

Deployable Expeditionary Fuel Handling System (DEFHS-192)

192 GPM Fuel Pump and Filtration System

NEW

Specifications

Connected Assembly

- Dimensions: 48.75" x 50" x 36"
- Weight (dry): 571 lbs.
- Tool-less connection points

Pump Assembly

- Dimensions: 48.75" x 22.75" x 36"
- Weight (dry): 270 lbs.
- 5 - On board fuel tank
- Engine: Hatz 1B50
- Pump: Ohler Model 36
- On-board refueling capabilities
- 4 - Flip up handles for maneuverability
- Recoil start (electric start upgrade available)
- 4 - Sling points
- 4 - Tie down points

Separator Filter Assembly

- Dimensions: 48.75" x 26" x 36"
- Weight (dry): 295 lbs.
- 192 GPM capacity
- 2 - 2" dry lock discharges
- 1 - 3" cam-lock intake
- 4 - Flip up handles for maneuverability
- 4 - Sling points
- 4 - Tie down points

DEFHS-192 Delivers Clean Fuel Where the Mission Demands it.

Combining high-capacity fuel transfer and filtration in a rugged, deployable package, the system enables rapid setup, reliable operation, and reduced logistics burden while protecting equipment from fuel contamination and maximizing mission readiness.
