A lot has changed over the years, but our commitment to the fire service has not. We truly value our relationship with you, appreciate the trust that you’ve placed in us and thank you for the opportunity to serve you.

We hope you enjoy shopping our newest catalog, #275, designed for the fire and public safety professional. This catalog features a collection of products selected from customer favorites, our best sellers, and our highest rated products. We stock most of these items in our warehouses to offer immediate delivery. Can’t find what you’re looking for? Check us out at edarley.com or call one of our industry experts. View our entire product selection on eDarley.com.

We thank you for the trust you’ve placed in us in the past, and welcome you if you’re a new customer. If we have not exceeded your expectations, I’ll consider it a personal favor if you let me know.

Sincerely,

Paul C. Darley
President & Chief Executive Officer

NEW PRODUCTS
We listen. Based in part on your feedback, we’ve added a lot of innovative new products to this catalog - quality products from the name brands that you trust, and innovative items from new partners. We’ve added a “video online” icon so that you can see the product in action on eDarley.com.

If there is a product that you need and can’t locate it in this catalog, please contact any of our customer service experts to assist you.

LOW PRICE GUARANTEE
Our employees have a passion for this business and it shows in our commitment to your complete satisfaction. It is also reflected in our Low Price Guarantee and No Hassle Return Policy. If you can find it anywhere for less, let us know and we’ll match the price.

Darley offers the equipment you need at affordable pricing. Ask about our volume discounts and our municipal leasing options.

WE’RE HERE FOR YOU
Contact one of our expert product specialists at 630.735.3500 or e-mail us at questions@edarley.com with questions and to place an order today.

SIMPLIFY YOUR ORDERING PROCESS

SOFT SIDE DIRECT-VENTED SAFETY GOGGLES

The Soft Side Direct-Vented Safety Goggles feature clear lenses and direct ventilated frames for splash resistance. They provide exceptional value with a comfortable fit and allow for good peripheral vision. These high impact safety glasses meet ANSI Z87 high impact standards.

• Clear, impact-resistant lens meets ANSI Z87.1 2010 High Impact Standard
• Direct vented frame reduces fogging
• Polycarbonate lens, PVC frame
• Soft, clear plastic construction for a comfortable fit and good peripheral vision
• Durable elastic strap

BP366  Side Side Direct-Vented Safety Goggles  $2.95

NEW

EXTECH IR200: NON-CONTACT FOREHEAD INFRARED THERMOMETER

Ideal for quickly detecting elevated body temperature

The IR200 is ideal for quickly detecting elevated body temperature using a non-contact design that eliminates the need for replacement probe covers and other supplies. Intended as an initial screening service.

• Measures skin temperature from 89.6 to 108.5°F (32.0 to 42.5°C) without contact
• Accurate to 0.5°F (0.3°C) with 0.1°F/°C resolution; fast response (0.5 seconds)
• Optimum measurement distance of 1.9 to 5.9 in (5 to 15 cm)
• Non-contact design eliminates need for replacement supplies
• Adjustable alarm alerts user visually and audibly when temperature exceeds programmed limit
• Memory stores up to 32 readings for easy recall
• Large backlit LCD display
• Complete with 2 AA batteries and pouch

BP309  Extech IR200: Non-Contact Thermometer  $129.95

NEW

FLIR

INFECTION CONTROL PPE
**FIREWIPES® - INDUSTRIAL STRENGTH DISPOSABLE CLEANING WIPES**

Firewipes® are used primarily to aid in the cleaning and removal of soot, smoke and other potential carcinogens of complete and incomplete combustion. The Firewipe is an 8”x12” textured industrial strength disposable wipe infused with cleansing compounds for use on all external dermal areas.

**HY-D REVOLUTIONARY MASS DECONTAHMINATION KIT**

Hy-D is a low cost alternative to mass shower decontamination that can be mounted directly to a hydrant or truck. The complete kit includes a gate valve, 30° elbow, hydrant wrench, and the patented HY-D bag. Works in all weather conditions including below freezing.

- Single person installation
- Low water usage minimizes runoff
- FEMA approved (as equipment, gross decontamination application - 08D2-02-EDCS) and eligible for FEMA grant programs

**BULLARD CARES KIT**

Our Bullard Cares Kit gives firefighters an extra set of fire helmet components, bundled in a washable mesh bag that can easily be laundered without falling apart or tangling. Firefighters now have an extra set of clean fire helmet components when they return from answering a call. Bullard’s components (ratchet cover, brow pad, and ENP) are easy to remove to help facilitate quick and easy cleaning of your fire helmet. Material: Nomex®, Color: Black.

**CONTAMINATED PPE BAG**

Puncture resistant bag is designed to hold a full set of turnout ensemble equipment or other PPE after decontamination at the scene and for transport to the station or to your Verified ISP. Use this bag to help prevent cross contaminating the truck cab or other vehicles. Keep your gear bagged at the station until you are ready to perform advanced cleaning in the washer. The bag will hold a complete set of structural turnout gear and an SCBA pack.

**TRUE NORTH DECON BAG**

The Decon™ Bag has a very important job; to protect the firefighter from cancer-causing contaminates left on dirty turnout gear. With its airtight design and abrasion-resistant construction, this roomy bag reliably traps soiled gear and prevents carcinogens on PPE from migrating to the apparatus’ cabin until items can be safely laundered.

PPE GEAR WASHER EXTRACTORS

Fire contaminants can expose firefighters to cancer-causing carcinogens and eventually weaken the gear meant to protect them. Blood and body fluids can further expose them to deadly diseases. That’s why the NFPA recommends washing soiled turnout gear immediately after exposure to fire or body fluids. The NFPA also warns against cleaning gear in homes or public laundries to avoid cross-contamination. Continental washer-extractors properly clean turnout gear, removing contaminants and biohazards while preserving fabric integrity. They offer a compact design, so machines fit into unconventional locations like truck bays and utility rooms. The programmable control ensures water temperature, extract speed, cleaning chemicals, fill levels and cycle times are perfectly suited to properly clean and decontaminate turnout gear according to manufacturer recommendations. Continental washer-extractors are designed with the future in mind, and are programmable to handle future changes in protective fabrics. So, fire departments can feel secure knowing their investment will handle their laundry needs today and tomorrow.

BP243 CACHD-35 Hard Mount Extractor $8,700.95
BP244 CACHD-45 Hard Mount Extractor $10,922.95
BP245 CACHD-65 Hard Mount Extractor $13,090.95

CITROSQUEEZE® PPE/TURNOUT GEAR CLEANER

Preserves the quality of gear with Citrosqueeze®, the turnout gear cleaner used by some of the largest US fire departments and by authorized turnout gear cleaning and repair centers nationwide. Citrosqueeze® is formulated to remove the harmful and stubborn hydrocarbons and soils resulting from fires and chemical spills while maintaining the integrity of turnout gear. Citrosqueeze® PPE cleaner is tested and proven safe by Dupont, Southern Mills, W.L. Gore & Asscos. (Germany), 3M Products, Safety Comments International, Inc., and CIBA Specialty Chemicals.

BK064 Four 1-gallon Bottles $133.95
BK065 One 5-gallon Pail $165.95

VERSITOL SOLUTION
FOR ALL WASHING MACHINES

A highly-effective yet gentle multi-purpose cleaner. Safe for all automatic washing machines. Removes smoke residue from all washable fabrics and surfaces, especially from expensive turnout gear containing Kevlar®, Nomex®, Duck, Nylon, PBI, Hypalon, Nitrile Rubber and Fiberglass.

Ship. wt. 37 lbs.

AC258 Versitol Solution 1 gal./Case of 4 $126.95
SELECT-O-MATIC XD™ NOZZLES

SELECT-O-MATIC XD™ NOZZLES
AUTOMATIC LOW PRESSURE NOZZLE

The Select-O-Matic XD automatic handline nozzle adjusts to fluctuating water supply conditions to maintain effective pressure and a consistent fire stream in all flow ranges. It does so by generating back pressure by using a patented internal spring design that leaves the waterway unobstructed. This mechanism ensures a quality fire stream, regardless of flow. All indicators and markings are laser etched, with no labels to peel off or scratch. Its durability and efficiency are unmatched by any automatic nozzle on the market. Standard configuration with yellow protective bumper and yellow grip inserts.

- Forged shutoff body and bale handle
- Full round metal ball for optimum performance
- Spinning stainless steel metal teeth and ergonomic grip inserts
- Flow range from 60-200 GPM @ 75 psi

XD SHUTOFFS

Elkhart Brass XD Shutoffs and Playpipes are designed and constructed for rugged use and reliable performance. They are built strong with forged shutoff bodies and forged metal bale handles earning the title Xtreme Duty, or XD. They provide an excellent foundation for break-apart applications using smooth bore or fog nozzle tips. Elkhart Brass XD Shutoffs are available with a variety of options, including built-in smooth bore discharges that can be used with fog nozzle tips for maximum versatility.

XD SHUTOFFS WITH INTEGRAL SMOOTH BORE
- Available Discharge Sizes: 7/8", 9/16", 1", 1 1/16", 1 1/8", 1 1/4"

XD PLAYPIPES

Elkhart Brass XD Playpipe Shutoffs are designed and constructed for rugged use and reliable performance. They are built strong with forged shutoff bodies and forged metal bale handles earning the title Xtreme Duty, or XD. They provide an excellent foundation for break-apart applications using smooth bore or fog nozzle tips. Equipped with full round metal ball to deliver optimum stream quality regardless of attached tip. Standard configuration with black grip inserts. 2.5”NHT female swivel inlet.

SMOOTH BORE SINGLE TIPS

Elkhart Brass took two classic smooth bore tips to the next level. The 187-XD and 188-XD smooth bore tips feature durable urethane bumpers and laser etching. Extra knurling has also been added for increased control and grip.

SMOOTH BORE SINGLE TIPS
- Available Discharge Sizes: 7/8", 9/16", 1", 1 1/16", 1 1/8", 1 1/4"

SMOOTH BORE STACKED TIPS
- Available Discharge Sizes: 1/2", 7/8", 9/16", 11/8", 13/16"

CHIEF™ XD NOZZLES

The Chief XD takes the industry standard for handline nozzles to a whole new level. It offers accurate high volume flows at low tip pressures and is built tough like no other nozzle for Xtreme Duty, or XD. The Chief XD is the only handline nozzle that offers a forged shutoff body and forged metal bale handle for maximum strength. It also includes as standard a full round metal ball for the best stream performance, as well as fixed molded urethane or spinning stainless steel metal teeth that don’t break. All indicators and markings are laser etched, with no labels to peel off or scratch. Ergonomic grip inserts help with handling and can also be color coded. It’s durability and efficiency ensures an embedded level of safety for you and your crew, fire after fire.

• Color coded bumper along with bale handle and pistol grip inserts
• Spinning stainless steel or fixed molded urethane teeth
• Accurate and wide range of flows
• Available with 50, 75, or 100 psi operating pressure
• Fixed gallonage from straight stream to full fog
• Forged aluminum shutoff body and bale handle
• Dual drive shutoff with full round metal ball

DARLEY FIRE STORM NOZZLE
DELIVERS QUALITY AND PERFORMANCE

The new Fire Storm nozzle delivers the quality and performance you are looking for in a selectable nozzle with the value you expect from Darley. Choose from fog or straight stream patterns with flows from 30-150 gpm at 100 psi. Design includes spinning turbine teeth, single piece rubber handle and bumper and aluminum body construction. The nozzle has a 110° fog pattern, full-time swivel inlet, is capable of being flushed without shutting down and a 5-year warranty. Meets all aspects of NFPA 1964. Ship. wt. 5.1 lbs.

- Simple to operate pattern control (¼” turn from straight stream to fog)
- Great stream performance
- Flow Rates: 30-60-95-125-150 gpm @ 100 psi
- Raised lug marks straight stream for limited visibility operations
- Inlet: 1½” NH F
- NFPA 1964
- 5-year warranty
- Made in USA

BL569 Darley Fire Storm Nozzle $529.95

<tr>
<th>TURBOJET® NOZZLES</th>
</tr>
</thead>
</table>

The Akron® adjustable gallonage TurboJet® nozzle is unmatched in today’s fire service for its flexibility and flow control. The TurboJet® is an adjustable gallonage nozzle, where flow remains the same in all patterns at each GPM (LPM) setting. Use the TurboJet® one time and it is easy to see why it’s the “nozzle of choice” by fire fighters worldwide. Colored handles and pistol grip kit included.

- Improved handle for operational flexibility with extra room for the gloved hand and 1¼” hose
- Larger, more legible labels
- Easy to service & repair
- Meets new European Standard
- 1½” Mid-Range, Wide Range, High Range and 2½” TurboJets meet Insurance Services Office (ISO) Requirements
- 100 psi (7 bar) Rated Pressure Standard - 75 psi (5 bar) optional with Quality Flow Performance as Low as 50 psi (3.45 bar)
- Simple to operate (¼ turn from straight stream to fog, raised lug marks straight stream for limited visibility operations)
- Updated, ergonomic pistol grip for great handling
- Durable patent-pending design for easy “snap-on” grips and handle colors to help identify pre-connects and better manage inventory
- Tough, black nozzle body hard coat for expected performance and quality
- Etched smooth bore tips with pressure and flow indicators for easier training and operations
- Enhanced shutoff ball valve alignment when nozzle is open
- OPTIONS:
  - Wide-ranging selection of nozzle flow and pressure options
  - Nozzle handle and pistol grip color
  - Bumper color
  - Custom etch
  - Custom threads and choice of inlet type
  - Full range of certifications

AJ503  Mid Range Assault™ Nozzle with Pistol Grip $846.95

ULTRAJET HANDLINE NOZZLE
MULTI-PURPOSE NOZZLE

The UltraJet combines the powerful punch of a true smooth bore and the widespread protection of a full fog. This nozzle simplifies fire ground operations with intuitive functionality, the ability to change patterns without shutting down and matching flows in all patterns, so there is no need to control pressure at the pump. Meets all NFPA 1964.

- All-in-one
- Colored handles and pistol grip kit included
- Flow range from 118 to 210 gpm @ 50 psi
- One pressure, one flow, regardless of stream
- Standard operations, minimal training
- Full grip bumper for excellent operating control at the nozzle
- Inlet: 1½" NST, 2½" NST

Specify Tip Size: 3/4", 7/8", 9/16", 1"
BN578  UltraJet Handline Nozzle $1,098.95

PYROLITE SHUTOFFS

Tough, lightweight ball shutoffs with a full-time restricted swivel base ensures the handle can be positioned for easier operation. Ship. wt. 5 lbs.

- Colored handles and pistol grip kit included
- Specify with or without pistol grip
- Pair with an Akron Brass fog or smooth bore tip for break-apart combo of your choice

G-FORCE NOZZLES

The G-Force Series of Task Force Tips handline nozzles are designed to provide high performance fire streams in a highly affordable package. Offering your choice of regular or low pressure in fixed, selectable and automatic configurations, the G-Force nozzles integrate an exclusive slide style valve for turbulence free performance even when gated. Other high quality features include an inlet debris screen to prevent stream pattern disruption and easily identified color coded pistol grips and handle covers. Each nozzle incorporates G-Force’s unique stainless steel spinning teeth for a wide protective fog pattern, bonded front rubber bumper, reflective labeling, and a standard five year warranty.

- Durable polymer handle developed for the harshest fire ground operations while offering reduced maintenance costs
- Color-coded shut-off handle, grips, and Scotchlite™ labels
- Unique inlet debris screen - unparalleled protection from debris that can affect stream quality
- Flush without shutdown, integrated tactile pattern indicator, and bonded long lasting rubber bumper
- Unique slide valve design - total firefighter flow control and outstanding stream quality, even with the nozzle valve gated and the flow reduced
- Stainless steel spinning teeth for wide fog pattern - tactile indicator provides easy pattern selection
- Ship. wt. 5 lbs.

TFT HANDLINE AUTOMATIC NOZZLES

TFT handline nozzle is all conventional handline sizes in one. The wide range flow of 95-300 gpm allows The Handline nozzle to be used on any size hose. The TFT handline nozzle is fully automatic with a flow capacity of 95-300 gpm. The handline nozzle’s integral pistol grip is mounted below the valve. Handline nozzle consists of all lightweight materials and full time swivel. Ship. wt. 5 lbs.

- Use on any size hose
- Pressure assist flush without shutting down
- Patented slide type valve for turbulence free nozzleman flow control
- Six detent flow positions
- Molded rubber bumper with “power fog” teeth
- “Gasket Grabber” inlet screen.

VIPER FIRE FIGHTING NOZZLE

The Viper Industrial Heavy-Duty Nozzle with ergonomic rubber-coated pistol grip is an exceptional value for in-plant fire protection or wildland firefighting. It can break apart to help extend hose lines with both the tip and the pistol grip capable of shutting off. The spinning teeth add to the full fog pattern and the protective rubber bumper keeps the tip from sparking. A 95 gpm tip is standard and various tips are available making it the best value in its class.

VIPER SELECT GALLONAGE NOZZLES

- Compact and lightweight
- Easy maintenance
- Ergonomic design
- Pistol grip and ball shutoff

1" VIPER NOZZLE

Low flow, high quality, high performance MOP UP nozzle that flows from 5 gpm to 40 gpm. 1" select gallonage nozzle with ball shutoff, bail handle, and pistol grip.

VIPER AUTOMATIC NOZZLES

Rugged and durable nozzles that offer quality and at an affordable price in an automatic nozzle. You’ll have the versatility of variable pattern control from straight stream to wide angle fog and capability of flushing without pattern changes or shutting down. Spinning teeth give superior fog protection and reach. Carbon-composite shutoff ball valve and control are highly resistant to wear and corrosion and give greater impact resistance. Other features include full time swivel inlet, hi-impact absorbing rubber bumper and pistol grip. Made of anodized aluminum. Ship. wt. 6 lbs.

PLAYPIPE NOZZLES
Axial Playpipe with stacked tip smooth bore nozzle with 1 1/4", 1 1/8" & 1" outlets. Equipped with removable debris screen, durable metal ball and a smooth waterway. Available with full time 2 1/2" Swivel, NST only.

BL238 2 1/2" x 1 1/2" Playpipe with Triple Stack Tip, 1 1/4", 1 1/8" & 1" Outlets $785.95

ADJUSTABLE FOG NOZZLES
Adjustable Fog Nozzles are constructed of hard coated aluminum with brass and stainless steel internal components. They come with a heavy duty rubber bumper for added protection. These nozzles flow from 10 gpm or less and are ideal for wildland fire fighting, industrial fire protection and wash down applications.

AW102 1" 10-23 gpm Nozzle $107.95
AW103 1" 10-23 gpm Nozzle (Bumperless) $93.95
AW104 1 1/4" 20-60 gpm Nozzle $127.95
AW105 1 1/4" 20-90 gpm Nozzle $127.95

VIPER BLACK KNIGHT NOZZLE
The Black Knight is constructed in 1 1/2" size and adjustable from wide fog to shut off position, with flows up to 95 gpm. The Black Knight is much more durable and dependable compared to conventional polymer nozzles as it is highly reinforced with fiberglass which allows the nozzle to hold its shape under heat and pressure. It includes brass internal stems for corrosion resistance, and has a rubber bumper. Great for brush, wildland fires and industrial applications. Ship. wt. 2 lbs.

AW106 1 1/2" Viper Black Knight Nozzle 95 gpm $27.95

BLUE DEVIL NOZZLE
HIGH PERFORMANCE NOZZLE WITH SELECT FLOW

- New 90° rotation from 30° fog to straight stream (one twist of the hand)
- Raised lug indicators on the selector and fog barrels
- Rylostatic teeth in the nozzle head to break up the water
- Metal ball with front and rear seals to work under higher pressures (max 580 psi)
- 4 and 5 gallonage selection ring, without pattern change
- FLUSH without shutting down
- Constant flow through fog and straight stream
- Standard operating pressure @ 100 psi
- Swivel inlet NST or NPSH threads (2 1/2" NST only)

TRANSFORMER PIERCING NOZZLE SYSTEM

The Transformer Piercing Nozzle is designed to deliver water or foam solutions to areas inaccessible to the firefighter. A series of jets near the point apply a wide reaching pattern at a rated flow of 150 gpm at 100 psi. The easy to use and rugged, twist-grip shutoff valve, regulates nozzle flow without the need for an additional shut-off valve. The 3 port junction block and strike head allow the nozzle to be configured to short, medium, long and L-shaped combinations, making it easily adaptable to specific fireground situations. The Transformer Piercing Nozzle features a hardened point, is constructed of hard coated extruded aluminum, and includes a sturdy canvas carrying bag with compartments for each component.

BL670 INCLUDES:
- Twist-grip shutoff valve
- 3 port junction block with striking head
- 2” - 19” extension tubes
- 14” flow tube with piercing point

BL949 (SHOWN) INCLUDES:
- Twist-grip shutoff valve
- 3 port junction block with striking head
- 2” - 19” extension tubes
- 14” flow tube with piercing point
- Distribution nozzle rated at 150 gpm (570 l/min)
- Adapter that allows the distributor nozzle to be used on any 1 1/2” NH threaded hoseline

FEATURES:
- Re-configurable for specific fireground situations
- 150 gpm at 100 psi
- 3 port junction block and twist-grip shutoff valve
- Hardened point
- Canvas carrying bag

BL670 PA1 Transformer Piercing Nozzle System $750.95
BL949 PA2 Transformer Piercing Nozzle System $1,125.95

FYRESTICK PIERCING NOZZLE

THE PERFECT FIRE FIGHTING TOOL FOR:
- Attic and Roof Fires: Shingle, slate, metal, wood
- Underhood Vehicle Fires: Car hoods and doors
- Mobile Home Fires: Walls and doors
- Warehouse Fires: Garage doors and roofs
- Many more applications

FEATURES:
- Sledge-head replaceable anvil
- Patented spray head & piercing blade
- Spray jets flow 100 gpm @ 100 psi
- 20° angled replaceable hardened tip
- 1 1/2” NST hose fitting
- 16’’ penetration
- Slip-resistant handle surface
- Reinforced handle grip
- Designed and manufactured in the USA

BK008 Fryestick Piercing Nozzle $878.95

AUGUSTUS FIRE TOOLS

Augustus Fire Tool for Portable Extinguishers - Operates in conjunction with CO2, Pressurized Water or Dry Chemical extinguishers. Supplied with a six’ hose, to replace the existing hose on the extinguisher, and is fitted with a quick-connect male coupling to connect to the tool’s inlet handle female brass safety-lock coupling. Ship. wt. 14 lbs.

Augustus Fire Tool for Hose Lines - Designed to be used with a booster tank operation. The tool can be supplied from a booster tank using either a 1” booster line, 1 1/2” or 1 3/4” pre-connect hose line with a flow in excess of 55 gpm. Comes with a female swivel connection for either 1” or 1 1/2” hose equipped with National Standard Hose Thread or any thread. Use on vehicles and confined spaces. Portable or hose line. Ship. wt. 15 lbs.

AG065 Fire Tool with CO2 Hose $1,178.95
AG066 Fire Tool with Dry Chemical Hose $1,178.95
AG067 Fire Tool with Water Foam Hose $1,178.95
AK174 Fire Tool Portable Complete Package $1,293.95
AG069 Fire Tool w/1” Female Swivel $1,154.95
AG070 Fire Tool w/1” Flat Hose Whip & Swivels $1,238.95
AK175 Complete Package Augustus Fire Tool $1,521.95
900 SERIES PIERCING NOZZLES

These nozzles combine the best of durability, flexibility and are light in weight. They can accommodate extensions for extra reach (2’ per extension). They can also be driven in with a mallet if needed. This unique nozzle design needs to be driven in only 3.75” to have full penetration of the sprayer unit. Ideal for walls with coverage of up to 25’ in all directions. It’s powerful enough for fires in attics, basements, mobile homes, garages, vehicles or any confined space. These piercing nozzles feature a unique safety handle that allows a firefighter to safely hold the unit when a mallet is being used to drive the nozzle in. The handle is removable if needed. They come with 1.5” NST threads as standard; other threads are available. Designed for the rugged demands of the Fire Service worldwide. Mounting hardware is included. Made in the USA. Ship. wt. 9-24 lbs.

LIGHTWEIGHT NOZZLES

The Lightweight FlameFighter is a lighter weight 3’ applicator made of high-quality steel and aluminum. Comes with 1½” pistol grip ball shut-off. Providing quick and efficient access through roofs, doors, walls, floors and even foundation blocks to extinguish fires from attic to basement. It gets you to the source of a fire quickly. In just seconds one or two firefighters can insert the FlameFighter into virtually any desired entry point and generate a high pressure water spray covering up to 2,400 sq. ft. at 150 psi delivering 212 gpm. For vehicle fires, it easily pierces the hood, door or trunk to make for quick extinguishing. What’s more, whether you’re using water or foam, the precisely placed openings in the nozzle send out a pressuring spray that extinguishes or cools most any fire. Adapt to foam applications. Mounting hardware is included. Made in the USA. 5-yr. warranty. Ship. wt. 45 lbs.

USES:
- Houses
- Cars and trucks
- Garages
- Barns
- Mobile Homes

**CHIMNEY SNUFFER KIT**
The Chimney Snuffer quickly and safely suppresses chimney fires using an ultra-fine spray, greatly reducing potential water damage. The durable 5 lb. nozzle head is simply operated by a single firefighter and easily breaks through potential blockages within the chimney. Eight strategically placed nozzles provide 40 gallons per hour at 60 psi, allowing the Chimney Snuffer to be supplied by an attack line, 1" line, or even a garden hose. The entire package weighs less than 15 lbs. and is easily stored in apparatus compartment. **Ship. wt. 19 lbs.**

- **Includes:** Nozzle head, burn resistant rubber hose, 1" ball style shut off, 1 1/2" x 1" adapter and 3/4" garden hose adapter
- Compact, lightweight and simple to deploy
- Ideal for use in all types of chimney liners
- Head easily breaks through creosote buildup, nests or other debris

**Ship wt. 3 lbs.**

AR159  Chimney Snuffer Kit $695.95
The Mercury Quick Attack LE portable monitor sets a new standard in the market and is the only portable monitor that meets NFPA 1964 and EN-15767-1. It is compact and lightweight at 15 pounds and flows 500 GPM. Now even better, it can hit low at 10° and far up to 250 feet at 100 psi. Easy and quick to deploy, friction loss is minimal.

**MERCURY FLOWGUARD**

**INTRODUCING FLOWGUARD FOR THE MERCURY QUICK ATTACK LE PORTABLE FIRE MONITOR**

The Mercury FlowGuard is designed to reduce hazard risk for your crew and give them confidence while firefighting. Not only does the FlowGuard protect your crew, but also your pump. When the hose or the monitor experiences excessive, potentially hazardous movement while flowing, the Mercury FlowGuard, will automatically reduce water flow.

**DOES NOT SHUT DOWN ALL THE FLOW:**
- Reduces to about ⅓ of the flow
- No water hammer off the pump

**FAST AND EASY RESET:**
- Close monitor valve, turn reset button a ¼ turn, put hose back in line, open monitor valve and start flowing

**LIGHTWEIGHT AND COMPACT WITH A SLIM PROFILE:**
- Weighing 4.6 lbs. or 2 kg
- 9.125” long or 231 mm

**LOW FRICTION LOSS:**
- 8 PSI or less than 1 bar at 500 gpm or 1900 lpm (total friction loss at 500 gpm is 14 PSI or 1 bar with FlowGuard)

**MERCURY QUICK ATTACK LE PORTABLE MONITOR**

**HIT LOW, HIT HARD AND HIT FAR WITH THE NEW MERCURY QUICK ATTACK LE MONITOR**

The Mercury Quick Attack LE portable monitor sets a new standard in the market and is the only portable monitor that meets NFPA 1964 and EN-15767-1. It is compact and lightweight at 15 pounds and flows 500 GPM. Now even better, it can hit low at 10° and far up to 250 feet at 100 psi. Easy and quick to deploy, friction loss is minimal.

- Hits low at 10°
- Improved reach up to 250 feet with the NEW Mercury Adjustable Nozzle and the only fog nozzle with the reach of a smooth bore
- Only portable monitor to meet NFPA 1964 and EN-15767-1
- Compact size and weighs only 15 lbs. for quick deployment
- Easy open/close valve
- Strap attached with bag for easy stowing

**AW467** Mercury Quick Attack LE Monitor $1,816.95
**AW468** Stacked Tips $439.95
**AW469** Mercury Adjustable Nozzle 250-375-500 gpm $527.95
**AW470** Mounting Bracket $214.95
**FORESTRY MONITOR**

300 GPM (1140 LPM)

The Forestry Monitor is the latest addition to the Akron Brass electric monitor family. It provides an extremely rugged durable design ideal for brush and wildland firefighting. This compact monitor features a fully sealed integrated electrical control system with waterproof locking connectors for pinpoint stream positioning and accuracy. 

*Ship. wt. 25 lbs. (Not including nozzle.)*

- Low flow adjustable electric fog nozzle with flush 30-60-95-125 gpm
- CAN proportional speed joystick control
- Lightweight Pyrolite construction
- Integrated and sealed electronics
- Waterproof (IP 67 rated) locking connectors
- Simple “plug and play” installation
- 320° maximum rotation range with stops at +/-90°
- 135° maximum elevation range with stops at -45° and -20°
- 12v or 24v option
- Dimensions: 13” H x 11¾” W x 8½” D
- Inlet: 2”
- Outlet: 1½”

**SPECIFY: 12v or 24v Monitor**

**APOLLO™ 2-INLET MONITOR**

This lightweight, portable monitor (36 lbs. without tube and tip) can be either truck mounted as a deck mount or quickly removed and used remotely from the truck. Rugged Pyrolite® construction with 3” waterway and (2) 2½” clappered, swivel inlets (3” available upon request). Rated at 1250 gpm (deck flow), it allows less than 10 psi pressure loss @ 800 gpm. Comes with 3” flange for deck mount units. Available with or without tube and tips or with a master stream nozzle. *Ship. wt. 36 lbs.*

- 360° rotation when mounted in the deck mode, 180° in the portable mode
- Vertical travel from 80° above to 15° below horizontal with built-in 35° safety stop
- 3” waterway with cast-in turning vanes for efficient flow
- Direct mount - A combination 3” NPT female and 3” flange
- Carbide spikes for extended wear
- 1000 gpm monitor

**BLITZFORCE PORTABLE MONITOR**

The BlitzForce is Task Force Tips’ innovative, lightweight, and highly versatile portable attack monitor. Rated up to 500 gpm with either a combination nozzle or stacked tips, BlitzForce integrates a low loss waterway with positive locking valve control, and a corrosion preventing anodized and powder coat finish. An exclusive high strength tie-down strap and carbide tipped folding legs offer extreme stability in varying fire environments. With an integral stream shaper for superior reach and penetration performance, the BlitzForce delivers a 20’ side to side and a 20’ to 60’ up and down range of stream motion. 5-year warranty and Apparatus Storage bracket are standard.

- Stores securely for a rapid deployment in a space of only 19” x 9” x 12”
- Full flow 2” waterway provides 500gpm initial attack flows with only 9psi loss
- High strength folding aluminum alloy legs
- Horizontal rotation of 20’ either side of the center and an elevation range of 30-60° in unmanned mode, or a low 20° angle when manned, the BlitzForce provides amazing operational versatility
- Each monitor is produced from hard coat anodized aluminum alloy, stainless steel, and is powder coated for maximum corrosion and abrasion resistance

RAM XD MONITOR
NOW WITH 14° LOWER ATTACK ANGLE

The improved RAM XD features enhancements from the standard RAM monitor specifically designed for eXtreme Duty Use, or XD. The most significant enhancement is a new lower attack angle of 14°. It still features the largest deployed footprint of any portable monitor and only 9 psi friction loss at the rated 500 gpm flow at only 75 psi! The standard hydraulic safety system automatically increases down force under conditions that normally limit stability.

- Industry leading stability and safety
- Designed for unmanned operation

BN409  RAM XD Monitor $2,381.95
BB104  RAN (Rapid Attack Nozzle) $547.95
BB105  Mounting Bracket (Not Shown) $172.95
BB106  Triple Stacked Tips $340.95
BB107  Deluge Tip $215.95
BB108  Stream Shaper (For Stacked and Deluge Tips Only) $178.95

BRUSHHAWK ELECTRIC MONITOR
FLOW RATES UP TO 500 GPM (2000 LPM)

With a small swing radius and low stow height, the BrushHawk is the most compact monitor in its class. Perfect for limited bumper space on brush and wildland trucks while also improving field of vision. Utilizing CANbus control, the BrushHawk comes with a proportional joystick controller that provides monitor controls for up/down/left/right and nozzle fog/stream controls. The joystick also includes on/off and trigger control for the optional valve kit. No intermediate junction box is required between the joystick and monitor, streamlining installation and space requirements.

FEATURES:
- Designed specifically for wildland and quick attack firefighting
- Simple plug and play with full CANbus communication
- Field adjustable vertical and horizontal electronic stops
- Fully proportional joystick includes all monitor controls including trigger for water valve control
- Electronics are located and sealed within monitor body - no separate module required

SPECIFICATIONS:
- Inlet: 1.5" and 2.0" FNPT
- Outlet: 1.5" MNHT
- Vertical Travel: -30°/+90° or -45°/+45°
- Horizontal: Left 175°/Right 175° or Left 90°/Right 90°
- Swing Radius: 6.9" (175mm)
- Stow Height: 11.2" (285 mm)
- Weight: 13.5 lbs. (6.1 kg)

BP350  BrushHawk Electric Monitor Package - Includes Joystick $6,795.95

SIDEWINDER® EXM MONITOR

The Sidewinder® EXM is a complete monitor with an integrated control box, ready for 2-wire connection to any other EXM enabled component. It is ideal for front bumper applications and can be controlled via joystick. Its compact, elliptical waterway delivers up to 700 gpm. As standard, enabled for either wired or wireless EXM network connection. Motors NEMA 4 rated, 11-27 VDC power. Inlet: 2.5" F NPT or 2.5" F BSPP. Outlet: 2.5" NHT & BSPP.

- Ideal for front bumper installations
- 135° vertical travel; 350° horizontal travel
- EXM Technology-plug and play J1939 CAN Bus network

BN418  The Sidewinder® EXM 2.5" NPT/NHT, Monitor Only $4,769.95
BN419  Panel Mount Controller $1,054.95
BN420  Joystick Controller $2,645.95
EF1 REMOTE CONTROL MONITOR
TFT’S MOST COMPACT MONITOR WITH FLOWS UP TO 200GPM

The EF1 remotely controlled monitor is a great option for wildland and interface apparatus. At less than 13” (319mm) tall, the EF1 is an ideal forestry bumper turret. The EF1 is hard-coated aluminum alloy which is then powder coated inside and out. All electronics are tightly contained in a sealed control box that is part of the monitor casting. Monitor wiring is reduced to a minimum and installs easily using a one plug connection.

CROSSFIRE® MASTER STREAM APPLIANCE

Crossfire® utilizes the Safe-Tak valve to help ensure firefighter safety. It’s a lever-operated butterfly valve connected to a foot on the base of the monitor. In normal operation, the valve is open allowing maximum flow of 1,250 gpm. However, should the monitor start to tip for any reason, the valve closes, cutting the flow area by 90% and reducing the reaction force. By not closing completely, it allows a continued flow, minimizing water hammer. Take a look at all the great features of the Crossfire®. Features include safety plunger, high-visibility gauge, multiple inlets (double 2½” or single 3”, 3½”, 4”, 4½” NST, 4” or 5” Storz), rotational lock lever, quick connect base, stainless steel legs with carbide-tipped spikes, automatic drain and safety strap. Ship. wt. 50 lbs.

PERMANENT MOUNT STATION MONITORS

Station monitors were specifically designed to meet all the needs of municipal and industrial applications. The balanced, full flow, seamless, 2½” single waterway configuration reduces friction loss, improving streams and distance. Operates easily at all pressure ranges. 140° vertical, 360° horizontal (750 gpm); 140° vertical, 360° horizontal (1200 gpm). Carbon steel construction with stainless steel discharge and Zerk fittings for lubrication. Your choice of permanent mount tiller bar or steering wheel handle. Red epoxy finish inside and out for effective corrosion resistance. 3” flange base. Ship. wt. 50 lbs.

- Less friction loss
- Single waterway
- Carbon steel construction
- Stainless steel discharge
- Balanced flow design
- 2½”, 3” or 4” waterways

DARLEY 800 HOSE
POLYESTER DOUBLE JACKET 800 PSI HOSE

- Designed specifically for the toughest fire fighting jobs
- Long-lasting synthetic rubber lining and rugged double jacket construction
- Jackets are woven from the finest high-tensile
- 100% polyester yarn
- Tight weave in both jackets mean no drying is required
- Mildew resistant
- First choice of many fire departments and industrial users
- Color: White

 HOW TO ORDER DARLEY 800 OR CORD HOSE
Length: All hose will be shipped in 50' lengths. 75' or 100' lengths are also available (call for pricing).
Couplings: All hose will be shipped with hard-coated, lightweight, rocker lug couplings, unless otherwise specified (brass couplings available for an additional charge).
Threads: NST (NH) threads are standard. IPT (NPSH) available at no additional charge (other threads available for $5.00 per set).

DARLEY CORD HOSE
ALL-POLYESTER DOUBLE JACKET 800 PSI HI-TECH POLYMER IMPEGNATION HOSE
Darley - Cord 800 is a unique attack-grade fire hose, developed specifically for the rigorous environment of fire department use.

- All-polyester double jacket construction
- Ozone-resistant, high-tensile synthetic rubber liner
- Most advanced fire hose in the industry
- Lightweight and extremely durable
- Outside jacket is thoroughly impregnated with a heat-set High-Tech Polymer, providing durability and ease of maintenance (superior to Hypalon)
- Completely immune to any effects of mildew

MAGNUM 800- NYLON HOSE
This double jacket attack hose is manufactured using tightly woven entangled filament nylon 6.6 yarns in both the inner and outer jackets to promote abrasion resistance and kink-resistance. With higher tensile strength than that of polyester, the Magnum 800 is designed for aggressive fire department use.

- 100% all synthetic entangled NYLON 6.6 Tube
- EPDM rubber lined for the best ozone resistance

TRU-ID HOSE

Introducing TRU-ID, the first and only true internal diameter hose specifically designed for combat fire fighting. Classic performance in an innovative design and rugged construction guaranteed to withstand the rigors of the fire ground. TRU-ID comes standard with lightweight, laser engraved, extruded aluminum alloy couplings. These anodized, threaded expansion ring couplings are guaranteed for the life of the hose. Virtually kink resistant, TRU-ID handlines are designed for use with low pressure/high volume nozzles built to reduce hose whip and optimize friction loss, all while delivering targeted flow rates, guaranteed. Seize the power of targeted flows with command and control performance, specify TRU-ID. Backed by a 10-year warranty.

FEATURES:

- True internal diameters
- Available diameters: 1¾", 2½", and 2½"
- Heavy duty EPDM rubber liner
- Lightweight 100% polyester double jacket
- Heavy duty EPDM rubber liner
- Mildew resistant
- Comes standard with lightweight, laser engraved, extruded aluminum alloy couplings

COMBAT READY HOSE

This hose is designed specifically for aggressive interior fire attack operations. The outer jacket is woven from staple polyester yarns over an inner liner consisting of a one-piece extruded through-the-weave tube. Combat Ready is manufactured in a high-visibility white with one red and one blue stripe running the length of the hose. This heat-resistant, drag-resistant, ozone-resistant and kink-resistant hose has superior friction loss characteristics. Ship. wt. 18-26 lbs.
DARLEY EXTRUDED RUBBER ATTACK HOSE

Darley Extruded Rubber Attack Hose is specially formulated with a rubber compound that provides a tough cover that resists tear and abrasion, snags, hot embers, cuts and most chemicals.

DARLEY HI-RISE HOSE

Lightweight hose ideal for high-rise packs. At about half the weight of standard double jacketed hose, it is easier and less stressful to carry up stairs. Made of 100% synthetic nylon and completely protected by an abrasion and chemical-resistant orange colored nitrile rubber cover. 1 1/4" size is coupled with 1 1/2" NST lightweight anodized couplings standard. Tensile strength of 2000 psi. 50' of Darley Hi-Rise Hose coils to only 10". 5-year warranty. Color: Hi-visibility orange.

A. DARLEY BOOSTER HOSE

For service pumpers we recommend our BG280 and BG281 Booster Hose. It assures all around dependable service and years of trouble-free use. **Couplings come in aluminum pin hole. NST.**

B. LIGHTWEIGHT BOOSTER HOSE

- Lightweight, kink resistant, non-collapsible
- Equipped with full flow expansion ring and 1" lightweight aluminum RTC (pin hole) couplings
- Single jacket, 1005 high tensile strength virgin polyester yarns; smooth TPU lining ensures the minimum friction for maximum flow
- Highly resistant to ozone abrasion, offering outstanding low temperature performance, excellent mechanical properties, and as good resistance to oil and grease
- 300 psi service pressure

DARLEY CLEAR PVC SUCTION HOSE
LIGHTWEIGHT - TIGHT BEND RADIUS

This lightweight suction hose can be easily handled by one firefighter. Black ridged helix (1\1/2" x 10’ and 2\1/2" x 10’) are white/clear) and smooth bore give this hose unrestricted flow. Clear flexible connector web allows for visual monitoring of incoming water. Sold standard in 10-foot lengths, coupled. NST threads standard. Ship. wt. 45 lbs.

- Operates in extreme temperatures
- Sold complete with end couplings
- For drafting only

AA841 Specify Size:
1\1/2" x 10' RLF x RLM $61.95
2\1/2" x 10' RLF x RLM $120.95
3" x 10' RLF x RLM $144.95
4" x 10' LHF x RLM $277.95
4\1/2" x 10' LHF x RLM $339.95
5" x 10' LHF x RLM $339.95
6" x 10' LHF x RLM $385.95

AW135 Specify Size:
4" x 10' Storz LH $365.95
5" x 10' Storz LH $478.95
6" x 10' Storz LH $617.95

DARLEY HARD SUCTION HOSE

otypic Size | Price
---|---
2\1/2" | $167.95
3" | $199.95
4" | $349.95
4\1/2" | $462.95
5" | $617.95
6" | $671.95

FEMALE BASKET SUCTION STRAINER-DIFFUSER

Basket strainers provide the best performance when drafting, while reducing debris from entering a pump and provides full flow into the suction hose. This same device can be used to diffuse water when testing hydrants to diffuse the flow safely. Ship. wt. 45 lbs.

- Available in female sizes 2\1/2" through 6"
- NH, NST, or NPSH threads standard
- Rocker lug for easy secure tightening
- Includes flat face gasket

FEMALE BASKET SUCTION STRAINER-DIFFUSER

Cat# | Size | Price
---|---|---
BP184 | 2\1/2" | $131.95
BP185 | 3" | $136.95
BP186 | 4" | $156.95
BP187 | 4\1/2" | $162.95
BP188 | 5" | $162.95
BP189 | 6" | $213.95

BARREL STRAINERS

Bottom and bronze inlet are welded into one unit. Cylindrical holes provide a greater area of entrance for the water and allow full capacity pumping. Made of coated aluminum. NST threads. Ship. wt. 7 lbs.

AM107|
| 2\1/2" | $124.95
| 3" | $132.95
| 4" | $168.95
| 4\1/2" | $193.95
| 5" | $193.95
| 6" | $193.95

FOOT VALVE BARREL STRAINERS

Opens and closes automatically when you start and stop drafting water. Allows full flow for capacity but when you stop pumping it closes instantly and keeps the pump primed by preventing water from flowing out. Complete with eyebolt for rope. Made of coated aluminum. NST threads. Prices on request for other threads. Ship. wt. 28 lbs.

| 6" | $360.95
B. GRIPPER HOSE SYSTEM
AN EFFECTIVE WAY OF TRANSPORTING HOSE

The Gripper Hose System consists of three heavy duty nylon straps, with a padded shoulder sling, all sewn together to create a hose harness. The gripper has a padded high visibility shoulder sling, with three 2” wide, 42” long, 3000 pound strength webbing to secure the hose and carries 150’ of 1 3/4” hose. Utilizes cam buckles and torque rings and is easily opened with a gloved hand. The 42” long straps have the capacity to hold more hose than the average firefighter can carry. Ship. wt. 4 lbs.

AF151 Gripper Hose System $149.95

C. HOSE VICE
CARRY MORE HOSE EASIER

The Hose Vice is the latest in the evolution of our hose carrying systems. This product incorporates many ideas given to us by our customers. Features include: an updated shoulder strap, which is adjustable and removable. The shoulder strap is long enough that a firefighter can carry the bundle across the body for better balance. Two fire-fighters can also carry The Hose Vice. Handles have been incorporated into the ends of the four straps, along with two molded rubber grips on top. The overall length is 35” and each strap has an adjustable circumference range of 20” - 38”. Capacity is 150 OR 200’ of 1 3/4” hose as shown. 3M reflective has been added to increase visibility. Made in the USA. Ship. wt. 3 lbs.

AK187 Hose Vice $255.95
NEVER LOSE YOUR TOOLS
The Hydrant Strap increases the speed and safety of your hydrant hook-ups. The complete Hydrant Strap includes a six-foot loop of heavy-duty nylon webbing fastened to the end of your supply or suction line by a three-foot hose strap. The hose strap is made from seat belt material with a seat belt type buckle. Attached to the hose strap is a tool pouch containing the tools needed for hydrant hook-up. The firefighter stands on the ground and pulls the Hydrant Strap fastened to the end of the supply line in the hose bed and loops the strap over the hydrant. The engine can then lay the hose line. After the hose lay is finished, it is simply unbuckled. *Ship. wt. 1 lb. without tools.*

**AC961:**
- Hydrant wrench
- 2 - Spanner wrenches for rocker lug couplings

**AC962:**
- Hydrant wrench
- 2 - Spanner wrenches for 4” or 5” Storz

**AC960** Hydrant Strap without Tools $54.95  
**AC961** Hydrant Strap with Tools $97.95  
**AC962** Hydrant Strap with Tools $97.95

**HYDRANT BAG**
A large 22 oz. vinyl bag designed to hold all of the equipment you need for a hydrant operation. The Velcro® closure on top allows for quick access with your gloves on. This bag will hold large gated valves, wyes, wrenches, reducers, etc. A high density padded bottom helps to protect equipment. The molded TUFF bottom provides an almost indestructible base. *Dimensions:* 24”Lx12”Wx9”H.

**BL628** Hydrant Bag $122.95
SUPER SPANNER WRENCH
Fits any standard 4” and 5” Storz or locking type Storz coupling on one end; the other end fits 1 1/2” to 3” rocker lug type fire hose couplings. Use the center slot as a gas shutoff. Wrench set includes 4 Super Spanner Wrenches and Mounting Plate. *Ship. wt. 1-7 lbs.*

BOWRING PERSONAL FIREFIGHTER TOOL
The Bowring firefighting tool is 8.1” tall 5.9” wide .375” thick and weighs 22oz, so it easily fits into a firefighters bunker pants. It is made of 17-4 steel and incredibly strong with no plastic or moving parts.

- Hose advancement
- RIT firefighter drag
- High-rise tool (use as a cheater-bar, standpipe wheel, spanner wrench)
- Gas shutoff
- Windshield removal and glass ripper
- O2 wrench
- Door wedge
- Nance drill - Denver drill
- Water shutoff
- Mattress hook
- Forcible entry tool
- Spanner wrench (fits pin lugs, rocker-lugs, and storz lugs)
- Gypsum board ripper (cleanly rips through while looking for hot spots)

When shopping for firefighter forcible entry tools, your department won’t find a more versatile personal carry tool than the Wellz Tool™. This multi-use tool is small enough to fit into a responder’s pocket, while its folding design provides a number of essential uses. The folding handle can be angled 90° to block hinges, 135° to breach doors, 0° to utilize built-in tools and 270° to create a different prying vantage. **Dimensions:** 4.3”Hx7.5”Wx9.5”L. **Ship. wt. 4 lbs.**

- **Teflon-Coated Shaft:** Provides smooth actuation
- **Knurled Finger Nut:** Tightens and locks tool into varying positions
- **Hydrant Socket:** Makes this the most versatile forcible entry tool
- **Shoulder Bolt:** Acts as a durable hinge in this foldable design
- **Open:** 2”Hx14”L, **Closed:** 2”Hx7.5”L

**PREMIUM QUALITY SPANNER WRENCH**

It’s made from aerospace alloy aluminum. This means it’s ultra-light and super strong. Plus, because it is non-sparking, it’s safe to use in hazardous situations. You’ll never go wrong with the best. Compatible with most brackets. Fits up to 31/2” couplings, has gas cock shut-off. **Ship. wt. 1 lb.**

**WELLZ TOOL™**

AJ281 **Premium Quality Spanner Wrench** $26.95

**DARLEY SPANNER WRENCH**

Lightweight aluminum spanner. Includes belt hook eye, hammer head and gas cock shut-off. Fits couplings from ¼” to 4”. **Ship. wt 1 lb.**

B397 **Darley Spanner Wrench** $15.95

**DOUBLE END SPANNER WRENCH**

Double end hole type spanner, fits ¼” and 1” booster hose couplings and 2½” hole type fittings. **Ship. wt. 1 lb.**

L800 **Double End Spanner Wrench** $18.95

**FOLDING SPANNER WRENCH/BELT RING**

Ultra-light non-sparking folding spanner with extra wide pry end, and gas shut-off. Fits couplings from ¼” to 6”. **Ship. wt. 1 lb.**

AZ357 **Folding Spanner Wrench/Belt Ring** $41.95

**HYDRANT WRENCH**

- Fits hydrant stems both 1” (square and pentagon) and 1½” (pentagon)
- Will work on worn stems
- No more adjusting, just put the open end over the hydrant stem and pull the handle, the harder you pull, the tighter the grip
- To release, just relax and lift it off the stem
- Will actually stay on the stem and not in the mud while you work
- The spanner end of the wrench is designed for use on 2½” and larger fittings
- **Weight:** 5 lbs.
- **Length:** 18”

**RES-Q-RENCH**

- Spanner wrench works with 1½” and 2½” rocker lug couplings
- Only folding spanner that works with 4” & 5” storz locking couplings
- Made from glass-reinforced nylon
- Folds compactly into your pocket
- Integrated carbide tip
- Heavy-duty seat belt cutter
- Prying tool
- 12” open; 8” close
- **Ship. wt. 1 lb.**

**ROCKER LUG & STORZ WRENCH**

BL425 **Hydrant Wrench** $90.95

**NEW**

**AZ357**

**FOLDING SPANNER WRENCH/BELT RING**

Ultra-light non-sparking folding spanner with extra wide pry end, and gas shut-off. Fits couplings from ¼” to 6”. **Ship. wt. 1 lb.**

**AM292** **Res-Q-Rench** $22.95
**EXPANSION UNITS**

Complete expansion unit assembly for attaching 1" through 6" couplings. Note: Red Head expansion units are compatible with some other manufacturers’ expanders. Please specify the manufacturer and model. Ship. wt. 1 lb.

**BRUTE X-PANDER**

Weighing 45 lbs. and 32% less than the Brute I, the X-Pander is perfect for in-house or mounted in a service van for field repairs. Requires 50% fewer strokes to expand and 75% fewer strokes to release than the Brute I. The X-Pander can couple from 1" through 3" couplings. Ship. wt. 50 lbs.

AZ356  Brute X-Pander  $3,178.95

**BRUTE BENCH MODEL**

**ATTACH 1"- 6" COUPLINGS**

- 3,000 lb. pump - 2,500 lbs. workable
- 1½ h.p. single phase 220V 3
- 3450 rpm motor
- Foot pedal control
- Average cycle time 13 seconds
- Cylinder - 6" stroke, 4" bore

- Manually set external pressure relief valve
- Dimensions: 22"Wx22"Dx16"H
- Total thrust 38,000 lbs.
- Oil capacity 9.5 gallons

AF201  Brute Bench Model  $7,771.95

**HOSE CUTTER**

- Heavy duty aluminum construction
- Powder coated for a tough, hard finish
- Easy and safe to use
- Ratchet handle raises & lowers steel blade
- Handgrips for easy transporting
- Makes clean, straight cuts
- Cuts hose up to 6"

BH170  Hose Cutter  $1,426.95

**EXPANSION RINGS**

The metal used is a scientifically correct mixture which is best adapted for the purpose of giving the maximum coefficient of expansion without fracture. Ship. wt. 1 lb.

QUIC-BRIDGE® HOSE GUARDS

One of the most economically priced hose bridges available and requires little storage space. Made of extruded aluminum to accommodate 16" or 24" widths (5" hose). Each bridge consists of one center hose guard and two ramps; neoprene feet hold the bridge firmly in place and vehicle tires do not come into contact with the hose line. Remove one ramp and bridge can be used to jump a curb. Ship. wt. 192 lbs.

Sold in sets of two bridges
AM098 16" Hose Ramp $971.95/set
AM099 24" Hose Ramp $1,269.95/set

HOSE RAMPS

No rust aluminum supports up to 50,000 lb. loads. Ramps are traction ribbed and stiffened for extra strength. Other features include non-skid bottom, one piece construction and won’t bend or sag. Easily stack sets for convenient transport. Ship. wt. 90 lbs.

Sold in sets of six 2’ sections
J545 16” Hose Ramp $780.95/set

HOSE WASHER

Effective in cleaning all types of dirty and caked hoses. Simply connect to a fire hydrant or pumper (40-60 operating psi recommended) and these units will blast the hose clean of all debris. These machines operate by using water pressure to produce a conical multi-jet water stream while using no moving parts. This ensures long life and no loss of performance over time. Manufactured and assembled in USA.

AJ515 - automatic feed washer, 1.5” NST connection, AJ453 - manual feed washer, 2.5” NST connection. Ship. wt. 15 lbs.

AJ515 3” Max Hose Size, 1.5” NST Connection $566.95
AJ453 5” Max Hose Size, 2.5” NST Connection $1,067.95

HOSE JACKET SLEEVE

STOPS A LEAKY HOSE

Use for emergency repair of burst/leaky hose or even as an emergency adapter for the connection of two hose lines with different threads in situations where pressures do not exceed 150 psi. Made of reinforced cast Akrolite® body with molded neoprene inner liner. Fits all 2½” hose (from 2 3/4” to 3 5/16” O.D.) Measures 13” long. Red only. Ship. wt. 20 lbs.

B683 Hose Jacket Sleeve $883.95

HOSE SHUTOFF CLAMP

A lightweight shutoff clamp for double jacket hose up to 3”. Press down on handle and the rubber jaws lock in place. Comes complete with mounting bracket. Ship. wt. 18 lbs.

H875 Hose Shutoff Clamp $635.95

HEBERT HOSE CLAMP

Saves time and labor when removing burst hose, relieving pressure on a line or changing fittings without damaging hose. Simple to operate and releases quickly. Dimensions: 12½”Hx15”Wx5½”D, 6” opening. Ship. wt. 24 lbs.

G301 Up To 3” Hose $271.95
G30102 Up To 6” Hose $454.95
G30101 Running Board Bracket $51.95

HOSE CLAMPS
FIRE HOSE TESTER WITH TOOL TRAY

The Flamefighter hose tester features an industry leading design which incorporates the pump mounting position into a wrench and adapter tray keeping necessary tools sorted and off the work floor. Made specifically for use in the fire industry this unit is capable of testing up to 6” diameter hose and up to 300’ per discharge. The wheeled cart is able to fit through a standard 36” doorway, is equipped with 10” tires for superior maneuverability, and features stainless steel ball valves for years of trouble free operation. Options available include 1.5” or 2.5” NST adapters for hassle free connecting. The pump is capable of pumping 4 gpm at 600 psi. This hose testing unit is manufactured and assembled in USA.

