operating Pressure: 5,000 psi
- Compatible with any low pressure system
- Limited lifetime warranty

BD170:
- Type of Tool: Scissor
- Opening: 10.75” Cutter with 3.5” Power Notch
- Outfitted with Champion’s patented laminated cutting blades with internal safety restraints
- Generates 35% more cutting force than any other 5000 psi tool in the market
- Accessories Include: 1 full size USAR cutting head

BL201:
- Type of Tool: Multi-Tool
- Opening: 10.75” Cutter with 3.5” Power Notch
- Outfitted with Champion’s patented laminated cutting blades with internal safety restraints
- Generates 35% more cutting force than any other 5000 psi tool in the market
- Accessories Include: 1 full size USAR cutting head

Available as a complete system, or order components individually. Compatible with any existing rescue tool.

BL202:
- Type of Tool: Spreader
- Opening: 28.0” Spreader with 16.0” of parallel travel
- Accessories Include: 1 full size spreading head

BEAST™ Multi-Tool  $5,895.95
BEAST™ Cutter  $5,595.95
BEAST™ Spreader  $5,595.95

INCLUDES:
- Cutter and Spreader in one tool, you can change from full size cutter to a powerful spreader in seconds by pulling three pins
- Generates 35% more cutting force than any other 5000 psi tool in the market
- Outfitted with Champion’s patented laminated cutting blades with internal safety restraints
- Opening: 10.75” Cutter with 3.5” Power Notch; 28.0” spreader with 16.0” of parallel travel
- Accessories Include: 1 full size USAR cutting head and 1 full size spreading head for one low price

BEAST™ Multi-Tool  $5,895.95
BEAST™ Cutter  $5,595.95
BEAST™ Spreader  $5,595.95

BD170  The BEAST™ Multi-Tool  $5,895.95
BL201  The BEAST™ Cutter  $5,595.95
BL202  The BEAST™ Spreader  $5,595.95
FR INDURA® COTTON COVERALLS

- 9.0 oz. per square yard Indura®
- Heavy-duty, two-way brass zipper
- Nickel plated brass snaps
- Two patch breast pockets, pencil slot in left pocket
- Two hip pockets with a snap closure on the left
- 2-in-1 utility/tool pocket on right leg
- Side access to pants with snap closure
- Adjustable cuffs with snap closures
- Sewn throughout with Nomex® thread
- Short: 5’4” - 5’7”
- Regular: 5’7”/4’’ - 5’11”
- Tall: 5’11”/4’’ - 6’3”

**XTRICATION® RESCUE GLOVES**

Shelby Xtrication® Rescue Gloves features reflective finger tips and a Kevlar® reinforced palm for excellent protection and durability.

**FEATURES:**
- Kevlar® reinforced palm and fingers
- Injection molded TPR padding covering back of hand and knuckles
- Cotton terry braw wipe and lining
- Reinforced rubber pull with carabineer loop
- Custom finger-back rubber guards
- Reflective finger tips
- Quick access pocket for EMT glove storage

**FIT/COMFORT:**
- Pre-curved glove with two-way stretch
- Air flow cordura back
- Soft cotton terry lining with “snuggler” and taslon debris blocker

**SPECIFY SIZE:** S-XXL

BN618  Xtrication® Rescue Gloves  $57.95

**NEW**

**HYBRID EXTRICATION HI-VIS GLOVES**

- ResQLoc Grip System
- SuperCuff technology for full range of motion
- CE Rated 4343, Level 3 cut and puncture protection
- TPR impact protection on top of hand and full length of fingers
- High visibility for increased safety

**SPECIFY SIZE:** S-XXL

BK277  Hybrid Extrication Hi-Vis Gloves  $42.95/pr.

**NEW**

**EXTRICATION RESCUE GLOVES**

**NEW**

**911 BARRIER EXTRICATION GLOVES**

- Waterproof and breathable Hipora® barrier to protect hands from micro-organisms such as TB, Hepatitis, Staph and HIV
- Molded TPR (Thermal Plastic Rubber) knuckles reduce impact and increase dexterity
- Boxed finger tip design for better fit and comfort
- Cut resistant Kevlar® palm, thumb, finger and side panels

**SPECIFY SIZE:** S-XXL

BD141  911 Barrier Extrication Gloves  $60.95/pr.
The Fire-Rescue Harness™ remains one of the most versatile, multiple-use harnesses available. Used worldwide by fire department rescue teams, USAR teams, helicopter crews and wilderness SAR teams, this popular harness features multiple D-ring attachment points and CMC’s JackBack™ removable padding with breathable D3 cloth.

### FB301 Fire Rescue Harness™
- Dorsal D-ring allows adjustment for different size users, but stays in place when loaded
- Front waist D-ring allows a stable sitting position for rappels
- Gear loops offer easy access to equipment, and quick-connect shoulder straps
- Leg loops make donning the harness quick
- Pads on the leg loops can be adjusted to the most comfortable position
- Front lift assembly accepts screw links for adding a chest ascender or safety lanyards

**Specify Size:** S/M or L/XL

**SPECIFICATIONS**
- Improved architecture molds to the user for a lightweight, low profile fit
- Ergonomic design for maximum comfort and support
- Y-back construction and bridged front lift
- Constructed with polyester webbing
- Gear loop over-braid is based on a 32-carrier polyester
- Multiple accessory attachment points provide ample space for stowing and organizing hardware and tools
- Made in the USA of domestic and foreign components
- Red webbing at the shoulders and front leg drop provide higher visibility
- Steel attachment points at the waist, chest and back
- Cobra quick-connect buckles at legs and right shoulder make donning quick and efficient
- Flexible gear loops offer a low profile gear stowage solution
FCX ESCAPE SYSTEMS

With the introduction of the FCX Descent Control Device and the FireTech2 100% Technora® escape rope, Sterling is able to offer a wide range of the most advanced personal escape systems available. The FCX systems are customizable with your choice of escape rope, anchor hook and storage bag. FCX escape systems are NFPA 1983.

RIT HEAT RESISTANT SEARCH ROPE

Rapid Intervention Teams (RIT) face the most demanding and extreme conditions during search operations. Overcoming extreme heat, ground obstacles, and poor visibility are just some of the hurdles faced when searching for and rescuing trapped firefighters or civilians. Firefighter safety and survival has become an important focus and Sterling RIT Lines are an integral rescue tool in search and bailout operations.

FCX DESCENT CONTROL DEVICE

Sterling Rope FCX Descent Control Device uses a unique cam feature that allows smooth modulation so the user can easily control the speed of descent with one hand and a click-to-neutral feature allows for easy horizontal movement.

1" MIL SPEC webbing is a must have for rescue personnel. It can be used for building anchors, making improvised harnesses, lashing litters, and many other uses. MIL SPEC webbing is rated to 4,000 lbs.

**CMC PMP SWIVEL PULLEY**

The Prusik-minding swivel pulley (PMP) is ideal building mechanical advantage in raising systems, high anchor points, or tripod use. The rotating swivel aligns the rope with the direction of the pull. Its stainless steel sheave can be used with either rescue rope or wire cable. By combining the swivel with the pulley, overall system length is minimized, increasing travel. The patented pivoting side plate allows the rope to be quickly inserted. The PMP Swivel Pulley can be used with confidence in work-at-height maneuvers for industrial rope access or technical rope rescue.

**FEATURES**
- Stainless steel sheave allows use with wire cable or rescue rope
- Prusik-minding side plate opens without having to disconnect the pulley from the anchor
- Double-detent button prevents accidental opening of side plate
- Sealed ball bearings provide maximum efficiency

**BN219** CMC PMP Swivel Pulley $145.95

**CMC MPD™ ROPE RESCUE TRUCK CACHE™ KIT**

When setting up systems, this well-organized kit provides efficient access to all the rigging hardware needed to set up a main line and belay. The case can be laid on the ground or suspended from the side of a vehicle with integrated gutter hooks, yet when closed, fits easily into a vehicle cabinet or behind the seat.

**KIT INCLUDES:**
- 1 - UltraPro 4 edge protector
- 2 - FastLink anchor strap
- 2 - Bound-Loop Prusiks
- 1 - Double swivel pulley
- 5 - ProSeries screw-lock carabiners
- 2 - Anchor strap sleeve
- Truck cache
- 2 - MPD (13mm)
- 1' web - 40' (2x20')
- 1 - XL Edge pad
- 3 - Single swivel pulleys

**BL023** CMC MPD™ Rope Rescue Truck Cache™ Kit $3,333.95

**CMC MPD™ UL CLASSIFIED TO NFPA 1983 – GENERAL USE**

The MPD™ allows you to go from lowering to raising without changing hardware. The MPD’s high-efficiency pulley, with an integral rope-grab mechanism, allows it to be used as a lowering device on the main line and belay line systems and be quickly changed over to a raising system without switching out or replacing hardware. The combination of essential features into a single device simplifies on-scene rigging, expediting the rescue.

**FEATURES:**
- Variable-friction descent control device for rescue systems and rappels
- High-efficiency pulley with integral rope-locking mechanism (ratchet) for a haul system
- Built-in becket allows cleaner rigging and more efficient pulley systems
- MPD allows main line and belay line rigging or can be used as a two-tension system
- One device functions as both a lowering brake and ratcheting pulley for raising
- Converts rapidly to a retrieval line for confined space operations
- Meets BCCTR Rescue Belay Competency Criteria
- Red model accommodates 13 mm rope (11mm blue model also available)

**BL022** CMC MPD™ 13mm $822.95

**Video Online**
ENFORCER

Enforcer (with case) is a compact aluminum load cell that measures force up to 20 kN. Utilizing two sampling modes, the Enforcer is able to monitor systems, and log drop testing in high resolution. Unique features like Bluetooth connectivity with the enForcer iOS App and swivel attachment points separate the Enforcer into a class of its own.

FEATURES:
- Lightweight aluminum construction
- Compact and portable design facilitates “in-line” use in rigging systems
- Swivel attachment points diminish potentially dangerous torsional and off-axis forces
- Features two sampling modes: “Slow” for monitoring and “Fast” for drop-testing
- Monitor forces wirelessly on your iPhone with built-in Bluetooth connectivity
- Record and download graphs of events (Enforcer app required, sold separately)
- Measures force in kg, lbf and kN

*Not for use with steel cables or wire rope.

BN522 Enforcer $842.95

NFPA LADDER AND CARABINER HOOK SCREW AND TWIST LOCKS

NFPA and UL certified high tensile steel Ladder Hook with captive pin is designed to fit over ladder rungs, pipes, safety rails, building apparatus or anywhere you may need the huge gate clearance of these exceptional and strong ladder hooks. The gate clearance of our zinc plated ladder hook is enhanced by our unique screw-lock gate mechanism, which enables the gate to open beyond the ladder hook spine, providing a massive gate opening, even for a ladder hook of this size!

- High tensile steel
- Zinc plated finish
- High strength
- Smooth operation

Cat# Description Price
BN247 NFPA Steel Ladder Hook Screw Lock $22.95
BN248 NFPA Steel Ladder Hook Twist Lock $28.95
BN249 NFPA Large D Carabiner Screw Lock $16.95
BN250 NFPA Large D Carabiner Twist Lock $22.95
BN251 NFPA Aluminum Carabiner Twist Lock $14.95

CMC STEEL LOCKING D CARABINERS

UL CLASSIFIED TO NFPA 1983 – GENERAL USE

This proven workhorse of General Use carabiners is available in both Screw-Lock and Auto-Lock gates. On the Screw-Lock models the nut locks against the gate to prevent jamming. Auto-locking carabiners decrease the possibility that the user will forget to lock the gate or that the gate will vibrate unlocked while in use. With the safety of a three-stage auto-locking gate that can be easily opened with one hand, these compact models maximize strength yet allow a gate opening wide enough to fit over most litter rails. Every carabiner is proof loaded.

NEW

rockSTEEL AUTO-LOCK CARABINER

The rockSteel offers a surprising strength-to-weight ratio in a carabiner of its capacity. Most steel carabiners are made from 1/2 diameter steel. We use a lighter, 7/16” diameter steel that is heat treated for added strength. The rockSteel frames are CNC machined for precise fittings and exact tolerances. The result is a carabiner with a high strength-to-weight ratio, keylock snag-resistant nose and a feel like no other steel carabiner in the world. The rockSteel carabiner is ANSI Z359.12 (09) and NFPA G compliant. The gate/sleeve is rated at 16kN or 3600 lbs, to protect against inward force against gate.

- Large frame, with large, 1.2” gate opening
- Impressively strong, yet lightweight
- Rated for inward gate force
- ANSI Z359.12 (09) and NFPA G compliant

Cat# Description MBS Price
BN531 rockSteel Auto-Lock Carabiner 3,600 lbs. $39.95
CMC LEVR™ ESCAPE SYSTEM
UL CLASSIFIED TO NFPA 1983-GENERAL USE

The most compact escape system available. Designed to assure rapid emergency egress with safe, controllable descent. Built around the new CMC LEVR descender, a next-generation device with improved descent control, fast and easy pay-out, and reliable edge transition.

