Our Mission

To passionately serve the world's first responder and tactical communities by providing high quality, safe, and innovative products with unmatched commitment and service.

How We Do It

-  Prime Vendor for DLA Troop Support
-  Solutions in more than 10 critical warfighting categories
-  DOW provider since WWII
-  Engagement with thousands of DoDAACs worldwide
-  Full spectrum of solutions & support from Special Operational Equipment to C6ISR and more
-  Partnering with trusted brands
-  Expedited procurement via Federal Government Contracts

A Leading Supplier to Warfighters

Experience our depth of perspective and passion on effective execution of mission-critical operations with rapid procurement solutions.

With a full range of solutions directed toward special operational and tactical initiatives, Darley Defense provides high-quality, safe, and innovative products, backed by an unsurpassed commitment to service. Carefully vetted supplier relationships ensure that consistently high levels of quality, innovation, and trust inform every experience with our products and our people.

The Darley Advantage

Rapid Procurement of Equipment & Systems

Darley
Trusted Since 1908

Why Darley Defense?

Darley Defense is a leading provider of innovative solutions for the defense and security sector. We offer a wide range of products and services, from tactical equipment and vehicles, to training and consulting, to cyber and intelligence solutions. We have over 100 years of experience in serving the needs of our customers, and we are constantly developing new technologies and capabilities to meet the evolving challenges of the 21st century.

Don't See What You Need? Just Ask.

We listen. We've added proven products from trusted brands, and innovative new partners. If there's a product or solution that you need and don't see, contact your Darley Defense specialist to assist you.

-  Family Owned & Operated
-  80+ Years in Government Contracting
-  International Standards Org. (ISO) Certified
-  CMMC Level 2 C3PAO Certification
-  50+ Authorized International Dealers
-  3 Locations in the Midwest
(250,000 Sq. Ft. of Manufacturing Space)
-  20+ Offices / Authorizations

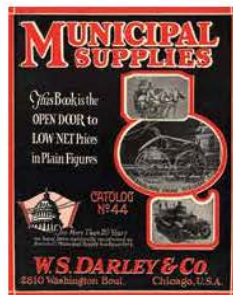

Our Proud History

Darley Defense Timeline

Strong Core Values Drive our Mission

A family-run company that's continuously raised the bar for more than a century, Darley is built upon a steadfast commitment to innovation, reliability, and relationships that add value with every interaction.

The catalog features a complete line of firefighting, police and municipal equipment.

William Stuart Darley, a 31-year old self-educated inventor born in 1877, leaves his job to create a new Chicago catalog company, W.S. Darley, to sell his inventions and other equipment to municipalities.

1908

1915

W.S. hires Peter Yates who develops a Darley pump.

1926

W.S. meets with Henry Ford to become a Ford sales agent and starts taking orders to ship Darley Fire Trucks built on Ford chassis with Barton pumps.

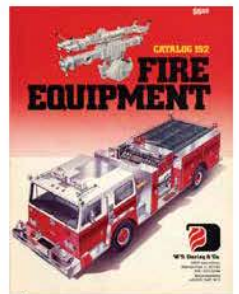

1932

Darley receives the Army/Navy E Award for Supply Chain excellence during WWII.

Fire apparatus sales become the largest segment of Darley's business. Equipment sales also grow and the company's catalogs are in virtually every firehouse in America. Catalogs also reach foreign markets.

1944

1961

Darley awarded the P100 pump contract with their portable pumps on every US Navy ship.