HOSE ROLLERS

REMOVE AIR & WATER EASILY FROM YOUR HOSE

Hose Rollers are designed to remove air and water from your 1 1/2” to 5” single or double jacket hose. Heavy duty nylon rollers are durable for years of dependable service. Simply feed the hose through and walk the length of the hose. Two-person model AF155 is hinged at one end to clamp around the hose. One-person model AF154 slips over the end of the hose and the handles compress the rollers against the hose. Ship. wt. 10 lbs.

WATER SUPPLIES

1.800.323.0244   |   EDARLEY.COM/WATER

Darley offers its own Flow Test Kit with several outstanding design features that make it easier to use than kits offered by others. Precise flow measurement accurately measures flows from 160-1500 gpm within 30-200 psi pitot gauge range. Reliable conversion table-flow results based on standard flow charts and proven with extensive water volume tests. Liquid-filled dial gauge 3½" diameter, Grade A-1% accuracy, 0-200 psi range and vibration free readings. Tester body nozzles and swivel inlet are made of heat-treated aluminum alloy. Parts are hard-coated anodized to provide an extremely durable, protective surface. Automatic coupling design for instant and positive nozzle bore change. Renewable Brass Pitot Blade allows easy, inexpensive pitot blade replacement. Order the complete Darley Flow Test or Economy Kit. Ship. wt. 18 lbs.

**COMPLETE FLOW TEST KIT**
- Set of Six Nozzle Tips: 1", 1½", 1¾", 2", 2½":
- One - 2½" NST Female swivel inlet

- Flow test kit comes standard with 4 tip sizes: 1½", 1¾", 2", 2½"
HYDRANT DIFFUSER
PROTECT PROPERTY AND VEHICLES FROM POSSIBLE WATER FORCE DAMAGE

Created to overcome the constant problem of traffic disruption and water force damage to property and vegetation in the testing area. Discharge stream velocity is slowed and redirected while flowing through a series of steel grids. The pattern diverter, on outer edge of discharge cone, directs diffused stream to side or down, depending on adjustable settings. Slots in the case inlet adapter permit a firm hold of pitot gauge against the full water force before diffusion, assuring a more accurate pitot reading. The pipe-like projection at the right serves as a handle for easy threading during hydrant attachment. Even high pressure hydrants delivering 1125 gpm are now limited to a discharge distance of 5’. Fully in accord with “Special Interest Bulletins” of the American Insurance Association. 2½” NST threads. 17”Hx17”Wx29”L. Ship. wt. 22 lbs.

DARLEY PUMP AND HYDRANT TESTING PIEZOMETER

Take pressure readings and determine the amount of water flowing from openings up to 8” in diameter with this Piezometer. Accurately reads flowing pressures to check the fire fighting efficiency of pumps and hydrants. You may have gauges that give you the static pressure (the pressure when no water is flowing), but without the Piezometer, you cannot determine how much water can actually be delivered through the outlet with out checking the flowing or velocity pressure. Constructed of all brass tube with bleeder valve. Made to Underwriters specifications; Discharge table included. Ship. wt. 2 lbs.

DARLEY HYDRANT FLAGS

Darley flags improve hydrant’s visibility when covered by snow or weeds. Simply remove the 2½” cap, slip on and position the flag in an upright position, then tighten cap. It’s that easy. ⅛”x52” steel rod and 3”x5” flag have a powder-coated red finish. Ship. wt. 3 lbs.

NEW LOW PRICE

SOLD IN LOTS OF 25 OR MORE

HYDRANTPRO DIFFUSER

• New Design: Lightweight with quality aluminum swivel adapter
• Estimates gallons flushed
• Available in 100psi/1680gpm or 160psi/2120gpm high quality liquid filled gauge
• Diffuses flow to reduce damage while flushing hydrant
• Swivels to Aim Flow - Point the flow where you want to flush
• Ruggedly constructed to provide years of dependable service
• Replaceable pressure tube assembly and ball-bearing swivel hydrant adapter

BK126 2½” NST HydrantPro Diffuser (100psi/1680gpm) $569.95
BK127 2½” NST HydrantPro Diffuser (160psi/2120gpm) $569.95
AM163 Inner Tube for BK126 & BK127 $38.95
BK128 Carrying Case for BK126 & BK127 $105.95
AF331 4½” NST Swivel Piezo Diffuser $781.95

DARLEY FIRE HYDRANT PRESSURE GAUGE
TEST STATIC PRESSURE

Shows pressure in the main or hydrant. Complete with 2½” gauge, bleed-off valve and chrome-plated brass cap. Easily installed by removing the hydrant cap and screwing on the pressure gauge assembly. Rocker lugs afford an easy grip with a spanner wrench. Gauge instantly shows the static pressure in the hydrant when it is turned on. Dial pressure is 100 psi unless 200 psi is specified. Made only for 2½” NST. Ship. wt. 5 lbs.

R530 Fire Hydrant Pressure Gauge $105.95

S672 Hydrant Diffuser $560.95

R558 Piezometer with Gauge and Case $175.95
F626 Piezometer with Gauge $144.95
R560 Piezometer Only $120.95
U359 Piezometer with Liquid-Filled Gauge and Vibration-Free Performance $204.95

F626 Piezometer with Gauge
U359 Piezometer with Liquid-Filled Gauge and Vibration-Free Performance

SOLD IN LOTS OF 25 OR MORE

NEW LOW PRICE
The 2 ½" Hose Monster™ utilizes a built-in-pitot and is used for hydrant flow testing, hydrant flushing, and fire pump testing. The patented design minimizes damage to landscaping and passing autos by controlling and dramatically reducing the force of flowing water. The 4" and 4 ½" Hose Monster™ utilizes a precisely machined orifice plate and is used for hydrant flow testing, hydrant flushing, and fire pump testing. The Hose Monster should be used with a length of hose; attachment directly to the hydrant is not recommended. Ship. wt. AK246: 27 lbs., AK248: 45 lbs.

- AK246: Use for pump testing and hydrant flow testing; includes built-in pitot system
- AK248: Use for hydrant flow testing; includes internal orifice plate for flow rate readings

AK246 2½" Hose Monster® $1,260.95
AK248 4½" Hose Monster® $1,329.95

**BIGBOY HOSE MONSTER™**

The BigBoy Hose Monster™ is used for fire flow testing of hydrants, water main flushing, and fire pump testing from connections 4" or larger. The BigBoy Hose Monster incorporates the patented FM approved Pitotless Nozzle™ so rocks and flushing debris pass through without causing pitot damage and accurately measures water flow-rates from 750 to 2,700 GPM. The BigBoy Hose Monster body is made from Polypropylene and the Pitotless Nozzle is made from precision machined aluminum. The BigBoy Hose Monster is intended to be used with a hose and should not be attached directly to a hydrant. The unit comes standard with a 4" NH connection and can be flowed from a larger sized connection by use reducing hose or adapters. Your hose choice will depend on: 1) the diameter of the water source connection, 2) the thread or connection type, and 3) the hose length.

**FEATURES**

- Perfect for Hydrant Flow Testing or Water Main Flushing
- Uses the patented FM Approved Pitotless Nozzle™ so you’ll never have to change out a pitot because it got hit by a rock.
- Read your GPM flow-rate directly on the gauge face while flowing
- Weighs only 13 lbs. yet handles high flow hydrants up to 2,700 GPM
- 4" NH standard connection size, other thread specs are available.
- Flow from 4.5", or 5" STORZ connections with additional accessories

**INCLUDES:**

- Big Boy Hose Monster Body: Made from glass-filled Polypropylene
- Big Boy Pitotless Nozzle 4": Measures 750 to 2,700 GPM; Factory-installed
- Big Boy GPM Gauge: Reads both GPM flow-rate and psi; 4" dial; liquid-filled

**TAKING FLOW READINGS**

The BigBoy GPM Gauge is calibrated to read flow-rate directly from the gauge face. No conversion chart is necessary. If you use another pressure gauge instead of the BigBoy GPM Gauge the BigBoy Hose Monster flow chart must be used to convert from psi to GPM. A 0-60 psi gauge is the most suitable range.
FOUR-OUTLET HOSE TESTER
Offers 3 gpm at 500 psi, powered by a 1 HP 50/60 hertz TEFC motor. Capable of testing to 6" diameter coupled hose, up to 300 feet. Features 4 independently controlled stainless steel ball valves, with 1½" NST male discharges and 2½" NST female inlet swivel. Ship. wt. 175 lbs.

TWO-OUTLET HOSE TESTER
Offering the same features as the model AA930, in a portable Two-Outlet unit. With a footprint of 28"x23"x19", this lightweight, compact design is perfect for tight and confined spaces, such as on board ships and vessels. Ship. wt. 127 lbs.

AA930 Four-Outlet Hose Tester $2,490.95
AF416 Two-Outlet Hose Tester $2,096.95

FIRE HOSE TESTER
A full line of hose testers offering various gpm and pressure ratings. Featuring four independently controlled stainless steel ball valves, 1½" NST outlets, 2½" NST swivel inlet, enclosed in a rugged, heavy-duty, welded steel chassis. Ship. wt. 194 lbs.

STANDPIPE FLOWMETER

The standpipe flowmeter is made to hook up to the standpipe in highrise applications ensuring you have adequate flow and pressure at the fire floor. It measures both flow and pressure accurately using an integrated sensor, having a completely self-contained battery powered digital readout. Constructed of anodized aluminum, with a swiveling 45° elbow on the inlet side to reduce kinking. The unit is powered by a 9V rechargeable lithium battery which will power the unit for up to 5 hours. It has a low battery warning which activates when the battery has 90 minutes of life left, as well as a battery check feature.

NEW

AKROFLOW™ PORTABLE FLOW METER & TEST KIT

Knowing your flow is critical to optimal on-scene operations. The AkroFlow Portable Flow Meter & Test Kit provides the necessary components to accomplish all your water flow testing needs. Included in the Flow Meter & Test Kit is the most highly accurate portable flow meter, the AkroFlow, plus the gauges and adapter commonly used when performing water flow testing.

STANDPIPE FLOWMETER

- Compact design for high-rise kit applications
- 9V battery operation with quick change housing
- Dual LED display - Pressure and Flow
- Battery saving Standby operation
- One touch battery meter
- Lightweight aluminum construction

NEW

INSIGHT PORTABLE FLOW AND PRESSURE METER

Use the new Insight Portable Flow Tester to determine the flow and pressure capabilities of suppression systems or flow test your automatic nozzles, pumpers or hydrants. Test your department’s effectiveness, calibrate your automatic nozzles, pumpers or hydrants. All Insight Portable Flow Tester series meters incorporate a new processor that allows for new features including multiple flow point calibration and multiple tube size. The Insight Portable Flow Tester series is an easy-to-use meter which displays gpm directly. Cap the tube for static pressure.

- Flow readout in 4-digit LED display & accurate to within 1% or reading
- Based on the DFA400 series flow meter
- Displays both flow rate and total flow
- Paddle wheel flow sensor
- Hard shell case with handle (10"x9"x7"

FLOW METERS

- Flow test nozzles and portable monitors to maintain optimal performance
- Comply with annual NFPA 1962 test of nozzles, hose and appliances
- Conduct comprehensive nozzle and hose training
- Accurately determine fire flows, friction loss and pump discharge pressures

AW310  4" Tube (No Sensors) NPTM/ Flow Port  $477.95
AW311  Paddle Wheel Flow Sensor  $152.95
LOW LEVEL STRAINER WITH JET SIPHON

This compact unit can be used as both a water transfer device as well as a low level strainer. Features lightweight 6061-T6 aluminum construction with red powder coat finish for long life. Will draft in as little as 3” of water without whirlpooling. Pivoting neck enables base to stay flat on the tank bottom. Comes standard with internal screen (all sizes) and jet siphon (4”-6”). *Ship. wt. 25 lbs.

2½” AND 3” ARE NOT MANUFACTURED WITH A JET SIPHON. CALL FOR PRICING ON STORZ AND CAM LOCK FITTINGS.

SELF LEVELING FLOATING STRAINERS

Kochek Self Leveling Floating Strainers feature increased flow rates due to high intake ratio and maximum pump flows.

- Increased flow rates due to high intake ratio
- Maximum pump flows
- Light weight design
- New compact design for easy storage
- Handle for ease of carrying
- Vortex Shield protects against whirlpooling
- Full time swiveling strainer
- Most efficient strainers on the market

* RECOMMENDED FOR PUMPS 1250 TO 1500 GPM

FLOAT-DOCK® STRAINER

PUMP POND WATER FREE OF DEBRIS

The Float-Dock® strainer is a valuable piece of equipment that can save the day in many fire fighting situations.Float-Dock® lets you use the water in ponds or streams, both shallow and deep. Because it operates below scum and debris and above sand and muck, it screens out the materials that wear out impellers, packing and bearings. Since Float-Dock® strainers are self-leveling, there are no whirlpools or suction loss. It will draft in as little as 5” of pond water at pump’s rated capacity. In deep water, Float Dock® drafts clean water below the surface. Each unit is fully guaranteed.

PORTABLE COLLAPSIBLE FOL-DA-TANK
THE FIRST AND STILL THE BEST

It was more than 50 years ago that the first Fol-Da-Tank was introduced to firefighters, who recognized its value and quality immediately. Fol-Da-Tank Co. has been continually improving frame and fabric designs to help provide the most reliable portable water tank in the industry. Fol-Da-Tank has proved to be the practical answer as an extra water supply for rural areas, where water pressure is low or as a back-up facility for municipal fire departments. Fol-Da-Tank doubles the fire fighting ability of a tanker truck at an affordable price. Two firefighters can unload from the truck and set up in 30 seconds. While pumper empties the Fol-Da-Tank, a tanker can be suppling more water. With the fire out, Fol-Da-Tank can be emptied quickly with the exclusive 10” diameter drain sleeve, which stores inside or outside of the tank.

CONSTRUCTION FEATURES:
- Liners: High performance rubber (HPR), FDA
- Frames: Steel, resistance welded 14-gauge ½” square steel tubing with snag-free finish
- Hinges: Die-cut
- Grommets: Solid brass
- Bolts: Heavy-duty

SPECIFY COLOR: Red or Yellow

SELF-SUPPORTING FRAMELESS PORTABLE WATER TANK

These self-supporting frameless water tanks have been designed to meet the most stringent requirements of rural/urban fire fighting. Problems with inadequate or unusable supplies of water are eliminated by the use of open top self-supporting portable water tanks. In remote areas, the self-supporting tanks are designed for standby water containment, water shuttling situations and to provide a continuous portable water supply. In remote areas, the SST may be filled by pumping water from a natural water source, such as a stream or creek, with a small gas-operated pump. As the self-supporting tank begins to fill with water, its unique design allows it to become self supporting automatically. The SST can be used as a mixing tank as well as a temporary holding in hazardous waste situations. It may be quickly drained through a threaded flange fitting on the side. The tank is totally collapsible and easily stored in its own compact storage bag. Made of heavy-duty industrial PVC.

- No frame, assembly, foot pump, auxiliary air or need to inflate
- Use as mixing tank, water relay, water storage
- Use for fire fighting, hazardous waste, etc

SPECIFY: NST or IPT, Male or Female Threaded Flange Coupling, Installed.

SPECIFY SIZE OF THREADED DRAIN FLANGE COUPLING: 1½"-5" Available, 6" Additional Cost.

SPECIFY COLOR: Red, Orange or Yellow

### TURBO DRAFT™ FIRE EDUCTOR
**THE PORTABLE FIRE HYDRANT**

- Gain access to remote water supplies up to 250’ away
- Generate usable fire flows up to 670 gpm
- No need for cumbersome hard sleeve
- Recognized by insurance agencies as an alternate water supply source
- Lightweight design sets up in minutes with standard fire hose

### NEWTON KWIK DUMP VALVE
**...BECAUSE EVERY SECOND COUNTS**

The Newton Kwik-Dump Water Valve is 29% faster than any other conventional gravity flow valve tested. It can dump 3000 gallons of water per minute, under ideal conditions. As an average, an 1800 gallon tanker can be emptied in less than one minute. All Newton Valves are constructed so that all parts constantly in contact with water are made of stainless steel, brass, or rubber, to give many years of trouble-free service. The remainder of the valve is made of hot-rolled, prime painted mild steel. Can be readily adapted to tanker trucks already in use. Standard 24” valves can be shortened and remote handle configuration is also available for additional costs.

- The standard valve comes with top-mounted controls and handle, and a 3º angle on the flange
- Outlets are 10”x10” square

### PRE-CON SUCTION VALVE

This suction inlet valve is designed to operate as an automatic flow control valve eliminating the need for manual adjustments in relation to water flow. During hydrant operation, it automatically opens in proportion to flow demand while the automatic check valve action helps prevent water hammer. During drafting operation, the check valve action holds prime water when flow is stopped, plus allows switching to booster tank and back to draft without flow interruption. Valve can be greased without removal from pumper. *Ship. wt. 20 lbs.*

- Compact design
- Versatile application
- **Overall Length:** 9 1/8”
- Automatically balances the flow between multiple sources
- Any thread size male or female combination from 4” to 6”

### PORTABLE TANK RACK
**QUICKLY DEPLOY YOUR FOLDING RACK**

Easy-to-install on either elliptical or side step body tankers. Manually pulls down to deploy folding tanks of all sizes. *Ship. wt. 100 lbs.*

- All welds are Tig welded
- Easy to get tanks in and out of rack rubber padding to protect your tanker
- All standard sizes
- 3 hinged feet with 4 bolts each
- 2 locking points, one on each side

**SPECIFY: Aluminum or Stainless Steel**
Angle elbows are used on the discharge gate of a pumper to relieve strain and prevent kinking of hose. Rocker lug swivel. **Ship. wt. 3 lbs.**

- Prevent kinking
- Relieve hose strain

**2 1/2" NST 45° ELBOW**

**RELIEVE STRAIN AND PREVENT HOSE KINKING**

**SUCTION ELBOW SWIVEL FEMALE TO MALE**

Ideal for fire apparatus with front suction connections. Aluminum elbows from 2 1/2" through 6". Long handle female swivel x male rigid standard. Specify ST, NPSH or NPT threads. Call for pricing on special threads, Storz fittings and/or rocker lug design. **Ship. wt. 4-7 lbs.**

**BRITISH INSTANTANEOUS FITTINGS**

Darley offers a complete line of British Instantaneous fittings. Fittings have hard-coat anodized finish. All 2 1/2" connections are made to conform to the BS336 standard. **Ship. wt. 3 lbs.**

**SWIVEL BUSHING**

Chrome-plated brass, double female bushing, internal lug, rocker lug swivel. **Ship. wt. 4 lbs.**

**SUCTION SWIVEL ADAPTER**

Chrome-plated brass with screen; 2 1/2" NST swivel female x 2 1/2" NPT male. **Ship. wt. 3 lbs.**

**CHROME-PLATED BRASS BUSHINGS**

Female NPT by male hose thread bushing with internal lugs. Available with or without screen. **Ship. wt. 4 lbs.**

**LIGHTWEIGHT GATED VALVE**

No more heavy brass valves to carry around. Our light weight line wyes with aluminum construction cut the overall weight by more than 30% when compared to traditional brass valves. *Ship. wt. 8 lbs.*

**HYDRANT BALL VALVE**

Lightweight, full-flow hydrant ball valve with 2½” F NST inlet and 2½” M NST outlet. Standard color is silver with black connections and handle. Valve weighs 5½ lbs. Rated at 250 psi working pressure. Self-locking handle for positive positioning.

**HYDRANT GATE VALVE**

All aluminum hydrant gate valve with resilient seat design. Includes a corrosion resistant stainless steel stem with an aluminum wedge with full flow water output. All aluminum parts are hard coated before powder coating to improve corrosion resistance. Opening/closing takes 12 turns of the hand wheel meeting NFPA requirements to prevent water hammer. 2½” NH female swivel x 2½” NH male.

**MULTI-USE ADAPTER**

The latest multi-use adapter. Perfect for hazmat decontamination. Other uses include forestry units, portable water, an portable drinking water. You will also find it useful for vehicle wash down. *Available in 1½” or 2½” NST. Ship. wt. 3 lbs.*

**HYDRANT VALVE**

- Lightweight alloy
- 2½” full flow waterway
- Adapter easily removed for seat adjustment
- 2½” female inlet x 2½” male outlet
- Self-locking handle for positive positioning
- *Ship. wt. 8 lbs.*
**BLACK MAX™ PISTON INTAKE VALVE**

The Black Max™ Piston Intake Valve has been designed for harsh environments of today’s fire service. It’s superior materials and enlarged waterway allows you to maximize flows and efficiency. *Ship. wt. 32 lbs.*

- **Improved Corrosion Resistance:** Combines stainless steel piston housing, ploy-impregnated body and polymer piston for maximum product life
- **Field Serviceable:** Unique 2-piece design allows the piston intake valve to be field serviceable
- **Extended Durability:** Full 10-year warranty against manufacturing defects and corrosion
- **Full Flow:** 2000 gpm (7600 lpm) - Enlarged waterway for maximum flow efficiency
- **Low Friction Loss:** Only 7 psi @ 2000 gpm (.5 bar @ 7600 lpm)

**HYDRANT WYE**

The Hydrant Wye is made of lightweight aluminum alloy and is used for laying two lines from a hydrant to a pumper or for branching a 2½” or larger supply line to two 2½” lines. Has self-locking valves for positive handle positioning. Available in sizes 2½” to 6” female inlet x (2) 2½” NST male swivel valves outlets. *Ship. wt. 17 lbs.*

**SUCTION SIAMESE**

Suction Siamese is made of lightweight aluminum alloy. Used to feed pumper suctions or aerial platforms with one or two, 2½” or 3” hose lines. Has self-locking valves for positive handle positioning. Available in sizes 2½” to 6” female swivel x (2) 2½” NST swivel female valved inlets. *Ship. wt. 19 lbs.*
**STORZ ADAPTERS**

**STORZ TO LONG HANDLE SWIVEL FEMALE**
Storz to long handle swivel female adapter. Made of 6061-T6 aluminum alloy, then hardcoated to reduce corrosion and abrasion. *Ship. wt. 3 lbs.*

**STORZ TO STORZ ADAPTERS**
Storz to Storz adapters allow you to connect Storz couplings of different sizes. They are particularly useful in mutual aid evolutions. This adapter can be used in combinations from 1" - 6" Storz. For use on 4" or 5" hose. *Ship. wt. 3 lbs.*

| AJ100 5" Storz x 4" Rigid Storz | $227.22 |
| AJ101 5" Storz x 4" Swivel Storz | $400.95 |
| AW068 6" Storz x 4" Storz | $296.95 |
| AW069 6" Storz x 5" Storz | $282.13 |

**STORZ TO RIGID MALE**
Storz to rigid male adapter. 6061-T6 lightweight aluminum alloy, hardcoated for protection against corrosion and abrasion. *Ship. wt. 3 lbs.*

STAINLESS STEEL PISTON INTAKE RELIEF VALVE

Stainless Steel Piston Intake Relief Valve was designed to incorporate quick-connection, fast but controlled opening, with air bleeder and relief valve. 45° inlet provides smooth water flow for reduced friction loss. This valve is covered by a 10-year warranty against failure due to corrosion. *Ship. wt. 27 lbs.*

Mega Flow Valve

Our newest compact design for pumper intake control allows easy maintenance. By removing only five bolts, all moving parts can be removed in one assembly. The new design offers the lowest friction loss and largest waterway available. *Ship. wt. 35 lbs.*

- Low profile 30° integrated elbow
- Field-adjustable pressure relief valve
- Full 1/4” air bleeder
- Friction loss at 1000 GPM: 2.3 PSI
- Extension: 10 1/2” Lx8” Wx17” H

5-WAY MANIFOLD
Sizes come with 4" or 5" Storz connection on both. Large intake and gated discharge plus (4) 2½" gated discharges. Portable manifold is designed to take advantage of the increased flow capabilities of large diameter hose. Can supply multiple attack lines without a pumper. Brings your hydrant to the fire scene. Fabricated from lightweight, high-strength aluminum alloy and is hard coat anodized. Provided with large full flow waterways, relief valve and a glycerine filled pressure gauge to indicate residual pressure. *Ship. wt. 51 lbs.*

LOW PROFILE BALL INTAKE VALVE
EXTREMELY COMPACT AND LIGHTWEIGHT

- Compact lightweight design fits easily into tight pump panel configurations
- 5 year warranty against corrosion
- Integrated adjustable pressure relief valve
- Flow efficient waterway has less than 5 psi loss and rated 1250 gpm flow
- Individually serialized
- Highly visible valve position indicator and slow close operation exceeds all standards requirements

BN220 5" FSWRL x 4" Rigid STZ  $925.95
BN221 5" FSWRL x 5" Rigid STZ  $925.95
BN223 6" FSWRL x 4" Rigid STZ  $925.95
BN224 6" FSWRL x 5" Rigid STZ  $925.95

INTAKE SIAMESE

These reliable clappered Siamese valves are used for feeding one large line with multiple smaller lines. Clapper valve allows for single line usage. Powder-coat aluminum finish with carrying handle. 10’/”x10”Wx5”H. Ship. wt. 8 lbs.

- Single clapper

3-WAY SIAMESE:
- Aluminum construction
- Large waterways
- 2½” NST female swivel inlets
- Convenient carrying handle
- Ship. wt. 18 lbs.

AS138 2-Way Siamese 4” Storz x (2) 2½” NST F SW  $318.95
AS139 2-Way Siamese 4” Storz x (2) 2½” NST M  $318.95
AS140 2-Way Siamese 5” Storz x (2) 2½” NST F SW  $318.95
AS141 2-Way Siamese 5” Storz x (2) 2½” NST M  $318.95
AW078 3-Way Siamese 4” S x (3) 2½” NH Inlet  $652.95
AW079 3-Way Siamese 5” S x (3) 2½” NH Inlet  $622.60

SIAMESE 2-WAY CLAPPED

The Siamese 2-way clappered is made primarily of aluminum alloy that has been heat treated. The Siamese’s other major components are made of stainless steel and galvanized brass. This lightweight and smaller design minimizes the friction loss by up to 3 times. Ship. wt. 8 lbs.

AW080 (2) 2½” F Inlet x 2½” M Outlet  $245.95
AW081 (2) 2½” F Inlet x 4” M Outlet  $587.95
AW083 (2) 2½” F Inlet x 4” Storz Outlet  $592.95
AW084 (2) 4” Storz x 4” Storz Outlet  $1,317.95

SUPER FLOW LARGE BALL VALVE

Designed specifically for feeding to or from large diameter hoses. This locking storz valve has full flow 4½” waterways. Each outlet is provided with a ball gate valve to permit easy shutoff. Adjustable relief valve reduces the effects of water hammer. The large gated wye eliminates the need to lay multiple lines. Particularly useful in supplying multiple apparatus with large diameter hose. Ship. wt. 8 lbs.

AR120 4” Storz to (2) 4” Storz Super Flow Ball Valve  $1,720.95
AR121 5” Storz to (2) 5” Storz Super Flow Ball Valve  $1,720.95
REVOLUTION INTAKE VALVE

The Revolution has all of the standard features you expect from an intake valve with flows capable up to 2000 gpm (7600 lpm) making it ideal for the most demanding apparatus intake applications.

- Robust, integrated Pyrolite patent-pending handwheel for easy operation
- Critical pump side waterway components constructed of non-corrosive stainless steel
- Durable, powder coated interior and exterior finish
- Field adjustable relief valve between 50-250 psi (requires 1/2" wrench to adjust), includes 1 1/2" NPT female thread
- Built-in Open/Closed indicator
- 2000 gpm max flow
- All parts that stay in contact with water are constructed of stainless steel
- Field serviceable design
- 10-year heavy-duty warranty against manufacturing defects and corrosion
- Quick turn Bleeder valve operation - vents into relief discharge
- NFPA 1901 compliant

BUTTERFLY VALVES

- Rotating the handle to open disc 1/4 turn allows an almost unrestricted water flow
- The 10 position lever handle with positive detents allows the valve to be opened or closed incrementally for a controlled water flow
- Comes standard with a bleeder valve
- Available with 4", 41/2", 5" or 6" male or female hose
- Ship wt. 45 lbs.

1% FLUORINE FREE CLASS A/B FOAM CONCENTRATE

The first dual certified fluorine free Class A/B firefighting foam, PHOS-CHEK 1% A/B, was developed for use on both Class A and B hydrocarbon fires as an environmentally responsible next generation option. It is not intended for use on polar solvent fueled fires. UL certified against NFPA 18 as an effective wetting agent for Class A fires including materials such as wood, cloth, paper, etc. at 0.1% use rate and UL 162 listed as a Class B foam at 1% use rate. Unlike some other A/B foams, PHOS-CHEK 1% A/B contains no PFAS chemicals including but not limited to PFOS or PFOA. This foam can be used with most existing foam equipment such as eductors and onboard foam systems that are designed for traditional 0.1-1% Class A foam systems.

SOLD IN 5-GALLON PAILS
BP332 1% Fluorine Free Class A/B Foam Concentrate $109.95/pail

3X6% FLUORINE FREE CLASS B FOAM CONCENTRATE

This environmentally responsible next generation foam concentrate meets the current needs for Class B hydrocarbon and polar solvent fuel fires when used with fresh water. Designed for to fight a broad range of Class B flammable liquid fires including hydrocarbon fuel fires gasoline and diesel and polar solvents such as ketones and alcohol. Unlike legacy C8 foams which are considered to be bioaccumulative PHOS-CHEK 3X6% fluorine free alcohol resistant foam concentrate does not contain PFAS chemicals including but limited to, PFOS or PFOA. This foam can be used with most existing foam equipment such as eductors and onboard foam systems that are designed for traditional 3%-6% B foam systems. Never to be mixed with other Class B foam concentrates. Meets UL 162 Listed, EN 1568-3:2008 (Class IA) and EN 1568-4:2008 (Class IB).

SOLD IN 5-GALLON PAILS
BP333 3X6% Fluorine Free Class B Foam $104.95/pail

SILV-EX FOAM CONCENTRATE

A multiple expansion Class A foam concentrate formulated from specialty hydrocarbon surfactants, stabilizers, inhibitors and solvents. Its combination of surfactants and solvents provide extremely good cold weather performance. The original forest fire control concentrate. Ship. wt. 45 lbs.

- Proven effective on many deep seated Class A fires
- Can be proportioned from 0.1% to 1.0% in fresh, brackish or sea water

SOLD IN 5-GALLON PAILS
AB410 Silv-ex Foam Concentrate $129.95/pail

PRACTICE FOAM

Practice Foam is an answer to the requests “give us an inexpensive product to train with!” Practice Foam is a variable percentage Class A type product. Safe and inexpensive to use, Practice Foam may be educted at low to high percentages to achieve the desired results of your training session. Although not intended for a “working fire”, Practice Foam is entirely suitable for extinguishing training ground fires. For training only; NOT for fire fighting.

- Non-toxic, bio-degradable and self-dissipating
- Plenty of suds - no clean up required

SOLD IN 5-GALLON PAILS
BG113 Practice Foam $39.95/pail
CLASS A PLUS FOAM CONCENTRATE

Chemguard Class “A” is a non-corrosive, non-toxic, biodegradable foam concentrate. When mixed with water in the correct proportion, it changes the properties of water. It reduces the surface tension of the water, and produces foam, which allows the water to cling to vertical or horizontal surfaces without run off. This allows the water to absorb more heat and provides greater penetration into Class “A” fuels. Ship. wt. 45 lbs.

NEW LOW PRICE

PHOS-CHEK® CLASS A FOAM

Phos-Chek® Class A foam provides superior foam generation and is the most concentrated Class A foam product available today. Phos-Chek® is a unique combination of surfactants that make water more effective for fire fighting. Phos-Chek has been tested and approved for use by the U.S. Forest Service. U.S. Forest Service testing includes product Environmental, Health & Safety, and Corrosion criteria. Phos-Chek® is also a U.L. listed Wetting Agent at a very low use rate of 0.1% for Class A and 0.25% for Class B fires. Phos-Chek® meets the requirements of NFPA 1150, contains no EPA listed hazardous materials, and is readily biodegradable. Phos-Chek® works extremely well with CAFS at ratios of 0.2 to 0.3%. Ship. wt. 45 lbs.

CLASS A FOAM CONCENTRATE & WETTING AGENT

First Response is a new Class A foam manufactured by the makers of the well known Phos-Chek® brand fire suppression products. It’s formulated to make water more effective by reducing the water’s surface tension and, when mixed with air, creates a foam blanket that surrounds fuels with a thick layer of water. Foam reduces the amount of water needed to extinguish the fire reducing water damage and increasing fire fighter safety through quicker knockdown and reduced mop-up/overhaul. Ship wt. 45 lbs.

PRECISION FOAM TESTING KIT

The Precision Foam Testing Kit is designed to simplify the process of testing foam systems for proportioning accuracy. This kit utilizes liquid conductivity and a precision digital scale to accurately prepare standards and test discharge samples; the same method used by nationally recognized testing laboratories when testing systems for listing and approval. Ship. wt. 6 lbs.

INCLUDES:
- Protective carrying case with foam protective padding
- Precision digital electronic 250 gram scale with 0.1 gram accuracy
- 6 - 150ml graduated sample beakers
- 100ml graduated cylinder
- 250ml wash bottle
- 2 - 10ml sample pipettes (12’’L)
- 5 - 3ml sample pipettes (6’’L)
- 500ml water sample bottle
- 2 - 10ml sample syringes
- 10 - Test charts (reproducible)
- Instruction manual

AZ292 Precision Foam Testing Kit $784.95
PRO/PAK FOAM SYSTEM
EVERYTHING YOU NEED IN ONE PORTABLE UNIT
TO APPLY FOAM QUICKLY

Making great foam is easy with the PRO/pak. Everything you need is contained in one lightweight package that attaches to the end of your 1” fire hose. It can work on pressures as low as 50 psi. With its small size and versatile nozzles you can have foam capability without the expense of built-in systems costing thousands of dollars. Features a high-impact 2½ gallon foam reservoir with built-in eductor that can be set to the ratio of your choice. Large, easy-open fill port has an indicator to show the type of liquid in the tank. The flow is controlled by a twist grip valve/carrying handle. With each quarter turn you select the discharge velocity for inlet pressures between 40 and 500 psi. System comes complete with a straight stream nozzle, low expansion nozzle and medium expansion nozzle. Nozzles can be directly attached to the eductor for one-handed operation, or a short section of hose can be added for maneuverability. Designed for Class A 3% or 6% AFFF & AR Foams. Ship. wt. 15 lbs.

INCLUDES:
- PRO/pak unit
- Shoulder strap
- 3’ extension hose
- 3 - quick-connect nozzles

FOAMPRO® 1600 SERIES PROPORTIONING SYSTEM

No other system delivers foam as easily and accurately as the FoamPro®. All it takes is a flip of the switch to start the system. FoamPro® adjusts automatically to any changes in flow rate or pressures. Plus, the patented, high-tech, electronic controller does all of the work for you. To make the foam wetter or drier simply adjust the dial to change the foam concentrate level. When you use the FoamPro®, you don’t have to worry if the foam solution is correct-the system does the proportioning all automatically. Simply set the percentage you want on the control module. Because the precise proportioning is done by measuring flow instead of pressure, you do not have to shut down to add lines, change pressure or refill the foam tank. What’s more, the FoamPro® conveniently interfaces with Compressed Air Foam Systems. Meets NFPA Standards. Ship. wt. 68 lbs.

EXCLUSIVE FEATURES:
- Automatic proportioning
- Adjustable dial control
- Proportions continuously
- No foam goes through the fire pump
- No in-line restrictions
- Installs in new or existing apparatus
- Delivers 0.1 to 1.7 gpm of concentrate

FAST FOAM 150
CLASS “A” FOAM PROPORTIONING SYSTEM

The Fast Foam 150 system offers a reliable, accurate, compact foam proportioning system at an economical price. This model treats up to 150 gpm @ 1% at pressures up to 175 psi. Call for pricing at 877-634-6223.

ENGINE
- 12 VDC, 1/2 hp continuous speed electric motor. The maximum amp draw at full load, 175 psi (12 bar) is 39 amps. The pump is a continuous duty, piston type, positive displacement pump. The pump is rated at 1.5 gpm. Pump is supplied with a 250 psi (17.2 bar) safety relief valve for protection against over pressurization. The Venturi flows up to 150 gpm.

DIMENSIONS
- 21”L x 10”W x 12”H, 75 lbs.

APPLICATIONS
- Mini pumper, pumper, pumper tanker, rescue pumper, wildland/quick attack fire vehicle

FEATURES
- 1.5 gpm/150 gpm, 1/2 hp 12vdc motor, pilot operated relief valve
- Low concentrate float switch
- Venturi 11/2" NPT
- Includes installation kit
- Control panel placard with on/off switch and low concentrate light, adjustable foam percentage valve

PERFORMANCE
- Up to 150 gpm @ 1% at pressures up to 175 psi

DARLEY FOAM REFILL SYSTEM

The Darley Foam Refill System is designed to create a safe alternative to refilling your Class A foam tank without the need to climb on top of your truck. The Foam Refill System kit includes all the necessary equipment needed for a simple installation into new or existing apparatus. Once installed, simply attach the pickup hose, insert the tube into the foam pail, hold the switch to on, and fill your foam tank from a safe position until the green foam full light appears on. Call for pricing at 877-634-6223.

INSTALLATION OPTIONS
- Panel Mounted Kit: Includes all the necessary components needed for a simple install. The control panel will be separate from the pump, allowing you to remote mount parts as needed to fit into tighter spaces.
- Self-Contained Kit: Includes all the same parts as the panel mounted kit but will be fully assembled with an aluminum bracket to minimize assembly/installation for the end-user.

PERFORMANCE
- Pumps at 4 to 6 GPM and is capable of 10’ of lift

PUMP
- Pump and motor are 12 VDC capable
- Pump utilizes a Nitrile impeller for optimal performance and durability

OPERATION PLACARD / PROTECTION BOX
- Placard is made of 16-gauge stainless steel and mounted with stainless screws
- Overlay is made of Bayfol UV-1 laminate. Offers superior protection against UV exposure and is resistant to scratches and cracking
- Momentary switch and green foam full indicator light included on the placard

PICKUP TUBE
- Clear 1/4” plastic tube with a female camlock fitting to connect to the panel and a stainless pickup tube making it easy to utilize all of the foam in a pail
IN-LINE FOAM EDUCTORS

In-line Foam Eductors have a metering head with easy-read knob for use with Class A foam at .25% and 5% and with ARC-AFFF foam at 1%, 3% and 6%. Extra large 36” pickup hose and stainless steel wand are ideal for use with high viscosity foams. The meter head is equipped with a unique backflush push-button for fast cleaning, and is secured to the eductor body with a rugged disconnect. All controls are easy to use with gloves. Made of hardcoat anodized aluminum for corrosion protection. The required inlet pressure is 200 psi. The maximum allowable back pressure is 130 psi.

PORTABLE BY-PASS EDUCTOR

The Portable By-Pass Eductor has a built-in by-pass chamber, allowing the operator to change from water to foam without shutting down.

- Brass with chrome trim
- 8 quick-change handle positions with a Swing-Out™ valve handle

“THROUGH-THE-PUMP” FOAM EDUCTOR/MIXER

- Educts foam concentrate into hose lines through a pump’s suction and discharge sides, also known as an “Around-The-Pump” system
- Will educt concentrates at percentages of 0% to 3.75% at flow rates from 15 to 125 gpm at 100 psi
- Maximum operating pressure of 300 psi
- Includes an 18” pressure hose and a 48” foam pick-up hose
- 1½” and 2” cast aluminum connecting tee

PYROLITE® IN-LINE EDUCTORS

Akron Municipal Eductors feature a large, easy to read, and removable metering dial with infinite settings between 0 and 6%. Detents at ¼, ½, 1, 3, and 6%. The Eductors are rated to flow at 200 psi (14 bar) inlet pressure and works well with nozzles rated at 75 and 100 psi (5 and 7 bar). Ship. wt. 8 lbs.

- 1½” or 2½” swivel inlet x 1½” male, except where noted
- 48” pickup hose standard on 250 gpm (950 lpm)

The ATP FOAM FLURRY™ is our most economical proportioner. It is simple-to-install and operate. For your next Darley portable pump purchase, or for retrofitting your current pump, the ATP FOAM FLURRY™ will deliver foam cost effectively.

- All brass construction – no plastic
- Fast adjusting variable control ball valve
- Capable of .5% injection rate up to 130 gpm
- Remote mount operation placard
- Includes installation kit

**ATP00001  ATP FOAM FLURRY™  $614.95**

**BUBBLE CUP NOZZLES**

The dual or single-gallonage Bubble Cup nozzle is a uniquely designed aspirating fog/foam nozzle created to be used with AFFF and Protein type foams for fire brigades and hazardous materials incidents or for structural and wildfire applications of Class A foaming agents. Capable of producing a conventional straight stream, wide protective fog pattern and aspirating foam, the Bubble Cup is a nozzle that provides an extra measure of protection. Nozzles are backed by a full 5-yr factory warranty and 24-hr. Certified repair. *Ship. wt. 4 lbs.*

**MADD DOG FOAM NOZZLE**

**EXPANSION ASPIRATING FOAM ATTACHMENT**

The Madd Dog Attachment makes better foam than any other multiple expansion aspirating nozzle. Designed by a fire captain with firefighter safety, quality, versatility, performance and cost in mind. Produces low-expansion foam with excellent stream projection or medium expansion foam with incredible production. The aspirating attachment is constructed of pressure-injected polymer resins which make it economical, lightweight and incredibly rugged and will fit a variety of combination nozzles. *Ship. wt. 2 lbs.*

2½” CAFS PISTOL GRIP NOZZLE

Do you want to pack the most CAFS punch possible in a 2½” hand line? Most 2½” nozzles are nothing more than a 1¼” waterway shutoff with a 2½” swivel inlet. Not this nozzle... this pistol grip ball shutoff features a 2½” swivel inlet and a 2½” threaded outlet with a full 2” internal ball opening. This allows more CAFS to be propelled unobstructed through this lightweight pistol grip ball shut-off. We also finish off this Brutus of a shut off with a set of dual stacked tips so you can choose between the 2½” and a 2” tip opening. Easily flows 120 gallons per minute of foam solution and 120 cfm of compressed air at the NFPA recommended 125 psi. Ship. wt. 7 lbs.

BN011:
- 1½” shutoff with pistol grip
- 1½” foam gun proportioner
- 1½” nozzle tip 10/23 gpm
- Length: 25"
- Ship. wt. 5 lbs.

BN012:
- 1½” shutoff with pistol grip
- 1½” foam gun proportioner
- 1½” nozzle tip 20/60 gpm
- Length: 25"
- Ship. wt. 5 lbs.

BN011: $530.95
BN012: $552.95
BN076: $29.95

CAFS NOZZLES

BL036:
- Combination of the ball shutoff with full 1” inlet waterway and the 1½” outlet smooth bore tip. Both parts are constructed of hard coated aluminum.

BL037:
- Combination of the ball shutoff with full 1½” inlet waterway and 1½” outlet smooth bore tip. Both parts are constructed of hard coated aluminum.

SABERJET DUAL SHUTOFF CAFS NOZZLE

This very versatile pistol-grip ball shutoff features a large 1½” ball opening and 1½” smooth bore tip which produces a strong CAFS stream for wet to medium foam types. It also features a secondary control for spraying plain water, foam solution, or wet CAFS stream through the fog spray nozzle. The SaberJet Dual Shutoff CAFS Nozzle is a great tool for your CAFS attack lines and provides a wide variety of real world spray stream options as well as the ability to spray plain water if desired. Includes colored handles and pistol grip kit shown.

**BAG-IN-BOX WATER**
**AFFORDABLE, SUSTAINABLE, STORABLE AND PORTABLE**

10 liter Bag-in-Box Water with single-use, ultra-clean and eco-friendly packaging solution with a 3 year shelf life. Long shelf life is attainable due to innovative filling and pouring process. Water is protected from UV light and air, which seals out risk of bacterial contamination. 

*Sold by pallet of 80 boxes.*

**VERSAIL CITY BOX**

- Everyday Usage: Home, office, school, hospitals, fire stations
- Emergency Response: Natural Disaster, Humanitarian Relief
- Ideal for fundraising and as a marketing platform
- 3 year shelf life

**VERSA SEA PAK**
**MAN-PORTABLE SALT WATER PURIFICATION SYSTEM**

- **Output:** 200 or 360 GPD*
- **Technology:** Reverse Osmosis, Hydraulic pressure intensifier and energy recovery technology (10% recovery rate)
- **Power:** VSP 200 - 12 or 24 VDC, VSP 360 – 24 VDC
- **Power:** External power (battery, car, generator, solar), No internal power provided.
- **Power Draw:** VSP 200 - 10A at 12 VDC and 5A at 24 VDC, VSP 360 - 10A at 24 VDC
- **Dimensions:** 31”x20.5”x15.5”
- **Weight:** VSP 200 – 65 lbs. or VSP 360 82 lbs.

**FEATURES**
- Ideal for disaster response and military applications
- Simple operation, no training required
- Green to Red filter condition gauge for 5 micron pre-filter
- Analog gauges and controls
- Rugged Pelican case

*Output can vary depending on power source, raw water source, suction lift, pressure variations and filter condition.

**VERSA FRESH PAK**
**MAN-PORTABLE FRESH WATER PURIFICATION SYSTEM**

- **Output:** 1,000 GPD*
- **Technology:** Ultrafiltration, Back washable membrane
- **Power:** 12 VDC, external power (battery, car, generator) and/or 20 AMP hour internal battery & 75 watt foldable solar modules
- **Power Draw:** 2 AMPS
- **Dimensions:** 22”x16”x11”
- **Weight:** 62 lbs. with lithium and 72 lbs. with standard gel battery

**FEATURES**
- Ideal for disaster response and military applications
- 20 micron pre-filter
- Post carbon activated filter for smell and taste enhancement
- Prefilter for sediment removal and Post filter GAC for taste and odors
- Rugged Pelican case

**NEW**

**DARLEY SUNSPRING®**
**DECENTRALIZED WATER TREATMENT SYSTEM**

**SPECIFICATIONS**
- **Output:** 5,000 gallons per day*
- **Technology:** Ultrafiltration, backwashable membrane
- **Power:** 24 VDC, 2 - 100 AH batteries, 2 – 160 watt solar modules and 160 watt wind turbine
- **Power draw:** 3.5 to 5.5 AMPS
- **Dimensions:** 2’ diameter x 14.5’ tall

**FEATURES**
- Ideal for hospitals, schools, remote villages, and disaster response
- No outside power required
- Stainless steel, reusable 100 micron pre-filter
- Diamond plate aluminum system enclosure
- Self-cleaning membrane maintenance cycle
- Post carbon activated filter for smell and taste enhancement
- Post filter GAC for taste and odors
- Larger fresh water versions available (Up to 50,000 gallons per day)
- Salt water versions not available

**STARTING AT $24,495**

- **Power:** VSP 200 - 12 or 24 VDC, VSP 360 – 24 VDC
- **Power:** External power (battery, car, generator, solar), No internal power provided.
- **Power Draw:** VSP 200 - 10A at 12 VDC and 5A at 24 VDC, VSP 360 - 10A at 24 VDC
- **Dimensions:** 31”x20.5”x15.5”
- **Weight:** VSP 200 – 65 lbs. or VSP 360 82 lbs.

**FEATURES**
- Ideal for disaster response and military applications
- Simple operation, no training required
- Green to Red filter condition gauge for 5 micron pre-filter
- Analog gauges and controls
- Rugged Pelican case

*$Output can vary depending on power source, raw water source, suction lift, pressure variations and filter condition.
WHY DEMAND DARLEY PUMPS?

ISO 9001 CERTIFIED
Our pump division is registered as an ISO 9001:2015 Certified facility accredited by Underwriters Laboratories Inc.

SELF-LOCKING DISCHARGE VALVES
Stainless steel ball valves stay secure in the position you choose.

ENGINEERED FOR LIFE
Darley engineers use the latest technology platforms such as ANSYS CFD and Solidworks to design our pumps.

SALES AND SERVICE
We strive to ship most Darley parts orders within 24 hours.

AUTOCOOL™ AND MAGNATRANS™
Darley pump transmissions are the strongest in the market. The patented AutoCool™ ensures oil cooling without the possibility of water contamination.

VACUUM CAST IMPELLER
Durable and efficient, balanced to fit a 10-splined stainless steel pump.

MECHANICAL SEAL
Extremely hard and heat dissipative silicon carbide stationary face allows pumps to run dry for short durations maintenance and is drip free.

LONTEST WARRANTY
The longest and most comprehensive warranty in the industry with a six year manufacturer’s warranty. Includes three years of parts and labor coverage at no charge on our Midship and PTO pumps. We’ve got your back.
Darley Family of Pumps

Darley offers over 300 high quality, highly efficient and competitively priced pumps, CAFS and related products for virtually any application. Darley pumps are 100% manufactured in the USA and backed by the industry’s longest warranty. Visit darley.com to view our complete selection and learn more reasons why you should switch to Darley pumps. Contact PumpSales@darley.com to find the right pump to meet your needs.

**Gasoline Portable Pumps**
Darley Gasoline Portable Pump models are available with a wide variety of engines from Briggs & Stratton Vanguard, Honda, and Rotax.

**Diesel Portable Pumps**
Darley Diesel Portable Pump models are available with a wide variety of engines from Yanmar, Kubota, Cummins, John Deere and Deutz.

**Compressed Air Foam Systems**
Darley offers the widest variety of CAFS on the market. Darley AutoCAFS™ and Odin CAFS provide the solution to all your CAFS needs.

**Fast Attack Skids**
Darley Fast Attack Skid units are ideal for brush firefighting needs. Designed to fit into the standard 8’ bed of any pickup truck, the unit features a 200 gallon poly tank with “C” channel construction for easy installation and removal.

**Engine Driven Pumps**
Darley Engine Driven Pump models are available with a wide variety of engines from Cummins, Deutz, Ford, GMC, Kubota and John Deere.

**Pump Modules**
Darley offers a large variety of Pump Modules from our compact Solution Series™ PTO driven Modules to Top-Mounted Midship Modules.

**Front/Rear Mounted Pumps**
Darley continues to offer a wide variety of Front and Rear Mount pump configurations.

**Marine Pumps**
Darley offers marinised versions of our portable, front mount and engine driven pumps featuring engines from Honda and Steyr.

**PTO Pumps**
Darley has a wide variety of PTO and hydraulically driven pumps with flows up to 1500 gpm ideal for pump and roll applications.

**Ohler Pumps and Custom Pump Solutions**
Ohler pumps offer a range of pumps for industrial applications including diesel fuel, mining and trash flow.

**Midship Mounted Pumps**
Darley offers both manifolded and non-manifolded midship pumps with ratings from 1000 to 6000 gpm.

**Pump Accessories**
Darley has a wide variety of pump accessories such as control panels, adapters, mechanical seals, primers, valves, gauges and more.
The Darley® Davey pumps, also known as the “affordable portables” are the most economical choice in portable, high-efficiency pumps. Their compact design makes them ideal for a variety of applications such as firefighting, tank filling and water transfers.

**PUMP DESIGN FEATURES**

- MARINE-GRADE ALUMINUM CASING
- 3-WAY DISCHARGE PORT WITH 1 - 1½” NPTM, 2 - 1” NPTM
- 1½” NPTM SUCTION
- ZINC-PLATED CASING BOLTS
- MECHANICAL SHAFT SEAL
- NITRILE RUBBER SEAL AND CASING “O” RINGS
- SELF-PRIMING UP TO 19’
- EASY INSTALLATION
- COMPACT AND LIGHTWEIGHT
- HIGH PUMPING EFFICIENCY
- LOW OIL PROTECTION
- SPARK ARRESTOR/EXHAUSTER DIVERTER

**FEATURES**

- 5.5 HP Honda and 6.5 HP Briggs & Stratton OHV Vanguard with recoil rope start
- Spark arrester/exhauster diverter
- 49 lbs. (22 kg)

**PERFORMANCE**

- 95 gpm (378 L/M) @ 39 psi (2.7 bar)
- 60 gpm (227 L/M) @ 70 psi (4.8 bar)
- 20 gpm (76 L/M) @ 90 psi (6.2 bar)

ABLE PUMPS

9 HP & 10 HP TWIN-IMPELLER

AK301: 10 HP TWIN-IMPELLER
AK313: 10 HP TWIN-IMPELLER

FEATURES
- 9 HP Honda and 10 HP Briggs & Stratton OHV Vanguard or Yanmar diesel with electric start and recoil
- Spark arrestor/exhauster diverter
- 80 lbs. (36 kg)

PERFORMANCE
- 120 gpm (454 L/M) @ 36 psi (2.5 bar)
- 95 gpm (378 L/M) @ 83 psi (5.7 bar)
- 60 gpm (227 L/M) @ 118 psi (8.1 bar)
- 20 gpm (76 L/M) @ 144 psi (9.9 bar)

AK308 9.0 HP Honda - GX270 (Not Pictured) $3,087.00
AK301 10.0 HP Briggs & Stratton OHV Vanguard $2,630.00
AK313 10.0 HP Yanmar Diesel $5,180.00

13 HP TWIN-IMPELLER

AK305: 13 HP TWIN-IMPELLER
AK306: 13 HP TWIN-IMPELLER

FEATURES
- 13 HP Honda and Briggs & Stratton with electric start and recoil back-up
- Spark arrestor/exhauster diverter
- 92 lbs. (42 kg)

PERFORMANCE
- 120 gpm (454 L/M) @ 40 psi (2.8 bar)
- 95 gpm (378 L/M) @ 108 psi (7.4 bar)
- 60 gpm (227 L/M) @ 133 psi (9.2 bar)
- 20 gpm (76 L/M) @ 146 psi (10.0 bar)

AK305 13.0 HP Briggs & Stratton $3,020.00
AK306 13.0 HP Honda-GX390 $3,330.00

DAVEY PUMP OPTIONS

SUCTION HOSE AND STRAINER KIT

HF-SHK150 Suction Hose and Strainer Kit $159.95

DISCHARGE HOSE & NOZZLE KIT

HFDHNK150P Discharge Hose and Nozzle Kit $189.95

AUTOMATIC PRESSURE RELIEF VALVE KIT

BE078 Automatic Pressure Relief Valve Kit $150.00

ROLL CAGE WITH BATTERY TRAY

Pre-drilled powder-coated roll cage with battery tray fits 6.5-13 HP gasoline-driven Davey Firefighter pumps. Dimensions: 30"x19"x21".