FEATURES:
- LEVR™ design provides smooth and reliable edge transition, minimizing potential for hang-up at window sill
- Engineered for quick, easy horizontal payout of web to allow fast egress from remote anchor points
- Designed to reduce impact force on escape anchor if shock loaded during bailout
- Low-profile side carry bag designed for right or left-handed deployment
- Fire Escape Web T™ is constructed from 100% Technora® fiber for high strength and heat resistance, and dramatically reduces space required for storage
- U.S. Patent Pending

INCLUDES:
- LEVR™ descender reeved with 15.2m (50') of 11mm Fire Escape Web™ (UL Classified to NFPA 1983 - Fire Escape Web)
- FlashLite™ Hook (UL Classified to NFPA 1983 - Escape Use)
- Nomex® fabric waist carry bag
- ProTech™ Aluminum Auto-Lock Carabiner (UL Classified to NFPA 1983 - Technical Use) with sewn Kevlar® fiber tether

CMC LEVR™ ESCAPE SYSTEM
1.800.323.0244   |   EDARLEY.COM/RESCUETOOLS

CMC 3D™ LOCKING-BAR DESCENDER

The 3D features two sliding bars for optimum friction control and efficiency. The horn design works well with 13mm rope and smaller, making it easy to add or subtract friction as needed throughout the evolution. The frame dimensions allow for larger rescue-sized carabiners to be used without any contact or friction with the rope. The descender can be loaded or unloaded while connected to your harness for rappelling or to an anchor for one- or two-person rescue lowers. Ship. wt. 1 lb.

- Compact, lightweight design
- 3-stage locking center bar for added safety
- Ambidextrous design allows loading from top or bottom or controlling descent from either side of device
- Optimal rack length allows two rescue-sized carabiners to be attached without rope contact or friction from carabiner
- Large horn size allows for easy addition or subtraction of friction, even on larger 13mm lifeline
- 100% aircraft-grade aluminum and stainless steel components
- Patented

BN326   CMC 3D™ Locking-Bar Descender   $249.95

PETZL I’D SELF-BRAKING DESCENDERS

It’s auto-locking feature combined with a locking position for the handle make the Petzl I’D an excellent descender for working on rope. Additional safety features include an anti-panic function that stops the descent if the handle is pushed too far and an anti-error safety catch that reduces the risk of an accident from the incorrect installation on the rope. Maximum descent distance: 660’ (200m).

- Unblock the rope and control the descent with the hand on the free end of the rope
- Move more easily on horizontal or low-angle terrain, thanks to the button on the handle
- Get into position without having to tie off the device
- Anti-panic function is engaged if the user pulls too strongly on the handle brakes and stops the descent automatically
- Anti-error safety catch to reduce the risk of an accident due to incorrect installation of the device on the rope. The shape of the cam is designed to improve rope glide when ascending

Cat#   Description          Finish       NFPA Rating      Price
BG121   Self-Breaking Descender   Gold       Light Use       $238.95
BG122   Self-Breaking Descender   Red        General Use     $238.95

NEW
The patented locking mechanism in our updated CSR™ Pulley™ is easy to release under load, creating much greater efficiency with the lowering and raising necessary to a confined space rescue. The machined aluminum swivels at both ends of the system eliminate any potential twisting of the lines. This system is also an excellent choice for confined space entry or rope access work where a heavy-duty pulley system is desired. Systems comes completed reeved and packed into its storage bag ready to use.

- All-new stronger, lighter-weight design
- Available with either 11mm (7/16") or 12.5mm (1/2") Static-Pro Lifeline
- Systems are UL Classified to NFPA 1983 (2017 ED) - General Use
- CSR™ Pulley MBS 46 kN (10,341 lbf)/CSR™ Double Pulley MBS 45 kN (10,116 lbf)
- Machined from solid block of aircraft-grade aluminum
- Includes (2) ProSeries® Aluminum Screw-Lock Carabiners, MBS 47 kN (10,566 lbf) - General Use
- Made in USA

INCLUDES:
- 11mm (7/16") Static-Pro Lifeline, Blue (1 x 200') or 12.5mm (1/2") Static-Pro Lifeline, Red (1 x 200')
- CSR™ Pulley
- CSR™ Double Pulley
- ProSeries Aluminum Screw-Lock Carabiner (2)
- #3 Rope Bag, Red

BG274  CSR™ Pulley System™ $1,420.95

CMC AZTEK PROSERIES® SYSTEM

The CMC Rescue AZTEK ProSeries System leaves no detail ignored. Capable of more than 100 rigging solutions, it reflects the philosophy of keeping rigging equipment simple, efficient, non-specialized, light and small. The CMC Rescue AZTEK ProSeries System is the only AZTEK system UL Classified to NFPA 1983 (2012 ED.) General Use, Manufactured System. Ship. wt. 4 lbs.

- Innovation-loaded and designed for wear on the waist or thigh
- Travel restraint with more than 40' of adjustable travel
- Mesh bottom for optimal breathing
- AZTEK OMNI set of fours provides 4:1 or 5:1 M/A options
- Quickly adjust a litter attendant or litter position
- Easily pass knots
- Back-tie or redirect anchors
- Promptly establish dynamic fixed brakes
- Establish travel restriction
- Correct disoriented equipment under load
- Dynamic directionals and lowers
- Hauling systems
- High angle attendant tether and litter scoops
- Load-releasing hitch
- Personal mechanical advantage (PMA)
- Solo pick-off
- Tensioned guying

 INCLUDES:
- 11mm (7/16") Static-Pro Lifeline, Blue (1 x 200') or 12.5mm (1/2") Static-Pro Lifeline, Red (1 x 200')
- CSR™ Pulley
- CSR™ Double Pulley
- ProSeries Aluminum Screw-Lock Carabiner (2)
- #3 Rope Bag, Red

BN708  Aztek Elite NFPA-G System $429.95
SEATCHLITE KIT
Search kits are an integral tool for fire departments performing large area search. The kit comes standard with our highly-reflective SearchLite rope. Large snap-hook on one end allows for connection to substantial objects, while the small snap hook secures the rope to the bag.

Includes:
- 220’ of SearchLite Kit search rope
- Double action snap hook
- Swivel Snap
- SearchLite bag

BN706 SearchLite Kit $383.95

TRAVEKE 540° RESCUE BELAYS
UL CLASSIFIED TO NFPA-GENERAL USE
Developed specifically to meet the needs of rescue system belays, the 540° Rescue Belay is a self-locking device that meets demanding drop-test criteria able to hold falling loads quickly while limiting the peak force. This well-engineered device is easy to rig and the symmetrical design reduces the risk of improper loading. A built-in release lever releases the tension on the belay rope, eliminating the need for a release hitch. Designed for use with kernmantle rescue ropes from 11.5 to 13mm. 3 MBS: 8,093 lbs. Passes the BCCTR Rescue Belay Competence Drop Test Criteria.

Ship. wt. 3 lbs.

Cat#  Description  Rope Size  Price
BG267  Small 540° Rescue Belay  10.6-11.5mm (7/16”)  $524.95
BG268  Large 540° Rescue Belay  11.5-13mm (1/2”)  $524.95

SEARCHLITE KIT

AZTEK PRO KIT
The Aztek Pro Kit can be used as a pick off, adjustable directional, high directional guylines, high angle attendant tether, high angle litter scoop, load release hitch and much more. Each pulley is color coded to match with a corresponding prusik for quick identification. The AZTEK pulleys are machined from solid aluminum, feature swivel connection points, and utilize high efficiency bearings.

BN523 Aztek Pro Kit $377.95

360 SEARCH AND RESCUE BOUNCE IMAGING CAMERA
The 360 Search and Rescue Bounce Imaging provides 360° views of difficult-to-reach spaces, in a small, easy-to-carry camera that pairs directly to a smartphone app. Our stabilization means that your 12 o’clock stays constant, even in virtual reality - allowing you to precisely understand the layout of the target environment. Everything is recorded, so you can always review what was happening behind you.

- Simultaneously view different angles and directions
- Search confined spaces instantly
- Maintain your orientation

BP028 360 Search and Rescue Bounce Imaging Camera $2,949.95
UNIVERSAL SWIFT WATER RESCUE VEST

- 25 lbs. (111 N) buoyancy
- Drag handle and D ring
- Quick donning with 7 adjustment tabs to create a customized fit for chest sizes from 30" - 52"
- Layered flotation
- MOLLE® webbing on both shoulders and back
- Velcro® panel on back for ID patches
- 2 large self draining pockets provide ample storage options
- Durable harness with 2" webbing
- Quick release belt
- 500 denier, Cordura® outer shell
- Over 62 sq. in. of SOLAS™ tape

BL462 Universal Swift Water Rescue Vest $268.95

ICE COMMANDER™ RESCUE SUIT

The Mustang Ice Commander™ is the suit of choice for search and rescue teams, fire departments, and ice rescue professionals. The flotation and insulation performance of a snap in buoyancy liner allows users to immerse themselves for long periods of time in icy cold water and maintain mental and physical capabilities.

- Water-tight hood and face seal
- Integrated gloves and attached boots
- SOLAS™ reflective tape and Velcro® patch for light attachment
- Heavy duty, full-length, water-tight zipper
- Waterproof and durable welded nylon outer shell
- High performance urethane-coated nylon exterior
- Integral self-adjusting safety harness
- Ergonomic ice awl pockets - secured with Velcro® (ice awls not included)
- Reinforced knees padded with 2.5 mm neoprene
- Removable inner buoyancy liner - constructed of closed-cell AirSoft™
- Reinforced seat and elbows

BL315 Ice Commander™ Suit (Universal Adult) $1,139.95

UNIVERSAL HI-VIZ YELLOW ICE RESCUE SUIT

Rescue professionals need gear that allows them to respond safely and quickly to emergency situations. The RS-1000 Rescue Suit has been engineered to don quickly for cold water and ice rescue operations. This universal suit features a rugged hi-tenacity nylon shell that is stitched and taped for the ultimate in durability. A snap out, internal laminated nylon/foam liner allows the user to easily slip the suit on and off.

- Shell Material: 400 Denier Nylon Shell
- Construction Method: Seams are stitched and sealed (taped) (not RF welded)
- Harness System: Vertical and horizontal adjustment
- Ice Pick Pockets: Easy access and secure storage of ice picks
- Gloves are supple and felt lined
- Internal suspenders for height adjustment
- Knee and Elbow Patches: Foam padded with rough texture covering for extra grip
- Wear Patches: Reinforced butt, knees and elbows
- Boots: Size 13 for fitting wide range of users
- Adjustment Straps: At thighs and wrist for improved suit control
- Carry Bag: 500D bag is nylon lined for easy discharge of suit (from bag). Includes zippered mesh accessory pocket

BL591 Universal Hi-Viz Yellow Ice Rescue Suit $618.95
COMPACT SAR ASSIST VEST
Easily stows in sea, land and air vehicles. Vacuum sealed for long shelf life. Easily removed from its package and donned like an airline PFD. Orally inflate until the black hook and loop strap pops on the right lobe.

- Reversible and can be folded and stowed after use
- Weighs 1.32 lbs. in its vacuum pack
- Easy to throw and catch
- Vacuum pack floats
- Hi-vis color with reflective patches and ink
- 19 lbs. of buoyancy when inflated

STEARNS SAR MESH PFD VEST
The "Mesh" PFD provides added comfort in warm weather conditions. The soft, lightweight mesh provides a high level of ventilation. Soft Aquafom™ and durable Crosstech® foam provide comfort as well as the flotation. Two large pockets close with hook and loop fastener. Zippered front is backed by three 1 1/2" belts.
USCG Approved Type III.
Color: International Orange.

STEARNS RESCUE VEST
Made with rugged 500 denier Cordura® outer-shell for strength and durability, it has a soft 200 denier nylon interior for comfort with a built in front pocket. The lower front pocket provides room for storage and a quick-release belt with "O" ring for tether use. With fold out side panels, front and back, provide side protection for full range of sizes; panels conveniently fold in for added ventilation.

- Four rugged 1 1/2" front adjustable straps for a secure fit
- Lash tabs on left and right chest and shoulders for fastening a knife and tools
- Minimum 22.5 lbs. of buoyancy

ARM LOC™
The ARM-LOC™ has high visible solas reflective tape, which is the same type as what the Coast Guard uses. The ARM-LOC™ also locks on the victim so there is no need for the victim to hold onto the rope. Plus, you will be able to float the ARM-LOC™ on top of the water. It is a safety tool that can be used ANY time you need to get a GRIP on a victim in distress, on land or in the water. ARM-LOC™ has 75' of 1/8" Sterling floatable line.

INCLUDES:
- 1 ARM-LOC™
- 75' of Sterling Floatable Rescue Line
- 1 Omega non locking carabiner
- 1 Throw bag and carrying case
- 1/8" threaded Cadmium plated CO2 cartridges

**CMC RESCUE ROPE RESCUE TEAM KIT-RIGGING (TRADITIONAL)**

Containing the minimum equipment required to handle most high or low-angle rope rescue responses, this kit includes a main line with mechanical advantage for raising and a descent control device for lowering, a belay line, a litter with a patient-packaging system, and gear for setting up anchors. In addition to this equipment, we recommend each member of the team carry the personal equipment included in our Rescuer Personal Kit.