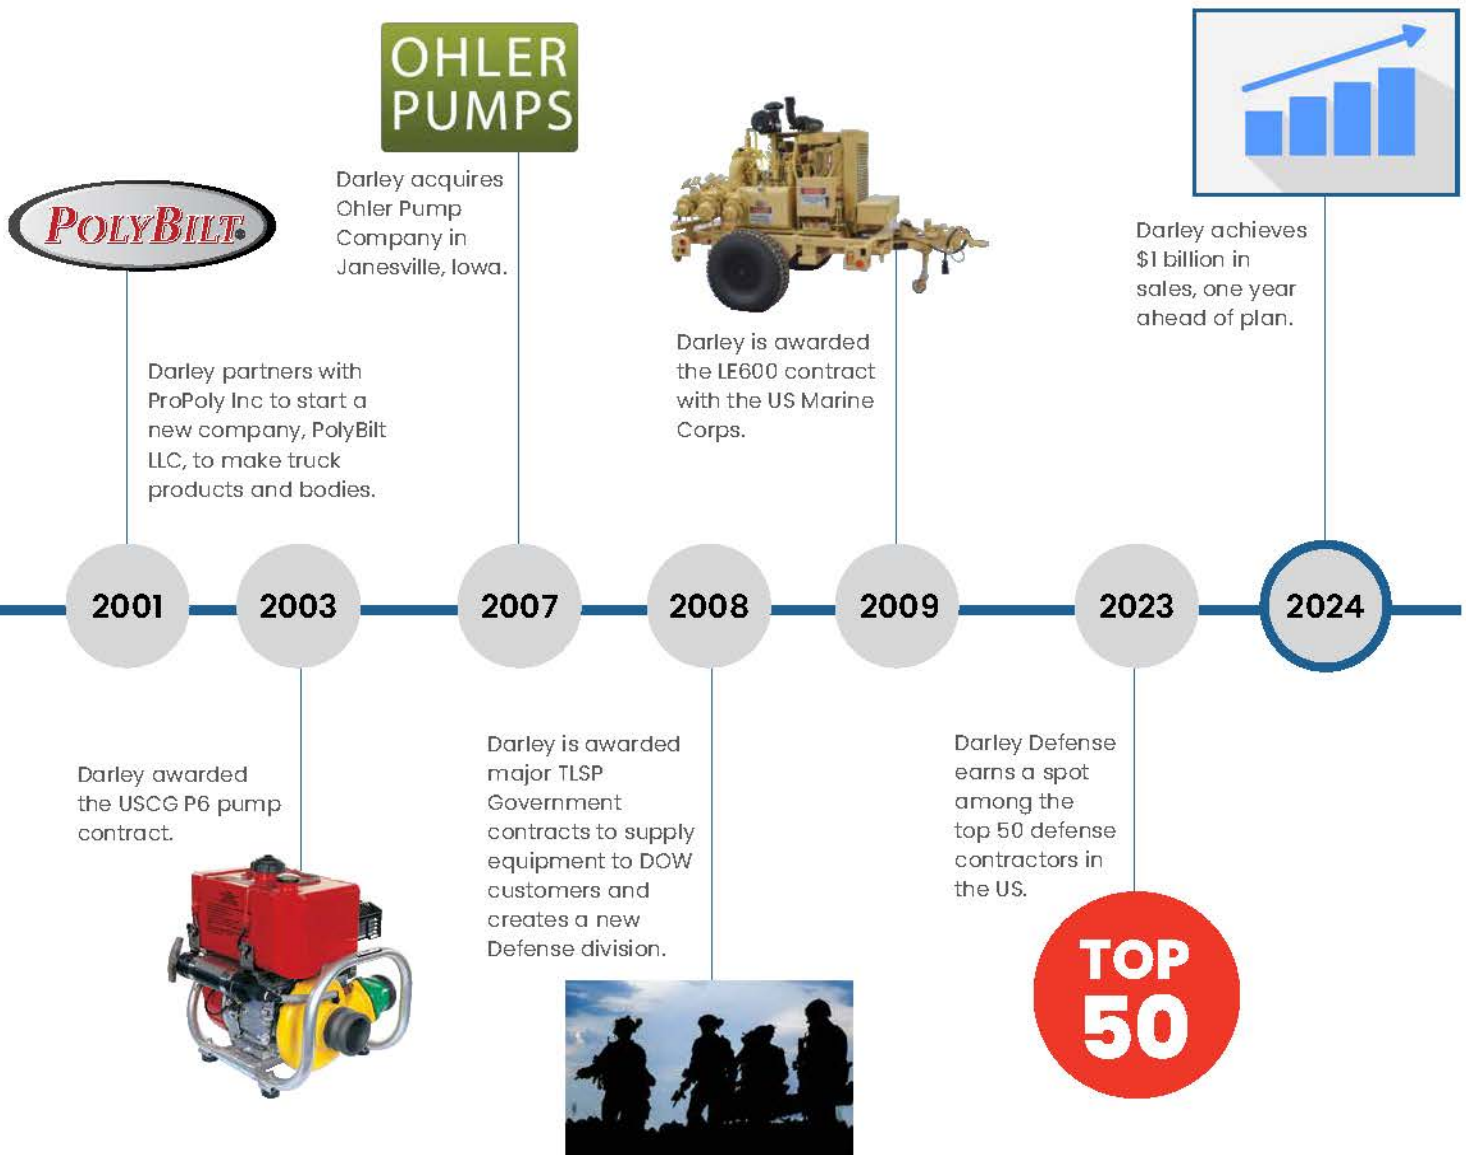

1994

Leading Government Supplier

Top 50th Ranking

Significant Growth & Expansion

Our extensive history of supporting American first responders and warfighters has driven our significant growth and expansion. Recently, we earned a spot among the top 50 defense contractors in the United States by supplying over \$1.1 billion worth of pumps, special operational equipment, and firefighting gear to the U.S. Department of Defense.

Tailored Logistics Support Program

Special Operational Equipment (SOE)

How to Order

- 1 Contact Darley Defense**
Darley is a participating prime contractor for both the Special Operational Equipment (SOE) and Fire & Emergency Services Equipment (F&ESE) DLA TLS Programs. You may contact Darley to request a quote. Darley will coordinate with you to identify part numbers, and provide a quote that outlines logistics, part numbers and pricing
- 2 To Register**
Go to:
<https://www.dla.mil/Troop-Support/Construction-and-Equipment/Spec-Ops-marine-lifesaving/>
- 3 Confirmation**
Contracting Officer will send confirmation that quote was received.
- 4 Price Notification**
Contracting Officer sends Price Acknowledgment Spreadsheet to your FOPOC who will confirm quantities and applicable funding information and submit back to DLA.
- 5 Notification of Pending Award**
Winning prime contractor receives notification from DLA of the pending award, authorizing the contractor to perform.

Fast & Proven Procurement

Managed by DLA Troop Support, TLS Programs facilitate streamlined procurement of mission critical equipment and services via use of 7600B, MILSTRIP, MORDS, and MIPRS (by exception) funding mechanisms.

TLSP Advantages

- Easy and streamlined acquisition process.
- Dedicated customer support.
- Simplified funding – easily allocate existing MILSTRIP requisitions, MIPRS, 7600B funds without needing to negotiate new contracts.
- Competitive pricing – DLA solicits multiple prime contractors for competitive pricing, ensuring customers receive the best value, while all pricing is vetted to be “fair and “reasonable” by DLA.
- Comprehensive Solutions – TLS covers more than just product. The program includes equipment maintenance, installation, training support and expedited delivery if needed.

Tailored Logistics Support Program

Contract Information

Unlike open market solicitations or GSA and NSN scheduled items, TLS allows procurement of commercial equipment that falls within the scope of the applicable TLS program. Using TLS drastically reduces lead times, streamlines funding and provides access to the latest commercial equipment. Reliable prime contractors can provide the brand and model you specifically request.