AK310 Pump Roll Cage with Battery Tray $496.00

WARNING: Cancer and Reproductive Harm – www.P65Warnings.ca.gov
FEATURES THAT SET DARLEY PORTABLES APART

1. OPTIONAL DARLEY CHROME CAPS AND BRASS ADAPTERS
2. EXHAUST PRIMER
   Allows pump to be primed with lifts up to 22’
3. STANDARD MECHANICAL SEAL
   Injection packing is optional at no additional cost
4. STOW AWAY CARRYING HANDLES
   With ergonomic grips

FLOATING PUMPS

HEF 10.5BS FEATURES
- High volume
- Briggs & Stratton, 10.5 HP single cylinder, 4 cycle, 2.8 qt. fuel tank, recoil rope start
- 33” L x 30” W x 20” H, 110 lbs. (50 kg)
- Hard anodized aluminum alloy pump casing
- Bronze impeller
- 11 HP: 2011 Carb Compliant
- High-density polyethylene filled with closed-cell polyurethane foam
- Four built-in carrying handles
- Self priming
- 4” screened suction inlet
- 2” NH discharge

HEF 10.5BS PERFORMANCE
- 390 gpm (1450 L/M) @ 20 psi (1.4 bar)
- 250 gpm (946 L/M) @ 40 psi (2.8 bar)
- 200 gpm (757 L/M) @ 45 psi (3.1 bar)
- 100 gpm (378 L/M) @ 60 psi (4.1 bar)

18 HP PORTABLE PUMPS

2BE 18V FEATURES
- Medium pressure, high volume, direct drive
- Briggs & Stratton: 4 cycle, 18 HP, V-twin, OHV, replaceable oil filter, 8.35 qt. fuel tank, 34.75 cu. in. displacement, 12-volt starter, recoil rope start back-up, 16 amp regulated alternator
- 27” L x 21” W x 25” H, 145 lbs. (66 kg)
- Bronze impeller and seal ring
- Stainless steel impeller shaft
- Mechanical seal
- Built-in discharge check valve
- Adjustable discharge valve
- Aluminum alloy casing and discharge valve
- Exhaust primer
- 3” NPT suction
- 2-1/2” NPT or 1-2½” NPT discharges

2BE 18V PERFORMANCE
- 375 gpm (1420 L/M) @ 25 psi (1.7 bar)
- 300 gpm (1136 L/M) @ 45 psi (3.1 bar)
- 100 gpm (379 L/M) @ 140 psi (9.7 bar)

PORTABLE PUMPS
HONDA ENGINES. CALL FOR QUOTES AND PRICING

21 HP PORTABLE PUMPS
2BE 21H FEATURES
• Medium pressure, high volume, direct drive, engine mounted
• Honda GX 630: 4 cycle, 21 HP, V-twin, OHV, replaceable oil filter, 38.5 cu. in. displacement, 12-volt starter, 20 amp regulated alternator, 6 gal. fuel tank, hose and adapter
• 24"L x 27"W x 22"H, 190 lbs. (86 kg)
• Aluminum alloy casing
• Bronze impeller and wear ring
• Stainless steel impeller shaft
• Mechanical seal
• Adjustable throttle
• 3" NPT suction, 1-2½" & 2-1½" or 1-2½" NPT discharge

2BE 21H PERFORMANCE
• 380 gpm (1438 L/M) @ 25 psi (1.7 bar)
• 150 gpm (568 L/M) @ 115 psi (7.9 bar)
• 100 gpm (378 L/M) @ 135 psi (9.3 bar)

23 HP PORTABLE PUMPS
2BE 23V FEATURES
• Medium pressure, high volume, direct drive, engine mounted
• Briggs & Stratton Vanguard: 4 cycle, 23 HP, V-twin, OHV, replaceable oil filter, 12-volt starter, recoil rope start back-up, 16 amp regulated alternator, 6 gal. fuel tank, hose and adapter
• 24"L x 21"W x 24"H, 195 lbs. (89 kg)
• Hard anodized aluminum alloy casing and discharge valve
• Sulfuric anodized aluminum alloy gear case and engine adapter
• Bronze impeller and wear ring
• Heat treated alloy steel helical gears
• Ball bearing construction pump and engine
• Built-in discharge check valve
• Adjustable discharge valve
• 3" NPT suction, 2-1½" & 1-2½" NPT discharge

2BE 23V PERFORMANCE
• 390 gpm (1476 L/M) @ 30 psi (2.1 bar)
• 200 gpm (757 L/M) @ 110 psi (7.6 bar)
• 100 gpm (378 L/M) @ 140 psi (9.7 bar)

64 HP PORTABLE PUMPS
HE 64RP FEATURES
• Ultra high performance
• Rotax 582: 2 cylinder, 2-cycle, 64 HP, liquid-cooled, 12-volt electric start and recoil rope start back-up, 6 gal. fuel tank, hose and adapter
• 34"L x 30"W x 26"H, 225 lbs. (102 kg)
• 170W lighting and recharging coil
• Aluminum alloy casing
• Bronze impeller and seal ring
• Stainless steel impeller shaft
• Belt driven rotary primer
• Heat exchanger with thermal protection circuit
• Loss of prime shutdown
• Pressure governor
• Vernier throttle
• 4" NH suction, 2-1½" turn self-locking
• 2½" NH discharge ball valves with caps
• Available with wheels

HE 64RP PERFORMANCE
• 575 gpm (2176 L/M) @ 100 psi (6.9 bar)
• 320 gpm (1211 L/M) @ 200 psi (13.8 bar)
• 165 gpm (625 L/M) @ 250 psi (17.2 bar)

WARNING: Cancer and Reproductive Harm – www.P65Warnings.ca.gov
1-1/2AGE 24K FEATURES
- High pressure, low volume, gear driven, engine mounted
- Kubota D902 Diesel: 24 HP, liquid cooled, 12 volt starter, 40 amp. alternator, fuel and oil pump filters
- 36"L x 22"W x 26"H, 376 lbs. (170 kg)
- Aluminum alloy casing and discharge valve
- Aluminum alloy gear case and engine adapter
- Bronze impeller and wear rings
- Stainless steel impeller shaft
- Heat treated alloy steel helical gears
- Ball bearing construction
- 2" NPT suction
- 2-1/2" NPT or 1-21/2" NPT discharges
- Skid base

1-1/2AGE 24K PERFORMANCE
- 2.70 ratio, Standard Impeller
  - 20 gpm (76 L/M) @ 310 psi (21.4 bar)
  - 140 gpm (530 L/M) @ 145 psi (10.0 bar)
  - 180 gpm (681 L/M) @ 80 psi (5.5 bar)
- 3.17 Ratio, High Pressure Impeller
  - 25 gpm (95 L/M) @ 375 psi (25.9 bar)
  - 75 gpm (284 L/M) @ 245 psi (16.9 bar)
  - 120 gpm (454 L/M) @ 150 psi (10.3 bar)

DARLEY MODULES
SOLUTION SERIES™, PUMP MODULES, AUTOCAFS® AND PURIFIRE MODULES. CALL FOR QUOTES AND PRICING

PSM STANDARD MODULE FEATURES
- Darley AutoControl™ governor
- Stainless steel or Vinyl clad aluminum panels
- Foam capable
- Ratings from 500-2000 gpm

OPTIONS
- Top mount
- Top mount with walkway
- Foam systems
- Customer specified discharges
- Deck gun
- Odin AutoFill™
- Crosslay covers
- Deadlays
- Hose trays
- Walkway storage
- Darley factory install

ADDITIONAL MODULES
- PTO Modules
- Midship Modules
- CAFS Modules
- 4S10F PuriFire® Module

PTO AND HYDRAULICALLY DRIVEN PUMPS WITH FLOWS UP TO 3000 IDEAL FOR PUMP AND ROLL APPLICATIONS. CALL FOR QUOTES AND PRICING

HM 250, 350, 500
ASSEMBLY #1 FEATURES

• Single stage, centrifugal, gearbox assembly
• Vertically split, cast iron, bronze fitted pump casing
• Impeller seal ring opposed design to eliminate end thrust
• Splined impeller (not keyed) for longer life
• Oversized, deep groove radial type bearings for longer life
• 10 tooth splined shaft for durability
• Helical cut gears
• 2 3/4" NPT discharge
• 16" x 11" W x 18" H, 140 lbs. (64 kg)

ADDITIONAL ASSEMBLY OPTIONS

ASSEMBLY #2

• Single stage, centrifugal pump, gearbox assembly, suction elbow, discharge head with check valve, 2 - 2 1/2" NPT discharge, 3 - 3" suction (HM250/350), 3 - 4" Victaulic suction (HM500)

HM 500 PERFORMANCE

• 500 gpm (1893 L/M) @ 150 psi (10.3 bar)
• 350 gpm (1325 L/M) @ 200 psi (13.8 bar)
• 250 gpm (946 L/M) @ 250 psi (17.2 bar)

JMP 500 FEATURES

• Two stage, series/parallel, centrifugal, PTO driven
• 3 - 2 1/2" NPT discharge flanges
• 3 - 4" NPT suction flanges
• Rotation: engine or opposite engine
• Gear ratio to fit PTO
• Mounting angles
• 1310/1410 lock on companion drive flange
• JMP 500 NH: Manual control staging valve
• 24 1/2" L x 12" W x 26" H, 250 lbs. (114 kg)

JMP 500 PERFORMANCE

• 500 gpm (1893 L/M) @ 150 psi (10.3 bar)
• 375 gpm (1325 L/M) @ 200 psi (13.8 bar)
• 250 gpm (946 L/M) @ 250 psi (17.2 bar)
• 100 gpm (378 L/M) @ 500 psi (34.5 bar)

ADDITIONAL PTO PUMPS

ASSEMBLY #3

• Single stage, centrifugal pump, gearbox assembly, suction elbow, complete manifolds, discharge valves, adapters and caps, 2 - 2 1/2" NH 1 1/4" turn ball valves, 2 - 3" NH suction adapters and caps (HM250/350), 2 - 4" NH suction adapters and caps (HM500)

HM 500 PERFORMANCE

• 500 gpm (1893 L/M) @ 150 psi (10.3 bar)
• 350 gpm (1325 L/M) @ 200 psi (13.8 bar)
• 250 gpm (946 L/M) @ 250 psi (17.2 bar)

JMP 500 FEATURES

• Single stage, centrifugal pump, gearbox assembly, suction elbow, discharge head with check valve, complete manifolds, discharge valves, adapters and caps, 2 - 2 1/2" NH 1 1/4" turn ball valves, 2 - 3" NH suction adapters and caps (HM250/350), 2 - 4" NH suction adapters and caps (HM500)

JMP 500 PERFORMANCE

• 500 gpm (1893 L/M) @ 150 psi (10.3 bar)
• 375 gpm (1325 L/M) @ 200 psi (13.8 bar)
• 250 gpm (946 L/M) @ 250 psi (17.2 bar)
• 100 gpm (378 L/M) @ 500 psi (34.5 bar)

ADDITIONAL PTO PUMPS

ASSEMBLY #2

• Single stage, centrifugal pump, gearbox assembly, suction elbow, discharge head with check valve, 2 - 2 1/2" NPT discharge, 3 - 3" suction (HM250/350), 3 - 4" Victaulic suction (HM500)

JMP 500 FEATURES

• Single stage, centrifugal pump, gearbox assembly, suction elbow, discharge head with check valve, complete manifolds, discharge valves, adapters and caps, 2 - 2 1/2" NH 1 1/4" turn ball valves, 2 - 3" NH suction adapters and caps (HM250/350), 2 - 4" NH suction adapters and caps (HM500)

JMP 500 PERFORMANCE

• 500 gpm (1893 L/M) @ 150 psi (10.3 bar)
• 350 gpm (1325 L/M) @ 200 psi (13.8 bar)
• 250 gpm (946 L/M) @ 250 psi (17.2 bar)

ADDITIONAL PTO PUMPS

ASSEMBLY #3

• Single stage, centrifugal pump, gearbox assembly, suction elbow, complete manifolds, discharge valves, adapters and caps, 2 - 2 1/2" NH 1 1/4" turn ball valves, 2 - 3" NH suction adapters and caps (HM250/350), 2 - 4" NH suction adapters and caps (HM500)

HM 500 PERFORMANCE

• 500 gpm (1893 L/M) @ 150 psi (10.3 bar)
• 350 gpm (1325 L/M) @ 200 psi (13.8 bar)
• 250 gpm (946 L/M) @ 250 psi (17.2 bar)

JMP 500 FEATURES

• Single stage, centrifugal pump, gearbox assembly, suction elbow, discharge head with check valve, complete manifolds, discharge valves, adapters and caps, 2 - 2 1/2" NH 1 1/4" turn ball valves, 2 - 3" NH suction adapters and caps (HM250/350), 2 - 4" NH suction adapters and caps (HM500)

JMP 500 PERFORMANCE

• 500 gpm (1893 L/M) @ 150 psi (10.3 bar)
• 375 gpm (1325 L/M) @ 200 psi (13.8 bar)
• 250 gpm (946 L/M) @ 250 psi (17.2 bar)
• 100 gpm (378 L/M) @ 500 psi (34.5 bar)

ADDITIONAL PTO PUMPS

ASSEMBLY #2

• Single stage, centrifugal pump, gearbox assembly, suction elbow, discharge head with check valve, 2 - 2 1/2" NPT discharge, 3 - 3" suction (HM250/350), 3 - 4" Victaulic suction (HM500)

JMP 500 FEATURES

• Single stage, centrifugal pump, gearbox assembly, suction elbow, discharge head with check valve, complete manifolds, discharge valves, adapters and caps, 2 - 2 1/2" NH 1 1/4" turn ball valves, 2 - 3" NH suction adapters and caps (HM250/350), 2 - 4" NH suction adapters and caps (HM500)

JMP 500 PERFORMANCE

• 500 gpm (1893 L/M) @ 150 psi (10.3 bar)

• 250 gpm (946 L/M) @ 250 psi (17.2 bar)
• 100 gpm (378 L/M) @ 500 psi (34.5 bar)
The Fast Attack 1 comes with a 13 hp Davey two-stage pump with a 200 gallon Pro Poly tank and Hannay electric booster reel with 100’ of 1” hose.

ATTACK 1 FEATURES
- 13 HP twin impeller Darley Davey pump with Briggs & Stratton engine
- 200 gallon Pro Poly tank
- F4000 Hannay electric rewind reel
- 100’ of 1’’ booster hose
- Self-priming up to 19’
- 1 1/2’’ or 2 1/2’’ NST suction adapter
- 1’’ tank recirculation
- 1/2’’ tank to pump and discharge
- All stainless steel manifold & piping
- 94”L x 48”W x 42”H, 700 lbs. (318 kg)

OPTIONS
- Water/foam nozzle packages for N.A.F.S.
- Roller and spool hose guide
- Built-in 10 gallon foam cell
- ATP Foam Flurry™ proportioner
- 1 1/2” Mattydale swivel
- Work light
- Poly hose tray
- Additional 2 1/2” discharge
- Custom tank sizes
- Additional custom option available

BENEFITS
- Ergonomically designed
- Forkliftable to standard pick-up bed
- Solid pump performance for grass firefighting

ATTACK 1 PERFORMANCE
AK305
- 120 gpm (454 L/M) @ 40 psi (2.8 bar)
- 95 gpm (360 L/M) @ 108 psi (7.4 bar)
- 20 gpm (76 L/M) @ 146 psi (10.1 bar)

ATTACK 2 FEATURES
- Darley 18 hp pump
- Exhaust primer
- 200 gallon Pro Poly tank
- Hannay electric rewind reel
- 100’ of 1’’ booster hose
- All stainless steel manifold & piping
- 94”L x 48”W x 42”H, 900 lbs. (409 kg)

OPTIONS (SAME AS ATTACK 1 PLUS:)
- Briggs Vanguard, Honda and diesel engines
- N.A.F.S. Nozzle Aspirated Foam Systems
- JakPak drop-in bodies

ATTACK 2 PERFORMANCE
1 5AGE 18V
- 120 gpm (454 L/M) @ 130 psi (9 bar)
- 100 gpm (379 L/M) @ 170 psi (11.7 bar)
- 25 gpm (95 L/M) @ 270 psi (18.6 bar)

2BE 18V
- 375 gpm (1416 L/M) @ 25 psi (1.7 bar)
- 300 gpm (1136 L/M) @ 45 psi (3.1 bar)
- 100 gpm (379 L/M) @ 140 psi (9.7 bar)

The Attack 2 has the same tank and reel as the Attack 1 but standardizes on our gear-driven or direct-drive Darley pump coupled to an 18 hp engine with control panel.

WARNING: Cancer and Reproductive Harm – www.P65Warnings.ca.gov
As an industry, we have been trained to think that you have to sacrifice thermal protective performance (TPP) in order to achieve maximum total heat loss (THL). Introducing a game changer for the fire industry, TECGEN71. Fire-Dex FXR turnouts are specifically designed to minimize firefighter stress and fatigue through Active Posture Design™, allowing for full range of motion - especially while wearing your SCBA!

**FIRE-DEX EXCLUSIVE TECGEN71 OUTER SHELL**
THE BEST TPP/THL BALANCE IN THE HISTORY OF TURNOUT GEAR

**ENSEMBLE FEATURES**
- Lightweight and flexible TECGEN71 outer shell
- STEDAIR® 4000 moisture barrier
- GLIDE ICE™ thermal liner with superior wickability
- Thermoplastic zippers
- 3" NYC Scotchlite™ lime/silver trim
- PCA reinforced cuffs

**TECGEN71 FEATURES RIP TWILL CONSTRUCTION:**
The proven strength of 60/40 Kevlar®/Nomex® on the face of the fabric, while creating a super structure of the TECGEN® fiber inside. This combination provides a lightweight solution, weighing in at 6.5 oz/yd2.

**DOUBLE LOCK STITCHING**
Fire-Dex uses lock stitching on all major seams, cuffs, and reinforcements, with 4 rows of lock stitch on all reflective trim and hook & loop closure material.

**SUPERIOR POCKETS**
All Bellows Pockets are reinforced with Kevlar® for the best cut resistance. All Radio Pockets are fully lined with moisture barrier, including the pocket flap. All pocket flaps are extra long to ensure complete closure, no matter the bulk inside.

**COAT FEATURES:**
- 30° coat length
- Zipper with hook and loop closure
- Combo handwarmer/semi-bellows pockets
- Radio pocket with double notched flap
- Flashlight holder
- Mic clip above radio pocket
- Optional lettering available

**PANT FEATURES:**
- Zipper with hook and loop closure
- 2 take-up straps at waist
- Semi-bellows pockets
- Padded knees
- Deluxe H-Back padded suspenders with cam-lock

BP166 | TECGEN71 Coat, 6.5 oz. | S-XXXL | Black | $1,849.95
BP167 | TECGEN71 Pant, 6.5 oz. | S-XXXL | Black | $1,292.95
A structural firefighting outer shell designed to lessen heat stress by reducing weight and increasing flexibility. TECGEN71 features a rip twill weave that combines the proven durability of DuPont™ Kevlar®/Nomex® and the unique benefits of the TECGEN fiber. TECGEN71 is the first of its kind to address this growing health concern with innovative technology aimed at providing the perfect balance of breathability, comfort, TPP and THL, all while offering an overall reduction in composite weight.

TECGEN71 COMPOSITES VS. TYPICAL COMBINATIONS:

- 20% Lighter
- 45% Thinner
- 70% More Flexible
- 50% Higher Total Heat Loss

WITHOUT SACRIFICING THERMAL PROTECTIVE PERFORMANCE

SEAMLESS COLLAR
Comfort and NFPA compliant protection without the need for a throat tab

OMNIDEX™ SHOULDER
Eliminates coat rise and sleeve retraction by moving the shoulder seam to the natural bending point, allowing for optimal SCBA positioning

ATHLETIC PANT DESIGN
Provides natural movement and comfort in a forward firefighting position

DEXFLEX™ KNEES AND ELBOWS
Move freely and reduce resistance with naturally-bent knees and elbows

STACK UP THE SAVINGS WITH OUR DARLEY ARMOR AP™ GEAR PACKAGE

STEP UP YOUR GAME WITH THE BEST DUPONT NOMEX®/KEVLAR® OUTER SHELL BLEND

For at least two decades, fire departments choosing outer shells made of 40% DuPont™ Nomex®/60% DuPont™ Kevlar® have been limited to stiff and uncomfortable gear...until now. Utilizing the groundbreaking Filament Twill Technology™ used in PBI Max™, the new Armor AP™ fills the needs of firefighters who prefer improved mobility, durability, and improved protection at an economical price. Armor AP™ - a 6.5 oz. outer shell with absolute performance.

ABSOLUTE PERFORMANCE

How does one achieve absolute performance utilizing the same fibers (meta-aramid, para-aramid) used in Fusion™ and TenCate Advance™...and not increase the cost 25-50%? The answer lies in Filament Twill Technology™. Like PBI Max™, Armor AP™ is powered by DuPont™ Kevlar® filament in a twill weave. The result is a lighter weight outer shell (6.5 oz.) with improved comfort/flexibility, improved strength and durability, and equal to improved protection.

IMPROVED DURABILITY

DuPont™ Kevlar® filament allows Armor AP™ to resist tearing for a longer period of time than traditional outer shells like Fusion™ and TenCate Advance™...improving durability.

IMPROVED COMFORT/FLEXIBILITY

Better comfort and flexibility lead to better mobility. Better mobility can make all the difference in a life threatening situation. Firefighters wearing Fusion and TenCate Advance don’t need to sacrifice mobility any longer...Armor AP is the answer.

PACKAGE INCLUDES:

- DARLEY ARMOR AP™ GEAR COAT
- DARLEY ARMOR AP™ GEAR PANTS
- H41 INTERCEPTOR HOOD
- RIPSTOP 3XL TURNOUT GEAR BAG
- PRO-TECH 8 FUSION GLOVES
- FIRE-DEX LEATHER BOOTS
- EVI TRADITIONAL HELMET

RDG40 TURNOUT GEAR
DURABILITY, MOBILITY, AND PROTECTION AT A PRICE THAT FITS

Shorter front, longer back coat. Low-rise pant. Streamline design packed with a host of innovative, ergonomic features. Based on Innotex Energy Pattern.

- **Variable Height Collar™**: Low-rise front, high-rise back neck/collar configuration. US Patent 8,151,371
- **No-Gap™ Throat Flap**: Provides a NO-GAP™ thermal protection
- **Ergonomic Full Motion Noseam™ Shoulder**: Designed to follow natural arm movements for optimal mobility. Seams are placed away from high-abrasion areas
- **Retractable Action Back**: Adds length across your back. Increased mobility when reaching and stretching
- **Durahem™ Sleeve and Leg Hems**: Ultra-resistant aramid-coated piping sewn to the cuff. Protects cuffs from abrasion
- **Angled Cuff Sleeve Hem**: Increases protection for the top of the hand without compromising hand mobility
- **Offset Seam Design**: Seams are positioned away from high-abrasion areas, increasing wear life
- **Adjustable Belt**: Comes with a 2” Nomex™ belt
- **Complete Motion Crotch**: Allows greater freedom of movement and prevents twisting
- **Enhanced Mobility Knee™ (EMK™)**: Enhances mobility without tugging. Ensures that the knee protection stays securely in place.
- **No-Bulk™ Pant Closure**: Streamlined 3-layer pant closure flap
- **Reflective Piping Seams**: Increases visibility
- **Easy-to-Grip Padded Pull Tab**: Oversized and padded for easy handling with gloves

**DARLEY GOLD GLOVES**

**NOW WITH GORE PROTECTION**
- Offers unmatched comfort, protection and performance in an NFPA fire glove
- Gore RT7100 waterproof, breathable barrier system is the same proven technology used by many of the leading turnout gear manufacturers
- Every liner is sewn, seam sealed and 100% dunk tested
- Best in class technology means better dexterity, no liner pull-outs and performance even after exposures in hot structural environments
- Heavy weight Koala tanned outer shell will remain soft after repeated soakings

**SPECIFY SIZE: S-XL, Jumbo**
- BH127 Darley Gold Gauntlet Gloves $70.95/pr.

**PIGSKIN FIREWALL® GLOVES**

Wash and Wear Pigskin Firewall® Gloves last 4x longer than others. Outer shell stays soft and supple even after repeated soakings. Gloves come with a sewn-in, breathable, liquid-proof barrier for bacteria and chemicals. Meets the highest requirements in terms of durability and abrasion resistance. AC542 and BA003 meet NFPA 1971. Made in USA. Ship. wt. 1 lb.

- Nomex® knitwrist
- Vapor barrier (NFPA only)
- Gunn cut seamless palm
- Thermal lining
- OSHA and NFPA styles available

**SPECIFY SIZE: S-XL**
- AC542 Pigskin Firewall® Gloves, NFPA Wristlet $98.95/pr.
- BA003 Pigskin Firewall® Gloves, NFPA Gauntlet $90.95/pr.
- AC543 Pigskin Firewall® Gloves, OSHA Wristlet $67.95/pr.

**KOALA GLOVES**

- Shelby® Koala tanned, split cowhide
- Gore™ glove barrier fabric
- Fire retardant
- Wing thumb
- Nomex® wristlet
- Breathable barrier
- Sewn in liner/barrier systems
- NFPA/CE compliant
- Ship. wt. 1 lb.

**SPECIFY SIZE: S-XL**
- AW122 Koala Gloves Wristlet $88.95/pr.
- BA002 Koala Gloves Gauntlet $85.95/pr.

• Gore™ RT7100 glove barrier fabric
• NFPA & CE compliant
• Heavy-weight
• Fire retardant
• Shelby “Black Line” Nomex® wristlet

**SPECIFY SIZE: S-XL, Jumbo**
- BD144 Elk/Pig NFPA Wristlet Gloves $103.95/pr.
- BD145 Elk/Pig NFPA Gauntlet Gloves $100.95/pr.
FIRE-DEX® FDXL200 LEATHER BOOTS
PROTECTION FOR THE HEAT OF THE BATTLE
• Easy Don and Doff: Quickly don with wide integrated pull handles, reinforced with an extra layer of leather for longevity. A finished edge also helps resist against skin abrasion.
• Added Visibility: Be seen in low-light conditions with bright reflective 3M™ Scotchlite™ trim.
• Quality Leather: Feel extra comfort & protection with shin cushioning & Flame Stop leather-made from the finest U.S. steer.
• Flex and Mobility: Climb and crawl with greater mobility. Additional flex points at the ankle eliminate pitch points and allow for a larger range of motion.
• Long-Lasting Support: Stay energized during long hours with a naturally-shaped, shock absorbent sole that features toe & heel springs to reduce impact zones.
• Extreme Durability: Resist tearing with Nomex® and Kevlar® lining.

SPECIFY SIZE: 8-11, 12, 13, 14
SPECIFY WIDTH: M, W or XW
BP212 Fire-Dex® FDXL200 Leather Boots $349.95

BLACK DIAMOND X2-BOOTS
• Calf-Fit System™: Exclusive calf-fit system™ allows for maximum comfort and fit
• Leather Upper: Fire retardant, genuine heavyweight FireTuff™ leather
• Lining: CROSSTECH® fabric with Omaha lining is a high performance, wicking fabric, originally developed for aggressive military applications
• Lining Construction: Stitch-down “Stroble” lining ensures no liner pull-out and maximum fit
• 3-Point Heel Lock System: Exclusive for fit and comfort
• 3M Scotchlite™ Reflective Material: Flame-resistant fluorescent and reflective material for added visibility
• Toe Cap Protection: Rubber toe cap for high-abrasion and steel toe HI 500 Oblique Comfort Toe meets or exceeds ASTM standard
• Footbed: Tri-density, multi-fit, removable comfort footbed with TPU arch support, anti-microbial, breathable and shock absorption
• Certification: NFPA 1971 for Structural Firefighting and NFPA 1992 for Liquid Splash

SPECIFY SIZE: 7-11, 12, 13, 14
SPECIFY WIDTH: M, W or XW
MBK274 Black Diamond X2-Boots $330.95

PROXIMITY / BUNKER BOOTS
• Athletically designed for unencumbered performance and agility
• Specially designed profiled boot to accommodate the largest legs fitting comfortably under proximity pants
• Proven for more than 20 years in the fire service, the Goodyear welt is made to withstand the harsh proximity environment
• Improved heel pocket and comfortable molded insert defend against heel slippage while stabilizing and minimizing back and leg strain
• Vibram® lug soles with FIRE&ICE™ compound are cemented and security stitched for the greatest protection possible in extreme radiant heat conditions
• Steel bottom plate and shank for complete protection
• Double radiant layers and aluminized shield keep heat transfer away from your feet in high heat conditions
• Full height bootie with 7.5 oz. of Virgin Kevlar® felt quilted to Cambrelle® and laminated to Crosstech®

BL429 X-Large Turnout Bag $49.95

QUAD-VENT TURNOUT GEAR BAG

Lightning X Products has been making quality public safety bags for nearly 20 years. From time to time we get the urge to improve upon existing bag designs. The LXFB45M uses Quad-Vent Technology that features four uniquely shaped mesh vents located at each corner of the turnout gear compartment to promote cross ventilation. This keeps your gear fresh and helps prevent mildew from forming. Our competitors only offer a bag with one vent, in the rear of the bag… how is air supposed to flow through just one vent? The Quad-Vent bag is large enough to hold all of your gear, boots and helmet comfortably – without being so big that it becomes cumbersome to carry around.

- Four PVC reinforced mesh air vents front & back provide full ventilation for your gear
- Comparable bags only offer a single air vent
- Cross ventilation allows gear to dry faster
- Helps prevent the growth of mildew from storing damp turnout gear
- Adjustable padded shoulder strap with heavy-duty snap hooks

SPECIFY COLOR: Red, Fluorescent Yellow or Black

BP197 Quad-Vent Turnout Gear Bag $58.95

BOOT STYLE TURNOUT GEAR BAG

- Reinforced bottom
- Nylon strap grabber
- ID window
- Dimensions: 17"x18"x20 1/2"

BL414 Boot Style Turnout Gear Bag $42.95

DARLEY TURNOUT GEAR BAG

- Available in two sizes, this bag is designed to hold your gear. Features a front outside zippered pocket to carry smaller items
- Standard bag measures 13 1/2"L x 13"H x 24"W
- Extra large bag has 25% more room measuring 13 1/2"L x 16"H x 24"W
- Available in choice of plain red, red with Maltese Cross or Royal Blue with Star of Life. Ship. wt. 3 lbs.

AJ093 Darley Turnout Gear Bag $71.95
AJ027 X-Large Royal Blue Darley Turnout Gear Bag $84.95
**LITE FORCE PLUS MODERN HELMETS**

Morning Pride’s very best modern helmet is the perfect choice for comfort, safe head protection. *Ship. wt. 4 lbs.*

- Strongest Shell on the Market - Test show that FYR-Glass is 42% more resistant to impact penetration than helmets made of fiberglass
- FYR-Glass Technology - Provides a helmet that is lighter, lower ride, more comfortable and better fitting
- High Heat Performance - No other shell finish stands up to high heat like FYR-Glass
- Low Ride, Better Fit, Low Center of Gravity - 8-point suspension and wider interior gives wearer superior comfort and fit
- More Sizes, More Adjustability - Our headband/ratchet will fit the largest range of hat sizes of any NFPA helmet on the market, plus for position depth adjustments
- Accessories - Padded adjustable ratchet system, protective Nomex® earflaps, combo adjustable chin strap, Reflexite® trim
- Meets and exceeds NFPA 1971-2007

**CAIRNS 660C FIBERGLASS HELMET**

Helmet shell is reinforced, high-temperature resistant molded fiberglass. Cairns’ patented shell release helps reduce the chance of neck injury by allowing the shell to release, leaving the impact cap behind for protection under severe upward impact. Beneath the shell is a high-temperature foam cap for increased thermal and impact protection. Headband features adjustable front for perfect fit between helmet and SCBA mask and 3-position rear ratchet adjustment. Other features include full brim, high-temperature edge trim, faceshield wing protectors, Nomex® chinstrap with quick-release and postman slide, Nomex® neck/ear protector and 4” Tuffshield faceshield. Helmet fronts sold separately. Meets NFPA 1971. *Ship. wt. 5 lbs.*

**FIRE-DEX® 911™ HELMET**

The 911™ helmet provides solid, dependable, comfortable protection in a multitude of environments and still allows for a wide range of vision and long-use. Helmet shell is made of the lightest fiberglass composite offering superior protection against high temperature and chemical hazards. Its unique foam impact insert assembly provides even more top and side protection. Long lasting, easy-to-clean, high-gloss, flame-retardant finish resists scratches and UV rays. Replaceable 4” PPC wrap around face shield features an easy-to-operate tension adjustment and plastic bracket to provide maximum dielectric protection. Meets current NFPA standards. *Ship. wt. 5 lbs.*

- Colored throughout fiberglass compression molded shell
- Fiberglass shell has superior flame and heat resistance
- Thermal impact cap is a low density injection mold
- 2 pieces that are inseparable
- 6 way overhead suspension straps allowing for a more customized helmet “ride”
- 3 piece headband with ratchet assembly for easy adjustments (6¼” - 9¼”)

**Fire-Dex**
FIREDOME® FX HELMET-FIBERGLASS

Firefighters frequently exposed to chemicals and hydrocarbons appreciate the FireDome® FX with a resin-bonded fiberglass outer shell. Fiberglass helmets are more resistant to chemical attack and more stable at extreme temperatures than those made of thermoplastic. Meets NFPA 1971 Standard. Ship. wt. 5 lbs.

AF086 FireDome® FX Helmet with Faceshield $247.95
AS354 FireDome® FX Helmet with Goggles $256.95

FIREDOME® PX HELMET- THERMOPLASTIC

Firefighters who need a more durable helmet choose the FireDome® PX helmet with injection-molded thermoplastic outer shell. Constructed with a high-heat thermoplastic providing greater impact and penetration resistance than fiberglass; plus it’s more reliable with repeated heat exposures. Meets NFPA 1971. Ship. wt. 5 lbs.

AF088 FireDome® PX Helmet with Faceshield $259.95
AS027 FireDome® PX Helmet with Goggles $264.95

THE FIREDOME® LT HELMET

The FireDome® LT structural fire helmet is the result of 20 years of Bullard engineering, polymer technology and expertise. The Bullard Tough LT comes standard with the all-new and innovative, patented Quick-Attach Blade System, that permits the firefighter to simply press on or off either a blade-mounted faceshield or blade-mounted goggles in seconds. This helmet can also be enhanced with a variety of optically correct visors, goggles, and neck protectors to equip your fire department with complete head, face and neck protection to meet your specific applications. With the new compact design and lower center of gravity, the LT keeps weight evenly distributed and holds the helmet stable on the head. Meets NFPA 1971. Ship. wt. 5 lbs.

AW498 FireDome® LT Helmet with Faceshield $207.95
AW499 FireDome® LT Helmet with Goggles $212.95
FIREDOMES® UST TRADITIONAL HELMET

Comfort and protection is now better than ever. The UST’s outer shell is made with Thermoglas® offering a new standard of toughness and durability without sacrificing comfort. Chipping and cracking found in conventional fiberglass helmets is virtually eliminated while still providing chemical resistance and stability at extreme temperatures. The UST features impact liner, high-heat thermoplastic inner shell, Sure-Lock® adjustable headband, replaceable and washable brow pad, Nomex® chin strap with quick-release buckle and postman’s slide fastener, Nomex® ear/neck protector, brass eagle, reflective tetrahedrons, and your choice of 4” faceshield or goggles. Meets NFPA 1971. Helmet fronts sold separately. Ship. wt. 5 lbs.

USTM HELMET WITH RETRAK

Bullard ReTrak Series Traditional Helmet offers emergency responders a fire helmet with an integrated visor engineered based directly on feedback from firefighters. NFPA 1971/ANSI/ISEA Z87.1+Requirements. Traditional Style Helmet, Matte Finish. Made in USA.

• Simple one-handed operation
• Easily accommodates eyewear
• Increased area of protection
• Comfort nosepiece
• Quick removal for cleaning

CAIRNS 1010 TRADITIONAL STYLE HELMETS

Features new tough, through color, reinforced, high-temperature resistant, molded fiberglass composite shell that resists cracking and chipping. Cairns’ patented shell release helps reduce the chance of neck injury by allowing the shell to release, leaving the impact cap behind for protection under severe upward impact. Beneath the shell is a high-temperature foam cap for increased thermal and impact protection. Headband features adjustable front for perfect fit between helmet and SCBA mask and 3-position rear ratchet adjustment. Other features include high-temperature edge trim, faceshield wing protectors, Nomex® chinstrap with quick-release and postman slide, Nomex® neck/ear protector and 4” Tuffshield faceshield. Helmet fronts sold separately. Meets NFPA 1971-2007 Edition. Ship. wt. 5 lbs.
**BEN FRANKLIN 2 PLUS TRADITIONAL HELMETS**

You can’t beat the combinations of a traditional styled helmet with the strongest outer shell on the market by Morning Pride. *Ship. wt. 4 lbs.*

- **Strongest Shell on the Market** - Test show that FYR-Glass is 42% more resistant to impact penetration than helmets made of fiberglass

**EV1 TRADITIONAL HELMET**

The progressive interface and cutting-edge features of EV1 helmets offer unmatched performance with a sturdy, sleek, lightweight design that customizes fit for unparalleled comfort and superior functionality. Low-profile design combined with lighter-weight materials provides superior comfort, optimal fit, and improved balance. Proprietary EZ Touch feature allows for one-touch deployment of your face and eye protection. No fuss. No hassle. Stows internally and provides adjustment to fit your face perfectly. Features a safety lock and a cushioned nose guard. EZ Touch face and eye protection is released at the touch of a finger and is the only solution for quick one-hand deployment.

- **EZ Touch internal face and eye protection with safety lock**
- **Black Nomex® 2-layer FR cotton ear covers**
- **EZ Clip replaceable and reversible chinstrap with quick-release and postman slide**
- **Composite fiberglass shell**
- **Large hang-up loop**
- **Bulldog edge beading**
- **Golden alloy-plated eagle front holder**
- **Anti-catch safety bracket for leather fronts**
- **8 Reflexite® lime trapezoids**
- **Certified to NFPA 1971**

**INNERZONE 3™ WRAPAROUND STRAPS**

The ESS Innerzone 3™ features a wrap-around strap system that secures to structural helmets with two Velcro® tabs. Designed to protect eyes during extrications, USAR, and other hazardous situations that demand primary eye protections. The Innerzone 3™ is fully NFPA compliant, including the 500˚ 5-minute NFPA oven test. NFPA 1971.

- Functions well with all major structural firefighting helmet designs
- Patented Speed Clip™ strap system makes adjustment quick and easy
- 2-piece strap system made of 26mm-wide, high-memory woven Nomex®
- Frame made from high heat-resistant materials
- Full-perimeter ventilation and filtration system
- Lenses feature ESS ClearZone™ anti-fog and anti-scratch lens coating
- Lenses provide 100 UVA/UVB protection and precise optical clarity for distortion-free vision
- Lenses are highly impact resistant and exceed the impact requirements of ANSI Z87.1-2010+

PARTICULATE HOODS

H41 INTERCEPTOR™ HOOD WITH DUPONT NOMEX® NANO FLEX

The H41 Interceptor™ Hood is made with a layer of DuPont™ Nomex® Nano Flex inside that acts as a filter to reduce firefighters’ exposure to persistent fireground carcinogens and other contaminants. We’ve used this revolutionary material sewn between two layers of knit 6.0 oz. PBI®/Lenzing (20%/80%) to provide the maximum performance for particle barrier filtration, comfort, and thermal and flashover protection.

**SCIENTIFIC DATA**

The H41 Interceptor™ blocks 95% of particulates at .2 micron in size or larger. For perspective, there are 25,400 microns in one inch and a human hair is about 75-100 microns wide, so a .2 micron particulate is about 500x smaller than a strand of hair. Testing has shown that the particulates sized at less than .2 microns don’t have enough mass to make it through the double layer knit and the Nomex® Nano Flex; essentially meaning that this hood blocks 100% of particulates less than .2 microns.

**SPECIFY SIZE: XL**

BN358 H41 Interceptor™ Hood $139.95

H41 INTERCEPTOR™ HOOD WITH STEDAIR® PREVENT

Choose the H41 Interceptor™ to reduce the absorption of carcinogens in the highly-permeable skin around your face and neck.

This 2-layer hood features an inner layer of Stedair® PREVENT with one outer layer of 8oz. Nomex® 100%.

- Unmatched breathability compared to moisture barrier technology
- Maintains excellent flame and heat resistance
- Exceeds NFPA 1971 requirements for TPP, THL and burst strength
- Built for durability
- Mask not included

BP008 H41 Interceptor™ Hood w/Stedair® PREVENT $115.95

**GORE® PARTICULATE HOOD GEN2 NOMEX BLEND**

**IMPROVED COMFORT, WITHOUT COMPROMISING PERFORMANCE**

As we continue to learn about the potentially harmful contaminants found at the fireground, the need for protection against those particulate hazards has become more crucial. Wearing the GORE® Particulate Hood GEN2 will give you the additional protection you need while maximizing comfort.

- One size fits all convenience
- Continues to block 99.9% of particles in the 0.1 to 1.0 micron-range after laundering; exceeds strength requirements in the NFPA 1971-2018 standard
- Excellent breathability
- Excellent durability

BP276 GORE® Particulate Hood Gen2 Nomex® Blend (White) $99.99

**GORE® PARTICULATE HOOD GEN2 ULTRA C6**

**IMPROVED COMFORT, WITHOUT COMPROMISING PERFORMANCE**

As we continue to learn about the potentially harmful contaminants found at the fireground, the need for protection against those particulate hazards has become more crucial. Wearing the GORE® Particulate Hood GEN2 will give you the additional protection you need while maximizing comfort.

- One size fits all convenience
- Continues to block 99.9% of particles in the 0.1 to 1.0 micron-range after laundering; exceeds strength requirements in the NFPA 1971-2018 standard
- Excellent breathability
- Excellent durability

BP277 GORE® Particulate Hood Gen2 Ultra C6 (Black) $112.49
PARTICULATE HOODS

INNOTEX GRAY™ PARTICULATE BLOCKING HOOD 25
Developed to meet the proposed requirements of NFPA 1971, the particulate blocking layer blocks carcinogenic particulates 0.1 µm to 1.0 µm that are found in the combustion of structural fires by greater than 98%. Yet, that same layer also allows for air permeation, which is essential to reduce the risk of increased core temperature.

3 LAYER APPROACH
The INNOTEX GRAY™ Hoods use a 3 layer approach similar to Turnout Gear. The two inner layers are laminated together to increase comfort and reduce bulk.

PARTICULATE BLOCKING LAYER
INNOTEX GRAY™ Hoods use a proprietary version of Stedair® PREVENT, which blocks carcinogenic particulates 0.1 µm to 1.0 µm (microns) by greater than 99%.

AIR PERMEABILITY
The INNOTEX GRAY™ Hoods are air permeable, which means air can pass through them. Body heat can dissipate, helping reduce the risk of increased body temperature.

BN698 INNOTEX GRAY™ Particulate Blocking Hood 25 $108.95

COBRA™ BARRIAIRE GOLD™ HOODS
CERTIFIED TO NFPA 1971
BarriAire Gold Hoods combine superior comfort, increased protection and maximum durability. Your fire hood is an investment in your health and safety — go for the gold, BarriAire Gold Hoods only from PGI. Lightweight inner layer of DuPont™ Nomex® Nano flex fabric inhibits penetration of harmful contaminants and carcinogenic particulates between 0.1 and 1.0 microns.

BN721 COMPLETE COVERAGE
Particulate coverage includes entire head except for Sure-Fit™ panel at crown. Front and back bib extends particulate barrier coverage beyond critical areas as identified by NFPA - Maximum Protection.

BN722 CRITICAL COVERAGE
Particulate coverage from base of the neck and around entire head except for Sure-Fit™ panel at crown. All critical areas of particulate penetration as identified by NFPA have particulate barrier.

BN721 PGI BarriAire Complete Coverage Hood $102.95
BN722 PGI BarriAire Critical Coverage Hood $89.95

VERIDIAN™ PREVENT BARRIER
Developed to meet the proposed requirements of NFPA 1971, the particulate blocking layer blocks carcinogenic particulates 0.1 µm to 1.0 µm that are found in the combustion of structural fires by greater than 98%. Yet, that same layer also allows for air permeation, which is essential to reduce the risk of increased core temperature.

• 99.99% blocking efficiency after 100 wash/dry cycles
• Highest THL in the industry
• Superb durability
• Revolutionary design achieves bless bulk
• Tailored design allows for maximum comfort
• NFPA 1971 optional requirements for protective barrier hoods

BP220 Veridian™ Prevent Barrier Hood $75.95

VERIDIAN™ NOMEX NANO FLEX
Developed to meet the proposed requirements of NFPA 1971, the particulate blocking layer blocks carcinogenic particulates 0.1 µm to 1.0 µm that are found in the combustion of structural fires by greater than 98%. Yet, that same layer also allows for air permeation, which is essential to reduce the risk of increased core temperature.

• Water-repellent outer layer
• Stretchable materials provide maximum comfort and unrestricted range of motion
• One size fits all
• Seam free on the top of the head allows for maximum breathability and comfort
• Unique “Barcoded” ID for tracking
• NFPA 1971 Optional requirements for protective barrier hoods

BP221 Veridian™ Nano Flex Hood $89.95
OUR BEST HOOD DEAL
NOMEX® BLEND HOOD
Our most popular NFPA hood at an affordable price point. This hood is made of 20% Nomex/80% Lenzing FR fabric with rib knit construction. Single one piece design with notched shoulders for safe head and neck protection.
- Thermal protective rating of 29.4
- Certified NFPA 1971
- One-piece construction with notched shoulder
- 18” overall length
- One size fits all
- Nomex blend
- 22.7 cal/cm² TPP rating

AZ152 Nomex® Hood $23.95

PROTECTIVE HOODS THAT GO ON EASY & SEAL TIGHT
CERTIFIED TO NFPA 1971
Features easy sealing face opening that fits snugly for maximum protection and keeps its shape even after repeated usage; elastic face opening stretches to 15” for easier donning. Flat seams won’t dig and seamless chin area provide for added comfort. Full 13” double layer head for better face and neck protection. Double 8” back bib and 6” front bib keeps hood from coming untucked. Lenzing is a permanently flame resistant fiber that wears like cotton and helps wick moisture. One size fits all. Ship. wt. 1 lb.

NOTCHED SHOULDER
AK020 Nomex® Hood $29.95
AK022 PBI Hood $35.95

ULTRA C6 HOOD
NFPA 1971-2007 EDITION
The new carbon tri-blend Ultra C6 has been engineered to address the concerns and needs in the safety world. Its unique mix of fibers maximizes the inherent performance properties of each fiber to provide optimal protection and comfort. Enhanced comfort adds to functionality and improves performance and efficiency in the workplace. Ship. wt. 1 lb.

COLOR: Black
BH029 Ultra C6 Hood $39.95

DARLEY HOOD
Darley has teamed with PGI to develop a new standard in hood protection. We’ve selected Para-Tek FR™ as a proprietary Tri-Blend that leverages the benefits of three fibers, high strength Para-Aramid, Lenzing® and High Tenacity Nylon. The end result is a lightweight, breathable hood that offers exceptional flame and heat resistance.
- Excellent TPP rating – 34.8 after five washings
- Provides double layer coverage of neck, upper chest, shoulders and shoulder blades
- Improved styling for better fit and maximum coverage
- Superb flame resistance – lowest vertical char lengths of all hood fabrics
- UL classified to NFPA 1971
- Comfort and excellent moisture absorbency

BL577 Darley Hood $27.95

CARBON X HOODS
CERTIFIED TO NFPA 1971
Carbon shield is a flame resistant fabric based on carbon fiber technology. If exposed to extreme heat or flame, fabric glows but won’t burn. Retains a certain tenacity at temperatures exceeding 2300° for over 90 seconds

ONE SIZE FITS ALL
AW017 Ultimate™ Carbon X Hood $34.95
AW115 Classic™ Carbon X Hood $27.95

ADD A LITTLE COLOR
MEETS NFPA STANDARDS 1971 (CURRENT EDITION)
Features easy-sealing face opening that fits snugly for maximum protection and keeps its shape even after repeated usage. Elastic face opening stretches to 15” for easier donning. Flat seams won’t dig and seamless chin area provides for added comfort. Hood is 2-piece construction, notched shoulder bib design. One size fits all. 21” length. Ship. wt.1 lb.

SPECIFY COLOR: Red, Black, Yellow, Navy or Gray
AK021 P84 Hood $42.95
**EZ ADJUST Padded Suspenders**

Designed with 8-point attachment. EZ release - just push up with finger or thumb. EZ tighten - just pull down on the EZ to find round rings. Pads are made with FR rated closed cell foam and sewn to allow for adjustment by end user. 47” length. Ship. wt. 1 lb.

**LEATHER FIREMAN’S SUSPENDERS**

Leather Fireman’s Suspenders are handcrafted in the U.S.A. with the finest quality.
- 10-12 oz English bridle leather
- Full grain
- Drum-dyed

**MATERIALS:**
- Straps: Polypropylene red, heavy-duty elastic,
- 2” wide, .055” thickness, 400 minimum tensile strength
- Attachment Point Elastic: ¼” wide, double layer, 5½” long for each of 8 button tabs
- Leather Tabs: Eight leather tabs for button attachment
- Leather back patch

**CONSTRUCTION:**
- Crossover style, heavy-duty elastic
- Crossed in rear with leather back patch
- 8-point leather tabs
- 42” long
- All seams double stitched for added strength

**BG243**  
**EZ Adjust Padded Suspenders**  
$35.95

**BH103**  
**Leather Fireman’s Suspenders 39½”-45½”**  
$62.95

**BH104**  
**Leather Fireman’s Suspenders 39½”-48½”**  
$64.30

**PADDED SUSPENDERS**

- 8-point heavy-duty button attachment
- Extra large “quick adjust” rings to accommodate gloved fingers
- “H” back design
- Heavy-duty cotton webbing
- Foam padded straps

**SPECIFY SIZE:** S (36”), M (42”), L (48”)

**BG568**  
**Padded Suspenders**  
$19.95

**TRADITIONAL SUSPENDERS**

**MATERIALS:**
- Straps: Polypropylene red, heavy-duty elastic,
- 2” wide, .055” thickness, 400 minimum tensile strength

**BH104**  
**Leather Fireman’s Suspenders 39½”-48½”**  
$64.30

**BH103**  
**Leather Fireman’s Suspenders 39½”-45½”**  
$62.95
NYLON LIFE BELTS  
MADE FOR MAXIMUM SAFETY, DURABILITY, VERSATILITY AND COMFORT

Life Belts are made with nylon especially woven to meet rigorous strength, texture and durability requirements. Webbing has a minimum breaking strength of 9,000 pounds. Assembled belt will withstand 2,000 pounds. The 3” wide buckle strap, sewn with high-tensile nylon thread and riveted with copper rivets to the 5” wide body strap, is fitted with a double tongue buckle, which enables fast engagement and release of belt. Ship. wt. 5 lbs.

SPECIFY BELT SIZE: XS (34”-40”), S (36”-42”), M (40”-46”), L (44”-50”), XL (46”-56”)

J922  Life Belt with Pompier Hook only  $168.95

LEATHER TRUCKMAN’S BELT
The traditional firefighter’s Truckman’s belt now has an improved design; use it for just about anything. Constructed of top-grain leather, measures 1½” wide and is fully adjustable. Includes heavy-duty snap hook and 2 heavy-duty rings. Folds are riveted as well as stitched for durability. All hardware is chrome plated brass. Optional equipment hook and ring are easily added with secure screw rivets. Ship. wt. 3 lbs.

H992  Leather Truckman’s Belt  $58.95
AR308  Equipment Hook  $13.95
AR309  Equipment Ring  $12.95

COBRA-D UNIFORM RAPPEL BELT  
DESIGNED FOR EMERGENCY RAPPEL

In a class by itself, CMC offers the only NFPA Certified Uniform Rappel Belt available. Designed for everyday wear but with the performance needed for an emergency rappel or belay. Standard uniform wear for fire fighters, search and rescue, and SWAT personnel, the belt is constructed to the same exacting standards as their harness line and is the only certified uniform belt available.

SPECIFY COLOR: Black or Coyote

BN054  Cobra-D Uniform Rappel Belt  $86.95

PAC MULE ULTRA LADDER BELT  
THE ULTIMATE HANDS-FREE TRUCKMAN’S BELT  
DESIGNED BY FIREFIGHTERS

These lightweight belts provide 4” of Coolmax back padding for wraparound support and keep SCBA from hitting your spine. Carry tools and equipment in any situation without slipping or tangling. D-rings Velcro® up and out of the way when not being used. Belt is made from 3M Scotchlite, flame-resistant, highly reflective material. Adjusts easily to fit over your turnout gear. Features rear carabiner slots, a carabiner and an 18” lanyard. BK122 has the same features as AZ241 with added capabilities of making a ladder belt into a Class II harness by attaching the leg lanyards. Color coded by size for quick identification. Ship. wt. 2 lbs.

X-LARGE SHOWN

**SHIELD SAVER**

- Protects both sides of faceshield to prevent scratches
- Reduces eye injuries
- Durable marine-grade vinyl reduces frequency of faceshield replacement
- Velcro® closure
- Available for 4” or 6” faceshields
- *Ship. wt. 2 lbs.*

**FOXFIRE® ILLUMINATING PRODUCTS**

Identify your crew in total darkness with these illuminating tetrahedrons. Patented combination of high-output photo luminescent and extreme reflectivity. High temperature resistance with a strong bonding adhesive backing.

- Increases visibility and positional orientation
- Can be charged by any light source (sun, artificial light, low light)
- Illuminates up to 17 hours when fully charged
- Glow/illumination serves as a “light emitter”
- May be recharged repeatedly by any light condition
- Energy efficient, eco-friendly and no batteries required
- Made of industrial grade high temperature resistant silicone
- Can withstand high temperatures

FLIR K45, K55 AND K65 THERMAL IMAGING CAMERA KITS
WITH FSX™ FLEXIBLE SCENE ENHANCEMENT

FSX™ realtime digital processing results in ultrasharp images defining extraordinary structural attributes, edges, and other instantly recognizable details.

CLEAR AND CRISP THERMAL IMAGES
The maintenance free uncooled microbolometer sensor produces detail rich images at 320 x 240 pixels (K55 & K65) and 240 x 180 pixels (K45). Thermal images are displayed on a large bright 4” LCD for easier navigation and the ability to make more efficient, accurate decisions.

NFPA® COMPLIANT K65 ONLY
The K65 is an advanced, feature rich thermal imaging camera which is fully compliant with the National Fire Protection Association® (NFPA) 1801 2018 Standard for Thermal Imagers covering usability, image quality, and durability for firefighting.

EXPANDED WARRANTY
All new K-Series cameras are protected by our exclusive FLIR 2-5-10 Warranty that includes 2-years of coverage on batteries, 5-years on the camera, and 10-years on the detector.

RUGGED & RELIABLE
The K-Series is designed to meet tough operating conditions. They withstand drops from 2 meters onto a concrete floor, are water resistant (IP67) and fully operational up to +260°C/+500°F for 5 minutes.

EASY-TO-USE; EVEN WITH GLOVES ON
An intuitive and simple user interface allows you to focus on the job at hand. FLIR® K45, K55, and K65 cameras are controlled by 3 large buttons, ideal for a gloved firefighter’s hand.

PRODUCE ANALYTICAL REPORTS
Store up to 200 thermal images in the FLIR K-Series on-board archive (K45, K55, and K65) that may later be used to produce analytical reports of what happened at the scene.

IN-CAMERA VIDEO STORAGE (K55 & K65 ONLY)
Not only can the FLIR K55 and K65 save hundreds of still images, they can record and store 200 video files in clips of 5 minutes (maximum) each. K55 and K65 videos are useful for on-site analysis and ideal for training purposes. Videos playback directly from the in-camera archive or download to your computer via USB.