- 2 - Rope Bags, #2 size
- Truck cache
- Stainless steel rescue litter
- ProSeries Litter Harness
- Etrier with Tie-In
- FastLink™ Pick-Off Strap
- 4 - Adjustable Litter Straps
- 2 - Edge Pad - XL
- Tubular Webbing - 24' (1 x 12')
- Tubular Webbing - 40' (2 x 20')
- Shasta Gear Bag
- Litter Pack
- Litter Insert
- Patient Tie-In System
- Lifesaver Victim Harness
- 2 - CMC Ascenders
- FastLink Anchor Strap - Medium
- Anchor Strap Sleeve - Medium
- Ultra-Pro 4 Edge Protector
- 2 - ProTech Auto-Lock Carabiners
- Rope Rescue Manual
- 2 - CMC Lifeline - 200' of 1/2"
- 2 - Load Release Straps
- Rescue Rack
- 15 - ProSeries® Screw-Lock Carabiners - Brite
- AZ Bound-Loop Prusik - Long
- 8 - AZ Bound-Loop Prusiks - Short
- Aluminum Oval Carabiner
- Anchor Plate
- 5 - PMP Swivel Pulleys

**SKED® BASIC RESCUE SYSTEM**

The original and still the best solution for confined space, high angle or technical rescue, and traditional land based applications. The Sked® stretcher is a revolutionary design which provides outstanding patient protection and security. The Sked® comes equipped for hoisting by helicopter in horizontal position spaces. When the patient is packaged, the stretcher becomes rigid. The durable plastic provides protection for the patient while allowing extrication through the most demanding confined spaces. The stretcher is rolled for storage in a tough Cordura® backpack which is included with the system. The system ships at 19 lbs. and comes complete for most applications. *Available in International Orange. Ship. wt. 19 lbs.*

**CMC RESCUE USAR TASK FORCE KIT**

A great package for a truck or engine company that responds to over-the-side rescues or needs a vertical lift capability for trench or confined space rescues, this kit contains the primary rope rescue equipment on most of the FEMA and USA requirements lists.

- 2 - Rope Bags, #2 size
- Truck Cache
- 2 - Response Harness
- Litter Insert
- Patient tie-in system
- 2 - CMC Ascender
- 4 - Adjustable Litter Strap
- 2 - FastLink Anchor Strap - Medium
- Ultra-Pro 4 Edge Protector
- Tubular Webbing - 30' (6x5')

**RESCUE TOOLS**

**AS441** Sked-Evac™ Rescue/Entry Tripod $1,610.95  
**AS442** Sked-Evac™ Tripod Carrying Case $107.95

The Sked-Evac™ Tripod extends to ten feet high at the three anchors which are available to clip into. Each of the anchors is anodized red for easy identification, and all are equally well centered to handle a load. The anchors, header, and legs are interconnected with 1/2” stainless steel bolts to provide maximum strength. When at full extension, this tripod allows you to bring the patient in a stretcher completely out of the hole. It is rated to handle an NFPA rescue load. Included with the tripod is a chain which passes through the feet to provide greater strength and stability. The legs are adjustable in 5” increments, and Skedco provides safe working load data for each tripod height on each tripod. Brackets are available for mounting most popular winches. *Ship. wt. 74 lbs.*

**BL318** HotStick Voltage Detector $358.95

The HotStick provides warning of exposed high voltage AC from a safe distance without the need to contact the surface carrying the current. It gives early audible (“beeping”) and visual (flashing LED) warnings, and beeps and flashes more rapidly the closer it comes to the voltage. Comes with a built-in self test so there is no doubt about it functioning properly.

**INCLUDES:**  
- CSI-2100 command module  
- CSI-2131 power talk box  
- Cable splitter - Double w/mic mute switch  
- Operator headset single-side, 32”  
- 4 - Rescue facemask com set with universal speaker  
- 4 - Speaker harnesses  
- 1’ operator cable w/mic mute switch  
- 20’ operator cable w/mic mute switch  
- 50’ cable with connectors  
- 4 - 100’ cable with connectors with strain relief/snap hook  
- Cable coiler  
- Cable bag for 100’-300’ of cable  
- 2000 carrying case

**CONCLUDES:**  
- CONFIRM power shutdown, lockout, tag out, disconnects  
- FIND hidden sources of dangerous AC from a safe distance  
- DETECT power line back feeds from motor generators and energized pools of water  
- ENSURE a safe environment for your vehicular rescue  
- PROTECT the life of your first responders  
- CHECK IT trust is good – checking is better

**AZ400** Rescue Kit 1 with Power Talk Box $9,566.95

The CON-Space Rescue Kit 1 with Power Talk Box is configured for a team of five rescuers consisting of two primary rescuers, two standby rescuers and a hole watch/team leader, for entries of 100’ (maximum distance 1500’). They system can be configured for up to fourteen people using available modules and accessories. The command module is battery-powered, compact and lightweight making it completely portable. Three 1.5v alkaline “C” cells provide 400 hr. life on standby and all electronics are fuse protected. A low battery LED indicator gives 12 hr. warning battery replacement. System and accessories are waterproof. Molded fiberglass enclosures, knobs, and cables are impervious to a wide range of chemicals.

**HOTSTICK VOLTAGE DETECTOR**

**HIGH SENSITIVITY DETECTOR FOR EMERGENCY RESPONDERS**

The CON-Space Rescue Kit 1 with Power Talk Box is configured for a team of five rescuers consisting of two primary rescuers, two standby rescuers and a hole watch/team leader, for entries of 100’ (maximum distance 1500’). They system can be configured for up to fourteen people using available modules and accessories. The command module is battery-powered, compact and lightweight making it completely portable. Three 1.5v alkaline “C” cells provide 400 hr. life on standby and all electronics are fuse protected. A low battery LED indicator gives 12 hr. warning battery replacement. COMPLIMENT YOUR EXISTING TRAINING EFFORTS WITH IMMERSIVE LEARNING OPPORTUNITIES USING VIRTUAL REALITY.

**FLAIM TRAINER**

**PACKAGE INCLUDES:**
- SCBA WITH COMPUTER AND MASK
- PERSONAL HEAT VEST WITH HEAT GENERATION COMPONENTS
- HOSE-LINE SYSTEM
- NOZZLE
- VIVE VR HEADSET

**HEAT VEST**
Heated vest adds realism with heat generation.

**REAL NOZZLE**
Patented haptic force feedback system mimics a fire nozzle reaction.

The FLAIM Trainer is a virtual reality training simulator. The FLAIM Trainer combines VR technology with traditional first responder equipment; patented haptic feedback system, breathing apparatus and heated personal protective equipment. The unique product offers first responders safe, repeatable, hands-on training experience in immersive and realistic environments.

**SCENARIOS INCLUDES:**
- RESIDENTIAL FIRES
- SUBURBAN FIRES
- PETROL/GAS STATION
- RURAL
- MINING
- DEFENSE
- SPECIALIZED

INTEGRATE THE FLAIM TRAINER INTO EXISTING TRAINING PROGRAMS.

This helps bridge the gap between classroom learning, in field training and real-life incidents. The FLAIM Trainer will never replace real training and only enable fire fighters the opportunity to obtain ongoing training repetitions within safe training environments.

- Practice Fire Fighter Operations in a risk-free virtual environment
- Use virtual reality to overcome difficulties of training that include unsafe conditions, expensive costs and environmental restraints
- Offers Fire Fighter trainees a chance to practice and be assessed on their ability to correctly manage different tasks
- Ensure your actions and decisions are correct and effectively making the proper decisions and operating procedures

**FLAIM Trainer**

$45,000
SAFE AND COMPLIANT
EXTINGUISHER TRAINING

UTILIZE VR TECHNOLOGY TO
EXTINGUISH A VIRTUAL FIRE USING
THE PASS TECHNIQUE.

FLAIM EXTINGUISHER
TRAINING KIT

EMPOWERING FIRST RESPONDERS AND COMMUNITY
Educates users on how to handle a fire extinguisher during a variety of common household and business fires. Encourage trainees to extinguish the fire themselves within a virtual setting. No accelerants, fumes or cleanups. FLAIM Trainer is fit for all users.

INCLUDES:
- QUANTITY 1: FLAIM EXTINGUISHER TRAINING SYSTEM
- MORE THAN 20 PRE-LOADED SCENES
- VIVE FOCUS HEADSET AND CONTROLLER MOUNTABLE ON ANY FIRE EXTINGUISHER
- TRANSPORT CASE, CORDS AND ACCESSORIES
- EMPTY EXTINGUISHER

Realistic training scenarios arm firefighters with the skills and confidence they need to respond effectively and efficiently during real-life incidents. Live field exercises provide hands-on training, but they are often costly, time consuming and can be hazardous. Training simulation provides an ideal alternative, offering organizations the ability to get more from their current training programs.

A REALISTIC EXPERIENCE IN A VIRTUAL WORLD
No more need for archaic training methods. FLAIM Extinguisher provides a portable and immersive experience. VR training is as simple as plug-and-play and working in any room with ample space.

SCENARIOS INCLUDED:
- COPY MACHINE IN OFFICE ON FIRE
- SEAT IN A TRAIN
- TIRE OF A TRUCK
- PALLET INSIDE A WAREHOUSE
- KITCHEN STOVE TOP ON FIRE

FLAIM Extinguisher Training Kit $7,000

New
IMMERSIVE FIREFIGHTER TRAINING

RiVR LINK - CLASSROOM IN A BOX
FULL IMMERSION COMBINED WITH INSTRUCTOR LED TRAINING ALLOWS FOR BLENDED LEARNING WITH LASTING RESULTS

ENGAGED LEARNING
The instructor can monitor and interact with the session from the 2D tablet and is able to give central feedback by pausing the 360° video and focusing all students’ attention to key learning points. Using a virtual marker (VR Chalk), the instructor can draw directly onto the video, visible to everyone, and, using wireless communications, can speak directly into the students’ headsets.

INCLUDES:
- 5-15 virtual reality headsets per kit
- Tablet, wireless router, headsets, Pelican case and cords
- Software that links the headsets, router and tablet
- Ability to play, fast forward, rewind and make chalk dictations on the video
- Management of content library

RiVR INVESTIGATE - INVESTIGATION TRAINING
PHOTOREALISTIC CONTENT TO HELP RETRAIN ARSON INVESTIGATORS ON SKILLS TRAINING AND SCENE WORK

FUNCTIONALITY
Students can fully examine a scene, take photographs, record on a Dictaphone and examine evidence prior to making professional conclusions. All of this activity is recorded in real time allowing playback for professional discussion at any point in the future. Development of this global training library allows fire services around the world to share their different training techniques.

PHOTO REALISM
The photorealistic scenarios in RiVR Investigate offer a near-to-life immersive presence in fire and crime scenes. Using advanced 3D modelling techniques like photogrammetry, the scene is turned into an interactive learning environment. RiVR improves the realism of investigation training and increases the number of scenarios trainees are confronted with during training.

INCLUDES:
- Subscription to global library of arson investigation scenarios consisting of different causes of fire
- HTC Vive kit, gaming laptop and accessories to operate
The world’s most innovative and effective hazmat training system is now better than ever! With intuitive and scalable new features for growing teams, now is a great time to enhance your hazmat training with the HazSim Pro 2.0

HazSim GO
- Convertible laptop tablet with full keyboard and case
- Group meters (if using more than one handheld) can be synced or controlled separately
- Ability to create custom meters

HAZSIM INSTRUCTOR SERVER:
- Instructor can send questions in real time
- Students answer questions via HazSim handheld
- Use HazSim’s preloaded questions or create your own
- Customizable alarms for your team’s specific needs

INTERACTIVE LEARNING:
- Multi-gas - 4, 5, or 6 gas meters
- Radiation - alpha, beta, gamma
- WMD meter (bar graph)

HAZSIM HANDHELD METER:
- Ruggedized housing - 13.2”x8.6”x.7”, 3.6 lbs.
- Super responsive touch screen and large external buttons
- Loud audible alarms
- Confined space probe with tubing included

METERS:
- Pelican Case for safe transport
- Standard one year warranty, with option to extend

PLUS:
- Ruggedized housing - 13.2”x8.6”x.7”, 3.6 lbs.
- Super responsive touch screen and large external buttons
- Loud audible alarms
- Confined space probe with tubing included

INCLUDED
- UNLIMITED METERS AND VARIATIONS INCLUDING CHEMICAL, RADIATION AND WMD
- EXTENDED RANGE LAN, UP TO 1000’ WITH OPTION TO EXTEND
- SCALABLE PLATFORM FOR ADDITIONAL HAZSIM METERS
- LARGER TOUCH SCREEN AND LONGER BATTERY LIFE
- EXTERNAL BUTTONS ALLOW QUESTIONS TO BE ANSWERED EASILY WITH GLOVED HANDS
- TAG FUNCTION ALLOWS INSTRUCTORS TO MAKE NOTES IN EVOLUTION

DUALIE® 3AA FLASHLIGHT
INTRINSICALLY SAFE, MULTI-FUNCTION FLASHLIGHT

The Dualie® 3AA Flashlight lets you see what’s ahead and around you. It produces a focused spot light and soft flood light to illuminate your work area and help to avoid slips, trips and falls.

