

SAFE WATER SOLUTIONS

“DARLEY WILL CONTINUE TO INVEST, RESEARCH AND APPLY SOLUTIONS IN THE WATER SECTOR TO RESPOND TO CLIMATE CHANGE AND THE WORLDWIDE WATER CRISIS.” – PAUL DARLEY, CEO

WHAT WE DO

Since 1908, W.S. Darley & Co. has been a leader in serving the world’s Fire and Emergency Services and Defense organizations. We are dedicated to excellence and offer a diverse line of quality products and services through progressive design, manufacturing and worldwide distribution.

We manufacture and design water treatment, water pressure, water storage and water distribution solutions. Our water systems gained acceptance by Humanitarian, Disaster Response and Military groups around the world.

- ▶ Corporate headquarters in Itasca, Illinois
- ▶ Manufacturing and engineering operations located in Chippewa Falls, Wisconsin and Janesville, Iowa
- ▶ 109 year old private, family owned company
- ▶ Over 70 years of experience working in Government contracting
- ▶ 150,000 square feet manufacturing and warehousing facility

MILITARY

Robust water systems are portable, scalable and modular. Designed to provide safe drinking water in the harshest conditions.

- ▶ Reduce the logistics burden for deployed teams
- ▶ Salt water treatment capabilities
- ▶ Produce safe water for tactical mission operations
- ▶ Quiet and austere water production

EMERGENCY RESPONSE

Portable emergency water treatment systems that can be deployed at a moment’s notice. Complete water packages allow you to build a contingency plan for water.

- ▶ Enable resilience in times of disaster or crisis
- ▶ Quickly deployable water systems to establish safe drinking water
- ▶ Bag in box packaged water delivery
- ▶ Customized water solutions include portable and fixed systems

WATER ENGINEERING PHILOSOPHY

- ▶ Economically efficient, environmentally responsible
- ▶ High technology, low maintenance
- ▶ Renewable Energy - Solar & wind
- ▶ Long life cycle - estimated 10+ years
- ▶ Non-proprietary and easy to source consumables
- ▶ System components tested to meet National Safety Foundation and Water Quality Association Standards

Cost effective solutions to enable safe water solutions for those in need. Basic system operations allow for easy usage amongst a wide range of populations.

- ▶ Build community empowerment
- ▶ Work with non-profits such as the Rotary Foundation
- ▶ Installation, training and long term support
- ▶ Creative project financing

Darley has executed Federal Government contracts dating back pre-WW II and was awarded the Army/Navy E Award for excellence in contracting during WW II. Most recently, Darley has performed for the following agencies:

- ▶ US Army HP350 water chlorination systems
- ▶ US Navy small unit water purification systems
- ▶ US Navy P-100 portable dewatering pumps since 1994
- ▶ US Coast Guard for P-6 emergency dewatering pumps since 1999
- ▶ US Marine Corps Systems Command for fuel and water transfer pumps
- ▶ US Army TACOM for fuel transfer pumps
- ▶ FEMA Tank and Pump residential fire sprinkler system

DARLEY WATER SOLUTIONS

STORAGE, TREATMENT, PRESSURE AND DISTRIBUTION

BAG IN BOX WATER
Affordable, sustainable, storable and portable water in a box

VERSA SEA PAK
Man-portable salt water purification system

VERSA FRESH PAK
Man-portable fresh water purification system

DARLEY SUNSPRING®
Decentralized water treatment system