EXTREMELY AFFORDABLE: A THERMAL IMAGING CAMERA FOR EVERY FIRE TRUCK
FLIR’s integrated production capabilities allow us to offer the K-series at an extremely affordable price. Increase more of your team’s safety within your department’s budget.

BL797 FLIR K45 Thermal Camera Kit with FSX™ $4,495.00
BL798 FLIR K55 Thermal Camera Kit with FSX™ $5,995.00
BL810 FLIR K65 Thermal Camera Kit - NFPA Compliant $6,995.00
BL505 Truck Charger $725.00
BN699 FLIR Li-Ion Battery $175.00
FLIR K33 & K53 THERMAL CAMERA KITS WITH FSX™
FLEXIBLE SCENE ENHANCEMENT

The K33 and K53 feature FLIR’s FSX™ Flexible Scene Enhancement that intensifies structural and textural details in thermal images for better perspective and orientation to help improve situational awareness and give firefighters a greater sense of confidence and safety.

STREAMLINED HIGH PERFORMANCE MADE EVEN MORE ECONOMICAL
FLIR offers two affordable, easy-to-use options which do not sacrifice FLIR’s renowned clarity, reliability, and performance.

FIREFORCE SIMPLIFIED
Don’t need all the bells and whistles...the K33 and K53 are the cameras of choice when you’re looking for high image quality with simple, straight-forward operation that is ready for action.

• One glove-friendly on/off button quickly fires up the camera in TI-Basic mode
• An easy trigger pull freezes an image on the K33 or capture stills and video on the K53
• 2-bay charging station makes it a cinch to stay prepared

UNCOMPROMISING RESOLUTION
Both the K33 and K53 offer high-resolution thermal imaging with real-time FSX Flexible Scene Enhancement for intensified detail for greater visibility.

• K33’s 240 × 180 thermal imaging matches the resolution of the K45
• K53’s 320 × 240 resolution equals the image quality of the K55 and K65
• Bright 4” LCD shows smooth 60Hz thermal image that keeps up with the action

AFFORDABILITY REDEFINED
With the K33 and K53, FLIR offers the firefighting and rescue community the broadest cost-effective range of high performance TICs – part of our mission to help you stretch your budget and put more of these essential tools into the hands of those who could use them most.

BN318 FLIR K33 Thermal Camera Kit with FSX™ $3,245.00
BN319 FLIR K53 Thermal Camera Kit with FSX™ $5,345.00
BL505 Truck Charger $725.00
BN699 FLIR Li-Ion Battery $175.00

AERIAL THERMAL IMAGING
SEE PAGE 187 FOR INNOVATIVE DRONES FEATURING FLIR THERMAL IMAGING CAPABILITIES
FLIR K1
A RUGGED, COMPACT THERMAL CAMERA THAT SERVES AS AN EXTRA SET OF EYES ON THE FIRE SCENE

With a bright, integrated flashlight, the FLIR K1 illuminates the scene to help the user steer and manage the crew more effectively. It also displays 160 x 120 pixel thermal images that help users gain additional situation awareness that is not possible with the naked eye.

FEATURES:
• 160 x 120 pixel IR detector
• MSX® image enhancement for added perspective
• 57° x 44° field of view
• Integrated 300-lumen flashlight
• Drop-resistant to 2m (6 ft)
• IP67 rating
• Pistol-grip design offers line of sight viewing
• Save up to 10k visual and thermal image sets
• Up to 5.5 hours of power from a built-in rechargeable Li-ion battery, charged via USB-C
• Warranty: 2-years parts and labor, 10-years for the detector, after camera registration

BN081 FLIR K1 $599.00

FLIR K2 TIC WITH MSX®
EXTREMELY AFFORDABLE THERMAL IMAGING CAMERA FOR FIREFIGHTERS

The FLIR K2 is a rugged, reliable, and extremely economical thermal imaging camera specially designed to help outfit more firefighters with the power to see through thick smoke and expedite decisions when seconds count.

MSX® MULTI-SPECTRAL DYNAMIC IMAGING
The K2 uses FLIR’s patented MSX technology that embosses key details from the built-in visible camera onto thermal images, providing extra perspective to help you stay oriented and safer while saving others.

COMPACT AND EASY TO USE
FLIR K2’s design makes it light and easy to attach to turnouts. A single large button activates the camera even with heavy gloves on. And the brilliant display and intuitive interface help show you the way through dark, smoky conditions immediately, so you can stay focused on the critical job in front of you.

RUGGED & RELIABLE
Engineered to survive tough operating conditions, the K2 withstands a 2-meter drop onto concrete, is water resistant (IP67) and is fully operational up to +500°F (for up to 3 minutes).

MULTIPLE IMAGE MODES
FLIR K2 can be set to one of seven different thermal imaging modes dependent upon the camera’s primary use. Switch between modes using FLIR Tools software that you can download free from www.flir.com.

MULTIPLE FIREFIGHTING APPLICATIONS
Fire up the K2 as soon as you arrive on scene for the 360° size-up. Take it inside to see your way through smoke, keep track of others, and determine where to focus fire attack efforts. Find stranded victims faster. And scan for hot spots during overhaul.

A NEW LEVEL OF AFFORDABILITY
The K2’s economical price makes powerful thermal imaging more accessible to more firefighters — a small investment that can help pay big dividends when it comes to safety, saving lives, and protecting property.

BN082 FLIR K2 Thermal Camera Kit with MSX® $1,395.00
BN475 Truck Mount and Battery Charger $325.00
BN723 FLIR K2 Battery $175.00
FLIR SCOUT TK THERMAL MONOCULAR
POCKET-SIZED THERMAL IMAGING

The FLIR Scout TK is a pocket-sized thermal vision monocular for exploring the outdoors at night and in lowlight conditions. Scout TK reveals your surroundings and helps you see people, objects and animals over 100 yards (90 m) away. Simple to use, with still image and video recording, Scout TK is the perfect companion, whether in the back country or your own backyard.

EXPLORE LIKE NEVER BEFORE
• See animals/people over 100 yards away
• Pocket-sized, lightweight (6 oz. / 170 g)
• Rugged design withstands bumps and splashes
• Records video and still images to share with others

GRAB AND GO SIMPLICITY
• Single-handed operation
• Simple four-button design and intuitive interface
• Multiple Video Color Palettes to enhance viewing: (White/Black Hot, InstAlert™, Graded Fire, and more)

STAY AWARE, STAY SAFE
• Keep an eye on your property 24/7
• Search for missing pets or check for predators
• Scan sidewalks, parking lots, and parks in the dark
• 5-hour rechargeable Li-Ion battery

BP027 FLIR Scout TK Thermal Monocular $599.00
BP351 FLIR Scout III 320 Thermal Image Monocular $1,795.00
BP352 FLIR Scout III 640 Thermal Image Monocular $2,395.00

FLIR LS-X & LS-XR
TACTICAL HANDHELD THERMAL MONOCULAR

The FLIR LS-X and LS-XR handheld thermal monoculars are designed for the men and women who serve and protect. This powerful, easy-to-use imager gives officers the tactical advantage when pursuing suspects, looking for evidence, or conducting search and rescue. The LS-X and LS-XR feature high resolution displays, extended zooming capabilities, and video output. Whatever you need to see, find it with the FLIR LS-X and LS-XR.

BP361 FLIR Monocular Thermal LS-X, 336x256 $2,599.00
BP362 FLIR Monocular Thermal LS-XR, 640x512 $3,599.00

FLIR SCION OTM
OUTDOOR THERMAL MONOCULAR

The FLIR Scion® OTM captures clear thermal imaging and leverages a refined user interface to quickly detect objects of interest in complete darkness and through glaring light or haze. The Scion OTM produces 9 or 60 Hz thermal imaging and records geotagged video and still images for playback long after the day is done. IP67-rated allows single-hand operation in harsh weather conditions, maintaining reliable thermal imaging in the most demanding outdoor environments.

BP358 FLIR Monocular Thermal Scion, 16˚ 320x240 $2,495.00
BP359 FLIR Monocular Thermal Scion, 12˚ 320x240 $2,795.00
BP360 FLIR Monocular Thermal Scion, 24˚ 640x480 $2,995.00

FLIR ONE® PRO
PRO-GRADE THERMAL CAMERA FOR SMART PHONES

The FLIR ONE Pro lets you find invisible problems faster than ever. Measuring temperatures up to 400°C (752°F) and packing powerful measurement tools, FLIR ONE Pro will work as hard as you do. Whether you’re inspecting electrical panels, looking for HVAC problems, or finding water damage, the FLIR ONE Pro is a tool no serious professional should be without.

IMAGE DETAIL & CLARITY
Powerful Image Processing Technology delivers unparalleled pixel-for-pixel performance. System features MSX® for improved sharpness and on-scene perspective; VividIR™ for improved sensitivity and image quality and features, 19,200 pixels (160x120) image resolution and the thermal sensitivity needed to detect temperature differences down to 70 mK resolution.

EXPANDED MEASUREMENT
Measure temperatures between -4°F and 752°F (-20° to 400°C) with up to three spot temperature meters and six temperature regions of interest.

JOBSITE TOUGH
Built to withstand every day job site abuse, the FLIR ONE Pro is rated for 1.8 meter (5’9”) drop test onto concrete.

AVAILABLE FOR IOS, ANDROID (USB-C), ANDROID (MICRO USB)
BN743 FLIR ONE® Pro $399.99
ARGUS® MI-TIC THERMAL IMAGING CAMERAS

Mi-TIC range of cameras is the smallest, lightest, and lowest cost NFPA 1801 compliant thermal imagers on the market. Offering approved standard accessories and features.

BN307 & BN308 MI-TIC E FEATURES:
- Most affordable NFPA certified TIC
- Small and wearable at just 1.6 lbs. (737g)
- Large 2.7” display
- Available in 1 or 3 button options
- High Dynamic Temperature Range: 1400˚F for excellent detail in day-to-day fire scenarios

BN306 MI-TIC S FEATURES:
- Most advanced thermal imager for firefighters
- Oversized 3.5” display for a clearer view of the fire scene and lightweight at just 1.7 lbs. (793g)
- Highest Dynamic Temperature Range: 2000˚F for greater scene detail in larger, hotter fire scenarios
- Heat Seeker and Cold Seeker indicators
- Laser pointer and electronic compass

BL310 MI-TIC 320 FEATURES:
- Small and wearable at just 1.6 lbs. (737g)
- Large 2.7” display
- Available in 1 or 3 button options
- Highest Dynamic Temperature Range: 2000˚F for excellent detail in heavy firefighting scenarios
- Heat Seeker and Cold Seeker indicators

BATTERIES

BN306 MI-TIC S FEATURES:
- Most advanced thermal imager for firefighters
- Oversized 3.5” display for a clearer view of the fire scene and lightweight at just 1.7 lbs. (793g)
- Highest Dynamic Temperature Range: 2000˚F for greater scene detail in larger, hotter fire scenarios
- Heat Seeker and Cold Seeker indicators

STANDALONE OPERATION
- No cables or SD cards to lose
- Solid state internal data storage
- Holds 100+ reality captures
- Battery for 40+ reality captures
- Indoor and outdoor use
- Operating Temperature Range: 41° - 104° F

INCLUDES
- BLK360 laser scanner
- Transport hood
- One 1 lithium-ion battery
- Battery charger
- 1 yr subscription to Recap Pro

---

LEICA BLK360 IMAGING SCANNER

Leica Imaging Scanner is light, portable and allows for quick capturing of HDR and thermal images as well as laser scans.

LIGHT AND PORTABLE
- 2.2 lbs.
- 3.9”x6.5”

ONE BUTTON SIMPLICITY
- Press once to power on
- Press it again to begin reality capture

FAST
About 3 minutes for...
- HDR image
- Thermal image
- Laser scan

HDR IMAGING
- Three cameras creates a 150 megapixel calibrated spherical image
- Full-dome field of view = 360° by 300°
- High Dynamic Range (HDR) photography
- Three LED flash units

THERMAL IMAGING
- FLIR infrared panorama image

SCANNING
- Measures 360,000 3D points per second
- Up to 60 meter radius
- Ranging accuracy : 4mm @ 10m / 7mm @ 20m
- Eyesafe, infrared, Laser Class 1

STANDALONE OPERATION
- No cables or SD cards to lose
- Solid state internal data storage
- Holds 100+ reality captures
- Battery for 40+ reality captures
- Indoor and outdoor use
- Operating Temperature Range: 41° - 104° F

INCLUDES
- BLK360 laser scanner
- Transport hood
- One 1 lithium-ion battery
- Battery charger
- 1 yr subscription to Recap Pro

BP009 Leica BLK360 Imaging Scanner $18,500.00
DRÄGER PSS® 5000 & 7000 SELF-CONTAINED BREATHING APPARATUS

COMFORT, DURABILITY, SAFETY AND PERFORMANCE IN THE HARSHEST ENVIRONMENTS

The Dräger PSS® 5000 and 7000 are ergonomically advanced SCBA that offer increased comfort, safety and performance. With a wide range of configurable features, such as bi-lateral hose routing and quick cylinder connection, the PSS 5000 meets your needs wherever breathing protection is required. The ergonomic PSS 7000 combines trusted pneumatics, flexible fit, and quick cylinder connection, freeing you to concentrate on the task at hand.

PROVEN TECHNOLOGY

- OUTSTANDING RESISTANCE TO HEAT, IMPACT AND CHEMICALS
- EASY MAINTENANCE AND SERVICE
- MEETS OR EXCEEDS ALL NFPA 1981 & 1982 STANDARDS (MOST CURRENT)

INTEGRATED SYSTEMS & INCREASED VERSATILITY

- ELECTRONICS AND AIR HOSES ARE INTEGRATED INTO THE BACK PLATE
- ADJUSTABLE BACKFRAME ALONG WITH FREEDOM OF MOVEMENT WITH WAIST PAD ASSEMBLY - ADD EXTREME ERGONOMICS

EASY MAINTENANCE & LOW COST OF OWNERSHIP

- HARNESS & WAIST PAD ASSEMBLY: DOES NOT ABSORB LIQUIDS OR CHEMICALS AND IS HIGHLY RESISTANT TO ABRASION AND HEAT. CLEANING IS REDUCED TO MINIMAL EFFORT.
- STANDARD BATTERIES: 5 AA FOR THE BACK PLATE, 1 CR123 FOR THE HUD
- LONGEST BATTERY LIFE IN THE INDUSTRY: RATED AT 1 HR./DAY FOR 365 DAYS
- NO ANNUAL MANUFACTURER-REQUIRED OR RECOMMENDED OVERHAUL

BREATHING AIR CASCADE SYSTEMS
4500 PSI & 6000 PSI PIGTAILED SYSTEMS

With a pigtailed system, each cylinder is connected together with a tee connection and a 24" flexible pigtail. To cascade this system when filling SCBA cylinders, the operator must open and close each storage cylinder valve individually as needed. Cylinders are DOT Approved. Fill hoses not included.

SYSTEM INCLUDES:
- Your choice of 4500 or 6000 psi cylinders
- Cylinders with valve and cap
- Tee connections
- Seal-tight inlet cap
- 24" flexible pigtail between each cylinder
- Steel storage rack (also available without rack)

### PRESSURE REDUCING REGULATORS

AJ376: For use on systems over 3000 psi and below 5500 psi. 0-6000 psi inlet, 0-5000 outlet. CGA-347 nut and nipple on the inlet side and male thread on outlet side. 0-6000 psi gauge on both inlet and outlet of regulator.

AJ377: For use on 6000 psi systems. 0-6000 psi inlet, 0-5000 outlet. #4 JIC male inlet, CGA-347 male outlet. 0-7500 psi inlet gauge, 0-6000 psi outlet gauge. Ship. wt. 5 lbs.

AJ376 Pressure Reducing Regulator $434.95
AJ377 Pressure Reducing Regulator $449.95

### FILL HOSE

Deluxe fill hose is 6’ long with shut-off valve. Features 6000 psi gauge with a rubber boot, bleeder valve and hand-tight nut and nipple that will fill either 2216 psi or 4500 psi. Connects directly to a CGA 347 male thread. Ship. wt. 5 lbs.

AJ374 Fill Hose $283.95

### TECH-RESCUE™ CART

The Tech-Rescue™ Cart was designed to provide air for all of the various respirators and unique rescue tools used by Fire and Technical Rescue teams. Two 4500 psi cylinders or high pressure cascade (fire truck) cylinder air can be used to operate the air control panel. The standard features of the Tech-Rescue™ Cart make it the most versatile and unique air cart in the fire service industry. Cylinders not included.

- **Yellow - Respirator Side:**
  - Fold down handle, respirator L/P alarm whistle 4, respirator fittings, and lower hose rack with quick release pin
- **Blue - Tool Side:**
  - CGA-347 auxiliary inlet, air isolation valve, 4 tool fittings, low pressure accessory air tool/lift bag fitting

BA024 Tech-Rescue™ Cart $3,984.95
BA025 (AC-60) 60 cf DOT Aluminum Cylinder 2216 $494.95
BA026 (AC-87) 87 cf DOT Carbon Fiber Cylinder 4500 $1,280.95

### MULTI-PAK™ RESCUE AIR CART

The Multi-Pak™ Rescue Air Cart offers many of the same features as the Tech-Rescue™ Cart at a more economical price. The cart uses SCBA cylinders to provide breathing air and a second low-pressure regulator allows air tools or lift bags to be used. The Rescue Air Cart is supplied with a high pressure CGA-347 inlet for extended use.

**FEATURES:**
- Universal hand tight CGA fittings with bleeder valves
- Quick release hose rack
- In-line check valves
- Cylinder selection switch

BA021 Multi-Pak™ 2 Cylinder Air Cart 4500 psi with 2 Outlet Manifold $1,438.95
BA022 Multi-Pak™ 2 Cylinder Air Cart 4500 psi with 4 outlet Manifold High Flow Regulator $1,539.95
BA023 Multi-Pak™ 2 Cylinder Air Cart 4500 psi with 4 outlet Manifold, Powder Coat Steel $2,185.95
BA027 Nylon Cart Cover $234.95
SUPERPASS® 5 AND 5X - NFPA COMPLIANT
RUGGED, NFPA STANDALONE “PASS” PERSONAL ALERT SAFETY SYSTEM

BN416
• Heat stress temperature and motion sensing alarm, auto-on activation
• Includes new NFPA sound signature
• Bright, highly visible, LED status indicators
• Compliant to NFPA 1982, (TIA) 13-2 requirements for PASS
• Intrinsically safe to UL913, and CSA C22.2, No 157
• Standalone pass requires no SCBA

BN417, ALL THE FEATURES OF THE SUPERPASS® 5 PLUS:
• Purchase and use as a SUPERPASS® 5 and field upgrade to the RF signaling capabilities of a TPASS 5
• Ideal migration path for budget conscious departments
• Use upgraded 5X with in-Command® first-in tablet and in-Command® full crew

BN416  SuperPASS® 5 - NFPA Compliant  $494.95
BN417  SuperPASS® 5X - NFPA Compliant  $664.95

SCBA REPLACEMENT CYLINDERS
Worthington has been manufacturing composite cylinders for over 35 years. With over two million cylinders sold, Worthington cylinders have never had a field service failure or major recall. The standard cylinder is durable, lightweight and performance based - no other cylinder compares in price.

• D.O.T. and TC approved
• Industry Leader: Worthington has over 2 million units in service without a field service failure
• Superior Quality: 15-year life expectancy
• Bottles Only: Valves sold separately

NEW
**NORTHERN STAR COMPASS**

The Northern Star is the best line of defense when it comes to battling disorientation in low visibility environments. Every day firefighters around the world charge blindly into dangerous, unfamiliar environments without knowing the floorplan - all in the name of saving lives and property conservation. This can lead to disorientation, injury or even death. To keep you safe, trust the Northern Star to guide you home with its patented directional awareness technology. The Northern Star is powered by a rechargeable lithium battery. It features a durable, waterproof design that is responsive to movement, making it very user friendly and easy-to-use.

- Quarter-size
- Waterproof and durable
- NFPA 1981 tested

**INCLUDES:**

- Two rechargeable lithium batteries with each purchase
- Easy installation with a 3M two-sided adhesive

**BN716**  Northern Star Compass  $129.95  
**BN717**  Northern Star Compass - Dual Bank Charger  $17.95

**BLASTMASK® TRAINING REGULATOR**

BlastMask® training regulators attach to your facepiece and simulate real-world SCBA breathing without draining your cylinders, or your budget. And now with new enhancements, including a bypass valve and slide latch that mimics SCBA functionality, it’s even more true to life. So you can train like it’s real. And be tactically fit when it counts.

- Easy Air Bypass Valve: Instant access to full air with a half turn
- Rugged Slide Latch: Attaches just like an SCBA regulator
- Superior Construction: Upgraded polycarbonate resin

**BN631**  BlastMask®-110 - Fits Scott AV-2000 & AV-3000  $119.00  
**BN632**  BlastMask®-210 - Fits MSA G1  $119.00

**MASKHAZE® SIMULATED SMOKE TRAINING TOOL**

MASKhaze® Simulated Smoke Training Tool is reusable, waterproof and allows for safe and effective training exercises. To apply the MASKhaze to a compatible SCBA mask, remove the MASKhaze sheet from the package, wipe the SCBA mask lens to remove any loose dust, and stick the center of the MASKhaze’s film to the top center of the SCBA lens and lightly press downward on the film to secure properly.

- Simulated smoke training for firefighter SCBAs
- Most realistic smoke training tool
- Safest way to train
- Use for RIT, self-rescue, search and rescue
- Patent pending image altering technology
- No residue after use
- Reusable up to 3 times
- Works even when wet
- Available in packs of 10, 25, or 50

DELUXE SCBA MASK BAG

PROTECT YOUR SCBA

Deluxe SCBA mask bag fits any modern-style SCBA face piece with MMR, models NFPA 1997 or newer. The bag will hold a face piece with the regulator attached as well as most voice amp and comms devices, an airline face piece or mask with APR cartridges attached. L-shaped side opening allows for quick deployment of the mask when needed.

- Dual inner liner protects against scratches
- Hook and loop closure
- Nylon webbing loop and trigger snap hook
- Heavy-duty water resistant nylon with screen printed Maltese Cross logo
- Lime yellow/silver reflective trim with leather binding reinforcement provides added visibility

SPECIFY COLOR: Red, Black, Fluorescent Yellow

BN579 Deluxe SCBA Mask Bag $18.95

PROTECT SCBA CYLINDERS WITH QUIC-ACCESS CABINETS

Safely store SCBA air packs and spare cylinders in the harshest of indoor and outdoor environments; easily accessible when seconds count. Cabinets can also accommodate protective clothing, emergency equipment, or emergency respirators. 

Ship. wt. 21-29 lbs.

- UV-stabilized ABS plastic with highly visible “safety yellow” doors
- Bulb seal gasket locks out moisture and dirt
- Thermoplastic hinges and latches are highly resistant to corrosive chemicals and ultraviolet exposure
- Windows allow for easy visual inspection of contents
- Stick-on labels indicate minutes duration of SCBA inside

SCBA QUIC-ACCESS CABINET

SCBA BRACKETS SOLD SEPARATELY

AIR MASK BAG

This 400 denier nylon SCBA mask bag is lined with soft flannel fabric to prevent scratches to the face piece. Velcro® closure, D-ring for hanging and an ID window. It fits all current SCBA masks. Measures: 14”Hx6”D. Ship. wt. 1 lb.

COLOR: Red

AW107 Air Mask Bag $17.95

CYLINDER MATE MOBILE UNIT

- 300-lb capacity wheels
- All units bolted together for added stability
- 2 - 11” commercial grade urethane handles
- Front wheel locks

BH027 Fits (12-Pack) 30-40 minute bottles $1,877.95
BL668 Fits (16-Pack) 30-40 minute bottles $2,493.95
BN586 Fits (12-Pack) 60 minute bottles $2,088.95
BN587 Fits (16-Pack) 60 minute bottles $2,858.95

PLASTIC AIR CYLINDER STORAGE RACK

Keep your SCBA cylinders organized and protected with these heavy-duty, stackable racks. Ship. wt. for rack 4.1 lbs. Ship wt. for strap 0.4 lbs.

- One-piece molded plastic construction
- Easily link to build honeycomb grids
- Fits all makes/models of air cylinder
- Holes allow for air flow and water runoff
- Mounts horizontally or vertically

BG527 Plastic Air Cylinder Storage Rack $82.95
BG528 Straps $19.95

TWO UNITS SHOWN TOGETHER WITH STRAPS, SOLD SEPARATELY.
ULTRASONIC SCBA CLEANING SYSTEM
SPECIALLY DESIGNED TO CLEAN YOUR SCBA MASKS BETTER

Our systems and solutions are easy-to-use, environmentally friendly, and cost efficient. Fire departments and industrial safety facilities throughout the country depend on us to get their equipment flawlessly clean without damaging the integrity of the apparatus. Major mask manufacturers recognize Ultrasonic Cleaning technology as an accepted SCBA cleaning method. Ultrasonic Cleaning offers the most thorough cleaning and disinfecting process with minimal disassembly; it reaches both interior and exterior surface areas, where most manual cleaning processes will miss. Ultrasonic Cleaning gives you the best overall cleaning at an affordable price. *Number of masks cleaned at one time will vary depending on mask size.*

ALL SYSTEMS INCLUDE: Ultrasonic Cleaning Unit, SCBA Rack and Cleaning Solution

BAUER OCEANUS COMPRESSOR SYSTEMS
A PORTABLE, ECONOMICAL, COMPACT, HIGH PRESSURE COMPRESSOR

This pressure-lubricated 5000 psi compressor is ideal for the emergency response team that requires a highly portable compressor for filling SCBA or SCUBA cylinders. Standard equipment includes the compressor, 4.9 SCFM Charging Rate, the Bauer Triplex Purifier, a snorkel for the intake, and your choice of one-phase electric, three phase electric or gasoline engine all mounted on a stainless steel base. The gasoline powered model features a Subaru engine, a pressure shutdown switch, and hour meter. Suitable for use with a maximum of a 2 cylinder, 4500 psi cascade system. Automation package includes magnetic starter, pressure switch, auto drains and 10’ of power cord. *Ship. wt. 200 lbs.*

ENCLOSED FILL STATIONS

These heavy-duty steel NFPA compliant fill stations protect the operator and bystanders in the event of an SCBA cylinder rupture while filling. These each have an inlet gauge, Fill Pressure Regulator, regulated pressure gauge, 1 fill valve and gauge per fill position. Each fill line is equipped with hand tight universal fill connector to fit all standard SCBA cylinders 2216, 3000, and 4500 psi. The SCBA cylinder holders are lined to prevent scuffing of the cylinders. Painted with a durable powder coat finish. *Ship. wt. 800 lbs.*

A. SCBA BRACKETS

The rugged design of our original SCBA bracket has been safeguarding your SCBA cylinders from scarring and damage since 1988. All brackets are constructed of powder coated steel with removable spring clips featuring a high quality nylon protective coating. The resilient cylinder clips are constructed of 1075 spring steel making them ideal for both fiberglass and carbon fiber tanks. We guarantee our brackets to be the best with our industry leading Lifetime Warranty. Manufactured and assembled in USA. Ship. wt. 5 lbs.

- Clip only available for standalone use, retrofit, and tank changes
- Horizontal & diagonal drill pattern standard

B. NFPA COMPLIANT SCBA BRACKET WITH SAFETY STRAP

This bracket is required for securing SCBA within crew compartment areas. It features a 3-point release that keeps your SCBA locked and securely in place. Simply don the SCBA while enroute and keep it safely secured. On the scene pull that lanyard from between your legs or along the side of your seat and you are ready to go. This universal bracket is designed to fit all SCBA. Additionally this bracket is NFPA compliant meeting the 1901-03 2009 standard. We guarantee our brackets to be the best with our industry leading Lifetime Warranty. Manufactured and assembled in USA. Ship. wt. 5 lbs.

EZ-LOC SCBA MECHANICAL BRACKET

- No straps or levers. Locks quickly and easily by simply pressing down on the top clamp
- Ratcheting design safely locks SCBA in place over a range of engagement - no struggling to achieve a lock or slamming the cylinder against a backplate
- Fully adjustable. Fits most makes/models of SCBA with only minor adjustments
- Footplate Guide makes stowing the air pack an easy, no-look process
- NFPA 1901 compliant and third party tested to exceed NFPA 9G standard
- Ship. wt. 12.8 lbs.

WALKAWAY® BRACKETS

Rely on these classic brackets for secure storage and quick, easy access to breathing apparatus. All brackets are constructed of heavy-duty steel with a smooth, crack-resistant thermoplastic coating to protect the cylinder and make retrieval a breeze. Standard coating is ideal for low to moderate use. High cycle coating (tested to over 50,000 cycles) adds yellow tips for moderate to high use. Meets NFPA Requirements (For installation in a crew cab when used with AS075 Collision Restraint Strap). Ship. wt. ranges from 4-6 lb.

When a call comes in, research indicates that 90% of the time it’s not a structure fire. Why wear hot, bulky turnout gear on every call if you don’t have to? Dual-certified TECGEN51 is all you need for your calls, including wildland, extrication, MVAs traffic control and incident command - for a third of the cost of traditional turnout gear. Reduce exposing your valuable turnout gear to hazards such as rips, tears, contamination and UV light degradation. Choose TECGEN51. TECGEN® brand fire resistant garments are UL certified to exceed NFPA 1951 (Technical Rescue) and NFPA 1977 (Wildland Firefighting).

SAVES EXPENSIVE TURNOUT GEAR
90% of your calls are not structure fire related.

LESS EXPOSURE TO CARCINOGENS
Wearing TECGEN51 on those 90% of calls eliminates potential exposure to hazards such as carcinogens and other harmful particulates that can accumulate on your turnouts.

LESS CARDIOVASCULAR STRESS & FATIGUE
Breathable, lighter weight, single layer garment

TECHNOLOGY
TECGEN® fabrics are made with a high density TECGEN® fiber blend and para-aramid in a comfortable and durable construction. TECGEN® fiber is an inherently flame resistant fiber providing advanced heat and flame protection capabilities. This technology allows us to develop fabrics that offer high levels of thermal protection (TPP) and breathability (THL). You no longer have to sacrifice one for the other.

HEAT STRESS
Whether carrying heavy equipment, dragging hoses or removing car doors, the intense physical activities associated with firefighting can cause firefighters’ bodies to generate increased heat. TECGEN51 is ideal for departments looking for gear that offers enhanced comfort, high levels of thermal protection and a solution that is designed to help prevent heat stress.

FINALLY - A COOL, COMFORTABLE, CUTTING-EDGE ALTERNATIVE TO TURNOUT GEAR

SPECIFICATIONS:
• Dual-Certified: NFPA 1951 (Technical Rescue) and NFPA 1977 (Wildland FF)
• Lightweight: Engineered to protect you without weighing you down
• Comfortable: Provides enhanced mobility for confined spaces
• Repels Moisture: Helps keep you cool and dry
• Breathable: Managing the heat is easier when your clothes can breathe*
• Active posture design
• Durable: Flexible TECGEN® fiber provides increased durability over typical carbon-based fibers
  * High THL rating allows body heat to escape

STANDARD COAT FEATURES:
• 3.5” x 8” x 3” radio pocket with mic tab
• 6½” x 5½” patch pocket w/ flap closure on right chest
• 2 - 7” x 7” cargo hand pockets
• 2” 3M Scotchlite® triple trim
• Bi-wing back design for ease of movement
• Full width collar closure
• Glove interface adjustments

STANDARD PANT FEATURES:
• Comfortable and efficient BDU design 4” waist adjustment via take up straps
• Belt loops accommodate 2” belt
• 2 - 8½” x 8½” cargo pockets w/ flaps located on outside legs
• Front hand pockets
• 2 - rear pockets
• 2” 3M Scotchlite® triple trim
• Boot interface / leg take up adjustments
• 12” zippered leg openings for easy donning over boots
• Suspender loops

TECGEN® FIBER HEAT BLOCKING EFFECT

Reflected Heat
Absorbed Heat

MOBILITY AND PROTECTION

FIRELINE™ SHIRT

Designed in accordance to the U.S. Forest Service Specifications. Generously patterned to allow unrestricted range of motion and comfort. Can be worn by itself as a shirt or layered over your favorite tee as a lightweight jacket.

- 3” high shirt style collar
- 3” hanger loop at neck
- Two large patch style breast pockets with hook and loop flap closures
- Left pocket includes pen/pencil slot
- Set-in style sleeves with adjustable hook and loop tab closure at cuffs
- Extra large melamine button front closure
- Shirt tails are extra-long and squared off to be worn either tucked in or outside pants

SPECIFY SIZE: S-XL
BL001 Yellow Indura® Ultra Soft Fireline™ Shirt $91.95
BL002 Yellow Nomex® 111A Plain Weave Fireline™ Shirt $132.95
BP148 Yellow Tecasafe 111A Plain Weave Fireline™ Shirt $99.95

DOUBLE DUTY™ BDU PANTS

PGI’s Double-Duty™ pants are dual classified to NFPA 1975 and 1977 Standards by Underwriters Laboratories for use as both station wear and wildland firefighting PPE. Now you can get the best of both worlds – a good looking and comfortable station wear pant which is great for working around the station or being worn in public yet rugged and protective enough to be worn on the fireline. PGI’s signature relaxed fit and functional design is sure to make the Double-Duty™ BDU pant a station wear favorite.

- Signature relaxed fit for maximum mobility and comfort
- Rear of waistband is elasticized for maximum freedom of movement and comfort
- Oversized double needle top stitched bellowed cargo pockets on thighs expand to give you plenty of storage capacity and secure with hook and loop closures
- Contoured front slash pockets have extra deep bags
- Two large rear double needle top stitched patch pockets with hook and loop flap closures
- Corrosion-resistant brass snap at waist
- Double reinforced crotch panel extends wear life
- Adjustable hook and loop ankle straps backed with self-fabric
- Leg outseams are sewn with five-thread safety stitch, then top stitched with a double-needle lockstitch
- All points of stress are bartacked
- Compliant with NFPA 70E (Current Edition) – Meeting the performance specifications of ASTM – F-1506 for wearing apparel used by electrical workers exposed to arc and related thermal exposures
- Meets CAL-OSHA Requirements – Passes Fed. Test 191, Method 5903.2; CAL-OSHA Sections 3406(d)
- Complies with OSHA Rule 29 CFR Part 1910, 269

WILDFIRE PROTECTIVE HEADGEAR

Designed specifically to meet the requirements of wildland firefighters. They offer fire fighters protection, versatility, comfort, and value. Made of high-heat thermoplastic which offers superior impact protection and penetration resistance in non-structural, high-heat environments. In addition, they deliver added electrical insulation required for ANSI Z891-1986 Class A & B helmet specifications. Features include glare-reducing texture, shell-bonded goggle retainer clips for secure storage of eye protection and reflective strips for increased wearer visibility through smoke at night. Accepts a full range of mounting brackets for face shield visors or face shield screens. Meets NFPA 1971. Ship. wt. 1 lb.

- More secure suspension attachments
- Adjustable headband for custom fit
- Larger replaceable pillowed brow pad
- Seamless suspension straps

SPECIFY WIDTH: M, W, XW
MBK125 9” Power EMS/Wildland Boots $299.00
**HOT SHIELD WILDLAND FIREFIGHTER FACE MASK**

The Hot Shield Wildland Firefighter Face Mask is a patented highly flame resistant face protector designed by firefighters for use in all wildland firefighting operations. BK088 offers the extreme protection against burns to the face/neck with the added benefit of blocking and reducing the inhalation of smoke and ash particulate. Multiple layers of patented CarbonX help maintain the crucial airspace firefighters want and human skin needs to survive extreme temperatures. The soft comfortable inside liners (also CarbonX) absorb perspiration, adding to user comfort.

- One size fits all (hook & loop fasteners behind neck)
- Extreme thermal protection (radiant heat or direct flame) of major portions of the face and neck
- Reduction of inhalation of airborne particulate by means of a screening mesh and use of a disposable filter with exhalation valve
- One year materials and workmanship warranty
- Main Users: Firefighters and other workers that are subject to direct flame, radiant heat, smoke and airborne particulate hazards in an outdoor environment and where use of a self-contained breathing apparatus is either impractical or impossible

V80 WILDCAT GOGGLES

WILDCAT Goggles will not drip, melt, or ignite at temperatures up to 350°F (for five minutes). They offer superior comfort, too, thanks to pivot headbands, adjustable side vents, and a contoured fit that blocks out airborne contaminants. Meets ANSI impact standards.

- Extreme Heat Resistance: will not melt, drip, ignite at 350°F
- Adjustable side vents help increase airflow
- Fits naturally to the contour of your face
- Lightweight and comfortable with a pivot headband for optimal placement
- Metal-free design to minimize electrical transference risk
- D4 rating for dust protection
- D3 rating for droplet and splash protection
- Meets ANSI Z87.1+ impact standard and CSA Z94.3 compliant

The FirePro-1971™ FS goggles feature a one-piece, wraparound strap that easily secures to any helmet with Velcro® tabs. This system keeps the goggles on hand at all times, with the flexibility of quickly removing them if needed.

- NFPA compliant 1971-2013 Edition - including the 5-minute, 500°F oven test
- U.S. Federal OSHA compliant
- Exceeds the requirements of ANSI Z87.1-2010
- All components are heat and flame resistant

BP172 V80 WILDCAT Goggles $19.95

FIREPRO-1971™ FS GOGGLES

The FirePro-1971™ FS goggles feature a one-piece, wraparound strap that easily secures to any helmet with Velcro® tabs. This system keeps the goggles on hand at all times, with the flexibility of quickly removing them if needed.

- NFPA compliant 1971-2013 Edition - including the 5-minute, 500°F oven test
- U.S. Federal OSHA compliant
- Exceeds the requirements of ANSI Z87.1-2010
- All components are heat and flame resistant

BL467 FirePro-1971™ FS Goggles $57.95

FIREPRO™ WILDLAND GOGGLES

EVOlUTIONARY EYE PROTECTION

The compact, low-profile FirePro™ frame optimizes fit and function with all helmets, while the full-perimeter ventilation and filtration system minimizes lens fogging and filters airborne particles, dust, and debris. The ESS FirePro-EX™ model features a two-piece strap system and Snap-On/Snap-Off™ helmet mounting brackets which attach to a helmet brim (no drilling required). The extra-thick, 2.8mm high-impact lenses provide wide peripheral vision and distortion-free optics. All ESS FirePro™ goggles exceed ANSI Z87.1+, US Federal OSHA, and are compliant with wildland fire equipment performance requirements including the 350°F for 5-minute oven test. FirePro-FS™ and FirePro-EX™ goggles are certified as compliant to NFPA 1977 Standard on Protective Clothing and Equipment for Wildland Fire Fighting.

FEATURES:
- Interchangeable lenses
- Durable face padding
- Speed-clip straps
- Extra-wide field of view
- 2.8mm lenses
- ClearZone FlowCoat anti-fog and anti-scratch lens coatings
- Anti-microbial face padding
- Rx available

BEST SELLING WILDLAND

**DARLEY DRIP TORCH**
- 14" closed, 25½” assembled
- 6” diameter
- 1½ gallon capacity
- Fuel trap in spout prevents flashback
- Breather valve sealed outlets and oil proof gaskets prevent fuel spills
- Reversible burner for easy storage
- Check valve to protect against flashback
- Large diameter mouth for easy filling
- Double bottom for extra durability
- Heavy duty, lightweight aluminum body
- Red body complies with new OSHA regulations (29 CFR 1910.114)
- Meets DOT regulations for transport of flammable fuel UN#IBI-Y-150 and Forest Service Specification 5100-614
- *Ship. wt. 6 lbs.*

**SMOKECHASER PRO**
- Padded shoulder straps, back panel and waist belt
- 5 gallon capacity
- Large filler cap is located on top of the bag
- Two grab handles making filling easier
- USFS approved, quick priming pump
- PEDCO brass hand pump

**RANGER RIGID-PAK BRUSH PUMP**
Thick walled polyethylene plastic tank will take rough handling and harsh environments. Non-slosh rounded design keeps the unit comfortable, balanced and steady. The full padded pillow comforts that impinging feel of other tanks. The unit is completely corrosion resistant. It will not rust like galvanized steel models and is less expensive than stainless steel tanks. Adjustable padded shoulder straps are rugged yet fit comfortably and distribute the weight evenly down your back. Tank holds 5 gallons. *Ship. wt. 2 lbs.*

**INDIAN FIRE PUMP**
A 5-gallon portable hand-operated pump and tank. Brass pump is durable and easy to clean. Nozzle easily changes from straight stream to cone spray quickly. Tank cap has cam lock with watertight gasket and ventilation hole to prevent collapse. Heavy-duty, 1½” removable polypropylene shoulder straps and carrying handle. *Ship. wt. 18 lbs.*

**AS242 FEATURES:**
- Aluminum base and quick-release strap keeps your Ranger Brush Tank secure on your apparatus

**NEW**

**ACCESSORIES**
- Darley Drip Torch $198.95
- Truck Mounting Bracket $75.95
- Smokechaser Pro $216.95
- Ranger Rigid-Pak Brush Pump $164.95
- Ranger Carrying Bracket $134.95
- Indian Fire Pump, Galvanized $196.95
- Indian Fire Pump, Stainless Steel $288.95
- Running Board Rack, Red Enamel with Straps $48.95
- Polypropylene Carrying Strap $11.95
- Pump 18" Long Less Adjustable Nozzle $128.95
- Strap for Running Board Rack $23.95
Corrosion-resistant Neoprene coated Nylon bag and single-stroke brass pump make the U235 one of the best values on the market. Lightweight, collapsible bag holds 5 gallons of water, conforming to the shape of your back. Watertight and reinforced construction means you stay dry. Straps won’t rip, mildew or twist while in service. Oil-proof, 44” hose with stainless steel, monel and brass connections, connects 18” pump. Hose has rustproof quick connectors. The new 4” ABS polymer cap makes it much easier to fill with less time; replaces the old 2.5” metal cap. The seams have doubled in strength with a new ultrasonic welding process. *Ship. wt. 5 lbs.*

BK210: The Scotty pump is a single action pump with a foam eduction attachment and air aspirating nozzle. It eliminates the need to batch mix when Class A foam is required. Each time the pump is charged, 1% of foam concentrate is educted into the pump chamber. The air aspirating nozzle generates foam when the pump is discharged.

BK211: Single action pump. The pump has a brass pump chamber protected by an engineering-grade polymer sleeve. No tools are required to disassemble the unit. It can be completely disassembled by hand for in-the-field maintenance.

**WATER THIEF INLINE T-VALVE**

Designed to be installed at intervals in long lines to provide independently controlled outlets for 1" branch lines with full 1/2" waterway. When used in fire-line sprinkler systems, these valves provide the ability to adjust water flow to each sprinkler in the line. Valuable for mop-up work and for filling canteens and backpumps. Meets U.S. Forest Service specifications.

- 1½"F x 1½"M x 1"M
- Ship wt. 2 lbs.

**WILDLAND HOSE CLAMP**

C&S Supply has designed a new Wildland Hose Clamp. Offering a much more rigid design, the clamp is capable of withstanding the most brutal and rough operations, yet is user friendly enough to quickly accomplish the task at hand.

- Knuckle guard with wide opening for use with gloves
- Step plate to assist opening while on a charged hose line
- Long bars on the top and bottom for maximum leverage
- Curved clamping area aids in collapsing the hose
- Integrated spanner wrench
- Lightweight and compact
- For use with 1" and 1½" single jacket hose
- Dimensions: 10½"x3½"x1½"
- Made in the USA
- Ship. wt. 3 lbs.

ROCKET NOZZLE
• Adjustable nozzle produces super fine jet stream and a cone fog spray
• Standard 3/16" GHT
• Flows at 1.25 GPM in straight stream
• Effective reach of stream 30' (9 m) Jet, 15' (4½ m) full cone
• High visibility fluorescent yellow
• Made of corrosion proof, glass fiber filled nylon

TWIN TIP FORESTRY NOZZLE
The S&H Forestry Twin Tip Nozzle is the time tested forestry nozzle. Made from high-quality cast aluminum with stainless steel internal parts, it comes standard with a 3/16" straight stream tip and a 3 GPM fog spray tip. The nozzle has a fog spray position, a straight stream position, and an off position. The straight stream tip threads are 3/16" GHT (garden hose). The 1" nozzle inlet threads are available in NPSH or NH (NST).

• Available in 1 NP (NPSH) or 1 NH (NST) thread
• Cast aluminum construction
• Straight Stream Tip Options: 3/16"
• Fog Tip Options: 3 GPM
• Built-in 3 position on/off valve
• 1½ pounds
• Meets Forest Service Specifications (FSS)
• Optional tip features. Call 1-800-4-Darley for more information

SPANNER/GAS WRENCH
• Used to tighten and loosen 1" (25 mm) to 3" (76 mm) hose coupler fittings
• Made from tough GRP in a high visibility yellow color
• Opens standard 70 mm caps on 5 gallon foam concentrate containers
• Includes a municipal gas and oxygen tank shut off
• Spark and corrosion proof, with quick release snap hook
• Weighs just 2½ oz (79 g) and is 7½" (190 mm) long

WILDLAND SPANNER
Lightweight aluminum construction designed for wildland firefighting. The single ended spanner fits 1" and 1½" couplings.

• Lightweight aluminum
• Fits 1" and 1½" rocker lug couplings
• Meets Forest Service Specifications (FSS)
• Made in the U.S.A.
KEY PENCIL LINE HOSE
LIGHTWEIGHT CIRCULAR WOVEN FIREHOUSE TECHNOLOGY

Lightweight, circular woven fire hose technology incorporating high tensile, all polyester woven jacket, lined with high tensile NSF polyurethane. This workhorse hose packs tight and features brass GHT threaded couplings with strain reliefs.

- Dependable high tensile, NSF 61 approved polyurethane liner
- Exceeds U.S. government federal specification 4210-01-167-1061

WILDLAND HOSE PACK

Designed with the rugged demands of wildland firefighting in mind. This ergonomically designed hose pack allows the firefighter to transport up to 300 ft. of forestry hose and appliances comfortably while allowing the firefighter to have their hands free to carry tools or navigate difficult terrain. Made of ballistic nylon.

- 2 or 3 hose pockets designed to hold 100’ lengths of 1” or 1 1/2” hose
- Capable of mixed loads which can be deployed independently
- Single buckle release for hose deployment
- Heavily padded, contoured shoulder straps
- Made of heavy duty Ballistic Nylon

WEATHERHAWK WINDMATE™ WIND METER
HAND-HELD COMPREHENSIVE WEATHER MONITOR

The WeatherHawk Windmate WM hand-held wind meter is a comprehensive weather monitor that measures a full range of environmental data specific to your location. It includes a 48-hr visually displayed bar graph for every function, hour-by-hour. The USA-made fluxgate compass reads when held vertically, gives wind direction in degrees and compass points; and it calculates crosswind, head/tail wind. The compass can be calibrated for variation, declination and deviation. In addition to wind speed and direction, temperature, barometric pressure, altitude, and humidity, the unit includes Wind Chill, Wet Bulb, Dew Point, Delta T and Density Altitude. WM-350 provides an audible storm alarm that alerts you to weather changes, even if the unit is off. The unit includes the AccuWeather Comfort Index and it can be adjusted based on sun intensity to provide a superior human based “feel” for Heat Index. All WindMates are designed with a wind speed accuracy of better than +/- 3% and have a 2-Year warranty.

| BP137          | WindMate™ 300 Wind Meter $149.95 |
| BK246          | WindMate™ 350 Wind Meter $209.95 |
**FIRE ARMOR FIRST RESPONDER VEST**

With the new NFPA 3000 recommendations of NIJ Certified Level IIIA Ballistic Protection for Active Shooter/Hostile Event Responses (ASHER), the “First Responder” was developed for Fire & Medical personnel responding to Active Shooter events, Mass Casualty Incidents and dangerous domestic calls.

Developed and designed by Firefighter/Paramedics that work in the industry, who wanted to provide the best Ballistic Protection to our brothers and sisters in a “One Size Fits Most” design, alleviating the need for agencies to have multi-sized vest or making time consuming size adjustments when seconds count.

The system is designed to look like “Bunker Gear”, as an external “wear over the shirt or uniform” design, it provides maximum Ballistic Protection in front, back and side coverage, utilizing NIJ 0101.6 Certified Level IIIA soft armor as well as the ability or option of adding 10”x12” NIJ Certified Level III+ (see below). No matter who is sitting in the “seat”, the goal is to ensure all responders have a properly fitted vest.

**CARRIER SYSTEM:**
- Easily adjusts to individual firefighter
- 5 color options designed around Fire/EMS uniforms and equipment
- Carrier System is constructed of 2 parts (1 front panel and 1 rear panel) for universal sizing ranging from 20” up to a 60” waist
- Carrier is constructed of 1000d Cordura™ Nylon material
- Enlarged/integrated front “Bunker Gear” style pocket for Individual First-Aid Kits (IFAK) and/or radio with internal elastic to secure items
- Heavy duty Drag Rescue Device (DRD) handle
- Fully adjustable, closed cell foam-padded shoulders with channels for optional ballistic shoulder inserts
- 360° of 3M™ Hi-Viz reflective tape and 3M™ reflective ID lettering
- Top loading hard armor insert pockets on the front and rear capable of accepting either full size or shooters cut rifle armor

**LEGEND OPTIONS**
- Fire
- Fire-Rescue
- EMS
- RTF
- Custom legend (11 character limit including spaces)

**BALLISTIC PANEL INSERTS:**
- 2-piece NIJ 0101.6 Certified ballistic panel inserts also consist of a front and a rear panel, the rear panel is constructed with "wings" to provide maximum “flank” coverage on all sides
- Integrated 10” ballistic cummerbund
- Provides 360° of NIJ Certified Level IIIA Ballistic coverage
- Weight: Approximately 12 lbs.

**SPECIFY LEGEND AND LETTERING COLOR (3”):** Red/Orange, Lime Yellow

**SPECIFY TRIPLE TRIM COLOR:** Red/Orange, Lime Yellow

**LEVEL III+ STAR 647 STEEL PLATES**

We do more than just protectively coat our very own armor. We’re also passionate advocates for what will serve Police, Fire and EMS personnel best in the field. That commitment also means our armor is tested by an independent 3rd party, ensuring our warranty will always stand between them and an emergency. Because having the right kind of armor, means the difference between uncertainty and knowing they are prepared. Dimensions: 10” x 12”.

- 5mm thickness
- NIJ III 0101.06 Certified (P5mmSAN600)
- 10 year warranty
- Maximum durability
- Multi-hit capability
- Standard black color
- Single curve

**MODULAR OPERATOR PLATE CARRIER**

Condor Modular Operator Plate Carrier is designed to carry both soft armor and plate. It will accept Large or X-Large SPEAR/BALCS cut soft armor, up to 10.25” x 13.25” front and back plates, and up to 6” x 8” side plates.

**SPECIFICATIONS:**
- Emergency drag handle
- Removable padded shoulder pads, with hook and loop guides
- Adjustable shoulder straps
- Heavyweight webbing for modular attachments
- Padded mesh interior lining
- Adjustable cummerbund with soft armor pockets - Accepts up to 6” x 8” side panel plates
- Internal sleeves for soft armor
- Easy access plate pockets
- Adjustable in girth and height
- Imported

**SIZING:**
- Medium - X Large adjustable sizing
- Accepts Large or X-Large BALCS/SPEAR cut soft armor, and plates up to 10.25” x 13.25”

**RESCUE TASK FORCE RESPONDER VEST**

The RTF Responder Vest provides the combination of ballistic protection, rapidly accessible medical supplies and custom configurability. Two combination external, front mounted Tourniquet/Shears Holders provide rapid access for major hemorrhage control. The drop down front medical pouch can be easily accessed and has a variety of elastic loops and pockets for organizing medical supplies. The Med Pouch also offers a fast “rip away” functionality that allows it to be quickly removed from the vest for use by other team members. Steel III+ plates can be added for protection against some rifle rounds.

BN177 INCLUDES:
- 2 - C.A.T. black tourniquets
- 2 - 7.5” EMT shears
- 4 - Compressed gauze
- 2 - 6” Israeli emergency pressure dressings
- 2 - NAR Hyfin twin vent chest seal twin packs
- 2 - Hypothermia rescue blankets
- 3 - Pairs of Nitrile gloves
- 4 - TCCC cards
- 1 - Sharpie marker
- 2 - Nasopharyngeal airways, 28Fr, with lube

This kit is designed to deliver the most critical “point of wounding” supplies for First Responders, Fire Rescue or EMS personnel. Shoulder strap and carry handles allow easy on-scene transport options, and internal organizer pockets can accommodate additional supplies if desired. Dimensions: 8”x8”x12”.

INCLUDES:
- 1 - Quiklitter™
- 4 - Cat tourniquet
- 3 - Halo chest seal
- 2 - 4” trauma dressings
- Additional supplies

SPECIFY COLOR: Black or Olive Drab

BN185  Active Shooter Event Casualty Response Kit  $329.95

**ACTIVE SHOOTER CASUALTY RESPONSE**

**REScue ESSENTIALS QUIKLITTER™**

The Rescue Essentials QuikLitter™ is the lowest-cost emergency stretcher available. It features ten large handholds, allowing for easy patient handling. With a load capacity tested to 500 lbs., it can be employed for everyday use, Mass Casualty and Disaster Preparedness, as a Backboard cover and Strapping Support System, as a Patient Transfer System to move the patient from the backboard to the hospital gurney, as a Gurney Sheet, as a Search and Rescue Gurney, as a Patient Transfer System to move the patient from the bed to a chair and back, or as a Seated Patient Evacuation System. The QuikLitter™ is constructed of water-resistant coated non-woven material, is latex-free, and is rated to 500 lbs.

BN181  Rescue Essentials Quiklitter™  $16.95

**BATLSKIN VIPER HELMETS**

Revision’s BATL SKIN VIPER A3 HELMET, designed specifically for Law Enforcement, Special Forces and SWAT personnel, stops NIJ IIIA level threats. Manufactured to meet stringent quality standards, the helmet delivers the level of ballistic and impact head protection demanded for tough tactical operations. The Viper A3 helmet is made of aramid materials and built in the ACH shape. The Batlskin Viper A3 Helmet is the foundation for all Batlskin modular components, including the Front Mount, Interlocking and Mandible Guard & Visor.

**BN180 FEATURES**
- Ballistic Performance:
  - Significantly exceeds 2200 ft/s (670 m/s), 1.1 g (17 gr) FSP
  - Stops NIJ IIIA level threats (9mm, 44 mag & .357 SIG) (NIJ 0106.01)
  - Meets U.S Army Standard for impact protection (CO/PD-05-04)
- Weight:
  - Full cut system – 52 oz (1485 g) – Size Medium
  - High cut system – 48 oz (1355 g) – Size Medium
- Low-profile design
- Designed for comfort
- Compatible with standard face shields, NVGs, Chem/Bio Masks and communication devices
- Offers unsurpassed impact protection and ballistic-rated hardware
- Tested for ballistic performance from -40°F to 158°F (-40°C to 70°C)

SPECIFY SIZE: S-XL

BN180  Revision Batlskin Viper A3 Helmet with MSS  $369.95
**ONESUIT® FLASH 2 HAZMAT SUIT**

ONESUIT® Flash 2 is the industry leading flash fire chemical protective suit, offering the highest level of protection against chemical/biological agents as well as chemical flash fire resistance and thermal protection. Designed to allow for excellent maneuverability and user comfort, ONESUIT® Flash 2 comes standard with Saint-Gobain’s new ONESUIT® Hazglove-91 high performance chemical protective gloves.