- Three Output Modes: Spot, flood, both (spot and flood simultaneously)
- Spot: 140 lumens; 7,300 candela; 171m beam distance; runs 18 hours
- Flood: 140 lumens; 80 candela; 18m beam distance; runs 18 hours
- Simultaneous Spot and Flood: 245 lumens; runs 9 hours
- One-handed operation of all lighting modes
- Ergonomically designed for maximum hand comfort
- IPX7 waterproof to 1m for 30 minutes; 2m impact resistance tested
- 7”; 6.8 oz. with AA alkaline batteries (included); 5.9 oz. (167g) with AA lithium batteries
- Limited Lifetime Warranty
- Class I, II, Division 1, Groups A, B, C, D, E, F, G; Class III; CL I, ZN 0, IIC; Exia; Temperature Code: T4

3AA PROPOLYMER® HAZ-LO® HELMET LIGHTING KIT

Universal lighting kit fits both traditional and modern style firefighting helmets. It is a low-profile, lightweight, economical alternative for securely mounting a flashlight to almost any style fire helmet.

INCLUDES:
- 3AA ProPolymer® HAZ-LO® with alkaline batteries
- Streamlight helmet mount and rubber helmet strap

FEATURES:
- 120 lumens; runs 6.5 hours
- High-performance, anti-static, thermoplastic material resistant to chemicals and solvents
- O-ring sealed, dust-proof, water-tight enclosure
- IP67 rated for dust-tight and waterproof to 1 meter for 30 minutes
- IPX4 for water spray
- 3 meter impact resistance tested
- Class I, Division 1, Groups A, B, C, D; Class II, Division 1, Group E, F, G; Class III; Exia; Temperature Code T4
- For use in places with an explosive gas atmosphere (other than mines susceptible to firedamp) that is present continually or for longer periods
FOXFURY COMMAND 20
ULTRA-SLIM 20 LED FIRE HELMET LIGHT
Fits ALL fire helmets with goggles, Bourke eye shields, EZ-Flips, and Defender visors, and external face shields. Meets NFPA fire resistant requirements (500°F for 30 minutes). Ship. wt. 1 lb.

VANTAGE® HELMET-MOUNTED LIGHT
COMPACT, POWERFUL, SHOCK-PROOF & VIRTUALLY INDESTRUCTIBLE

- Lightweight, compact, low profile design easily attaches above or below full brim on fire helmets
- Anodized aircraft aluminum, high impact, chemically resistant engineering polymer LED housing
- Fits both traditional and modern style helmets & hard hats
- Solid-state current regulation for consistent illumination
- IPX7 rated, waterproof up to 1 meter for 30 minutes
- 115 lumens; 167 meter beam distance; runs 6 hours
- Meets NFPA 1971-8.6 (2013) requirements
- Length: 3.26”
- Ship. wt. 1 lb.

BG518 Vantage® Helmet-Mounted Tactical Light $125.95

LEDS

Uses two 3V CR123A lithium batteries (included)
The Tactical Fire Light is rated at 180 Lumens and has a tight long-throw beam that is distance-rated at 190 meters. The entire system is IP-X7 waterproof and is drop rated at 2 meters. The mount can be attached to either side of the helmet to provide hands-free illumination for the wearer. Additionally, the user can set the angle of the mount through 140 degrees of adjustment to provide clearance around face shields, goggles or other helmet-mounted equipment.

**BN166  Tactical Fire Light with Multi-Angle Helmet Mount**

$41.95

**VANTAGE® 180X HELMET/RIGHT-ANGLE FLASHLIGHT**

The Streamlight Vantage® 180X Helmet/Right-Angle Flashlight gives you the ultimate versatility in a firefighter’s light and goes instantly from a helmet light to a handheld light to a right-angle light. So wear it, hold it, clip it, or even hang it!

- 250 lumens (high)
- Helmet/right-angle/handheld light
- 180° rotating head (for right-angle use)
- Rear LED taillight changes from blue to white

**BN500  Streamlight Vantage® 180X Helmet/Right-Angle Flashlight**

$83.95

**HELMET-MOUNTED MULTI-FUNCTION DUAL-LIGHT™ FLASHLIGHT**

Outshines the competition with its powerful 220 lumen tightly-focused Flashlight and a beam distance rating of 600’. Choose from two additional lower lumen settings at 100 or 30 lumens. User-selectable brightness Floodlight with a soft unfocused light pattern. Brightness and choice of 100 or 50 lumens for typical use, as well as a “Survival” mode at 15 lumens for emergency situations. Additionally, in Dual-Light mode the user can light up the distance and the ground at the same time. Also features a green, rear facing LED light for easy identification. Fits any fire helmet (or side-brim hard hat) thanks to the multi-angle adjustment feature. IP-X7 rated waterproof and meets the requirement for NFPA-1971-8.6 (2013). Powered by 2 CR-123 batteries (included.)

**BN171  Helmet-Mounted Multi-Function Dual-Light™ Flashlight**

$86.95

**GUTS HM1 HELMET MOUNTING SYSTEM**

- Any shape AA or AAA flashlight
- Bullet camera
- Rapid access - one tug release with the QuickStrap™
- Small tool or window punch
- Mount to front or side brim
- Made from NFPA rated materials

**BL887  GUTS HM1 Helmet Mounting System**

$33.95
**KNUCKLEHEAD® SPOT LIGHT**
VERSATILE & DESIGNED TO PUT LIGHT WHERE YOU NEED IT

- Shockproof LED technology
- Durable spring-loaded clip for easy attachment to turnout gear
- Features a 210° articulating head

**INTERRANT™ DUAL-LIGHT™ ANGLE LIGHT - 205 LUMENS**

- cULus, ATEX and IECEx listed Intrinsically Safe
- Flashlight/Floodlight/Dual-Light
- Flashlight pivots 90° with 45° downward angled floodlight

**SURVIVOR® FLASHLIGHT**
SAFETY-RATED FIREFIGHTERS RIGHT ANGLE LIGHT

- Available in rechargeable and alkaline models
- Features LED technology with four lighting modes

**INTEGRITAS™ INTRINSICALLY SAFE RECHARGEABLE LANTERN**

- 1,750 Lumens on High, 600 Lumens on Low
- Class 1, Division II intrinsically safe, meets NFPA-1971-8.6 (2013) requirements
- Dustproof/Waterproof
- 180° Downward pivoting head
- Rear green safety lights
- Rechargeable Li-ion battery pack with locking snap-in charger
- Extended run time to 11.5 hours
- AC and DC power supply
- Removable shoulder strap

**NEW**

BD203 Survivor® Rechargeable with AC/DC $138.95
BD204 Survivor® Rechargeable with AC $159.95
BD205 Survivor® Rechargeable with DC $159.95
BD206 Survivor® (Alkaline Model) - Orange $65.95
BD206 Survivor® (Alkaline Model) - Yellow $65.95

**BN719 INTEGRITAS™ Intrinsicly Safe Dual-Light™ Angle Light - Rechargeable** $122.95

**NEW**

BP045 INTEGRITAS™ Rechargeable Lantern $215.95
VULCAN® 180 LED LANTERN

The lightest portable lantern of its kind, the Vulcan 180 is designed to burn brighter and run longer making it an essential firefighting tool. This rechargeable, waterproof lantern has a 180 degree tilting head which allows you to direct the light where you need it. Three ultra-bright white LEDs bring you extreme brightness along with two blue taillight LEDs for visibility in thick smoke.

- 1,200 lumens; runs 4.75 hours; 548m beam distance
- 180° articulating head aims the beam where you need it
- Flat base area allows light to stand on its own for scene lighting
- Two ultra-bright blue taillight LEDs make certain you can be seen even in thick smoke
- High-impact, super-tough nylon body; head constructed from high grade aluminum encased in super-tough nylon
- Taillight LEDs can be programmed on or off

BN672  Vulcan® 180 LED Lantern Standard System  $242.95
BN673  Vulcan® 180 LED Lantern Vehicle Mount System  $228.95

FIRE VULCAN® LANTERNS

AZ116 FEATURES:
- Ultra-Bright Blue Taillight LEDs Offer 2 Modes: Steady and blinking
- Easy-to-operate toggle switch
- High-visibility orange
- Compact and lightweight
- Extremely Powerful: 80,000 cp, 145 lumens
- Rugged, high-impact thermoplastic housing
- Waterproof
- Fits existing Vulcan® chargers
- Ship. wt. 4 lbs.

BG522 FEATURES:
- Up to 80,000 candela peak central intensity; 150 lumens
- 2 lightweight lithium ion nanotechnology cells: recharges in 5 hrs.
- Charger base meets requirements of NFPA 1901
- IPX7 rated design - waterproof to 1 meter for 30 minutes
- Deep-dish parabolic reflector produces a tight beam with optimum peripheral illumination
- Rated product, Class I Division 2 Groups A, B, C, D, Temperature T4A; Class II Division 2 Groups F, G, Class III, Temperature T-54˚C (T6)
- Run-Times:
  - Steady high LED & taillights: Up to 3 hrs to the 10% output level
  - Low: Up to 6 hrs
- C4 LED, impervious to shock with a 50,000 hr lifetime
- 8 programmable functions
- About 45% lighter than the halogen Fire Vulcan®
- Ship. wt. 3 lbs.
E-FLOOD® LED LANTERNS

The E-Flood® and E-Spot® models are industrial-duty, rechargeable, portable lanterns featuring power LED technology for high brightness, long runtime and high reliability. The E-Flood® models use 6 LEDs and wide pattern reflectors to produce a uniform flood pattern.

- Optimized electronics provide regulated intensity
- 2 Levels of Lighting:
  - High: 4,000 candela, 615 lumens, 8 hrs. run-time
  - Low: 2,150 candela, 330 lumens, 18 hrs. run-time
- Zero-maintenance, 6V, 12 amp-hr sealed lead acid battery is rechargeable up to 500 times
- High impact ABS thermoplastic housing
- Rubberized impact bumper, lens ring and cushioned-grip handle
- Fits existing LiteBox® chargers
- IPX4 Rated for weather resistant operation

E-SPOT® LED LANTERNS

The E-Spot® model is an industrial-duty, rechargeable, portable lanterns featuring power LED technology for high brightness, long runtime and high reliability. Mounting rack meets NFPA requirements mounted in any position.

- 2 user programmable ultra-bright blue tail-light LED’s
- 2 Levels of Lighting:
  - High: 55,000 candela peak beam intensity, 540 lumens, up to 7 hrs.
  - Low: 32,000 candela peak beam intensity, 330 lumens, up to 15 hrs.
- Shoulder strap

PORTABLE SCENE LIGHT
RECHARGEABLE LANTERN

Rapidly deployed and easily stowed, the Portable Scene Light brings 5,300 lumens to your work area. With its narrow footprint and 72” extension pole, this light goes almost anywhere, from wide open places to tight, confined spaces.

• Light Source: 6 LEDs and wide pattern reflectors produce a uniform flood pattern with two selectable beam widths and three light output intensities
• Battery: Zero-maintenance 12V, 7.2Ah sealed lead acid batteries are rechargeable up to 500 times
• 10 hour charge to 90% battery capacity
• AC charger included for continued use
• Packs to a compact size (22”) for storage
• 90° swivel for optimum peripheral illumination
• Dimensions: 22”Lx6.5”Wx11”H
• Weight: 25 lbs. (11.3 kg) with batteries

BL661 Portable Scene Light Rechargeable Lantern $750.95

NOMAD 360 RECHARGEABLE SCENE LIGHT
PORTABLE, CORDLESS & DEPLOYS QUICKLY

• 7000 lumens
• 3 Modes: Low, medium and high
• Use as 360° scene light, 120° area light or 12° spotlight
• Telescopes up to 99°
• Rechargeable Li-ion battery system
• Run-Time: 3-24 hours
• Charge Time: 7 hours
• Battery level indicator
• AC or DC charge/drive
• Weight: 23 lbs.
• Shoulder strap for easy carry
• Waterproof and fire scene ready

BL733 Nomad 360 Rechargeable Scene Light $2,505.95
9490 REMOTE AREA LIGHTING SYSTEM
- Maintenance free LED array with 50,000 hour life expectancy
- Intelligent control (allows for various light output levels)
- Full time battery level indication with low level flashing indicator
- Quick release / hot swappable battery design with 12 volt power supply
- Deployable 6' mast with 340° rotation
- Multiple deployment positions
- Convenient shoulder strap
- Switch Type: Silicone rubber keypad
- Lumens: Up to 6,000
- Closed Dimensions: 6.5”x20”x11.25”
- Run-Time: Low: 24 hrs., Medium: 12 hrs., High: 3.5 hrs.
- Weight: 32 lbs.

REMOTE AREA LIGHTING SYSTEM
Using solid-state mounted LEDs coupled with a thermally efficient light engine and the Pelican Protector™ Case. The Remote Area Lighting Systems (RALS) gives the user the ultimate maintenance free portable floodlight station to get the job done efficiently, safely and on time. The RALS houses two of it’s light heads and it’s multi-stage charger for that total self-contained convenience. It is also equipped with a telescopic handle and rugged wheels for ease of transport. Includes a convenient low battery warning system and waterproof activation switch.
- High Flux LED, 50,000 hr. life
- Lumen Value: 3,000 (low) and 6,000 (high)
- 2 lamp heads, 6 LEDs per head
- 90° beam spread
- 2 brightness settings
- 12v rechargeable battery, 9 hr. charge time
- Battery Burn Time: 14 hrs. (low), 7 hrs. (high) from full discharge
- 500 cycle battery life
- Low battery warning
- Head Dimensions: 6.5”x7.87”Wx2.56”D
- Cord Length: 13.78”
- Weight: 51 lbs.