TLS SOE Scope

Various types of special operational equipment, supplies, and related incidental services may be provided under the contract including but not limited to: survival gear, tactical equipment, protective eyewear and vision enhancing equipment, escalation of force equipment, visit board search and seizure (VBSS), scuba gear, surface diving gear, thermal protection equipment, communication devices, compressors, hazardous material (HAZMAT), air purification devices, hyperbaric instrumentation, lifesaving equipment and other safety items. Incidental services and training relating to the equipment requested shall be considered, however, the Contracting Officer makes the final determination if such services can be supported.

Who is the contracting office?

Defense Logistics Agency Troop Support (DLA), Philadelphia, PA.

TLS SOE Contract Specifics:

-  10 Year IDIQ
-  Berry Amendment, Trade Agreements Act and Buy America Act apply
-  Freight FOB Destination
-  Funds Accepted: MILSTRIP, MIPR (by exception), MORD, 7600B
-  Contract Fee 5.4%
2% for orders over \$5 Million

Enabling Networked Warfighters with Innovative Technologies

Command & Control, Communications, Computers, Cyber-Defense, Combat Systems, Intelligence, Surveillance, Reconnaissance (C6ISR). C6ISR solutions provide a common tactical operating picture to Commanders, collect and disseminate information for decision-making, synthesize operations, and permit the rapid gathering and exploitation of intelligence in any environment.

- Mesh network, architecture & relay
- VJOC & command centers
- Electronic warfare & counter unmanned systems
- Zero trust cyber security
- End to end encryption
- Tech refresh and upgrades
- AI, threat recognition technology
- Software defined radios

Connecting Land, Sea & Air

Darley Defense continues to innovate across the C6ISR market space. We provide the capability to extend any wide band network from land, sea or air. Our suppliers and integration teams will allow you to transmit data or voice longer, further and on the move. The Darley Team is committed to not just providing solutions for the present but also the future. The Darley Team consists of subject matter experts across all C6ISR platforms who focus on bringing industry together in order to drive innovation.

Comprehensive Product Range

Darley Defense provides a large selection of OCIE and PPE items that are intended to improve military personnel's performance and safety. Among our products are:

Operational Clothing

- Tactical uniforms
- Cold weather gear
- Combat boots

Individual Equipment

- Load-bearing equipment (LBE)
- Backpacks and packs
- Shelters and sleeping systems

Personal Protective Equipment

- Ballistic vests and helmets
- Eye and face protection
- Hearing protection

Personalization and Flexibility

Since military activities can differ greatly, Darley Defense can work to ensure providers offer choices for customization on a large number of our products. Because of this adaptability, military units can customize equipment to meet the demands of any given mission.

Dedication to Safety and Quality

Darley Defense is dedicated to upholding the highest standards of safety and quality in each and every one of our products we distribute. Anything we provide meets or surpasses industry standards thanks to our connections with top manufacturers and respect to military criteria.

Tailored Support

Darley Defense is committed and here to help whenever needed, making sure that every user gets the most out of their equipment.

Support, Sustainment, Life and Asset-Saving Skills

We have over 100 years of experience in supporting firefighters and first responders at every level of government. With leading partners and expertise in turnout gear, equipment, technology, pumps and more, Darley is the first call for the military F&ES community.

Access to Rapid Procurement

We have government contracts with several of the leading programs to provide the latest fire and emergency services equipment quickly and ethically.

Industry-Leading Expertise

Darley Defense has assembled a team of experts that are focused on providing the widest selection of fire and emergency services equipment and solutions to support any operation.

As a government entity, Sourcewell provide easy access to competitively awarded contracts through a trusted solicitation process.

Contract #020124-WSD

Complete Selection

Darley Defense focuses on providing high quality, lifesaving products to firefighters today, increasing survivability in the worst conditions and supporting their missions every day. We look for unique ways assist in training applications that increase effectiveness and reduce cost and risk. We partner with the industries leading suppliers and are able to equip firefighters head to toe.

Improving Vision Day or Night

In today's fight, the ability to light up the battlefield through any condition – or obstacle – is paramount. Targeting, spotting, sensing and mapping are just a few of the capabilities that Darley can deliver. We have partnered with the best suppliers of multi-spectrum sensors, lasers, scopes, NVDs, and more to develop a sharper marksman, and an enhanced warfighter.