- Certified to the highest level of chemical protection: NFPA 1991-2016 Edition, including: Optional liquefied gas protection and optional chemical flash fire escape protection
- Incredible operational mobility and peripheral visibility through NEW streamlined suit design
- Excellent comfort derived from the single-skin lightweight ensemble construction (<13 lbs)
- Permanent anti-fog resistance using NEW single-layer CORETECH® Clearguard Visor
- Enhanced glove comfort and dexterity using new ONESUIT® Hazglove-91
- Excellent flame resistance and mechanical durability using tough abrasion resistant material technology
- 15 year minimum shelf life giving low life cycle cost
- Ultra-compact for convenient, space-saving storage
- Reusable, multi-exposure design

**FRONTLINE® 500 NFPA 1991 CHEMICAL SUIT**

CHEMICAL, FLASH, RADIANT - THREE HAZARDS, ONE SUIT

Now get triple assurance with a single suit certified to NFPA 1991 base plus optional Flash Fire and Liquefied Gas requirements. Frontline® 500 offers three-way protection - broad chemical holdout, plus flame resistance and superior radiant heat protection for the additional hazards encountered in a chemical flash-fire. With Frontline® 500, Kappler’s got your back - and your front.

**FEATURES:**
- Single garment eliminates need for typical 2-suit NFPA 1991 configuration
- Combines chemical, flash-fire and radiant heat protection in a single suit
- Seams are sewn and double heat-sealed/taped for added protection
- Large, expanded-view face shield improves field of vision
- Unique 2N1™ glove system prevents inner glove inversion when removing hands
- Removable knitted Kevlar overglove, plus field-replaceable 2N1® Glove System which eliminates inner glove inversion
- Highly flexible 48” gas-tight AquaSeal® zipper facilitates easier donning and doffing

**SIZING:**
- Small/Medium: 5’3” - 5’7”, 120-160 lbs.
- Large/X-Large: 5’7” - 6’2”, 160-220 lbs.
- 2X-Large/3X-Large: 6’2” - 6’5”, 220-300 lbs.

- Economically priced

INTERCEPTOR® LEVEL A DELUXE SUIT

Interceptor® is the apex of Lakeland Industries’ chemical protective clothing line. There is an Interceptor® suit for your needs; gas, vapor, aerosol, liquid or particulate protection. Interceptor® offers dependable protection, superior performance and patented garment features that have been proven over a broad range of chemical challenges in a wide range of environments.

- Patented ShurSeal Teflon® visor process permanently seals the visor into the suit with no sewing involved so that liquids can’t penetrate the visor edge
- Teflon® outer layer on visor prevents impairment of vision due to chemical contact
- Seams sealed inside and out for maximum protection
- Fully encapsulated front entry vapor-protective level A deluxe suit

### GUARDIAN NEOPRENE GLOVES

When you work with dangerous chemicals, you want your glove to protect exactly as promised, with uncompromising consistency. You want a glove to be comfortable and rugged with total performance features. The Guardian is all of this plus it’s fire retardant. It’s made with painstaking precision and each glove is "solution dipped" for maximum chemical impermeability. Manufactured to the NFPA 1992 Splash Garment Specifications Level “B”. When worn over the Silver Shield gloves, they meet the NFPA 1991 Standard on Vapor Protective Suit for Hazardous Chemicals Level “A”. **Ship. wt. 1 lb.**

### FENTANYL/OPIOID PPE KIT BASIC

Warthog Fentanyl/Opioid PPE Kit Basic was developed using guidelines from the CDC, NIOSH, DEA and The White House Fentanyl Safety Recommendations for First Responders.

- Disposable gown
- Goggles
- Size XL nitrile powder free gloves
- Disposable N100 mask
- Biohazard bag

*Some kits on the market save cost by only using a N95 rated mask. Specifically, the CDC recommends using an N100 rated mask.*

### HAZMAX® BOOTS

**THE FINEST BOOT MADE FOR HAZARDOUS MATERIALS HANDLING**

- 16” boot height
- Meets requirements for the optional chemical and biological certification
- **Steel safety toe:** Built in Steel toe complies with ASTM F2413-05 for impact and compression
- Full steel midsole
- **Steel ladder shank:** Provides arch protection and support
- One-piece injection molded construction, eliminates seams
- Boots are constructed of a high viscosity and flexible PVC alloy
- Non-absorbent polyester lining for easy cleaning and quick drying
- Replaceable cushioned insoles
- Cut off bands
- Kick off lug
- **Ship. wt. 7 lbs.**

<table>

### HAZPROOF® BOOTS

With the growing reality that chemical warfare agents are now a threat to the civilian population, domestic preparedness programs are developing rapidly. The HazProoF® boot, made of special polymer material, has also been tested to Military Standard 282 and will provide protection against certain chemical warfare blister and nerve agents! Certified to NFPA 1991, 2005 Edition for chemical and hazmat cleanup, emergency response, and domestic preparedness.

- Injection molded seamless construction for 100% liquid-proof protection
- Larger foot area is engineered to accommodate the extra bulk of an encapsulated suit, for comfortable fit
- Smooth exterior surface for easy decontamination
- Stretch fastener closure system allows for easy on/off while wearing gloves
- Meets ANSI spec. Z41 PT99 M I/75 C/75 EH, for steel toe impact and compression, and electrical protection
- Steel mid-sole meets and exceed ANSI Z41 PT 99 PR
- Steel shank provides firm arch support
- Blown closed cell EVA mid-sole for all day cushion comfort
- Sure grip cleated outsole has excellent abrasion and slip resistance

**NEW**
BW CLIP4 MULTI-GAS (4) PORTABLE GAS DETECTOR
The latest in wearable 4-gas detection. Just clip it on and get the job done. Because for 2 years, you know - IT'S ON.

- User-friendly tamper-proof operation with just one button
- Compatible with IntelliDoX docking system and instrument management system
- Real-time gas concentrations shown on LCD
- Daily full function self-test of sensors, battery status, circuit integrity, and audible/visual alarms
- Built-in concussion proof boot
- Requires calibration every 6 months, calibration gas and regulator not included

Honeywell
THE POWER OF CONNECTED

BW Clip4
SPECIFY COLOR: Black or Yellow
BN501 BW Clip4 Multi-Gas Portable Gas Detector* $552.95

CALIBRATION EQUIPMENT
BN726 Quad-gas: (CO, 100 ppm), LEL-50%, H2S-25PPM, O2-18%, BAL-N, 34L $151.95
BN737 Calibration Gas Regulator (SS 0.5LPM) $151.95

* This unit cannot be returned once it has been activated.

SINGLE GAS BW CLIP MAINTENANCE-FREE SINGLE-GAS DETECTORS
The BW Clip Series of single-gas detectors provides up to three years maintenance-free operation: just turn on the device and it runs continuously - no need for sensor and battery replacement or battery charging. That means great reliability and no downtime.

- Automatic logging of the 35 most recent gas events and bump test results
- Designed for a range of harsh environments and extreme temperatures
- Automated self-test of battery, sensor and electronics

**SENSIT® GOLD SERIES GAS DETECTORS**

SENSIT Gold gas detection instruments are designed to provide personal protection from potentially hazardous conditions and help you quickly find the source of combustible gases. *Ship. wt. 2 lbs.*

- Internal pump
- Push button operation
- Field calibration
- LED warning lights
- Operation memory
- Infrared download
- Bright LCD display
- Made in the USA

- **AS076**: SENSIT® EX-CO - detects combustibles and carbon monoxide
- **AS078**: SENSIT® EX-CO Plus - detects combustibles, carbon monoxide, and oxygen
- **AS080**: SENSIT® 4 Gas - detects combustibles, carbon monoxide, oxygen, and hydrogen sulfide

**GasAlert Max XT II**

**SIMPLE OPERATION, WITH SMARTSAMPLE PUMP.**

Honeywell BW™ Max XT II reliably monitors up to four hazards and combines straightforward one-button operation with a robust, motorized pump for intelligent, remote sampling, ideal for confined spaces. The Honeywell BW™ Max XT II is fully compatible with MicroDock II automated test and calibration system.

- Integrated sampling pump
- Continuous LCD shows real-time gas concentrations
- Simple automatic calibration procedure
- One-button operation with robust, motorized pump
- Equipped with standard datalogging and event logging
- Monitors HS2, CO, O2 and combustibles
- Best in class block detection with semi-conductor pressure sensor

MAXIWEDGE KIT
This kit offers greater versatility by increasing leak sealing solutions to problems resulting from punctures, gashes, slits and slashes in tanks, cylinders and containers both mobile and stationary. Gas, liquid and bulk material leaks can now be controlled until more permanent solutions are available. When soaked in liquid, softwood will slightly swell forming a tighter seal.

HAZARDOUS MATERIALS PATCH AND PLUG RESPONSE KITS

The Series “AE” is a collection of over 40 common components for emergency and temporary leak stoppage due to punctures, gashes, cracks and surface rotting. Series “C-1” Pipe Plugger with Valve Kit - Allows hazardous materials to be temporarily contained, piped off to alternate location or flared. Series “C-2” External Pipe Leak kit - Has unlimited uses in municipalities, chemical plants, manufacturing facilities or anywhere a pipe line is used. Contains pipe bandages covering nominal pipe sizes from 1/2” to 4”.

### SERIES “AE” KIT INCLUDES:
- Sheet metal screws with neoprene compression seals
- Tubeless tire repair kit
- OSHA-approved 200” roll of barricade tape
- 8”x12” piece of solid neoprene
- 22” piece of foam material
- Lead wool epoxy putty that hardens like steel, hot or cold hose repair tape, basic tool set for patching
- Twin “T” stainless plate with foam
- 8”x2” stainless backed neoprene patch-hardwood cribbing
- 2 - 22” nylon straps and buckles
- 2 - “T” bolt crack patches
- 6 - Surface plugs for curved surfaces, wedged wooden plugs covered with felt
- 2 - Ball plugs
- Carrying case
- Ship. wt. 33 lbs.

### SERIES “C-1” KIT INCLUDES:
- 20’ vinyl tube, tool kit
- 10 - Standard pipe plugs
- 1/4” regulating valve
- Carrying case
- Ship. wt. 35 lbs.

### SERIES “C-2” KIT INCLUDES:
- 10 - Pipe bandages for covering pipe sizes from 1/2” to 4”
- Soft and hard neoprene liner material and comes complete with your choice of standard or non-sparking tools
- Carrying case
- Ship. wt. 33 lbs.

### SYNTHO-PLUGS

#### FOOTBALL & GOLFBALL

Syntho-Plug is a football/golfball shaped, polyurethane impregnated, water activated foam plug used to temporarily stop the flow from a leak in anything from spill containment and marine thru-hull damage. Initially pliable to insert into a void and quickly expands and hardens to fill the void. It can even be applied below the water line.

- Ready to use
- Simple and effective
- No mixing, no mess
- Hardens in minutes

EMERGENCY KIT “A”
FOR 100-150 LB. CHLORINE CYLINDERS
The emergency kit “A” contains devices to stop leaks at the valve, fusible plug, and in the side walls of chlorine 100 and 150 lb. cylinders which conforms to specification DOT 3A480. Two instruction booklets explaining application of each device are included. Includes accessory equipment and tools which are labeled and color coded. Kit is packaged within a heavy-duty plastic box measuring 35”x13½”x14”. Ship. wt. 115 lbs.

EMERGENCY KIT “B”
FOR ONE-TON CONTAINERS
The emergency kit “B” contains devices to stops leaks at the valves, fusible plugs, and side walls of chlorine one-ton containers which conform to specifications DOT 106A500X. Two instruction booklets explaining application of each device are included. Will contain leaks in container valves, will seal leaks in container side wall and will contain leaks in container fusible plugs. Includes accessory equipment and tools which are labeled and color coded. Packaged in a heavy-duty plastic box measuring 35”x13½”x14”. Ship. wt. 113 lbs.

EMERGENCY KIT “C”
FOR TANK CARS & TANK TRUCKS
The emergency kit “C” contains devices to stop leaks at the safety valve or angle valves of chlorine tank cars and trucks. Conforms to DOT 105A500W and MC331 specifications, for chlorine service. 2 instruction booklets explaining application of devices are included. Will contain leaks in tank car angle valves and safety relief valve. Includes accessory equipment and tools which are labeled and color coded. Kit is packaged within a heavy-duty plastic tool box measuring 36”x18½”x20”. Ship. wt. 168 lbs.

GASKET KITS
All gaskets are molded from EPDM elastomer. The AF767 kit is for application with kit “A” to stop leaks in SO2 containers. The AF768 kit will stop leaks in one-ton containers when using kit “B” and the AF769 kit will stop leaks in tank cars when using kit “C”. Ship. wt. 6 lbs.
17-PIECE TOOL KIT

INCLUDES:
- Shoe handle brush
- 9" crate opener
- 16 oz. claw hammer with fiberglass handle
- Common knife 5 ½" blade, 10 ¾" OAL
- Deck scraper, 1 ½" blade x 7 ¼" OAL
- Spray booth scraper 3" blade x 9 ½" long
- Standard screwdriver ½" tip, 6" blade
- 12" groove joint pliers
- #3 phillips screwdriver
- 12" tin snips
- 8" adjustable wrench
- 12" adjustable wrench
- 14" pipe wrench (aluminum)
- 12" bung wrench (fits ½" x 2"
- 7" long nose pliers with cutters
- 8" combination pliers
- Ship. wt. 20 lbs.

11-PIECE TOOL KIT

INCLUDES:
- 8" combination pliers
- Shoe handle brush
- Putty knife (stiff) 1 ½" x 3 ½" blade 7 ½" OAL
- Common knife 3 ½" blade 6 ½" OAL
- 10" groove joint pliers
- #2 phillips screwdriver
- Standard screwdriver ½" tip, 6" blade
- 16 oz. claw hammer w/fiberglass handle
- 6" adjustable end wrench
- 10" adjustable end wrench
- 10" adjustable pipe wrench
- Ship. wt. 11 lbs.

HAZMAT HOOLIGAN TOOL

This heavy-duty forcible entry tool was designed for emergency service personnel operating in the presence of hazardous vapors. Combining the design of one of the world's most popular forcible entry tools and manufactured from spark-resistant material makes this an important addition to your hazmat team. Features duckbill and your choice of standard or metal cutting claw. Standard Claw is gently curved for maximum prying leverage and machine sharpened with recessed nail puller. Claw will fit over locks, hasps and many gas shut offs. Metal Cutting Claw combines the capability of prying and cutting heavy-gauge metal and composites. Ship. wt. 13 lbs.

- Heavy-duty
- Spark-resistant material
- Standard or metal cutting claw

DECONTAMINATION EQUIPMENT

STANDARD DECONTAMINATION SHOWER SYSTEM

SPECIFICATIONS:
- Total Output: 15 gpm (2.5 gpm per shower head)
- Dimensions: Assembled 42"x36"x84"; unassembled 74"x27"x27"
- Single Water Inlet: Standard garden hose
- Approximate Set-up Time: 3-4 minutes
- Ship. wt. 192 lbs.

FEATURES:
- Unique quick-connects for fast assembly
- Fully collapsible design
- Six shower heads plus an independent hand-held sprayer
- Heavy-duty, chemical-resistant privacy enclosure
- Translucent roof panel to allow light into shower
- Stores and transports in two easy-to-carry vinyl bags

SYSTEM INCLUDES SHOWER, POOL, ELEVATION GRIDS AND CARRYING BAGS

BA061 Standard Decontamination Shower System $3,254.95

QUICK RESPONSE™ SHOWER SYSTEM

Designed for field response, the Quick Response™ Shower is durably constructed to withstand frequent training, and compact enough to fit in a portable carry bag. System includes Quick Response™ Shower, compact pool, elevation grid and vinyl carrying bag. Ship. wt. 96 lbs.

SHOWER FEATURES:
- Unique quick-connects for fast assembly
- 3 shower heads plus an independent hand-held sprayer
- Tough construction for frequent training and use
- Vinyl bag for storage and transport

SHOWER SPECIFICATIONS:
- Total Output: 7.5 gpm
- Dimensions: Assembled 43.2"x46.8"x88.8"; unassembled 49"x15.5"x9.5"
- Single Water Inlet: Standard garden hose
- Approximate Set-up Time: 2-3 minutes

SYSTEM INCLUDES SHOWER, POOL, ELEVATION GRIDS AND CARRYING BAGS

BA062 Quick Response™ Shower System $1,779.95

DECON SHOWERS AND ACCESSORIES

BA068 Portable pneumatic hazmat decon Shower. Two line mass casualty decon Shower System that can handle two non-ambulatory stretchers or four ambulatory personnel or combinations of the above. Approximately 10’Wx10’L x 9’H, 100 sq. ft. - 139 lbs.

BA069 Portable pneumatic hazmat decon shower - four line three or four mass casualty decon shower system, decons four non-ambulatory, four to eight ambulatory, or any combination. Approximately 14.5’Wx23’Lx9’H - 340 lbs.

PORTABLE DECON SHOWER AND DISPOSABLE POOL

The Hazmat Decon Shower is a portable, collapsible, 1 1/2" PVC shower that is designed for decontaminating emergency response personnel. The unit is color-coded for ease of assembly and sets up in only five minutes. A crisscross water flow pattern is provided from the upper support bars. Shower comes in a canvas carrying duffel bag measuring approximately 42"x26"x12". Ship. wt. 65 lbs. The Hazmat Decon Pool (sold 2 per case) is disposable and compact. It is easily stored in a space of only 60"x21"x3". The pool has a 12 mil. polyethylene liner, is durable and weighs only 15 lbs. The pool sets up in 30 seconds. Ship. wt. 30 lbs.

DECON/PAK™

The DECON/pak™ is a self-contained agent proportioning and rinse application system helping to provide simple and gross decontamination of firefighting personnel and equipment.

- Flow is controlled by a twist grip valve that also functions as a carrying handle. Cleaning agents are added through the large, easy-open fill port that includes a debris screen.
- Large selector for agent proportioning from 0.1 to 0.5% for cleaning agent** or set to rinse with water only.
- Stores easily in tight compartment spaces.
- Studies show that field decon using soap, water and brush can reduce cancer causing contamination on turnout gear by 85%*

* Source: Journal of Occupational and Environmental Hygiene DOI: 10.1080/15459624.2017.1334904
** Contact your turnout gear manufacturer for cleaning agent recommendation for your specific gear.

PORTABLE DECON SPRAY HOOP

FAST, CONVENIENT, COST-EFFICIENT DECON SYSTEM

The Portable Decon Hoop has dozens of decontamination applications. The hoop design concentrates water at the area being decontaminated, minimizing the amount of water required and offers better control. It’s constructed of durable, lightweight, corrosion-free aluminum pipe and tube. On/Off control on hoop and uses standard 1/2" hose connection. Comes with two 43" handles extendible to 66". Ship. wt. 4 lbs.

HEARTSTART ONSITE DEFIBRILLATOR
THE FIRST DEFIBRILLATOR AVAILABLE WITHOUT A PRESCRIPTION TO COMMERCIAL USERS

SELF-TEST ENSURES READINESS:
- Daily self-tests check electrical components, subsystem, pads and battery
- Self-test also verifies that the pads cartridge is installed and in working order
- Blinking green “Ready” light means the OnSite has passed its last self-test, so you can be confident the defibrillator is ready for use

LONG BATTERY LIFE:
- 5-year shelf life plus 4-year installed life
- Same battery technology used with confidence in millions of cameras

EASY-TO-USE:
- Using the HeartStart Defibrillator is simple. Pulling the green handle activates the defibrillator and voice instructions. These instructions are paced to your actions, to help guide you through the entire process from placing each pad on the patient to delivering a defibrillation shock.

ZOLL® AED DEFIBRILLATORS
THE FIRST AND ONLY FULL-REScue AED

VISUAL PROMPTS GIVEN DURING CPR:
- Not pushing hard/deep enough? Prompts will tell you to push harder.
- Pushing hard enough? It will say, “Good compressions.”
- Not pushing fast enough? A metronome will lead you to the right rate. It will even show you the depth of each compression in real time.
- Not yet started? The AED Plus® will tell you to get started.
- Compressions stopped? It will tell you to continue.

ZOLL AED PRO® ALSO FEATURES:
- Ruggedness, portability and advanced functionality
- Superior AED design and rubber over-molds built to withstand challenging conditions

WATER RESCUE MANIKINS
These adult and adolescent models are made of durable vinyl plastic with rust-resistant skeletons, articulated joints, and optional CPR capabilities. When filled with water, the manikin will submerge to the neck. Add an additional 5-10 pound weight to sink.

WATER-JEL FIRE BLANKET
A one-step system for Emergency First Aid on a burn victim. It puts out the fire, stops burn progression and cools the skin, eases pain, and protects against airborne contamination. Water-Jel Fire Blankets consist of a scientifically formulated cooling gel and a special carrier. The 100% worsted wool blanket is soaked in a water-based/water-soluble, bacteriostatic and biodegradable gel. The full size blanket adequately covers a patient or can be used to douse a fire or dangerous white phosphorous. Dimensions: 5’x6’. Shelf life: 5 years. Ship. wt. 21 lbs.

WATER-JEL BURN WRAP
Smallest and most versatile of the blankets, it is ideal for covering torso, leg, or entire back injuries. Dimensions: 3’x2’/. Shelf Life: 5 years. Ship. wt. 10 lbs.

FLAME RESISTANT WOOL BLANKET
An ideal emergency blanket for every rescue vehicle. Made of 80% wool and can be cleaned.
- Dimensions: 66”x84”
- Ship. wt. 4 lbs.
COLOR: Maroon

RESCUE RANDY™
Randy’s fully articulated body duplicates the weight and resiliency of a human body and can be positioned for realistic patient handling or extrication in situations too hazardous or uncomfortable for volunteer victims. His rugged construction means years of use in any rescue training environment. Clothing not included. Ship. wt. 125 - 185 lbs.

+ BH039 Large EMS Duffle with Supplies, Cylinder and Regulator $484.95
+ BH040 Large EMS Duffle with Supplies $350.95

LARGE INTERMEDIATE MODULAR TRAUMA BAG

The new BL886 is a premium mid-sized ALS trauma bag, meaning it will hold virtually all of the medical supplies needed for a trauma call, less the oxygen bottle. The BL886 is heavily reinforced from top to bottom so it will withstand years of abuse. It also features multiple pockets, pouches, loops and compartments – including four removable color-coded zippered pouches for quick access to high priority items. The main hold also includes six removable foam dividers that can be customized along with the colored pouches – or removed completely to suit the users’ needs. Multiple points of hi-vis reflective around the bag ensures that it remains visible on-scene.

- Raised PVC/Nylon reinforcement covers bottom and lower half of bag for water and abrasion resistance
- Yellow/silver triple trim reflective striping surrounds bag and 3M scotchlitie stitched into webbing and straps
- Blue and white embroidered star of life logo with silver reflective overlay
- Front and side pockets stretch full-length of bag and feature interior elastic instrument loops and nylon pockets with dividers
- Each colored quick access pouch includes clear vinyl window and interior pocket; green has elastic loops for berman airways
- Main flap is padded and features three clear zippered compartments for access to often-used items without disturbing main-hold supplies
- Shoulder strap is stitched with reflective tape and includes ergonomically shaped shoulder pad; adjustable and removable strap is attached with spring loaded metal US hooks
- Rear of bag has nylon webbing reinforced I.D. pouch with clear vinyl cover
- All pockets and compartments feature double zippers – can be locked for logistical purposes
- Overall Dimensions: 20”L x 16”W x 10”H

+ BL886 Large Intermediate Modular Trauma Bag $260.95

### TACTICAL MOLLE MED BACKPACK WITH MODULAR POUCHES AND HYDRATION PORT WITH TRAUMA AND BLEEDING MEDIC FILL KIT

The Modular Tactical Medic Backpack is the culmination of two years of research, design and customer feedback by Lightning X for a practical and useful EMS bag for the tactical market. Far too often, tactical medics are forced to buy a military bag with no EMS features, or an EMS bag with no tactical features. Now you can have the best of both worlds, with a well organized and great looking bag all-in-one. The BP202 comes with two small and two large grab-n-go pouches with transparent windows plus one foam lined organizer with six dividers, all of which are completely removable or interchangeable within the main compartment.

- 1 - Tweezer
- 1 - Kelly Hemostats
- 1 box of 10 - Ammonia Ampules
- 100 - ¼” x 3” Adhesive Bandage
- 25 packs of 2 - 4”x4” Gauze Pad 50
- 2 - 2” Roll Gauze
- 2 - 3” Roll Gauze
- 2 - 4” Roll Gauze
- 2 - Cohesive Self-Adherent Bandage
- 2 - 5” x 9” ABD Pad
- 2 - 8” x 10” ABD Pad
- 1 - 1” Cloth Medical Tape
- 10 - Iodine Wipes
- 10 - Alcohol Prep Wipes
- 1 - Triple Antibiotic Ointment ½ oz.
- 1 - 7½” Trauma Shears
- 2 - Instant Cold Pack
- 2 - Oval Eye Pad
- 2 - Triangle Bandage
- 1 - Sprague Stethoscope
- 1 - Eye Wash
- 1 - Berman Airway / 6 pieces
- 2 Pairs - Nitrile Gloves
- 1 - Universal Finger Splint
- 1 - Bandage Shears
- 10 - Sting and Bite Relief Pads

**BP202 Tactical MOLLE Medical Backpack with Medic Fill Kit** $232.95

### COMPLETELY STOCKED TRAUMA BAG

Cordura® Trauma Bag features all the first aid supplies you'll need. Large main compartment divided into three sections along with a roomy front pocket plus two zippered side pockets. **Dimensions: 20¼”Lx7”Hx11¼”D.**

EMERGENCY MEDICAL SUPPLIES
1.800.323.0244   |   EDARLEY.COM/EMS

EMERGENCY OXYGEN
Durable emergency oxygen system packaged in an attractive and molded attach-type case. The system comes filled and ready-to-use. When full, the unit will deliver over 1 hour of emergency oxygen for use between the time of an incident that involves respiratory difficulty and the arrival of professionally trained personnel. Includes 0-15 lpm adjustable flow regulator. Unit is refillable for maximum economy. Ship. wt. 10 lbs.

OXYGEN CASE
Designed for an ambulance company to provide extra protection for regulator. 1/2" foam padding, four inside pockets for tubing and supplies. Holds a D-sized tank. Imported. 1000D nylon in green. Dimensions: 21 1/8"L x 8"D.

DERMA-LITE™ NITRILE GLOVES
The smart choice to protect today’s EMS professionals from bloodborne pathogens. 3x the puncture/tear resistance as natural rubber latex gloves of the same thickness. Great feel and contour shape hug your hand for maximum comfort yet they’re thin enough to let you get an accurate pulse; plus micro texture gives you a better grip. Ship. wt. 2 lbs.

SPECIFY SIZE: L or XL

OXYGEN BAG INITIAL STOCK
Prepackaged poly bag with all the supplies needed to initially stock the oxygen bag.

- Oxygen regular (Brass) 0-15L constant flow
- Aluminum “D” oxygen tank with toggle handle
- Bag-valve-mask (adult)
- 2 - Adult-non-rebreather mask
- 3 - Pediatric non-rebreather mask
- 2 - Adult nasal canulla

- Oxygen cylinder D-sized tank w/toggle
- Oxygen brass regulator 0-25 lpm left handed
- 2 - Non-rebreather masks - adult
- Non-rebreather mask - pediatric
- 2 - Nasal cannula - adult
- 2 - Oxygen tubing supply
- 4 - Gloves (latex/vinyl)
## PLASTIC, SCOOP, AND SPLINT STRETCHERS

### PLASTIC BACKBOARD
Rugged, one-piece, lightweight polyethylene spineboard with twelve large handholds for easy handling, built-in runners, low profile and X-ray translucent. Bright yellow. **Dimensions:** 72"Lx16"W. **Load Capacity:** 400 lbs. **Ship. wt.** 20 lbs.

PATROL VEHICLE TRAUMA KIT
North American Rescue Patrol Vehicle Trauma Kit was designed to provide personnel with an easily accessible, quick to deploy medical kit from your Patrol Vehicle. It’s modular storage system comes organized with an array of medical products ranging from basic first aid to more intermediate trauma care. One side of the bag’s exterior includes trauma shears at the ready as well as several pairs of nitrile gloves, while the opposite side features a MOLLE-style system to accommodate extra equipment as needed, such as additional tourniquets, ammo, or personal protective equipment. This arrangement is ideal for customizing the carriage of gear that requires immediate access. Once the zippered bag is opened, one compartment contains items to cover all your agency needs for basic first aid and community assistance while the opposite side offers a first time combination of both Basic First Aid and Basic Trauma medical items. This configuration gives every officer not just a basic first aid kit, but everything needed to save a life in more extreme injuries.

SPECIFICATIONS:
- Provide personnel with an easily accessible, quick to deploy medical kit from your Patrol Vehicle
- Modular storage system comes organized with an array of medical products ranging from basic first aid to more intermediate trauma care
- One side covers all your agency needs to administer basic first aid and community assistance

ULTRABRIGHT RED-FIRE CLASS II PUBLIC SAFETY VEST
Introducing the Ultrabright Red-Fire Class II Public Safety Vest. This product features a “zip-off” double Velcro® zipper front closure that allows the vest to breakaway from both sides of the zipper, making it the only 6 point breakaway vest on the market. The “performance cut” offers max comfort and allows access to turnout jacket pockets or portable radios at the waistline. The “chevron” reflective pattern on the back offers max visibility and distinct contrast. The shoulder breakaway points have been upgraded with 2” “re-force” Velcro® to ensure that the vest does not fall apart when donned over a turnout jacket but will still break away in emergency situations.

SPECIFY SIZE: S, M, L
BN732  Ultrabright Red-Fire Class II Public Safety Vest $39.95

**THREE-TRIANGLE VEHICLE WARNING KIT**

No flares or electric flashers are necessary with the Vehicle Warning Kit. The kit includes three fold-out reflective triangles that snap into position in seconds. Each triangle is attached to a heavy four pound weighted base. Made of tough plastic with reflective red and fluorescent orange on both faces. Comes complete with handy carrying case for easy storage. Ship. wt. 15 lbs.. Ship. wt. 15 lbs.
The FLASHBACK™ LED Light Baton is the most visible flashing signal light available. The 6 highly-luminous LED bulbs can be seen for up to ¼ of a mile and flash approximately 150 times per minute. FLASHBACK™ provides a minimum of 300 hours of continuous flashing operation. The three stage switch provides off, flashing or steady light. The weather resistant body is made of ABS high impact plastic, while the tube is PC transparent material.

**FLASHBACK™ LED LIGHT BATON**

**FEATURES:**
- 360° high-visibility flashing LED beacons
- Portable, safe, easy-to-use, and cost effective (2 cents/hr.)
- Bright, clear colors
- Up to 80 hr. battery life with low battery indicator
- Tough and dependable with one year limited warranty

**SPECIFICATIONS:**
- Beam Brightness: 15,000 - 25,000 millicandelas
- Max beam Conspicuity: Between horizontal and 10° above horizontal
- Flash Rate: 120 flashes per minute
- Batteries: 2 Alkaline D cells (not included)
- Battery Life: Up to 80 hrs. at full brightness
- Height: 8” (including optional base)
- Weight: 1 lb. (including batteries)

**360˚ HIGH VISIBILITY FLASHING BEACONS AND KITS**

**FLIGHT SITE LANDING ZONE KIT**
The Flight Site 5-strobe system, with it’s 12,800’ ceiling, identifies the landing zone to the pilots from great distances. It’s easy-to-use and quickly deployed. Patented Weightwashers™ will not allow the strobes to move even under the heaviest rotor wash conditions. Enhance your medivac landing zones as well as emergency scenes. **Ship. wt. 5 lbs.**

**INCLUDES:**
- 5 - Xenon Strobe
- 5 - clear lenses
- 5 - amber lenses
- 5 - red lenses
- 5 - Weightwashers™ for Stabilizing strobes
- 10 - AA batteries
- Carrying bag

WALL MOUNT CAN HOLDERS
Wall mount can holders lower the risk of rolling, falling, leaking, denting, and puncturing during transport. Keeps cans organized and easy to locate in a hurry. Mount it to a compartment wall and save space on the shelf below. Ship. wt. 3-5.1 lbs.
- BL674 and BL754: Fits 32 oz. (3 1/4" diameter) cans or 32 oz. (2 1/2"x4 1/4") quart containers
- BL713: Fits 12 oz. cans up to 2 1/4" diameter
- BL755: Fits 1 gallon cans (7"x4 1/2")

BL674  Premixed Can Holder $49.95
BL713  Spray Can Holder $49.95
BL754  Double Premix Holder $89.95
BL755  Gallon Premix Holder $49.95

SLEDGE HAMMER BRACKET
Designed for use with 2 to 16 lb. Double Face Sledges and 1 to 3 lb. Dead Blow Hammers. Bracket is 2 1/4"Hx3"D - expandable from 5 1/4" to 8 1/4"W to fit various-sized tools. Made of stainless steel for years of lasting service. Ship. wt. 3 lbs.

AS325  Sledge Hammer Bracket $90.95

AXE HOLDER BRACKET
Designed for use with 6-pound flat or pick head axe. Bracket is 5"Hx2 1/2"D. Expands from 7 1/4" to 8 1/4"W to fit most axeheads. 2 1/4"Hx1 3/4"W slot in end for pick to protrude. Axe blade protected by a replaceable plastic sleeve. Pinned handle holder accepts up to 2 1/4"W handle. Stainless steel for trouble-free service. Ship. wt. 4 lbs.

AS331  Axe Holder Bracket $168.95
AS332  Axe Wall Mounting Bracket $143.95

QUIC-MOUNT® BOLT CUTTER BRACKET
Designed for use with 18" to 36" bolt cutters with adjustable stop and pin. Utility straps hold the bolt cutter handles firmly in place. Comes with one fixed strap and one variable strap. Ship. wt. 3 lbs.

AR158  Quic-Mount® Bolt Cutter Bracket $93.95

ROUND GAS CAN MOUNT
Round gas can mount was designed for safety cans with 9" and 13" diameter bases. The safety can is held in place by a 1" nylon safety strap with a quick-release buckle. Ship. wt. 7 lbs.

AS328  Gas Can Mount Up to 2 Gal. 9"/"IDx2 1/4"D $91.95
BD079  Gas Can Mount Up to 5 Gal. 13"/"IDx2 1/4"D $105.95

CHAIN SAW MOUNT
Mount chain saws, abrasive cut-off saws and other gasoline engine tools on these specially designed brackets. Absorbent pad collects fluids and may be changed as required. Safety strap secures the saw on the bracket. Ship. wt. 10-12 lbs.

AS326  Large Mount - 11 1/2"x17 1/2" $148.95
AS327  Small Mount - 10"x15" $141.95

QUIC-BAR®/AXE MOUNTING BRACKET SET
Brackets may be mounted to store the bar and axe combination either vertically or horizontally. Variable straps secure the tools for carrying. Add an adjustable shoulder strap and you are ready for business. Ship. wt. 7 lbs.

AS329  Quic-Bar/Axe Mounting Bracket Set w/Stop $189.95
AS330  Straps for Quic-Bar® & Axe Mounting Bracket $78.95
D-SIZE OXYGEN CYLINDER BRACKET

The Oxygen Cylinder Bracket has two 4" clips to securely hold a D-size oxygen cylinder. Durable green powder coated steel clips, backplate and footplate. Multiple sets of countersunk holes allow the bracket assembly to flush mount to any surface and gives multiple positioning for the clips and the footplate. A Velcro® safety strap attached to each bracket.

BL511 D-Size Oxygen Cylinder Bracket $78.95

UNIVERSAL SAW BRACKET

This unique Universal Saw Bracket is able to mount chain saws, rotary saws, electric and all others. Made from ¼" powder coated aluminum, it offers multiple anchor points to attach the heavy duty Velcro® strap. An absorbent, replaceable felt pad is supplied and held in place by the mounting bolts.

BL510 Universal Saw Bracket $141.95

SHOVEL MOUNTING BRACKET

New shovel mounting system holds one or two shovels securely in place. Bracket adjusts to hold one or two handles with no rattle or movement. Hanger projections secure the shovel heads with a 7¼"Wx4"H base and four mounting holes.

BE076 Shovel Hanger 7¼"Wx4"H Base $61.95
BE077 Shovel Bracket for 1 or 2 Tools $39.95

ADAPTER HANGER

Adapter hanger is ideal for mounting couplings, adapters, electrical cords, hoses, etc. Mounting plate is 4" square, post is 6" long and mounted on a 60˚ angle. Ship. wt. 1 lb.

AS324 Adapter Hanger $45.95

NYLON STRAP KIT

Nylon Strap Kits include two bolt down footman loops brackets and a 1.00" nylon strap with a pinch and release buckle. Ideal for strapping down tools and or large equipment such as vent fans, cribbing, rescue jacks and other hard to secure items. Sizes listed are maximum lengths and may be adjusted to secure smaller items.

BH118 1"x30" Nylon Strap Kit $25.95
BH119 1"x48" Nylon Strap Kit $27.95
BH120 1"x64" Nylon Strap Kit $29.95
HORIZONTAL MOUNTING POSTS

Want to eliminate the headache of stacking 1 1/2”-2 1/2” couplings, adapters and accessories? These remarkably simple and unique Horizontal Mounting Posts for double male or female configurations are designed to save cabinet storage space and improve overall truck neatness and efficiency. With no stacking, you can instantly spot the size adapter or coupling you need. Special stainless steel spring clip provides secure holding yet quick-action release. Durable construction materials will not corrode, swell or crack. Single screw mounting takes only minutes.

STORZ HARDCOAT MOUNTING PLATES

High-tensile aluminum construction with anodized finish to resist abrasion and corrosion. Ship wt. 1 lb.

SHOWN WITH OPTIONAL U402
AUTO CHARGE 11 - FOR DUAL BATTERIES

Auto Charge 11 is a fully automatic battery charger for vehicles with dual battery systems. The unit contains two completely independent chargers to sense and control the current to the batteries. Thus parasitic loads on one battery have no effect on the second battery. Total output current is limited to protect the charger but may be supplied to either battery if the adjacent battery does not require it. Normally the current output is proportioned between batteries as required. Comes complete with charging indicator panel. 3-year warranty. 12v input. 

Ship. wt. 12 lbs.

SPECIFY VOLTAGE: 6, 12, or 24

Y644 Auto Charge 11 $533.95

AUTO CHARGE 2000 KIT

COMPLETE CHARGING SYSTEM AT AN AFFORDABLE PRICE

Auto Charge 2000 is a high-output, dual battery charger that independently charges two batteries. Includes the Auto Charge 2000 automatic battery charger and Auto Eject (20 amp) automatic power line disconnect, providing a complete vehicle charging system that saves you money. Unique electronic sensing circuits sense the true battery voltage while eliminating the need for external sense wires. There is no overcharging and no water boil off. What’s more, a built-in battery saver handles the problem of battery loading from rechargeable hand lights, portable radios and other loads. Comes complete with weatherproof, bar graph display that shows the charging condition of each battery; may be remotely mounted. 120v input, 15 amp output. 3-year warranty. 

Ship. wt. 17 lbs.

AC905 Auto Charge 2000 Kit $921.95

PUMP PLUS

AIR COMPRESSOR/BATTERY CHARGER PACKAGE

The Pump Plus is a small air compressor and a completely automatic battery charger packaged together. The air compressor is designed to be mounted on vehicles with air brakes to maintain the air pressure in the air brake system while the vehicle is not in use. A pressure switch senses the system pressure and operates the compressor whenever the pressure drops below a predetermined level. Battery charger is completely automatic and is for vehicles with dual battery systems. The batteries are automatically charged and maintain full charge while still being isolated from each other. This unit contains two independent chargers to sense and control the current to the batteries. Designed to mount directly on the vehicle. 12v compressor has 1-yr. warranty; Battery Charger comes with 3-yr. warranty. 

Ship. wt. 20 lbs.

Z112A Pump Plus HO Package $1,064.95
Z111 12v DC Auto Pump Compressor $575.95
Z112 120v AC Auto Pump Compressor $654.95

USB DUAL PORT

• Dual USB charging ports
• Quick and easy way to recharge electronic devices in a vehicle
• 3 Amps max output allows simultaneous charging of two USB devices
• Built-in LED indicator indicates device is powered
• Designed for easy installation in vehicle switch panels
• Reverse polarity protected
• Can be connected to 12V switched ignition or directly to battery
• Cut-Out-Size: 1.45”x0.83”
• 3-year warranty
• Ship. wt. 1 lb.

BL645 USB Dual Port $46.95
BN592 USB Dual Port with Cover $58.95
BACK-UP CAMERA SYSTEMS

Proven in the industry, 5” or 7” HD digital LCD system with ultra-clear image in a durable housing. 3 A/V inputs with audio, IP 69 waterproof camera with night vision (white infrared), 65’ camera cable, remote bracket. Verity Rear Vision Systems will include a slim base heavy-duty mount free of charge to make installing a breeze.

| BN144   | Back-Up Camera System with 5” Diagonal Monitor | $475.95 |
| BN145   | Back-Up Camera System with 7” Diagonal Monitor | $515.95 |

INVIEW 360 CAMERA

The inView 360™ provides the apparatus driver with split screen view. The bird’s-eye view is always visible providing a 360˚ view around the vehicle. This unique view allows the operator to see pedestrians and obstacles in close proximity to the apparatus or vehicle. The second view on the display switches between front/left/right/rear views depending on the operational conditions. The system is networked between the turn signals, and vehicle reverse so the screen automatically switches to left, right, and rear viewing when turning or backing up. An in-cab toggle switch allows the operator to override the default camera view for complete control over the system.

| BN328   | inView 360™ Camera         | $1,949.95 |

PACKAGE INCLUDES:
- Front camera
- Rear camera
- 2 side cameras
- Controller
- Cable kit
- Toggle switch
- Monitor is available as an option

SUPER AUTO EJECT & AUTO EJECT

Super Auto Eject is a completely sealed automatic power line disconnect. This prevents contamination of the mechanism by road dirt and insures long, reliable life. Comes with a weatherproof cover that is spring loaded to close, preventing water from entering. A solenoid wired to the vehicle’s starter is energized when the engine is started. This instantaneously drives the plug from the receptacle. This simple, reliable device eliminates the broken cables which result when drivers forget to remove the shore line when driving away. The Auto Eject comes without sealed housing. All units come with 120v AC connector. Both models are weatherproof.  

Ship. wt. 2 lbs.

AUTOMATIC AIR EJECT

This simple, reliable, solid brass device permits pressurizing the vehicle’s air pressure system from an external source. Automatically, when the engine is started, the air line is disconnected. Comes with the mating connector, check valve and simple installation instructions. Full 2-year warranty.  

Ship. wt. 3 lbs.

- Automatically disconnects air line when vehicle is started
- Eliminates broken air lines

TANKVISION PRO 300
The TankVision Pro is the fire industry’s first multi-color tank level display. It uses a pressure sensor to sense the amount of liquid in the tank and can be calibrated to accurately display the volume in tanks of all shapes and sizes. Ship. wt. 3 lbs.

WATER LEVEL MONITOR

- Various Programmable multi-color tank level displays available
- More accurate tank level display
- Fractional scale standard, also available with percentage scale
- 9 LED level indicators with fractional scale
- 10 LED level indicators with percentage scale
- Programmable brightness control
- Full 180° wide-view, easy to see display
- The TankVision Pro is available for water, class A foam, and class B foam tanks
- Each display has a distinctive color and style

AR317 TankVision Pro 300 Gauge Kit, with Master Display Sensor and 10’ Cable $482.14
AS309 TankVision Pro In-Cab Mini Display for Water $182.75
AS312 TankVision Pro Remote Driver for “Large Light” Display $299.95

BRAND

LIQUID-FILLED GAUGES
ELIMINATES NEEDLE PULSATION FOR ACCURATE AND EASY READINGS
Crystal-clear Interlube keeps needle fluctuation to a minimum. The SUBZ II freeze-proof isolator keeps gauge working down to -40°F. It’s also weather tight so there is no condensation; stops corrosion. Lubricates internal parts, stops wear, maintains accuracy under temperature fluctuations. Zytel (nylon) case with bright stainless steel trim ring has plexiglass lens. 6” gauge has cast aluminum case. Gauges measure 0-600 psi and up to 30” vacuum. Ship. wt. 5 lbs.

BLACK AND WHITE FACE GAUGES
WITHOUT LOGO ARE AVAILABLE

T179  2/½” Liquid-Filled Compound Gauge $45.95
AK075  2/½” Liquid-Filled Compound Gauge with Bottom Connection $43.95

DARLEY HEAT EXCHANGER
Can be installed in the engine cooling system of any pumper. Instead of going directly into the engine cooling system, mixing with the anti-freeze solution, diluting it and then going out through the radiator overflow pipe, the flow of cool water from the pump bypasses through the condenser coils in the Heat Exchanger. The liquid in the cooling system circulates around the condenser coils and is completely cooled. Prevents loss of anti-freeze solution. Measures 24” long. Ship. wt. 10 lbs.

BOoster hose reels
Include all the information below. Specify left/right based on facing outlet.

For Manual: Specify crank side (left or right)
Specify inlet side (left or right)
Note: Must be same side as motor/crank
Specify Color: Red, Silver, White or Primer Coat
Specify Size No. (see chart)
Specify 90° or Straight Inlet swivel
Specify size (“1/4” or “1”) and outlet thread type

For Electric: Specify motor side (left or right)
and motor position (front or back)
Note: Must be same side as motor/crank

Electric rewind booster hose reels
AM167 Aluminum Booster Hose Reel $1,539.95
AM168 Steel Booster Hose Reel $1,184.95

Manual booster hose reels
AM169 Aluminum Booster Hose Reel $1,099.95
AM170 Steel Booster Hose Reel $714.95

Option
AZ633 Roller and Spool Installed $189.95

Roller and spool assembly
Speed your hose handling and reduce wear on hose. Buffed stainless steel rollers. Assembly includes roller, 2 blocks, 2 spools, bearings and all fastenings. Length of roller should be the same as the reel drum length. (Larger sizes are available for an extra charge). Ship. wt. 13 lbs.

Specify Length: Up to 38"
R698 Roller and Spool Assembly $154.95

Swivel joints
Pressure balanced design for low rotation torque. Hardened carbon steel barrel for strength and long wear. NPT threads. Ship. wt. 3 lbs.

AF774 1/2" Swivel Joint $249.95
T961 1" Swivel Joint $101.95
T963 1" Seal Kit for T961 $39.95

Drop-in style booster reel
These reels are an excellent choice for drop-in units or smaller apparatus compartments where space is a premium. They’re built to the same design standards as our larger reels, just lighter in weight and more compact. Available in either electric or crank rewind. Reels will hold up to 100’ of 1” or 200’ of 1/4” booster hose. Dimensions: (E) Crank/16.5", (E) Elec/19", (F) Crank/46.62", (F) Elec/39.75", (G) 18.12".
BRACKETS, TUBING & GRAB RAILS

The F615 Surface Mount End Bracket bolts to any horizontal or vertical flat surface. The F617 Center Mount Bracket is used in the center of long railings for support. The AB044 Slip-Resistant Grab Rail is extruded aluminum tubing with black rubber inserts. Ship. wt. 1 lb.

**QUIC-CHOC® FOLDING WHEEL CHOCK**

This new folding aluminum wheel chock requires only a 6"H x 10 1/2"W x 20 3/8"D area for storage. Can be stored under fire or rescue vehicles. The collapsible design allows the chock to lock in the open position simply by pulling out the back casting and pushing down. Just release the safety latch to close back into the folding position. Convenient carrying handle makes transport and placement of chock a snap. Made of high-tensile strength aluminum with rear opening, hand grip and a double row of rugged teeth to grip almost any surface. Meets applicable NFPA standards.

LITTLE GIANT DEFENDER™ LADDER

The Little Giant Defender™ was specifically engineered for firefighters who need speed and strength in a rapid-response portable ladder system.

- Reflective, heat sensitive labels
- Easy-to-use Rock Lock® adjuster
- Built-in dual Ratchet™ levers. Adjust up to 8.5” on each side over uneven ground
- Tip & Glide™ wheels
- Wide-flared extension ladder for improved side-tip stability
- Adapts to almost any situation, offering a safe, stable climbing solution
- Capable of dozens of configurations, including A-frame, staircase, extension, and 90˚
- Exceeds all OSHA & ANSI standards. Certified to NFPA requirements 1931/1932
- Rated to 300 lbs.
- Built-in dual Ratchet Levelers™ adjust up to 8.5” on each side over uneven ground
- Counts as ISO footage on apparatus

LITTLE GIANT OVERHAUL LADDER

Little Giant Ladder Overhaul Ladder extends to 17’, but it is small enough to carry into an elevator, up a flight of stairs, or around tight corners. The ladder is just 4’7” tall when retracted. Articulating ladder systems that meet the requirements of NFPA 1901-2009.

- Safety Insight™ photo-luminescent glowing rungs
- Patented Rock Lock™ adjusters
- Wide-stance leg levelers adjust over uneven ground
- Tip & Glide™ wheels
- 90˚ position for extraction rescue
- Access uneven surfaces, staircases, and hard-to-reach places
- Ratchet Levelers™
- Roof and rafter hooks
- Dual-position spike feet
- Counts as ISO footage on apparatus

### APPARATUS EQUIPMENT
1.800.323.0244   |   EDARLEY.COM/APPARATUSEQUIP

All ladders over 8' are shipped via motor freight. All orders MUST BE inspected before acceptance upon delivery.
**FOCUS LAMPHEAD**

**VERSATILE LOW PROFILE LAMPHEAD. COMPACT. DURABLE.**

**DON’T WASTE PRECIOUS LIGHT**

The high intensity FOCUS lamphead does not waste precious light. It is designed to focus 100% of the light produced into the area where it is needed. The FOCUS is built tough and has a compact design that allows it to be mounted in places that traditional lighting fixtures do not fit.

**BREAKTHROUGH IN SCENE LIGHTING**

The FOCUS lamphead was designed to light up the emergency scene evenly, putting 100% of the light on the scene. A high percentage of the light produced by a conventional light fixture is wasted away from the emergency scene and gets dim at a distance. The FOCUS lamphead uses a uniquely designed patented reflector to eliminate wasted light. The curved reflector has over 50 parabolic surfaces that redirect all of the light produced and focus it evenly into the action areas. This allows the FOCUS to put all of the light onto the scene, providing more light close to the vehicle as well as being brighter at a distance.

AM262: Top mount, top raise pole with FOCUS lamphead
AM263: Side mount, bottom raise pole with FOCUS lamphead
AM266: FOCUS lamphead only

**SPECTRA LED LAMPHED SERIES**

**THE BRIGHTEST LED SCENE LIGHTS AVAILABLE.**

The SPECTRA LED lamphead outputs an impressive 20,000 lumens of super bright white light. The advanced lens and unique arrangement of LEDs generates a uniform flood and spot combination light pattern. This light pattern provides enhanced work area visibility as well as illuminates objects at a farther distance. The NEW SPECTRA MAX outputs an unmatched 28,000 lumens of ultrabright light making it the brightest LED scene light available. All SPECTRA series lampheads can be used with any FRC telescopic poles, tripods, non-telescopic mounts, and brow mounts.

- Available as 20,000 lumens SPECTRA or 28,000 lumens SPECTRA MAX
- Unique arrangement of LEDs provides more light in a compact lamphead
- Models available in 120/240 VAC or 12/24 VDC
- Whiter light, closer to natural sunlight
- Uniform high quality white light with the widest light pattern
- Long operating hours, rated at 50,000 hours
- Instant-on at full intensity
- 5-year LED lighting warranty

BL749   SPECTRA LED Lamphead 120 VAC 20k Lumens  $1,420.95
BL750   SPECTRA MAX LED Lamphead 12/24 VDC 28k Lumens  $1,562.95
BL751   SPECTRA LED Lamphead 120 VAC 20k Lumens Portable with On/Off Switch  $1,714.95
BL752   SPECTRA MAX LED Lamphead 120 VAC 28k Lumens with Standard Tripod  $2,059.95
STREAMLIGHT™ PORTABLE SCENE LIGHT II
10,000 LUMENS, WATERPROOF, STACKABLE

Turn to a higher power with the Portable Scene Light II. With zero deployment time, it features a compact footprint, a 360° rotating head, and it’s stackable for “light tower” capability with multi-level lighting. **Dimensions:** 16”x11”x12”

- 18 LEDs within wide pattern parabolic reflectors produce a smooth, high lumen flood pattern
- Five intensity levels correspond to desired run time
- 360° rotating head
- High-impact, thermoplastic housing mounted in a virtually indestructible alloy steel frame IPX7 rated; waterproof to 1m for 30 minutes
- Lithium ion batteries charge in 6 hours
- Batteries will continue to charge while plugged into an AC or DC power source
- Limited lifetime warranty

VANTAGEPOINT REMOTE CONTROL LIGHT
ALLOWS FOR MAXIMUM PAN-TILT MOTION

Whether searching for a person in an emergency situation or illuminating a house number, VantagePoint offers the ultimate in remote control lighting. High-intensity LEDs deliver ultra-bright white light taking performance to the next level. Control the unit from inside the vehicle or remotely from up to 130’ (40 m) away. Operators will appreciate the unique stow feature because the light returns to the forward facing position when turned off.

- 360° continuous horizontal rotation
- Pan and tilt motion
- Total tilt positioning of 115°
- Ultra bright 6720 lumens
- Weatherproof to IP67
- Two remote controls included
- Flashing alert
- 5 year limited warranty

THE REVEL SCOUT SCENE LIGHT

Revel Scout Scene Light is designed to increase the safety of both firefighters and emergency responders. With versatile mounting options; set, hang, strap, spike and a removable, rechargeable battery, the Revel Scout revolutionizes the operational ease of fire scene lighting. The Revel Scout combines a spot and flood light pattern of 14,000 lumens in a 12 lb. package, and the LED tactical scene light can be used to evenly light exterior scenes and interior spaces.

- Fast, flexible deployment
- Light where you need it
- Integrated strap included to secure to horizontal object, ladder rung, etc.
- On/off toggle switch to turn light on and off and adjust to 4 light levels
- Corrosion-free construction
- Zero deployment time
- Battery Type: 28v LI-ION, Weight: 3 lbs. charge time: 1 hr
- Warranty: Light Assembly: 6 years, battery and charger: 1 year

LIGHT PERFORMANCE

- Four Light Levels: High, medium, low, spot
- Light Output: 14,000, 8,000, 2,000, 6,000 lumens
- Average Run Time: high - 1.2 hrs, medium - 3 hrs, low - 7 hrs, spot - 3.5 hrs

BN312 Revel Scout Scene Light $1,267.95

PORTABLE HAND LIGHT

A powerful 500w (120v) light head features a highly-polished specular hammertone reflector which almost doubles its light output. Sturdy aluminum housing with high-temperature carrying handle and tilt control knob. Heavy-duty ground tripod base with rubber footings. Optional mounting bracket allows you to mount it in any position. Meets NFPA; UL Listed.

- Ship. wt. 3 lbs.

AR301 Portable Hand Light $332.95
AR302 Mounting Bracket $60.95
HONDA 4000 W ECONOMY SERIES GENERATOR

RUGGED AND RELIABLE, THE ECONOMY SERIES GENERATORS ARE EASY TO TAKE ANYWHERE. JUST LOAD ‘EM UP AND GO.