Handheld Remote Area Lighting System

SPECIFY COLOR: Black or Yellow
BL827 9490 Remote Area Lighting System $983.95
BK403 Remote Area Lighting System $1,992.95

Handheld Remote Area Lighting System
- Polycarbonate lens is lightweight and impact-resistant
- Maintenance-free LED array with life expectancy of 50,000 hrs.
- Fully extendable mast with 360° rotating head
- Waterproof rubber activation switch
- Mast extension lock
- Variable tension angle lets light shine at any angle
- Metal battery chassis distributes load to handle
- Durable base soaks up impact
- Up to 3,000 lumens of tested LED light output
- Silent, energy efficient, rechargeable battery
- Retractable handle and rugged wheels for easy mobility
- Low heat
- Ship. wt. 25 lbs.

BH018 Handheld Remote Area Lighting System $885.95
**BATTERY-POWERED BLOWER**

- **180˚ Tilt:** Provides the largest tilt range among battery fans, allowing airflow to be directed virtually anywhere.
- **Compact, Roll-Cage Frame:** Features one of the most compact, lightweight designs among battery PPVs with its aluminum frame design.
- **Polymer Blade:** Minimizes weight; Super Vac’s single-piece cast aluminum blade is available by request.
- **Precision-Spun Steel Shroud with StreamShaper Guard:** Shroud provides durability with max airflow, while the StreamShaper guard allows for flexible setback; Air Cone Guard available by request.

**16" MILWAUKEE POWERED**

**VALOR VENTILATION FANS**

The Valor Series is engineered to take on the toughest ventilation challenges. Featuring a tough, tubular aluminum frame, rubber never-flat tires, and a 7-position tilt system with a quick step pad. Ducting attaches easily to Valor Series Fans, allowing for quick deployment. The seven point aluminum airfoil blade is manufactured to withstand the heat of structure fires and precision engineered to last a lifetime.

</table>
The most popular smoke ejector in the fire service, the Super Vac Electric Smoke Ejector features a patented 4-tip recurved aluminum propeller, which produces a greater intake of air into the vacuum side of the fan, eliminating turbulence at the tips. All Super Vac's are designed to easily accept spiral duct with adapters on the output side for positive ventilation or the input side for negative ventilation.

- Patented 4-Tip Recurved Aluminum Blade: Creates a tight spiral of air to eject smoke and fumes away from the building; aluminum holds up better than plastic in high heat
- Precision-Balanced Blade: Maximizes output
- Heavy-Duty Rubber Feet: Adds friction to keep fan in place
- 4 Carry Handles: Makes transportation easy with one or two people
- Front and Rear Guards: Prevents accidental contact with key components

**16" BLADE SMOKE EJECTOR**
- Explosion Proof Motor: J594 & J594A
- Overall Dimensions: 19'/4"x18'/4"x13" 
- AC948 has explosion-proof motor

DIRECT DRIVE GAS SMOKE EJECTOR

Among the smallest gas-powered fans in the industry, the 16" and 18" fits into tight compartments and yet pack a cfm output that matches larger electrical smoke ejectors thanks to the powerful Honda GX engine. Totally enclosed housing, which protects the fan’s moving parts, gives crews the ability to stack multiple units on top of each other. **GX120: 16" Dimensions:** 19.5"x19"x15.5". **Weight:** 55 lbs. / 58 lbs. for GP167S. 18": 23.5"x23"x16.5". **Weight:** 76 lbs. Made in USA. **Ship. wt.** 55 lbs.

- **Single-Piece Cast Aluminum Blade:** Holds up better than plastic in high heat
- **Precision-Balanced Blade:** Maximizes output
- **Front and Rear Guards:** Prevents accidental contact with key components
- **Heavy-Duty Rubber Feet:** Adds friction to keep fan in place
- **4 Carry Handles:** Makes transportation easy with one or two people

SPECIAL OPERATIONS BLOWERS

The Tempest Special Operations Power Blower is the latest addition to the positive pressure ventilation and attack arsenal. The fan’s unique grille and shroud design create a Laminar Air Flow (LAF) which uses an increased setback (9’ to 11’) and is highly effective in unique fireground scenarios such as multi-story stairwells, highrise structures, complex structures and commercial structures > 5,000 ft. The SP blower also showcases a number of new features like wheels now located in the back and a wider footprint for increased stability.

DIRECT-DRIVE GAS POWERED BLOWERS

Tempest Direct-Drive Gas Power Blowers were some of the first units designed and used on the fire ground. With a level a durability and performance backed only by the Tempest name, these units offer the perfect balance in features, performance, cost and versatility.

- **AMCA Certified Performance**
- **Reliable Honda GX or Briggs & Stratton engine**
- **Rugged construction with stands use and abuse**
- **Tempest exclusive features makes use easy and economical**
SINGLE & VARIABLE SPEED ELECTRIC BLOWERS

The most comprehensive line of Electric Powered Blowers for PPV and NPV available today. Built on the same chassis that has been so successful for our Tempest Gasoline Powered Blowers, Electric Powered Blowers are powerful, durable and versatile while maintaining the ability to operate on a standard household current.

- No exhaust emissions, which can collect Carbon Monoxide inside the structure that you are trying to ventilate.
- Never requires "oil change" or has gas go bad while sitting in storage.
- Designed to start and run off a standard residential 120v 20amp receptacle without tripping the circuit breaker.
- Power supply is readily available at most sites.

ELECTRIC SMOKE EJECTOR

Used by fire departments around the globe for more than fifty years, traditional smoke ejectors have proven to be the most versatile tool for smoke ventilation. Tempest smoke ejectors have all the standard features including the AirFlex Composite Impeller and other designs to provide years of dependable service, with a durable steel housing, rigid frame and optional duct adapter that easily attaches to a blower’s inlet or outlet. Dimensions: 18.75"x14.25"x19.5", 16" blade.

GAS SMOKE EJECTOR

The Tempest GBS-16-HP is a popular unit for all forms of confined space ventilation, a design that’s been used for decades. It’s light and small enough to ventilate tight areas yet still built to Tempest’s high standard of long lasting durability and reliability. The GBS’s 3.5 (Honda GX 120) and 4.8 HP (Honda GX 160) engine options deliver massive performance out of a compact footprint. Suck the smoke/fumes/particulates out from almost any location, or turn it around and blow them out. Dimensions: 3.5 HP: 18.75"x14.00"x19.5" | 4.8 HP: 21"x17"x21"

For international customers only.
BATTERY POWERED FANS AND ACCESSORIES

TEMPEST VS-1/VS-1.2 BATTERY BLOWERS
The Tempest Technology 18" Battery Powered PPV Blower features a 70 minute, interchangeable battery allowing this blower to be used on every call, not “one and done” like the others.

- 70 minute operating time at full speed
- Removable lithium-ion battery rated IP65 & quick charges in 4 hours
- Lightweight design, welded tubular aluminum frame. Only 52 lbs. with battery
- AMCA certified air flow 10,887 cfm
- Variable speed motor rated at IP65
- Thin-Vane air straightener grill and composite impeller
- LED flow-path lighting positioned low for visibility below the smoke
- Tapered lightweight steel shroud maximizes airflow performance
- Ergonomic patent pending frame design with transverse wheels
- Small footprint 22.88"Wx26"Hx11"D (half the size of a gas blower) Dynamic Battery Control System that protects the battery during charge/discharge as well as monitors all cells for optimum performance and diagnostics

BP207
- Folding handle
- Weight: 53 lbs.

BN584  18" Battery Powered Tempest Blower $4,639.95
BP207  18" Battery Powered Tempest Blower w/Folding Handle $4,918.95

BATFAN II
PORTABLE, LIGHTWEIGHT AND THE MOST VERSATILE POWERED BATTERY FAN

FEATURES:
- Totally Self-Contained: No power socket or need for a generator
- Compact and Mobile: Fold, tow, and portable by one person
- Quicker to Set-Up: Starts off instantly
- Dimensions: 21.25"Lx20.87"Hx10.6"D
- Engine: 600w with variable speed drive-IP66
- Adjustable Tilt: From +65º to -90º with locking system
- NiMH Battery: Low maintenance: 1 full recharge every 6 weeks, no restrictions on air transport, battery charge indicator

BP034
- Weight: 51.8 lbs.
- Run Time at Full Speed: 20 min
- Charging Time: 100% in 4 hrs.

BP035
- Weight: 58.4 lbs.
- Run Time at Full Speed: 45 min.
- Charging Time: 100% in 7 hrs./20 min.

BP034  Batfan II 20 $4,093.95
BP035  Batfan II 45 $4,474.95

FLEXIBLE DUCT & ADAPTERS
These hose sections are tough, lightweight, extremely flexible and crush-resistant. They attach easily to the Smoke Ejector with a quick-release attachment on the adapter ring. They’re ideal for moving large quantities of air for ventilation, air conditioning, and fume and smoke control in hard-to-reach places. Hoses are priced with fan to hose adapter. Call for prices on longer hose extensions. Ship. wt. 1 lb./per foot.

AC937D  16"x20'  $1,002.95
AC937F  20"x20'  $1,284.95
AC937H  24"x20'  $1,582.95

SMOKE EJECTOR HOLDER
Made from high-tensile aluminum alloy for maximum strength. Locking action permits adequate pressure to secure the smoke ejector against door jams or window frames. Rubber cushion and pads remain pliable down to -40º F. Includes set of hanger hooks, extras available. Adjusts from 28° to 40°. Ship. wt. 8 lbs.

P780  Smoke Ejector Holder $100.95
R720  Hanger Hooks $14.95/Set of 2
HALOTRON™ I CLEAN AGENT FOR A, B & C FIRES

Halotron™ I clean fire extinguishing agent discharges as a rapidly evaporating liquid, which is non-conductive, non-corrosive, and leaves behind no residue. Determined to be the most environmentally beneficial halocarbon agent on the market that meets wide performance standards. The primary raw material in the agent is HCFC-123, which has an outstanding profile of near-zero ozone depleting potential (0.0098, CFC-11=1.0) and a low global warming potential (77, 100 yr. CO2 time horizon). Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001 / ISO-14001 certified. UL listed.

- 6-year manufacturer’s warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction
- Temperature range -40°F to 120°F

ABC DRY CHEMICAL EXTINGUISHERS

ABC or Multi-Purpose extinguishers utilize a specially fluidized and siliconized mono ammonium phosphate dry chemical. It chemically insulates Class A fires by melting at approximately 350°F and coats surface to which it is applied. It smothers and breaks the chain reaction of Class B fires and will not conduct electricity back to the operator. Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001 / ISO-14001 certified. UL listed.

- 6-year manufacturer’s warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction
- Temperature range -65°F to 120°F
- Easy and economical to maintain
- Large loop pull pin
- Bar coded and bi-lingual labels

PURPLE K B:C POTASSIUM BICARBONATE EXTINGUISHERS

Purple K extinguishers contain specially fluidized and siliconized potassium bicarbonate dry chemical which is particularly effective on Class B flammable liquids and pressurized gases. It is electrically non-conductive. Purple K has been the choice of oil, gas, chemical and utilities industries as the preferred fire fighting agent. Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001 / ISO-14001 certified. UL listed.

PEERLESS PUMP TYPE WATER EXTINGUISHERS

Rated 2A, Peerless Pump Type Water Extinguishers can be filled while in use and are simple-to-operate. You can test it without loss of water by directing the stream back into the tank. The operator controls the discharge. Moving parts made of corrosion-resistant brass and copper. Immediate operation; no priming needed.

CARBON DIOXIDE EXTINGUISHERS

Carbon dioxide is discharged as a white cloud of “snow” which smothers a fire by eliminating oxygen. It is effective for Class B flammable liquids and is electrically non-conductive. Carbon Dioxide is a clean, non-contaminating, odorless gas. Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ISO-14001 certified. UL listed.

- 5-year manufacturer’s warranty
- Stored pressure design
- Polished stainless steel cylinders
- All metal valve construction
- Temperature range -45°F to 120°F
- Exclusive crevice-free, butt-welded cylinders
- Maximum visibility during discharge
- Large loop stainless steel pull pin
- Bar coded and bi-lingual labels

UNIVERSAL VEHICLE CHEMICAL EXTINGUISHER BRACKETS

Universal brackets have a heavy-duty steel back with weather and scratch-resistant polyurethane enamel paint finish. Large rubber grommets on bracket back cushion cylinder while strong securing cords keep the cylinder in place. Securing cords easily attach for either left or right hand closings and are impervious to extreme temperatures. There are no moving metal parts to break, loosen or wear out and the bracket is adjustable to several cylinder sizes. 

Ship. wt. 3 lbs.

| AF869 | Fits 2 1/2 and 5 lb. Dry Chemical Extinguishers | $32.95 |
| AF870 | Fits 6 and 10 lb. Dry Chemical Extinguishers, 5 lb. CO₂ Extinguishers, 11 and 15.5 lb. Halotron 1 Extinguishers | $35.95 |
| AF871 | Fits 20 lb. Dry Chemical Extinguisher, 2 1/2 gal. water extinguisher, 15 and 20 lb. and CO₂ Extinguishers | $49.95 |

HEAVY-DUTY EXTINGUISHER BRACKETS

Brackets listed below are for Amerex extinguishers, but will fit any other extinguisher with same size cylinder. If you are unsure or are in need of a bracket not listed, please call your Darley representative.

