

SPECIFICATIONS

MODEL AFPS-6315-24VDC

Pump Model	E6315A
Pump Size	1-1/2" x 1-1/2"
GPM @ 25 Ft Total Head	35
Priming	Self Priming
Driver	24V Electric Motor
Operating Speed	~2300 rpm
Static Suction Lift in > 2 minutes	5'

- All major pump components made of aluminum
- Self lubricating mechanical shaft seal
- Equipped with quick couplings, security chains, dust plug, and dust cap
- Furnished with a suction strainer with 40 mesh openings
- Equipped with an Electrical/Junction Box providing:
 - connections for a slave cable
 - short circuit and overload protection
 - external switch for ON/OFF control of unit
- Powered by a 3/4 hp explosion proof electric motor
- Unit is equipped with a hand primer pump to speed filling of the inlet hose

WHEN YOU THINK PUMPS - THINK OHLER!