- 4000 watts maximum of rugged economical, portable power
- Honda GX commercial grade engine
- Oil alert
- Digital Automatic Voltage Regulator (DAVR)
- AC circuit breaker/protectors and 120/240V operation
- Recoil start
- Runs 15 hrs. on 1/2 load
- Delivers the best of both worlds: reliability and cost savings
- Dimensions: 26.8"x22.8"x22.5"
- Weight: 155 lbs.
- 3-year warranty

HONDA GENERATORS

- Heavy-duty frame protects generator from damage
- Larger 6.6 gallon fuel tank for longer run times
- Multiple front panel outlets for easy power connections
- Wide handles for easy transport
- Honda GX Industrial Commercial engine for easy starting, reliability, and Oil Alert®
- Oversized muffler for quieter operation
- Four step fuel filtering provides consistent fuel to prevent carburetor plugging
- AVR provides consistent, stable power output, superior to brushless generators
- Auto Choke for easier starting in varying conditions

CORD REEL LIGHT

Cord Reel Lights are reverse-wired live cord reels, which allows a plug on the cord to be plugged into a power source while the Cord Reel Light is carried to the fire ground or work site. The Cord Reel Light allows the scene to be illuminated while providing a receptacle for additional tools or lights. Akron Brass Cord Reel Lights come in 10’ cord reels with either 500 or 750 watt low profile Beta Light heads.

- Heavy-duty construction
- Powder coated
- Live slip ring design
- Adjustable tension nut
- 6’ direct wire pigtail (10/3 Black)
- Meets NFPA requirements

- Easy maintenance
- 2-year warranty
- Weight: 266 lbs.
- Run-Time: 14 hrs @ 50% load
FEDERAL SIGNAL 100 WATT SPEAKER
The 100 watt speaker uses advanced housing material and field replaceable neodymium drivers to provide effective, high-quality sound at an affordable price. The speaker only weighs 6 lbs. and measures 7.7"Wx5.7"Hx4.7"D. The speaker is easily rotated allowing for either vertical, or horizontal mount orientation, and the P.E.T. (polyethylene terephthalate) housing material is exceptionally strong, while resistant to heat, moisture and will not corrode as most metallic materials do. **Ship wt. 6 lbs.**

PA 300 ELECTRONIC SIREN
**PLUG IN PC BOARD - INCLUDES AIRHORN SOUND**
The W691 provides all basic siren tones; TAP II, PA, radio rebroadcast, as well as a built-in airhorn sound with siren override. It is protected against all failure modes by a fuse that is replaceable without tools and can operate from any 12-volt positive or negative ground vehicle electrical system. Taps are included for 100 or 200-watt speakers. Comes complete with a swinging bracket which enables mounting in a variety of positions. **Ship wt. 6 lbs.**

TRUCK MOUNT SPEAKER
Rectangular speaker is perfect for truck mounting. Made to take the heavy and extended use of today’s vehicle applications. Has black baked enamel finish on the driver and rectangular bell is black plastic. **Ship wt. 10 lbs.**

FEDERAL Q ELECTROMECHANICAL SIREN
**BEAUTIFUL, STREAMLINED, CHROME PLATED, COMMANDS RESPECT**
This siren includes grille, brake, and chrome finish. It is designed to be pedestal mounted but is also offered less the rear housing for flush mounting. Heavy-duty coaster clutch is subject to very little wear. The unique clutch design delivers a longer coast-down sound once power is removed, thereby reducing battery drain. For quick silencing, an electric brake is also a standard feature. 12-volt, operating current 100 amps. The AC895 model comes complete with stainless steel finish, grille, brake, pedestal and rear housing. Model AC896 is for flush mounting and does not include pedestal or rear housing. 123 dB at 10 feet **Ship wt. 49 lbs.**
# Darley Pump System
Darley LDMBC CAFS 1500 GPM single stage pump system.

# PolyBilt® Body
Rugged, impact-resistant, corrosion-free, polymer construction with integral tanks and limited lifetime warranties.

# Side Control Panels
Unique ergonomically friendly controls. Standard or unique curbside panels available.

# Top Control Panels
Unique Total Vision panel with patented wraparound colored design.

## Quality & Service
You can expect an unmatched level of quality and service from our entire line of vehicles.

## Our Team
The Darley Apparatus sales team consists of knowledgeable experts with a relentless focus on customer service. We’ve built a passionate team second to none.

## Ez Spec Program
Darley offers a uniquely simple program to determine which apparatus will work best for you. View our full EZ Spec Program on www.darley.com/apparatus.

## Choice of Chassis
Select either a Custom Chassis or Commercial Chassis with multiple seating options. There dozens of options, including 4 Wheel Drive and Severe Duty Service. Darley offers full size pumpers, rescues, aerial devices, and compact Quick Attack units built to your specifications!

## PolyBilt® Bodies
Choose from a variety of tough and rugged PolyBilt® bodies custom made from durable, impact-resistant CoPolymer material. Featuring patented integrated compartmentation so tough, PolyBilt® bodies are virtually indestructible.

## Apparatus Demos

WILDLAND ATTACK/STRUCTURAL PROTECTION

"WASP" QUICK ATTACK

DARLEY’S NEW WILDLAND ATTACK/STRUCTURAL PROTECTION (WASP) QUICK ATTACK PUMPER IS ENGINEERED TO GET TO THE FIRE QUICKLY AND INTO PLACES THAT A FULL SIZE PUMPER JUST CAN’T ACCESS. THIS UNIT FEATURES ALL-WHEEL DRIVE, AN OVERALL HEIGHT UNDER 8’ TALL, AND AN OPTIONAL CURBSIDE PUMP PANEL THAT ADDS INCREASED SAFETY FOR THE PUMP OPERATOR DURING HIGHWAY RESPONSE. ONCE ON SCENE, DARLEY’S VERY EASY-TO-OPERATE AUTOCAFS™ COMPRRESSED AIR FOAM SYSTEM REALLY PACKS A PUNCH.

FIRE PUMP

- Darley model PSMC with a UL rating of 1500 gpm at 150 psi
- 3 CAFS discharges above pump panel: 2 - 1½” and 1 - 2½” (Option for deck gun, hose reel, hosebed discharge, or front discharge)
- Maintenance free reliable mechanical seal
- All stainless steel plumbing package
- Gear driven 120 cfm rotary screw air compressor for the AutoCAFS™ pumping system with a FoamPro 2001 foam proportioner

POLYBILT® BODY

- PolyBilt® Integral Series Pump-Rescue
- 300/30 gallon integral tanks
- Limited lifetime warranty

COMPARTMENT

- Compartments 1 & 4: 12.81 cu. ft. ea
- Compartments 2 & 5: 23.46 cu. ft. ea
- Compartments 3 & 6: 26.35 cu. ft. ea
- Compartment 7: 22.57 cu. ft.
- Total Compartmentation: 147.8 cu. ft.
CONTACT DARLEY FOR A DEMO!

CHOICE OF CHASSIS

- Ford F550 XLT all aluminum crew cab
- 4 door 4x4 chassis (203" wheelbase, 84" CA)
- 6.7 L diesel engine rated at 330 hp
- Automatic transmission with all-wheel drive
- Seating for four with optional SCBA seating (Officer and both rear seats)
- Polished aluminum wheels
- Kussmaul battery conditioner with AutoEject™
- Customized factory Ford center console

FEATURES

- Compliant with applicable NFPA standards
- Curbside and operator’s side control panel available
- LED emergency and scene lighting
- Includes a 2½” Darley AutoFill™ - keeps the water tank between ½ and “FULL” automatically
- Options for receiver winches, SCBA storage, equipment mounting
- Lifetime warranties available on Pump, Tank & Body!

POLYBILT® TRUCK BODIES
TOUGH AND RUGGED BODIES - BUILT FOR LIFE

POLYBILT® TRUCK BODIES FEATURE PATENTED, INTEGRATED
COMPARTMENTATION THAT ARE SO TOUGH, THEY ARE VIRTUALLY
BULLETPROOF. FROM INITIAL ATTACK TO HEAVY DUTY CUSTOMS – WE
OFFER COMPLETE BODY SOLUTIONS TO MEET YOUR NEEDS. POLYBILT®
TRUCK BODIES ARE BUILT AND BACKED BY THE BEST, WITH OVER 100
YEARS OF COMBINED FIRE INDUSTRY SUPPORT. CONTACT US TODAY AT
1.800.864.3817 OR LEARN MORE AT WWW.POLYBILT.COM.

SELECTION

• CUSTOM OR STANDARD DESIGNS
• BUILT FOR OEMS, DISTRIBUTORS,
  SERVICE CENTERS AND FIRE
  DEPARTMENTS
• CHOICE OF FINISHED OR
  UNFINISHED CONSTRUCTION
• DESIGNED TO FIT ANY STYLE
  EMERGENCY VEHICLE AND/OR
  FIRE VEHICLE

BENEFITS

• CORROSION FREE
• TOUGH, DURABLE COPOLYMER
• LIMITED LIFETIME WARRANTY
• LIGHTWEIGHT
• RECYCLABLE
• SAFETY: LOW CENTER OF
  GRAVITY FOR IMPROVED
  STABILITY

MULTIPLE APPLICATIONS

• PUMPERS
• FIRE/EMERGENCY RESCUE
  RESPONSE
• QUICK ATTACK
• DISASTER RESPONSE
• WILDLAND
• TANKERS
• SERVICE BODIES

BUILT BULL TOUGH IN PARTNERSHIP WITH
There is more to a successful drone program than just purchasing equipment. Our experienced team will help guide your agency through the different regulatory requirements, training, equipment selection, and policy review.

**EQUIPMENT**

Working with industry leading manufacturers, we have solutions to fit all needs and budgets. Equipment listed in this brochure is a small sample of what we offer. If you are unsure on the different equipment available, please reach out to us to learn about the differences in the different systems.

**TRAINING**

We understand that utilizing new technology can be daunting. Thankfully, our network of trainers have been working with public safety to develop the most practical training methods. Training can be customized and includes, but is not limited to the following:

- Part 107 course
- Basic public safety training
- Advanced public safety training
- **Specialty Training:** Scene reconstruction, 5-Day integration into law enforcement, UAS in crisis negotiations, UAS in search & rescue
- Additional customer requests

**SUPPORT AND OPERATING PROCEDURES**

Having a network of departments using and learning these new technologies helps create the framework needed to start your own Standard Operating Procedures without the need to reinvent the wheel. We will assist with outlines your SOPs and continue to support your program beyond just equipment selection.

**REGULATIONS AND FAA REQUIREMENTS**

Want to learn how your department can obtain a Certificate of Authorization from the FAA? Darley is pleased to recommend Skyfire Consulting to help with your department’s legal services. These services include, but are not limited to:

- Certificate of Authorization (COA) Processing - Blanket & Jurisdictional
- Certificate of Authorization (COA) Renewals
- Safety case preparation
- Waiver processing
- One-on-one consulting
MATRICE 300 RTK

The M300 sets a new standard for the Public Safety Drone Industry. Offering up to 55 minutes of flight time, advanced AI capabilities, 6 Directional Sensing & Positioning, and more, the M300 RTK sets a whole new standard by combining intelligence with high-performance and unrivaled reliability. The aircraft is IP45 rated and can operate in temperatures from -20 degrees to 50 degrees Celsius. The new M300 also has a new health management system to give agencies peace of mind that their aircraft is in tip-top shape.

IMPROVED TRANSMISSION SYSTEM
The all-new OcuSync Enterprise enables transmission up to 15 km away and supports triple-channel1 1080p video. Real-time auto-switching between 2.4 GHz and 5.8 GHz4 enables more reliable flight near high-interference environments, while AES-256 encryption offers secure data transmission.

MULTIPLE PAYLOAD CONFIGURATIONS
Configure your M300 RTK to fit your mission needs. Mount up to 3 payloads simultaneously, with a maximum payload capacity of 2.7 kg. In addition to the new H20 and H20T, the DJI Z30 and XT2 are both compatible with the M300.

A POWERFUL VISION SYSTEM YOU CAN RELY ON
To enhance in-flight safety and aircraft stability, dual-vision and TOF sensors appear on all six sides of the aircraft, offering a maximum detection range of up to 40m, with options to customize the aircraft’s sensing behavior via the DJI Pilot App. Even in complex operating environments, this 6 Directional Sensing and Positioning system helps keep the aircraft and the mission safe.

CUSTOMIZE YOUR MATRICE WITH OPTIONAL PAYLOADS

ZENMUSE XT2
The Zenmuse XT2 is DJI’s most powerful camera to date. It incorporates FLIR’s industry leading thermal technology with 4K high-definition, creating the most advanced aerial camera on the market. The XT2 quickly transforms aerial data into powerful insights that save time, money - and lives.

ZENMUSE Z30
The Zenmuse Z30 is the most powerful integrated aerial zoom camera on the market with 30x optical and 6x digital zoom for a total magnification up to 180x.

ZENMUSE H20/H20T
The new H20 series from DJI is a state-of-the-art multi-sensor payload. The unique intelligence and integrated design provide unprecedented aerial imaging capabilities for a range of public safety drone applications. Capture everything up close or from a distance, in true living color or thermal. An integrated laser rangefinder (LRF) measures the distance to an object at up to 1200 m away. A powerful, integrated payload that unleashes advanced intelligent capabilities for DJI’s industrial drone platforms.
MAVIC 2 ENTERPRISE

The modular design of the Mavic 2 Enterprise makes it a perfect choice for your department. With a powerful and portable thermal imaging camera your drone can go everywhere you go. Added data security features, ADS-B receiver, and obstacle avoidance can give you more piece of mind while flying.

LEAD WITHOUT LIMITS. WORK BEYOND YOUR BOUNDARIES.

Unlock the possibilities of flight with an extended port that allows you to connect additional devices onto the drone, helping you perform at your best in a variety of daily and critical missions.

EASY TO USE THERMAL CAPABILITIES

**MAVIC 2 ENTERPRISE DUAL**

**VISIBLE AND THERMAL IMAGERY**
- Integrated Radiometric FLIR Thermal Sensor
- Adjustable Parameters for Emissivity & Reflective Surfaces
- Multiple Display Modes: FLIR MSX®, Infrared & Visible

**MAVIC 2 ENTERPRISE ZOOM**

**POWERFUL ZOOM CAPABILITY**
- 12 MP 1/2.3” CMOS Sensor
- Dynamic Zoom: 2x Optical 3x Digital Zoom Capability
- Post Analysis Metadata: GPS Timestamping

A REVOLUTIONARY PLATFORM FOR EVERYDAY WORKERS

Designed to empower a new generation of workers, the Mavic 2 Enterprise is the ultimate expression of a tool that delivers beyond expectation to meet current workplace challenges and future demands.

FOLDABLE. COMPACT. PORTABLE.

At 905 g the Mavic 2 Enterprise is rapidly foldable and swiftly slides in the side of your belt package, giving you instant power that’s easily accessible and transportable – wherever you operate.

**FEATURES**

**MAVIC 2 ENTERPRISE DUAL**
- Max Flight Time: 31 mins.
- Standard zoom camera for both zoom and dual
- Thermal camera included with dual
- Standard spotlight
- Standard beacon
- Standard speaker
- Standard obstacle avoidance system

**MAVIC 2 ENTERPRISE ZOOM**
- Operating Temperature: 14° - 104°F
- Hot Swap speaker, beacon, and spotlight options
- 24 GB internal storage
- 2x digital 2x optical zoom

**THERMAL CAMERA SPECS**
- Sensor: Uncooled VOx Microbolometer
- Lens: HFOV: 57°
- Aperture: f/1.1
- Resolution: 160×120
- Pixel Pitch: 12 μm
- Spectral Band: 8-14 μm
- Image Size: 640×480 (4:3), 640×360 (16:9)
- Still Photography Modes: Single shot, burst shooting (3/5/7 frames)
- Video Recording Modes: 640×360 @ 8.7fps

**CALL FOR PRICING!**
The only 8K folding drone on the planet. Capture content at resolutions up to a massive 8000x6000. EVO II comes standard with a 7100mAh rechargeable battery and uses our patented Battlock system to guard against battery ejection in high-speed maneuvers or hard landings. Control your drone up to 9km away, keeping you connected in crowded urban environments and thick forests.

**FEATURES:**
- 12 optical sensors and 2 sonar sensors creating 360° protection
- Detect hazards up to 30m away and control the speed to avoid collision
- Pro Model has a 1" sensor with 6K
- Dual model has thermal resolution of up to 640x512 by FLIR and an 8K sensor

**INCLUDES:**
- Batteries
- Prop guards
- Charging hub
- Car charger
- Spare remote
- GPC case
- Live deck

**AIRCRAFT SPECS**
- **Takeoff Weight:** 1127g-1192g
- **Wheelbase:** 397mm
- **Max Speed:** Standard: 15m/s // Ludicrous: 20m/s
- **Max Service Ceiling:** 7000m
- **Max Flight Time:** Hover: 35min // Moving: 40min
- **Transmission Type:** FCC: 2.4GHz ALink
- **Max Transmission Distance:** 9km
- **Storage:** Internal: 8GB Max SD: 128GB
- **Battery Type:** LiPo 3s
- **Battery Size:** 7100mAh
- **Controller Screen:** 3.3in OLED 330 Nits
- **Controller Battery:** 5000mAh
EMILY BY HYDRONALIX

The EMILY platforms are designed as an asset for public safety and homeland security. It offers scene stability in dangerous and hazardous waters by helping the victim and keeping the rescuer on the shore. The EMILY technology complements public safety teams and homeland security personnel by adding valuable, timely resources without adding additional personnel. The key element to this technology is the fact that it keeps the rescuers out of the hazard zone until the scene is stabilized and the victim(s) can be rescued. The fact that this is a battery powered jet boat that is operated and controlled remotely through line of sight technology, the EMILY systems have the ability to penetrate areas/zones that normal watercraft could not access.

FEATURES:
- Weight: 26 lbs.
- Length: 50 in.
- Positive buoyancy: 150 lbs.
- Self-righting
- Perimeter grab rope: 8 ft.
- Waterproof internal modular components
- D-Ring tow line attachments
- Jet pump drive made of aerospace composites and ceramic bearings

EMILY KIT
INCLUDES:
- 2 additional steering arm boot seals
- Electrical anti-corrosion solution
- 3 additional inlet grates
- Flags 3-pack
- Tool kit
- Lanyard 3-pack
- Canvas carry bag
- Additional impeller

EMILY KIT
INCLUDES:
- Float cover
- Battery charger 2-pack
- Battery module
- Flag
- Boat stand
- Lanyard 2-pack
- Futaba transmitter
- User manual
- 2.4 GHz transmitter controller with amplifier

EMILY BY HYDRONALIX
EMERGENCY INTEGRATED LIFESAVING LANYARD

EMILY KIT
INCLUDES:
- MOBE Cover
- 2 additional steering arm boot seals
- Additional inlet grate
- Additional impeller
- Flags 3-pack
- Headlight
- 2000 ft. reel
- Reflective strips
- Navigation lights (Port red light, Starboard green light)

EMILY KIT
INCLUDES:
- SWRE Float Cover
- Life Jacket
- Helmet
- Headlight

MAN OVERBOARD EMILY KIT
INCLUDES:
- Rescue Reel
- LOUVICELLI@DARLEY.COM FOR PRICING
DARLEY FIRE AXES

Your choice of handles. Fiberglass handle fire axes are stronger than steel, lighter than aluminum and as flexible as hickory. Fiberglass handles won’t splinter and will not conduct electricity. The Pick-Point Crucible Steel Axe Head is epoxy-bonded to a cushion grip fiberglass handle.

DARLEY AXES, 6 LBS.

THE BIEL TOOL

The new Biel Tool is now one piece made out of heat treated, electro-polished stainless steel with an extremely durable ergonomically rubber molded handle. The new Biel Tool incorporates many of the features found in the world famous Pry Axe®, but is much smaller and light enough to wear on a belt or carry in the pocket of a bunker coat. This is a perfect personal size multi-purpose forcible entry and rescue tool; designed for forcing door and windows, prying and twisting hasps and locks, light overhauling, nail removal, gas shutoff, metal cutting and chopping. **Ship. wt. 4 lbs.**

MULTI-PURPOSE PRY AXE®

The Pry Axe® has been the best-selling tool for over 40 years and is used by departments worldwide. It’s a lightweight, multi-purpose, slam and ram tool designed to pry, twist, chop, cut metal, twist off locks or latches and much more. This efficient tool allows forcible entry by a single person when time is critical. Pry Axe® heads are forged from alloy steel and heat-treated for maximum strength. The claws are stainless steel investment castings that are heat-treated and electro-polished. Solid steel shaft extends the axe to 25” and rubber sleeve provides a sure grip. **Ship. wt. 8 lbs.**

FORCIBLE ENTRY TOOL
The design of this tool stays true to the original halligan with the correct widths, lengths, and angles that firefighters worldwide have come to expect. Cast from high strength steel and heat treated to ensure durability; this tool is tough. However, just in case the unexpected happens it carries our industry leading lifetime warranty. The entire tool is coated in a textured silver powder coat that provides superior grip and control.

- Textured silver powder coat
- Superior grip
- Lifetime warranty

HOOLIGAN TOOL
These heavy-duty tools were designed to pound, puncture, pry, twist, and cut most obstacles you may encounter. Features your choice of standard or metal cutting claw, machine-grooved non-slip grips. Duckbill has long, smooth incline to force windows and interiors doors. Pike is long, sharp, tapered and gently curved to fit a lock or latch. Electroless Nickel finish. Ship. wt. 13 lbs.

- 100% manufactured in the U.S.A. with American materials and craftsmanship
- Perfect for ventilation, forcible entry or overhaul
- Available in 24”, 30”, and 36” lengths
- All forged design to last a lifetime
- Drop forged with high carbon steel, fully heat treated and zinc plated

H.K. PORTER HEAVY-DUTY INDUSTRIAL

Extra-heavy jaw bolts and straps make these the most rugged around. Center cut, round edge cutters up to Brinell 455, Rockwell C48 hardness. Have nose straps for longer jaw life. Ship wt. 18 lbs.

- Heavy-duty
- Extended nose straps
- Extra heavy jaw bolts

T988  36” Heavy Duty Bolt Cutter $267.95
T987  36” Industrial Grade Bolt Cutter $186.95
J874  36” Industrial Grade Bolt Cutter
      with Fiberglass Handles $246.95
H962  42” Chain & Padlock Cutters $313.95

STANLEY® FUBAR® FORCIBLE ENTRY TOOLS

Introducing Stanley® FuBar® Forcible Entry Tools. At up to 30” in length and 9 lbs. in weight, these extreme tools provide outstanding leverage and excellent grips for more destructive demolition work.

- 8-in-1 tool
- Demolition head
- Gas shut-off feature
- Spanner wrench
- Pry bar for ripping
- Board jaw sized for grabbing lumber
- 2nd tier board jaw fits square hydrant nuts
- Hydrant wrench
- Beveled nail slot
- One-piece forged steel
- Flame-resistant grips
- Carabiner holes
- Heat-treated and tempered striking face
- Hi-visibility 3M™ Scotchlite™

BG519  18” Stanley® FuBar® Forcible Entry Tool $87.95
BG520  30” Stanley® FuBar® Forcible Entry Tool $154.95
LEATHERHEAD PIKE POLES

PRO-LITE (ROUND HOLLOW) & DOG-BONE (I-BEAM)

- Pro-Lite pike poles are constructed with hollow pultruded fiberglass
- Heavy duty light weight construction
- Choice of yellow or Hi-Viz lime color with reflective striping for locating in dark areas
- D-handle and heads are bonded to the fiberglass with strong two-part epoxy, Pro-Lite also features steel pins
- Hooks are fabricated in USA with American steel

RESCUE TOOLS
1.800.323.0244 | EDARLEY.COM/RESCUETOOLS

• Hood release tool
• Quik-Kut glass removal tool
• Pyroshield rescue blanket
• Glass hammer
• MV plug pattie
• Battery cable cutter
• Pro hacksaw

**BA125** MV Fire/Rescue Crash Kit (Red) $718.95

**L470** “V” Blade Rescue Knife $56.95
**L470X** Replacement Blade $18.95

**THE GLAS-MASTER**

REMOVES GLASS IN LESS THAN A MINUTE

The Glas-Master is truly an extraordinary tool that is manually operated; no electricity or hydraulics needed. No other tool cuts glass windshields faster and more effectively, helping reduce rescue time significantly. Cuts on pull stroke thereby pulling glass to the outside, away from the victim. It can also be used on fiberglass, wood, plaster or even underwater rescue. What’s more, the Glas-Master has its own storage of the spring-loaded center punch so it won’t get lost or misplaced when it is needed most. *Ship. wt. 4 lbs.*

**AB885** Glas-Master $180.95
**AB885A** Glas-Master Replacement Blade $26.95

**COMPLETE CRASH AND RESCUE TOOL KIT**

All-purpose set of tools for use in crash and fire emergencies. Contains everything needed to quickly and efficiently cut through metal, webbing, wood, rope, and other obstructions. *Ship. wt. 15 lbs.*

• Metal cutting saw - 16" blade
• Aircraft cable cutter - cuts 1/8" to 1/4" capacity and 14" long
• Lineman’s Pliers - 8" long/extra strong
• Hack saw frame - adjusts from 8" to 12", faces 4 ways, and adjusts 90° for vertical or horizontal cuts
• 3 - Hack saw blades - hard toothed, silver steel for fast cutting
• Grappling hook & rope - 52" sling
• 2 - Phillips head screwdrivers - 6" and 8"
• 2 - Slotted head screwdrivers - 6" and 8"
• 3 - Wooden plugs - plug fuel and control lines
• Vise grip wrench - 10" long
• Serrated edge hand axe - 15" long with handle insulated for 20,000v
• Safety V blade rescue knife
• Weather-resistant, mildew-resistant, rubber-coated nylon hi-vis yellow carrying case
• Complete kit folds into an easy-to-carry case

**L471** Complete Crash and Rescue Tool Kit $472.95

**“V” BLADE RESCUE KNIFE**

Cuts through seat belts. Precision made of high-strength aluminum alloy. Tip fitted with Dzus Key for opening aircraft panels. The blade will cut 10,000 lb. strength webbing with one stroke. *Ship. wt. 3 lbs.*

**AB885** Glas-Master $180.95
**AB885A** Glas-Master Replacement Blade $26.95

**HAND TOOL RESCUE KIT**

The Hand Tool Rescue Kit you have always wanted to put together but never did. Now you can pound, cut, pry, saw, seal, loosen, tighten and dig with an assortment of top-quality industrial-grade hand tools built to deliver years of dependable service. Kit features Snap-On “ergonomic” tools specially designed to reduce or end work-related injuries. The kit also includes a heavy-duty seat belt cutter, cable cutter with insulated handles for working on live voltages up to 1,000 volts, military spec tri-fold shovel and more. All tools carried in a black plastic case. *Ship. wt. 40 lbs.*

**AR178** Hand Tool Rescue Kit $1,124.95
A. LONG HANDLE FIREFIGHTING SHOVEL
- Forged steel head
- Solid shank blade
- Rear turned steps
- 44" wood handle
- Ship. wt. 7 lbs.

AJ462 | Long Handle Firefighting Shovel | $65.95

B. COLLAPSIBLE RESCUE SHOVEL
The Collapsible Rescue Shovel has been the tool of choice for many first responders. Its compact, lightweight design makes it easily transportable, yet rugged enough to get the job done under extreme conditions. The blade is engineered to be used as a shovel, axe, saw, hoe or piercing tool. Ship. wt. 3 lbs.

USEs:
- Shovel
- Axe
- Saw
- Hoe
- Piercing tool

AK010 | Collapsible Rescue Shovel | $24.95

C. FIREFIGHTING SHOVELS
Round point shovels are hollow back with 8½" x 12" blade. Square point shovels are also hollow back with 9½" x 11½" blades and rolled step. The fiberglass handles provide unsurpassed life, comfort and safety. Heat treated and tempered blades resist wear and breakage. Ship. wt. 5 lbs.

AZ378 | Round Point 48" Handle Shovel | $54.95
AZ379 | Round Point 27" D-Handle Shovel | $37.95
AZ380 | Square Point 48" Handle Shovel | $54.95
AZ381 | Square Point 27" D-Handle Shovel | $37.95

D. ALUMINUM SCOOP SHOVEL
The large, heavy-duty square blade is heat treated and tempered to resist wear and breakage. Ideal for getting rid of fire debris, scooping gravel and other course materials. Shovel blade measures 15¼" x 19¼" with 27" handle. Ship. wt. 5 lbs.

AB045 | Aluminum Scoop Shovel | $70.95
DARLEY RAM JAMMERS
FOR VEHICLE EXTRICATION

When doing a dash roll-up, place the Ram Jammers against the B-posts on each side of the vehicle. Then, instead of only getting one push with the medium hydraulic rams, Ram Jammers give you a secure base to make a second and then a third push for the “Maximum Dash Roll-Up.” This will give you a large amount of room in the front of the patient, making it easier to apply spinal immobilization devices. They also absorb the force of the rams to prevent fractures at the B-post. Ship. wt. 45 lbs.

COMPLETE KIT INCLUDES:
- A. Darley Ram Jammers
- B. Cordura® carrying bag
- C. Mallet
- D. Carrying sling

HYDRA-RAM HYDRAULIC EMERGENCY ENTRY TOOL

10,000 pounds of force is presented by 138 lbs. of pumping to acquire 3/4” stroke to a maximum thrust opening of 4 inches. The Hydra-Ram can be placed in any position, even upside down, without any effect on its operation; this is a first in hydraulics. Because of its unique size, 13” and only 12 lbs., it can be slung or carried on your belt. The entire unit can be controlled by one user alone, making it truly a one-person operation tool. No hoses, tanks or pumps so there is no maintenance or leaking fluid. Jaws are made of stainless steel with 220,000 psi tensile strength. Special finger grips give a non-slip holding surface. Ship. wt. 15 lbs.

INcludes:
- A. HYDRA-RAM tool
- B. Cordura® carrying bag
- C. Mallet
- D. Carrying sling

PERCUSSIVE RESCUE KIT

You’ll feel the difference as soon as you hold it. This slam and ram tool exerts a striking force as you’ve never seen. You’ll hear the solid “thud” as the slam bar strikes one of the six assorted tool bits. The ram travels up to 13.6” for maximum impact. Whether you’re breaking a brick/block wall or pounding through locks and latches, this tool makes you more efficient. With the slam and ram feature, there is no deflection of pounding force. All of the energy is used to strike effective, penetrating blows by a single person. When hydraulic, electric and pneumatic power is gone or unavailable, you’ll still be punching and pounding with this rescue tool.

COMPLETE KIT INCLUDES:
- Percussive tool bar
- Lockbreaker claw
- Metal cutting claw
- Bull point
- Chisel
- Wide chisel
- Carrying bag

Cat# Description Weight Price
AC614 Complete Rescue Tool Kit 29 lbs. $1,079.95
AC621 Percussive Rescue Tool Only 14.2 lbs. $650.95
RESCUE SAW, KITS, BLADES & ACCESSORIES

AM083 Contains: Partner/Husqvarna K-12 FD 94cc 14” fire rescue saw, full size steel case or aluminum space saver case, fire-department carbide tipped blade, 2 combination steel/concrete rescue abrasive wheels, safety gas can, hearing protector, goggles, spare belt and air filter, air filter oil, 2-cycle engine oil, can of gasoline stabilizer, combination screwdriver/wrench and instruction manual.

AR179 Contains: Modified 94cc Partner/Husqvarna K760 94cc active 2 cycle gas engine. Fire Department modifications include: constant on “READY START” ignition switch, large “D” Handle starter grip, lightweight magnesium guard with welded “D” ring for attaching saw sling and saw carrying sling.

AW198 Contains: Partner/Husqvarna K-12 FD 94cc 14” saw, diamond plate aluminum case, Maxi blade, four rescue abrasive wheels for cutting both steel and concrete, safety gas can, hearing protector, goggles, spare belt and air filter, air filter oil, 2-cycle engine oil, can of gasoline stabilizer, combination screwdriver/wrench and instruction manual.

FEATURES:
- 94cc 2-cycle gas engine
- Lightweight - 22.7 lbs.
- Lightweight magnesium guard
- Large “D” handle starter
- Carrying sling
- Reflective lettering

KIT INCLUDES:
- Partner/Husqvarna K-12 FD 94cc 14” saw
- Steel case
- Carbide tipped blade
- 2-Rescue abrasive wheels
- Safety gas can
- Hearing protector
- Goggles
- Spare belt and air filter
- Air filter oil and engine oil
- Gasoline stabilizer
- Combo screwdriver/wrench
- Instruction manual

TEAM/HUSQVARNA K-12 FD 74CC RESCUE SAW
Contains: K-12 FD 74cc 12” fire rescue saw. Modified 74CC Partner/Husqvarna K760 Active 2 cycle gas engine. Fire Department modifications include: constant on “READY START” ignition switch, large D Handle starter grip, lightweight magnesium guard with welded “D” ring for attaching saw sling and saw carrying sling.

FEATURES:
- Air-cooled 2-stroke engine
- Active Air Filtration™
- X-Torq®
- SmartCarb™
- DuraStarter™
- EasyStart™
- Reversible cutting arm
- Easy-adjust blade guard
- Wet Kit
- Replaceable arbor bushing

BL100 Team/HUSQVARNA K-12 FD 74 Rescue Saw
BL101 Optional Sling Assembly
BG238 12” Piraya Blade

BE278 14” Lightning Diamond Blade - Use/Metal and Masonry
The TEAM Husqvarna K12FD9 is a lightweight battery power cutter with low vibrations and user-friendly ergonomics. The excellent power-to-weight ratio makes it versatile for lighter cutting needs. The saws brushless motor produces zero emissions, makes minimal noise and has a built-in wet cutting kit to control dust. The K12FD9 weighs 7.7 lbs. and perfect for quick and efficient cuts in confined spaces. Paired with a 9” Piraya Diamond Blade you’ll make fast and efficient single pass cuts and scores in steel, rebar and concrete up to 3 in. deep. The K12FD9 uses the Husqvarna BLi200/300 batteries.

**Features:**
- Brushless motor
- 36V, 1.6hp output
- 5.2Ah/187Watt battery
- 3” cutting depth
- Wet or dry cutting
- Integrated eyelet for carrying
- Electric retarder
- Reflective letters
- 9” blades.

**BP173** Team Husqvarna K12FD9 Saw Bundle with Charger & Two BLi200 Batteries $1,404.95
**BP302** BLi-300 Battery $304.95
**BP303** Team Husqvarna K12FD9 Saw Bundle with Charger & Two BLi300 Batteries $1,508.95

**SHARK II VENTILATION SAW**

BESTSELLING ALL-AROUND PRIMARY RESCUE SAW WITH THE BEST POWER TO WEIGHT RATIO AND UNLIMITED CUTTING CAPABILITY.

Specifically designed for Fire Department use, outlasts up to 10 regular chains and stays sharp up to 25 times longer. Control cutting depth from 2” to 10” when plunge cutting. Easy, fast removal when full length of bar is needed. Keeps chain properly lubricated in diverse conditions with no oil flow at idle. Air injection filters out 98% of incoming dust prior to reaching the heavy-duty air filter for longer life and better filtration.

**Features:**
- Easy to check fuel level with transparent fuel indicator
- Easy to open and secure firmly, even with thick winter gloves
- High chain speed for optimal wood cutting performance. Operated using an intuitive push button keypad.
- Extremely easy to start and stop
- Lightweight and ergonomically balanced
- Zero emissions, 36-volt Li-Ion battery performance
- Low vibration - low noise
- Angled front handle for better grip and natural working position
- Battery-powered chainsaw
- Reflective fire department labeling
- 14” bar
- Wood cutting chain
- Bar & chain cover
- Rear eyelet
- Srench tool with holder
- Brushless motor
- Chain type - wood cutting only
- Automatic oil pump tank volume
- Sound power level - guaranteed (LWA) - 106dB(A)
- Sound power level, measured - 104 dB(A)

**BP304** SHARK II Ventilation Chainsaw With 16 Bar, Terminator Carbide Tipped Chain and Depth Adjuster Only $2,124.95
**BP305** SHARK II Ventilation Chainsaw With 20 Bar, 64 Drive Link Terminator Carbide Tipped Chain and Depth Adjuster Only $2,159.95
**BP306** SHARK II Ventilation Chainsaw With 20 Bar, 66 Drive Link Terminator Carbide Tipped Chain and Depth Adjuster Only $2,174.95
**BP297** BatShark Chainsaw, 14” Bar and Chain, Batteries & Charger not included $524.95
**BP298** BatShark Chainsaw, 14” with Charger, 1 BLi200 Battery (5ah 36v) $859.95
**BP299** BatShark Chainsaw, 14” with Charger, 1 BLi300 Battery (9.4ah 36v) $961.95
**BP300** BatShark Chainsaw, 14” with Charger, 2 BLi200 Battery (5ah 36v) $1,062.95
**BP301** BatShark Chainsaw, 14” with Charger, 2 BLi300 Battery (9.4ah 36v) $1,266.95
SUPER VC4 POWER PRO CUTOFF SAW
The SVC4 is an update to the popular SVC3. A smaller and lighter design improves mobility and the Dolmar 2 stroke engine turns the same 14" diamond blade cutting wheel at 500 more RPM. These high performance saws are designed for the fire and rescue service and proves to cut through concrete, asphalt, stone, and more with ease. The SVC4 is extremely user-friendly with EasyStart technology for reliable starts, a Touch & Stop lever for immediate shutoff, built-in scrench tool for making quick adjustments, and an upright fuel inlet allowing for easier and cleaner refueling. It has a window to check fuel levels on the fly.

SUPER VAC®
- Aluminum D-ring pull handle
- Ultimate debris removal system and filters
- Flow of exhaust against dust direction
- 2-year warranty

BG206 14" Cutoff Saw with Tiger Tooth Blade $1,890.95
BG207 14" Cutoff Saw, Full Kit, Tread Plate Box $2,523.95

PIRAYA DIAMOND BLADES
For years the fire service has requested “one blade that cuts all materials” for rescue saws. The Piraya Diamond Blade is as close to meeting this requirement as is technically possible in today’s Diamond Blade industry. The Piraya Diamond Blade is vacuum-braised using high-quality grade diamonds for fast, smooth cutting and long blade life. Fits all rescue saws using 12" and 14" diameter blades. Fits 1" or 22mm arbor with included 22mm bushing.

USES:
- Concrete
- Masonry
- Metal
- Plastic
- Wood
- Copper
- Glass block
- Windshields
- Auto parts
- Aluminum
- Stainless steel
- Corrugated roofing

BP310 9" Piraya Diamond Blade $124.95
BG238 12" Piraya Diamond Blade $203.95
BG239 14" Piraya Diamond Blade $228.95

WARTHOG™ VENTILATION BLADE
THE LAST ROOF VENTILATION BLADE YOU’LL EVER BUY
The Warthog™ blade easily and quickly cuts through roofing materials, wood flooring and siding. Heavy-duty construction helps prevent tip loss, which is the major problem with standard carbide tipped blades. The tip is mounted to the blade by a special process. This process cushions the tip mounting and makes this blade the most durable, and probably the last, ventilation saw blade you will ever buy. Ship. wt. 7 lbs.

- Doesn’t bind or clog
- Heavy-duty tips are a full ¼” wide and ⅜” tall
Blade comes standard with 1” arbor (center) hole.
AS269: 20mm to 1” spacer (Stihl and other saws with 20mm arbors)
AS268: ⅜” to 1” spacer (saws with ¼” arbors)

AJ572 Warthog™ Blade $298.95
AS268 Warthog™ Blade ⅜” to 1” Spacer $9.95
AS269 Warthog™ Blade 20mm to 1” Spacer $15.95

FIRE TIGER TOOTH BLADES
Fire Tiger Tooth and Safety Diamond Blades outlast abrasive cutting discs 100 to 1, saving valuable time replacing abrasive blades as they wear down. Fits on 4", 4½" hand-held grinders, 7" circular saws, 12"-14” gas saws, and chop saws. Includes 22mm bushing.

USES:
- Masonry
- Concrete
- Roof tile
- Dry wall
- Stainless steel
- Copper pipe
- Steel
- Plastic
- Stucco
- PVC
- Rebar
- Wood
- Tile backer board
- Corrugated roofing
- Polyethylene pipes

BE273 Fire Tiger Tooth Blade 12" 1” .125 $194.95
BE274 Fire Tiger Tooth Blade 14" 1” .125 $244.95
VENTMASTER® HEAVY-DUTY FIRE RESCUE SAW

The VentMaster® Fire Rescue Saws is ready for demanding work by Fire Fighters. At just 14 1/2 lbs., the 572HD has a better power-to-weight ratio and 12% higher cutting capacity than the previous 576HD model. Excellent cooling and heavy duty filtration maximize reliability, while a smart design accommodates longer guide bars.

VHS ONL IN

- VentMaster® COBALT Guide Bar: Extremely hard COBALT alloy inserts at the wear points provide excellent wear, galling, and impact resistance. Retains these properties even at very high operating temperatures.
- Tool-Less KIS-40 Depth Gauge: Accurately control cutting depth, protect operator and safely speed cut. Fast, simple installation and removal, and eliminates the need to “roll the rafters.”
- Raptor Carbide Chain: Engineered specifically to withstand the rigors of fire and rescue operations. Features an “open dual raker” design to protect the carbide cutters and control the depth of cut.
- Sealed & Protected Carburetor/Air Filter: Equipped with state-of-the-art filtration system 572HD® carries a large surface heavy duty filter for longer and better filtration. The filter has a larger filtration area compared to previous generation. Providing a chainsaw with a healthier engine optimised for long working hours.
- Centrifugal Force Air Cleaning System: Cleaner intake air means longer intervals between filter cleanings, longer runs at full power, and reduced internal engine wear.

VENTMASTER® HEAVY-DUTY FIRE RESCUE SAW

With a powerful Dolmar 6.3 HP engine that turns at 13,500 RPM, your department can rely on the Super Vac SV3 Power Pro Saw for venting and rescue operations. A handle designed for maximum versatility, this saw tackles a variety of operations with ease, including cutting through residential roofing, removing downed trees, and ripping through various building materials. With a quick-start compression release and an “always on” ignition, the SV3 is ready-to-go when you are.

- Chisel chain/depth gauge
- Airmaster filtration
- Quick Silver aluminum D-ring pull handle

UNIVENT PRO-SAW

The Univent Pro-Saw is ideal when your compartment space is limited. It has the best power to weight ratio compared to any other saw in its class. This is virtually the safest saw ever built with our exclusive spring loaded depth gauge. It also gives the operator more reach and comfort while using the saw, and eliminates cutting rafters out from under you. The Pro-Saw was designed and engineered just for the rugged demands of the fire service with features no other saw can offer.

- Large D-ring handle
- Smart start
- Full wrap handle is standard
- 71 cc (4.5 cubic inch)
- 6.5 hp
- 13,500 rpm
- 13 lbs. (without bar or chain)

High-quality Air Hammer Rescue Kits have been designed specifically for extrication and are field-proven not only for emergency extrications but for all types of emergency cutting such as: factory doors, casement windows, fire doors and many other jobs. Release the trigger and the tool stops instantly. Completely portable and compact enough to be easily carried in fire trucks and rescue vehicles. Operated off fresh air tanks, compressors, nitrogen bottles, cascade systems or air brake outlets. Use with either 2216 or 4500 psi air tanks.

**STANDARD DUTY KIT**

Complete Kit with everything necessary to hook up to an air tank and begin extrication work.

- Hammer for .401" shank tools
- Retainer
- Regulator
- 2 - Double blade panel cutter (non-turn)
- 2 - Kwik cutter (non-turn)
- 2 - 18" Kwik cutter (non-turn)
- Moil point (turn-type)
- 15 ft. ¼" hose
- 2 - Male connector (¼" NPT hose and hammer)
- Male coupler (¼" NPT regulator)
- Female coupler (¼" NPT hose)
- Gauge guard
- 20" steel kit box
- Kit box liner
- 4 oz. oil
- Trim removal tool

**HEAVY-DUTY KIT**

Features Heavy-Duty Hammer with longer piston stroke for more powerful cutting action. Includes non-turn and turn-type chisels.

- Hammer for .401" shank tools
- Retainer
- Regulator
- 2 - Double blade panel cutter (non-turn)
- 2 - Kwik cutter (non-turn)
- 2 - 18" Kwik cutter (non-turn)
- 2 - Panel cutter (turn-type)
- 2 - Kwik cutter (turn-type)
- 2 - 18" Kwik cutter (turn-type)
- Ripper chisel (turn-type)
- Moil point (turn-type)
- 15 ft. ¼" hose
- 2 - Male connector (¼" NPT hose and hammer)
- Male coupler (¼" NPT regulator)
- Female coupler (¼" NPT hose)
- Gauge guard
- 20" steel kit box
- Kit box liner
- 4 oz. oil
- Trim removal tool

**SUPER-DUTY KIT**

Features Super-Duty Hammer, our most powerful and hardest hitting hammer. Includes non-turn and turn-type chisels.

- Hammer for .498" shank tools
- Retainer
- Regulator
- 2 - Ergo chisel grip (non-turn)
- 12" moil point (non-turn)
- 2 - Double blade panel cutter (non-turn)
- 2 - Kwik cutter (non-turn)
- 2 - 8" Kwik cutter (non-turn)
- 2 - Double blade panel cutter (turn-type)
- 2 - Kwik cutter (turn-type)
- 2 - 18" Kwik cutter (turn-type)
- 15 ft. ¾" hose
- ¾" Male connector (¾" NPT hammer)
- ¾" Male connector (¾" NPT regulator)
- ¾" Female coupler (¾" NPT hose)
- Gauge guard
- 20" steel kit box
- Kit box liner
- 4 oz. oil
- Trim removal tool

**STANDARD DUTY KIT**

- S878 Standard Duty Air Hammer Kit $970.95

**HEAVY-DUTY KIT**

- AJ318 Heavy-Duty Air Hammer Kit $1,597.95

**SUPER-DUTY KIT**

- AJ472 Super-Duty Air Hammer Kit $2,394.95
**EXTRICATOR FORCIBLE ENTRY KIT**

Use it to open damaged doors in plants and factories, or raise clutch and brake pedals in auto rescue extraction by using the Spreader and Wedge combination. Come-a-longs and chains are used to pull seats, doors, steering columns, and to roll quarter panels out of the way. The straight Ram and attachments are used to lift heavy objects and push metal within the vehicle to free trapped victims. This kit will allow you to move in multiple directions at the same time. *Ship. wt. 150 lbs.*

**AIRGUN KIT**

1600-1700 high impact blows per minute, 7 pound, pneumatic impact tool. Combining ease of handling, very low air consumption and high power output. It is an ideal tool for rescue work. Vehicle crash sites, metal clad buildings, aircraft penetration, exhaust ducts and composite structural material are typical barriers often faced by rescue personnel. The Airgun, using one of several specially designed tool bits, should be your tool of choice when faced by these situations. Ideal confined space tool. *Ship. wt. 31 lbs.*

**PROFESSIONAL EXTRICATOR HYDRAULIC RESCUE KITS**

- Airgun, with inline oiler
- Pressure regulator, 5,500 - 300 psi
- ¼" diameter, 32' hose
- 10" curved metal cutter bit
- 11" bullpoint bit
- 11" chisel, ½" wide bit
- Lubricating oil, 4 oz.

- Retainer service tool
- Hex key 7/32"
- Hex key 3/16"
- Operating and instruction manual
- Plastic safety goggles
- Ballistic nylon carrying case 23”x10 1/4”x13”

**WORKING AIR® CYLINDER**

These are lightweight, sturdy cylinders, ready to use. Have an economical air supply on hand. Made of strong, high density aluminum; standup design allows more convenient vertical storage. They take the rough handling at an emergency scene without the concern for costly fiber damage to your SCBA cylinder. Best of all, they cost much less than new high-pressure breathing air cylinders. This means that your department can economically maintain a high-capacity air system without tapping SCBA resources. Note: not for breathing air. *Ship. wt. 10 lbs.*

HEAVY RESCUE OUTFIT
The PETROGEN® Heavy Rescue Outfit is designed for extensive steel cutting in a heavy rescue situation. The components were assembled with the input of firefighters and USAR members. Hundreds of fire departments and USAR teams are using the PETROGEN® system. Ship. wt. 45 lbs.

BA126 Heavy Rescue Outfit $2,364.95

DARLEY CHAIN KIT
- 6’ “J” hook
- 3’ “C” hook
- 2’ “T” hook
- 7’ Pull chain assembly
- 12’ Extension chain
- 2 - Cheater chains
- Carrying container
- Ship. wt. 50 lbs.

AZ525 Darley Chain Kit $592.95

FIREFIGHTER RESCUE CHAIN PACKAGE
For safety and maximum efficiency chains are matched with a 3 ton heavy duty chain come-a-long ensuring that the system will never be overloaded as long as all components are used together. Because of the size and weight of components in this package, it is not practical to store in a carrying container. All items should be stowed loose in a compartment for easier handling.

INCLUDES:
- Loading hook
- 3 ton chain come-a-long
- 7’ chain sling
- 10’ chain sling
- 16’ pulling chain
- "Cheater" chain
- "J" hook

BN081 Darley Deluxe Chain Kit $649.95

SURE CUT SYSTEM
The Sure Cut System will cut virtually any metal, both ferrous and non-ferrous, and is faster than conventional oxy-acetylene cutting. Our system does not require preheating or cleaning the material before cutting. It is easy-to-use and is cost effective for most applications.

FEATURES:
- No Carbon Residue: Clean cuts with no carbon to grind away
- Portable: It can be used in remote areas with the use of a 12v battery
- Easy-to-Use: All you need is an ignition source (welder, 12 or 24v battery or torch) and oxygen to operate
- Faster: Sure Cut is as much as five times faster than oxy-acetylene cutting and up to ten times faster than Carbon Arch Gouging, depending on the thickness of material to be cut

BH017 Tool Box Kit with Standard Holder and 24 Rods* $753.95
* 12 each ¼” and 12 each ⅛”x24” QC rods
PACKEXE® SMASH KIT

Packexe® SMASH is the original time-critical glass management tool. For use in extrication on all types of glass. Packexe® SMASH holds glass in place, reducing the risk of injury from glass fragments and dust.

FEATURES:
- Dispenser
- SMASH roll (12.25” x 164” perforated every 4”, fits dispenser)
- SMASH roll (12.25” x 164” un-perforated hand application)
- Film cutter
- Safety knife
- Squeegee
- Cloth
- Carrying bag

BP100 Packexe® SMASH Kit $359.95

SMASH HAND ROLL

The dispenser applies the adhesive film quickly. Perforations on the film then permit easy and exact placement on the surface. SMASH Hand application roll only (12.25” x 164” unperforated).

BP101 SMASH Hand Roll $78.95

EXTRICATION PROTECTION KIT

- For protection of rescuers and patients during extrications
- Covers posts and other jagged edges
- Durable exterior - made of 22 oz. poly coated vinyl
- Strong pliable inner material - Kovenex® Aramid material
- Washable, non-wicking

BP104 Extrication Protection Kit $470.95

MINI PULLER KIT

MINI LEVER PULLER
- 1/2 ton come along (1,000 lbs.)
- Compact, lightweight carbon steel design
- Non-slip rubber handle
- High output, short handle for tight spaces
- 5’, grade 100, nickle-plated load chain
- Free chain mechanism
- Load chain guide for smooth operation
- Both hooks have notched safety latches
- Meets ASME b30, every hoist is tested to 125% of rated capacity
- 5’ x 9/32” grade 100 adjustable anchor chain
- Labeled carrying bag

BP102 Mini Puller Kit $519.95

DOGGIE BAG

The uniquely engineered JYD Doggie Bag is designed as an economical solution for responders to conveniently carry specifically selected components to assist during the stabilization process as well as to work effortlessly with JYD Rescue Struts.

NEW
- 2 - Ratchet straps with 20’ of webbing
- 2 - Axle straps
- 2 - Open hook straps
- 2 - Cluster hooks
- C-Hook on webbing

BP103 Doggie Bag $454.95

GLASS KNIFE KIT

Engineered to fit any drill and capable of cutting laminated glass in newer model vehicles. The Glass Knife and drill work independently for use in any position. Available to purchase with or without drill set.

NEW
- Glass knife head
- Bag pry bar
- 5 - N95 dust mask
- Safety glasses
- Can of wetting agent

BP098 Glass Knife Kit $595.95
BP099 Glass Knife Kit with 12v Milwaukee Drill $715.95
CRASH BAG KITS

JYD Industries Crash Bag Kits were designed for responders to utilize as a first-in tool at a vehicle crash. With 18+ industrial quality tools carried in one bag, the Crash Bag Kit contains the basic equipment necessary to start initial stabilization and quick entry for patient assessment. Crash Bags contain a removable magnetic tool board with pockets for individual tools to magnetically attached to a vehicle with a built-in semi-removable divider to hold additional large tools. The ELITE Crash Bag Kit includes JYD’s laminated glass cutter, an essential for today’s responders.

STANDARD FEATURES:
- Channellock® 6-in-1 screwdriver
- Channellock® pliers
- Channellock® 10" adjustable wrench
- Channellock® cable cutters
- Ajax Strip & Peek pry tool
- Rescue shears
- Spring-Ring window punch
- Lenox® 12" hacksaw
- 4 - Spare Lenox® hacksaw blades
- JYD Industries seat belt cutter
- 4 - Tire valve deflator/inflators
- GlassMaster saw with center punch
- Kovenex® rapid response rescue blanket

Standard Crash Bag Kit:
25" (L) x 6" (W) x 19" (H), 13.5 lbs.

Elite Crash Bag Kit:
25" (L) x 8" (W) x 19" (H), 28 lbs.

CRASH BAG KITS

BP096 Standard Crash Bag Kit $722.95
BP097 Elite Crash Bag Kit $1,236.95

XTEND STABILIZING KITS

JYD Industries XTEND style Struts use heavy duty, top quality, stainless steel Locking Adjustment “T” Pins for quick and secure deployment and have a safe WLL of 5000 lbs. with a 2:1 Safety factor. Approach any scenario with confidence by arming your department with one of JYD’s combination Stabilizing Kits. With x2 Small XTEND Struts w/ accessories, x2 Large XTEND Struts with accessories, x2 Sidewinder Jack Kits, x2 Cleat Bases and a Milwaukee Kit, JYD’s Stabilization Kits have everything you need for conventional and unconventional stabilization needs, all in one convenient package.

ARAMID LIFTING BAGS

Matjack’s unique construction of four full layers of aramid fiber provide for a lifting bag unequalled in strength and durability. All Matjack air lifting bags are marked with a distinct white numbered, “bulls eye” for ease of centering under the load, and have a conical, interlocking surface to limit slippage and aid in stacking. All Matjacks have either carry handles or tabs molded right on for lifting of attaching to fixtures. The Matjack “state-of-the-art” deadman controller allows for independent or simultaneous operation of one or more airbags. Supply hoses are color coded to help eliminate confusion during simultaneous operation of more than one airbag.

Made in the USA.

TELESCOPING ALUMINUM SUPPORT SYSTEMS

Designed primarily for stabilizing motor vehicles involved in crashes, the TASS is a patented, 3-tiered telescoping aluminum support system. Like all Prospan products, the TASS has been designed to be simple to use and incredibly strong. Independent testing by the University of Illinois, shows the TASS to be one of the strongest vehicle stabilization products in the world.