X-TINGUISH® FST
PREVENT FLASH-OVER AND BACK-DRAFT

Flame Guard USA X-Tinguish® FST is designed for mobile total flooding fire suppression applications on land and sea. The FST is a highly effective tool for the suppression of early stage and fully developed fires; preventing flash-over and back-draft.

PROFESSIONAL IR THERMOMETERS

The Professional IR Thermometers are a heavy-duty IR dual-laser thermometer with advanced temperature processing, high resolution optics and built-in LED Flashlight. Advanced system-on-chip engineering is the key ingredient of the series of long range infrared thermometers.

- Dual laser sighting
- Hi/low alarm
- MAX, MIN, DIF and AVG temp. settings
- Distance/Spot: 50:1
- Accuracy +/- 2%
- Temperature Range: -76° to 1832° (-60° to 1000°C)
- High intensity white LED flashlight
- High and Low audible temperature alarms

BK248 Extra Long Range IR Thermometer $359.95
TYPE I SAFETY CANS
EASY-TO-FILL AND EASY-TO-USE, AND THE ECONOMICAL CHOICE FOR FLAMMABLES

Compliant Type I Safety Cans are designed with a single spout to filling and pouring. The self-closing, leakproof lid controls vapors and provides security from spills and leaks.

- Fully compliant - meets OSHA and NFPA Code 30
- Premium 24-gauge coated steel body and handle durability and chemical resistance
- Quality backed by exclusive 10-year warranty

D89802 One-Gallon Type I Safety Can $37.95
D89803 Two-Gallon Type I Safety Can $42.95
D89804 Five-Gallon Type I Safety Can $40.95

TYPE II ACCUFLOW™ TRANSFER CANS
COMBINE SAFETY WITH MAXIMUM CONVENIENCE WHEN HANDLING FLAMMABLES

Compliant Type II AccuFlow™ Safety Cans offer additional convenience with two openings: top opening with ergonomically designed life lever for easy filling, and a second opening equipped with a flexible metal hose for targeted pouring into small apertures. The 1/4" x 9" hose also provides a safe bonding path to the receiving vessel. Patented, innovative manifold automatically vents to provide fast, precision, glug-free pouring. Ship. wt. 9 lbs.

SAFETY CAN CABINETS
CENTRAL STORAGE FOR YOUR FLAMMABLE LIQUIDS

Now you can have on-site storage for your flammables or combustibles. These cabinets offer hands-on easy access with minimal exposure plus provide central storage for your corrosive liquids. They save traveling time, minimize employee exposure and seal off your flammables when temperatures get too high. As high-quality safety storage cabinets, they’re designed to meet safety requirements in a variety of applications such as laboratories, production areas, schools, hospitals etc., wherever space for flammable and hazardous liquids is needed and at a premium. For even more space-saving storage try the Undercounter Storage Cabinets. They mount flush with other cabinetry and feature vent openings in back wall. Ship. wt. 190 lbs.-387 lbs.

CHECK OUT THESE OUTSTANDING FEATURES:
- Double-Wall Thermal Barrier: Cabinet puts an 18-gauge, double-wall insulated air between you and your flammable liquids
- Maximum Storage/Efficiency: Reinforced shelves have built-in troughs, and leak proof wells to contain spills
- Locking Mechanism: 3-point lock with fail-safe closing mechanism
- Tri-Lingual Label: English, Spanish, and French
- Dual Vents: Vents are strategically placed with built-in flash arresters
- Leakproof Sill: Base of cabinet is a full 2" deep to contain spills
- Superior Powder Finish: Powder coat, high-gloss, paint finish resists solvents, acids and alkalies
- Adjustable Leveling Feet: Adjustable at all four cabinet corners to ensure proper alignment for tight door closure

CABINETS COME IN HI-GLOSS YELLOW ONLY

FIREBOY®-XINTEX®
FIRE SAFETY AND SUPPRESSION EQUIPMENT

SINGLE SENSOR GAS DETECTION SYSTEMS

The Xintex Single Sensor Gas Detection Systems are engineered for all vehicles operating on natural gas (LNG or CNG) or propane (LPG).

- Compact, integrated design incorporates the sensor and monitor in a single unit
- Provides early warning of dangerous gas levels in the cab
- Visual alarm at 20% and audible alarm at 50% of the L.E.L.
- Ideal for all CNG / LNG conversions and fleet vehicles
- Yellow “Fault” LED indicates any system issues
- In-line audible horn
- “Test and Reset” membrane touch button
- Fast, simple installation
- Low power consumption

For more information and to order, contact Darley at 800.323.0244 or visit www.edarley.com/brands/fireboy-xintex

CG2 & MA2 SERIES AUTOMATIC FIRE EXTINGUISHING SYSTEMS

A CLEAN AGENT SYSTEM

Featuring the HFC-227ea with coverage from 25-1,500 ft³ (0.7-28.3 m³) for engine rooms, machinery spaces, and other enclosed spaces for Class B fires. Factory Mutual and USCG Approved - Clean Agents are approved by all notified bodies.

CG2 SERIES
- Automatic discharge only (@ 175°F / 79°C)
- Engine rooms up to 1,000 ft³ (28.3 m³)
- Vertical or horizontal mounting
- Heavy-duty mounting bracket
- Helm display

MA2 SERIES
- Automatic and manual discharge when used with a Fireboy manual discharge cable (sold separately)
- Engine rooms up to 1,500 ft³ (42.5 m³)
- Vertical or horizontal mounting
- Heavy-duty mounting bracket
- Helm display

For more information and to order, contact Darley at 800.323.0244 or visit www.edarley.com/brands/fireboy-xintex

FIREBOY®-XINTEX® CMD5-MB BATTERYPOWERED CO ALARM

The Xintex CMD5-MB CO alarm uses a sensor operating with a microprocessor to measure Carbon Monoxide (CO) levels. Using a “TimeWeighted Average” (TWA) process, it monitors CO concentration, temperature and time to calculate levels of Carboxyhemoglobin (COHb). COHb is the degree to which the oxygen carrying capacity of the blood is impeded by the union of carbon monoxide to the hemoglobin and is expressed as a percentage. The human body absorbs CO easier than oxygen and COHb is the ratio of absorbed carbon monoxide to oxygen in the bloodstream. The CMD5-MB alarm calculates this COHb as a function of time and determines the appropriate alarm response.

- Internal battery power - no external power required
- Electrochemical sensor
- Rapid start-up - no “burn-off” period
- More stable sensing
- Reduced false alarms
- Extremely low current draw (<4 mA)
- Modern, low profile design for inconspicuous protection
- Multiple location warning

SPECIFY COLOR: White or Black

BN630 CMD5-MB Battery Powered CO Alarm

NEW

White Black $109.95
FIREBOY MAE FIRE DETECTION & SUPPRESSION SYSTEM
PRE-ENGINEERED SYSTEM
The new patent-pending Fireboy MAE pre-engineered fire detection and A-C or A-B-C rated suppression system is designed to protect enclosed spaces up to 3,600 cu. ft. The easy-to-install complete kit uses 3M™ Novec™ 1230 Fire Protection Fluid and an electric release.

FEATURES:
- Pre-engineered system
- Complete kit
- Fast installation with one technician
- No engineering or piping calculations required

PERFECT FOR USE IN:
- Server rooms
- Laboratories
- Computer rooms
- Media storage
- Clean rooms
- Textile manufacturing
- Military applications
- Historical collections
- Other enclosed spaces

For more information and to order, contact Darley at 800.323.0244 or visit www.edarley.com/brands/fireboy-xintex

FIREBOY PORTABLE DRY CHEMICAL ABC FIRE EXTINGUISHERS
Each extinguisher features a heavy-duty steel cylinder with a metal valve and pressure gauge, and is rechargeable. The 5.5, 10 and 20 lb. models include a wall hook, hook ring and hose with strap. A heavy-duty USCG approved marine/vehicle bracket for mounting in boats or motor vehicles is included with the 2.5 and 5.5 lb. models. A white 2.5 lb. model will also be available soon for Marine use. Vehicle/marine brackets are optional for the 10 and 20 lb. models.

HOSE PIN RACK UNITS
Darley® Pin Rack Units are designed for standpipe use and are assembled and packaged before shipment. Furnished with a rough brass valve, red enamel rack and machined brass nipple, couplings and nozzle. They consist of U.L. listed and F.M. approved valve, rack hose and nozzle as follows:

1½" Assembly: Includes 1½" angle valve, hose rack, 1½" rack nipple, 1½" rack light hose, 1½" couplings, pin or rocker lugs and 1½" fog nozzle.

2½" Assembly: Includes 2½" angle valve, hose rack, 2½" rack nipple, 2½"x1½" reducer, 1½" rack light hose, 1½" couplings, pin or rocker lugs and 1½" fog nozzle.

For more information and to order, contact Darley at 800.323.0244 or visit www.edarley.com/brands/fireboy-xintex
SELF-TESTING HYDRANT BOOSTER

Boost Hydrant Pressure in Any Area with Inadequate Water Pressure

The Darley Self-Testing Hydrant Booster is your solution for consistent, reliable hydrant pressure for rural areas or any area with inadequate water pressure. Have water pressure when you need it, where you need it.

- Production Rate: Up to 300 GPM @ 250 PSI
- Patented self-testing technology
- Mounted on a fully integrated skid unit
- Self-test is a real test based solely on the pump’s reaction and performance when a true drop in pressure is created on the discharge line
- Panel contains full web browser capability and its own IP address
- Status of pump running, test mode activation, test successful and system fault light can be monitored from the web and emailed
- Panel is a single point connection design that holds controls for both the primary pump and jockey pump, reducing installation cost
- Jockey Pump is controlled by a variable speed VFD controller that helps further reduce set up time and pump hammering, and prolongs the life of the pumps
- Also includes manual start button
- Automatic operation

SELF-CONTAINED NFPA 13D SPRINKLER SYSTEM

The Just Add Water System (J.A.W.S.) is everything you need to provide pressure and flow to a residential fire sprinkler system in a self-contained package. J.A.W.S. is designed with the contractor in mind; efficient, reliable and easy-to-install. Just add water, connect to plumbing and your power source and the J.A.W.S is ready to go.

FLEXIBLE PUMP THAT MEETS A WIDE RANGE OF PSI AND GPM REQUIREMENTS

PERFORMANCE
- 30 PSI: 20, 25, 30, 40, 45, 50, and 55 GPM
- 40 PSI: 20, 25, 30, 45, 50, and 55 GPM
- 45 PSI: 20, 25, 30, 45, 50, and 52 GPM
- 50 PSI: 20, 25, 30, 45, 50 GPM
- 55 PSI: 20, 25, 30, 40, and 43 GPM
- 60 PSI: 25, 30, and 35 GPM

THE DUAL PURPOSE DRYER
DRIES HOSE OR CLOTHING IN JUST A FEW HOURS

The Dual Purpose Dryer allows hose and turnout gear to be dried quickly and safely, minimizing shrinkage while ensuring a rapid return to service. When emergencies arise, you want your equipment ready to go, so it’s essential to get hose and turnout gear back into service as quickly as possible. Our high capacity drying cabinet handles up to 500’ of 5” hose. Ten removable galvanized steel shelves permit other items to be dried in the cabinet, and a 12-hr. timer shuts down the dryer automatically. You’ll use less energy and never overheat and damage the hose. Call for detailed specifications. Ship. wt. 1,100 lbs.

SPECIFY VOLTAGE REQUIREMENTS
AJ457 Dual Purpose Dryer $9,895.95

PPE EXPRESS DRYER
RAPIDLY DRY UP TO FOUR SETS OF GEAR

Circul-Air PPE Express Dryer can quickly dry up to four sets of turnout gear, boots, hoses, and gloves.

- Dry hoses, boots and gloves
- No additional accessories needed
- Durable powder coat finish
- Conforms to NFPA 1851
- 1000 CFM
- 6 year warranty
- Independently Verified – ETL/CSA Listed
- Dimensions: 34”x72.5”x40”L
- Weight: 450 lbs.

INCLUDES:
- 5 - Metal gear hangers
- 5 - Metal glove hangers
- 4 - Removable hose/boot drying shelves

BN535 PPE Express Dryer 240V $7,295.95
BN536 PPE Express Dryer 208V $7,295.95

THE AUTOMATIC FIRE HOSE WASHER
“IT ALL COMES OUT IN THE WASH”

You’ll be amazed at how thoroughly, easily and quickly this remarkable cleaner does its job. Ashes, dirt, silt, mud and sludge are all scrubbed and flushed away, restoring hose to its original color. Quiet, chain-drive operation eliminates need for service and repairs. Built to last a lifetime and equipped with long wearing, genuine nylon brushes. Check out all the great features of the Automatic Fire Hose Washer. Ship. wt. 680 lbs.