- Sights & scopes
- Night vision devices
- Binoculars
- Long range optics
- Target acquisition systems
- Short wave IR viewers
- Remote sensing

See Your Mark

It's our job to augment warfighters. Our staff has experience with thousands of weapon systems – we know how to use them and how to make them more effective. We have partnered with suppliers who are tried and true, systems that our staff have experience with, and are leaders in the market space.

Innovative Training Solutions

Virtual Reality and Augmented Reality are viable training tools for the fire service that makes the industry more effective and safer. The reduction in the economic, environmental, and human costs — along with the tangible benefits of VR/AR training — are too significant to ignore.

Simple, Immersive, Practical

Fully immersive VR & AR learning solutions for training in hazardous and emergency situations. From FLAIM Solutions supporting fire training to RiVR's immersive worlds to investigate crimes, VR training brings a hazardous world to life in safe ways to augment training. HazSim's hands-on simulations makes AR/augmented reality work for today's first responders and hazmat workers. SlateSafety brings wearables to the workplace with connected devices that act as an early-warning system for heat strain and overexertion that can be used to prevent injuries.

Train Anytime, Anywhere

With precise tools and software for arms simulation, you get the training you need to be fully prepared when you're in combat. Darley Defense also offers extensive fire training simulation for facilities with highly flammable and mission-critical assets.

Virtual & Constructive Training (LVC)

Your Success is Our Top Priority

With more than 100 years of proven success, we are ready to support any EOD, CBRNE, Firefighting, Maritime, or Diving operation. At the heart of our team lies the desire to create effective capabilities. We pair our own tactical expertise with that of our partners to provide capability-driven solutions based on the small-unit-dominance mission set. Our offerings make the warrior more mobile, more autonomous, and more integrated with the joint force.

A Leading Provider

Darley Defense: A leading provider of innovative training solutions for modern-day warfighters, federal agencies, and local law enforcement.

Specialized Training Facilities:

- State-of-the-art facilities for firearms training and marksmanship
- Realistic urban training environments for tactical operations
- Specialized training areas for subterranean operations
- Advanced target systems for precision training
- Various types of targets for different training needs
- Cutting-edge software to support and enhance training programs
- Integrated systems for tracking and improving performance

Trusted Since 1908

Darley Defense has been leading the industry for over 100 years, continuously providing innovative solutions.

Worldwide Support

Global Reach: Darley Defense offers training solutions and support worldwide, ensuring comprehensive coverage for various training needs.

Mission Success

The goal is to enhance training performance, boost equipment availability, and ensure mission success by providing detailed and adaptable training systems. This includes training needs analysis, global logistics support, live and virtual training, and LVC Integration solutions.

Bold, Next-Level Technology for All Mission Types

Tactical drones have become invaluable assets in modern military operations, providing real-time intelligence, surveillance, and reconnaissance (ISR) capabilities. These unmanned aerial vehicles (UAVs) are equipped with advanced sensors and cameras, allowing them to gather critical data from the battlefield without putting human lives at risk. They can be deployed for a variety of missions, including target acquisition, damage assessment, and communication relay. By offering a bird's-eye view, tactical drones enhance situational awareness, enabling commanders to make informed decisions quickly. Their ability to operate in diverse environments, from urban landscapes to remote terrains, makes them versatile tools in both offensive and defensive strategies.

- Real-time data collection
- Risk reduction
- Versatility
- Stealth and persistence
- Cost-effectiveness

Critical Assets For Your Team

Darley Defense's mission is to passionately serve the world's first responder and tactical communities by providing high-quality, safe and innovative products with unmatched commitment and service. We partner with proven solution companies in the sUAS space. Our commitment is to provide those solutions to warfighters on the edge to enhance tactical situational awareness.