- 3-tiered, telescoping aluminum pistons
- Knurled, easy-grab collars
- Tethered detent ball pins
- Anodized finish
- Durable design
- Simple to maintain

INCLUDES:
- Telescoping aluminum supports 26” - 48" span
- Baseplate - 10” with detent pins
- Baseplate shoring adapters
- Vehicle adapters
- V-Grip attachments
- Conical-shaped attachments
- Ratchet straps - 20” with hook cluster

BC028  Telescoping Aluminum Support Kit 26”-48”  $1,902.95
BL623  Telescoping Aluminum Support Kit 43”-102”  $2,188.95
BL624  Telescoping Aluminum Support Kit, Combined BC028 & BL623  $4,091.95

THE BEAST™

AVAILABLE AS A COMPLETE SYSTEM, OR ORDER COMPONENTS INDIVIDUALLY. COMPATIBLE WITH ANY EXISTING RESCUE TOOL.

The BEAST™ is tested and proven to handle the most demanding 5 star crash rated vehicles. Made in the USA.

FEATURES:
- Weight: 51.9 lbs.
- Dimensions: 28.0”x12.5”x8.0”
- Operating Pressure: 5,000 psi
- Compatible with any low pressure system
- Limited lifetime warranty

BD170:
- Cutter and Spreader in one tool, you can change from full size cutter to a powerful spreader in seconds by pulling three pins
- Generates 35% more cutting force than any other 5,000 psi tool in the market
- Outfitted with Champion’s patented laminated cutting blades with internal safety restraints
- Opening: 10.75” Cutter with 3.5” Power Notch; 28.0” spreader with 16.0” of parallel travel
- Accessories Include: 1 full size USAR cutting head and 1 full size spreading head for one low price

BL201:
- Type of Tool: Scissor
- Opening: 10.75” Cutter with 3.5” Power Notch
- Outfitted with Champion’s patented laminated cutting blades with internal safety restraints
- Generates 35% more cutting force than any other 5000 psi tool in the market
- Accessories Include: 1 full size USAR cutting head

BD170  The BEAST™ Multi-Tool  $5,895.95
BL201  The BEAST™ Cutter  $5,595.95
BL202  The BEAST™ Spreader  $5,595.95

BL202: Dash displacements, door removals or just skinning a vehicle quickly to expose cutting points, The BEAST™ Spreader is the tool for the job.
- Type of Tool: Spreader
- Opening: 28.0” Spread with 16.0” of parallel travel
- Accessories Include: 1 full size spreading head

TECGEN® 51 GEAR
FINALLY - A COOL, COMFORTABLE, CUTTING-EDGE ALTERNATIVE TO TURNOUT GEAR

LESS EXPOSURE TO CARCINOGENS
Wearing TECGENSE1 on those 90% of calls eliminates potential exposure to hazards such as carcinogens and other harmful particulates that can accumulate on your turnouts.

LESS CARDIOVASCULAR STRESS & FATIGUE
Breathable, lighter weight, single layer garment

SPECIFICATIONS:
- Dual-Certified: NFPA 1951 (Technical Rescue) and NFPA 1977 (Wildland FF)
- Lightweight: Engineered to protect you without weighing you down
- Comfortable: Provides enhanced mobility for confined spaces
- Repels Moisture: Helps keep you cool and dry
- Breathable: Managing the heat is easier when your clothes can breathe*
- Active posture design
- Durable: Flexible TECGEN® fiber provides increased durability over typical carbon-based fibers
  * High THL rating allows body heat to escape

STANDARD COAT FEATURES:
- 3.5" x 8" x 3" radio pocket with mic tab
- 6'/3" x 5'/2" patch pocket w/ flap closure on right chest
- 2 - 7" x 7" cargo hand pockets
- 2" 3M Scotchlite® triple trim
- Bi-wing back design for ease of movement
- Full width collar closure
- Glove interface adjustments

STANDARD PANT FEATURES:
- Comfortable and efficient BDU design 4" waist adjustment via take up straps
- Belt loops accommodate 2" belt
- 2 - 8'/1" x 8'/2" cargo pockets w/ flaps located on outside legs
- Front hand pockets
- 2 - rear pockets
- 2" 3M Scotchlite® triple trim
- Boot interface / leg take up adjustments
- 12" zippered leg openings for easy donning over boots
- Suspender loops

DELUXE GEAR HAS ALL THE SAME FEATURES AS STANDARD GEAR PLUS:
- 2" Reflective Triple Trim
- STEDSHIELD® FR reinforced elbows, knees with replaceable padded inserts and cuffs
- Pass-through pockets on pants
- Thermoplastic zipper
- Articulated knee
- Handwarmer pockets on coat

**XTRICATION® RESCUE GLOVES**

Shelby Xtrication® Rescue Gloves features reflective finger tips and a Kevlar® reinforced palm for excellent protection and durability.

**FEATURES:**
- Kevlar® reinforced palm and fingers
- Injection molded TPR padding covering back of hand and knuckles
- Cotton terry braw wipe and lining
- Reinforced rubber pull with carabineer loop
- Custom finger-back rubber guards
- Reflective finger tips
- Quick access pocket for EMT glove storage

**FIT/COMFORT:**
- Pre-curved glove with two-way stretch
- Air flow cordura back
- Soft cotton terry lining with “snuggler” and taslon debris blocker

**SPECIFY SIZE:** S-XXL

- BN618 Xtrication® Rescue Gloves $57.95

---

**HYBRID EXTRICATION HI-VIS GLOVES**

- ResQLoc Grip System
- SuperCuff technology for full range of motion
- CE Rated 4343, Level 3 cut and puncture protection
- TPR impact protection on top of hand and full length of fingers
- High visibility for increased safety

**SPECIFY SIZE:** S-XXL

- BK277 Hybrid Extrication Hi-Vis Gloves $42.95/pr.

---

**EXTRICATION RESCUE GLOVES**

**NEW**

**SPECIFY SIZE:** S-XXL

- BN617 Extrication Rescue Gloves $29.95/pr.

**FEATURES:**
- TPR impact protection on top of hand with full coverage for knuckles and fingers
- Knuckle TPR design with two detached fingers for better flexibility
- KevLoc padded palm panels and finger tips with reinforced stitching
- Secured cuff closure with hook and loop TPR pull tab closure
- High visibility colors for increased safety
- Reflective finger tips and stripe for better visibility
- Kevlar® stitching

---

**911 BARRIER EXTRICATION GLOVES**

**NEW**

- Waterproof and breathable Hipora® barrier to protect hands from micro-organisms such as TB, Hepatitis, Staph and HIV
- Molded TPR (Thermal Plastic Rubber) knuckles reduce impact and increase dexterity
- Boxed finger tip design for better fit and comfort
- Cut resistant Kevlar® palm, thumb, finger and side panels

**SPECIFY SIZE:** S-XXL

- BD141 911 Barrier Extrication Gloves $60.95/pr.
VERTEX® VENTED HELMET

- Six-point mesh liner conforms to the shape of the head for improved comfort
- Shock absorption achieved through deformation of the outer shell
- CenterFit adjustment system ensures centering and optimal stability of the helmet on the head
- Adjustable ventilation holes with sliding shutters

SPECIFY COLOR: Red, Black, Yellow or White
BK351 Vertex® Vented Helmet $112.95

USRX URBAN SEARCH & RESCUE HELMET

- Urethane impact liner
- M-Pact shell
- Sure-Lock® ratchet suspension
- Black rip-stop Nomex® ear/neck protector
- Quick-Attach™ faceshield
- Quick release 3-point chinstrap
- Edge beading
- Leather ratchet cover

SPECIFY COLOR: Red, Black, Yellow, White, Blue or Lime Yellow
BC075 USRX Urban Search & Rescue Helmet $204.95

FIRE RESCUE HARNESS™
UL CLASSIFIED TO NFPA 1983

The Fire-Rescue Harness™ remains one of the most versatile, multiple-use harnesses available. Used worldwide by fire department rescue teams, USAR teams, helicopter crews and wilderness SAR teams, this popular harness features multiple D-ring attachment points and CMC’s JackBack™ removable padding with breathable D3 cloth.

- Dorsal D-ring allows adjustment for different size users, but stays in place when loaded
- Front waist D-ring allows a stable sitting position for rappels
- Gear loops offer easy access to equipment, and quick-connect shoulder straps
- Leg loops make donning the harness quick
- Pads on the leg loops can be adjusted to the most comfortable position
- Front lift assembly accepts screw links for adding a chest ascender or safety lanyards

SPECIFY SIZE: S/M or L/XL
BP308 Fire Rescue Harness™ $437.95

ATOM™ RESCUE HARNESS
UL CLASSIFIED TO ANSI Z359.11, CSA Z259.10 AND NFPA 1983

The ATOM™ Series, CMC’s most comfortable harness line ever developed, is the culmination of stripping harness design down to the basics and re-imagining a performance-enhancing tool for rescue and rope access.

- Improved architecture molds to the user for a lightweight, low profile fit
- Ergonomic design for maximum comfort and support
- Y-back construction and bridged front lift
- Constructed with polyester webbing
- Gear loop over-braid is based on a 32-carrier polyester
- Multiple accessory attachment points provide ample space for stowing and organizing hardware and tools
- Made in the USA of domestic and foreign components
- Red webbing at the shoulders and front leg drop provide higher visibility
- Steel attachment points at the waist, chest and back
- Cobra quick-connect buckles at legs and right shoulder make donning quick and efficient
- Flexible gear loops offer a low profile gear stowage solution

SPECIFY SIZE: S, M or L
BP307 Atom™ Rescue Harness $477.95
**FCX ESCAPE SYSTEMS**

With the introduction of the FCX Descent Control Device and the FireTech2 100% Technora® escape rope, Sterling is able to offer a wide range of the most advanced personal escape systems available. The FCX systems are customizable with your choice of escape rope, anchor hook and storage bag. FCX escape systems are NFPA 1983.

**1/2˝ (12.5MM) SUPERSTATIC2™ (NYLON) AND HTP™ STATIC ROPE (POLYESTER)**

- HTP - 100% high tenacity polyester
- SuperStatic2™ - a new core and 100% nylon construction
- NFPA 1983: General

**RIT HEAT RESISTANT SEARCH ROPE**

Rapid Intervention Teams (RIT) face the most demanding and extreme conditions during search operations. Overcoming extreme heat, ground obstacles, and poor visibility are just some of the hurdles faced when searching for and rescuing trapped firefighters or civilians. Firefighter safety and survival has become an important focus and Sterling RIT Lines are an integral rescue tool in search and bailout operations.

**FCX DESCENT CONTROL DEVICE**

Sterling Rope FCX Descent Control Device uses a unique cam feature that allows smooth modulation so the user can easily control the speed of descent with one hand and a click-to-neutral feature allows for easy horizontal movement.

**TUBULAR WEBBING**

1˝ MIL SPEC webbing is a must have for rescue personnel. It can be used for building anchors, making improvised harnesses, lashing litters, and many other uses. MIL SPEC webbing is rated to 4,000 lbs.

The Prusik-minding swivel pulley (PMP) is ideal building mechanical advantage in raising systems, high anchor points, or tripod use. The rotating swivel aligns the rope with the direction of the pull. Its stainless steel sheave can be used with either rescue rope or wire cable. By combining the swivel with the pulley, overall system length is minimized, increasing travel. The patented pivoting side plate allows the rope to be quickly inserted. The PMP Swivel Pulley can be used with confidence in work-at-height maneuvers for industrial rope access or technical rope rescue.

**BN219  CMC PMP Swivel Pulley $145.95**

**CMC MPD™ ROPE RESCUE TRUCK CACHE™ KIT**

When setting up systems, this well-organized kit provides efficient access to all the rigging hardware needed to set up a main line and belay. The case can be laid on the ground or suspended from the side of a vehicle with integrated gutter hooks, yet when closed, fits easily into a vehicle cabinet or behind the seat.

**KIT INCLUDES:**
- 1 - UltraPro 4 edge protector
- 2 - FastLink anchor strap
- 2 - Bound-Loop Prusiks
- 1 - Double swivel pulley
- 5 - ProSeries screw-lock carabiners
- 2 - Anchor strap sleeve
- Truck cache
- 2 - MPD (13mm)
- 1" web - 40' (2x20')
- 1 - XL Edge pad
- 3 - Single swivel pulleys

**BL023  CMC MPD™ Rope Rescue Truck Cache™ Kit $3,333.95**

**CMC MPD™ UL CLASSIFIED TO NFPA 1983 – GENERAL USE**

The MPD™ allows you to go from lowering to raising without changing hardware. The MPD’s high-efficiency pulley, with an integral rope-grab mechanism, allows it to be used as a lowering device on the main line and belay line systems and be quickly changed over to a raising system without switching out or replacing hardware. The combination of essential features into a single device simplifies on-scene rigging, expediting the rescue.

**FEATURES:**
- Variable-friction descent control device for rescue systems and rappels
- High-efficiency pulley with integral rope-locking mechanism (ratchet) for a haul system
- Built-in becket allows cleaner rigging and more efficient pulley systems
- MPD allows main line and belay line rigging or can be used as a two-tension system
- One device functions as both a lowering brake and ratcheting pulley for raising
- Converts rapidly to a retrieval line for confined space operations
- Meets BCCTR Rescue Belay Competency Criteria
- Red model accommodates 13 mm rope (11mm blue model also available)

**FEATURES:**
- Stainless steel sheave allows use with wire cable or rescue rope
- Prusik-minding side plate opens without having to disconnect the pulley from the anchor
- Double-detent button prevents accidental opening of side plate
- Sealed ball bearings provide maximum efficiency

**BL022  CMC MPD™ 13mm $822.95**
RESCUE TOOLS

**ENFORCER**

Enforcer (with/case) is a compact aluminum load cell that measures force up to 20 kN. Utilizing two sampling modes, the Enforcer is able to monitor systems, and log drop testing in high resolution. Unique features like Bluetooth connectivity with the enForcer iOS App and swivel attachment points separate the Enforcer into a class of its own.

**NFPA LADDER AND CARABINER HOOK SCREW AND TWIST LOCKS**

NFPA and UL certified high tensile steel Ladder Hook with captive pin is designed to fit over ladder rungs, pipes, safety rails, building apparatus or anywhere you may need the huge gate clearance of these exceptional and strong ladder hooks. The gate clearance of our zinc plated ladder hook is enhanced by our unique screw-lock gate mechanism, which enables the gate to open beyond the ladder hook spine, providing a massive gate opening, even for a ladder hook of this size!

**Features:**
- Large frame, with large, 1.2” gate opening
- Impressively strong, yet lightweight
- Rated for inward gate force
- ANSI Z359.12 (09) and NFPA G compliant

**CMC STEEL LOCKING D CARABINERS UL CLASSIFIED TO NFPA 1983 – GENERAL USE**

This proven workhorse of General Use carabiners is available in both Screw-Lock and Auto-Lock gates. On the Screw-Lock models the nut locks against the gate to prevent jamming. Auto-locking carabiners decrease the possibility that the user will forget to lock the gate or that the gate will vibrate unlocked while in use. With the safety of a three-stage auto-locking gate that can be easily opened with one hand, these compact models maximize strength yet allow a gate opening wide enough to fit over most litter rails. Every carabiner is proof loaded.

**Features:**
- Lightweight aluminum construction
- Compact and portable design facilitates “in-line” use in rigging systems
- Swivel attachment points diminish potentially dangerous torsional and off-axis forces
- Features two sampling modes: “Slow” for monitoring and “Fast” for drop-testing
- Monitor forces wirelessly on your iPhone with built-in Bluetooth connectivity
- Record and download graphs of events (Enforcer app required, sold separately)
- Measures force in kg, lbf and kN

*Not for use with steel cables or wire rope.

**NEW**

**Video Online**

**rockSTEEL AUTO-LOCK CARABINER**

The rockSteel offers a surprising strength-to-weight ratio in a carabiner of its capacity. Most steel carabiners are made from 1/2 diameter steel. We use a lighter, 7/16” diameter steel that is heat treated for added strength. The rockSteel frames are CNC machined for precise fittings and exact tolerances. The result is a carabiner with a high strength-to-weight ratio, keylock snag-resistant nose and a feel like no other steel carabiner in the world. The rockSteel carabiner is ANSI Z359.12 (09) and NFPA G compliant. The gate/sleeve is rated at 16kN or 3600 lbs, to protect against inward force against gate.

**Features:**
- High tensile steel
- Zinc plated finish
- High strength
- Smooth operation

CMC LEVR™ ESCAPE SYSTEM
UL CLASSIFIED TO NFPA 1983-GENERAL USE

The most compact escape system available. Designed to assure rapid emergency egress with safe, controllable descent. Built around the new CMC LEVR descender, a next-generation device with improved descent control, fast and easy pay-out, and reliable edge transition.

FEATURES:
- LEVR™ design provides smooth and reliable edge transition, minimizing potential for hang-up at window sill
- Engineered for quick, easy horizontal payout of web to allow fast egress from remote anchor points
- Designed to reduce impact force on escape anchor if shock loaded during bailout
- Low-profile side carry bag designed for right or left-handed deployment
- Fire Escape Web T™ is constructed from 100% Technora® fiber for high strength and heat resistance, and dramatically reduces space required for storage
- U.S. Patent Pending

INCLUDES:
- LEVR™ descender reeved with 15.2m (50’) of 11mm Fire Escape Web™ (UL Classified to NFPA 1983 - Fire Escape Web)
- FlashLite™ Hook (UL Classified to NFPA 1983 - Escape Use)
- Nomex® fabric waist carry bag
- ProTech™ Aluminum Auto-Lock Carabiner (UL Classified to NFPA 1983 - Technical Use) with sewn Kevlar® fiber tether

BP049  CMC LEVR™ Escape System  $523.95

CMC 3D™ LOCKING-BAR DESCENDER

The 3D features two sliding bars for optimum friction control and efficiency. The horn design works well with 13mm rope and smaller, making it easy to add or subtract friction as needed throughout the evolution. The frame dimensions allow for larger rescue-sized carabiners to be used without any contact or friction with the rope. The descender can be loaded or unloaded while connected to your harness for rappelling or to an anchor for one- or two-person rescue lowers. Ship. wt. 1 lb.

- Compact, lightweight design
- 3-stage locking center bar for added safety
- Ambidextrous design allows loading from top or bottom or controlling descent from either side of device
- Optimal rack length allows two rescue-sized carabiners to be attached without rope contact or friction from carabiner
- Large horn size allows for easy addition or subtraction of friction, even on larger 13mm lifeline
- 100% aircraft-grade aluminum and stainless steel components
- Patented

BN326  CMC 3D™ Locking-Bar Descender  $249.95

PETZL I’D SELF-BRAKING DESCENDERS

It’s auto-locking feature combined with a locking position for the handle make the Petzl I’D an excellent descender for working on rope. Additional safety features include an anti-panic function that stops the descent if the handle is pushed too far and an anti-error safety catch that reduces the risk of an accident from the incorrect installation on the rope. Maximum descent distance: 660’ (200m).

The small model has a safety clip on the swinging side plate that reduces the risk of dropping the device when removed from the rope, such as when passing intermediate anchors. UL classified to NFPA 198 EN 341 Class A.

- Unblock the rope and control the descent with the hand on the free end of the rope
- Move more easily on horizontal or low-angle terrain, thanks to the button on the handle
- Get into position without having to tie off the device
- Anti-panic function is engaged if the user pulls too strongly on the handle brakes and stops the descent automatically
- Anti-error safety catch to reduce the risk of an accident due to incorrect installation of the device on the rope. The shape of the cam is designed to improve rope glide when ascending

Cat#  Description                Finish  NFPA Rating  Price
BG121  Self-Breaking Descender   Gold    Light Use    $238.95
BG122  Self-Breaking Descender   Red     General Use  $238.95
CMC CSR² PULLEY SYSTEM™

The patented locking mechanism in our updated CSR² Pulley™ is easy to release under load, creating much greater efficiency with the lowering and raising necessary to a confined space rescue. The machined aluminum swivels at both ends of the system eliminate any potential twisting of the lines. This system is also an excellent choice for confined space entry or rope access work where a heavy-duty pulley system is desired. Systems comes completed reeved and packed into its storage bag ready to use.

- All-new stronger, lighter-weight design
- Available with either 11mm (7/16”) or 12.5mm (1/2”) Static-Pro Lifeline
- Systems are UL Classified to NFPA 1983 (2017 ED.) - General Use
- CSR Pulley MBS 46 kN (10,341 lbf) / CSR² Double Pulley MBS 45 kN (10,116 lbf)
- Machined from solid block of aircraft-grade aluminum
- Includes (2) ProSeries® Aluminum Screw-Lock Carabiners, MBS 47 kN (10,566 lbf) - General Use
- Made in USA

INCLUDES:
- 11mm (7/16”) Static-Pro Lifeline, Blue (1 x 200’) or 12 ½ mm (1/2”) Static-Pro Lifeline, Red (1 x 200’)
- CSR Pulley
- CSR² Double Pulley
- ProSeries Aluminum Screw-Lock Carabiner (2)
- #3 Rope Bag, Red

BG274 CSR² Pulley System™ $1,420.95

CMC AZTEK PROSERIES® SYSTEM

The CMC Rescue AZTEK ProSeries System leaves no detail ignored. Capable of more than 100 rigging solutions, it reflects the philosophy of keeping rigging equipment simple, efficient, non-specialized, light and small. The CMC Rescue AZTEK ProSeries System is the only AZTEK system UL Classified to NFPA 1983 (2012 ED.) General Use, Manufactured System. Ship. wt. 4 lbs.

- Innovation-loaded and designed for wear on the waist or thigh
- Travel restraint with more than 40’ of adjustable travel
- Mesh bottom for optimal breathing
- AZTEK OMNI set of fours provides 4:1 or 5:1 M/A options
- Quickly adjust a litter attendant or litter position
- Easily pass knots
- Back-tie or redirect anchors
- Promptly establish dynamic fixed brakes
- Establish travel restriction
- Correct disoriented equipment under load
- Dynamic directionals and lowers
- Hauling systems
- High angle attendant tether and litter scoops
- Load-releasing hitch
- Personal mechanical advantage (PMA)
- Solo pick-off
- Tensioned guying

INCLUDES:
- 11mm (7/16") Static-Pro Lifeline, Blue (1 x 200’) or 12 1/2 mm (1/2”) Static-Pro Lifeline, Red (1 x 200’)
- CSR Pulley
- CSR² Double Pulley
- ProSeries Aluminum Screw-Lock Carabiner (2)
- #3 Rope Bag, Red

BL803 CMC AZTEK ProSeries® System $474.95

AZTEK ELITE NFPA-G SYSTEM

A unique, multi-functional system, the AZTEK is a simple and versatile tool for mechanical advantage rigging. The opposite end of the rope functions as an individual edge restraint system utilizing the included travel restraint and screwlink. The AZTEK Omni Block pulleys keep loads oriented correctly when tensioned. The system is easily transported or swapped between users thanks to its accessible pouch-style carry case. Ship. wt. 3.8 lbs.

INCLUDES:
- 2 - AZTEK Omni Block pulleys
- 50’ of 8 mm Edge Restraint with sewn eye
- 2 - 6 mm sewn ratchet prusiks
- 1 - SafeD carabiners for connecting Edge Restraints to anchor
- 2 - Steel Carabiners
- 8 mm Steel Screwlink
- 6 mm Travel Restraint
- AZTEK Carrying Bag

BN708 Aztek Elite NFPA-G System $429.95
SEARCHLITE KIT
Search kits are an integral tool for fire departments performing large area search. The kit comes standard with our highly-reflective SearchLite rope. Large snap-hook on one end allows for connection to substantial objects, while the small snap-hook secures the rope to the bag.

INCLUDES:
• 220’ of SearchLite Kit search rope
• Double action snaphook
• Swivel Snap
• SearchLite bag

BN706 SearchLite Kit $383.95

TRAVERSE 540° RESCUE BELAYS
UL CLASSIFIED TO NFPA-GENERAL USE
Developed specifically to meet the needs of rescue system belays, the 540° Rescue Belay is a self-locking device that meets demanding drop-test criteria able to hold falling loads quickly while limiting the peak force. This well-engineered device is easy to rig and the symmetrical design reduces the risk of improper loading. A built-in release lever releases the tension on the belay rope, eliminating the need for a release hitch. Designed for use with kernmantle rescue ropes from 11.5 to 13mm. 3 MBS: 8,093 lbs. Passes the BCCTR Rescue Belay Competence Drop Test Criteria. Ship. wt. 3 lbs.

Cat# Description Rope Size Price
BG267 Small 540° Rescue Belay 10.6-11.5mm (7/16") $524.95
BG268 Large 540° Rescue Belay 11.5-13mm (1/2") $524.95

BN523 Aztek Pro Kit $377.95

AZTEK PRO KIT
The Aztek Pro Kit can be used as a pick off, adjustable directional, high directional guyline, high angle attendant tether, high angle litter scoop, load release hitch and much more. Each pulley is color coded to match with a corresponding prusik for quick identification. The AZTEK pulleys are machined from solid aluminum, feature swivel connection points, and utilize high efficiency bearings.

COLOR CODED FOR QUICK IDENTIFICATION

360 SEARCH AND RESCUE BOUNCE IMAGING CAMERA
The 360 Search and Rescue Bounce Imaging provides 360° views of difficult-to-reach spaces, in a small, easy-to-carry camera that pairs directly to a smartphone app. Our stabilization means that your 12 o’clock stays constant, even in virtual reality - allowing you to precisely understand the layout of the target environment. Everything is recorded, so you can always review what was happening behind you.

• Simultaneously view different angles and directions
• Search confined spaces instantly
• Maintain your orientation

BP028 360 Search and Rescue Bounce Imaging Camera $2,949.95
UNIVERSAL SWIFT WATER RESCUE VEST

INDUSTRY LEADING UNIVERSAL PFD FOR SWIFT WATER RESCUE

- 25 lbs. (111 N) buoyancy
- Drag handle and D ring
- Quick donning with 7 adjustment tabs to create a customized fit for chest sizes from 30” - 52”
- Layered flotation
- MOLLE® webbing on both shoulders and back
- Velcro® panel on back for ID patches

- 2 large self draining pockets provide ample storage options
- Durable harness with 2” webbing
- Quick release belt
- 500 denier, Cordura® outer shell
- Over 62 sq. in. of SOLAS™ tape

BL462 Universal Swift Water Rescue Vest $268.95

ICE COMMANDER™ RESCUE SUIT

The Mustang Ice Commander™ is the suit of choice for search and rescue teams, fire departments, and ice rescue professionals. The flotation and insulation performance of a snap in buoyancy liner allows users to immerse themselves for long periods of time in icy cold water and maintain mental and physical capabilities.

- Water-tight hood and face seal
- Integrated gloves and attached boots
- SOLAS™ reflective tape and Velcro® patch for light attachment
- Heavy duty, full-length, water-tight zipper
- Waterproof and durable welded nylon outer shell
- High performance urethane-coated nylon exterior
- Integral self-adjusting safety harness
- Ergonomic ice awl pockets - secured with Velcro® (ice awls not included)
- Reinforced knees padded with 2.5 mm neoprene
- Removable inner buoyancy liner - constructed of closed-cell AirSoft™
- Reinforced seat and elbows

BL315 Ice Commander™ Suit (Universal Adult) $1,139.95

UNIVERSAL HI-VIZ YELLOW ICE RESCUE SUIT

Rescue professionals need gear that allows them to respond safely and quickly to emergency situations. The RS-1000 Rescue Suit has been engineered to don quickly for cold water and ice rescue operations. This universal suit features a rugged hi-tenacity nylon shell that is stitched and taped for the ultimate in durability. A snap out, internal laminated nylon/foam liner allows the user to easily slip the suit on and off.

- Shell Material: 400 Denier Nylon Shell
- Construction Method: Seams are stitched and sealed (taped) (not RF welded)
- Harness System: Vertical and horizontal adjustment
- Ice Pick Pockets: Easy access and secure storage of ice picks
- Gloves are supple and felt lined
- Internal suspenders for height adjustment
- Knee and Elbow Patches: Foam padded with rough texture covering for extra grip
- Wear Patches: Reinforced butt, knees and elbows
- Boots: Size 13 for fitting wide range of users
- Adjustment Straps: At thighs and wrist for improved suit control
- Carry Bag: 500D bag is nylon lined for easy discharge of suit (from bag). Includes zippered mesh accessory pocket

BL591 Universal Hi-Viz Yellow Ice Rescue Suit $618.95
COMPACT SAR ASSIST VEST
Easily stows in sea, land and air vehicles. Vacuum sealed for long shelf life. Easily removed from its package and donned like an airline PFD. Orally inflate until the black hook and loop strap pops on the right lobe.

- Reversible and can be folded and stowed after use
- Weighs 1.32 lbs. in its vacuum pack
- Easy to throw and catch
- Vacuum pack floats
- Hi-vis color with reflective patches and ink
- 19 lbs. of buoyancy when inflated

BN759 Compact SAR Assist Vest $55.95

STEARNS RESCUE VEST
Made with rugged 500 denier Cordura® outer-shell for strength and durability, it has a soft 200 denier nylon interior for comfort with a built in front pocket. The lower front pocket provides room for storage and a quick-release belt with "O" ring for tether use. With fold out side panels, front and back, provide side protection for full range of sizes; panels conveniently fold in for added ventilation.

- Four rugged 1½" front adjustable straps for a secure fit
- Lash tabs on left and right chest and shoulders for fastening a knife and tools
- Minimum 22.5 lbs. of buoyancy

BP161 Stearns Rescue Vest $199.95
BP162 Stearns Pocket $39.95
BP163 Stearns Tether $3.95

STEERNS SAR MESH PFD VEST
The "Mesh" PFD provides added comfort in warm weather conditions. The soft, lightweight mesh provides a high level of ventilation. Soft Aquafloam® and durable Crosstech® foam provide comfort as well as the flotation. Two large pockets close with hook and loop fastener. Zippered front is backed by three 1½" belts.

USCG Approved Type III.
Color: International Orange.

BA086 Stearns SAR Mesh PFD Chest Vest $93.95

SPECIFY SIZE: S-XXXL

ARM LOC™
The ARM-LOC™ has high visible solas reflective tape, which is the same type as what the Coast Guard uses. The ARM-LOC™ also locks on the victim so there is no need for the victim to hold onto the rope. Plus, you will be able to float the ARM-LOC™ on top of the water. It is a safety tool that can be used ANY time you need to get a GRIP on a victim in distress, on land or in the water. ARM-LOC™ has 75' of ⅛" Sterling floatable line.

INCLUDES:
- 1 ARM-LOC™
- 75' of Sterling Floatable Rescue Line
- 1 Omega non locking carabiner
- 1 Throw bag and carrying case
- ⅛" threaded Cadmium plated CO2 cartridges

BP157 ARM-LOC™ $495.95
CMC RESCUE ROPE RESCUE TEAM KIT-RIGGING (TRADITIONAL)

Containing the minimum equipment required to handle most high or low-angle rope rescue responses, this kit includes a main line with mechanical advantage for raising and a descent control device for lowering, a belay line, a litter with a patient-packaging system, and gear for setting up anchors. In addition to this equipment, we recommend each member of the team carry the personal equipment included in our Rescuer Personal Kit.

- 2 - Rope Bags, #2 size
- Truck cache
- Stainless steel rescue litter
- ProSeries Litter Harness
- Ettrier with Tie-In
- FastLink™ Pick-Off Strap
- 4 - Adjustable Litter Straps
- 2 - Edge Pad - XL
- Tubular Webbing - 24' (1 x 12')
- Tubular Webbing - 40' (2 x 20')
- Shasta Gear Bag
- Litter Pack
- Litter Insert
- Patient Tie-In System
- Lifesaver Victim Harness
- 2 - CMC Ascenders
- FastLink Anchor Strap - Medium
- Anchor Strap Sleeve - Medium
- Ultra-Pro 4 Edge Protector
- 2 - ProTech Auto-Lock Carabiners
- Rope Rescue Manual
- 2 - CMC Lifeline - 200' of 1/2"
- 2 - Load Release Straps
- Rescue Rack
- 15 - ProSeries® Screw-Lock Carabiners - Brite
- AZ Bound-Loop Prusik - Long
- 8 - AZ Bound-Loop Prusiks - Short
- Aluminum Oval Carabiner
- Anchor Plate
- 5 - PMP Swivel Pulleys
- FastLink Pick-Off Strap
- 2 - Anchor Strap Sleeve - Medium
- 2 - Edge Pad - XL
- 2 - Static-Pro 1/2 in Lifeline - 200'
- Tubular Webbing - 72' (6x12')
- Tubular Webbing - 120' (6x20')
- 15 - ProSeries Screw-Lock Carabiners

- AZ Bound-Loop Prusik - Long
- Rescue Pack

BD051 CMC Rope Rescue Team Kit - Rigging $6,539.95

SKED® BASIC RESCUE SYSTEM

The original and still the best solution for confined space, high angle or technical rescue, and traditional land based applications. The Sked® stretcher is a revolutionary design which provides outstanding patient protection and security. The Sked® comes equipped for hoisting by helicopter in horizontal position spaces. When the patient is packaged, the stretcher becomes rigid. The durable plastic provides protection for the patient while allowing extrication through the most demanding confined spaces. The stretcher is rolled for storage in a tough Cordura® backpack which is included with the system. The system ships at 19 lbs. and comes complete for most applications. Available in International Orange. Ship. wt. 19 lbs.

AS452 Sked® Basic Rescue System $639.95

CMC RESCUE USAR TASK FORCE KIT

A great package for a truck or engine company that responds to over-the-side rescues or needs a vertical lift capability for trench or confined space rescues, this kit contains the primary rope rescue equipment on most of the FEMA and USA requirements lists.

- 2 - Rope Bags, #2 size
- Truck Cache
- 2 - Response Harness
- Litter Insert
- Patient tie-in system
- 2 - CMC Ascender
- 4 - Adjustable Litter Strap
- 2 - FastLink Anchor Strap - Medium
- Ultra-Pro 4 Edge Protector
- Tubular Webbing - 30' (6x5')
- Tubular Webbing - 90' (6x15')
- ProTech Auto-Lock Carabiner
- Shasta Gear Bag
- Litter Pack
- Stainless Steel Rescue Litter
- ProSeries Litter Harness
- Ettrier with Tie-In
- Rescue 8

BD050 CMC USAR Task Force Kit $7,393.95
**RESCUE KIT 1 WITH POWER TALK BOX**

The CON-SPACE Rescue Kit 1 with Power Talk Box is configured for a team of five rescuers consisting of two primary rescuers, two standby rescuers and a hole watch/team leader, for entries of 100’ (maximum distance 1500’). They system can be configured for up to fourteen people using available modules and accessories. The command module is battery-powered, compact and lightweight making it completely portable. Three 1.5v alkaline “C” cells provide 400 hr. life on standby and all electronics are fuse protected. A low battery LED indicator gives 12 hr. warning battery replacement. System and accessories are waterproof. Molded fiberglass enclosures, knobs, and cables are impervious to a wide range of chemicals.

**HOTSTICK VOLTAGE DETECTOR**

**HIGH SENSITIVITY DETECTOR FOR EMERGENCY RESPONDERS**

The HotStick provides warning of exposed high voltage AC from a safe distance without the need to contact the surface carrying the current. It gives early audible (“beeping”) and visual (flashing LED) warnings, and beeps and flashes more rapidly the closer it comes to the voltage. Comes with a built-in self test so there is no doubt about it functioning properly.

**SKED-EVAC™ TRIPOD**

The Sked-Evac™ Tripod extends to ten feet high at the three anchors which are available to clip into. Each of the anchors is anodized red for easy identification, and all are equally well centered to handle a load. The anchors, header, and legs are interconnected with 1/2” stainless steel bolts to provide maximum strength. When at full extension, this tripod allows you to bring the patient in a stretcher completely out of the hole. It is rated to handle an NFPA rescue load. Included with the tripod is a chain which passes through the feet to provide greater strength and stability. The legs are adjustable in 5” increments, and Skedco provides safe working load data for each tripod height on each tripod. Brackets are available for mounting most popular winches. **Ship. wt. 74 lbs.**
COMPLIMENT YOUR EXISTING TRAINING EFFORTS WITH IMMERSIVE LEARNING OPPORTUNITIES USING VIRTUAL REALITY.

FLAIM TRAINER

PACKAGE INCLUDES:

• SCBA WITH COMPUTER AND MASK
• PERSONAL HEAT VEST WITH HEAT GENERATION COMPONENTS
• HOSE-LINE SYSTEM
• NOZZLE
• VIVE VR HEADSET

HEAT VEST
Heated vest adds realism with heat generation.

REAL NOZZLE
Patented haptic force feedback system mimics a fire nozzle reaction.

INTEGRATE THE FLAIM TRAINER INTO EXISTING TRAINING PROGRAMS.

This helps bridge the gap between classroom learning, in field training and real-life incidents. The FLAIM Trainer will never replace real training and only enable fire fighters the opportunity to obtain ongoing training repetitions within safe training environments.

• Practice Fire Fighter Operations in a risk-free virtual environment
• Use virtual reality to overcome difficulties of training that include unsafe conditions, expensive costs and environmental restraints
• Offers Fire Fighter trainees a chance to practice and be assessed on their ability to correctly manage different tasks
• Ensure your actions and decisions are correct and effectively making the proper decisions and operating procedures

The FLAIM Trainer is a virtual reality training simulator. The FLAIM Trainer combines VR technology with traditional first responder equipment; patented haptic feedback system, breathing apparatus and heated personal protective equipment. The unique product offers first responders safe, repeatable, hands-on training experience in immersive and realistic environments.

NEW

FLAIM Trainer $45,000
SAFE AND COMPLIANT EXTINGUISHER TRAINING

UTILIZE **VR TECHNOLOGY** TO EXTINGUISH A **VIRTUAL** FIRE USING THE PASS TECHNIQUE.

**FLAIM EXTINGUISHER TRAINING KIT**

**EMPOWERING FIRST RESPONDERS AND COMMUNITY**
Educates users on how to handle a fire extinguisher during a variety of common household and business fires. Encourage trainees to extinguish the fire themselves within a virtual setting. No accelerants, fumes or cleanups. FLAIM Trainer is fit for all users.

**INCLUDES:**
- QUANTITY 1: FLAIM EXTINGUISHER TRAINING SYSTEM
- MORE THAN 20 PRE-LOADED SCENES
- VIVE FOCUS HEADSET AND CONTROLLER MOUNTABLE ON ANY FIRE EXTINGUISHER
- TRANSPORT CASE, CORDS AND ACCESSORIES
- EMPTY EXTINGUISHER

Realistic training scenarios arm firefighters with the skills and confidence they need to respond effectively and efficiently during real-life incidents. Live field exercises provide hands-on training, but they are often costly, time consuming and can be hazardous. Training simulation provides an ideal alternative, offering organizations the ability to get more from their current training programs.

**A REALISTIC EXPERIENCE IN A VIRTUAL WORLD**
No more need for archaic training methods. FLAIM Extinguisher provides a portable and immersive experience. VR training is as simple as plug-and-play and working in any room with ample space.

**SCENARIOS INCLUDED:**
- COPY MACHINE IN OFFICE ON FIRE
- SEAT IN A TRAIN
- TIRE OF A TRUCK
- PALLET INSIDE A WAREHOUSE
- KITCHEN STOVE TOP ON FIRE

FLAIM Extinguisher Training Kit

$7,000
IMMERSIVE FIREFIGHTER TRAINING

RiVR LINK - CLASSROOM IN A BOX
FULL IMMERSION COMBINED WITH INSTRUCTOR LED TRAINING ALLOWS FOR BLENDED LEARNING WITH LASTING RESULTS

ENGAGED LEARNING
The instructor can monitor and interact with the session from the 2D tablet and is able to give central feedback by pausing the 360° video and focusing all students’ attention to key learning points. Using a virtual marker (VR Chalk), the instructor can draw directly onto the video, visible to everyone, and, using wireless communications, can speak directly into the students’ headsets.

INCLUDES:
- 5-15 virtual reality headsets per kit
- Tablet, wireless router, headsets, Pelican case and cords
- Software that links the headsets, router and tablet
- Ability to play, fast forward, rewind and make chalk dictations on the video
- Management of content library

RiVR INVESTIGATE - INVESTIGATION TRAINING
PHOTOREALISTIC CONTENT TO HELP RETRAIN ARSON INVESTIGATORS ON SKILLS TRAINING AND SCENE WORK

FUNCTIONALITY
Students can fully examine a scene, take photographs, record on a Dictaphone and examine evidence prior to making professional conclusions. All of this activity is recorded in real time allowing playback for professional discussion at any point in the future. Development of this global training library allows fire services around the world to share their different training techniques.

PHOTO REALISM
The photorealistic scenarios in RiVR Investigate offer a near-to-life immersive presence in fire and crime scenes. Using advanced 3D modelling techniques like photogrammetry, the scene is turned into an interactive learning environment. RiVR improves the realism of investigation training and increases the number of scenarios trainees are confronted with during training.

INCLUDES:
- Subscription to global library of arson investigation scenarios consisting of different causes of fire
- HTC Vive kit, gaming laptop and accessories to operate

RiVR Link - Classroom in a Box $17,000
RiVR Investigate - Investigation Training $26,000
The world’s most innovative and effective hazmat training system is now better than ever! With intuitive and scalable new features for growing teams, now is a great time to enhance your hazmat training with the HazSim Pro 2.0.

### HazSim Handheld Meter:
- Ruggedized housing - 13.2”x8.6”x7”, 3.6 lbs.
- Super responsive touch screen and large external buttons
- Loud audible alarms
- Confined space probe with tubing included

### HazSim Instructor Server:
- Convertible laptop tablet with full keyboard and case
- Group meters (if using more than one handheld) can be synced or controlled separately
- Ability to create custom meters

### Interactive Learning:
- Instructor can send questions in real time
- Students answer questions via HazSim handheld
- Use HazSim’s preloaded questions or create your own
- Customizable alarms for your team’s specific needs

### Meters:
- Multi-gas - 4, 5, or 6 gas meters
- Radiation - alpha, beta, gamma
- WMD meter (bar graph)

### Plus:
- Pelican Case for safe transport
- Standard one year warranty, with option to extend

### INCLUDED
- Unlimited meters and variations including chemical, radiation and WMD
- Extended range LAN, up to 1000’ with option to extend
- Scalable platform for additional HazSim meters
- Larger touch screen and longer battery life
- External buttons allow questions to be answered easily with gloved hands
- Tag function allows instructors to make notes in evolution

DUALIE® 3AA FLASHLIGHT
INTRINSICALLY SAFE, MULTI-FUNCTION FLASHLIGHT

The Dualie® 3AA Flashlight lets you see what’s ahead and around you. It produces a focused spot light and soft flood light to illuminate your work area and help to avoid slips, trips and falls.

- Three Output Modes: Spot, flood, both (spot and flood simultaneously)
- Spot: 140 lumens; 7,300 candela; 171m beam distance; runs 18 hours
- Flood: 140 lumens; 80 candela; 18m beam distance; runs 18 hours
- Simultaneous Spot and Flood: 245 lumens; runs 9 hours
- One-handed operation of all lighting modes
- Ergonomically designed for maximum hand comfort
- IPX7 waterproof to 1m for 30 minutes; 2m impact resistance tested
- 7”; 6.8 oz. with AA alkaline batteries (included); 5.9 oz. (167g) with AA lithium batteries
- Limited Lifetime Warranty
- Class I, II, Division 1, Groups A, B, C, D, E, F, G; Class III; CL I, ZN 0, IIC; Exia; T-Code: T4

3AA PROPOLYMER® HAZ-LO® HELMET LIGHTING KIT

Universal lighting kit fits both traditional and modern style firefighting helmets. It is a low-profile, lightweight, economical alternative for securely mounting a flashlight to almost any style fire helmet.

INCLUDES:
- 3AA ProPolymer® HAZ-LO® with alkaline batteries
- Streamlight helmet mount and rubber helmet strap

FEATURES:
- 120 lumens; runs 6.5 hours
- High-performance, anti-static, thermoplastic material resistant to chemicals and solvents
- O-ring sealed, dust-proof, water-tight enclosure
- IP67 rated for dust-tight and waterproof to 1 meter for 30 minutes
- IPX4 for water spray
- 3 meter impact resistance tested
- Class I, Division 1, Groups A, B, C, D; Class II, Division 1, Group E, F, G; Class III; Exia; Temperature Code T4
- For use in places with an explosive gas atmosphere (other than mines susceptible to firedamp) that is present continually or for longer periods

TACTICAL FIRE LIGHT WITH MULTI-ANGLE HELMET MOUNT

The Tactical Fire Light is rated at 180 Lumens and has a tight long-throw beam that is distance-rated at 190 meters. The entire system is IP-X7 waterproof and is drop rated at 2 meters. The mount can be attached to either side of the helmet to provide hands-free illumination for the wearer. Additionally, the user can set the angle of the mount through 140 degrees of adjustment to provide clearance around face shields, goggles or other helmet-mounted equipment.

BN166 Tactical Fire Light with Multi-Angle Helmet Mount $41.95

VANTAGE® 180X HELMET/RIGHT-ANGLE FLASHLIGHT

The Streamlight Vantage® 180X Helmet/Right-Angle Flashlight gives you the ultimate versatility in a firefighter’s light and goes instantly from a helmet light to a handheld light to a right-angle light. So wear it, hold it, clip it, or even hang it!

- 250 lumens (high)
- Helmet/right-angle/handheld light
- 180° rotating head (for right-angle use)
- Rear LED taillight changes from blue to white

BN500 Streamlight Vantage® 180X Helmet/Right-Angle Flashlight $83.95

HELMET-MOUNTED MULTI-FUNCTION DUAL-LIGHT™ FLASHLIGHT

Outshines the competition with its powerful 220 lumen tightly-focused Flashlight and a beam distance rating of 600’. Choose from two additional lower lumen settings at 100 or 30 lumens. User-selectable brightness Floodlight with a soft unfocused light pattern. Brightness and choice of 100 or 50 lumens for typical use, as well as a “Survival” mode at 15 lumens for emergency situations. Additionally, in Dual-Light mode the user can light up the distance and the ground at the same time. Also features a green, rear facing LED light for easy identification. Fits any fire helmet (or side-brim hard hat) thanks to the multi-angle adjustment feature. IP-X7 rated waterproof and meets the requirement for NFPA-1971-8.6 (2013). Powered by 2 CR-123 batteries (included.)

BN171 Helmet-Mounted Multi-Function Dual-Light™ Flashlight $86.95

BD206 Survivor® (Alkaline Model) - Orange $65.95
BD206 Survivor® (Alkaline Model) - Yellow $65.95

BN718 INTRANT™ Intrinsically Safe Dual-Light™ Angle Light - 3AA $70.95
BN719 INTRANT™ Intrinsically Safe Dual-Light™ Angle Light - Rechargeable $122.95

BP045 INTEGRITAS™ Rechargeable Lantern $215.95
**VULCAN® 180 LED LANTERN**

The lightest portable lantern of its kind, the Vulcan 180 is designed to burn brighter and run longer making it an essential firefighting tool. This rechargeable, waterproof lantern has a 180 degree tilting head which allows you to direct the light where you need it. Three ultra-bright white LEDs bring you extreme brightness along with two blue taillight LEDs for visibility in thick smoke.

- 1,200 lumens; runs 4.75 hours; 548m beam distance
- 180° articulating head aims the beam where you need it
- Flat base area allows light to stand on its own for scene lighting
- Two ultra-bright blue taillight LEDs make certain you can be seen even in thick smoke
- High-impact, super-tough nylon body; head constructed from high grade aluminum encased in super-tough nylon
- Taillight LEDs can be programmed on or off

---

**FIRE VULCAN® LANTERNS**

**AZ116 FEATURES:**
- Ultra-Bright Blue Taillight LEDs Offer 2 Modes: Steady and blinking
- Easy-to-operate toggle switch
- High-visibility orange
- Compact and lightweight
- Extremely Powerful: 80,000 cp, 145 lumens
- Rugged, high-impact thermoplastic housing
- Waterproof
- Fits existing Vulcan® chargers
- Ship. wt. 4 lbs.

**BG522 FEATURES:**
- Up to 80,000 candela peak central intensity; 150 lumens
- 2 lightweight lithium ion nanotechnology cells: recharges in 5 hrs.
- Charger base meets requirements of NFPA 1901
- IPX7 rated design - waterproof to 1 meter for 30 minutes
- Deep-dish parabolic reflector produces a tight beam with optimum peripheral illumination
- Rated product, Class I Division 2 Groups A, B, C, D, Temperature T4A; Class II Division 2 Groups F, G, Class III, Temperature T-54˚C (T6)
- Run-Times:
  - Steady high LED & taillights: Up to 3 hrs to the 10% output level
  - Low: Up to 6 hrs
- C4 LED, impervious to shock with a 50,000 hr lifetime
- 8 programmable functions
- About 45% lighter than the halogen Fire Vulcan®
- Ship. wt. 3 lbs.

---

**BN672**  Vulcan® 180 LED Lantern Standard System $242.95
**BN673**  Vulcan® 180 LED Lantern Vehicle Mount System $228.95

**BG522**  Fire Vulcan® LED Standard System w/AC/DC $189.95
**BG523**  Fire Vulcan® LED Vehicle Mount w/12v DC $183.95
**BG524**  Fire Vulcan® LED without Charger $161.95
E-FLOOD® LED LANTERNS

The E-Flood® and E-Spot® models are industrial-duty, rechargeable, portable lanterns featuring power LED technology for high brightness, long runtime and high reliability. The E-Flood® models use 6 LEDs and wide pattern reflectors to produce a uniform flood pattern.

- Optimized electronics provide regulated intensity
- 2 Levels of Lighting:
  - High: 4,000 candela, 615 lumens, 8 hrs. run-time
  - Low: 2,150 candela, 330 lumens, 18 hrs. run-time
- Zero-maintenance, 6V, 12 amp-hr sealed lead acid battery is rechargeable up to 500 times
- High impact ABS thermoplastic housing
- Rubberized impact bumper, lens ring and cushioned-grip handle
- Fits existing LiteBox® chargers
- IPX4 Rated for weather resistant operation

E-SPOT® LED LANTERNS

The E-Spot® model is an industrial-duty, rechargeable, portable lanterns featuring power LED technology for high brightness, long runtime and high reliability. Mounting rack meets NFPA requirements mounted in any position.

E-SPOT® FEATURES:

- 2 user programmable ultra-bright blue tail-light LED’s
- 2 Levels of Lighting:
  - High: 55,000 candela peak beam intensity, 540 lumens, up to 7 hrs.
  - Low: 32,000 candela peak beam intensity, 330 lumens, up to 15 hrs.
- Shoulder strap

PORTABLE SCENE LIGHT
RECHARGEABLE LANTERN

Rapidly deployed and easily stowed, the Portable Scene Light brings 5,300 lumens to your work area. With its narrow footprint and 72” extension pole, this light goes almost anywhere, from wide open places to tight, confined spaces.

- Light Source: 6 LEDs and wide pattern reflectors produce a uniform flood pattern with two selectable beam widths and three light output intensities
- Battery: Zero-maintenance 12V, 7.2Ah sealed lead acid batteries are rechargeable up to 500 times
- 10 hour charge to 90% battery capacity
- AC charger included for continued use
- Packs to a compact size (22”) for storage
- 90° swivel for optimum peripheral illumination
- Dimensions: 22”Lx6.5”Wx11”H
- Weight: 25 lbs. (11.3 kg) with batteries

BL661 Portable Scene Light Rechargeable Lantern $750.95

NOMAD 360 RECHARGEABLE SCENE LIGHT
PORTABLE, CORDLESS & DEPLOYS QUICKLY

- 7000 lumens
- 3 Modes: Low, medium and high
- Use as 360° scene light, 120° area light or 12° spotlight
- Telescopes up to 99°
- Rechargeable Li-ion battery system
- Run-Time: 3-24 hours
- Charge Time: 7 hours
- Battery level indicator
- AC or DC charge/drive
- Weight: 23 lbs.
- Shoulder strap for easy carry
- Waterproof and fire scene ready

BL733 Nomad 360 Rechargeable Scene Light $2,505.95
9490 REMOTE AREA LIGHTING SYSTEM
- Maintenance free LED array with 50,000 hour life expectancy
- Full time battery level indication with low level flashing indicator
- Quick release / hot swappable battery design with 12 volt power supply
- Deployable 6' mast with 340° rotation
- Multiple deployment positions
- Convenient shoulder strap
- Switch Type: Silicone rubber keypad
- Lumens: Up to 6,000
- Closed Dimensions: 6.5”x20”x11.25”
- Run-Time: Low: 24 hrs., Medium: 12 hrs., High: 3.5 hrs.
- Weight: 32 lbs.

REMOTE AREA LIGHTING SYSTEM
Using solid-state mounted LEDs coupled with a thermally efficient light engine and the Pelican Protector™ Case. The Remote Area Lighting Systems (RALS) gives the user the ultimate maintenance free portable floodlight station to get the job done efficiently, safely and on time. The RALS houses two of it’s light heads and it’s multi-stage charger for that total self-contained convenience. It is also equipped with a telescopic handle and rugged wheels for ease of transport. Includes a convenient low battery warning system and waterproof activation switch.
- High Flux LED, 50,000 hr. life
- Lumen Value: 3,000 (low) and 6,000 (high)
- 2 lamp heads, 6 LEDs per head
- 90° beam spread
- 2 brightness settings
- 12v rechargeable battery, 9 hr. charge time
- Battery Burn Time: 14 hrs. (low), 7 hrs. (high) from full discharge
- 500 cycle battery life
- Low battery warning
- Head Dimensions: 6.5”x7.87”Wx2.56”D
- Cord Length: 13.78”
- Weight: 51 lbs.

SPECIFY COLOR: Black or Yellow
BL827 9490 Remote Area Lighting System $983.95
BK403 Remote Area Lighting System $1,992.95

HANDHELD REMOTE AREA LIGHTING SYSTEM
- Polycarbonate lens is lightweight and impact-resistant
- Maintenance-free LED array with life expectancy of 50,000 hrs.
- Fully extendable mast with 360° rotating head
- Waterproof rubber activation switch
- Mast extension lock
- Variable tension angle lets light shine at any angle
- Metal battery chassis distributes load to handle
- Durable base soaks up impact
- Up to 3,000 lumens of tested LED light output
- Silent, energy efficient, rechargeable battery
- Retractable handle and rugged wheels for easy mobility
- Low heat
- Ship. wt. 25 lbs.

BH018 Handheld Remote Area Lighting System $ 885.95
The Valor Series is engineered to take on the toughest ventilation challenges. Featuring a tough, tubular aluminum frame, rubber never-flat tires, and a 7-position tilt system with a quick step pad. Ducting attaches easily to Valor Series Fans, allowing for quick deployment. The seven point aluminum airfoil blade is manufactured to withstand the heat of structure fires and precision engineered to last a lifetime.

The most popular smoke ejector in the fire service, the Super Vac Electric Smoke Ejector features a patented 4-tip recurved aluminum propeller, which produces a greater intake of air into the vacuum side of the fan, eliminating turbulence at the tips. All Super Vac’s are designed to easily accept spiral duct with adapters on the output side for positive ventilation or the input side for negative ventilation.