- **Hose is Self-Propelled:** Convenient foot pedal applies pressure on pivoted wringer roll, pulling hose through the washer under its own power
- **Uniform Washing:** Wringers propel hose through washer, ensuring an even, uniform cleaning at a rate of about 30 ft. per minute
- **Cleaning Action:** Hose is soaked in immersion tank filled with lukewarm or cold water. Add detergent as you see fit

H887 Automatic Fire Hose Washer $11,448.95
H686 Hose Loading Table $1,285.85
RED RACK™ STORAGE SYSTEMS

The open air design of Red Rack™, along with our Dry Kwik accessories, provides for free air circulation and helps dry PPE much faster. As a result, mold and mildew will not prematurely destroy the fibers of your gear and it will last longer. Red Rack™ components are coated with a durable red powder coat finish.

STANDARD FEATURES:
- 20" and 24" wide sections
- 20"Dx72"H compartments
- Adjustable helmet shelf
- Adjustable boot shelf
- Adjustable apparel hooks
- 2 - Hanging hooks per compartment
- Heavy-duty powder coat finish
- Label holder for nameplate
- Horizontal hanger rod

Count on the superior design of the new Red Rack™ as your storage system. This open-air design helps for a much quicker dry for any gear. As a result, mold and mildew will not destroy the fibers of your gear and it will ultimately last longer. Designed to stand up to the rugged demands of the Fire Service Tubular steel design is the strongest configuration on the market and does not require a rear grid. Open back design allows easy access to your station’s building code approved electrical outlets.

S.O.S. RACKS

Design accommodates SCUBA cylinders, Oxygen bottles, and SCBA cylinders. The modular design allows you to configure each compartment with any combination of specialized shelves and/or flat shelving for gear bags, turnout gear, and dive gear storage/drying. The S.O.S. Rack features four 1,050 lb. capacity casters and is constructed of heavy duty steel tubing with high strength wire. A durable powder coat finish protects the rack and will provide years of service.

- Dimensions: 32”Dx81”Hx76”L
- Store up to 18 low profile SCBA cylinders per vertical section
- Flat shelves available for gear bags and other equipment
- Specialized bottle shelves hold SCUBA, Oxygen, and SCBA cylinders securely
- Legendary Ready Rack quality
- Ships knocked down to save you money

**HANG-DRY®**

Hang-Dry® is used to dry many different suits and gear with the use of a high-powered fan that is built into the unit.

- Built out of strong plastic and features a 12' cord
- Supports around 100 lbs.
- Handle transporting convenience
- Plastic tubular shape forces the air through the suit with pressure
- Fan features a die-cast aluminum housing, steel impeller directly welded onto the rotor, ball bearing
- **Motor Output:** 250.1 CFM
- 5-year warranty, activated on date of purchase

**VERSAMIST® MISTING FAN**

The VersaMist® portable misting fan combines low pressure mist and high speed air movement to create cool comfort indoors or out for athletes, rescue squads, firemen, construction workers, assembly line workers, tents, patios, pool decks and other hot spots.

- 18" UL507 rated, imported 3-speed fan; up to 6600 cfm
- 1.4 tons (16,000 BTU/hour) of cooling capacity
- Cools the air up to 30°F
- Runs on 115V; 12V and 220V models available
- Large 10 gallon reservoir allows 5 hours of continuous use
- Low pressure mist pump enclosed in rugged enclosure with tip switch
- Includes 25' outdoor-rated power cord with integrated GFCI
- Also available with wheels for greater flexibility and convenience (BH028)
- 2-year limited warranty
- Made in the USA

**MAXXDRYXL™ BOOT, SHOE AND GLOVE DRYER**

Eliminates Odor! Dries in about 1 hour™

The MaxxDryXL™ uses DryComfort™ “Forced Air” technology to gently dry four garments in about an hour. MaxxDryXL™ works quickly to remove moisture, perspiration, bacteria and mold - the primary cause of odor! A totally flexible multi-dryer dries a combination of tall boots and short boots, boots and gloves, two pair of gloves and requires no additional attachments. Whether using heat or not, the MaxxDryXL™ will not harm materials.

- DryComfort™ “Forced Air” Technology
- 4 durable air chambers for simultaneously drying
- Kills odor
- High impact lightweight construction
- Heat / no heat switch
- 3 hour timer
- Quiet: 80,000 hour-rated whisper quiet rotary blower
- Dry Time: Approximately 1 - 2 hours
- Power: 120V AC household outlet
- Dimensions: 9”Dx10.75”Hx9”W
- Max. Temperature: 105° F / 40.5° C
- Cord: 6’ length
- 1-year warranty

**FAST DRY COAT HANGER**

Keeps expensive coats organized and dry! Gear dries quicker because air circulates better inside the garment, allowing fabric-fibers to dry faster. Specify open or closed hook style. **Ship wt. 1 lb.**

**NEW**
FREESTANDING & MOBILE HOSE CART

Save time and eliminate back strain from carrying hose with the Hose Cart. Mobile unit has heavy-duty brake casters that allow for ease of rolling and hold the cart in place when loading or unloaded. Heavy-duty steel rails with a durable red powder coat finish easily support 100’ coils. Ships knocked down for freight savings. Easy to assemble. Available in 2 or 3 tier units mobile or freestanding. Freestanding model may be bolted to floor for additional stability. An optional cover plate (AR117) provides a flat surface for holding bottle carriers or other items. *Ship. wt. 315-560 lbs.*

LARGE DIAMETER HOSE WINDER

Wind 100’ sections of LDH up to 6” wide in seconds. Having the ability to steer the winder while rolling the hose, the Large Diameter Hose Winder (LDHW) turns winding into a one-man operation. With no need to recharge batteries, downtime is drastically reduced. The LDHW drains the hose as you wind it, prolonging hose life. Reduces the risk of back injuries by limiting firefighter fatigue.

- 2 - Swivel with brake casters
- 2 - Rigid with brake casters
- Dimensions: 48"Lx36”Wx 49”H

CYCLONE DRYING SYSTEMS

For all firefighters who need fast effective drying of their gloves, boots and turnout gear. Heated air blows through vented drying arms to quickly dry wet gear from the inside out - providing comfort, eliminating mildew and ensuring safety in high heat situations. Boots and gloves are dry in an hour. With drying arm extensions to reach further down the arms of coats or the legs of pants the BK402 can dry 1 set of wet turnout gear in about 2 hours, a fraction of the normal time. Cyclone Dryers can be plugged into an existing 120v wall outlet and once anchored to standard 16” wall stud centers extend less than 14” from the wall. Fit with an efficient, custom motor, these dryers boast very low operating costs and unbelievably low noise levels. A digital 120-minute timer allows you to set the time needed for drying and forget about it.

- Weight: 65 lbs.
- Dimensions: 17½”Wx66”Hx13½”D

STATION SUPPLIES
**DRY AND STORE HOSE RACK**

With the Dry and Store Hose Rack, you can dry hose and store it on the same unit. Unit consists of the top mounted drying rack where hose and other equipment dries naturally and quickly, and one lower level storage rack. Dry up to 900’ of 1½” to 1¾” hose or up to 600’ of 2½” to 3½” hose and simultaneously store up to 650’ of 2½” hose. Heavy-duty steel construction with durable red powder coat finish. Ideal for use in smaller stations. *Ship. wt. 330 lbs.*

BB039  Dry and Store Hose Rack $2,203.95

**MOBILE HOSE DRYER**

With the Mobile Dryer, equipment dries naturally and quickly with fresh air, prolonging the life of your equipment. Used to dry immersion entry suits, wet or dry dive gear, and decontaminated hazmat entry suits. The Mobile Hose Dryer holds up to 1200’ of 1½” or 1¾” or up to 800’ of 2½” - 3” hose. *Ship. wt. 290 lbs.*

- SAFE - no more climbing to hang or retrieve hose
- Costs thousands less than conventionally built towers
- Stores and dries in small area
- Durable red powder coat finish
- Dimensions: 80”Lx33”Wx88”H

AS703  Mobile Hose Dryer $1,932.95

**THE HOSE COILER**

**ROLL HOSE QUICKER AND EASIER THAN EVER**

Designed by a firefighter to make it quicker and easier to coil 1” to 3” double jacket hose in lengths up to 50 feet (single jacket forestry hose in lengths of 100 feet). Simply attach the mounting bracket to the rear of your apparatus, pickup truck or any emergency vehicle waist-high, insert the coiler crank and roll away. The coiler itself is made of two parts which nest together for compact storage. Once the hose is coiled simply remove the tight coil from the inside section and you’re done; no more bending over to pick up heavy coils. Use this system anywhere you choose to install the mounting bracket (included). Also available are trailer hitch mounts. Call for pricing. Fits in hitch receiver and Wildland Mounts pound in the ground.

**SALVAGE-MASTER WET VACUUM**

**HIGHLY EFFICIENT WET VACUUM UNIT**

Salvage-Master’s ability to remove water from deep floor cracks, carpets, tile, concrete, asphalt and wood floors greatly reduces overall fire or spill damages and subsequent insurance losses. In addition, Salvage-Master’s fast action performance (the 5.9 gallon tank fills in 18 seconds and empties in 14 seconds) helps prevent warpage, curling floors and seepage through ceilings. As an extra convenience, Salvage-Master features a special float device that automatically activates a high-pitched sound to indicate when the tank is full. Comes complete with a rubber squeegee, GFCI plug, and 1-year warranty.

- Shoulder On/Off switch
- 5.9 gallon tank capacity
- Drain hose
- Two piece wand
- Ground fault circuit plug
- 50’ electrical cord
- Ship. wt. 35 lbs.

**SALVAGE COVERS AND RUNNERS**

**Canvas:** Treated with a fire and water resistant finish. Meets requirements for California State Fire Marshall, NFPA-701 (large scale), and CPAL Section 6. Water-resistant finish and mildew inhibitors added. Color: Green.

**SLIDING POLE LANDING MAT**

No fire station equipped with a sliding pole should be without a landing mat. It’s 2” thick foam pad with unicell construction which helps cushion landings. Measures approximately 32” in diameter with a 3½” center hole. The materials are similar to those used in marine applications and as such are impervious to oils and will resist dry rot. Installs by sliding over top of station pole. Also available for larger or smaller diameter poles. **Ship. wt. 10 lbs.**
PASSFIRE™ BURN PAN TRAINING UNIT

The Halcyon Product’s Passfire™ Burn Pan Training Unit is a cost-effective, portable solution for contained, controlled burns for training purposes. It is used by fire departments and training firms for fire extinguisher training.

- Conduct safe, inexpensive fire extinguisher training
- Firefighter designed and approved
- Helps businesses and organizations comply with OSHA 1910.157
- Uses clean burning propane and is environmentally-friendly
- Fire is contained within the deep, durable stainless steel pan and does not affect the surrounding training areas, eliminating mess and damage
- Sturdy supports for set up on any flat surface
- Contains quick disconnects for easy set up and tear down and provides additional security, controlling the supply of propane to the copper burn element
- Drain in bottom of pan for easy clean up and water disposal
- 25’ propane hose
- Dimensions: 25”Lx25”Wx16”H
- Ship. wt. 57 lbs.

SPRING DRIVEN HEAVY DUTY HOSE REEL

The SH Series “Super Hub™” spring driven hose reels have a long history of dependable performance. The larger chassis and frame accommodate longer lengths and larger diameters of hose. Coxreels’ original Super Hub™ dual axle support system increases the stability during operation, reduces vibration, and strengthens the structural integrity of the reel. Model equipped with EZ-Coil® System that provided controlled hose retraction reducing the rewind speed by as much as 80% over conventional reels.

3/8” I.D., 50’ HOSE, 300 PSI
BN733 Spring Driven Heavy Duty Hose Reel $423.95

DUAL PURPOSE AIR/ELECTRIC REEL

The C Series “Combination” spring driven air hose/electric cord reels are two reels in one compact assembly. They are perfect for applications that require pneumatic air and an electrical power feed. The single expanded mounting base creates stability and adds to the convenience of one mounting pattern.

NEW

SINGLE INDUSTRIAL RECEPTACLE
3/8” I.D., 50’ HOSE, 300 PSI, 50’ CORD, 12 AWG
BN734 Dual Purpose Air/Electric Reel $737.95

POWER CORD REEL

The PC Series spring driven “Power Cord” reels are heavy duty, industrial grade power sources. They replace tangled extension cords and self-retract to increase safety, productivity, and efficiency. Modeled after the P and SH Series, the PC Series is designed for long-lasting, hassle-free performance even under the most demanding conditions.

NEW

SINGLE INDUSTRIAL RECEPTACLE
50’ CORD, 12 AWG
BN735 Power Cord Reel $432.95

HAND CRANK HOSE REEL

The 1125 Series hand crank hose reels have the features demanded by industry professionals. The industry preferred design features a sturdy one piece all welded “A” frame base, low profile outlet riser and open drum slot design provides a non-crimping, flat smooth hose wrap.

NEW

3/4” I.D., 100’ HOSE CAPACITY, LESS HOSE, 3000 PSI
BN736 Hand Crank Hose Reel $318.95
OUTDOOR WARNING SIRENS

OUR MOST POPULAR SINGLE-TONE SIREN

The AR245/AR246 is Darley’s most popular outdoor warning siren. This power-packed unit has been used around the world for everything from severe weather warning to correctional facility security. Featuring a 7.5HP continuous-duty motor and omni-directional sound projection horns, this siren pounds its intense 112dB(C)* sound output throughout the area it serves. If your siren needs to be compact, powerful, and simple, look no further! Estimated 70dB(C) effective range: 2,800 ft. Available in single phase or three phase power. Shipping wt. 450lbs. Also available with a battery backup option. Call for details.

