

LARGE SCALE MULTI-FUNCTIONAL

This training system is everything you need to provide the means to keep your team proficient, alert and skilled. This multi-functional unit is comprised of eleven ISO container modular units. The possibilities are endless.

Multi-Functional

- Custom Configuration
- Live Fires
- Confined Space
- Rappelling
- Forced Entry
- SCBA Maze
- Ventilation
- Flashover
- Low Visibility (Smoke)
- Sound Effects
- Search and Rescue
- Hazmat
- Railcar
- Structural Collapse
- Submarine
- And more

Keep it Real

You can choose class-A fueled, gas fueled, or a combination of fuels. REAL LIVE fire will always create the most realistic training environment.

You can design each individual unit to a specific mission training objective.

Add portable interior props, to allow the ability to change it up, keep it fresh and challenging.

Cost Effective

A versatile and cost effective alternative to a fixed structural training system. This modular trainer is designed to meet your specific training needs.

Turn Key