- Patented 4-Tip Recurved Aluminum Blade: Creates a tight spiral of air to eject smoke and fumes away from the building; aluminum holds up better than plastic in high heat
- Precision-Balanced Blade: Maximizes output
- Heavy-Duty Rubber Feet: Adds friction to keep fan in place
- 4 Carry Handles: Makes transportation easy with one or two people
- Front and Rear Guards: Prevents accidental contact with key components

DIRECT DRIVE GAS SMOKE EJECTOR
Among the smallest gas-powered fans in the industry, the 16" and 18" Fits into tight compartments and yet pack a cfm output that matches larger electrical smoke ejectors thanks to the powerful Honda GX engine. Totally enclosed housing, which protects the fan’s moving parts, gives crews the ability to stack multiple units on top of each other. GX120: 16" Dimensions: 19.5"x19"x15.5". Weight: 55 lbs. / 58 lbs. for GP167S. 18":23.5"x23"x16.5". Weight:76lbs. Made in USA. Ship wt. 55lbs.

- Single-Piece Cast Aluminum Blade: Holds up better than plastic in high heat
- Precision-Balanced Blade: Maximizes output
- Front and Rear Guards: Prevents accidental contact with key components
- Heavy-Duty Rubber Feet: Adds friction to keep fan in place
- 4 Carry Handles: Makes transportation easy with one or two people

SPECIAL OPERATIONS BLOWERS
The Tempest Special Operations Power Blower is the latest addition to the positive pressure ventilation and attack arsenal. The fan’s unique grille and shroud design create a Laminar Air Flow (LAF) which uses an increased setback (9’ to 11’) and is highly effective in unique fireground scenarios such as multi-story stairwells, highrise structures, complex structures and commercial structures > 5,000 ft. The SP blower also showcases a number of new features like wheels now located in the back and a wider footprint for increased stability.

DIRECT-DRIVE GAS POWERED BLOWERS
Tempest Direct-Drive Gas Power Blowers were some of the first units designed and used on the fire ground. With a level a durability and performance backed only by the Tempest name, these units offer the perfect balance in features, performance, cost and versatility.

- AMCA Certified Performance
- Reliable Honda GX or Briggs & Stratton engine
- Rugged construction with stands use and abuse
- Tempest exclusive features makes use easy and economical
SINGLE & VARIABLE SPEED ELECTRIC BLOWERS

The most comprehensive line of Electric Powered Blowers for PPV and NPV available today. Built on the same chassis that has been so successful for our Tempest Gasoline Powered Blowers, Electric Powered Blowers are powerful, durable and versatile while maintaining the ability to operate on a standard household current.

- No exhaust emissions, which can collect Carbon Monoxide inside the structure that you are trying to ventilate
- Never requires "oil change" or has gas go bad while sitting in storage
- Designed to start and run off a standard residential 120v 20amp receptacle without tripping the circuit breaker
- Power supply is readily available at most sites

**ELECTRIC SMOKE EJECTOR**

Used by fire departments around the globe for more than fifty years, traditional smoke ejectors have proven to be the most versatile tool for smoke ventilation. Tempest smoke ejectors have all the standard features including the AirFlex Composite Impeller and other designs to provide years of dependable service, with a durable steel housing, rigid frame and optional duct adapter that easily attaches to a blower’s inlet or outlet. Dimensions: 18.75"x14.25"x19.5", 16” blade.

**GAS SMOKE EJECTOR**

The Tempest GBS-16-HP is a popular unit for all forms of confined space ventilation, a design that’s been used for decades. It’s light and small enough to ventilate tight areas yet still built to Tempest’s high standard of long lasting durability and reliability. The GBS’s 3.5 (Honda GX 120) and 4.8 HP (Honda GX 160) engine options deliver massive performance out of a compact footprint. Suck the smoke/fumes/particulates out from almost any location, or turn it around and blow them out. Dimensions: 3.5 HP: 18.75"x14.00"x19.5” | 4.8 HP: 21"x17"x21”

BATTERY POWERED FANS AND ACCESSORIES

TEMPEST VS-1/VS-1.2 BATTERY BLOWERS
The Tempest Technology 18” Battery-Powered PPV Blower features a 70 minute, interchangeable battery allowing this blower to be used on every call, not “one and done” like the others.

- 70 minute operating time at full speed
- Removable lithium-ion battery rated IP65 & quick charges in 4 hours
- Lightweight design, welded tubular aluminum frame. Only 52 lbs. with battery
- AMCA certified air flow 10,887 cfm
- Variable speed motor rated at IP65
- Thin-Vane air straightener grill and composite impeller
- LED flow-path lighting positioned low for visibility below the smoke
- Tapered lightweight steel shroud maximizes airflow performance
- Ergonomic patent pending frame design with transverse wheels
- Small footprint 22.88”Wx26”Hx11”D (half the size of a gas blower) Dynamic Battery Control System that protects the battery during charge/discharge as well as monitors all cells for optimum performance and diagnostics

BP207
- Folding handle
- Weight: 53 lbs.

BN584 18” Battery Powered Tempest Blower $4,639.95
BP207 18” Battery Powered Tempest Blower w/Folding Handle $4,918.95

BATFAN II
PORTABLE, LIGHTWEIGHT AND THE MOST VERSATILE POWERED BATTERY FAN

FEATURES:
- Totally Self-Contained: No power socket or need for a generator
- Compact and Mobile: Fold, tow, and portable by one person
- Quicker to Set-Up: Starts off instantly
- Dimensions: 21.25”Lx20.87”Hx10.6”D
- Engine: 600w with variable speed drive-IP66
- Adjustable Tilt: From +65º to -90º with locking system
- NiMH Battery: Low maintenance: 1 full recharge every 6 weeks, no restrictions on air transport, battery charge indicator

BP034
- Weight: 51.8 lbs.
- Run Time at Full Speed: 20 min
- Charging Time: 100% in 4 hrs.

BP035
- Weight: 58.4 lbs.
- Run Time at Full Speed: 45 min.
- Charging Time: 100% in 7 hrs./20 min.

FLEXIBLE DUCT & ADAPTERS
These hose sections are tough, lightweight, extremely flexible and crush-resistant. They attach easily to the Smoke Ejector with a quick-release attachment on the adapter ring. They’re ideal for moving large quantities of air for ventilation, air conditioning, and fume and smoke control in hard-to-reach places. Hoses are priced with fan to hose adapter. Call for prices on longer hose extensions. Ship. wt. 1 lb./per foot.

AC937D 16’x20’ $1,002.95
AC937F 20’x20’ $1,284.95
AC937H 24’x20’ $1,582.95

SMOKE EJECTOR HOLDER
Made from high-tensile aluminum alloy for maximum strength. Locking action permits adequate pressure to secure the smoke ejector against door jams or window frames. Rubber cushion and pads remain pliable down to -40º F. Includes set of hanger hooks, extras available. Adjusts from 28” to 40”. Ship. wt. 8 lbs.

P780 Smoke Ejector Holder $100.95
R720 Hanger Hooks $14.95/Set of 2
HALOTRON™ I CLEAN AGENT FOR A, B & C FIRES

Halotron™ I clean fire extinguishing agent discharges as a rapidly evaporating liquid, which is non-conductive, non-corrosive, and leaves behind no residue. Determined to be the most environmentally beneficial halocarbon agent on the market that meets wide performance standards. The primary raw material in the agent is HCFC-123, which has an outstanding profile of near-zero ozone depleting potential (0.0098, CFC-11=1.0) and a low global warming potential (77, 100 yr. CO2 time horizon). Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ISO-14001 certified. UL listed.

- 6-year manufacturer’s warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction
- Temperature range -40°F to 120°F

### Cat# Size UL Rating Valve Application Bracket Price
AF569 21/2 lbs. 10B:C Alum. Nozzle Wall/Vehicle $45.95
AF570 5 lbs. 30B:C Alum. Hose & Nozzle Wall/Vehicle $68.95
AF571 20 lbs. 120B:C Alum. Hose & Nozzle Wall $183.95
AF572 10 lbs. 80B:C Brass Hose & Nozzle Wall $119.95
AF573 20 lbs. 120B:C Brass Hose & Nozzle Wall $190.95

ABC DRY CHEMICAL EXTINGUISHERS

ABC or Multi-Purpose extinguishers utilize a specially fluidized and siliconized mono ammonium phosphate dry chemical. It chemically insulates Class A fires by melting at approximately 350°F and coats surface to which it is applied. It smothers and breaks the chain reaction of Class B fires and will not conduct electricity back to the operator. Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ISO-14001 certified. UL listed.

- 6-year manufacturer’s warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction
- Temperature range -65°F to 120°F
- Easy and economical to maintain
- Large loop pull pin
- Bar coded and bi-lingual labels

### Cat# Size UL Rating Valve Application Bracket Price

AF554 10 lbs. 4A:80B:C Alum. Hose & Nozzle Wall $77.95
AF558 10 lbs. 4A:80B:C Brass Hose & Nozzle Wall $108.95
AF555 20 lbs. 20A:120B:C Alum. Hose & Nozzle Wall $143.95
J559 20 lbs. 20A:120B:C Brass Hose & Nozzle Wall $171.95

PURPLE K B:C POTASSIUM BICARBONATE EXTINGUISHERS

Purple K extinguishers contain specially fluidized and siliconized potassium bicarbonate dry chemical which is particularly effective on Class B flammable liquids and pressurized gases. It is electrically non-conductive. Purple K has been the choice of oil, gas, chemical and utilities industries as the preferred fire fighting agent. Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ISO-14001 certified. UL listed.

- 6-year warranty
- Stored pressure design
- Dependable drawn steel cylinders
- Durable high gloss polyester powder paint
- All metal valve construction
- Temperature range -65°F to 120°F
- Easy and economical to maintain
- Bar coded and bi-lingual labels

**PEERLESS PUMP TYPE WATER EXTINGUISHERS**

Rated 2A, Peerless Pump Type Water Extinguishers can be filled while in use and are simple-to-operate. You can test it without loss of water by directing the stream back into the tank. The operator controls the discharge. Moving parts made of corrosion-resistant brass and copper. Immediate operation; no priming needed.

### CARBON DIOXIDE EXTINGUISHERS

Carbon dioxide is discharged as a white cloud of “snow” which smothers a fire by eliminating oxygen. It is effective for Class B flammable liquids and is electrically non-conductive. Carbon Dioxide is a clean, non-contaminating, odorless gas. Bracket included. Manufactured and tested to ANSI/UL standards. Complies with NFPA 10 standard. ISO-9001/ISO-14001 certified. UL listed.

- Temperature range -22°F to 120°F
- Large loop stainless steel pull pin
- Bar coded and bi-lingual labels
- Meets many hospital medical equipment requirements

### EXTINGUISHER CHEMICAL REFILL

90% OR MORE ACTIVE FIREFIGHTING AGENTS

Made to recharge your fire extinguisher. Manufactured to rigid quality specifications to assure high-performance and superior flow characteristics. **Ship wt. 50 lbs.**

Universal brackets have a heavy-duty steel back with weather and scratch-resistant polyurethane enamel paint finish. Large rubber grommets on bracket back cushion cylinder while strong securing cords keep the cylinder in place. Securing cords easily attach for either left or right hand closings and are impervious to extreme temperatures. There are no moving metal parts to break, loosen or wear out and the bracket is adjustable to several cylinder sizes. 

*Ship. wt. 3 lbs.*

**AF869** Fits 2½ and 5 lb. Dry Chemical Extinguishers $32.95

**AF870** Fits 6 and 10 lb. Dry Chemical Extinguishers, 5 lb. CO₂ Extinguishers, 11 and 15.5 lb. Halotron 1 Extinguishers $35.95

**AF871** Fits 20 lb. Dry Chemical Extinguisher, 2½ gal. water extinguisher, 15 and 20 lb. and CO₂ Extinguishers $49.95

**X-TINGUISH® FST**

Flame Guard USA X-Tinguish® FST is designed for mobile total flooding fire suppression applications on land and sea. The FST is a highly effective tool for the suppression of early stage and fully developed fires; preventing flash-over and back-draft.

**HEAVY-DUTY EXTINGUISHER BRACKETS**

Brackets listed below are for Amerex extinguishers, but will fit any other extinguisher with same size cylinder. If you are unsure or are in need of a bracket not listed, please call your Darley representative.

**PROFESSIONAL IR THERMOMETERS**

The Professional IR Thermometers are a heavy-duty IR dual-laser thermometer with advanced temperature processing, high resolution optics and built-in LED Flashlight. Advanced system-on-chip engineering is the key ingredient of the series of long range infrared thermometers.

- Dual laser sighting
- Hi/low alarm
- MAX, MIN, DIF and AVG temp. settings
- Distance/Spot: 50:1
- Accuracy +/- 2%
- Temperature Range: -76° to 1832° (-60° to 1000°C)
- High intensity white LED flashlight
- High and Low audible temperature alarms

**BK248** Extra Long Range IR Thermometer $359.95
TYPE I SAFETY CANS
EASY-TO-FILL AND EASY-TO-USE, AND THE ECONOMICAL CHOICE FOR FLAMMABLES

Compliant Type I Safety Cans are designed with a single spout to filling and pouring. The self-closing, leakproof lid controls vapors and provides security from spills and leaks.

- Fully compliant - meets OSHA and NFPA Code 30
- Premium 24-gauge coated steel body and handle durability and chemical resistance
- Quality backed by exclusive 10-year warranty

TYPE II ACCUFLow™ TRANSFER CANS
COMBINE SAFETY WITH MAXIMUM CONVENIENCE WHEN HANDLING FLAMMABLES

Compliant Type II AccuFlow™ Safety Cans offer additional convenience with two openings: top opening with ergonomically designed life lever for easy filling, and a second opening equipped with a flexible metal hose for targeted pouring into small apertures. The ½" x 9" hose also provides a safe bonding path to the receiving vessel. Patented, innovative manifold automatically vents to provide fast, precision, glug-free pouring. 

Ship. wt. 9 lbs.

SAFETY CAN CABINETS
CENTRAL STORAGE FOR YOUR FLAMMABLE LIQUIDS

Now you can have on-site storage for your flammables or combustibles. These cabinets offer hands-on easy access with minimal exposure plus provide central storage for your corrosive liquids. They save traveling time, minimize employee exposure and seal off your flammables when temperatures get too high. As high-quality safety storage cabinets, they’re designed to meet safety requirements in a variety of applications such as laboratories, production areas, schools, hospitals etc., wherever space for flammable and hazardous liquids is needed and at a premium. For even more space-saving storage try the Undercounter Storage Cabinets. They mount flush with other cabinetry and feature vent openings in back wall. Ship. wt. 190 lbs.-387 lbs.

CHECK OUT THESE OUTSTANDING FEATURES:
- Double-Wall Thermal Barrier: Cabinet puts an 18-gauge, double-wall insulated air between you and your flammable liquids
- Maximum Storage/Efficiency: Reinforced shelves have built-in troughs, and leak proof wells to contain spills
- Locking Mechanism: 3-point lock with fail-safe closing mechanism
- Tri-Lingual Label: English, Spanish, and French
- Dual Vents: Vents are strategically placed with built-in flash arresters
- Leakproof Sill: Base of cabinet is a full 2" deep to contain spills
- Superior Powder Finish: Powder coat, high-gloss, paint finish resists solvents, acids and alkalies
- Adjustable Leveling Feet: Adjustable at all four cabinet corners to ensure proper alignment for tight door closure

CABINETS COME IN HI-GLOSS YELLOW ONLY

SINGLE SENSOR GAS DETECTION SYSTEMS

The Xintex Single Sensor Gas Detection Systems are engineered for all vehicles operating on natural gas (LNG or CNG) or propane (LPG).

- Compact, integrated design incorporates the sensor and monitor in a single unit
- Provides early warning of dangerous gas levels in the cab
- Visual alarm at 20% and audible alarm at 50% of the L.E.L.
- Ideal for all CNG / LNG conversions and fleet vehicles
- Yellow “Fault” LED indicates any system issues
- In-line audible horn
- “Test and Reset” membrane touch button
- Fast, simple installation
- Low power consumption

CG2 & MA2 SERIES AUTOMATIC FIRE EXTINGUISHING SYSTEMS

A CLEAN AGENT SYSTEM

Featuring the HFC-227ea with coverage from 25-1,500 ft³ (0.7-28.3 m³) for engine rooms, machinery spaces, and other enclosed spaces for Class B fires. Factory Mutual and USCG Approved - Clean Agents are approved by all notified bodies.

CG2 SERIES
- Automatic discharge only (@ 175˚F / 79˚C)
- Engine rooms up to 1,000 ft³ (28.3 m³)
- Vertical or horizontal mounting
- Heavy-duty mounting bracket
- Helm display

MA2 SERIES
- Automatic and manual discharge when used with a Fireboy manual discharge cable (sold separately)
- Engine rooms up to 1,500 ft³ (42.5 m³)
- Vertical or horizontal mounting
- Heavy-duty mounting bracket
- Helm display

For more information and to order, contact Darley at 800.323.0244 or visit www.edarley.com/brands/fireboy-xintex

FIREBOY®-XINTEX® CMD5-MB BATTERY POWERED CO ALARM

The Xintex CMD5-MB CO alarm uses a sensor operating with a microprocessor to measure Carbon Monoxide (CO) levels. Using a “TimeWeighted Average” (TWA) process, it monitors CO concentration, temperature and time to calculate levels of Carboxyhemoglobin (COHb). COHb is the degree to which the oxygen carrying capacity of the blood is impeded by the union of carbon monoxide to the hemoglobin and is expressed as a percentage. The human body absorbs CO easier than oxygen and COHb is the ratio of absorbed carbon monoxide to oxygen in the bloodstream. The CMD5-MB alarm calculates this COHb as a function of time and determines the appropriate alarm response.

- Internal battery power - no external power required
- Electrochemical sensor
- Rapid start-up - no “burn-off” period
- More stable sensing
- Reduced false alarms
- Extremely low current draw (<4 mA)
- Modern, low profile design for inconspicuous protection
- Multiple location warning

SPECIFY COLOR: White or Black

For more information and to order, contact Darley at 800.323.0244 or visit www.edarley.com/brands/fireboy-xintex
FIREBOY MAE FIRE DETECTION & SUPPRESSION SYSTEM

PRE-ENGINEERED SYSTEM

The new patent-pending Fireboy MAE pre-engineered fire detection and A-C or A-B-C rated suppression system is designed to protect enclosed spaces up to 3,600 cu. ft. The easy-to-install complete kit uses 3M™ Novec™ 1230 Fire Protection Fluid and an electric release.

FEATURES:
- Pre-engineered system
- Complete kit
- Fast installation with one technician
- No engineering or piping calculations required

PERFECT FOR USE IN:
- Server rooms
- Laboratories
- Computer rooms
- Media storage
- Clean rooms
- Textile manufacturing
- Military applications
- Historical collections
- Other enclosed spaces

For more information and to order, contact Darley at 800.323.0244 or visit www.edarley.com/brands/fireboy-xintex

FIREBOY PORTABLE DRY CHEMICAL ABC FIRE EXTINGUISHERS

Each extinguisher features a heavy-duty steel cylinder with a metal valve and pressure gauge, and is rechargeable. The 5.5, 10 and 20 lb. models include a wall hook, hook ring and hose with strap. A heavy-duty USCG approved marine/vehicle bracket for mounting in boats or motor vehicles is included with the 2.5 and 5.5 lb. models. A white 2.5 lb. model will also be available soon for Marine use. Vehicle/marine brackets are optional for the 10 and 20 lb. models.

HOSE PIN RACK UNITS

Darley® Pin Rack Units are designed for standpipe use and are assembled and packaged before shipment. Furnished with a rough brass valve, red enamel rack and machined brass nipple, couplings and nozzle. They consist of U.L. listed and F.M. approved valve, rack hose and nozzle as follows:

1½” Assembly: Includes 1½” angle valve, hose rack, 1½” rack nipple, 1½” rack light hose, 1½” couplings, pin or rocker lugs and 1½” fog nozzle.

2½” Assembly: Includes 2½” angle valve, hose rack, 2½” rack nipple, 2½”x1½” reducer, 1½” rack light hose, 1½” couplings, pin or rocker lugs and 1½” fog nozzle.

For more information and to order, contact Darley at 800.323.0244 or visit www.edarley.com/brands/fireboy-xintex

CUSTOM PUMP SOLUTIONS

SELF-CONTAINED NFPA 13D SPRINKLER SYSTEM

The Just Add Water System (J.A.W.S.) is everything you need to provide pressure and flow to a residential fire sprinkler system in a self-contained package. J.A.W.S. is designed with the contractor in mind; efficient, reliable and easy-to-install. Just add water, connect to plumbing and your power source and the J.A.W.S is ready to go.

FLEXIBLE PUMP THAT MEETS A WIDE RANGE OF PSI AND GPM REQUIREMENTS

PERFORMANCE
• 30 PSI: 20, 25, 30, 40, 45, 50, and 55 GPM
• 40 PSI: 20, 25, 30, 45, 50, and 55 GPM
• 45 PSI: 20, 25, 30, 40, 45, 50, and 52 GPM
• 50 PSI: 20, 25, 30, 40, 45, 50 GPM
• 55 PSI: 20, 25, 30, 40, and 43 GPM
• 60 PSI: 25, 30, and 35 GPM

PUMP & MOTOR INFORMATION
• Pump and Motor: All stainless steel construction
• Motor: 2 HP 230V 1 phase 13.4 amp

DIMENSIONS
• 57"L x 29"W x 73"H

FEATURES
• Easy to install
• Low cost of ownership
• Quiet operations
• Easy to install
• Low cost of ownership
• Quiet operations

SELF-TESTING HYDRANT BOOSTER

BOOST HYDRANT PRESSURE IN ANY AREA WITH INADEQUATE WATER PRESSURE

The Darley Self-Testing Hydrant Booster is your solution for consistent, reliable hydrant pressure for rural areas or any area with inadequate water pressure. Have water pressure when you need it, where you need it.

• Production Rate: Up to 300 GPM @ 250 PSI
• Patented self-testing technology
• Mounted on a fully integrated skid unit
• Self-test is a real test based solely on the pump’s reaction and performance when a true drop in pressure is created on the discharge line
• Panel contains full web browser capability and its own IP address
• Status of pump running, test mode activation, test successful and system fault light can be monitored from the web and emailed
• Panel is a single point connection design that holds controls for both the primary pump and jockey pump, reducing installation cost
• Jockey Pump is controlled by a variable speed VFD controller that helps further reduce set up time and pump hammering, and prolongs the life of the pumps
• Also includes manual start button
• Automatic operation

DUAL PURPOSE DRYER
DRIES HOSE OR CLOTHING IN JUST A FEW HOURS

The Dual Purpose Dryer allows hose and turnout gear to be dried quickly and safely, minimizing shrinkage while ensuring a rapid return to service. When emergencies arise, you want your equipment ready to go, so it’s essential to get hose and turnout gear back into service as quickly as possible. Our high capacity drying cabinet handles up to 500’ of 5” hose. Ten removable galvanized steel shelves permit other items to be dried in the cabinet, and a 12-hr. timer shuts down the dryer automatically. You’ll use less energy and never overheat and damage the hose. Call for detailed specifications. Ship. wt. 1,100 lbs.

SPECIFY VOLTAGE REQUIREMENTS
AJ457 Dual Purpose Dryer $9,895.95

PPE EXPRESS DRYER
RAPIDLY DRY UP TO FOUR SETS OF GEAR

Circul-Air PPE Express Dryer can quickly dry up to four sets of turnout gear, boots, hoses, and gloves.

- Dry hoses, boots and gloves
- No additional accessories needed
- Durable powder coat finish
- Conforms to NFPA 1851
- 1000 CFM
- 6 year warranty
- Independently Verified – ETL/CSA Listed
- Dimensions: 34"Dx72.5"Hx40"L
- Weight: 450 lbs.

INCLUDES:
- 5 - Metal gear hangers
- 5 - Metal glove hangers
- 4 - Removable hose/boot drying shelves

BN535 PPE Express Dryer 240V $7,295.95
BN536 PPE Express Dryer 208V $7,295.95

THE AUTOMATIC FIRE HOSE WASHER
“IT ALL COMES OUT IN THE WASH”

You’ll be amazed at how thoroughly, easily and quickly this remarkable cleaner does its job. Ashes, dirt, silt, mud and sludge are all scrubbed and flushed away, restoring hose to its original color. Quiet, chain-drive operation eliminates need for service and repairs. Built to last a lifetime and equipped with long wearing, genuine nylon brushes. Check out all the great features of the Automatic Fire Hose Washer. Ship. wt. 680 lbs.

- Hose is Self-Propelled: Convenient foot pedal applies pressure on pivoted wringer roll, pulling hose through the washer under its own power
- Uniform Washing: Wringers propel hose through washer, ensuring an even, uniform cleaning at a rate of about 30 ft. per minute
- Cleaning Action: Hose is soaked in immersion tank filled with lukewarm or cold water. Add detergent as you see fit

H887 Automatic Fire Hose Washer $11,448.95
H686 Hose Loading Table $1,285.85
RED RACK™ STORAGE SYSTEMS

The open air design of Red Rack™, along with our Dry Kwik accessories, provides for free air circulation and helps dry PPE much faster. As a result, mold and mildew will not prematurely destroy the fibers of your gear and it will last longer. Red Rack™ components are coated with a durable red powder coat finish.

STANDARD FEATURES:

- 20” and 24” wide sections
- 20”Dx72”H compartments
- Adjustable helmet shelf
- Adjustable boot shelf
- Adjustable apparel hooks
- 2 - Hanging hooks per compartment
- Heavy-duty powder coat finish
- Label holder for nameplate
- Horizontal hanger rod

Count on the superior design of the new Red Rack™ as your storage system. This open-air design helps for a much quicker dry for any gear. As a result, mold and mildew will not destroy the fibers of your gear and it will ultimately last longer. Designed to stand up to the rugged demands of the Fire Service Tubular steel design is the strongest configuration on the market and does not require a rear grid. Open back design allows easy access to your station’s building code approved electrical outlets.

BL124: Security option single sided

INCLUDES:
- Top security shelf
- Rear security panel
- Lockable door

BL123 USA Single-Sided Mobile Red Rack™ $1,417.95
BL124 USA Single-Sided Mobile Red Rack™ $2,348.95

S.O.S. RACKS

Design accommodates SCUBA cylinders, Oxygen bottles, and SCBA cylinders. The modular design allows you to configure each compartment with any combination of specialized shelves and/or flat shelving for gear bags, turnout gear and dive gear storage/drying. The S.O.S. Rack features four 1,050 lb. capacity casters and is constructed of heavy duty steel tubing with high strength wire. A durable powder coat finish protects the rack and will provide years of service.

- Dimensions: 32"Dx81"Hx76"L
- Store up to 18 low profile SCBA cylinders per vertical section
- Flat shelves available for gear bags and other equipment
- Specialized bottle shelves hold SCUBA, Oxygen, and SCBA cylinders securely
- Legendary Ready Rack quality
- Ships knocked down to save you money

BH145 S.O.S. Rack $1,821.95
BH146 S.O.S. Rack Bag Storage with 12 HBS Shelves $1,886.95
BH147 S.O.S. Rack Cylinder Storage with 12 V Shelves $1,886.95

- Built out of strong plastic and features a 12' cord
- Supports around 100 lbs.
- Handle transporting convenience
- Plastic tubular shape forces the air through the suit with pressure
- Fan features a die-cast aluminum housing, steel impeller directly welded onto the rotor, ball bearing
- **Motor Output:** 250.1 CFM
- 5-year warranty, activated on date of purchase

**BP074** Hang-Dry® - Black $199.95
**BP075** Hang-Dry® - Yellow $199.95
**BP076** Hang-Dry® - Red $199.95

**VERSAMIST® MISTING FAN**

The VersaMist® portable misting fan combines low pressure mist and high speed air movement to create cool comfort indoors or out for athletes, rescue squads, firemen, construction workers, assembly line workers, tents, patios, pool decks and other hot spots.

- 18" UL507 rated, imported 3-speed fan; up to 6600 cfm
- 1.4 tons (16,000 BTU/hour) of cooling capacity
- Cools the air up to 30°F
- Runs on 115V; 12V and 220V models available
- Large 10 gallon reservoir allows 5 hours of continuous use
- Low pressure mist pump enclosed in rugged enclosure with tip switch
- Includes 25' outdoor-rated power cord with integrated GFCI
- Also available with wheels for greater flexibility and convenience (BH028)
- 2-year limited warranty
- Made in the USA

**AS431** VersaMist® Misting Fan $641.95
**BH028** VersaMist® Misting Fan with Wheels $695.95

**MAXXDRYXL™ BOOT, SHOE AND GLOVE DRYER**

ELIMINATES ODOR! DRIES IN ABOUT 1 HOUR!™

The MaxxDryXL™ uses DryComfort™ “Forced Air” technology to gently dry four garments in about an hour. MaxxDryXL™ works quickly to remove moisture, perspiration, bacteria and mold - the primary cause of odor! A totally flexible multi-dryer dries a combination of tall boots and short boots, boots and gloves, two pair of gloves and requires no additional attachments. Whether using heat or not, the MaxxDryXL™ will not harm materials.

- **DryComfort™ “Forced Air” Technology**
- 4 durable air chambers for simultaneously drying
- Kills odor
- High impact lightweight construction
- Heat / no heat switch
- 3 hour timer
- **Quiet:** 80,000 hour-rated whisper quiet rotary blower
- **Dry Time:** Approximately 1 - 2 hours
- **Power:** 120V AC household outlet
- **Dimensions:** 9"Dx10.75"Hx9"W
- **Max. Temperature:** 105°F / 40.5°C
- **Cord:** 6' length
- **1-year warranty**

**BL620** MaxxDryXL™ Boot, Shoe and Glove Dryer $63.95

**FAST DRY COAT HANGER**

Keeps expensive coats organized and dry! Gear dries quicker because air circulates better inside the garment, allowing fabric-fibers to dry faster. Specify open or closed hook style. **Ship wt. 1 lb.**

**AF072** Fast Dry Coat Hanger $9.95
FREESTANDING & MOBILE HOSE CART

Save time and eliminate back strain from carrying hose with the Hose Cart. Mobile unit has heavy-duty brake casters that allow for ease of rolling and hold the cart in place when loading or unloaded. Heavy-duty steel rails with a durable red powder coat finish easily support 100’ coils. Ships knocked down for freight savings. Easy to assemble. Available in 2 or 3 tier units mobile or freestanding. Freestanding model may be bolted to floor for additional stability. An optional cover plate (AR117) provides a flat surface for holding bottle carriers or other items. Ship. wt. 315-560 lbs.

ACCESSORIES

| AR117 | 20” x 31” Cover Plate | $82.95 |
| AS213 | Hose Winder          | $524.95 |

LARGE DIAMETER HOSE WINDER

Wind 100’ sections of LDH up to 6” wide in seconds. Having the ability to steer the winder while rolling the hose, the Large Diameter Hose Winder (LDHW) turns winding into a one-man operation. With no need to recharge batteries, downtime is drastically reduced. The LDHW drains the hose as you wind it, prolonging hose life. Reduces the risk of back injuries by limiting firefighter fatigue.

- 2 - Swivel with brake casters
- 2 - Rigid with brake casters
- Dimensions: 48”Lx36”Wx 49”H

CYCLONE DRYING SYSTEMS

For all firefighters who need fast effective drying of their gloves, boots and turnout gear. Heated air blows through vented drying arms to quickly dry wet gear from the inside out - providing comfort, eliminating mildew and ensuring safety in high heat situations. Boots and gloves are dry in an hour. With drying arm extensions to reach further down the arms of coats or the legs of pants the BK402 can dry 1 set of wet turnout gear in about 2 hours, a fraction of the normal time. Cyclone Dryers can be plugged into an existing 120v wall outlet and once anchored to standard 16" wall stud centers extend less than 14" from the wall. Fit with an efficient, custom motor, these dryers boast very low operating costs and unbelievably low noise levels. A digital 120-minute timer allows you to set the time needed for drying and forget about it.

- Weight: 65 lbs.
- Dimensions: 17¼”Wx66”Hx13½”D

**THE HOSE COILER**

**ROLL HOSE QUicker AND EASIER THAN EVER**

Designed by a firefighter to make it quicker and easier to coil 1" to 3" double jacket hose in lengths up to 50 feet (single jacket forestry hose in lengths of 100 feet). Simply attach the mounting bracket to the rear of your apparatus, pickup truck or any emergency vehicle waist-high, insert the coiler crank and roll away. The coiler itself is made of two parts which nest together for compact storage. Once the hose is coiled simply remove the tight coil from the inside section and you’re done; no more bending over to pick up heavy coils. Use this system anywhere you choose to install the mounting bracket (included). Also available are trailer hitch mounts. Call for pricing. Fits in hitch receiver and Wildland Mounts pound in the ground.

**DRY AND STORE HOSE RACK**

With the Dry and Store Hose Rack, you can dry hose and store it on the same unit. Unit consists of the top mounted drying rack where hose and other equipment dries naturally and quickly, and one lower level storage rack. Dry up to 900’ of 1½” to 1¾” hose or up to 600’ of 2¼” to 3¼” hose and simultaneously store up to 650’ of 2¼” hose. Heavy-duty steel construction with durable red powder coat finish. Ideal for use in smaller stations. Ship. wt. 330 lbs.

**BB039 Dry and Store Hose Rack**

$2,203.95

---

**MOBILE HOSE DRYER**

With the Mobile Dryer, equipment dries naturally and quickly with fresh air, prolonging the life of your equipment. Used to dry immersion entry suits, wet or dry dive gear, and decontaminated hazmat entry suits. The Mobile Hose Dryer holds up to 1200’ of 1¾” or 1½” or up to 800’ of 2½” - 3” hose. Ship. wt. 290 lbs.

- SAFE - no more climbing to hang or retrieve hose
- Costs thousands less than conventionally built towers
- Stores and dries in small area
- Durable red powder coat finish
- Dimensions: 80’lx33’lx88’h

**AS703 Mobile Hose Dryer**

$1,932.95

**HOSE RACK BRACKETS**

**BUILD YOUR OWN HOSE RACK**

**WALL MOUNTING BRACKET**
Salvage-Master’s ability to remove water from deep floor cracks, carpets, tile, concrete, asphalt and wood floors greatly reduces overall fire or spill damages and subsequent insurance losses. In addition, Salvage-Master’s fast action performance (the 5.9 gallon tank fills in 18 seconds and empties in 14 seconds) helps prevent warpage, curling floors and seepage through ceilings. As an extra convenience, Salvage-Master features a special float device that automatically activates a high-pitched sound to indicate when the tank is full. Comes complete with a rubber squeegee, GFCI plug, and 1-year warranty.

- Shoulder On/Off switch
- 5.9 gallon tank capacity
- Drain hose
- Two piece wand
- Ground fault circuit plug
- 50' electrical cord
- Ship. wt. 35 lbs.

Salvage-Master Wet Vacuum

**HIGHLY EFFICIENT WET VACUUM UNIT**

The “Mop-up” Pump is perfect for flat roofs, flooded garages and basements. Features a unique non-return valve built-in just below the impeller. Liquid will stay in the pump and pump-line after shutdown and not release out on the floor. The pump bottom is rubber clad to protect against damage to the floor surface. It will pump down to 1/16 of an inch, and start up in only a small puddle of liquid.

**"MOP-UP" DEWATERING PUMP**

**IF YOU NEED TO MOVE 1,000 GALLONS OF WATER FAST, WE’VE GOT THE PUMP FOR YOU!**

The “Mop-up” Pump is perfect for flat roofs, flooded garages and basements. Features a unique non-return valve built-in just below the impeller. Liquid will stay in the pump and pump-line after shutdown and not release out on the floor. The pump bottom is rubber clad to protect against damage to the floor surface. It will pump down to 1/16 of an inch, and start up in only a small puddle of liquid.

**Ship. wt. 27 lbs.**

- Superior motor, with protection for longer life
- Less maintenance and less downtime

**AF412 “Mop-up” Dewatering Pump** $603.95

**SALVAGE-COVERS AND RUNNERS**

**Canvas**: Treated with a fire and water resistant finish. Meets requirements for California State Fire Marshall, NFPA-701 (large scale), and CPAI Section 6. Water-resistant finish and mildew inhibitors added. **Color**: Green.

**SLIDING POLE LANDING MAT**

No fire station equipped with a sliding pole should be without a landing mat. It’s 2” thick foam pad with unicell construction which helps cushion landings. Measures approximately 32” in diameter with a 3 1/2” center hole. The materials are similar to those used in marine applications and as such are impervious to oils and will resist dry rot. Installs by sliding over top of station pole. Also available for larger or smaller diameter poles. **Ship. wt. 10 lbs.**

**RUNNERS WITHOUT GROMMETS**

**FIRE BROOM**

The hardwood handle, stiff textured Palmyra fiber and metal cap are locked under tons of pressure to prevent loose handles and fiber fallout. Bonded red finish, inside and out, to resist chipping, flaking and rusting. This broom has been designed to exceed the rigorous demands of fire suppression work while being light enough to be easily carried to remote areas; it’s used by fire fighters under the harshest of conditions. **Overall length**: 53”.

**BEST SELLER**
FIREBASE SG-Z1200 SMOKE GENERATOR

The Z-Series dominates the entry level price range small to medium scale smoke generator market with its high performance fog output and high tech features. The Z-Series is equipped with the ECO thermal control system and the patented UNICORE heater technology. The Z-Series comes with a high quality pump and electronic low-fluid detector also known as Thermal Cut-Off (TCO) which automatically shuts off the pump when the fluid level is low, protecting the machine from damage. The Z1000 and Z1200 heater cores can easily be taken out from the heater block for a quick and easy cleaning to prevent clogging and insure trouble-free performance.

FEATURES:
- Higher output/Low fluid shut off
- Easily removable heater core
- Integrated DMX control

INCLUDES:
- Timer remote - SG-Z1200-Timer
- Optional wireless remote (Contact Darley for details)

BN765  Firebase SG-Z1200 Smoke Generator $724.99
BN767  Fire Rescue Smoke Fluid - XD Formula $23.99

BATTLE FOGGER

The Battle Fogger’s simple design is an extremely effective fog machine incorporating a large heating block, a strong whisper-quiet pump, and our cutting-edge Rapid Change Technology (RCT) capillary tube replacement system. The large one-gallon integrated fluid tank prevents leaks and drips, a special hammer-tone finish resists scratches and wear, and a built-in handle balances off the sleek, rugged chassis. The Pro Fogger comes standard with a 25’ deluxe remote, and onboard microprocessor, a built-in hose adapter, and a replacement RCT capillary tube kit. Ship. wt. 25 lbs.

AW352  Battle Fogger $1,205.95
AW415  Smoke Fluid, 4-Liter $58.95

SUPERIOR SMOKE MACHINE

With a powerful 1300-watt heating core and reliable high-pressure piston pump, this machine delivers an impressive output of 4800 cfm. It will quickly fill your training area with dense, persistent, non-irritating smoke with excellent obscuring power. Comes standard with 32-foot wired remote control featuring a selection for manual or self-timed operation. Simply set the control flow rate, duration of smoke blasts and interval between blasts. The Superior Smoke Machine will continuously refill an area with smoke at a steady, constant rate. Other features include thermal cutoff to prevent “wet smoke” and LED status lights. Unit holds one gallon of smoke fluid. UL listed. Ship. wt. 32 lbs.

AM240  Superior Smoke Machine $837.95
AM241  Smoke Fluid, 1-Gallon $42.95

PASSFIRE™ BURN PAN TRAINING UNIT

The Halcyon Product’s Passfire™ Burn Pan Training Unit is a cost-effective, portable solution for contained, controlled burns for training purposes. It is used by fire departments and training firms for fire extinguisher training.

- Conduct safe, inexpensive fire extinguisher training
- Firefighter designed and approved
- Helps businesses and organizations comply with OSHA 1910.157
- Uses clean burning propane and is environmentally-friendly
- Fire is contained within the deep, durable stainless steel pan and does not affect the surrounding training areas, eliminating mess and damage
- Sturdy supports for set up on any flat surface
- Contains quick disconnects for easy set up and tear down and provides additional security, controlling the supply of propane to the copper burn element
- Drain in bottom of pan for easy clean up and water disposal
- 25’ propane hose
- Dimensions: 25”Lx25”Wx16”H
- Ship. wt. 57 lbs.

BK069  Passfire™ Burn Pan Training Unit $2,944.95
FIRE STATION REELS

SPRING DRIVEN HEAVY DUTY HOSE REEL
The SH Series “Super Hub™” spring driven hose reels have a long history of dependable performance. The larger chassis and frame accommodate longer lengths and larger diameters of hose. Coxreels’ original Super Hub™ dual axle support system increases the stability during operation, reduces vibration, and strengthens the structural integrity of the reel. Model equipped with EZ-Coil® System that provided controlled hose retraction reducing the rewind speed by as much as 80% over conventional reels.

NEW

DUAL PURPOSE AIR/ELECTRIC REEL
The C Series “Combination” spring driven air hose/electric cord reels are two reels in one compact assembly. They are perfect for applications that require pneumatic air and an electrical power feed. The single expanded mounting base creates stability and adds to the convenience of one mounting pattern.

NEW

POWER CORD REEL
The PC Series spring driven “Power Cord” reels are heavy duty, industrial grade power sources. They replace tangled extension cords and self-retract to increase safety, productivity, and efficiency. Modeled after the P and SH Series, the PC Series is designed for long-lasting, hassle-free performance even under the most demanding conditions.

NEW

HAND CRANK HOSE REEL
The 1125 Series hand crank hose reels have the features demanded by industry professionals. The industry preferred design features a sturdy one piece all welded “A” frame base, low profile outlet riser and open drum slot design provides a non-crimping, flat smooth hose wrap.

NEW

SINGLE-PHASE OR THREE-PHASE SIREN WITH PROJECTION HORNS

With over 3,000 units in service world-wide, this rock solid model has seen it all. The 3V8-H features a 5 HP, continuous duty motor pushing its aluminum rotor and is rated at 109 dB(c) @ 100 ft. continuously*. At home in a variety of environments, the 3V8-H is a seamless fit in the Mining, Industrial, Shipping, and Manufacturing industries. Of course, the majority of 3V8-H’s will find their way to the tops of utility poles where they will warn of approaching tornadoes or burning fires. The 3V8-H is available in single or three phase power. The siren is available in a DC/battery primary configuration. Shipping wt. 400lbs.

OMNI-DIRECTIONAL SINGLE-TONE SIREN

If your application requires a siren at the top of the food chain, then the Darley 14V is where your search ends. This siren partners a 91% efficiency premium three phase, 15HP, continuous-duty motor with omni-directional projection horns for maintenance-free service. The design is compact, and installation is simple. The best part? This siren, rated at 127dB(C)*, is the most powerful omni-directional single-tone siren in production! The biggest, the best – the Darley 14V. Estimated 70dB(C) effective range: 1-2 miles. AC version available in three phase power only. Shipping wt. 800lbs.

BN685 | 15 HP Warning Siren, Three-Phase Power | $8,704.95 |
E-5 PREMIUM FIRE & INDUSTRIAL TONE AND SOUNDER
The ER-5 is the next generation of premium industrial or fire alarm sounders with 45 different tone options. The ER-5 is housed in a robust fire retardant Type 4/4X/3R/13, IP66 housing ensure the siren is suitable for all general signaling applications including fire, security and process control. For applications with high ambient background noise, combined siren and strobe units are available.
- Up to 126 dB peak SPL
- 45 user selectable tones
- Integrated Xenon or LED strobe available
- UL, CSA, and cULs approvals
- IP 66 protection for harsh environments

110V ELECTRO-MECHANICAL INDOOR/OUTDOOR ALARM SIREN
Tens of thousands of satisfied customers have used this siren in a wide range of industrial, municipal, and emergency signaling applications. This siren employs a carefully machined and balanced aluminum fan and housing, and aluminum, powder coated projectors. The air intake is screened to protect against foreign matter. Corrosion protected, it is suitable for permanent outdoor installation. The model F-2 tested @ 117 dB. @ 10 ft. outdoor, 113 dB. @ 10 ft. in an anechoic chamber, and at 103 dB(A) in a reverberant room to U.L. Standard 464. This model runs on 120 volt AC/DC power, with running amperage of 2.5 amps. It can also be ordered in 240/250 AC/DC. Ship. wt. 13 lbs.

E-6 INDUSTRIALWARNING SIREN
For areas with high ambient heat or significant dust/sediment in the air, look no further than our model E-6. Featuring 45 different tone options, output levels up to 126dBA at 10ft., IP66 rating, and adjustable volume control, the E-6 is a perfect fit for indoor industrial applications, schools, fire station bays, and more. Ship. wt. 7 lbs.
- Continuous duty rated
- Stainless steel bracket
- Ratchet adjustable for 360° mounting
- Duplicate cable terminations for daisy chain installations
- High output warning with minimal power draw
- 45 selectable alarm tones to distinguish this unit from other sounders
- Intense, focused sound for maximum effectiveness with adjustable volume control

G3 SIREN CONTROLLER
WIRELESS SIREN ACTIVATION AND CONTROL
- Integrates seamlessly into most existing radio systems
- User programmable
- Does not use proprietary software
- Whip antenna standard
- Compatible with two-tone sequential or DTMF standard. FSK available
- VHF or UHF standard. 800MHz, 900MHz, low band available
- Two-way/report back communication available (G5 series)
- Windows based programming environment
- Battery backup capability available

G1 SIREN CONTROLLER

Ask About Darley’s Special Quantity Discounts
TERMS AND CONDITIONS

100% SATISFACTION GUARANTEED OR YOUR MONEY BACK

PRICING

Prices listed in this catalog are current as of June 1, 2020. Due to the wide selection of products being offered, prices may change without notice. We also reserve the right to make corrections in the event of a misprint. Please confirm pricing with a Darley® representative at time of order. Volume discounts are available. Darley will match pricing on any lower offer from another supplier.

OPEN ACCOUNT TERMS

Terms of Net 15 Days shall be extended to city and other governmental agencies in good standing. These terms are also granted to businesses rated “good” or “high” and have a rating from CC to 5A by Dun & Bradstreet. Those companies that do not have a D&B rating in this range should contact our Credit Department at 1-630-735-3500 for a complete credit application. We encourage new customers placing their first order to make their initial payment by check or credit card. This will help avoid any shipping delays that may occur during the credit review process.

ORDERS PLACED BY INDIVIDUAL

All individual orders must be accompanied by full payment (cashiers check, money order or credit card) plus shipping charges and applicable state tax. We accept Visa, MasterCard, and American Express.

SALES TAX

We are required by law to add sales tax to goods shipping into the following states: CA, CO, FL, GA, HI, IA, IL, MN, NC, OH, PA, SC, TN, TX, VA, WI, WA. State laws require us to have your signed exempt/resale certificate on file at our offices. We will be forced to charge you sales tax, if we do not have this documentation. All sales to individuals in these listed states are always taxable.

ORDER FORMS / TURNOUT MEASUREMENT GUIDE

Now available online at: www.edarley.com/ordering and www.edarley.com/turnoutmeasuring

Please Add Shipping and Handling

PRE-PAID DOMESTIC ORDERS

• Order will ship most economical way unless otherwise requested.
• Rates apply to prepaid orders shipped via UPS Ground.
• All other charges will be invoiced at the actual freight charge plus $2.50 for handling & insurance.
• Maximum weight allowed per package is 70 lbs.
• Maximum size per package is 108” (length & girth).
• Rates apply to U.S. Continental 48 States.
• Hazardous Material charges are additional.

DAMAGED GOODS / SHORTAGES

In the event that you receive a damaged or short shipment, you must immediately file a claim with the carrier. Under ICC regulations this claim is the consignee’s (your) responsibility. Please contact our Customer Service Department 1-800-4-DARLEY for assistance.

NO HASSLE RETURNS

Please contact our Customer Service Department at 1-800-4-DARLEY. For return instructions. A return authorization number (RMA) will be required.

RESTRICTED SALES ITEMS

Darley® carries a wide range of products intended for sale to public safety professionals. Orders for goods including, but not limited to, badges, personal identification, emblems and nameplates must be placed on department letterhead with official identification.

CHANGE OF ADDRESS / DUPLICATE MAILINGS

It’s important for Darley® to keep our mailing lists as current as possible. Please advise us of any change of address or personnel. In the event you’ve received duplicate mailings, simply scan the back of the catalog and email changes to catalog@edarley.com. As a token of our appreciation, we’ll take $5 off your next purchase.

GOVERNMENT ORDERS

Darley offers many products throughout our catalog which can be ordered at substantially reduced government pricing through the GSA schedule:

• Phone: 630-735-3500 for a GSA quote
• Email: GSA@darley.com for a GSA quote

SCHEDULE 84: GS-07F-0387Y
SCHEDULE 78: GS-03F-044CA
SCHEDULE 23V: GS-30F-006GA
SCHEDULE 56: GS-07F-180GA

Darley Defense has a wide range of firefighting, special operation, training and defense capabilities across categories ranging from PPE gear packages to service and training. We pride ourselves on serving the world’s first responder and tactical communities by providing high-quality, safe, and innovative products with unmatched customer service and expertise. We maintain a growing list of vendor partners, committed to creating unique solutions for any mission requirement.

OUR TEAM

The Darley Defense Team consists of subject matter experts, many of whom are former operators and veterans of the U.S. Military, with extensive knowledge of equipment, capabilities requirements and federal procurement options. Combining this expertise with a relentless focus on customer service and we work with one goal in mind: equipping our Nation’s first responders with the necessary capabilities to accomplish any mission.

PROCUREMENT

Darley offers industry-leading tailored equipment and training solutions vital to our customers unique mission requirements. The Department of Defense continues to recognize Darley’s integrity, reliability and customer focus awarding contracts through TLS, GSA, DoD FEDMALL, Unicon, S2P2 and GPC with focus on Fire and Emergency Services Equipment (F&E) and Special Operational Equipment (SOE). Not familiar with these contract vehicles? Let our team of experts guide you through the most efficient and cost-effective means to get you what you need.

PURCHASING

WE ASSIST UNITS WITH EDUCATION AND SUPPORT

- We can teach anyone in your organization to understand and utilize most DoD methods of resource acquisition.
- Tell us the operational or tactical capability you are trying to achieve, and we will show you several options that fulfill your requirement. If not, we will work closely with you and our vendors to create a solution.
- **Product Integrity:** Berry Amendment and TAA compliance, where applicable

CONTRACT OPTIONS

Darley Defense maintains numerous DoD contracts to find you the best possible solution including these vehicles and more.

The Aqua Blaster is a harness/frame which supports a fire hose with attached nozzle and can be operated by a single firefighter. The firefighter’s torso and lower body strength give enhanced control of the fire hose and nozzle. Advancing and maneuvering is done without assistance. The Aqua Blaster reduces injuries like chronic pains in the joints and back that are often associated with the long-term use of fire hoses. The flow control components of the Aqua Blaster consist of two 90˚ elbow swivels attached to a connecting tube. The Aqua Blaster allows the user to easily pivot to the left or right adjusting the direction of the water stream. The fire nozzle can be rotated up and down and locked at a fixed vertical angle.

**AQUA BLASTER FIRE HOSE HARNESS**

The Aqua Blaster is a harness/frame which supports a fire hose with attached nozzle and can be operated by a single firefighter. The firefighter’s torso and lower body strength give enhanced control of the fire hose and nozzle. Advancing and maneuvering is done without assistance. The Aqua Blaster reduces injuries like chronic pains in the joints and back that are often associated with the long-term use of fire hoses. The flow control components of the Aqua Blaster consist of two 90˚ elbow swivels attached to a connecting tube. The Aqua Blaster allows the user to easily pivot to the left or right adjusting the direction of the water stream. The fire nozzle can be rotated up and down and locked at a fixed vertical angle.

**AQUA BLASTER FIRE HOSE HARNESS**

- Fire hose can be maneuvered hands-free
- Hands-free operations is more balanced
- Reduces fatigue when a charged fire hose is being used for an extended period of time
- Ideal for exterior, Hazmat and Wildland firefighting

**BP294**
Aqua Blaster Fire Hose Harness $1,125.95

**CAR FIRE BLANKET PRO**

The fire and smoke are isolated within seconds of spreading the blanket over the car. Ideal solution for parking garages, shopping centers, hospitals, hotels, boat ferries, car dealerships, metropolitan areas, etc. Bridgehill car fire blanket pro is reusable and provides a quick and effective way to extinguish a car fire by removing oxygen supply. Toxic gases and smoke are stifled immediately in fossil fuel cars. Same immediate result is achieved in electric cars, whose batteries have not been affected by the fire. For more information on Lithium and Extreme Blankets, please call Darley.

**DIRECTIONS:**

- Unroll the blanket in front of or behind the car/ burning object
- Grab the handles in the corners, and pull over the blanket in one movement
- Wrap the blanket tightly around the car to reduce the supply of oxygen
- Fire is contained in minutes

**BP193**
Car Fire Blanket Pro $2,422.00

**BP195**
Lithium Blanket - 1.8x1.8 Meters $597.00

**BP196**
Extreme Blanket (Box of 10 pcs.) $2,313.00

**HA-5 TRANSPONDER**

**COLLISION PREVENTION, SAFETY CLOUD® SERVICE**

The HA-5 enables collision prevention service that delivers real-time digital alerts to let motorists know to slow down and move over for crews and apparatus any time the emergency flashing lights or E-Master is engaged. Motorists receive advanced warning, providing them more time to make safer, smarter driving decisions and comply with “Move Over” laws. When emergency crews are on-scene and responding, vital safety and road hazard information is sent to drivers via navigation apps and in-vehicle systems.

*Pricing does not reflect software subscription. Contact Darley for fleet pricing.*

**FEATURES:**

- Connects any flashing emergency lights
- Cellular, GPS, real-time Safety Cloud® connectivity
- 100% passive to crews and personnel
- Automatic low voltage shut-off
- No data plan required

**BP123**
HA-5 Transponder $399.00

**SPECIFICATIONS:**

- Dimensions: 5.4”x2.7”x1.3”
- Cellular: 3G or 4G LTE
- Input Voltage - Power: 12.5V - 15V
- Input Voltage - Flashing Lights Main Wire (E-Master): 12V - 15V
- Amperage: 120 mA peak draw
- Operating Temperature Range: -40˚ to 85˚C
- Weight: 7 oz.
**CHIEF XD™**

**NEWLY REDESIGNED FIXED FLOW CHIEF XD**

The Chief XD is the only handline nozzle that offers a forged shutoff body and forged metal bale handle for maximum strength. It also includes a standard full round metal ball for the best stream performance, as well as fixed molded urethane or spinning stainless steel metal teeth that don’t break.

- Forged aluminum shutoff body and bale handle
- Full round metal ball with perfectly aligned waterway
- Laser etched markings

**MULTIPLE CONFIGURATIONS**

**BN749**  
Chief XD™ - Mid-Range 1½" Free Swivel Base  
$731.95

**RAM XD™**

**BIG WATER...FAST**

Ideal for quick attack, high rise, and industrial applications, the RAM XD Rapid Attack Portable Monitor can be easily deployed by a single firefighter to flow up to 500 gallons per minute fast! Lightweight and compact, the RAM XD can lower down to 14° above horizontal making it easy to flow into overhead doors, traditional size man doors, or store fronts. It’s angled waterway shape and four foldout legs help to harness nozzle reaction making an extremely stable and safe design.

- Low 14° elevation angle
- 500 GPM @ 75psi operating measure
- Lightweight only at 19 lbs.

**SEE p8 FOR DETAILS**

**BN409**  
Ram XD™ Monitor  
$2,381.95