OMNI-DIRECTIONAL SINGLE-TONE SIREN

If your application requires a siren at the top of the food chain, then the Darley 14V is where your search ends. This siren partners a 91% efficiency premium three phase, 15HP, continuous-duty motor with omni-directional projection horns for maintenance-free service. The design is compact, and installation is simple. The best part? This siren, rated at 127dB(C)*, is the most powerful omni-directional single-tone siren in production! The biggest, the best – the Darley 14V. Estimated 70dB(C) effective range: 1-2 miles. AC version available in three phase power only. Shipping wt. 800lbs.

BN685 15 HP Warning Siren, Three-Phase Power | $8,704.95
110V ELECTRO-MECHANICAL INDOOR/OUTDOOR ALARM SIREN

Tens of thousands of satisfied customers have used this siren in a wide range of industrial, municipal, and emergency signaling applications. This siren employs a carefully machined and balanced aluminum fan and housing, and aluminum, powder coated projectors. The air intake is screened to protect against foreign matter. Corrosion protected, it is suitable for permanent outdoor installation. The model F-2 tested @ 117 dB, @ 10 ft. outdoor, 113 dB, @ 10 ft. in an anechoic chamber, and at 103 dB(A) in a reverberant room to U.L. Standard 464. This model runs on 120 volt AC/DC power, with running amperage of 2.5 amps. It can also be ordered in 240/250 AC/DC. Ship. wt. 13 lbs.

E-5 PREMIUM FIRE & INDUSTRIAL TONE AND SOUNDER

The ER-5 is the next generation of premium industrial or fire alarm sounders with 45 different tone options. The ER-5 is housed in a robust fire retardant Type 4/4X/3R/13, IP66 housing ensure the siren is suitable for all general signaling applications including fire, security and process control. For applications with high ambient background noise, combined siren and strobe units are available.

- Up to 126 dB peak SPL
- 45 user selectable tones
- Integrated Xenon or LED strobe available
- UL, CSA, and cULs approvals
- IP 66 protection for harsh environments

G3 SIREN CONTROLLER

WIRELESS SIREN ACTIVATION AND CONTROL

- Integrates seamlessly into most existing radio systems
- User programmable
- Does not use proprietary software
- Whip antenna standard
- Compatible with two-tone sequential or DTMF standard. FSK available
- VHF or UHF standard. 800MHz, 900MHz, low band available
- Two-way/report back communication available (G5 series)
- Windows based programming environment
- Battery backup capability available

E-6 INDUSTRIAL WARNING SIREN

For areas with high ambient heat or significant dust/sediment in the air, look no further than our model E-6. Featuring 45 different tone options, output levels up to 126dB(A) at 10ft., IP66 rating, and adjustable volume control, the E-6 is a perfect fit for indoor industrial applications, schools, fire station bays, and more. Ship. wt. 7 lbs.

- Continuous duty rated
- Stainless steel bracket
- Ratchet adjustable for 360° mounting
- Duplicate cable terminations for daisy chain installations
- High output warning with minimal power draw
- 45 selectable alarm tones to distinguish this unit from other sounders
- Intense, focused sound for maximum effectiveness with adjustable volume control

G1 SIREN CONTROLLER

HAND WIRED ACTIVATION AND CONTROL

- PLC based environment (Programmable Logic Controller)
- Auto Test Function standard
- User programmable siren timing controls
- Push-button activation
- Windows based programming environment
- Battery backup capability available.

PRICING

Prices listed in this catalog are current as of June 1, 2020. Due to the wide selection of products being offered, prices may change without notice. We also reserve the right to make corrections in the event of a misprint. Please confirm pricing with a Darley® representative at time of order. Volume discounts are available. Darley will match pricing on any lower offer from another supplier.

OPEN ACCOUNT TERMS

Terms of Net 15 Days shall be extended to city and other governmental agencies in good standing. These terms are also granted to businesses rated “good” or “high” and have a rating from CC to 5A by Dun & Bradstreet. Those companies that do not have a D&B rating in this range should contact our Credit Department at 1-630-735-3500 for a complete credit application. We encourage new customers placing their first order to make their initial payment by check or credit card. This will help avoid any shipping delays that may occur during the credit review process.

ORDERS PLACED BY INDIVIDUAL

All individual orders must be accompanied by full payment (cashiers check, money order or credit card) plus shipping charges and applicable state tax. We accept Visa, MasterCard, and American Express.

SALES TAX

We are required by law to add sales tax to goods shipping into the following states: CA, CO, FL, GA, HI, IA, IL, MN, NC, OH, PA, SC, TN, TX, VA, WI, WA. State laws require us to have your signed exempt/resale certificate on file at our offices. We will be forced to charge you sales tax, if we do not have this documentation. All sales to individuals in these listed states are always taxable.

Please Add Shipping and Handling

DAMAGED GOODS / SHORTAGES

In the event that you receive a damaged or short shipment, you must immediately file a claim with the carrier. Under ICC regulations this claim is the consignee’s (your) responsibility. Please contact our Customer Service Department 1-800-4-DARLEY for assistance.

NO HASSLE RETURNS

Please contact our Customer Service Department at 1-800-4-DARLEY. For return instructions. A return authorization number (RMA) will be required.

RESTRICTED SALES ITEMS

Darley® carries a wide range of products intended for sale to public safety professionals. Orders for goods including, but not limited to, badges, personal identification, emblems and nameplates must be placed on department letterhead with official identification.

CHANGE OF ADDRESS / DUPLICATE MAILINGS

It’s important for Darley® to keep our mailing lists as current as possible. Please advise us of any change of address or personnel. In the event you’ve received duplicate mailings, simply scan the back of the catalog and email changes to catalog@edarley.com. As a token of our appreciation, we’ll take $5 off your next purchase.

GOVERNMENT ORDERS

Darley offers many products throughout our catalog which can be ordered at substantially reduced government pricing through the GSA schedule:

Darley Defense has a wide range of firefighting, special operation, training and defense capabilities across categories ranging from PPE gear packages to service and training. We pride ourselves on serving the world’s first responder and tactical communities by providing high-quality, safe, and innovative products with unmatched customer service and expertise. We maintain a growing list of vendor partners, committed to creating unique solutions for any mission requirement.

OUR TEAM

The Darley Defense Team consists of subject matter experts, many of whom are former operators and veterans of the U.S. Military, with extensive knowledge of equipment, capabilities requirements and federal procurement options. Combining this expertise with a relentless focus on customer service and we work with one goal in mind: equipping our Nation’s first responders with the necessary capabilities to accomplish any mission.

PROCUREMENT

Darley offers industry-leading tailored equipment and training solutions vital to our customers unique mission requirements. The Department of Defense continues to recognize Darley’s integrity, reliability and customer focus awarding contracts through TLS, GSA, DoD FEDMALL, Unicon, S2P2 and GPC with focus on Fire and Emergency Services Equipment (FS&E) and Special Operational Equipment (SOE). Not familiar with these contract vehicles? Let our team of experts guide you through the most efficient and cost-effective means to get you what you need.

PURCHASING

WE ASSIST UNITS WITH EDUCATION AND SUPPORT

- We can teach anyone in your organization to understand and utilize most DoD methods of resource acquisition.
- Tell us the operational or tactical capability you are trying to achieve, and we will show you several options that fulfill your requirement. If not, we will work closely with you and our vendors to create a solution.
- Product Integrity: Berry Amendment and TAA compliance, where applicable

CONTRACT OPTIONS

Darley Defense maintains numerous DoD contracts to find you the best possible solution including these vehicles and more.

The Aqua Blaster is a harness/frame which supports a fire hose with attached nozzle and can be operated by a single firefighter. The firefighter’s torso and lower body strength give enhanced control of the fire hose and nozzle. Advancing and maneuvering is done without assistance. The Aqua Blaster reduces injuries like chronic pains in the joints and back that are often associated with the long-term use of fire hoses. The flow control components of the Aqua Blaster consist of two 90˚ elbow swivels attached to a connecting tube. The Aqua Blaster allows the user to easily pivot to the left or right adjusting the direction of the water stream. The fire nozzle can be rotated up and down and locked at a fixed vertical angle.

The Aqua Blaster is supplied without nozzle.

- Fire hose can be maneuvered hands-free
- Hands-free operations is more balanced
- Reduces fatigue when a charged fire hose is being used for an extended period of time
- Ideal for exterior, Hazmat and Wildland firefighting

AQUA BLASTER FIRE HOSE HARNESS

CAR FIRE BLANKET PRO

The fire and smoke are isolated within seconds of spreading the blanket over the car. Ideal solution for parking garages, shopping centers, hospitals, hotels, boat ferries, car dealerships, metropolitan areas, etc. Bridgehill car fire blanket pro is reusable and provides a quick and effective way to extinguish a car fire by removing oxygen supply. Toxic gases and smoke are stifled immediately in fossil fuel cars. Same immediate result is achieved in electric cars, whose batteries have not been affected by the fire. For more information on Lithium and Extreme Blankets, please call Darley.

DIRECTIONS:
- Unroll the blanket in front of or behind the car/burning object
- Grab the handles in the corners, and pull over the blanket in one movement
- Wrap the blanket tightly around the car to reduce the supply of oxygen
- Fire is contained in minutes

BRIDGEHILL
WE SIMPLY BLOCK FIRE

DIRECTIONS:
- Unroll the blanket in front of or behind the car/burning object
- Grab the handles in the corners, and pull over the blanket in one movement
- Wrap the blanket tightly around the car to reduce the supply of oxygen
- Fire is contained in minutes

BP193 Car Fire Blanket Pro $2,422.00
BP195 Lithium Blanket - 1.8x1.8 Meters $597.00
BP196 Extreme Blanket (Box of 10 pcs.) $2,313.00

AQUA BLASTER FIRE HOSE HARNESS

The Aqua Blaster is a harness/frame which supports a fire hose with attached nozzle and can be operated by a single firefighter. The firefighter’s torso and lower body strength give enhanced control of the fire hose and nozzle. Advancing and maneuvering is done without assistance. The Aqua Blaster reduces injuries like chronic pains in the joints and back that are often associated with the long-term use of fire hoses. The flow control components of the Aqua Blaster consist of two 90˚ elbow swivels attached to a connecting tube. The Aqua Blaster allows the user to easily pivot to the left or right adjusting the direction of the water stream. The fire nozzle can be rotated up and down and locked at a fixed vertical angle.

The Aqua Blaster is supplied without nozzle.

- Fire hose can be maneuvered hands-free

- Reduces fatigue when a charged fire hose is being used for an extended period of time
- Ideal for exterior, Hazmat and Wildland firefighting

BP294 Aqua Blaster Fire Hose Harness $1,125.95

HA-5 TRANSPONDER

The HA-5 enables collision prevention service that delivers real-time digital alerts to let motorists know to slow down and move over for crews and apparatus any time the emergency flashing lights or E-Master is engaged. Motorists receive advanced warning, providing them more time to make safer, smarter driving decisions and comply with “Move Over” laws. When emergency crews are on-scene and responding, vital safety and road hazard information is sent to drivers via navigation apps and in-vehicle systems.

*Pricing does not reflect software subscription. Contact Darley for fleet pricing.

SPECIFICATIONS:
- Dimensions: 5.4”x2.7”x1.3”
- Cellular: 3G or 4G LTE
- Input Voltage - Power: 12.5V - 15V
- Input Voltage - Flashing Lights Main Wire (E-Master): 12V - 15V
- Amperage: 120 mA peak draw
- Operating Temperature Range: -40˚ to 85˚C
- Weight: 7 oz.

FEATURES:
- Connects any flashing emergency lights
- Cellular, GPS, real-time Safety Cloud® connectivity
- 100% passive to crews and personnel
- Automatic low voltage shut-off
- No data plan required

BP123 HA-5 Transponder $399.00
CHIEF XD™
NEWLY REDESIGNED FIXED FLOW CHIEF XD

The Chief XD is the only handline nozzle that offers a forged shutoff body and forged metal bale handle for maximum strength. It also includes a standard full round metal ball for the best stream performance, as well as fixed molded urethane or spinning stainless steel metal teeth that don’t break.

- Forged aluminum shutoff body and bale handle
- Full round metal ball with perfectly aligned waterway
- Laser etched markings

MULTIPLE CONFIGURATIONS

SEE p8 FOR DETAILS

CHIEF XD

BN749 Chief XD™ - Mid-Range 1½" Free Swivel Base $731.95

BN409 Ram XD™ Monitor $2,381.95

RAM XD™
BIG WATER...FAST

Ideal for quick attack, high rise, and industrial applications, the RAM XD Rapid Attack Portable Monitor can be easily deployed by a single firefighter to flow up to 500 gallons per minute fast! Lightweight and compact, the RAM XD can lower down to 14° above horizontal making it easy to flow into overhead doors, traditional size man doors, or store fronts. It’s angled waterway shape and four foldout legs help to harness nozzle reaction making an extremely stable and safe design.

- Low 14° elevation angle
- 500 GPM @ 75psi operating measure
- Lightweight only at 19 lbs.
